Undergraduate Course Catalog

2017-2018

Table of Contents

Undergraduate	7	Organizational Management	98
Center for Food and Hospitality Management	7	Real Estate Management and Development	100
Culinary Arts	7	Technology Innovation Management	102
Culinary Arts & Science	12	LeBow College of Business: School of Economics	104
Hospitality Management	16	Business Economics	105
Minor in Food Science	18	Economics	107
Minor in Food Studies	18	International Business	114
Minor in Gaming and Casino Operations	19	International Business Co-Major	117
Center for Sport Management	19	Minor in International Economics	120
Sport Management	19	The Antoinette Westphal College of Media Arts & Design	120
Sport Management (BSSM) / Business Administration (MBA)	22	Animation and Visual Effects	124
College of Computing & Informatics	24	Architecture	127
Computer Science	24	Art History	134
Computer Science	34	Dance	143
Computer Science	36	Dance Studies	146
Computing and Security Technology	37	Design & Merchandising	147
Data Science	45	Entertainment & Arts Management	151
Human Computer Interaction	50	Fashion Design	161
Information Systems	50	Film & Video	165
Information Technology	57	Game Design & Production	170
Minor in Computing Technology	57	Graphic Design	172
Minor in Security Technology	57	Immersive Media	175
Software Engineering	57	Interactive Digital Media	175
Goodwin College of Professional Studies	65	Interior Design	179
Client Development and Customer Service	65	Minor in Digital Media	183
General Studies	65	Minor in Fine Arts	183
LeBow College of Business	66	Minor in Graphic Design	183
Accounting	69	Minor in Interdisciplinary Smart Initiatives	183
Business Analytics	72	Minor in Jazz and African-American Music	184
Business and Engineering	76	Minor in Music	184
Certificate in Brand and Reputation Management	80	Minor in Music Performance	184
Certificate in Social Responsibility in Business	80	Minor in Performing Arts	184
Finance	80	Minor in Retail	185
General Business	84	Minor in Somatics	185
Legal Studies	86	Minor in Sports Media Production	185
Management Information Systems	88	Minor in Sustainability in the Built Environment	186
Marketing	91	Minor in Television Industry and Enterprise	186
Minor in Business Administration	95	Minor in Theatre	187
Operations & Supply Chain Management	95	Minor in TV Production & Media Management	187
		Music Industry	188
		Music Theory and Composition	192
		Photography	192

Product Design	195	Intermediate Japanese Proficiency Certificate	307
Screenwriting	197	Intermediate Korean Proficiency Certificate	307
Screenwriting and Playwriting	198	Intermediate Spanish Proficiency Certificate	307
TV Production & Media Management	202	Mathematics	308
Westphal Studies Program	204	Minor in Africana Studies	314
The Close School of Entrepreneurship	205	Minor in Arabic	314
Entrepreneurship and Innovation	207	Minor in Bioinformatics	315
Minor in Corporate Entrepreneurship	209	Minor in Bioscience and Society	315
Minor in Energy Innovations	209	Minor in Chinese	315
Minor in Health Innovations	210	Minor in Computer Crime	316
Minor in Social Entrepreneurship	210	Minor in Ecology	316
The College of Arts and Sciences	210	Minor in French	316
Accelerated BA in Philosophy and MS in Public Policy	213	Minor in German	316
Accelerated BA in Philosophy and MS in Science, Technology & Society	216	Minor in Human Factors and Ergonomics	316
Accelerated BA in Sociology and MS in Science, Technology & Society	219	Minor in Italian Studies	317
Anthropology	222	Minor in Japanese	317
Biological Sciences	226	Minor in Korean	317
Certificate in Ethical Theory and Practice	236	Minor in Neuroscience	318
Certificate in Interfaith and Religious Studies	237	Minor in Nonprofit Communication	318
Certificate in Medical Humanities	237	Minor in Politics	318
Certificate in Writing and Publishing	238	Minor in Science, Technology and Society	318
Chemistry	240	Minor in Spanish	319
Communication	250	Minor in Women's and Gender Studies	319
Criminology and Justice Studies	260	Minor in Writing	320
Criminology and Justice Studies	263	Philosophy	321
Criminology and Justice Studies	264	Philosophy, Arts, and Humanities Certificate	325
Criminology and Justice Studies	267	Philosophy, Science, and Technology Certificate	326
English	269	Physics	326
Environmental Science	277	Political Science	331
Environmental Studies	281	Psychology	335
Environmental Studies and Sustainability	283	Sociology	339
Geoscience	286	The Louis Stein Minor in Judaic Studies	342
Global Studies	290	The College of Engineering	343
History	298	Architectural Engineering	346
Intermediate Arabic Proficiency Certificate	305	Certificate in Construction Management	352
Intermediate Chinese Proficiency Certificate	306	Chemical Engineering	353
Intermediate French Proficiency Certificate	306	Civil Engineering	357
Intermediate German Proficiency Certificate	306	Computer Engineering	361
Intermediate Hebrew Proficiency Certificate	306	Construction Management	368
Intermediate Italian Proficiency Certificate	307	Electrical Engineering	372
		Engineering	379
		Engineering Policy Analysis Minor	381

Engineering Technology	382	Public Health	458
Engineering Technology	383	The Pennoni Honors College	464
Engineering Technology	385	Custom-Designed Major	465
Engineering Technology	386	The School of Biomedical Engineering, Science and Health Systems	
Engineering Technology	388	466
Engineering Technology	390	Biomaterials and Tissue Engineering Concentration	467
Environmental Engineering	392	Biomechanics and Human Performance Engineering	
Materials Science and Engineering	396	Concentration	469
Mechanical Engineering	402	Biomedical Devices and Imaging Concentration	471
Minor in Engineering Leadership	409	Biomedical Engineering	474
Minor in Engineering Management	409	Biomedical Informatics Concentration	477
Minor in Engineering Product Development	410	Neuroengineering Concentration	479
Minor in Entertainment Engineering	410	The School of Education	481
Minor in Global Engineering	410	BS in Teacher Education	483
Minor in Green Energy and Sustainability	411	Teacher Education: Biology	485
Minor in Nuclear Engineering	411	Teacher Education: Chemistry	489
Minor in Project Management	412	Teacher Education: Earth and Space Science	492
Minor in Real Estate	412	Teacher Education: English	495
Minor in Robotics and Automation	413	Teacher Education: General Science	498
Minor in Systems Engineering	413	Teacher Education: Mathematics	501
Minor in Technology	413	Teacher Education: Physics	505
NAE Grand Challenge Scholars Program	413	Teacher Education: Social Studies	508
Property Management	414	Certificate in Creativity and Innovation	511
Systems Engineering BS/MS	416	Design of Learning Technologies	511
The College of Nursing and Health Professions	418	Elementary Education	514
Accelerated Dual Degree in Nutrition Sciences BS/MS	419	Elementary Education: Middle Level Science and Math	
Behavioral Health Counseling	422	517
Certificate in Medical Billing and Coding	426	Elementary Education: Middle Level Math and English ...	520
Health Sciences	426	Elementary Education: Middle Level Science and English	
Health Services Administration	432	524
Human Lactation	437	Elementary Education: PK-4	527
Minor in Addictions Counseling	438	Elementary Education: PK-4 and Special Education	530
Minor in Psychiatric Rehabilitation	438	Minor in Education	534
Nursing	438	Minor in STEM Education	534
Nursing (BSN) - Accelerated Career Entry (ACE)	442	Sport Coaching Leadership	534
Nursing: Accelerated RN/BSN/MSN	443	The Steinbright Career Development Center	535
Nursing: RN/BSN Completion Program	445	Tuition/Fees	536
Nutrition and Foods	447	Undergraduate	536
The Dornsife School of Public Health	451	Accounting	538
Accelerated Public Health BS/MPH	451	Advertising Design	539
Minor in Global Public Health	457	Africana Studies	540
Minor in Public Health	458	Anatomy	541
		Animation	542

Center for Food and Hospitality Management

Drexel University's Center for Food and Hospitality Management offers programs designed to address the critical scientific and business issues surrounding the food industry. The programs emphasize both academic and career development for an innovative study of the art, science and business of the food.

One of the most distinct qualities of all of our programs is the way we uniquely and individually work to connect each student to their ideal career. Through supportive and connected faculty, co-op opportunities, the most relevant guest lecturers, and partnerships with key regional and national employers, our programs build an industry-relevant resume and a strong network before graduation.

Programs are taught by accomplished faculty with experience in all areas of food and hospitality. Coursework is offered in culinary arts, baking, food science, beverage, gastronomy, food policy, sustainability, food/hospitality marketing, customer service, event planning and more. The programs are intended for students who plan to pursue careers in culinary arts, as research chefs, in recipe development, in food innovation and ideation, for food companies, restaurants, hotels, event planning firms and beyond.

Majors

- Culinary Arts & Science (BSCAS) (p. 12)
- Culinary Arts (BSCA) (p. 7)
- Hospitality Management (BSHM) (p. 16)

Minors

- Culinary Arts (p. 11)
- Food Science (p. 18)
- Food Studies (p. 18)
- Gaming and Casino Operations (p. 19)

Culinary Arts

Major: Culinary Arts

Degree Awarded: Bachelor of Science in Culinary Arts (BSCA)

Calendar Type: Quarter

Total Credit Hours: 184.0

Classification of Instructional Programs (CIP) code: 12.0503

Standard Occupational Classification (SOC) code: 25-1011; 11-9051

About the Program

Note: Effective Fall Term 2015, students are no longer being accepted into this program; however, students may apply to the combined BS in Culinary Arts & Science (p. 12) degree program.

The major in culinary arts prepares students for leadership positions in the fine foods segment of the hospitality industry. This baccalaureate degree in culinary arts is among the first of its kind in the United States. This program comprises approximately equal parts liberal arts, business, hospitality management, and culinary arts. The aim of the program is to prepare students as independent thinkers who can work collaboratively in the field of culinary arts.

Students completing this program also receive a business minor with a choice of one of the following areas:

- Business Administration
- Marketing
- Entrepreneurship

Alternatively, students may meet with their Advisor to select a minor that is more in line with their personal and professional goals.

For more information, visit the Culinary Arts (<http://drexel.edu/hsm/academics/Culinary-Arts-Food-Science>) page on the Center for Hospitality and Sport Management's website (<http://drexel.edu/hsm>).

Program Delivery Options

Drexel's BS degrees include courses in the liberal arts, the humanities, sciences, hospitality management and culinary arts. Three business minors are also offered. The BS degree can be completed on a full-time or part-time basis:

Traditional Four-year option, with one co-op experience:

This option includes one six-month period of full-time employment in the junior year.

Four plus One option BS/MBA combined degree, with co-op experience:

This option combines the four-year BS degree followed by the one-year Professional MBA to qualify freshmen applicants. Incoming freshmen will generally have a minimum of 1300 on the SAT, a GPA of 3.5 or higher, and be in the top 10% of their high school graduating class. For MBA requirements visit the LeBow College Professional MBA (<http://www.lebow.drexel.edu/academics/programs/mba>) website.

Full-time Status Evening option without co-op experience:

To be eligible, students should have a minimum of two years full-time work experience related to students' majors, and a minimum of one year of college level work. Full-time students are eligible for full-time financial aid packages.

Part-time option without co-op experience:

Students work closely with academic advisors to develop a customized plan of study toward degree completion.

London option:

(Available for Hospitality Management and Culinary Arts students.) Students are invited to spend a term in their sophomore, junior or senior year in the Study Abroad Program (<http://www.drexel.edu/studyabroad>), Drexel in London, while earning up to 18.0 credits. The program's emphasis is on the global implications of and opportunities within the hospitality industry.

Degree Requirements

General Education Requirements

ANTH 101	Introduction to Cultural Diversity	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
FDSC 154	Science of Food and Cooking	4.0
MATH 101	Introduction to Analysis I	4.0
NFS 100	Nutrition, Foods, and Health	2.0
NFS 101	Introduction to Nutrition & Food	1.0
UNIV G101	The Drexel Experience	2.0
Arts and Humanities Electives **		9.0
Social Science Elective ***		3.0
Free Electives		15.0-19.0

Program Requirements

FDSC 270	Microbial Food Safety and Sanitation	4.0
HRM 110	Introduction to the Hospitality Industry	3.0
HRM 120	Principles of Food-Service Management	3.0
HRM 150	Food & Beverage Customer Service	3.0
HRM 160	Laws of the Hospitality Industry	3.0
HRM 200	Software for Hospitality Industry	3.0
HRM 215	Commercial Food Production	4.0
HRM 220	Purchasing for the Hospitality Industry	3.0
HRM 225	Equipment Design and Layout	3.0
HRM 310	Hospitality Accounting Systems	3.0
HRM 320	Hospitality Management Information Systems	3.0
HRM 330	Hospitality Marketing and Branding	3.0
HRM 335	Beverage Management	3.0
HRM 350	Cost Controls in Hospitality	3.0
HRM 360	Hospitality Industry Public Relations	3.0
HRM 455	Hospitality Human Resources Management	3.0

Culinary Arts Requirements

CULA 120	Techniques and Traditions I	3.0
CULA 121	Techniques and Traditions II	3.0
CULA 125	Foundations of Professional Baking	3.0
CULA 216	A la Carte	3.0

CULA 220	Patisserie I	2.0
CULA 225	Patisserie II	2.0
CULA 235	Professional Dining Room Management	3.0
CULA 300	Fundamentals of Vegetarian Cuisine	3.0
CULA 305	Fundamentals of Italian Cuisine	3.0
CULA 310	Fundamentals of French Cuisine	3.0
CULA 315	Fundamentals of American Cuisine	3.0
CULA 316	Butchery Laboratory	2.0
CULA 325	Garde Manger Laboratory	3.0
CULA 405 [WI]	Culture and Gastronomy I	3.0
CULA 410	Culture and Gastronomy II	3.0
CULA 415	Food Styling and Photography	3.0
CULA 420	Senior Design Project	3.0
Culinary Arts (CULA) Electives		6.0-9.0
Business Minor Requirements (See Options Below)		24.0
Total Credits		180.0-187.0

- * Students who wish to minor in Business Administration must take MATH 101 *and* MATH 102 *or* MATH 181, MATH 182 and MATH 183. Marketing and Entrepreneurship minors need only take MATH 101.
- ** Students choose three classes from the following subject areas: ARTH, COM, ENGL, FMVD, HIST, HUM, JUDA, LING, MUSC, PHIL, PHTO, PRST, PSCI, THTR, WGST. Students can also select any of the language courses to fulfill Arts and Humanities requirements.
- *** Students may choose from AFAS, ANTH, PSY, and SOC courses.

Business Minor Requirements

Students have the option of satisfying the business minor requirement by completing one of three possible business minors: **General Business Administration, Marketing or Entrepreneurship.**

Business Administration Minor Option

ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
FIN 301	Introduction to Finance	4.0
MKTG 301	Introduction to Marketing Management	4.0
ORGB 300 [WI]	Organizational Behavior	4.0
STAT 201	Introduction to Business Statistics	4.0
Total Credits		24.0

Entrepreneurship Minor Option

ACCT 120	Accounting Essentials for New Ventures	4.0
MGMT 260	Introduction to Entrepreneurship	4.0
MGMT 364	Technology Management	4.0
MGMT 365	Business Plan for Entrepreneurs	4.0
Select two of the following:		8.0
BLAW 346	Entrepreneurial Law	
FIN 301	Introduction to Finance	
FIN 335	Entrepreneurial Finance	
MKTG 347	New Product Development	
MGMT 363	Directed Study in Entrepreneurship	
ORGB 300 [WI]	Organizational Behavior	
Total Credits		24.0

- * Prerequisites must be taken as unrestricted electives.

Marketing Minor Option

MKTG 301	Introduction to Marketing Management	4.0
MKTG 380	Seminar in Marketing Strategy	4.0

Select four of the following:	16.0
MKTG 321 Selling and Sales Management	
MKTG 322 Advertising & Integrated Marketing Communications	
MKTG 324 Marketing Channels and Distribution Systems	
MKTG 326 Marketing Insights	
MKTG 344 Professional Personal Selling	
MKTG 347 New Product Development	
MKTG 348 Services Marketing	
MKTG 351 Marketing for Non-Profit Organizations	
MKTG 353 Business-to-Business Marketing	
MKTG 355 Interactive Marketing	
MKTG 356 Consumer Behavior	
MKTG 357 Global Marketing	
MKTG 358 Transportation and Logistics	
Total Credits	24.0

Sample Plan of Study

BS in Culinary Arts: Minor in Business Administration

(See below for the additional plans illustrating the other Business Minor options)

Term		Credits
Term 1		
CHEM 101	General Chemistry I	3.5
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
HRM 110	Introduction to the Hospitality Industry	3.0
MATH 101	Introduction to Analysis I	4.0
UNIV G101	The Drexel Experience	1.0
	Term Credits	14.5
Term 2		
ANTH 101	Introduction to Cultural Diversity	3.0
CHEM 102	General Chemistry II	4.5
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
MATH 102	Introduction to Analysis II	4.0
UNIV G101	The Drexel Experience	1.0
	Term Credits	15.5
Term 3		
CHEM 103	General Chemistry III	5.0
CULA 120	Techniques and Traditions I	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
FDSC 154	Science of Food and Cooking	4.0
MATH 239	Mathematics for the Life Sciences	4.0
	Term Credits	19.0
Term 4		
BIO 122	Cells and Genetics	4.5
HRM 120	Principles of Food-Service Management	3.0
NFS 215	Nutritional Chemistry	3.0
NFS 217	Nutrient Quality & Composition	1.0
NFS 230	Intermediate Nutrition	4.0
	Term Credits	15.5
Term 5		
CULA 315	Fundamentals of American Cuisine	3.0
FDSC 270	Microbial Food Safety and Sanitation	4.0
HRM 215	Commercial Food Production	4.0
	Culinary Arts (CULA) or HRM (Hospitality Management) elective	3.0
	Term Credits	14.0
Term 6		
BIO 126	Physiology and Ecology	4.5

ECON 201	Principles of Microeconomics	4.0
ORGB 300 [WI]	Organizational Behavior	4.0
Free Elective		3.0
	Term Credits	15.5
Term 7		
COM 230	Techniques of Speaking	3.0
COOP 101	Career Management and Professional Development	0.0
CULA 291	Culinary Arts Practicum II	6.0
ECON 202	Principles of Macroeconomics	4.0
	Culinary Arts (CULA) or HRM (Hospitality Management) elective	3.0
	Term Credits	16.0
Term 8		
CULA 310	Fundamentals of French Cuisine	3.0
FDSC 350	Experimental Foods: Product Development	3.0
FDSC 456	Food Preservation Processes	3.0
PHYS 103	General Physics I	4.0
	Term Credits	13.0
Term 9		
FDSC 460	Food Chemistry	3.0
FDSC 468	Functional Foods	3.0
NFS 365 [WI]	Nutrition Laboratory: Food and Nutrient Analysis	4.0
PHYS 104	General Physics II	4.0
	Term Credits	14.0
Term 10		
CULA 125	Foundations of Professional Baking	3.0

Co-op/Career Opportunities

The hospitality industry employs 15 million people nationwide. According to the National Restaurant Association statistics, employment is growing at the rate of eleven percent each year, making this industry one of the fastest growing in the country. The Hospitality Management program enjoys close relationships with the finest hotels, restaurants and tourism partners in the greater Philadelphia area, as well as interaction with professional organizations that represent the industry on a regional, national and international level. These relationships result in over \$80,000 a year in scholarship funding for our students.

Typical career paths for graduates include the following:

- Restaurants and private clubs, which employ over 9 million people in the US
- Hotels Resorts & Casinos with almost 2.5 million employees
- Airlines, tour operating companies, travel agencies and tourism consulting
- Convention, special events, meeting planning, and tourism agencies
- Cruise lines, the fastest growing segment of the industry
- Retirement and life-care facilities
- Food service and beverage brokers, distributors, and suppliers to the industry

Co-Op Opportunities

Drexel University has long been known for its cooperative education/ internship programs, which allow students to mix periods of full-time, career-related employment with their studies. All traditional Hospitality Management students pursue the 6-month co-op employment. This six-month experience during the junior year is in a supervisory or managerial capacity. The following hotels, facilities, restaurants and clubs have recently offered co-op positions to Drexel's Hospitality Management students. Although many of these examples are located in the Philadelphia area, co-op jobs are not limited to any region.

- Four Seasons Hotel
- Jose Garces - Garces Group
- Mark Vetri - Vetri Family of Restaurants
- Marriott Hotels and Resorts
- Philadelphia Convention and Visitors Bureau
- America's Test Kitchen
- Philadelphia Chamber of Commerce
- Frog Commissary Catering
- Ritz-Carlton Hotel
- Sbraga Restaurant
- Restaurant Business Magazine
- Union League (private club)
- Walt Disney World

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Minor in Culinary Arts

The minor in culinary arts is designed for students pursuing a variety of majors who also have an interest in food and cuisine. The required courses introduce the major cuisines, and develop necessary culinary technical skills and fundamental knowledge of foods and food preparation. Students are able to select elective knowledge courses in various cuisines or can explore more theoretical areas of the field through topics including gastronomy, food history, and food writing.

Required Courses

CULA 115	Culinary Fundamentals	3.0
or CULA 120	Techniques and Traditions I	
CULA 305	Fundamentals of Italian Cuisine	3.0
CULA 310	Fundamentals of French Cuisine	3.0
CULA 315	Fundamentals of American Cuisine	3.0
HRM 215	Commercial Food Production	4.0

Select three of the following:		8.0
CULA 121	Techniques and Traditions II	
CULA 125	Foundations of Professional Baking	
CULA 216	A la Carte	
CULA 220	Patisserie I	
CULA 225	Patisserie II	
CULA 226	Patisserie III	
CULA 240	Fundamentals of Chinese Cuisine	
CULA 306	Advanced Italian Cuisine	
CULA 311	Advanced French Technique	
CULA 320	Advanced Culinary Studio	
CULA 325	Garde Manger Laboratory	
CULA 316	Butchery Laboratory	
CULA 330	Charcuterie	
CULA 335	Fundamentals of Indian Cuisine	
CULA 400	Directed Studies with a Master Chef	
CULA 405 [WI]	Culture and Gastronomy I	
CULA 410	Culture and Gastronomy II	
CULA 415	Food Styling and Photography	
CULA 425	The Kitchen Garden	
CULA 426	The Kitchen Garden: Summer	
CULA 427	The Kitchen Garden: Fall	
HRM 315	Continental, Ethnic, and Regional Cuisine	
HRM 415	Fine Dining and Services	
Total Credits		24.0

Facilities

The major facility of the Hospitality Management, Culinary Arts and Food Science programs is located on the sixth floor of the Academic Building. It is a 6,500 square foot space that includes three state-of-the-art commercial kitchens, bakery and laboratories, as well as the Academic Bistro (<http://drexel.edu/hsm/about/academic-bistro>), the student-run restaurant, bar and lounge. The facility also includes a sensory analysis lab, hospitality and gaming lab, conference room and the Les Dames d'Escoffier Library.

Philadelphia Location

A unique feature of the Hospitality Management program at Drexel is that it is located in Philadelphia, with close proximity to New York City, Baltimore, and Washington, as well as the resort centers on the Atlantic seacoast and in the Pocono Mountains. These regions include hundreds of hotels, restaurants, resorts, and casinos that are used for field trips and campus visits by hospitality resource professionals. Students also gain hands-on experience through faculty-directed field trips throughout the region.

Culinary Arts & Science

Major: Culinary Arts & Science

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 185.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Program (CIP) code: 12.0503

Standard Occupational Classification (SOC) code: 35-2014

About the Program

The major in culinary arts and science allows students to deeply explore cuisine—the practical techniques of cooking, but also its science, history, culture, politics and economics. Students receive a broad overview of cooking and cuisine and specialize in food and beverage management,

which prepares students for leadership positions in the restaurant and food industry.

Students majoring in culinary arts and science are prepared for careers in the food industry such as pastry chef, chef, research chef or product developer.

This baccalaureate degree in culinary arts and science is among the first of its kind in the United States. This program comprises approximately equal parts liberal arts, business, hospitality management, food science, and culinary arts. The aim of the program is to prepare students as independent thinkers who can work collaboratively in the food industry.

For more information, visit the Culinary Arts & Science (<http://drexel.edu/hsm/academics/Culinary-Arts-Food-Science>) page on the Center for Hospitality and Sport Management's website (<http://drexel.edu/hsm>).

Program Delivery Options

Drexel's BS degrees include courses in the liberal arts, the humanities, sciences, hospitality management and culinary arts. Three business minors are also offered. The BS degree can be completed on a full-time or part-time basis:

Traditional Four-year option, with one co-op experience:

This option includes one six-month period of full-time employment in the junior year.

Four plus One option BS/MBA combined degree, with co-op experience:

This option combines the four-year BS degree followed by the one-year Professional MBA to qualify freshmen applicants. Incoming freshmen will generally have a minimum of 1300 on the SAT, a GPA of 3.5 or higher, and be in the top 10% of their high school graduating class. For MBA requirements visit the LeBow College Professional MBA (<http://www.lebow.drexel.edu/academics/graduate/drexel-lebow-mba>) website.

Part-time option without co-op experience:

Students work closely with academic advisors to develop a customized plan of study toward degree completion.

London option:

(Available for Hospitality Management and Culinary Arts and Science students.) Students are invited to spend a term in their sophomore, junior or senior year in the Study Abroad Program (<http://www.drexel.edu/studyabroad>), Drexel in London, while earning up to 18.0 credits. The program's emphasis is on the global implications of and opportunities within the hospitality industry.

Degree Requirements

Food & Beverage Management Concentration

Baking and Pastry Specialization

The Baking and Pastry Specialization provides BS Culinary Arts & Science students interested in pursuing a career in the bakeshop with the skills necessary to move up the ranks of the professional bakery. High-quality, from-scratch baked goods and pastries continue to find prominent places on menus in fine-dining restaurants, coffee shops, cafes, and dedicated bakery retail shops. For those restaurants and shops that have the facility space, many hire skilled bakers to run internal pastry departments. The need to feature fresh-baked goods has led to the opening of more wholesale and commissary bakeries throughout the Northeast and across the country. Graduates who are highly-skilled in baking and patisserie are in demand to serve in restaurant pastry programs and to run these high-volume commercial bakeries.

Required Courses

CULA 125	Foundations of Professional Baking	3.0
CULA 220	Patisserie I	3.0
CULA 225	Patisserie II	3.0
CULA 227	Wheat and Grains: Artisan Breads	3.0
CULA 228	Design, Presentation, and Decorating in Pastry	3.0
CULA 229	Confectionery	3.0
CULA 328	Brasserie Applied Baking	3.0
Total Credits		21.0

Co-op/Career Opportunities

The hospitality industry employs 15 million people nationwide. According to the National Restaurant Association statistics, employment is growing at the rate of eleven percent each year, making this industry one of the

fastest growing in the country. Our Culinary Arts & Science program enjoys close relationships with outstanding and internationally acclaimed chefs, in the finest restaurants, hotels and tourism partners in the greater Philadelphia area. We also have relationships with professional organizations that represent the industry on a regional, national and international level such as Research Chefs Association, Institute of Food Technologists and International Association of Culinary Professionals. These relationships result in over \$80,000 a year in scholarship funding for our students.

Typical career paths for graduates include the following:

- Restaurants and private clubs, which employ over 9 million people in the US
- Hotels Resorts & Casinos with almost 2.5 million employees
- Airlines, tour operating companies, travel agencies and tourism consulting
- Convention, special events, meeting planning, and tourism agencies
- Food Service and beverage brokers, distributors, and suppliers to the industry
- Food waste and sustainability practices and solutions.

Co-Op Opportunities

Drexel University has long been known for its cooperative education/ internship programs, which allow students to mix periods of full-time, career-related employment with their studies. Culinary Arts & Science students pursue the 6-month co-op employment. This six-month experience during the junior year is tailored to fit the interests of each student. The following hotels, facilities, restaurants and clubs have recently offered co-op positions to Drexel's Culinary Arts & Science students. Although many of these examples are located in the Philadelphia area, co-op jobs are not limited to any region.

- Vernick Restaurant
- High Street Hospitality Group
- Jose Garces - Garces Group
- Marc Vetri - Vetri Family of Restaurants
- Kevin Spraga - Sbraga Restaurants
- Philadelphia Convention and Visitors Bureau
- America's Test Kitchen
- Philadelphia Chamber of Commerce
- Frog Commissary Catering at The Franklin Institute
- Walt Disney World Co
- Saxbys

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Facilities

The major facility of the Culinary Arts & Science program is located on the sixth floor of the Academic Building. It is a 6,500 square foot space that includes three state-of-the-art commercial kitchens, bakery and laboratories, as well as the Academic Bistro (<http://drexel.edu/hsm/about/academic-bistro>), the student-run restaurant, bar and lounge. The facility also includes a sensory analysis lab, hospitality and gaming lab, and conference room. As part of the curriculum, students in this major are

required to take food safety and sanitation courses which include lab work at Papadakis Integrated Science Building.

Philadelphia Location

A unique feature of the Culinary Arts & Science program at Drexel is our location in Philadelphia, with proximity to New York City, Boston, Baltimore, and Washington DC, as well as the resort centers on the Atlantic seacoast and in the Pocono Mountains. These regions include hundreds of hotels, restaurants, and resorts, that are used for field trips and campus visits by hospitality resource professionals. Students also gain hands-on experience through faculty-directed field trips throughout the region.

Hospitality Management

Major: Hospitality Management

Degree Awarded: Bachelor of Science in Hospitality Management (BSHM)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: Three Co-op (Five years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.0904

Standard Occupational Classification (SOC) code: 11-9051; 11-9071; 11-9081

About the Program

The hospitality management major at Drexel University prepares students for leadership positions in the lodging, food service, and tourism and gaming industries. It also provides the necessary foundation for graduate school.

The hospitality management program recognizes the critical importance of an interdisciplinary education with a global perspective for tomorrow's leaders and managers. Committed to building student knowledge across functional areas and contributing disciplines, the program allows for increased specialization with elective coursework in the following areas:

- Food and Beverage Management
- Gaming and Resort Management
- Travel and Tourism
- Hotel Administration
- Meeting and Event Planning

Home to one of the top hospitality programs in the region, Drexel prides itself on its reputation for progressive, high-quality education. The thriving metropolis of Philadelphia serves as the learning lab for these unique programs. As the sixth largest city in the United States, Philadelphia is in the midst of a restaurant renaissance featuring world-class cuisine and entertainment. Student-focused faculty members are recognized for their professional affiliations, research, published work, and above all, teaching.

Students also receive a business administration minor and have 24.0 credits of free elective to pursue a second minor option.

For more information, visit the Hospitality Management Program's (<http://www.drexel.edu/hsm>) website.

Program Delivery Options

Drexel's BS in Hospitality Management degree includes courses in the liberal arts, the humanities, language, sciences, hospitality management

and culinary arts. A business administration minor is also included. The BS degree can be completed on a full-time or part-time basis:

Four plus One option BS/MBA combined degree, with co-op experience:

This option combines the four-year BS degree followed by the one-year Professional MBA to qualify freshmen applicants. Incoming freshmen will generally have a minimum of 1300 on the SAT, a GPA of 3.5 or higher, and be in the top 10% of their high school graduating class. For MBA requirements visit the LeBow College Professional MBA (<http://www.lebow.drexel.edu/academics/graduate/drexel-lebow-mba>) website.

Five-year option, with three co-op experiences:

This option allows students to pursue a variety of professional experiences in the industry including the option to co-op abroad.

Full-time Status Evening option without co-op experience:

To be eligible, students should have a minimum of two years full-time work experience related to students' majors, and a minimum of one year of college level work. Full-time students are eligible for full-time financial aid packages.

Part-time option without co-op experience:

Students work closely with academic advisors to develop a customized plan of study toward degree completion.

American University in Rome:

Every three years, the Drexel hospitality management faculty participate in a study and teach abroad experience. Students are invited to spend the fall semester abroad in Rome, Italy and earn 18.0 credits. Students take two Hospitality related courses taught by a Drexel professor and two additional courses at AUR of their choosing. All course instruction is in English, but a term of Italian 101 is a pre-requisite for the experience. More information can be found on the Study Abroad website.

London option:

Students are invited to spend a term in their sophomore, junior or senior year in the Study Abroad Program (<http://www.drexel.edu/studyabroad>), Drexel in London, while earning up to 18.0 credits. The program's emphasis is on the global implications of and opportunities within the hospitality industry.

Facilities

The major facility of the Hospitality Management, Culinary Arts and Food Science programs is located on the sixth floor of the Academic Building. It is a 6,500 square foot space that includes three state-of-the-art commercial kitchens, bakery and laboratories, as well as the Academic Bistro (<http://www.drexel.edu/hsm/about/academic-bistro>), the student-run restaurant, bar and lounge. The facility also includes a sensory analysis lab, hospitality and gaming lab, conference room and the Les Dames d'Escoffier Library.

Philadelphia Location

A unique feature of the Hospitality Management program at Drexel is that it is located in Philadelphia, with close proximity to New York City, Baltimore, and Washington, as well as the resort centers on the Atlantic seacoast and in the Pocono Mountains. These regions include hundreds of hotels, restaurants, resorts, and casinos that are used for field trips and campus visits by hospitality resource professionals. Students also gain hands-on experience through faculty-directed field trips throughout the region.

Hospitality Management Faculty

Linda Forristal, PhD (*Purdue University*). Associate Teaching Professor. Destination management, marketing, branding, communications, cultural heritage tourism including foodways, indigenous tourism.

Michael Traud, JD (*Villanova University*) Program Director, *Hospitality and Tourism Management*. Assistant Clinical Professor. Implementation of Korean Cuisine in the United States; hospitality law; Italian cuisine.

Minor in Food Science

About the Minor

The minor in food science is designed for students interested in applying the basic sciences to the world's largest industry. The minor should be especially attractive to students in chemistry, chemical engineering, nutrition, and biological sciences, as it provides a background for excellent employment and post-baccalaureate study opportunities in areas closely allied to their basic disciplines.

The minor consists of 25.0 credits. Interested students should consult with a culinary science faculty member to schedule courses appropriate for their background and goals.

Program Requirements

Total Credits		25.0

Minor in Food Studies

About the Program

Food is central to our existence and is touched upon in a variety of disciplines at the university. This minor seeks to capture and help students navigate the breadth of course offerings that touch upon food systems. Because food systems can be studied through many different lenses, students can adapt this food studies minor to their program of study. For example, students interested in public health policy issues can create a minor of hands-on community-based culinary classes, public health, and nutrition classes. If a student is interested in food-related research and development, he or she might tailor the minor with business- or entrepreneurship-centered classes and practical experience in the Drexel Food Lab.

Program Requirements

Minor in Gaming and Casino Operations

About the Program

The minor in gaming and casino operations provides individuals interested in careers in the casino resort industries with an in depth understanding of the unique aspects of casino and resort operations and management.

This minor focuses on the knowledge, skills, and abilities necessary to become a competent manager in a casino resort. The program is designed for people interested in a career in the casino industry or for existing casino employees looking to advance to higher levels of management.

Center for Sport Management

Drexel University's Center for Sport Management offers programs in sport management emphasizing both academic and career development, for an innovative study of the business of sport.

Sport management courses are taught by accomplished faculty with collective experience in all areas of sport business. Coursework is offered in sport marketing, media, economics, finance, law, digital media, facility and event management, sponsorship, and ticket sales. The programs are intended for students who plan to pursue careers in sport-oriented organizations such as professional sports teams, collegiate athletic departments, sport media networks, sport marketing firms, recreational sport organizations, and more.

Sport Management

Major: Sport Management

Degree Awarded: Bachelor of Science in Sport Management (BSSM)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 31.0504

Standard Occupational Classification (SOC) code: 11-1021

About the Program

The Bachelor of Science in Sport Management (<http://drexel.edu/sportmanagement>) program is designed for students who plan to pursue careers in the sport industry. The major draws on the strengths of its own core offerings and a business administration core. Students may also augment their degrees with minors from the University's other schools and departments including business administration, entrepreneurship, communications, and media arts.

Students will master the knowledge and skills necessary for success in professional sports organizations, collegiate athletics, sport media companies, and businesses that service and are complimentary to the sport industry. The co-op option engages students with extensive experiential learning. Our Philadelphia location is optimal for accessing opportunities throughout the Northeast corridor and beyond.

The program offers options covering a wide range of areas of study; students are able to match their skills, abilities, and interests with a specific niche within the sport industry. Students may chose a minor or create their own particular specialization and area of expertise, in consultation with our department's academic advisors and faculty.

Coursework

The sport management major consists of 180.0 credits. All students enrolled in the program are required to take 46.0 credits of general education courses, 40.0 credits of general business, and a sport business core of 42.0 hours. These courses are supplemented by 36.0 hours creating a specialization that may include a minor or concentration, and 16.0 hours of free electives.

Degree Completion Options

The Bachelor of Science degree in sport management can be completed in either four or five years:

Five-year option, with co-op experience

This option allows for the greatest amount of employment experience, with three distinct six-month periods of employment included with studies. After the start of the sophomore year, students study or work through all terms, including summers.

Four-year option, with internship experience

This option includes one six-month period of full-time employment. After the start of the sophomore year, students either study or work through all terms, including summers.

For more information about this major, visit the Center for Sport Management (<http://drexel.edu/sportmanagement>).

Co-op/Career Opportunities

Co-op Opportunities

Drexel University has long been known for its co-operative education programs, through which students combine periods of full-time, career-related employment with their studies. Co-op employment is required for sport management students and is central to their experience.

Within the sport management major, co-operative education gives students experience in a range of sport related jobs and settings. Students may be placed with professional athletic teams, university athletics and recreation programs, or with organizations aligned with sports (e.g., a sports agency). Co-op experiences are available with many of the region's sports, recreation and health organizations, including professional sports teams, college athletic departments, law firms, and sports agencies, sports media networks, non-profit organizations, youth organizations, sports complexes, and others.

Career Opportunities

The multidisciplinary nature of the sport management program allows its graduates to be ready for a wide range of sport-related professions, including athletic management, sports and recreational activities at all levels (professional, semi-professional, collegiate, scholastic, and youth) within a range of organizations (public, private, community, recreation, scholastic, professional, and amateur), and for varying purposes (competitive, fitness, wellness, and rehabilitation).

Sports management graduates are uniquely qualified for leadership, or support positions in professional and amateur sports organizations, in recreation and community centers, in high schools and colleges, and in other sports venues. The program also prepares students for graduate or professional study in a variety of fields including sport management, law, business administration, communication, education, and other fields.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more information on career opportunities.

Minor in Sport Management

The minor in sport business is designed to introduce students to the primary areas of study in the sport industry. Students will be exposed to a variety of perspectives for assessing the sports business.

Program Requirements

SMT 110	The Business of Sport	4.0
SMT 201	Sports Marketing, Promotion, and Public Relations	4.0
SMT 285	Sport, Industry, and Society	4.0
SMT 230	Sports and the Law	4.0
SMT 320	Sport Economics	4.0
Choose a minimum of 4.0 credits from the following		4.0-6.0
SMT 205	Sport Media Relations	
SMT 270	Sports Facility Planning & Management	
SMT 275	Sports Event Management	
SMT 290	Digital Media in Sport	
SMT 335	Sport Governance & Policy	
SMT 340 [WI]	International Aspects of Sport	
SMT 380	Sports Analytics	
Total Credits		24.0-26.0

Sport Management Faculty

Lawrence Cohen, JD (*Temple University*). Assistant Teaching Professor. Sports and antitrust law; tickets sales data analytics; sport sponsorship trends.

Jeffrey Levine, JD (*Tulane University, ABD Louisville*). Assistant Clinical Professor. Expertise in sport, law and policy.

Joel Maxcy, PhD (*Washington State University*) Director. Professor. Economics of sport; labor economics & policy; economics of antitrust & regulation.

Ellen Staurowsky, EdD (*Temple University*) Program Director, *Athletic Administration Concentration*. Professor. Social justice issues in sport; gender equity in sport; Title IX pay equity and equal employment opportunity; athlete exploitation; college sport reform; and misappropriation of American Indian imagery in sport.

Karen Weaver, EdD (*University of Pennsylvania*). Associate Clinical Professor. Sport marketing & promotions, public relations, media, and leadership in sport.

Sport Management (BSSM) / Business Administration (MBA)

Major: Sport Management / Business Administration

Degree Awarded: Bachelor of Science (BSSM) & Master of Business Administration (MBA)

Calendar Type: Quarter

Total Credit Hours: 229.0

Co-op Option: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 31.0504

Standard Occupational Classification (SOC) code: 11-1021

Drexel's BS Sport Management/MBA accelerated degree program offers select candidates an opportunity to earn a Bachelor of Science in Sport Management and an MBA degree, in just 5 years. The result is a powerful, nationally recognized credential from one of the country's most established providers of higher education.

At the completion of their undergraduate degree, students begin MBA coursework in Drexel's LeBow College of Business and acquire graduate level skills including strategic management, managerial finance, international business, entrepreneurship, leadership and ethics.

Students who are admitted into the MBA program are required to take 51 credits, which includes coursework in a focused concentration. Students are required to meet with their graduate advisor to determine a plan of study prior to beginning the MBA portion of their education. The MBA coursework begins during the summer quarter immediately after graduation.

Degree Requirements

General Education Requirements

ANTH 101	Introduction to Cultural Diversity	3.0
CIVC 101	Introduction to Civic Engagement	1.0
COM 230	Techniques of Speaking	3.0
COM 270 [WI]	Business Communication	3.0
or COM 310	Technical Communication	
COOP 101	Career Management and Professional Development	0.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 101	Introduction to Analysis I	4.0
or MATH 121	Calculus I	
MATH 102	Introduction to Analysis II	4.0
or MATH 122	Calculus II	
PHIL 301	Business Ethics	3.0
or PHIL 325	Ethics in Sports Management	
UNIV SH101	The Drexel Experience	1.0
Select a minimum of 6.0 credits from ANAT, BIO, CHEM, ENGS, ENSS, GEO, NFS, PHEV, or PHYS		6.0
Select a minimum of 9.0 credits from AFAS, ANTH, CJS, ENGL, HIST, HUM, PHIL, PSY, SOC, WGST, WRIT, or any language course		9.0

General Business Requirements

ACCT 110	Accounting for Professionals	4.0
BLAW 201	Business Law I	4.0
BUSN 111	Foundations for Business	4.0

ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
FIN 301	Introduction to Finance	4.0
INTB 200	International Business	4.0
or MIS 200	Management Information Systems	
MKTG 201	Introduction to Marketing Management	4.0
ORGB 300 [WI]	Organizational Behavior	4.0
STAT 201	Introduction to Business Statistics	4.0

Sport Business Core

SMT 110	The Business of Sport	4.0
SMT 152	Leadership in Sports & Society	3.0
SMT 201	Sports Marketing, Promotion, and Public Relations	4.0
SMT 205	Sport Media Relations	4.0
SMT 230	Sports and the Law	4.0
SMT 270	Sports Facility Planning & Management	3.0
SMT 275	Sports Event Management	3.0
SMT 285	Sport, Industry, and Society	4.0
SMT 290	Digital Media in Sport	4.0
SMT 320	Sport Economics	4.0
SMT 362	Sport Ticket Sales	3.0
SMT 401	Professional Portfolio	3.0

Minor Option: Select a minor from a related program or create a specialization with 24.0 credits of program electives. *

Program Electives: Select three or four SMT courses 12.0

SMT 227	Sport Entrepreneurship	
SMT 240	Olympic Games	
SMT 245	NCAA Compliance	
SMT 250 [WI]	Technology and Sport	
SMT 255	Legal Foundations of Title IX	
SMT 260	Sports Agents & Labor Relations	
SMT 262	Digital Sports Storytelling	
SMT 300	Quantitative Analysis and Statistics for Sports	
SMT 305	Fundraising in Sports	
SMT 307	Corporate Sponsorship in Sports	
SMT 335	Sport Governance & Policy	
SMT 340 [WI]	International Aspects of Sport	
SMT 347	Sport Tourism	
SMT 360	Sport Ticket Operations	
SMT 375	Sport Finance	
SMT 380	Sports Analytics	
SMT 382	Decision Making in Sport Business	
SMT 475	Sports Industry Practicum	

Free electives 16.0

Total Credits 181.0

* Recommended Minors: Business Analytics, Legal Studies, Economics, Finance, International Economics, Marketing, Entrepreneurship, Sport Media Production.

MBA Required Courses

ACCT 510	Essentials of Financial Reporting	2.0
BLAW 510	Analyzing Legal Options in Decision-Making	1.0
ECON 601	Managerial Economics	3.0

College of Computing & Informatics

From our position on the leading edge of information and technology, Drexel University's College of Computing & Informatics (CCI) instills the knowledge and skills necessary for our students to lead and innovate across industries in a rapidly evolving technological landscape.

Building on Drexel University's exceptional foundation of entrepreneurship and cooperative education, we provide unparalleled professional experiences and the on-the-job training that is vital to preparing today's students for tomorrow's world. At CCI, our unique structure bringing computing and informatics together under one roof in a dynamic, collaborative college allows us to spot trends before they emerge, to solve problems before they occur, and to build a better tomorrow, starting today.

The College contributes to theory and practice along dimensions that include technical, human, organizational, policy and societal considerations. This broad perspective positions the College to address the complex, multi-disciplinary problems that are increasingly common as society becomes more dependent on information technology.

The academic programs of the College provide broad and deep coverage of computing & informatics. For more information about the College, please visit the College's website (<http://www.drexel.edu/cci>).

Majors

- Computer Science (BACS, BSCS) (p. 24)
 - Computer Security Concentration (p. 34)
 - Game Programming and Development Concentration (p. 36)
- Computing and Security Technology (BSCST) (p. 37)
- Data Science (BSDS) (p. 45)
- Information Systems (BSIS) (p. 50)
- Software Engineering (BSSE) (p. 57)

Minors

- Computer Science (p. 29)
- Data Science (p. 46)
- **NEW:** Human Computer Interaction
- Information Systems (p. 52)
- Security Technology (p. 57)
- Software Engineering (p. 60)

About the College

The College of Computing & Informatics (<http://www.drexel.edu/cci>) (CCI) offers a number of undergraduate degrees in computer science, computing & security technology, data science, information systems, and software engineering. The degree programs are open to freshmen and transfers from other departments at Drexel and other universities. Students have access to the computing facilities available to all Drexel students.

The College educates professionals through its interdisciplinary programs to meet a wide range of needs in the computing and informatics fields to benefit all sectors of society.

Transfer admission for traditional undergraduate programs occurs in the fall term only due to the sequence of required courses. Internal transfer students can be admitted at any term. Admission to the BS

online completion program in computing & security technology is offered on a rolling basis. Please contact an undergraduate advisor (<http://cci.drexel.edu/resources/current-students/undergraduate/advising.aspx>) for more information.

Cooperative Education

Cooperative education emphasizes career management through experiential learning as an integral part of the education process. The co-op is based on employment in practical, major-related positions consistent with the interests, abilities, and aptitudes of the students.

For more general information on Drexel University's co-op opportunities, visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>).

Computer Science

Major: Computer Science

Degree Awarded: Bachelor of Science in Computer Science (BSCS) or Bachelor of Arts in Computer Science (BACS)

Calendar Type: Quarter

Total Credit Hours: 186.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 11.0701

Standard Occupational Classification (SOC) code: 11-3021; 15-1111; 15-1131; 15-1132; 11-1199

About the Program

The College of Computing & Informatics' Bachelor of Science/Arts in Computer Science offers extensive exposure and hands-on practice in the core areas of the field, including programming paradigms and languages, algorithms, systems, networking, and software engineering. Students also select upper level tracks in areas such as artificial intelligence, security, graphics and vision, and human-computer interaction. The program's flexibility allows students to easily sample from areas in which they would like to apply their computing knowledge. This hands-on curriculum combined with co-op provides real-world experience that culminates in a full-year software project.

The programs of study in computer science are designed with the flexibility to prepare students for careers in a rapidly changing profession and to allow strong preparation for graduate education in the field. In addition to the courses in the major, the Bachelor of Science program emphasizes foundation courses in the sciences and in applied mathematics, leading to careers involving applications in science and engineering. The Bachelor of Arts degree emphasizes foundation courses in the humanities and the social sciences, leading to careers involving applications in those areas.

Core courses in all programs include programming and data structures, programming language concepts, computer systems architecture, and software methodology and engineering. Students also choose two other tracks from a list of possible specializations. Please contact your advisor (<http://cci.drexel.edu/resources/current-students/undergraduate/advising.aspx>) at the College of Computing & Informatics for a current list of computer science track and elective courses.

Concentrations

- Computer Security (p. 34)
- Game Programming and Development (p. 36)

Additional Information

For more information about this program, please visit the BS/BA in Computer Science web page (<http://drexel.edu/cci/programs/undergraduate-programs/bsba-computer-science>) on the College of Computing & Informatics' website.

Degree Requirements (BS)

The Bachelor of Science (BS) in Computer Science program emphasizes foundation courses in the sciences and in applied mathematics, leading to careers involving applications in science and engineering.

Computer Science Requirements

CS 164	Introduction to Computer Science	3.0
CS 171	Computer Programming I	3.0
or CS 175	Advanced Computer Programming I	
CS 172	Computer Programming II	3.0
or CS 176	Advanced Computer Programming II	
CS 260	Data Structures	3.0
CS 265	Advanced Programming Tools and Techniques	3.0
CS 270	Mathematical Foundations of Computer Science	3.0
CS 275	Web and Mobile App Development	3.0
CS 281	Systems Architecture	4.0
CS 283	Systems Programming	3.0
CS 350 [WI]	Software Design	3.0
CS 360	Programming Language Concepts	3.0
CS 451	Software Engineering	3.0
Computer Science track courses (see below)		18.0
Computer Science electives (see below)		6.0

Computing & Informatics Requirements

CI 101	Computing and Informatics Design I	2.0
CI 102	Computing and Informatics Design II	2.0
CI 103	Computing and Informatics Design III	2.0
CI 491 [WI]	Senior Project I	3.0
CI 492 [WI]	Senior Project II	3.0
CI 493 [WI]	Senior Project III	3.0

Mathematics Requirements

MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 123	Calculus III	4.0
MATH 201	Linear Algebra	4.0
MATH 221	Discrete Mathematics	3.0
MATH 311	Probability and Statistics I	4.0
or MATH 410	Scientific Data Analysis I	
Mathematics elective (see below)		4.0

Science Requirements

Select one of the following lab science sequences:		
BIO 122	Cells and Genetics	
& BIO 124	and Evolution & Organismal Diversity	
& BIO 126	and Physiology and Ecology	
Or		
CHEM 101	General Chemistry I	
& CHEM 102	and General Chemistry II	
& CHEM 103	and General Chemistry III	
Or		
PHYS 101	Fundamentals of Physics I	
& PHYS 102	and Fundamentals of Physics II	
& PHYS 201	and Fundamentals of Physics III	

Science electives (see below)

Arts & Humanities Requirements

COM 230	Techniques of Speaking	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0

ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PHIL 311	Ethics and Information Technology	3.0
Writing & Communication electives (see below)		6.0
Arts & Humanities, Business, or Social Studies electives (see below) *		24.0

University Requirements

UNIV CI101	The Drexel Experience	2.0
or CI 120	CCI Transfer Student Seminar	
CIVC 101	Introduction to Civic Engagement	1.0
COOP 101	Career Management and Professional Development	0.0
Free electives		10.5-15.5
Total Credits		186.5-191.5

* At least 3.0 credit must be taken from a Business category course (see below) and at least 3.0 credits must be from a Social Studies category course (see below)

Program Electives

- **Computer Science electives:** any CS course numbered 300 or higher
- **Mathematics electives:** MATH 200, MATH 210, any MATH course numbered 300 or higher
- **Science electives:** any CHEM (except CHEM 111, CHEM 112, CHEM 113, CHEM 114, CHEM 151), BIO (except BIO 161, BIO 162, BIO 163; can take only one of BIO 100, BIO 107, BIO 122; can take only one of BIO 101, BIO 109, BIO 124), PHYS (except PHYS 050, PHYS 100, PHYS 103, PHYS 104, PHYS 105, PHYS 106 [WI], PHYS 121, PHYS 122, PHYS 151, PHYS 160, PHYS 305, PHYS 324, PHYS 405; cannot take both PHYS 131 & PHYS 181), ENVS, ENSS
- **Writing & Communications electives:** any WRIT, COM, ENGL courses officially certified as Writing Intensive (http://drexel.edu/engphil/about/DrexelWritingCenter/wiCourses/course_list) (WI), and SCRP 270 [WI]
- **Business electives:** any ACCT, BLAW, BUSN, ECON, ENTP, FIN, HRMT, INTB, MGMT, MIS, MKTG, OPM, OPR, ORGB, STAT, TAX
- **Social Studies electives:** any AFAS, ANTH, GST, HIST, JUDA, PSCI, PSY (except PSY 332, PSY 337), SOC (except SOC 364, SOC 365), WGST
- **Arts & Humanities electives:** any ARCH, ARTH, CMGT, CJS, COM, CULA, DANC, EDEX, EDUC, ENGL (except ENGL 101, ENGL 102, ENGL 103, ENGL 105), ESTM, FASH, FMVD, INTR, LING, MUSC, PHIL, PHTO, THTR, VSCM, VSST, WRIT, Foreign Language courses (<http://www.drexel.edu/culturecomm/academics/undergraduate/modernlang/languages>) as defined by the College of Arts and Sciences, and GMAP 260, ANIM 140, ANIM 141, ANIM 152, ANIM 211, ANIM 212

Computer Science Tracks

Students must complete two of the following Computer Science tracks for a total of 18.0 credits. The tracks may overlap by one course. Students should check with the College for any additional Special Topics courses being offered that may be appropriate for one of the tracks.

Algorithms and Data Structures

CS 440	Theory of Computation	3.0
CS 457	Data Structures and Algorithms I	3.0
CS 458	Data Structures and Algorithms II	3.0

Artificial Intelligence

CS 380	Artificial Intelligence	3.0
Select two of the following:		6.0
CS 383	Machine Learning	
CS 385	Evolutionary Computing	
CS 387	Game AI Development	
CS 481	Advanced Artificial Intelligence	
Computer and Network Security		
CS 472	Computer Networks: Theory, Applications and Programming	3.0
CS 475	Computer and Network Security	3.0
CS 303	Algorithmic Number Theory and Cryptography	3.0
or CS 377	Software Security	
Computer Architecture		
CS 352	Processor Architecture & Analysis	3.0
Select two of the following:		6.0
CS 476	High Performance Computing	
ECEC 356	Embedded Systems	
ECEC 413	Introduction to Parallel Computer Architecture	
Computer Graphics and Vision		
CS 430	Computer Graphics	3.0
CS 435	Computational Photography	3.0
CS 431	Advanced Rendering Techniques	3.0
or CS 432	Interactive Computer Graphics	
Computing Systems		
CS 361	Concurrent Programming	3.0
CS 370	Operating Systems	3.0
Select one of the following:		3.0
CS 352	Processor Architecture & Analysis	
CS 365	System Administration	
CS 441	Compiler Workshop I	
CS 461	Database Systems	
CS 472	Computer Networks: Theory, Applications and Programming	
Game Development and Design		
CS 345	Computer Game Design and Development	3.0
Select two of the following:		6.0
CS 347	Experimental Game Development	
CS 348	Serious Game Development	
CS 387	Game AI Development	
CS 445	Topics in Computer Gaming	
GMAP 377	Game Development: Workshop I	
GMAP 378	Game Development: Workshop II	
Human-Computer Interaction		
CS 338	Graphical User Interfaces	3.0
INFO 310	Human-Centered Design Process & Methods	3.0
or PSY 337	Human-Computer Interaction	
Select one of the following:		3.0
CS 345	Computer Game Design and Development	
CS 432	Interactive Computer Graphics	
GMAP 345	Game Development Foundations	
Numeric and Symbolic Computation		
CS 300	Applied Symbolic Computation	3.0
MATH 300	Numerical Analysis I	4.0
Select one of the following:		3.0-4.0
CS 303	Algorithmic Number Theory and Cryptography	
MATH 301	Numerical Analysis II	
MATH 305	Introduction to Optimization Theory	
Programming Languages		
CS 440	Theory of Computation	3.0
CS 441	Compiler Workshop I	3.0
CS 442	Compiler Workshop II	3.0
Software Engineering		
SE 311	Software Architecture II	3.0

SE 320	Software Verification and Validation	3.0
SE 410	Software Evolution	3.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Degree Requirements (BA)

The Bachelor of Arts (BA) program emphasizes foundation courses in the humanities and the social sciences, leading to careers involving applications in those areas.

Computer Science Requirements

CS 164	Introduction to Computer Science	3.0
CS 171	Computer Programming I	3.0
or CS 175	Advanced Computer Programming I	
CS 172	Computer Programming II	3.0
or CS 176	Advanced Computer Programming II	
CS 260	Data Structures	3.0
CS 265	Advanced Programming Tools and Techniques	3.0
CS 270	Mathematical Foundations of Computer Science	3.0
CS 275	Web and Mobile App Development	3.0
CS 281	Systems Architecture	4.0

CIVC 101	Introduction to Civic Engagement	1.0
COOP 101	Career Management and Professional Development	0.0
Free electives*		18.5-20.5
Total Credits		186.5-189.5

* Additional Free Electives may be required dependent upon the math courses selected.

Program Electives

- **Computer Science electives:** any CS course numbered 300 or higher
- **Mathematics electives:** MATH 200, MATH 210, any MATH course numbered 300 or higher
- **Science electives:** any CHEM (except CHEM 111, CHEM 112, CHEM 113, CHEM 114, CHEM 151), BIO (except BIO 161, BIO 162, BIO 163; can take only one of BIO 100, BIO 107, BIO 122; can take only one of BIO 101, BIO 109, BIO 124), PHYS (except PHYS 050, PHYS 100, PHYS 103, PHYS 104, PHYS 105, PHYS 106 [WI], PHYS 121, PHYS 122, PHYS 151, PHYS 160, PHYS 305, PHYS 324, PHYS 405; cannot take both PHYS 131 & PHYS 181); ENVS, ENSS, PHEV
- **Social Studies electives:** any AFAS, ANTH, GST, HIST, JUDA, PSCI, PSY (except PSY 332, PSY 337), SOC (except SOC 364, SOC 365), WGST
- **International electives:** any GST, MUSC 331, PSCI 150, PSCI 255, PSCI 345, PSCI 357
- **Diversity Studies electives:** any AFAS, WGST
- **Arts & Humanities electives:** any ARCH, ARTH, CMGT, CJS, COM, CULA, DANC, EDEX, EDUC, ENGL (except ENGL 101, ENGL 102, ENGL 103, ENGL 105), ESTM, FASH, FMVD, INTR, LING, MUSC, PHIL, PHTO, THTR, VSCM, VSST, WRIT, Foreign Language courses (<http://www.drexel.edu/culturecomm/academics/undergraduate/modernlang/languages>) as defined by the College of

Arts and Sciences, and GMAP 260, ANIM 140, ANIM 141, ANIM 152, ANIM 211, ANIM 212

Computer Science Tracks

Students must complete two of the following Computer Science tracks for a total of 18.0 credits. The tracks may overlap by one course. Students should check with the College for any additional Special Topics courses being offered that may be appropriate for one of the tracks.

Algorithms and Data Structures

CS 440	Theory of Computation	3.0
CS 457	Data Structures and Algorithms I	3.0
CS 458	Data Structures and Algorithms II	3.0

Artificial Intelligence

CS 380	Artificial Intelligence	3.0
Select two of the following:		6.0
CS 383	Machine Learning	
CS 385	Evolutionary Computing	
CS 387	Game AI Development	
CS 481	Advanced Artificial Intelligence	

Computer and Network Security

CS 472	Computer Networks: Theory, Applications and Programming	3.0
CS 475	Computer and Network Security	3.0
Select one of the following:		3.0
CS 303	Algorithmic Number Theory and Cryptography	
CS 377	Software Security	

Computer Architecture

CS 352	Processor Architecture & Analysis	3.0
Select two of the following:		6.0
CS 476	High Performance Computing	
ECEC 356	Embedded Systems	
ECEC 413	Introduction to Parallel Computer Architecture	

Computer Graphics and Vision

CS 430	Computer Graphics	3.0
CS 435	Computational Photography	3.0
Select one of the following:		3.0
CS 431	Advanced Rendering Techniques	
CS 432	Interactive Computer Graphics	

Computing Systems

CS 361	Concurrent Programming	3.0
CS 370	Operating Systems	3.0
Select one of the following:		3.0
CS 352	Processor Architecture & Analysis	
CS 365	System Administration	
CS 441	Compiler Workshop I	
CS 461	Database Systems	
CS 472	Computer Networks: Theory, Applications and Programming	

Game Development and Design

CS 345	Computer Game Design and Development	3.0
Select two of the following:		6.0
CS 347	Experimental Game Development	
CS 348	Serious Game Development	
CS 387	Game AI Development	
CS 445	Topics in Computer Gaming	
GMAP 377	Game Development: Workshop I	
GMAP 378	Game Development: Workshop II	

Human-Computer Interaction

CS 338	Graphical User Interfaces	3.0
Select one of the following:		3.0
INFO 310	Human-Centered Design Process & Methods	
PSY 337	Human-Computer Interaction	
Select one of the following:		3.0

CS 345	Computer Game Design and Development	
CS 432	Interactive Computer Graphics	
Numeric and Symbolic Computation		
CS 300	Applied Symbolic Computation	3.0
MATH 300	Numerical Analysis I	4.0
Select one of the following:		3.0-4.0
CS 303	Algorithmic Number Theory and Cryptography	
MATH 301	Numerical Analysis II	
MATH 305	Introduction to Optimization Theory	
Programming Languages		
CS 440	Theory of Computation	3.0
CS 441	Compiler Workshop I	3.0
CS 442	Compiler Workshop II	3.0
Software Engineering		
SE 311	Software Architecture II	3.0
SE 320	Software Verification and Validation	3.0
SE 410	Software Evolution	3.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Minor in Computer Science

The computer science minor provides students with a breadth of knowledge in areas that form the foundation of computer science. The student adds some depth by selecting courses from a list of advanced computer science courses.

The Computer Science minor is available to all University students in good standing, with the exception of Computer Science majors.

Prerequisites

One of the following Mathematics sequences must be completed before entering the program:

- MATH 101 and MATH 102
- MATH 121 and MATH 122

Requirements

CS 171	Computer Programming I	3.0
or CS 175	Advanced Computer Programming I	
CS 172	Computer Programming II	3.0
or CS 176	Advanced Computer Programming II	
CS 260	Data Structures	3.0
CS 265	Advanced Programming Tools and Techniques	3.0
Additional CS courses numbered 200 or higher.		12.0
Total Credits		24.0

Note: No more than 9.0 credits from a student's major may be used to fulfill the minor requirements. Students who, because of this rule, require additional credits to reach 24.0 total credits may select additional Advanced Electives as needed.

Accelerated Degrees

The College of Computing & Informatics offers several Accelerated Degree programs designed to allow students to complete both a bachelor's degree and a graduate degree along with cooperative educational experience in fewer years than would be typical if pursuing the degrees separately. Students accepted in this program can combine any of the College's bachelor's and master's degree programs as well as other options:

- Any CCI BS/any CCI MS Accelerated Degree (BS & MS in five years, including 2 Co-ops)
- Any CCI BS/MBA Accelerated Degree (BS/MBA)
- Any CCI BS/JD Accelerated Degree (BS/JD)

For more information on the criteria for entering this program, visit the BS/MS Accelerated Degree (<http://www.drexel.edu/undergrad/academics/accelerated-degrees>) page on Drexel's website.

Bachelor's/Master's Accelerated Degree in Computer Science

Applying

The guidelines for applying to the Computer Science Bachelor's/Master's (BS/MS) Accelerated Degree Program are as follows:

- University regulations require application after the completion of 90.0 credits but before the completion of 120.0 credits.
- Applicants must have an overall cumulative Grade Point Average of 3.5 or higher.
- Letters of recommendation from two Computer Science faculty are required.
- Students must submit a plan of study. Consult your advisor and course schedules for guidance.
- Applicants must have completed the following courses with a minimum GPA of 3.50

Program Requirements

The courses below should be taken at Drexel. Seek guidance from your advisor regarding additional coursework if any courses below have been taken outside of Drexel.

CS 171	Computer Programming I	3.0
or CS 175	Advanced Computer Programming I	
CS 172	Computer Programming II	3.0
or CS 176	Advanced Computer Programming II	
CS 260	Data Structures	3.0

CS 265	Advanced Programming Tools and Techniques	3.0
CS 270	Mathematical Foundations of Computer Science	3.0
CS 281	Systems Architecture	4.0
MATH 221	Discrete Mathematics	3.0

Requirements

The requirements of the Computer Science BS/MS program follow the requirements of both the BS in Computer Science (<http://catalog.drexel.edu/undergraduate/collegeofcomputingandinformatics/computerscience/#requirementsbstext>) and the MS in Computer Science (<http://catalog.drexel.edu/graduate/collegeofcomputingandinformatics/computerscience/#degreerequirementsmstext>). Students must complete all the requirements of the BS in Computer Science (<http://catalog.drexel.edu/undergraduate/collegeofcomputingandinformatics/computerscience/#requirementsbstext>) except that they may drop two free electives (still maintaining the 180.0 credit minimum for the BS degree). In addition, students must complete 45.0 credits of graduate courses to satisfy the requirements of the MS in Computer Science (<http://catalog.drexel.edu/graduate/collegeofcomputingandinformatics/computerscience/#degreerequirementsmstext>). Please refer to the linked program pages for the details of these requirements.

When completing undergraduate CS electives and graduate CS courses, students should take care to avoid equivalent courses at both the undergraduate and graduate levels. The table below indicates pairs of equivalent courses; students may only take one or the other in each pair but not both.

CS 338	Graphical User Interfaces	3.0
or CS 530	Developing User Interfaces	
CS 370	Operating Systems	3.0
or CS 543	Operating Systems	
CS 380	Artificial Intelligence	3.0
or CS 510	Introduction to Artificial Intelligence	
CS 430	Computer Graphics	3.0
or CS 536	Computer Graphics	
CS 431	Advanced Rendering Techniques	3.0
or CS 636	Advanced Computer Graphics	
CS 432	Interactive Computer Graphics	3.0
or CS 537	Interactive Computer Graphics	
CS 435	Computational Photography	3.0
or CS 583	Introduction to Computer Vision	
CS 440	Theory of Computation	3.0
or CS 525	Theory of Computation	
CS 457	Data Structures and Algorithms I	3.0
or CS 521	Data Structures and Algorithms I	
CS 458	Data Structures and Algorithms II	3.0
or CS 522	Data Structures and Algorithms II	
CS 472	Computer Networks: Theory, Applications and Programming	3.0
or CS 544	Computer Networks	
CS 475	Computer and Network Security	3.0
or CS 645	Network Security	
CS 481	Advanced Artificial Intelligence	3.0
or CS 610	Advanced Artificial Intelligence	

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic

advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Plan of Study

Students in the BS/MS program typically forego their third co-op and take advanced courses during those two terms. The sample plan of study below thus assumes a total of 14 terms completed within a 5-year period.

Term 1		Credits
CI 101	Computing and Informatics Design I	2.0
CS 164	Introduction to Computer Science	3.0
MATH 121	Calculus I	4.0

Co-op/Career Opportunities

Co-Op Options

Three co-op options are available for this program:

- 5-year/3 co-op
- 4-year/1 co-op
- Accelerated Degree (BS & MS): 5-year/2 co-op

Career Opportunities

The demand for computing skills is tremendous and growing, with highly paid jobs. Most professionals in the field focus on the design and development of software and software-based applications. Typical jobs include software engineer, programmer, web designer, multimedia or software developer, systems analyst or consultant, manager of technical staff, client-server architect, network designer, and database specialist. Most positions require at least a bachelor's degree. Relevant work experience, such as that provided by co-operative education, is also very important, as cited by the Occupational Outlook Handbook (<http://www.bls.gov/ooh>) published by the US Bureau of Labor Statistics.

Job titles of recent computer science graduates include:

- Web Developer
- Software Systems Engineer
- Software Developer
- Network Engineer
- Application Analyst

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Drexel University Libraries

Drexel University Libraries (<http://www.library.drexel.edu>) is a learning enterprise, advancing the University's academic mission through serving as educators, supporting education and research, collaborating with researchers, and fostering intentional learning outside of the classroom. Drexel University Libraries engages with Drexel communities through four physical locations, including W. W. Hagerty Library, Hahnemann Library, Queen Lane Library and the Library Learning Terrace, as well as a vibrant online presence which sees, on average, over 8,000 visits per day. In the W.W. Hagerty Library location, College of Computing & Informatics students have access to private study rooms and nearly half a million books, periodicals, DVDs, videos and University Archives. All fields of inquiry are covered, including: library and information science, computer science, software engineering, health informatics, information systems, and computing technology. Resources are available online at library.drexel.edu or in-person at W. W. Hagerty Library (<http://www.library.drexel.edu/locations>).

The Libraries also make available laptop and desktop PC and Mac computers, printers and scanners, spaces for quiet work or group projects and designated 24/7 spaces. Librarians and library staff—including a liaison librarian for computing and informatics—are available for individual

research consultations and to answer questions about materials or services.

iCommons

Located in Room 106 of the Rush Building, the College's iCommons is an open lab and collaborative work environment for students. It features desktop computers, a wireless/laptop area, free black and white printing, more collaborative space for its students and a furnished common area. There is a fully equipped conference room for student use with a 42" display and videoconferencing capabilities. The iCommons provides technical support to students, faculty, and administrative staff. In addition, the staff provides audio-visual support for all presentation classrooms within the Rush Building. Use of the iCommons is reserved for all students taking CCI courses.

The computers for general use are Microsoft Windows and Macintosh OSX machines with appropriate applications which include the Microsoft Office suite, various database management systems, modeling tools, and statistical analysis software. Library related resources may be accessed at the iCommons and through the W.W. Hagerty Library. The College is a member of the Rational SEED Program which provides cutting-edge software development and project management software for usage in the iCommons and CCI classrooms. The College is also a member of the Microsoft Academic Alliance known also as "DreamSpark" that allows students free access to a wide array of Microsoft software titles and operating systems.

The iCommons, student labs, and classrooms have access to networked databases, print and file resources within the College, and the Internet via the University's network. Email accounts, Internet and BannerWeb access are available through the Office of Information Resources and Technology.

Rush Building

The Rush Building houses classrooms, CCI administrative offices (academic advising, graduate admissions, faculty, etc.) and the iCommons computer lab (open to all CCI students). The building holds 6 classrooms equipped for audio-visual presentation. These rooms typically contain a networked PC, HD video player, ceiling mounted projectors, and other equipment for presentations and demonstrations. Four of these classrooms are fully equipped to function as laptop computing labs for networking, programming and database-related projects.

The Information Technology Laboratory, located in the Rush Building, consists of enterprise class information technology hardware that students would encounter in industry positions. The hardware includes 20 high powered workstations that are available to students and specialized networking lab simulation software. The hardware is networked and reconfigurable utilizing multiple virtual technologies as needed for the various classes the laboratory supports. In addition, a special system has been built into to the classroom to allow for conversion into a standard laptop computing lab utilizing motorized monitor lifts that allow the monitors and keyboards to recess into the desk.

University Crossings - Cyber Learning Center and Computer Lab

CCI also has classrooms, administrative office and faculty offices located in University Crossings, located at the corner of JFK Blvd. and Market Street. The building houses the Cyber Learning Center, a student

computer lab, as well as several classrooms with video-conference enabled technology and media projection capabilities.

The Cyber Learning Center (CLC) provides consulting and other learning resources for students taking computer science classes. The CLC is staffed by graduate and undergraduate computer science students from the College of Computing & Informatics.

Both the CLC and UC Lab now serve as a central hub for small group work, student meetings, and TA assistance. The UC Lab is organized with desk space around the perimeter of the lab for individual or partner/pair-programmed student work, as well as with clusters of tables which can be connected as needed into pods to create workspaces for larger groups.

Research Laboratories

The College houses multiple research labs, led by CCI faculty, across Drexel's main campus including: the Auerbach and Berger Families Cybersecurity Laboratory, Drexel Health and Risk Communication Lab, Socio-Technical Studies Group, Intelligent Information & Knowledge Computing Research Lab, Evidence-based Decision Making Lab, Applied Symbolic Computation Laboratory (ASYM), Geometric and Intelligent Computing Laboratory (GICL), High Performance Computing Laboratory (SPIRAL), Privacy, Security and Automation Laboratory (PSAL), Drexel Research on Play (RePlay) Laboratory, Software Engineering Research Group (SERG), Vision and Cognition Laboratory (VisCog) and the Vision and Graphics Laboratory. For more information on these laboratories, please visit the College's research web page (<http://cci.drexel.edu/research.aspx>).

Alumni Garden

The Rush Building's Alumni Garden provides additional collaborative space for students, faculty, professional staff and alumni. The Garden features wireless networking, tables with built-in power outlets, accessible covered patio and balconies and a bicycle rack. The Alumni Garden (<http://cci.drexel.edu/about/our-facilities/rush-building/rush-alumni-garden-request-for-use.aspx>) may be reserved for Drexel events.

3401 Market Street

3401 Market Street houses faculty offices and doctoral student workspaces. It also is home to College research groups such and University initiatives such as the Isaac L. Auerbach Cybersecurity Institute (<http://drexel.edu/cci/research/centers-institutes/Cybersecurity>). The Institute's Auerbach and Berger Families Cybersecurity Laboratory serves as University's first training facility dedicated to identifying challenges and discovering solutions in the areas of cyber infrastructure protection and incident response.

Evaluations

The College of Computing & Informatics works continually to improve its degree programs. As part of this effort, the Computer Science degree is evaluated relative to the following Objectives and Outcomes.

Computer Science Program Educational Objectives

Drexel Computer Science alumni will:

- a. be valued employees in a wide variety of occupations in industry, government and academia, in particular as computer scientists and software engineers;

- b. succeed in graduate and professional studies, such as engineering, science, law, medicine and business;
- c. pursue life-long learning and professional development to remain current in an ever changing technological world;
- d. provide leadership in their profession, in their communities, and society;
- e. function as responsible members of society with an awareness of the social and ethical ramifications of their work.

Computer Science Student Outcomes (for Bachelor of Science and Bachelor of Arts)

The Drexel Computer Science program enables students to attain, by the time of graduation:

- a. An ability to apply knowledge of computing and mathematics appropriate to the discipline
- b. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- c. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- d. An ability to function effectively on teams to accomplish a common goal
- e. An understanding of professional, ethical, legal, security and social issues and responsibilities
- f. An ability to communicate effectively with a range of audiences
- g. An ability to analyze the local and global impact of computing on individuals, organizations, and society
- h. Recognition of the need for and an ability to engage in continuing professional development
- i. An ability to use current techniques, skills, and tools necessary for computing practice
- j. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.
- k. An ability to apply design and development principles in the construction of software systems of varying complexity.

Additional Information

The Computer Science BS program is accredited by the Computing Accreditation Commission (CAC) of ABET, <http://www.abet.org>.

To view the latest BS/BA in Computer Science program enrollment numbers, please click here (<http://drexel.edu/cci/programs/undergraduate-programs/Facts>).

Computer Science Faculty

Yuan An, PhD (*University of Toronto, Canada*). Associate Professor. Conceptual modeling, schema and ontology mapping, information integration, knowledge representation, requirements engineering, healthcare information systems, semantic web.

David Augenblick, MS (*University of Pennsylvania*). Associate Teaching Professor. Introductory and object-oriented programming, data structures and database systems, computer application project management,

application of computer programming principles and solutions to engineering problems.

M. Brian Blake, PhD (*George Mason University*) Executive Vice President for Academic Affairs and Provost; Distinguished Professor of Systems and Software Engineering; Joint Appointments with the College of Engineering and the College of Medicine. Software engineering approaches for integration of Web-based systems.

Mark Boady, PhD (*Drexel University*). Assistant Teaching Professor. Computer Algebra, complex symbolic calculations, automation of computation problems

David E. Breen, PhD (*Rensselaer Polytechnic Institute*). Associate Professor. Self-organization, biomedical image/video analysis, biological simulation, geometric modeling and visualization

Matthew Burlick, PhD (*Stevens Institute of Technology*). Assistant Teaching Professor. Image processing, machine learning, real-time video tracking, object detection and classification, statistics/probability, and acoustics

Yuanfang Cai, PhD (*University of Virginia*). Associate Professor. Formal software design modeling and analysis, software economics, software evolution and modularity.

Bruce W. Char, PhD (*University of California-Berkeley*). Professor. Symbolic mathematical computation, algorithms and systems for computer algebra, problem-solving environments parallel and distributed computation.

Colin Gordon, PhD (*University of Washington*). Assistant Professor. Software reliability, program behavior, concurrent and systems-level code, formal assurance, programming models, distributed computing, even testing

Rachel Greenstadt, PhD (*Harvard University*). Associate Professor. Artificial intelligence, privacy, security, multi-agent systems, economics of electronic privacy and information security.

Jeremy R. Johnson, PhD (*Ohio State University*). Professor. Computer algebra; parallel computations; algebraic algorithms; scientific computing.

Constantine Katsinis, PhD (*University of Rhode Island*). Teaching Professor. High-performance computer networks, parallel computer architectures with sustained teraflops performance, computer security, image processing.

Geoffrey Mainland, PhD (*Harvard University*). Assistant Professor. High-level programming languages and runtime support for non-general purpose computation.

Spiros Mancoridis, PhD (*University of Toronto*). Professor. Software engineering; software security; code analysis; evolutionary computation.

Adelaida Alban Medlock, MS (*Drexel University*). Associate Teaching Professor. Introductory programming; computer science education.

William Mongan, MS (*Drexel University*) Associate Department Head for Undergraduate Affairs, Computer Science. Associate Teaching Professor. Service-oriented architectures, program comprehension, reverse engineering, software engineering, computer architecture, computer science education, engineering education outreach

Ko Nishino, PhD (*University of Tokyo*) Associate Department Head for Graduate Affairs, Computer Science. Professor. Computer vision, computer graphics, analysis and synthesis of visual appearance.

Krzysztof Nowak, PhD (*Washington University*). Associate Teaching Professor. Fourier analysis, partial differential equations, image processing, wavelets, asymptotic distribution of eigenvalues, numerical methods and algorithms, computer science education.

Santiago Ontañón, PhD (*University of Barcelona*). Assistant Professor. Game AI, computer games, artificial intelligence, machine learning, case-based reasoning

Jeffrey L. Popyack, PhD (*University of Virginia*). Professor. Operations research, stochastic optimization, computational methods of Markov decision processes; artificial intelligence, computer science education.

Jeffrey Salvage, MS (*Drexel University*). Teaching Professor. Object-oriented programming, multi-agent systems, software engineering, database theory, introductory programming, data structures.

Dario Salvucci, PhD (*Carnegie Mellon University*) Department Head, Computer Science. Professor. Human computer interaction, cognitive science, machine learning, applications for driving.

Kurt Schmidt, MS (*Drexel University*). Associate Teaching Professor. Data structures, math foundations for computer science, programming tools, programming languages.

Ali Shokoufandeh, PhD (*Rutgers University*) Senior Associate Dean of Research. Professor. Theory of algorithms, graph theory, combinational optimization, computer vision.

Erin Solovey, PhD (*Tufts University*). Assistant Professor. Human-computer interaction, brain-computer interfaces, tangible interaction, machine learning, human interaction with complex and autonomous systems.

Julia Stoyanovich, PhD (*Columbia University*). Assistant Professor. Data and knowledge management, big data, biological data management, search and ranking.

Brian Stuart, PhD (*Purdue University*). Associate Teaching Professor. Machine learning, networking, robotics, image processing, simulation, interpreters, data storage, operating systems, computer science, data communications, distributed/operating systems, accelerated computer programming, computer graphics.

Filippos Vokolos, PhD (*Polytechnic University*). Assistant Teaching Professor. System architecture, principles of software design and construction, verification and validation methods for the development of large software systems, foundations of software engineering, software verification & validation, software design, programming languages, dependable software systems.

Computer Science

Computer Security Concentration

The Computer Science concentration in Computer Security is designed to supply graduates with the skills needed to prepare them for a wide range of opportunities. It gives students the ability to design and implement computing security and privacy processes, software and systems.

Students use mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of such systems.

Computer security specialists are needed who can work within cyberspace to help secure, defend against, respond to, and in some instance, even initiate preemptive attacks. These individuals must have detailed knowledge of the systems they protect, an understanding of the cyber-environment and physical environment in which they operate, and an understanding of the ethical expectations and legal surroundings of their field.

Additional Information

For more information about this concentration, visit the College of Computing & Informatics (<http://www.drexel.edu/cci>)' web site.

Computer Security Concentration Program Requirements

Students in the Computer Security Concentration should follow the below concentration requirements in addition to the core degree requirements for the BS in Computer Science program (p. 25). For any questions regarding your plan of study, please contact your Undergraduate Advisor (<http://drexel.edu/cci/resources/current-students/undergraduate/advising>).

The concentration in Computer Security follows the requirements of the B.S. in Computer Science (p. 25) except as noted below.

Computer Science Requirements	64.0
The following courses must be taken as the 6 CS track courses and the CS electives:	
CS 303	Algorithmic Number Theory and Cryptography
CS 361	Concurrent Programming
CS 370	Operating Systems
CS 377	Software Security
CS 467	Security and Human Behavior
CS 472	Computer Networks: Theory, Applications and Programming
CS 475	Computer and Network Security
INFO 310	Human-Centered Design Process & Methods
Computing & Informatics Requirements	15.0
Mathematics Requirements	25.0
MATH 410 is required for the concentration.	
The following course must be taken as the Mathematics elective:	
MATH 200	Multivariate Calculus
Science Requirements	26.5
Arts & Humanities Requirements	46.0
The following course must be taken as the Social Studies elective:	
PSY 101	General Psychology I
The following course must be taken as the Business elective:	
ECON 201	Principles of Microeconomics
University Requirements	3.0
Free Electives	7.0
Total Credits	186.5

Computer Security Concentration Sample Plan of Study

Term 1		Credits
CI 101	Computing and Informatics Design I	2.0
CS 164	Introduction to Computer Science	3.0
MATH 121	Calculus I	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
UNIV 101	The Drexel Experience	1.0

Science lab		4.5
Term Credits		17.5
Term 2		
CI 102	Computing and Informatics Design II	2.0
CS 171 or 175	Computer Programming I Advanced Computer Programming I	3.0
MATH 122	Calculus II	4.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
CIVC 101	Introduction to Civic Engagement	1.0
COOP 101	Career Management and Professional Development	0.0
Science lab		4.5
Term Credits		17.5
Term 3		
CI 103	Computing and Informatics Design III	2.0
CS 172 or 176	Computer Programming II Advanced Computer Programming II	3.0
MATH 123	Calculus III	4.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
UNIV 101	The Drexel Experience	1.0
Science lab		4.5
Term Credits		17.5
Term 4		
CS 265	Advanced Programming Tools and Techniques	3.0
CS 270	Mathematical Foundations of Computer Science	3.0
PSY 101	General Psychology I	3.0
Science elective		3.0
Term Credits		12.0
Term 5		
CS 260	Data Structures	3.0
CS 275	Web and Mobile App Development	3.0
MATH 221	Discrete Mathematics	3.0
ECON 201	Principles of Microeconomics	4.0
Science elective		3.0
Term Credits		16.0
Term 6		
CS 281	Systems Architecture	4.0
CS 350 [WI]	Software Design	3.0
MATH 201	Linear Algebra	4.0
COM 230	Techniques of Speaking	3.0
Arts & Humanities elective		3.0
Term Credits		17.0
Term 7		
CS 283	Systems Programming	3.0
CS 360	Programming Language Concepts	3.0
Arts & Humanities electives		3.0
Free Elective		3.0
Science elective		4.0
Term Credits		16.0
Term 8		
CS 303	Algorithmic Number Theory and Cryptography	3.0
CS 361	Concurrent Programming	3.0
MATH 410	Scientific Data Analysis I	3.0
INFO 310	Human-Centered Design Process & Methods	3.0
PHIL 311	Ethics and Information Technology	3.0
Term Credits		15.0
Term 9		
CS 451	Software Engineering	3.0
CS 370	Operating Systems	3.0
Arts & Humanities elective		3.0
Writing & Communications Elective		3.0

Math Elective		3.0
Term Credits		15.0
Term 10		
CI 491 [WI]	Senior Project I	3.0
CS 467	Security and Human Behavior	3.0
CS 472	Computer Networks: Theory, Applications and Programming	3.0
Writing & Communications elective		3.0
Arts & Humanities elective		3.0
Term Credits		15.0
Term 11		
CI 492 [WI]	Senior Project II	3.0
CS 475	Computer and Network Security	3.0
Arts & Humanities elective		3.0
Free Elective		7.0
Term Credits		16.0
Term 12		
CI 493 [WI]	Senior Project III	3.0
CS 377	Software Security	3.0
Science Elective		3.0
Arts & Humanities Elective		3.0
Term Credits		12.0
Total Credit: 186.5		

Computer Science

Game Programming and Development Concentration

The concentration in game programming and development provides conceptual understanding of game design and practical experience in the design and the development of games. The courses in this concentration include fundamentals of game design and development, large-scale game development, and special topics in educational and experimental game design.

Additional Information

For more information about this concentration, visit the College of Computing & Informatics (<http://www.drexel.edu/cci>) web site.

Game Programming and Development Concentration

Program Requirements

Students in the Game Programming and Development Concentration should follow the below concentration requirements in addition to the core degree requirements for the BS in Computer Science program (p. 25). For any questions regarding your plan of study, please contact your Undergraduate Advisor (<http://drexel.edu/cci/resources/current-students/undergraduate/advising>).

Students in the Game Programming and Development Concentration should follow the below concentration requirements in addition to the core degree requirements for the B.S. in Computer Science (p. 25). For any question regarding your plan of study, please contact your Undergraduate Advisor.

The Game Programming and Development concentration follows the requirements of the B.S. in Computer Science (p. 25) except as noted below.

Computer Science Requirements 58.0-61.0

The following courses must be taken to fulfill the Game Development and Design track:

CS 345	Computer Game Design and Development
GMAP 377	Game Development: Workshop I
GMAP 378	Game Development: Workshop II

Computing & Informatics Requirements 15.0

Mathematics Requirements 27.0

Science Requirements 25.0

The sequence below must be taken as the lab science sequence:

PHYS 101	Fundamentals of Physics I
& PHYS 102	and Fundamentals of Physics II
& PHYS 201	and Fundamentals of Physics III

Arts & Humanities Requirements 45.0

The following course must be taken as the Social Studies elective:

PSY 101	General Psychology I
---------	----------------------

The following course must be taken as a Writing & Communications elective:

SCRIP 270	Screenwriting I
[WI]	

The following courses must be taken as Arts & Humanities electives:

GMAP 260	Overview of Computer Gaming
ANIM 140	Computer Graphics Imagery I
ANIM 152	Multimedia Timeline Design
ANIM 211	Animation I

University Requirements 3.0

Free Electives 13.5-15.5

The following course must be taken as a free elective:

DIGM 100	Digital Design Tools
----------	----------------------

Total Credits 186.5-191.5

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study (BS) - Game Programming and Development Concentration

5 YR 5 YR UG Co-op Concentration /Game Programming & Development

Term 1		Credits
CI 101	Computing and Informatics Design I	2.0

Computing and Security Technology

Major: Computing and Security Technology

Degree Awarded: Bachelor of Science in Computing & Security Technology (BSCST)

Calendar Type: Quarter

Total Credit Hours: 188.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) Code: 11.1003

Standard Occupational Classification (SOC) Code: 15-1122

Note: The on-campus CST major (Full Time only) admits new and transfer students Fall Quarter. The online CST major (Part Time only) admits transfer students Fall and Spring Quarters.

About the Program

The College of Computing & Informatics' Bachelor of Science in Computing & Security Technology (BSCST) prepares students for work related to the management and administration of large-scale computing infrastructure. Students gain experience with core information technology (IT) areas including servers, databases, networks, the Web, and information security and cybersecurity. The program places emphasis on practical education and fundamental concepts that are supplemented by laboratory experience.

Core courses provide students with practical knowledge and skills related to proprietary and open source servers, network administration, software development, database administration, and IT security. Students take advanced electives and a concentration in either Computing Technology or Computing Security. The advanced courses include topics such as:

mobile applications, IT risk assessment, intrusion detection, security audits, and computer forensics.

The degrees in Computing & Security Technology, Data Science (p. 45), and Information Systems (p. 50) share a common first year. This allows students to easily switch among the degrees early in their studies. In addition, some of the electives in each degree are accessible to students in the other two majors and this provides a deeper and broader set of advanced topics for students in all three majors.

The BS in Computing & Security Technology is offered as a full-time, on-campus bachelor's degree program or as an online, part-time degree completion program for students who have completed approximately two years of college work.

Students are no longer being admitted to the on-site BSCST degree program that was offered at Burlington County College (BCC), Delaware County Community College (DCCC), and the Montgomery County Community College (MCCC). Students from these institutions are invited to apply to transfer into the online program or the on-campus program at Drexel. Also, students are no longer being admitted to the Drexel Saturday Scholars program.

For more information about this program, please visit the BS in Computing & Security Technology web page (<http://drexel.edu/cci/academics/programs/undergraduate-programs/bs-computing-security>) on the College of Computing & Informatics' website.

Degree Requirements

Students completing this major must select either a concentration in computing technology or a concentration in computing security.

Computing & Security Technology Core Requirements

CT 140	Network Administration I	3.0
CT 200	Server I	3.0
CT 210	Open Server I	3.0
CT 310	Open Server II	3.0
CT 320	Server II	3.0
CT 330	Network Administration II	3.0
CT 395	Information Technology Security I	3.0
CT 420	Information Technology Security II	3.0

Students completing this major must select either a concentration in Computing Technology or a concentration in Computing Security. see below

Information Science Requirements

INFO 101	Introduction to Computing and Security Technology	3.0
INFO 102	Introduction to Information Systems	3.0
INFO 103	Introduction to Data Science	3.0
INFO 200	Systems Analysis I	3.0
INFO 210	Database Management Systems	3.0
INFO 215	Social Aspects of Information Systems	3.0
INFO 310	Human-Centered Design Process & Methods	3.0
INFO 355	Systems Analysis II	3.0
INFO 365	Database Administration I	3.0
INFO 420	Software Project Management	3.0

Programming Requirements

Choose one of the following sequences

INFO 151 & CS 171 & CS 172	Web Systems and Services I and Computer Programming I and Computer Programming II	9.0
INFO 151 & INFO 152 & INFO 153	Web Systems and Services I and Web Systems and Services II and Applied Data Management	9.0

Computing & Informatics Requirements

CI 101	Computing and Informatics Design I	2.0
CI 102	Computing and Informatics Design II	2.0
CI 103	Computing and Informatics Design III	2.0
CI 491 [WI]	Senior Project I	3.0
CI 492 [WI]	Senior Project II	3.0
CI 493 [WI]	Senior Project III	3.0

Mathematics Requirements

Choose Mathematics Sequence		12.0
MATH 101 & MATH 102 & MATH 180	Introduction to Analysis I and Introduction to Analysis II and Discrete Computational Structures	
MATH 121 & MATH 122 & MATH 180	Calculus I and Calculus II and Discrete Computational Structures	
MATH 181 & MATH 182 & MATH 183	Mathematical Analysis I and Mathematical Analysis II and Mathematical Analysis III [†]	

Natural Science Requirements * 8.0

Liberal Studies Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
COM 230	Techniques of Speaking	3.0
Liberal Studies Electives **		12.0

University Requirements

UNIV CI101 or CI 120	The Drexel Experience CCI Transfer Student Seminar	2.0
CIVC 101	Introduction to Civic Engagement	1.0
COOP 101	Career Management and Professional Development	0.0

Free Electives 36.0

Total Credits 188.0

[†] Also choose Quantitative methods elective from any non-required MATH course, STAT 201, or SOC250

* Students select any non-required courses from the following: ANAT, BIO, CHEM, ENV5, FDSC, NFS, PHEV, PHYS, HSCI, GEO, ENSS.

** Students select any non-required courses from the following: ANTH, COM, ENGL, HIST, PHIL, PSCI, PSY, SOC, WRIT, ECON, ENTP, ARTH, FMST, MUSC, TVST, VSST

Please note: If a Computing & Security Technology student pursues a Business Administration Minor, MIS classes do not count towards the Business Administration Minor for Computing & Security Technology students. Students must choose another option to fulfill the Business Administration Minor requirements.

Concentration in Computing Technology

Computing Technology Concentration Requirements

CT 295	Public Key Infrastructure Technology	3.0
CT 335	Mobile Applications	3.0
CT 350	Network Administration III	3.0

Accelerated Degrees

The College of Computing & Informatics offers several Accelerated Degree programs designed to allow students to complete both a bachelor's and a graduate degree along with cooperative educational experience in fewer years than would be typical if pursuing the degrees separately. Students accepted in this program can combine any of the College bachelor's and master's degree programs as well as other options:

- Any CCI BS/any CCI MS Accelerated Degree (BS & MS in five years, including 2 Co-ops)
- Any CCI BS/MBA Accelerated Degree (BS/MBA)
- Any CCI BS/JD Accelerated Degree (BS/JD)

For more information on the criteria for entering this program visit the BS/MS Accelerated Degree (<http://www.drexel.edu/undergrad/academics/accelerated-degrees>) page on Drexel's website.

For more information on how to apply for the BS/MS Accelerated Degree program, please visit the College of Computing & Informatics' website (<http://drexel.edu/cci/admissions/undergraduate/admissions-requirements/cci-bsms-degree-admissions>).

Co-Op/Career Opportunities

Co-Op Options

Three co-op options are available for this program:

- 5-year/3 co-op
- 4-year/1 co-op
- Accelerated Degree: 5-year/2 co-op

Co-op is not available for online students.

Career Opportunities

Graduates of the Computing and Security Technology program who complete a concentration in Computing Technology can pursue careers as information technologists and advanced technicians in a wide range of industries. Information technologists are capable of performing multiple IT tasks and accessing various information resources. The program gives students a unique set of applied skills that allow them to fill a number of roles as part of the information systems team. Graduates with a concentration in Computing Security pursue careers as advanced technicians who operate and administer the security tools, technologists who create and install security solutions, and leaders who define the security policies.

Job titles of recent computing and security technology graduates include:

- Security Administrator
- Chief Information Security Officer
- IT Audit Manager
- Project Manager
- Lead Systems Engineer
- Network Engineer
- Server Engineer

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more information on career opportunities.

Facilities

Drexel University Libraries

Drexel University Libraries (<http://www.library.drexel.edu>) is a learning enterprise, advancing the University's academic mission through serving as educators, supporting education and research, collaborating with researchers, and fostering intentional learning outside of the classroom. Drexel University Libraries engages with Drexel communities through four physical locations, including W. W. Hagerty Library, Hahnemann Library, Queen Lane Library and the Library Learning Terrace, as well as a vibrant online presence which sees, on average, over 8,000 visits per day. In the W.W. Hagerty Library location, College of Computing & Informatics students have access to private study rooms and nearly half a million books, periodicals, DVDs, videos and University Archives. All fields of inquiry are covered, including: library and information science, computer science, software engineering, health informatics, information systems, and computing technology. Resources are available online at library.drexel.edu or in-person at W. W. Hagerty Library (<http://www.library.drexel.edu/locations>).

The Libraries also make available laptop and desktop PC and Mac computers, printers and scanners, spaces for quiet work or group projects and designated 24/7 spaces. Librarians and library staff—including a liaison librarian for computing and informatics—are available for individual research consultations and to answer questions about materials or services.

iCommons

Located in Room 106 of the Rush Building, the College's iCommons is an open lab and collaborative work environment for students. It features desktop computers, a wireless/laptop area, free black and white printing, more collaborative space for its students and a furnished common area. There is a fully equipped conference room for student use with a 42" display and videoconferencing capabilities. The iCommons provides technical support to students, faculty, and administrative staff. In addition, the staff provides audio-visual support for all presentation classrooms within the Rush Building. Use of the iCommons is reserved for all students taking CCI courses.

The computers for general use are Microsoft Windows and Macintosh OSX machines with appropriate applications which include the Microsoft Office suite, various database management systems, modeling tools, and statistical analysis software. Library related resources may be accessed at the iCommons and through the W.W. Hagerty Library. The College is a member of the Rational SEED Program which provides cutting-edge software development and project management software for usage in the iCommons and CCI classrooms. The College is also a member of the Microsoft Academic Alliance known also as "DreamSpark" that allows students free access to a wide array of Microsoft software titles and operating systems.

The iCommons, student labs, and classrooms have access to networked databases, print and file resources within the College, and the Internet via the University's network. Email accounts, Internet and BannerWeb access are available through the Office of Information Resources and Technology.

Rush Building

The Rush Building houses classrooms, CCI administrative offices (academic advising, graduate admissions, faculty, etc.) and the iCommons computer lab (open to all CCI students). The building holds 6 classrooms equipped for audio-visual presentation. These rooms typically contain a networked PC, HD video player, ceiling mounted projectors, and other equipment for presentations and demonstrations. Four of these classrooms are fully equipped to function as laptop computing labs for networking, programming and database-related projects.

The Information Technology Laboratory, located in the Rush Building, consists of enterprise class information technology hardware that students would encounter in industry positions. The hardware includes 20 high powered workstations that are available to students and specialized networking lab simulation software. The hardware is networked and reconfigurable utilizing multiple virtual technologies as needed for the various classes the laboratory supports. In addition, a special system has been built into to the classroom to allow for conversion into a standard laptop computing lab utilizing motorized monitor lifts that allow the monitors and keyboards to recess into the desk.

University Crossings - Cyber Learning Center and Computer Lab

CCI also has classrooms, administrative office and faculty offices located in University Crossings, located at the corner of JFK Blvd. and Market Street. The building houses the Cyber Learning Center, a student computer lab, as well as several classrooms with video-conference enabled technology and media projection capabilities.

The Cyber Learning Center (CLC) provides consulting and other learning resources for students taking computer science classes. The CLC is

staffed by graduate and undergraduate computer science students from the College of Computing & Informatics.

Both the CLC and UC Lab now serve as a central hub for small group work, student meetings, and TA assistance. The UC Lab is organized with desk space around the perimeter of the lab for individual or partner/pair-programmed student work, as well as with clusters of tables which can be connected as needed into pods to create workspaces for larger groups.

Research Laboratories

The College houses multiple research labs, led by CCI faculty, across Drexel's main campus including: the Auerbach and Berger Families Cybersecurity Laboratory, Drexel Health and Risk Communication Lab, Socio-Technical Studies Group, Intelligent Information & Knowledge Computing Research Lab, Evidence-based Decision Making Lab, Applied Symbolic Computation Laboratory (ASYM), Geometric and Intelligent Computing Laboratory (GICL), High Performance Computing Laboratory (SPIRAL), Privacy, Security and Automation Laboratory (PSAL), Drexel Research on Play (RePlay) Laboratory, Software Engineering Research Group (SERG), Vision and Cognition Laboratory (VisCog) and the Vision and Graphics Laboratory. For more information on these laboratories, please visit the College's research web page (<http://cci.drexel.edu/research.aspx>).

Alumni Garden

The Rush Building's Alumni Garden provides additional collaborative space for students, faculty, professional staff and alumni. The Garden features wireless networking, tables with built-in power outlets, accessible covered patio and balconies and a bicycle rack. The Alumni Garden (<http://cci.drexel.edu/about/our-facilities/rush-building/rush-alumni-garden-request-for-use.aspx>) may be reserved for Drexel events.

3401 Market Street

3401 Market Street houses faculty offices and doctoral student workspaces. It also is home to College research groups such and University initiatives such as the Isaac L. Auerbach Cybersecurity Institute (<http://drexel.edu/cci/research/centers-institutes/Cybersecurity>). The Institute's Auerbach and Berger Families Cybersecurity Laboratory serves as University's first training facility dedicated to identifying challenges and discovering solutions in the areas of cyber infrastructure protection and incident response.

Evaluations

The College of Computing & Informatics works continually to improve its degree programs. As part of this effort, the Computing & Security Technology degree is evaluated relative to the following Objectives and Outcomes.

BS Computing & Security Technology Program Educational Objectives

Within three to five years of graduating, alumni of the program are expected to achieve one or more of the following milestones:

- Be valued contributors to private or public organizations as demonstrated by promotions, increased responsibility, or other professional recognition
- Contribute to professional knowledge as demonstrated by published papers, technical reports, patents, or conference presentations

- Succeed in continuing professional development as demonstrated by completion of graduate studies or professional certifications
- Display commitment and leadership within the profession and community as demonstrated by contributions towards society's greater good and prosperity

BS Computing & Security Technology Program Student Outcomes

The program enables students to attain, by the time of graduation:

- An ability to apply knowledge of computing and mathematics appropriate to the program's student outcomes and to the discipline
- An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- An ability to function effectively on teams to accomplish a common goal
- An understanding of professional, ethical, legal, security and social issues and responsibilities
- An ability to communicate effectively with a range of audiences
- An ability to analyze the local and global impact of computing on individuals, organizations, and society
- Recognition of the need for and an ability to engage in continuing professional development
- An ability to use current techniques, skills, and tools necessary for computing practice

Computing & Informatics Faculty

Denise E. Agosto, PhD (*Rutgers, The State University of New Jersey*). Professor. Information behavior, public libraries, gender, children, young adults, multicultural materials.

Yuan An, PhD (*University of Toronto, Canada*). Associate Professor. Conceptual modeling, schema and ontology mapping, information integration, knowledge representation, requirements engineering, healthcare information systems, semantic web.

David Augenblick, MS (*University of Pennsylvania*). Associate Teaching Professor. Introductory and object-oriented programming, data structures and database systems, computer application project management, application of computer programming principles and solutions to engineering problems.

Ellen Bass, PhD (*Georgia Institute of Technology*) *Head of Department of Information Science; Joint Appointment with the College of Nursing and Health Professions*. Professor. Characterizing human judgement and decision making, modeling human judgement when supported by information automation, computational models of human-human and human-automation coordination.

Mark Boady, PhD (*Drexel University*). Assistant Teaching Professor. Computer Algebra, complex symbolic calculations, automation of computation problems

David E. Breen, PhD (*Rensselaer Polytechnic Institute*). Associate Professor. Self-organization, biomedical image/video analysis, biological simulation, geometric modeling and visualization

Matthew Burlick, PhD (*Stevens Institute of Technology*). Assistant Teaching Professor. Image processing, machine learning, real-time video

tracking, object detection and classification, statistics/probability, and acoustics

Yuanfang Cai, PhD (*University of Virginia*). Associate Professor. Formal software design modeling and analysis, software economics, software evolution and modularity.

Christopher Carroll, MS (*Drexel University*). Assistant Teaching Professor. Information technology within healthcare companies, computer networking and design, IT infrastructure, server technology, information security, virtualization and cloud computing.

Bruce W. Char, PhD (*University of California-Berkeley*). Professor. Symbolic mathematical computation, algorithms and systems for computer algebra, problem-solving environments parallel and distributed computation.

Chaomei Chen, PhD (*University of Liverpool*). Professor. Information visualization, visual analytics, knowledge domain visualization, network analysis and modeling, scientific discovery, science mapping, scientometrics, citation analysis, human-computer interaction.

Michael Chu, MSE (*University of Pennsylvania*). Associate Teaching Professor. System, server, computer networking and design; IT Infrastructure; information technology management and security; Web system programming; database and mobile application development

Catherine D. Collins, MLIS (*Indiana University*). Associate Teaching Professor. Knowledge management, collection development, management of information organizations, information sources and services, international development.

M. Carl Drott, PhD (*University of Michigan*). Associate Professor. Systems analysis techniques, web usage, competitive intelligence.

Andrea Forte, PhD (*Georgia Institute of Technology*) *PhD in Information Studied Program Director*. Associate Professor. Social computing, human-computer interaction, computer-supported cooperative work, computer-supported collaborative learning, information literacy.

Susan Gasson, PhD (*University of Warwick*). Associate Professor. The co-design of business and IT-systems, distributed cognition & knowledge management in boundary-spanning groups, human-centered design, social informatics, online learning communities, grounded theory.

Colin Gordon, PhD (*University of Washington*). Assistant Professor. Software reliability, program behavior, concurrent and systems-level code, formal assurance, programming models, distributed computing, even testing

Jane Greenberg, PhD (*University of Pittsburgh*) *Alice B. Kroeger Professor; Director, Metadata Research Center*. Metadata, ontological engineering, data science, knowledge organization, information retrieval

Rachel Greenstadt, PhD (*Harvard University*). Associate Professor. Artificial intelligence, privacy, security, multi-agent systems, economics of electronic privacy and information security.

Peter Grillo, PhD (*Temple University*) *Associate Department Head for Undergraduate Affairs, Information Science*. Teaching Professor. Strategic applications of technology within organizations.

Gregory W. Hislop, PhD (*Drexel University*) *Senior Associate Dean for Academic Affairs*. Professor. Information technology for teaching and learning, online education, structure and organization of the information

disciplines, computing education research, software evaluation and characterization.

Xiaohua Tony Hu, PhD (*University of Regina, Canada*). Professor. Data mining, text mining, Web searching and mining, information retrieval, bioinformatics and healthcare informatics.

Jeremy R. Johnson, PhD (*Ohio State University*). Professor. Computer algebra; parallel computations; algebraic algorithms; scientific computing.

Weimao Ke, PhD (*University of North Carolina at Chapel Hill*). Associate Professor. Information retrieval (IR), distributed systems, intelligent filtering/recommendation, information visualization, network science, complex systems, machine learning, text/data mining, multi-agent systems, the notion of information.

Xia Lin, PhD (*University of Maryland*) *Department Head, Information Science; Director of International Programs*. Professor. Digital libraries, information visualization, visual interface design, knowledge mapping, human-computer interaction, object-oriented programming, information retrieval, information architecture, information-seeking behaviors in digital environments.

Geoffrey Mainland, PhD (*Harvard University*). Assistant Professor. High-level programming languages and runtime support for non-general purpose computation.

Spiros Mancoridis, PhD (*University of Toronto*). Professor. Software engineering; software security; code analysis; evolutionary computation.

Gabriela Marcu, PhD (*Carnegie Mellon University*). Assistant Teaching Professor. Human-computer interaction, health informatics, action research, ethnography, user experience design, designing for social change, organizational information systems, ubiquitous computing, knowledge management.

Adelaida Alban Medlock, MS (*Drexel University*). Associate Teaching Professor. Introductory programming; computer science education.

William Mongan, MS (*Drexel University*) *Associate Department Head for Undergraduate Affairs, Computer Science*. Associate Teaching Professor. Service-oriented architectures, program comprehension, reverse engineering, software engineering, computer architecture, computer science education, engineering education outreach

Gaurav Naik, MS (*Drexel University*). Assistant Research Professor. Computer networking and cybersecurity

Ko Nishino, PhD (*University of Tokyo*) *Associate Department Head for Graduate Affairs, Computer Science*. Professor. Computer vision, computer graphics, analysis and synthesis of visual appearance.

Danuta A. Nitecki, PhD (*University of Maryland at College Park*) *Dean of Libraries*. Professor. Library metrics and use in management, library as place, and academic library service models.

Krzysztof Nowak, PhD (*Washington University*). Associate Teaching Professor. Fourier analysis, partial differential equations, image processing, wavelets, asymptotic distribution of eigenvalues, numerical methods and algorithms, computer science education.

Santiago Ontañón, PhD (*University of Barcelona*). Assistant Professor. Game AI, computer games, artificial intelligence, machine learning, case-based reasoning

Jung-ran Park, PhD (*University of Hawaii at Manoa*). Associate Professor. Knowledge organization and representation, metadata, computer-mediated communication, cross-cultural communication, multilingual information access.

Alex Poole, PhD (*University of North Carolina*). Assistant Professor. Archives and records, digital humanities, digital curation, pedagogy, diversity and inclusivity in the LIS profession

Jeffrey L. Popyack, PhD (*University of Virginia*). Professor. Operations research, stochastic optimization, computational methods of Markov decision processes; artificial intelligence, computer science education.

Lori Richards, PhD (*University of North Carolina*). Assistant Professor. Archives, digital curation, electronic records management, information technology and digital collections, cloud computing and record keeping, management of information organizations.

Michelle L. Rogers, PhD (*University of Wisconsin-Madison*). Associate Professor. Human-computer interaction, healthcare informatics, human factors engineering, socio-technical systems, health services research, patient safety.

Jeffrey Salvage, MS (*Drexel University*). Teaching Professor. Object-oriented programming, multi-agent systems, software engineering, database theory, introductory programming, data structures.

Dario Salvucci, PhD (*Carnegie Mellon University*) *Department Head, Computer Science*. Professor. Human computer interaction, cognitive science, machine learning, applications for driving.

Kurt Schmidt, MS (*Drexel University*). Associate Teaching Professor. Data structures, math foundations for computer science, programming tools, programming languages.

Ali Shokoufandeh, PhD (*Rutgers University*) *Senior Associate Dean of Research*. Professor. Theory of algorithms, graph theory, combinatorial optimization, computer vision.

Erin Solovey, PhD (*Tufts University*). Assistant Professor. Human-computer interaction, brain-computer interfaces, tangible interaction, machine learning, human interaction with complex and autonomous systems.

Il-Yeol Song, PhD (*Louisiana State University*) *PhD in Information Studies Program Director*. Professor. Conceptual modeling, ontology and patterns, data warehouse and OLAP, object-oriented analysis and design with UML, medical and bioinformatics data modeling & integration.

Julia Stoyanovich, PhD (*Columbia University*). Assistant Professor. Data and knowledge management, big data, biological data management, search and ranking.

Brian Stuart, PhD (*Purdue University*). Associate Teaching Professor. Machine learning, networking, robotics, image processing, simulation, interpreters, data storage, operating systems, computer science, data communications, distributed/operating systems, accelerated computer programming, computer graphics.

Filippos Vokolos, PhD (*Polytechnic University*). Assistant Teaching Professor. System architecture, principles of software design and construction, verification and validation methods for the development of large software systems, foundations of software engineering, software verification & validation, software design, programming languages, dependable software systems.

Rosina Weber, PhD (*Federal University of Santa Catarina*). Associate Professor.

Jake Williams, PhD (*University of Vermont*). Assistant Professor. Data science, scientific programming, computational social science, computational linguistics and natural language processing, mathematics, machine learning, algorithms and scalability

Erija Yan, PhD (*Indiana University*). Assistant Professor. Network Science, information analysis and retrieval, scholarly communication methods and applications.

Christopher C. Yang, PhD (*University of Arizona, Tucson*). Associate Professor. Web search and mining, security informatics, knowledge management, social media analytics, cross-lingual information retrieval, text summarization, multimedia retrieval, information visualization, information sharing and privacy, artificial intelligence, digital library, and electronic commerce.

Emeritus Faculty

Michael E. Atwood, PhD (*University of Colorado*) *Associate Dean for Research and for Undergraduate Education*. Professor Emeritus. Human-computer interaction, computer-supported cooperative work, organizational memory.

Thomas A. Childers, PhD (*Rutgers University*). Professor Emeritus. Measurement, evaluation, and planning of information and library services, the effectiveness of information organizations.

Prudence W. Dalrymple, PhD (*University of Wisconsin-Madison*) *Director, Institute for Healthcare Informatics*. Professor Emeritus. User-centered information behaviors, particularly in the health arena, health informatics, evidence based practice, education for the information professions and evaluation, and translation of research into practice.

David E. Fenske, PhD (*University of Wisconsin-Madison*). Dean Emeritus and Professor. Digital libraries, informatics, knowledge management and information technologies.

John B. Hall, PhD (*Florida State University*). Professor Emeritus. Academic library service, library administration, organization of materials.

Linda S. Marion, PhD (*Drexel University*). Professor Emeritus. Formal and informal communication, bibliometric studies of scholarly communication, diffusion of information, information use in the social sciences, academic and public libraries, information science education.

Katherine W. McCain, PhD (*Drexel University*). Professor Emeritus. Scholarly communication, information production and use in the research process, development and structure of scientific specialties, diffusion of innovation, bibliometrics, evaluation of information retrieval systems.

Carol Hansen Montgomery, PhD (*Drexel University*) *Dean of Libraries Emeritus*. Research Professor. Selection and use of electronic collections, evaluation of library and information systems, digital libraries, economics of libraries and digital collections.

Delia Neuman, PhD (*The Ohio State University*). Professor Emeritus. Learning in information-rich environments, instructional systems design, the use of media for learning, and school library media.

Gerry Stahl, PhD (*University of Colorado, Northwestern University*). Professor Emeritus. Human-computer interaction, computer-supported

cooperative work, computer-supported collaborative learning, theory of collaboration.

Howard D. White, PhD (*University of California at Berkeley*). Professor Emeritus. Literature information systems, bibliometrics, research methods, collection development, online searching.

Susan Wiedenbeck, PhD (*University of Pittsburgh*). Professor Emeritus. Human-computer interaction, end-user programming/end-user development, empirical studies of programmers, interface design and evaluation.

Valerie Ann Yonker, PhD (*Drexel University*). Professor Emeritus. Human service information systems, systems analysis and design, measurement in software evaluation, knowledge engineering.

Data Science

Major: Data Science

Degree Awarded: Bachelor of Science in Data Science (BSDS)

Calendar Type: Quarter

Total Credit Hours: 188.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 11.0401; 11.0501; 11.0802

Standard Occupational Classification (SOC) code: 15-1121; 15-1141

About the Program

The Bachelor of Data Science (BSDS) prepares students to meet the challenges presented by the explosive growth of very large scale and complex data sources. The availability of data from sources such as business activities, social media and scientific instruments constantly creates new problems requiring data-driven solutions and opportunities and problems for innovation. BS in Data Science students develop the knowledge and skill to address these opportunities for the benefit of individuals and organizations. Students in the degree complete a minor, typically in business or the sciences, to provide knowledge and skill in a specific subject area to which data science techniques can be applied.

Data Science students learn to:

- Define domain specific and context-relevant data analytics questions and hypotheses for individuals and organizations.
- Select relevant data sources and transform data suitable for solving data analytics problems.
- Identify appropriate techniques and tools for acquiring, retrieving, analyzing, and making use of the data.
- Apply data analytics techniques and skills to build analytical and predictive models for answering data science questions.
- Create visualizations and communicate data analytics results to a large audience and decision makers.
- Assess the necessary skills arising from the interdisciplinary nature of data science as a combination of hacking skills, analytical techniques, and domain knowledge.

The degrees in Computing and Security Technology (p. 37), Data Science, and Information Systems (p. 50) share a common first year. This allows students to easily switch among the degrees early in their studies. In addition, some of the electives in each degree are accessible to students in the other two majors and this provides a deeper and broader set of advanced topics for students in all three majors.

Additional Information

For more information about this program, please visit the BS in Data Science web page (<http://drexel.edu/cci/programs/undergraduate-programs/bs-datascience>) on the College of Computing & Informatics' website.

CCI Electives

Select 2 CCI courses that are at 200 or above level and not otherwise required

Data Science Electives

Select 2 of the following courses:

CS 275	Web and Mobile App Development	
CS 380	Artificial Intelligence	
CS 383	Machine Learning	
CS 461	Database Systems	
INFO 220	Geographic Information Science	
INFO 350	Visual Analytics	
INFO 370	Artificial Intelligence for Information Systems	
INFO 420	Software Project Management	
INFO 440	Social Media Data Analysis	

Computing and Informatics Requirements

CI 101	Computing and Informatics Design I	2.0
CI 102	Computing and Informatics Design II	2.0
CI 103	Computing and Informatics Design III	2.0
CI 491 [WI]	Senior Project I	3.0
CI 492 [WI]	Senior Project II	3.0
CI 493 [WI]	Senior Project III	3.0

Introductory Programming

INFO 151	Web Systems and Services I	3.0
CS 171	Computer Programming I	3.0
CS 172	Computer Programming II	3.0

Mathematics Requirements

Select one of the following sequences: 12.0

MATH 101 & MATH 102 & MATH 180	Introduction to Analysis I and Introduction to Analysis II and Discrete Computational Structures	
MATH 121 & MATH 122 & MATH 180	Calculus I and Calculus II and Discrete Computational Structures	

Statistics Requirements

STAT 201	Introduction to Business Statistics	4.0
STAT 202	Business Statistics II	4.0

Natural Science Requirements		
Science electives: Select from ANAT, BIO, CHEM, ENVS, FDSC, NFS, PHEV, PHYS. Courses from other departments may be considered with advisor approval.		8.0
Behavioral and Social Science Requirements		
PSY 101	General Psychology I	3.0
PSY 330	Cognitive Psychology	3.0
Arts and Humanities Requirements		
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
COM 230	Techniques of Speaking	3.0
or COM 310	Technical Communication	
University and College Requirements		
UNIV CI101	The Drexel Experience	2.0
or CI 120	CCI Transfer Student Seminar	
CIVC 101	Introduction to Civic Engagement	1.0
COOP 101	Career Management and Professional Development	0.0
Minor Requirements ¹		
		24.0
Choose a minor in a data science application area including business and natural science		
Free Electives		
		27.0
Total Credits		187.0

¹ Students should consult their academic advisor regarding a minor that requires more than 24.0 credits. *Please note:* If a Business Administration Minor is selected, MIS classes do not count towards the Business Administration Minor for Data Science students. Students must choose another option to fulfill the Business Administration Minor requirements.

Sample Plan of Study

Term		Credits
Term 1		
CI 101	Computing and Informatics Design I	2.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0

	Term Credits	15.0
Total Credit:		187.0

Minor in Data Science

Data Science provides a foundation for problem-solving in a data-driven society. The minor in Data Science combined basic courses in statistics, information and technology and social contexts to address problems that require large and disparate datasets.

Any student in any major can benefit from a minor in data science. Graduates with such background knowledge are prepared to actively participate in the application of data science within their major area of study.

The minor is available to all University students in good standing, with the exception of students majoring in data science.

CS 171	Computer Programming I	3.0
CS 172	Computer Programming II	3.0
or INFO 153	Applied Data Management	
INFO 103	Introduction to Data Science	3.0

INFO 432	Advanced Data Analytics	
INFO 440	Social Media Data Analysis	
Total Credits		26.0

Accelerated Degrees

The College of Computing & Informatics offers several Accelerated Degree programs designed to allow students to complete both a bachelor's degree and a graduate degree along with cooperative educational experience in fewer years than would be typical if pursuing the degrees separately. Students accepted in this program can combine any of the College bachelor's and master's degree programs as well as other options.

- Any CCI BS/any CCI MS Accelerated Degree (BS & MS in five years, including 2 Co-ops)
- Any CCI BS/MBA Accelerated Degree (BS/MBA)
- Any CCI BS/JD Accelerated Degree (BS/JD)

For more information on the criteria for entering this program, visit the BS/MS Accelerated Degree (<http://www.drexel.edu/undergrad/academics/accelerated-degrees>) page on Drexel's website.

For more information on how to apply for the BS/MS Accelerated Degree program, please visit the College of Computing & Informatics' website (<http://drexel.edu/cci/admissions/undergraduate/admissions-requirements/cci-bsms-degree-admissions>).

Co-op/Career Opportunities

Co-Op Options

Three co-op options are available for this program:

- 5-year/3 co-op
- 4-year/1 co-op
- Accelerated Degree (BS & MS): 5-year/2 co-op

Career Opportunities

The new data science major provides valuable skills that can be transported to a number of job settings. The demand for graduates with data science knowledge is strong, and employers often want evidence of additional communication and problem-solving skills that can be applicable to specific disciplines. Data science program graduates could potentially serve as key members of organizational data science teams able to create novel information products, with an emphasis on solving problems that can only be addressed using large and disparate data sources. The program is also an excellent preparation for graduate study in data science.

Sample job titles for data science graduates include:

- Data Scientist
- Business Intelligence Officer
- Information Architect
- Usability Analyst

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Drexel University Libraries

Drexel University Libraries (<http://www.library.drexel.edu>) is a learning enterprise, advancing the University's academic mission through serving as educators, supporting education and research, collaborating with researchers, and fostering intentional learning outside of the classroom. Drexel University Libraries engages with Drexel communities through four physical locations, including W. W. Hagerty Library, Hahnemann Library, Queen Lane Library and the Library Learning Terrace, as well as a vibrant online presence which sees, on average, over 8,000 visits per day. In the W.W. Hagerty Library location, College of Computing & Informatics students have access to private study rooms and nearly half a million books, periodicals, DVDs, videos and University Archives. All fields of inquiry are covered, including: library and information science, computer science, software engineering, health informatics, information systems, and computing technology. Resources are available online at library.drexel.edu or in-person at W. W. Hagerty Library (<http://www.library.drexel.edu/locations>).

The Libraries also make available laptop and desktop PC and Mac computers, printers and scanners, spaces for quiet work or group projects and designated 24/7 spaces. Librarians and library staff—including a liaison librarian for computing and informatics—are available for individual research consultations and to answer questions about materials or services.

iCommons

Located in Room 106 of the Rush Building, the College's iCommons is an open lab and collaborative work environment for students. It features desktop computers, a wireless/laptop area, free black and white printing,

more collaborative space for its students and a furnished common area. There is a fully equipped conference room for student use with a 42" display and videoconferencing capabilities. The iCommons provides technical support to students, faculty, and administrative staff. In addition, the staff provides audio-visual support for all presentation classrooms within the Rush Building. Use of the iCommons is reserved for all students taking CCI courses.

The computers for general use are Microsoft Windows and Macintosh OSX machines with appropriate applications which include the Microsoft Office suite, various database management systems, modeling tools, and statistical analysis software. Library related resources may be accessed at the iCommons and through the W.W. Hagerty Library. The College is a member of the Rational SEED Program which provides cutting-edge software development and project management software for usage in the iCommons and CCI classrooms. The College is also a member of the Microsoft Academic Alliance known also as "DreamSpark" that allows students free access to a wide array of Microsoft software titles and operating systems.

The iCommons, student labs, and classrooms have access to networked databases, print and file resources within the College, and the Internet via the University's network. Email accounts, Internet and BannerWeb access are available through the Office of Information Resources and Technology.

Rush Building

The Rush Building houses classrooms, CCI administrative offices (academic advising, graduate admissions, faculty, etc.) and the iCommons computer lab (open to all CCI students). The building holds 6 classrooms equipped for audio-visual presentation. These rooms typically contain a networked PC, HD video player, ceiling mounted projectors, and other equipment for presentations and demonstrations. Four of these classrooms are fully equipped to function as laptop computing labs for networking, programming and database-related projects.

The Information Technology Laboratory, located in the Rush Building, consists of enterprise class information technology hardware that students would encounter in industry positions. The hardware includes 20 high powered workstations that are available to students and specialized networking lab simulation software. The hardware is networked and reconfigurable utilizing multiple virtual technologies as needed for the various classes the laboratory supports. In addition, a special system has been built into the classroom to allow for conversion into a standard laptop computing lab utilizing motorized monitor lifts that allow the monitors and keyboards to recess into the desk.

University Crossings - Cyber Learning Center and Computer Lab

CCI also has classrooms, administrative office and faculty offices located in University Crossings, located at the corner of JFK Blvd. and Market Street. The building houses the Cyber Learning Center, a student computer lab, as well as several classrooms with video-conference enabled technology and media projection capabilities.

The Cyber Learning Center (CLC) provides consulting and other learning resources for students taking computer science classes. The CLC is staffed by graduate and undergraduate computer science students from the College of Computing & Informatics.

Both the CLC and UC Lab now serve as a central hub for small group work, student meetings, and TA assistance. The UC Lab is organized with

desk space around the perimeter of the lab for individual or partner/pair-programmed student work, as well as with clusters of tables which can be connected as needed into pods to create workspaces for larger groups.

Research Laboratories

The College houses multiple research labs, led by CCI faculty, across Drexel's main campus including: the Auerbach and Berger Families Cybersecurity Laboratory, Drexel Health and Risk Communication Lab, Socio-Technical Studies Group, Intelligent Information & Knowledge Computing Research Lab, Evidence-based Decision Making Lab, Applied Symbolic Computation Laboratory (ASYM), Geometric and Intelligent Computing Laboratory (GICL), High Performance Computing Laboratory (SPIRAL), Privacy, Security and Automation Laboratory (PSAL), Drexel Research on Play (RePlay) Laboratory, Software Engineering Research Group (SERG), Vision and Cognition Laboratory (VisCog) and the Vision and Graphics Laboratory. For more information on these laboratories, please visit the College's research web page (<http://cci.drexel.edu/research.aspx>).

Alumni Garden

The Rush Building's Alumni Garden provides additional collaborative space for students, faculty, professional staff and alumni. The Garden features wireless networking, tables with built-in power outlets, accessible covered patio and balconies and a bicycle rack. The Alumni Garden (<http://cci.drexel.edu/about/our-facilities/rush-building/rush-alumni-garden-request-for-use.aspx>) may be reserved for Drexel events.

3401 Market Street

3401 Market Street houses faculty offices and doctoral student workspaces. It also is home to College research groups such and University initiatives such as the Isaac L. Auerbach Cybersecurity Institute (<http://drexel.edu/cci/research/centers-institutes/Cybersecurity>). The Institute's Auerbach and Berger Families Cybersecurity Laboratory serves as University's first training facility dedicated to identifying challenges and discovering solutions in the areas of cyber infrastructure protection and incident response.

Evaluations

The College of Computing & Informatics works continually to improve its degree programs. As part of this effort, the Data Science degree is evaluated relative to the following Objectives and Outcomes.

BS Data Science Program Educational Objectives

Within three to five years of graduation, alumni of the program are expected to achieve one or more of the following milestones:

- Be valued contributors to private or public organizations as demonstrated by promotions, increased responsibility, or other professional recognition
- Contribute to professional knowledge as demonstrated by published papers, technical reports, patents, or conference presentations
- Succeed in continuing professional development as demonstrated by completion of graduate studies or professional certifications
- Display commitment and leadership within the professional and community as demonstrated by contributions towards society's greater good and prosperity.

BS Data Science Program Student Outcomes

The program enables students to attain, by the time of graduation

- An ability to apply knowledge of computing and mathematics appropriate to the discipline
- An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- An ability to function effectively on teams to accomplish a common goal
- An understanding of professional, ethical, legal, security and social issues
- An ability to communicate effectively with a range of audiences
- An ability to analyze the local and global impact of computing on individuals, organizations, and society
- Recognition of the need for and an ability to engage in continuing professional development
- An ability to use current techniques, skills, and tools necessary for computing practice

Information Science Faculty

Denise E. Agosto, PhD (*Rutgers, The State University of New Jersey*). Professor. Information behavior, public libraries, gender, children, young adults, multicultural materials.

Yuan An, PhD (*University of Toronto, Canada*). Associate Professor. Conceptual modeling, schema and ontology mapping, information integration, knowledge representation, requirements engineering, healthcare information systems, semantic web.

Ellen Bass, PhD (*Georgia Institute of Technology*) *Head of Department of Information Science; Joint Appointment with the College of Nursing and Health Professions*. Professor. Characterizing human judgement and decision making, modeling human judgement when supported by information automation, computational models of human-human and human-automation coordination.

Christopher Carroll, MS (*Drexel University*). Assistant Teaching Professor. Information technology within healthcare companies, computer networking and design, IT infrastructure, server technology, information security, virtualization and cloud computing.

Chaomei Chen, PhD (*University of Liverpool*). Professor. Information visualization, visual analytics, knowledge domain visualization, network analysis and modeling, scientific discovery, science mapping, scientometrics, citation analysis, human-computer interaction.

Catherine D. Collins, MLIS (*Indiana University*). Associate Teaching Professor. Knowledge management, collection development, management of information organizations, information sources and services, international development.

M. Carl Drott, PhD (*University of Michigan*). Associate Professor. Systems analysis techniques, web usage, competitive intelligence.

Andrea Forte, PhD (*Georgia Institute of Technology*) *PhD in Information Studied Program Director*. Associate Professor. Social computing, human-computer interaction, computer-supported cooperative work, computer-supported collaborative learning, information literacy.

Susan Gasson, PhD (*University of Warwick*). Associate Professor. The co-design of business and IT-systems, distributed cognition & knowledge management in boundary-spanning groups, human-centered design, social informatics, online learning communities, grounded theory.

Jane Greenberg, PhD (*University of Pittsburgh*) *Alice B. Kroeger Professor; Director, Metadata Research Center*. Metadata, ontological engineering, data science, knowledge organization, information retrieval

Peter Grillo, PhD (*Temple University*) *Associate Department Head for Undergraduate Affairs, Information Science*. Teaching Professor. Strategic applications of technology within organizations.

Gregory W. Hislop, PhD (*Drexel University*) *Senior Associate Dean for Academic Affairs*. Professor. Information technology for teaching and learning, online education, structure and organization of the information disciplines, computing education research, software evaluation and characterization.

Xiaohua Tony Hu, PhD (*University of Regina, Canada*). Professor. Data mining, text mining, Web searching and mining, information retrieval, bioinformatics and healthcare informatics.

Weimao Ke, PhD (*University of North Carolina at Chapel Hill*). Associate Professor. Information retrieval (IR), distributed systems, intelligent filtering/recommendation, information visualization, network science, complex systems, machine learning, text/data mining, multi-agent systems, the notion of information.

Xia Lin, PhD (*University of Maryland*) *Department Head, Information Science; Director of International Programs*. Professor. Digital libraries, information visualization, visual interface design, knowledge mapping, human-computer interaction, object-oriented programming, information retrieval, information architecture, information-seeking behaviors in digital environments.

Danuta A. Nitecki, PhD (*University of Maryland at College Park*) *Dean of Libraries*. Professor. Library metrics and use in management, library as place, and academic library service models.

Jung-ran Park, PhD (*University of Hawaii at Manoa*). Associate Professor. Knowledge organization and representation, metadata, computer-mediated communication, cross-cultural communication, multilingual information access.

Alex Poole, PhD (*University of North Carolina*). Assistant Professor. Archives and records, digital humanities, digital curation, pedagogy, diversity and inclusivity in the LIS profession

Lori Richards, PhD (*University of North Carolina*). Assistant Professor. Archives, digital curation, electronic records management, information technology and digital collections, cloud computing and record keeping, management of information organizations.

Michelle L. Rogers, PhD (*University of Wisconsin-Madison*). Associate Professor. Human-computer interaction, healthcare informatics, human factors engineering, socio-technical systems, health services research, patient safety.

Aleksandra Sarcevic, PhD (*Rutgers University*). Assistant Professor. Computer-supported cooperative work, human-computer interaction, healthcare informatics, crisis informatics, social analysis of information and communications technology (ICT).

Il-Yeol Song, PhD (*Louisiana State University*) *PhD in Information Studies Program Director*. Professor. Conceptual modeling, ontology and patterns, data warehouse and OLAP, object-oriented analysis and design with UML, medical and bioinformatics data modeling & integration,.

Rosina Weber, PhD (*Federal University of Santa Catarina*). Associate Professor.

Jake Williams, PhD (*University of Vermont*). Assistant Professor. Data science, scientific programming, computational social science, computational linguistics and natural language processing, mathematics, machine learning, algorithms and scalability

Christopher C. Yang, PhD (*University of Arizona, Tucson*). Associate Professor. Web search and mining, security informatics, knowledge management, social media analytics, cross-lingual information retrieval, text summarization, multimedia retrieval, information visualization, information sharing and privacy, artificial intelligence, digital library, and electronic commerce.

Emeritus Faculty

Michael E. Atwood, PhD (*University of Colorado*) *Associate Dean for Research and for Undergraduate Education*. Professor Emeritus. Human-computer interaction, computer-supported cooperative work, organizational memory.

Thomas A. Childers, PhD (*Rutgers University*). Professor Emeritus. Measurement, evaluation, and planning of information and library services, the effectiveness of information organizations.

Prudence W. Dalrymple, PhD (*University of Wisconsin-Madison*) *Director, Institute for Healthcare Informatics*. Professor Emeritus. User-centered information behaviors, particularly in the health arena, health informatics, evidence based practice, education for the information professions and evaluation, and translation of research into practice.

David E. Fenske, PhD (*University of Wisconsin-Madison*). Dean Emeritus and Professor. Digital libraries, informatics, knowledge management and information technologies.

Linda S. Marion, PhD (*Drexel University*). Professor Emeritus. Formal and informal communication, bibliometric studies of scholarly communication, diffusion of information, information use in the social sciences, academic and public libraries, information science education.

Katherine W. McCain, PhD (*Drexel University*). Professor Emeritus. Scholarly communication, information production and use in the research process, development and structure of scientific specialties, diffusion of innovation, bibliometrics, evaluation of information retrieval systems.

Carol Hansen Montgomery, PhD (*Drexel University*) *Dean of Libraries Emeritus*. Research Professor. Selection and use of electronic collections, evaluation of library and information systems, digital libraries, economics of libraries and digital collections.

Delia Neuman, PhD (*The Ohio State University*). Professor Emeritus. Learning in information-rich environments, instructional systems design, the use of media for learning, and school library media.

Howard D. White, PhD (*University of California at Berkeley*). Professor Emeritus. Literature information systems, bibliometrics, research methods, collection development, online searching.

Susan Wiedenbeck, PhD (*University of Pittsburgh*). Professor Emeritus. Human-computer interaction, end-user programming/end-user development, empirical studies of programmers, interface design and evaluation.

Valerie Ann Yonker, PhD (*Drexel University*). Professor Emeritus. Human service information systems, systems analysis and design, measurement in software evaluation, knowledge engineering.

Human Computer Interaction

About the Minor

The minor in Human Computer Interaction provides a course of study for students who would like to improve the integration of computing in the lives of individuals and to use computing to enable collaboration within groups. The minor combines courses in human computer interaction, ubiquitous computing, graphical interface design, and social computing.

The minor is available to all University students in good standing.

Program Requirements

CS 171	Computer Programming I	3.0
or INFO 151	Web Systems and Services I	
INFO 110	Introduction to Human-Computer Interaction *	3.0
INFO 215	Social Aspects of Information Systems	3.0
INFO 310	Human-Centered Design Process & Methods	3.0
HCI Electives **		
Select 4 of the following:		12.0
CS 275	Web and Mobile App Development	
CS 338	Graphical User Interfaces	
CS 345	Computer Game Design and Development	
CS 347	Experimental Game Development	
CS 348	Serious Game Development	
CS 380	Artificial Intelligence	
CS 467	Security and Human Behavior	
INFO 103	Introduction to Data Science	
INFO 150	Introduction to Ubiquitous Computing	
INFO 216	Issues in Information Policy	
INFO 250	Information Visualization	
INFO 350	Visual Analytics	
INFO 370	Artificial Intelligence for Information Systems	
INFO 405	Social and Collaborative Computing	
INFO 440	Social Media Data Analysis	
Total Credits		24.0

* CCI majors: Replace INFO 110 with an additional HCI elective.

** HCI Elective Recommendations:

For non-CCI majors: INFO 103, INFO 150, INFO 216, INFO 250 or INFO 405

For CS majors: CS 275, CS 338, CS 467

For INFO majors: INFO 150, INFO 250, INFO 350, INFO 405

Information Systems

Major: Information Systems

Degree Awarded: Bachelor of Science Degree in Information Systems (BS)

Calendar Type: Quarter

Total Credit Hours: 188.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 11.0401

Standard Occupational Classification (SOC) code: 11-3021

About the Program

The College of Computing & Informatics' Bachelor of Science in Information Systems (BSIS) prepares students to apply information technology for the benefit of individuals and organizations. Students develop the skills and knowledge to design, develop, and manage leading-edge information systems. Since many Information Systems students choose careers in business organizations, a minor in business is built in to the degree requirements.

The Information Systems curriculum prepares students for a wide range of information technology applications. Students learn how to determine client needs, design appropriate solutions, specify data architectures, and improve usability of systems.

The core courses in the program address topics including fundamentals of programming, systems analysis and design, database management systems, networking, security and privacy, and social aspects of information systems. These courses provide a foundation for more advanced courses in technical areas of interest to each student. The technical courses are supplemented by course in business, behavioral sciences, natural sciences, mathematics, and humanities to provide balance and useful supplemental materials for information systems careers.

The degrees in Computing and Security Technology (p. 37), Data Science (p. 45), and Information Systems share a common first year. This allows students to easily switch among the degrees early in their studies. In addition, some of the electives in each degree are accessible to students in the other two majors and this provides a deeper and broader set of advanced topics for students in all three majors.

Additional Information

For more information about this program, please visit the BS in Information Systems web page (<http://drexel.edu/cci/academics/programs/undergraduate-programs/bs-information-systems>) on the College of Computing & Informatics' website.

Degree Requirements

Information Systems Requirements

CT 140	Network Administration I	3.0
INFO 101	Introduction to Computing and Security Technology	3.0
INFO 102	Introduction to Information Systems	3.0
INFO 103	Introduction to Data Science	3.0
INFO 200	Systems Analysis I	3.0
INFO 210	Database Management Systems	3.0
INFO 215	Social Aspects of Information Systems	3.0
INFO 310	Human-Centered Design Process & Methods	3.0
INFO 324	Team Process and Product	3.0
INFO 333	Introduction to Information Security	3.0
INFO 355	Systems Analysis II	3.0
INFO 420	Software Project Management	3.0
Information Systems Electives		18.0

Programming Requirements

Choose one of the following sequences		
INFO 151 & CS 171 & CS 172	Web Systems and Services I and Computer Programming I and Computer Programming II	9.0
INFO 151 & INFO 152 & INFO 153	Web Systems and Services I and Web Systems and Services II and Applied Data Management	

Computing and Informatics Requirements

CI 101	Computing and Informatics Design I	2.0
CI 102	Computing and Informatics Design II	2.0
CI 103	Computing and Informatics Design III	2.0
CI 491 [WI]	Senior Project I	3.0
CI 492 [WI]	Senior Project II	3.0
CI 493 [WI]	Senior Project III	3.0

Business or IS Environment Minor Requirements (See Minor Requirements below)

Mathematics Requirements

Choose 1 of the following sequences:			8.0
MATH 101 & MATH 102	Introduction to Analysis I and Introduction to Analysis II		
MATH 121 & MATH 122	Calculus I and Calculus II		
MATH 180	Discrete Computational Structures		4.0
STAT 201	Introduction to Business Statistics		4.0

Natural Science Requirements

Select 8.0 credits from any non-required courses from the following: ANAT, BIO, CHEM, ENV5, FDSC, NFS, PHEV, PHYS, HSCI, GEO, ENSS			8.0
--	--	--	-----

Liberal Studies Requirements

COM 230 or COM 310	Techniques of Speaking Technical Communication		3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research		3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing		3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres		3.0
Select and non-required courses from ANTH, COM, ENGL, HIST, PHIL, PSCI, PSY, SOC, WRIT, ECON, ENTP, ARTH, FMST, MUSC, TVST, VSST			6.0

University and College Requirements

CIVC 101	Introduction to Civic Engagement		1.0
COOP 101	Career Management and Professional Development		0.0
UNIV CI101 or CI 120	The Drexel Experience CCI Transfer Student Seminar		2.0

Free Electives			40.0
Total Credits			187.0

* Any non-required INFO course

Minor Requirements:

Students must complete the requirements for a minor in an information systems application area. The following minors are approved for this requirement:

- College of Business minors – Note: the MIS minor cannot be used for this requirement due to its considerable overlap with the IS major
- Close School of Entrepreneurship minors
- School of Public Health minors
- Other minors in IS application areas may be taken for this requirement with prior approval of an advisor

Business Minor Requirement

In addition to taking STAT 201, students complete the requirements for one of the following business minors. *Please note:* MIS classes do not count towards the Business Administration Minor for Information Systems students. Students must choose another option to fulfill the Business Administration Minor requirements.

- Accounting (p. 71)
- Business Administration
- Economics

- Finance
- International Economics (p. 120)
- Legal Studies (p. 88)
- Marketing (p. 93)
- Operations & Supply Chain Management (p. 97)

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

5 YR UG Co-op Concentration

Term 1		Credits
CI 101	Computing and Informatics Design I	2.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
INFO 101	Introduction to Computing and Security Technology	3.0
INFO 151	Web Systems and Services I	3.0
MATH 101 or 121	Introduction to Analysis I Calculus I	4.0
UNIV CI101	The Drexel Experience	1.0
	Term Credits	16.0
Term 2		
CI 102	Computing and Informatics Design II	2.0
CIVC 101	Introduction to Civic Engagement	1.0
COOP 101**	Career Management and Professional Development	0.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
INFO 102	Introduction to Information Systems	3.0
INFO 152 or CS 171	Web Systems and Services II Computer Programming I	3.0
MATH 102 or 122	Introduction to Analysis II Calculus II	4.0
	Term Credits	16.0
Term 3		
CI 103	Computing and Informatics Design III	2.0
COOP 101**	Career Management and Professional Development	0.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
INFO 103	Introduction to Data Science	3.0
INFO 153 or CS 172	Applied Data Management Computer Programming II	3.0
MATH 180	Discrete Computational Structures	4.0

UNIV CI101**	The Drexel Experience	1.0
	Term Credits	16.0
Term 4		
COM 230	Techniques of Speaking	3.0
INFO 200	Systems Analysis I	3.0
INFO 215	Social Aspects of Information Systems	3.0
Free electives		6.0
	Term Credits	15.0
Term 5		
INFO 210	Database Management Systems	3.0
STAT 201	Introduction to Business Statistics	4.0
INFO elective		3.0
Liberal Studies Elective		3.0
Free elective		3.0
	Term Credits	16.0
Term 6		
INFO 324	Team Process and Product	3.0
INFO 333	Introduction to Information Security	3.0
Free elective		3.0
INFO elective		3.0
Minor elective		4.0
	Term Credits	16.0
Term 7		
CT 140	Network Administration I	3.0
INFO 310	Human-Centered Design Process & Methods	3.0
INFO elective		3.0
Liberal Studies elective		3.0
Minor elective		4.0
	Term Credits	16.0
Term 8		
INFO 355	Systems Analysis II	3.0
Science Sequence Course 1*		4.0
Minor elective		4.0
Free elective		4.0
	Term Credits	15.0
Term 9		
INFO 420	Software Project Management	3.0
Minor electives		8.0
Science Sequence Course 2*		4.0
	Term Credits	15.0
Term 10		
CI 491 [WI]	Senior Project I	3.0
INFO electives		6.0
Minor elective		4.0
Free elective		3.0
	Term Credits	16.0
Term 11		
CI 492 [WI]	Senior Project II	3.0
INFO elective		3.0
Free electives		9.0
	Term Credits	15.0
Term 12		
CI 493 [WI]	Senior Project III	3.0
Free electives		12.0
	Term Credits	15.0
Total Credit: 187.0		

* See degree requirements (p. 51).

** COOP 101 is taken either winter or spring depending on co-op cycle. Please consult your advisor for additional information.

Minor in Information Systems

The information systems minor is available to all University students in good standing, with the exception of students already majoring in information systems, information technology or informatics.

Required Courses

INFO 101	Introduction to Computing and Security Technology	3.0
INFO 110	Introduction to Human-Computer Interaction	3.0
INFO 200	Systems Analysis I	3.0
INFO 210	Database Management Systems	3.0
INFO 330	Computer Networking Technology I	4.0
INFO 355	Systems Analysis II	3.0
Two information system electives *		6.0
Total Credits		25.0

* An additional 6 credits or more are to be chosen from other course offerings in information systems pertinent to the student's overall program of study. Guidance in selecting these electives will be provided by staff and faculty of the College of Information Science and Technology.

Accelerated Degrees

The College of Computing & Informatics offers several Accelerated Degree programs designed to allow students to complete both a bachelor's degree and a graduate degree along with cooperative educational experience in fewer years than would be typical if pursuing the degrees separately.

Students accepted in this program can combine any of the College's bachelor's and master's degree programs as well as other options:

- Any CCI BS/any CCI MS Accelerated Degree (BS & MS in five years, including 2 Co-ops)
- Any CCI BS/MBA Accelerated Degree (BS/MBA)
- Any CCI BS/JD Accelerated Degree (BS/JD)

For more information on the criteria for entering this program, visit the BS/MS Accelerated Degree (<http://www.drexel.edu/undergrad/academics/accelerated-degrees>) page on Drexel's website.

For more information on how to apply for the BS/MS Accelerated Degree program, please visit the College of Computing & Informatics' website (<http://drexel.edu/ccj/admissions/undergraduate/admissions-requirements/cci-bsms-degree-admissions>).

Co-op/Career Opportunities

Co-Op Options

Two co-op options are available for this program:

- 5-year/3 co-op
- 4-year/1 co-op
- Accelerated Degree (BS & MS): 5-year/2 co-op

The following list is a sample of recent co-op job titles and employers:

- *Applications Architect*, Aetna
- *e-Communications Intern*, Airgas
- *PC Network Support*, Aramark
- *Information Systems Intern*, Campbell's Soup

- *Distributed WAN Support Co-op*, Cigna
- *Network Services*, GlaxoSmithKline
- *Programmer/Analyst*, Independence Blue Cross
- *Information Management Co-op*, Johnson & Johnson
- *Database Developer*, Princeton Plasma Physics
- *Website Developer*, QVC
- *Shared Services Co-op*, Wyeth

Career Opportunities

The demand for information systems professionals is strong. Graduates find careers in a number of areas, including designing information systems, leading project teams, planning, developing, and marketing information systems. Most information systems students enter the professional world right after graduation, but some continue their studies in advanced information technology programs.

Job titles of recent information systems graduates include:

- Security Analyst
- Network Systems Analyst
- Database Administrator
- Data Communications Analyst
- Systems Administrator
- Systems Engineer

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Drexel University Libraries

Drexel University Libraries (<http://www.library.drexel.edu>) is a learning enterprise, advancing the University's academic mission through serving as educators, supporting education and research, collaborating with researchers, and fostering intentional learning outside of the classroom. Drexel University Libraries engages with Drexel communities through four physical locations, including W. W. Hagerty Library, Hahnemann Library, Queen Lane Library and the Library Learning Terrace, as well as a vibrant online presence which sees, on average, over 8,000 visits per day. In the W.W. Hagerty Library location, College of Computing & Informatics students have access to private study rooms and nearly half a million books, periodicals, DVDs, videos and University Archives. All fields of inquiry are covered, including: library and information science, computer science, software engineering, health informatics, information systems, and computing technology. Resources are available online at library.drexel.edu or in-person at W. W. Hagerty Library (<http://www.library.drexel.edu/locations>).

The Libraries also make available laptop and desktop PC and Mac computers, printers and scanners, spaces for quiet work or group projects and designated 24/7 spaces. Librarians and library staff—including a liaison librarian for computing and informatics—are available for individual research consultations and to answer questions about materials or services.

iCommons

Located in Room 106 of the Rush Building, the College's iCommons is an open lab and collaborative work environment for students. It features desktop computers, a wireless/laptop area, free black and white printing, more collaborative space for its students and a furnished common area. There is a fully equipped conference room for student use with a 42"

display and videoconferencing capabilities. The iCommons provides technical support to students, faculty, and administrative staff. In addition, the staff provides audio-visual support for all presentation classrooms within the Rush Building. Use of the iCommons is reserved for all students taking CCI courses.

The computers for general use are Microsoft Windows and Macintosh OSX machines with appropriate applications which include the Microsoft Office suite, various database management systems, modeling tools, and statistical analysis software. Library related resources may be accessed at the iCommons and through the W.W. Hagerty Library. The College is a member of the Rational SEED Program which provides cutting-edge software development and project management software for usage in the iCommons and CCI classrooms. The College is also a member of the Microsoft Academic Alliance known also as "DreamSpark" that allows students free access to a wide array of Microsoft software titles and operating systems.

The iCommons, student labs, and classrooms have access to networked databases, print and file resources within the College, and the Internet via the University's network. Email accounts, Internet and BannerWeb access are available through the Office of Information Resources and Technology.

Rush Building

The Rush Building houses classrooms, CCI administrative offices (academic advising, graduate admissions, faculty, etc.) and the iCommons computer lab (open to all CCI students). The building holds 6 classrooms equipped for audio-visual presentation. These rooms typically contain a networked PC, HD video player, ceiling mounted projectors, and other equipment for presentations and demonstrations. Four of these classrooms are fully equipped to function as laptop computing labs for networking, programming and database-related projects.

The Information Technology Laboratory, located in the Rush Building, consists of enterprise class information technology hardware that students would encounter in industry positions. The hardware includes 20 high powered workstations that are available to students and specialized networking lab simulation software. The hardware is networked and reconfigurable utilizing multiple virtual technologies as needed for the various classes the laboratory supports. In addition, a special system has been built into the classroom to allow for conversion into a standard laptop computing lab utilizing motorized monitor lifts that allow the monitors and keyboards to recess into the desk.

University Crossings - Cyber Learning Center and Computer Lab

CCI also has classrooms, administrative office and faculty offices located in University Crossings, located at the corner of JFK Blvd. and Market Street. The building houses the Cyber Learning Center, a student computer lab, as well as several classrooms with video-conference enabled technology and media projection capabilities.

The Cyber Learning Center (CLC) provides consulting and other learning resources for students taking computer science classes. The CLC is staffed by graduate and undergraduate computer science students from the College of Computing & Informatics.

Both the CLC and UC Lab now serve as a central hub for small group work, student meetings, and TA assistance. The UC Lab is organized with desk space around the perimeter of the lab for individual or partner/pair-

programmed student work, as well as with clusters of tables which can be connected as needed into pods to create workspaces for larger groups.

Research Laboratories

The College houses multiple research labs, led by CCI faculty, across Drexel's main campus including: the Auerbach and Berger Families Cybersecurity Laboratory, Drexel Health and Risk Communication Lab, Socio-Technical Studies Group, Intelligent Information & Knowledge Computing Research Lab, Evidence-based Decision Making Lab, Applied Symbolic Computation Laboratory (ASYM), Geometric and Intelligent Computing Laboratory (GICL), High Performance Computing Laboratory (SPIRAL), Privacy, Security and Automation Laboratory (PSAL), Drexel Research on Play (RePlay) Laboratory, Software Engineering Research Group (SERG), Vision and Cognition Laboratory (VisCog) and the Vision and Graphics Laboratory. For more information on these laboratories, please visit the College's research web page (<http://cci.drexel.edu/research.aspx>).

Alumni Garden

The Rush Building's Alumni Garden provides additional collaborative space for students, faculty, professional staff and alumni. The Garden features wireless networking, tables with built-in power outlets, accessible covered patio and balconies and a bicycle rack. The Alumni Garden (<http://cci.drexel.edu/about/our-facilities/rush-building/rush-alumni-garden-request-for-use.aspx>) may be reserved for Drexel events.

3401 Market Street

3401 Market Street houses faculty offices and doctoral student workspaces. It also is home to College research groups such and University initiatives such as the Isaac L. Auerbach Cybersecurity Institute (<http://drexel.edu/cci/research/centers-institutes/Cybersecurity>). The Institute's Auerbach and Berger Families Cybersecurity Laboratory serves as University's first training facility dedicated to identifying challenges and discovering solutions in the areas of cyber infrastructure protection and incident response.

Evaluations

The College of Computing & Informatics works continually to improve its degree programs. As part of this effort, the Information Systems degree is evaluated relative to the following Objectives and Outcomes.

BS in Information Systems Program Educational Objectives

Within three to five years of graduating, alumni of the program are expected to achieve one or more of the following milestones:

- a. Be valued contributors to private or public organizations as demonstrated by promotions, increased responsibility, or other professional recognition
- b. Contribute to professional knowledge as demonstrated by published papers, technical reports, patents, or conference presentations
- c. Succeed in continuing professional development as demonstrated by completion of graduate studies or professional certifications
- d. Demonstrate commitment and leadership within their profession and community as demonstrated by professional and community activity or contributions towards society's greater good and prosperity

BS in Information Systems Student Outcomes

The program enables students to attain, by the time of graduation:

- a. An ability to apply knowledge of computing and mathematics appropriate to the discipline
- b. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- c. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- d. An ability to function effectively on teams to accomplish a common goal
- e. An understanding of professional, ethical, legal, security and social issues
- f. An ability to communicate effectively with a range of audiences
- g. An ability to analyze the local and global impact of computing on individuals, organizations, and society
- h. Recognition of the need for and an ability to engage in continuing professional development
- i. An ability to use current techniques, skills, and tools necessary for computing practice.
- j. An understanding of processes that support the delivery and management of information systems within a specific application environment

The BSIS is accredited by the Computing Accreditation Commission (CAC) of ABET, <http://www.abet.org>.

To view the latest BS in Information Systems program enrollment numbers, please click here (<http://drexel.edu/cci/programs/undergraduate-programs/Facts>).

Computing & Informatics Faculty

Denise E. Agosto, PhD (*Rutgers, The State University of New Jersey*). Professor. Information behavior, public libraries, gender, children, young adults, multicultural materials.

Yuan An, PhD (*University of Toronto, Canada*). Associate Professor. Conceptual modeling, schema and ontology mapping, information integration, knowledge representation, requirements engineering, healthcare information systems, semantic web.

David Augenblick, MS (*University of Pennsylvania*). Associate Teaching Professor. Introductory and object-oriented programming, data structures and database systems, computer application project management, application of computer programming principles and solutions to engineering problems.

Ellen Bass, PhD (*Georgia Institute of Technology*) *Head of Department of Information Science; Joint Appointment with the College of Nursing and Health Professions*. Professor. Characterizing human judgement and decision making, modeling human judgement when supported by information automation, computational models of human-human and human-automation coordination.

Mark Boady, PhD (*Drexel University*). Assistant Teaching Professor. Computer Algebra, complex symbolic calculations, automation of computation problems

David E. Breen, PhD (*Rensselaer Polytechnic Institute*). Associate Professor. Self-organization, biomedical image/video analysis, biological simulation, geometric modeling and visualization

Matthew Burlick, PhD (*Stevens Institute of Technology*). Assistant Teaching Professor. Image processing, machine learning, real-time video

tracking, object detection and classification, statistics/probability, and acoustics

Yuanfang Cai, PhD (*University of Virginia*). Associate Professor. Formal software design modeling and analysis, software economics, software evolution and modularity.

Christopher Carroll, MS (*Drexel University*). Assistant Teaching Professor. Information technology within healthcare companies, computer networking and design, IT infrastructure, server technology, information security, virtualization and cloud computing.

Bruce W. Char, PhD (*University of California-Berkeley*). Professor. Symbolic mathematical computation, algorithms and systems for computer algebra, problem-solving environments parallel and distributed computation.

Chaomei Chen, PhD (*University of Liverpool*). Professor. Information visualization, visual analytics, knowledge domain visualization, network analysis and modeling, scientific discovery, science mapping, scientometrics, citation analysis, human-computer interaction.

Michael Chu, MSE (*University of Pennsylvania*). Associate Teaching Professor. System, server, computer networking and design; IT Infrastructure; information technology management and security; Web system programming; database and mobile application development

Catherine D. Collins, MLIS (*Indiana University*). Associate Teaching Professor. Knowledge management, collection development, management of information organizations, information sources and services, international development.

M. Carl Drott, PhD (*University of Michigan*). Associate Professor. Systems analysis techniques, web usage, competitive intelligence.

Andrea Forte, PhD (*Georgia Institute of Technology*) *PhD in Information Studied Program Director*. Associate Professor. Social computing, human-computer interaction, computer-supported cooperative work, computer-supported collaborative learning, information literacy.

Susan Gasson, PhD (*University of Warwick*). Associate Professor. The co-design of business and IT-systems, distributed cognition & knowledge management in boundary-spanning groups, human-centered design, social informatics, online learning communities, grounded theory.

Colin Gordon, PhD (*University of Washington*). Assistant Professor. Software reliability, program behavior, concurrent and systems-level code, formal assurance, programming models, distributed computing, even testing

Jane Greenberg, PhD (*University of Pittsburgh*) *Alice B. Kroeger Professor; Director, Metadata Research Center*. Metadata, ontological engineering, data science, knowledge organization, information retrieval

Rachel Greenstadt, PhD (*Harvard University*). Associate Professor. Artificial intelligence, privacy, security, multi-agent systems, economics of electronic privacy and information security.

Peter Grillo, PhD (*Temple University*) *Associate Department Head for Undergraduate Affairs, Information Science*. Teaching Professor. Strategic applications of technology within organizations.

Gregory W. Hislop, PhD (*Drexel University*) *Senior Associate Dean for Academic Affairs*. Professor. Information technology for teaching and learning, online education, structure and organization of the information

disciplines, computing education research, software evaluation and characterization.

Xiaohua Tony Hu, PhD (*University of Regina, Canada*). Professor. Data mining, text mining, Web searching and mining, information retrieval, bioinformatics and healthcare informatics.

Jeremy R. Johnson, PhD (*Ohio State University*). Professor. Computer algebra; parallel computations; algebraic algorithms; scientific computing.

Weimao Ke, PhD (*University of North Carolina at Chapel Hill*). Associate Professor. Information retrieval (IR), distributed systems, intelligent filtering/recommendation, information visualization, network science, complex systems, machine learning, text/data mining, multi-agent systems, the notion of information.

Xia Lin, PhD (*University of Maryland*) *Department Head, Information Science; Director of International Programs*. Professor. Digital libraries, information visualization, visual interface design, knowledge mapping, human-computer interaction, object-oriented programming, information retrieval, information architecture, information-seeking behaviors in digital environments.

Geoffrey Mainland, PhD (*Harvard University*). Assistant Professor. High-level programming languages and runtime support for non-general purpose computation.

Spiros Mancoridis, PhD (*University of Toronto*). Professor. Software engineering; software security; code analysis; evolutionary computation.

Gabriela Marcu, PhD (*Carnegie Mellon University*). Assistant Teaching Professor. Human-computer interaction, health informatics, action research, ethnography, user experience design, designing for social change, organizational information systems, ubiquitous computing, knowledge management.

Adelaida Alban Medlock, MS (*Drexel University*). Associate Teaching Professor. Introductory programming; computer science education.

William Mongan, MS (*Drexel University*) *Associate Department Head for Undergraduate Affairs, Computer Science*. Associate Teaching Professor. Service-oriented architectures, program comprehension, reverse engineering, software engineering, computer architecture, computer science education, engineering education outreach

Gaurav Naik, MS (*Drexel University*). Assistant Research Professor. Computer networking and cybersecurity

Ko Nishino, PhD (*University of Tokyo*) *Associate Department Head for Graduate Affairs, Computer Science*. Professor. Computer vision, computer graphics, analysis and synthesis of visual appearance.

Danuta A. Nitecki, PhD (*University of Maryland at College Park*) *Dean of Libraries*. Professor. Library metrics and use in management, library as place, and academic library service models.

Krzysztof Nowak, PhD (*Washington University*). Associate Teaching Professor. Fourier analysis, partial differential equations, image processing, wavelets, asymptotic distribution of eigenvalues, numerical methods and algorithms, computer science education.

Santiago Ontañón, PhD (*University of Barcelona*). Assistant Professor. Game AI, computer games, artificial intelligence, machine learning, case-based reasoning

Jung-ran Park, PhD (*University of Hawaii at Manoa*). Associate Professor. Knowledge organization and representation, metadata, computer-mediated communication, cross-cultural communication, multilingual information access.

Alex Poole, PhD (*University of North Carolina*). Assistant Professor. Archives and records, digital humanities, digital curation, pedagogy, diversity and inclusivity in the LIS profession

Jeffrey L. Popyack, PhD (*University of Virginia*). Professor. Operations research, stochastic optimization, computational methods of Markov decision processes; artificial intelligence, computer science education.

Lori Richards, PhD (*University of North Carolina*). Assistant Professor. Archives, digital curation, electronic records management, information technology and digital collections, cloud computing and record keeping, management of information organizations.

Michelle L. Rogers, PhD (*University of Wisconsin-Madison*). Associate Professor. Human-computer interaction, healthcare informatics, human factors engineering, socio-technical systems, health services research, patient safety.

Jeffrey Salvage, MS (*Drexel University*). Teaching Professor. Object-oriented programming, multi-agent systems, software engineering, database theory, introductory programming, data structures.

Dario Salvucci, PhD (*Carnegie Mellon University*) *Department Head, Computer Science*. Professor. Human computer interaction, cognitive science, machine learning, applications for driving.

Kurt Schmidt, MS (*Drexel University*). Associate Teaching Professor. Data structures, math foundations for computer science, programming tools, programming languages.

Ali Shokoufandeh, PhD (*Rutgers University*) *Senior Associate Dean of Research*. Professor. Theory of algorithms, graph theory, combinatorial optimization, computer vision.

Erin Solovey, PhD (*Tufts University*). Assistant Professor. Human-computer interaction, brain-computer interfaces, tangible interaction, machine learning, human interaction with complex and autonomous systems.

Il-Yeol Song, PhD (*Louisiana State University*) *PhD in Information Studies Program Director*. Professor. Conceptual modeling, ontology and patterns, data warehouse and OLAP, object-oriented analysis and design with UML, medical and bioinformatics data modeling & integration,.

Julia Stoyanovich, PhD (*Columbia University*). Assistant Professor. Data and knowledge management, big data, biological data management, search and ranking.

Brian Stuart, PhD (*Purdue University*). Associate Teaching Professor. Machine learning, networking, robotics, image processing, simulation, interpreters, data storage, operating systems, computer science, data communications, distributed/operating systems, accelerated computer programming, computer graphics.

Filippos Vokolos, PhD (*Polytechnic University*). Assistant Teaching Professor. System architecture, principles of software design and construction, verification and validation methods for the development of large software systems, foundations of software engineering, software verification & validation, software design, programming languages, dependable software systems.

Rosina Weber, PhD (*Federal University of Santa Catarina*). Associate Professor.

Jake Williams, PhD (*University of Vermont*). Assistant Professor. Data science, scientific programming, computational social science, computational linguistics and natural language processing, mathematics, machine learning, algorithms and scalability

Erija Yan, PhD (*Indiana University*). Assistant Professor. Network Science, information analysis and retrieval, scholarly communication methods and applications.

Christopher C. Yang, PhD (*University of Arizona, Tucson*). Associate Professor. Web search and mining, security informatics, knowledge management, social media analytics, cross-lingual information retrieval, text summarization, multimedia retrieval, information visualization, information sharing and privacy, artificial intelligence, digital library, and electronic commerce.

Emeritus Faculty

Michael E. Atwood, PhD (*University of Colorado*) *Associate Dean for Research and for Undergraduate Education*. Professor Emeritus. Human-computer interaction, computer-supported cooperative work, organizational memory.

Thomas A. Childers, PhD (*Rutgers University*). Professor Emeritus. Measurement, evaluation, and planning of information and library services, the effectiveness of information organizations.

Prudence W. Dalrymple, PhD (*University of Wisconsin-Madison*) *Director, Institute for Healthcare Informatics*. Professor Emeritus. User-centered information behaviors, particularly in the health arena, health informatics, evidence based practice, education for the information professions and evaluation, and translation of research into practice.

David E. Fenske, PhD (*University of Wisconsin-Madison*). Dean Emeritus and Professor. Digital libraries, informatics, knowledge management and information technologies.

John B. Hall, PhD (*Florida State University*). Professor Emeritus. Academic library service, library administration, organization of materials.

Linda S. Marion, PhD (*Drexel University*). Professor Emeritus. Formal and informal communication, bibliometric studies of scholarly communication, diffusion of information, information use in the social sciences, academic and public libraries, information science education.

Katherine W. McCain, PhD (*Drexel University*). Professor Emeritus. Scholarly communication, information production and use in the research process, development and structure of scientific specialties, diffusion of innovation, bibliometrics, evaluation of information retrieval systems.

Carol Hansen Montgomery, PhD (*Drexel University*) *Dean of Libraries Emeritus*. Research Professor. Selection and use of electronic collections, evaluation of library and information systems, digital libraries, economics of libraries and digital collections.

Delia Neuman, PhD (*The Ohio State University*). Professor Emeritus. Learning in information-rich environments, instructional systems design, the use of media for learning, and school library media.

Gerry Stahl, PhD (*University of Colorado, Northwestern University*). Professor Emeritus. Human-computer interaction, computer-supported

cooperative work, computer-supported collaborative learning, theory of collaboration.

Howard D. White, PhD (*University of California at Berkeley*). Professor Emeritus. Literature information systems, bibliometrics, research methods, collection development, online searching.

Susan Wiedenbeck, PhD (*University of Pittsburgh*). Professor Emeritus. Human-computer interaction, end-user programming/end-user development, empirical studies of programmers, interface design and evaluation.

Valerie Ann Yonker, PhD (*Drexel University*). Professor Emeritus. Human service information systems, systems analysis and design, measurement in software evaluation, knowledge engineering.

Minor in Security Technology

The demand for individuals with security related skills is increasing and essential in today's internet-dominated society. Computer and information systems managers are becoming more involved with the security of data, responsible for sophisticated and more efficient computer networks and increasingly more complex websites and intranets. The minor in Security Technology combines basic courses in security and technology required to help organizations keep their computer systems secure.

Any student in any major can benefit from a minor in Security Technology. Graduates with such background knowledge are prepared to actively participate in the application of security technology within the major area of study.

The minor is available to all University students in good standing, with the exception of students majoring in Computing and Security Technology.

CT 140	Network Administration I	3.0
CT 210	Open Server I	3.0
CT 312	Access Control and Intrusion Detection Technology	3.0
CT 395	Information Technology Security I	3.0
CT 412	Information Technology Security Policies	3.0
CT 420	Information Technology Security II	3.0
INFO 101	Introduction to Computing and Security Technology	3.0

Software Engineering

Major: Software Engineering

Degree Awarded: Bachelor of Science in Software Engineering (BSSE)

Calendar Type: Quarter

Total Credit Hours: 188.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Program (CIP) code: 14.0903

Standard Occupational Classification (SOC) code: 15-1132; 15-1133

About the Program

The College of Computing & Informatics' Bachelor of Science in Software Engineering (BSSE) prepares students to design and build software systems. Software is essential to the functioning of modern society but

high quality software is very challenging to create. Software engineering focuses on the knowledge and skills to meet that challenge and create high quality software on schedule within budget.

The Software Engineering curriculum addresses a full range of software activities including gathering client requirements, designing and constructing software solutions, testing software, and modifying and extending existing systems. The curriculum also recognizes that most software is developed by teams, and students develop skills in project management and team operation. Graduates are well-prepared to function as software engineering team members and also move toward software engineering management.

The core courses address programming and use of software development tools, specification and design, software architecture, verification and validation, software evolution, and team projects. These courses are supplemented with courses drawn from computer science and Informatics that provide theoretical background and application knowledge. The full curriculum prepares BSSE students to apply processes, methods, and tools to the problem of building and maintaining software with a defined level of quality, at a predictable cost, on a predictable schedule.

Additional Information

For more information about this program, please visit the BS in Software Engineering web page (<http://drexel.edu/cci/academics/programs/undergraduate-programs/bs-software-engineering>) on the College of Computing & Informatics' website.

Degree Requirements

Software Engineering Requirements

CS 164	Introduction to Computer Science	3.0
CS 171	Computer Programming I	3.0
or CS 175	Advanced Computer Programming I	
CS 172	Computer Programming II	3.0
or CS 176	Advanced Computer Programming II	
SE 210	Software Specification and Design I	3.0
SE 211	Software Specification and Design II	3.0
SE 310	Software Architecture I	3.0
SE 311	Software Architecture II	3.0
SE 320	Software Verification and Validation	3.0
SE 410	Software Evolution	3.0

Computer Science Requirements

CS 260	Data Structures	3.0
CS 265	Advanced Programming Tools and Techniques	3.0
CS 281	Systems Architecture	4.0
CS 283	Systems Programming	3.0

Information Systems Requirements

INFO 210	Database Management Systems	3.0
INFO 310	Human-Centered Design Process & Methods	3.0
INFO 420	Software Project Management	3.0

Computing & Informatics Requirements

CI 101	Computing and Informatics Design I	2.0
CI 102	Computing and Informatics Design II	2.0
CI 103	Computing and Informatics Design III	2.0
CI 491 [WI]	Senior Project I	3.0
CI 492 [WI]	Senior Project II	3.0
CI 493 [WI]	Senior Project III	3.0

Computing & Informatics Electives

CS 472	Computer Networks: Theory, Applications and Programming	3.0-4.0
or INFO 330	Computer Networking Technology I	
Computing & Informatics electives (see below)		18.0

Mathematics Requirements

CS 270	Mathematical Foundations of Computer Science	3.0
MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 123	Calculus III	4.0
MATH 221	Discrete Mathematics	3.0
STAT 201	Introduction to Business Statistics	4.0
STAT 202	Business Statistics II	4.0

Science Requirements

Select one of the following lab science sequences:

BIO 122 & BIO 124 & BIO 126	Cells and Genetics and Evolution & Organismal Diversity and Physiology and Ecology	
CHEM 101 & CHEM 102 & CHEM 103	General Chemistry I and General Chemistry II and General Chemistry III	
PHYS 101 & PHYS 102 & PHYS 201	Fundamentals of Physics I and Fundamentals of Physics II and Fundamentals of Physics III	

Additional Science electives to reach 21 credits (see below)

Arts & Humanities Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PHIL 105	Critical Reasoning	3.0
PHIL 311	Ethics and Information Technology	3.0
COM 230	Techniques of Speaking	3.0
COM 310 [WI]	Technical Communication	3.0
PSY 101	General Psychology I	3.0
PSY 330	Cognitive Psychology	3.0

Select two of the following:

ACCT 110	Accounting for Professionals	
ECON 201	Principles of Microeconomics	
ECON 202	Principles of Macroeconomics	

Arts & Humanities, Business, or Social Studies elective (see below) 3.0-4.0

University Requirements

UNIV CI101	The Drexel Experience	2.0
or CI 120	CCI Transfer Student Seminar	
CIVC 101	Introduction to Civic Engagement	1.0
COOP 101	Career Management and Professional Development	0.0

Free Electives 13.0-18.0

Total Credits 186.0-193.0

Program Electives

- **Computing & Informatics electives:** any non-required CS, INFO, SE course numbered 300 or higher except CS 350 [WI] or CS 451
- **Science electives:** any CHEM (except CHEM 111, CHEM 112, CHEM 113, CHEM 114, CHEM 151), BIO (except BIO 161, BIO 162, BIO 163; can take only one of BIO 100, BIO 107, BIO 122; can take only one of BIO 101, BIO 109, BIO 124), PHYS (except PHYS 050, PHYS 100, PHYS 103, PHYS 104, PHYS 105, PHYS 106 [WI], PHYS 121, PHYS 122, PHYS 151, PHYS 160, PHYS 305, PHYS 324, PHYS 405; cannot take both PHYS 131 and PHYS 181), ENVS, ENSS, PHEV.
- **Business electives:** any ACCT, BLAW, BUSN, ECON, ENTP, FIN, HRMT, INTB, MGMT, MIS, MKTG, OPM, OPR, ORGB, STAT, TAX
- **Social Studies electives:** any AFAS, ANTH, HIST, GST, JUDA, PSCI, PSY (except PSY 332, PSY 337), SOC (except SOC 364, SOC 365), WGST
- **Arts & Humanities electives:** any ARCH, ARTH, CMGT, CJS, COM, CULA, DANC, EDEX, EDUC, ENGL (except ENGL 101, ENGL 102,

ENGL 103, ENGL 105), ESTM, FASH, FMVD, INTR, LING, MUSC, PHIL, PHTO, THTR, VSCM, VSST, WRIT, Foreign Language courses (<http://www.drexel.edu/culturecomm/academics/undergraduate/modernlang/languages>) as defined by the College of Arts and Sciences, and GMAP 260, ANIM 140, ANIM 141, ANIM 152, ANIM 211, ANIM 212

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

5 YR UG Co-op Concentration

5 YR UG Co-op Concentration

Term 1		Credits
CI 101	Computing and Informatics Design I	2.0

Total Credit: 188.0	

Minor in Software Engineering

The Software Engineering minor is available to all University students in good standing, with the exception of Software Engineering majors.

Prerequisites

One of the following Mathematics sequences must be completed before entering the program:

- MATH 101 and MATH 102
- MATH 121 and MATH 122

Requirements

CS 171	Computer Programming I	3.0
or CS 175	Advanced Computer Programming I	
CS 172	Computer Programming II	3.0
or CS 176	Advanced Computer Programming II	
CS 260	Data Structures	3.0
CS 265	Advanced Programming Tools and Techniques	3.0
SE 210	Software Specification and Design I	3.0
SE 310	Software Architecture I	3.0
or CS 350	Software Design	
SE 320	Software Verification and Validation	3.0
Select one of the following:		3.0
SE 211	Software Specification and Design II	
SE 311	Software Architecture II	
SE 410	Software Evolution	
Total Credits		24.0

Note: No more than 9.0 credits from a student's major may be used to fulfill the minor requirements. Students who, because of this rule, require additional credits to reach 24.0 total credits may select from the following courses as needed:

INFO 210	Database Management Systems	3.0
INFO 310	Human-Centered Design Process & Methods	3.0
INFO 355	Systems Analysis II	3.0
INFO 420	Software Project Management	3.0

Accelerated Degrees

The College of Computing & Informatics offers several accelerated degree programs designed to allow students to complete both a bachelor's degree and a graduate degree along with cooperative educational experience in fewer years than would be typical if pursuing the degrees separately.

Students accepted in this program can combine any of the Computing and Informatics bachelor's and master's degree programs as well as other options:

- Any CCI BS/any CCI MS Accelerated Degree (BS & MS in five years, including 2 Co-ops)
- Any CCI BS /MBA Accelerated Degree (BS/MBA) (BS & MBA in four years, including 1 Co-op option only)
- Any CCI BS/JD Accelerated Degree (BS/JD)

For more information on the criteria for entering this program, visit the BS/MS Accelerated Degree (<http://www.drexel.edu/undergrad/academics/accelerated-degrees>) page on the Drexel website.

For more information on how to apply for the BS/MS Accelerated Degree program, please visit the College of Computing & Informatics' website (<http://drexel.edu/ccj/admissions/undergraduate/admissions-requirements/cci-bsms-degree-admissions>).

Co-op/Career Opportunities

Co-Op Options

Three co-op options are available for this program:

- 5-year/3 co-op
- 4-year/1 co-op
- Accelerated Degree: 5-year/2 co-op

Career Opportunities

The demand for software engineering professionals is quite strong. Graduates can expect career opportunities in software design and development in a variety of application areas. Software engineering graduates are particularly well suited to work as members or leaders of software project teams. They have knowledge and skills to help them develop quality software within schedule and cost constraints.

According to the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook (<http://www.bls.gov/ooh>), software developer is among the fastest growing U.S. careers requiring at least a bachelor's degree, with an estimated 186,600 new jobs by 2024. Although they have jobs in most industries, many software developers work in computer systems design and related services firms or software publishers. The field's rapid growth is mainly due to the increase in demand for computer software, especially in healthcare.

Most software engineering students enter the professional world right after graduation, but some continue their studies in advanced software engineering programs.

Job titles of recent software engineering graduates include:

- Software Engineer
- Software Architect
- Software System Project Manager
- Software Project Team Leader

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Drexel University Libraries

Drexel University Libraries (<http://www.library.drexel.edu>) is a learning enterprise, advancing the University's academic mission through serving as educators, supporting education and research, collaborating with researchers, and fostering intentional learning outside of the classroom. Drexel University Libraries engages with Drexel communities through

four physical locations, including W. W. Hagerty Library, Hahnemann Library, Queen Lane Library and the Library Learning Terrace, as well as a vibrant online presence which sees, on average, over 8,000 visits per day. In the W.W. Hagerty Library location, College of Computing & Informatics students have access to private study rooms and nearly half a million books, periodicals, DVDs, videos and University Archives. All fields of inquiry are covered, including: library and information science, computer science, software engineering, health informatics, information systems, and computing technology. Resources are available online at library.drexel.edu or in-person at W. W. Hagerty Library (<http://www.library.drexel.edu/locations>).

The Libraries also make available laptop and desktop PC and Mac computers, printers and scanners, spaces for quiet work or group projects and designated 24/7 spaces. Librarians and library staff—including a liaison librarian for computing and informatics—are available for individual research consultations and to answer questions about materials or services.

iCommons

Located in Room 106 of the Rush Building, the College's iCommons is an open lab and collaborative work environment for students. It features desktop computers, a wireless/laptop area, free black and white printing, more collaborative space for its students and a furnished common area. There is a fully equipped conference room for student use with a 42" display and videoconferencing capabilities. The iCommons provides technical support to students, faculty, and administrative staff. In addition, the staff provides audio-visual support for all presentation classrooms within the Rush Building. Use of the iCommons is reserved for all students taking CCI courses.

The computers for general use are Microsoft Windows and Macintosh OSX machines with appropriate applications which include the Microsoft Office suite, various database management systems, modeling tools, and statistical analysis software. Library related resources may be accessed at the iCommons and through the W.W. Hagerty Library. The College is a member of the Rational SEED Program which provides cutting-edge software development and project management software for usage in the iCommons and CCI classrooms. The College is also a member of the Microsoft Academic Alliance known also as "DreamSpark" that allows students free access to a wide array of Microsoft software titles and operating systems.

The iCommons, student labs, and classrooms have access to networked databases, print and file resources within the College, and the Internet via the University's network. Email accounts, Internet and BannerWeb access are available through the Office of Information Resources and Technology.

Rush Building

The Rush Building houses classrooms, CCI administrative offices (academic advising, graduate admissions, faculty, etc.) and the iCommons computer lab (open to all CCI students). The building holds 6 classrooms equipped for audio-visual presentation. These rooms typically contain a networked PC, HD video player, ceiling mounted projectors, and other equipment for presentations and demonstrations. Four of these classrooms are fully equipped to function as laptop computing labs for networking, programming and database-related projects.

The Information Technology Laboratory, located in the Rush Building, consists of enterprise class information technology hardware that students would encounter in industry positions. The hardware includes 20 high

powered workstations that are available to students and specialized networking lab simulation software. The hardware is networked and reconfigurable utilizing multiple virtual technologies as needed for the various classes the laboratory supports. In addition, a special system has been built into to the classroom to allow for conversion into a standard laptop computing lab utilizing motorized monitor lifts that allow the monitors and keyboards to recess into the desk.

University Crossings - Cyber Learning Center and Computer Lab

CCI also has classrooms, administrative office and faculty offices located in University Crossings, located at the corner of JFK Blvd. and Market Street. The building houses the Cyber Learning Center, a student computer lab, as well as several classrooms with video-conference enabled technology and media projection capabilities.

The Cyber Learning Center (CLC) provides consulting and other learning resources for students taking computer science classes. The CLC is staffed by graduate and undergraduate computer science students from the College of Computing & Informatics.

Both the CLC and UC Lab now serve as a central hub for small group work, student meetings, and TA assistance. The UC Lab is organized with desk space around the perimeter of the lab for individual or partner/pair-programmed student work, as well as with clusters of tables which can be connected as needed into pods to create workspaces for larger groups.

Research Laboratories

The College houses multiple research labs, led by CCI faculty, across Drexel's main campus including: the Auerbach and Berger Families Cybersecurity Laboratory, Drexel Health and Risk Communication Lab, Socio-Technical Studies Group, Intelligent Information & Knowledge Computing Research Lab, Evidence-based Decision Making Lab, Applied Symbolic Computation Laboratory (ASYM), Geometric and Intelligent Computing Laboratory (GICL), High Performance Computing Laboratory (SPIRAL), Privacy, Security and Automation Laboratory (PSAL), Drexel Research on Play (RePlay) Laboratory, Software Engineering Research Group (SERG), Vision and Cognition Laboratory (VisCog) and the Vision and Graphics Laboratory. For more information on these laboratories, please visit the College's research web page (<http://cci.drexel.edu/research.aspx>).

Alumni Garden

The Rush Building's Alumni Garden provides additional collaborative space for students, faculty, professional staff and alumni. The Garden features wireless networking, tables with built-in power outlets, accessible covered patio and balconies and a bicycle rack. The Alumni Garden (<http://cci.drexel.edu/about/our-facilities/rush-building/rush-alumni-garden-request-for-use.aspx>) may be reserved for Drexel events.

3401 Market Street

3401 Market Street houses faculty offices and doctoral student workspaces. It also is home to College research groups such and University initiatives such as the Isaac L. Auerbach Cybersecurity Institute (<http://drexel.edu/cci/research/centers-institutes/Cybersecurity>). The Institute's Auerbach and Berger Families Cybersecurity Laboratory serves as University's first training facility dedicated to identifying challenges and discovering solutions in the areas of cyber infrastructure protection and incident response.

Evaluations

The College of Computing & Informatics works continually to improve its degree programs. As part of this effort, the software engineering degree is evaluated relative to the following Objectives and Outcomes.

Program Educational Objectives

Within three to five years of graduating, alumni of the program are expected to achieve one or more of the following milestones:

- a. Graduates of the program obtain employment as software developers, where their software and communication skills eventually propel them toward technical and administrative leadership positions in industry and government.
- b. Graduates of the program demonstrate an ability to continue to learn throughout their career and to keep pace with changing technology as appropriate to their positions.
- c. Graduates of the program specialize and enhance their software engineering knowledge by enrolling and completing technical graduate courses and other technical education to position them to advance software engineering practice as senior technical staff members or managers.
- d. Graduates of the program specialize and enhance their software engineering knowledge by enrolling and graduating from MSc and PhD degree programs to position them to contribute to the intellectual foundations of the discipline of software engineering as researchers in industrial and government laboratories as well as in academia.
- e. Graduates of the program advance toward becoming leaders in disciplines other than software engineering by enrolling and graduating from graduate-level degree programs in complimentary disciplines such as law and business, where the BSSE serves as an educational foundation.
- f. Graduates of the program will demonstrate an awareness of their professional and social responsibility as software engineers by participation in professional activities and application of their knowledge for the good of society.

Software Engineering Student Outcomes

The program enables students to attain, by the time of graduation:

- a. An ability to apply knowledge of mathematics, science and engineering
- b. An ability to design and conduct experiments, as well as to analyze and interpret data
- c. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability
- d. An ability to function on multidisciplinary teams
- e. An ability to identify, formulate and solve engineering problems
- f. An understanding of professional and ethical responsibility
- g. An ability to communicate effectively
- h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context
- i. A recognition of the need for, and an ability to engage in life-long learning
- j. A knowledge of contemporary issues

- k. An ability to use the techniques, skills and modern engineering tools necessary for engineering practice.

Additional Information

The Software Engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET (<http://www.abet.org>).

To view the latest BS in Software Engineering program enrollment numbers, please click here (<http://drexel.edu/cci/programs/undergraduate-programs/Facts>).

Computing & Informatics Faculty

Denise E. Agosto, PhD (*Rutgers, The State University of New Jersey*). Professor. Information behavior, public libraries, gender, children, young adults, multicultural materials.

Yuan An, PhD (*University of Toronto, Canada*). Associate Professor. Conceptual modeling, schema and ontology mapping, information integration, knowledge representation, requirements engineering, healthcare information systems, semantic web.

David Augenblick, MS (*University of Pennsylvania*). Associate Teaching Professor. Introductory and object-oriented programming, data structures and database systems, computer application project management, application of computer programming principles and solutions to engineering problems.

Ellen Bass, PhD (*Georgia Institute of Technology*) *Head of Department of Information Science; Joint Appointment with the College of Nursing and Health Professions*. Professor. Characterizing human judgement and decision making, modeling human judgement when supported by information automation, computational models of human-human and human-automation coordination.

Mark Boady, PhD (*Drexel University*). Assistant Teaching Professor. Computer Algebra, complex symbolic calculations, automation of computation problems

David E. Breen, PhD (*Rensselaer Polytechnic Institute*). Associate Professor. Self-organization, biomedical image/video analysis, biological simulation, geometric modeling and visualization

Matthew Burlick, PhD (*Stevens Institute of Technology*). Assistant Teaching Professor. Image processing, machine learning, real-time video tracking, object detection and classification, statistics/probability, and acoustics

Yuanfang Cai, PhD (*University of Virginia*). Associate Professor. Formal software design modeling and analysis, software economics, software evolution and modularity.

Christopher Carroll, MS (*Drexel University*). Assistant Teaching Professor. Information technology within healthcare companies, computer networking and design, IT infrastructure, server technology, information security, virtualization and cloud computing.

Bruce W. Char, PhD (*University of California-Berkeley*). Professor. Symbolic mathematical computation, algorithms and systems for computer algebra, problem-solving environments parallel and distributed computation.

Chaomei Chen, PhD (*University of Liverpool*). Professor. Information visualization, visual analytics, knowledge domain visualization,

network analysis and modeling, scientific discovery, science mapping, scientometrics, citation analysis, human-computer interaction.

Michael Chu, MSE (*University of Pennsylvania*). Associate Teaching Professor. System, server, computer networking and design; IT Infrastructure; information technology management and security; Web system programming; database and mobile application development

Catherine D. Collins, MLIS (*Indiana University*). Associate Teaching Professor. Knowledge management, collection development, management of information organizations, information sources and services, international development.

M. Carl Drott, PhD (*University of Michigan*). Associate Professor. Systems analysis techniques, web usage, competitive intelligence.

Andrea Forte, PhD (*Georgia Institute of Technology*) *PhD in Information Studied Program Director*. Associate Professor. Social computing, human-computer interaction, computer-supported cooperative work, computer-supported collaborative learning, information literacy.

Susan Gasson, PhD (*University of Warwick*). Associate Professor. The co-design of business and IT-systems, distributed cognition & knowledge management in boundary-spanning groups, human-centered design, social informatics, online learning communities, grounded theory.

Colin Gordon, PhD (*University of Washington*). Assistant Professor. Software reliability, program behavior, concurrent and systems-level code, formal assurance, programming models, distributed computing, even testing

Jane Greenberg, PhD (*University of Pittsburgh*) *Alice B. Kroeger Professor; Director, Metadata Research Center*. Metadata, ontological engineering, data science, knowledge organization, information retrieval

Rachel Greenstadt, PhD (*Harvard University*). Associate Professor. Artificial intelligence, privacy, security, multi-agent systems, economics of electronic privacy and information security.

Peter Grillo, PhD (*Temple University*) *Associate Department Head for Undergraduate Affairs, Information Science*. Teaching Professor. Strategic applications of technology within organizations.

Gregory W. Hislop, PhD (*Drexel University*) *Senior Associate Dean for Academic Affairs*. Professor. Information technology for teaching and learning, online education, structure and organization of the information disciplines, computing education research, software evaluation and characterization.

Xiaohua Tony Hu, PhD (*University of Regina, Canada*). Professor. Data mining, text mining, Web searching and mining, information retrieval, bioinformatics and healthcare informatics.

Jeremy R. Johnson, PhD (*Ohio State University*). Professor. Computer algebra; parallel computations; algebraic algorithms; scientific computing.

Weimao Ke, PhD (*University of North Carolina at Chapel Hill*). Associate Professor. Information retrieval (IR), distributed systems, intelligent filtering/recommendation, information visualization, network science, complex systems, machine learning, text/data mining, multi-agent systems, the notion of information.

Xia Lin, PhD (*University of Maryland*) *Department Head, Information Science; Director of International Programs*. Professor. Digital libraries, information visualization, visual interface design, knowledge mapping, human-computer interaction, object-oriented programming, information

retrieval, information architecture, information-seeking behaviors in digital environments.

Geoffrey Mainland, PhD (*Harvard University*). Assistant Professor. High-level programming languages and runtime support for non-general purpose computation.

Spiros Mancoridis, PhD (*University of Toronto*). Professor. Software engineering; software security; code analysis; evolutionary computation.

Gabriela Marcu, PhD (*Carnegie Mellon University*). Assistant Teaching Professor. Human-computer interaction, health informatics, action research, ethnography, user experience design, designing for social change, organizational information systems, ubiquitous computing, knowledge management.

Adelaida Alban Medlock, MS (*Drexel University*). Associate Teaching Professor. Introductory programming; computer science education.

William Mongan, MS (*Drexel University*) *Associate Department Head for Undergraduate Affairs, Computer Science*. Associate Teaching Professor. Service-oriented architectures, program comprehension, reverse engineering, software engineering, computer architecture, computer science education, engineering education outreach

Gaurav Naik, MS (*Drexel University*). Assistant Research Professor. Computer networking and cybersecurity

Ko Nishino, PhD (*University of Tokyo*) *Associate Department Head for Graduate Affairs, Computer Science*. Professor. Computer vision, computer graphics, analysis and synthesis of visual appearance.

Danuta A. Nitecki, PhD (*University of Maryland at College Park*) *Dean of Libraries*. Professor. Library metrics and use in management, library as place, and academic library service models.

Krzysztof Nowak, PhD (*Washington University*). Associate Teaching Professor. Fourier analysis, partial differential equations, image processing, wavelets, asymptotic distribution of eigenvalues, numerical methods and algorithms, computer science education.

Santiago Ontañón, PhD (*University of Barcelona*). Assistant Professor. Game AI, computer games, artificial intelligence, machine learning, case-based reasoning

Jung-ran Park, PhD (*University of Hawaii at Manoa*). Associate Professor. Knowledge organization and representation, metadata, computer-mediated communication, cross-cultural communication, multilingual information access.

Alex Poole, PhD (*University of North Carolina*). Assistant Professor. Archives and records, digital humanities, digital curation, pedagogy, diversity and inclusivity in the LIS profession

Jeffrey L. Popyack, PhD (*University of Virginia*). Professor. Operations research, stochastic optimization, computational methods of Markov decision processes; artificial intelligence, computer science education.

Lori Richards, PhD (*University of North Carolina*). Assistant Professor. Archives, digital curation, electronic records management, information technology and digital collections, cloud computing and record keeping, management of information organizations.

Michelle L. Rogers, PhD (*University of Wisconsin-Madison*). Associate Professor. Human-computer interaction, healthcare informatics, human

factors engineering, socio-technical systems, health services research, patient safety.

Jeffrey Salvage, MS (*Drexel University*). Teaching Professor. Object-oriented programming, multi-agent systems, software engineering, database theory, introductory programming, data structures.

Dario Salvucci, PhD (*Carnegie Mellon University*) *Department Head, Computer Science*. Professor. Human computer interaction, cognitive science, machine learning, applications for driving.

Kurt Schmidt, MS (*Drexel University*). Associate Teaching Professor. Data structures, math foundations for computer science, programming tools, programming languages.

Ali Shokoufandeh, PhD (*Rutgers University*) *Senior Associate Dean of Research*. Professor. Theory of algorithms, graph theory, combinational optimization, computer vision.

Erin Solovey, PhD (*Tufts University*). Assistant Professor. Human-computer interaction, brain-computer interfaces, tangible interaction, machine learning, human interaction with complex and autonomous systems.

Il-Yeol Song, PhD (*Louisiana State University*) *PhD in Information Studies Program Director*. Professor. Conceptual modeling, ontology and patterns, data warehouse and OLAP, object-oriented analysis and design with UML, medical and bioinformatics data modeling & integration,.

Julia Stoyanovich, PhD (*Columbia University*). Assistant Professor. Data and knowledge management, big data, biological data management, search and ranking.

Brian Stuart, PhD (*Purdue University*). Associate Teaching Professor. Machine learning, networking, robotics, image processing, simulation, interpreters, data storage, operating systems, computer science, data communications, distributed/operating systems, accelerated computer programming, computer graphics.

Filippos Vokolos, PhD (*Polytechnic University*). Assistant Teaching Professor. System architecture, principles of software design and construction, verification and validation methods for the development of large software systems, foundations of software engineering, software verification & validation, software design, programming languages, dependable software systems.

Rosina Weber, PhD (*Federal University of Santa Catarina*). Associate Professor.

Jake Williams, PhD (*University of Vermont*). Assistant Professor. Data science, scientific programming, computational social science, computational linguistics and natural language processing, mathematics, machine learning, algorithms and scalability

Erija Yan, PhD (*Indiana University*). Assistant Professor. Network Science, information analysis and retrieval, scholarly communication methods and applications.

Christopher C. Yang, PhD (*University of Arizona, Tucson*). Associate Professor. Web search and mining, security informatics, knowledge management, social media analytics, cross-lingual information retrieval, text summarization, multimedia retrieval, information visualization, information sharing and privacy, artificial intelligence, digital library, and electronic commerce.

Emeritus Faculty

Michael E. Atwood, PhD (*University of Colorado*) *Associate Dean for Research and for Undergraduate Education*. Professor Emeritus. Human-computer interaction, computer-supported cooperative work, organizational memory.

Thomas A. Childers, PhD (*Rutgers University*). Professor Emeritus. Measurement, evaluation, and planning of information and library services, the effectiveness of information organizations.

Prudence W. Dalrymple, PhD (*University of Wisconsin-Madison*) *Director, Institute for Healthcare Informatics*. Professor Emeritus. User-centered information behaviors, particularly in the health arena, health informatics, evidence based practice, education for the information professions and evaluation, and translation of research into practice.

David E. Fenske, PhD (*University of Wisconsin-Madison*). Dean Emeritus and Professor. Digital libraries, informatics, knowledge management and information technologies.

John B. Hall, PhD (*Florida State University*). Professor Emeritus. Academic library service, library administration, organization of materials.

Linda S. Marion, PhD (*Drexel University*). Professor Emeritus. Formal and informal communication, bibliometric studies of scholarly communication, diffusion of information, information use in the social sciences, academic and public libraries, information science education.

Katherine W. McCain, PhD (*Drexel University*). Professor Emeritus. Scholarly communication, information production and use in the research process, development and structure of scientific specialties, diffusion of innovation, bibliometrics, evaluation of information retrieval systems.

Carol Hansen Montgomery, PhD (*Drexel University*) *Dean of Libraries Emeritus*. Research Professor. Selection and use of electronic collections, evaluation of library and information systems, digital libraries, economics of libraries and digital collections.

Delia Neuman, PhD (*The Ohio State University*). Professor Emeritus. Learning in information-rich environments, instructional systems design, the use of media for learning, and school library media.

Gerry Stahl, PhD (*University of Colorado, Northwestern University*). Professor Emeritus. Human-computer interaction, computer-supported cooperative work, computer-supported collaborative learning, theory of collaboration.

Howard D. White, PhD (*University of California at Berkeley*). Professor Emeritus. Literature information systems, bibliometrics, research methods, collection development, online searching.

Susan Wiedenbeck, PhD (*University of Pittsburgh*). Professor Emeritus. Human-computer interaction, end-user programming/end-user development, empirical studies of programmers, interface design and evaluation.

Valerie Ann Yonker, PhD (*Drexel University*). Professor Emeritus. Human service information systems, systems analysis and design, measurement in software evaluation, knowledge engineering.

Goodwin College of Professional Studies

In today's competitive job market, education is a smart investment in your future. Goodwin responds to the demands of today's learner by offering programs that tailor a student's learning experience to their career aspirations. Our General Studies degree-completion program is ideal for transfer students who already possess an associate's degree or just have existing college credits. It is also ideal for students who wish to chart their own path toward a college degree.

Major

- General Studies (BS) (p. 65)

Minor

- **NEW:** Client Development and Customer Service

Client Development and Customer Service

About the Minor

The minor in Client Development and Customer Service is a 24.0 to 26.0 credit curriculum designed to familiarize students with customer service theory while providing practical training to develop skills for building and maintaining successful client relationships. The minor can provide a strong complement for majors that emphasize entrepreneurship, interpersonal skills, nonprofit enterprise and marketing. Students minoring in Client Development and Customer Service might also consider a double minor in Business Administration.

Admission Requirements

- Minimum GPA of 2.0
- Academic advisor approval
- Must be enrolled in an undergraduate degree program

Program Requirements

GSTD 201	Professional Applications of Emotional Intelligence	3.0
GSTD 302	Customer Service Theory & Practice	3.0
GSTD 303	Client Relations Management	3.0
PRST 303	Interpersonal Skills for Virtual Teams	3.0
PRST 330	Career & Professional Development	3.0
PHIL 301	Business Ethics	3.0
Take a minimum of two courses from the list below		6.0
GSTD 360	Applied Organizational Research	
MKTG 321	Selling and Sales Management	
MKTG 344	Professional Personal Selling	
MKTG 357	Global Marketing	
MKTG 362	Brand and Reputation Management	
PRST 440	Policy Analysis	
Total Credits		24.0

A grade of "C" (2.0) or better must be earned in each course to be counted toward this minor.

General Studies

Major: General Studies

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 180.0

Classification of Instructional Programs (CIP) code: 24.0101

Standard Occupational Classification (SOC) code: 11-9199

About the Program

The Bachelor of Science (BS) in General Studies is the ideal degree completion program for self-directed students who desire a program they can tailor to their personal and professional interests. The program covers the fundamentals of a university education while allowing students to exhibit intellectual interest and discipline across a broad range of college-level coursework. A general studies degree informs employers of a graduate's ability to think creatively when problem solving and work independently at a high level with a minimum of direction.

General studies students have more options for courses which apply to their degree requirements when they register for a given term. The flexibility to study subjects which have produced some of the greatest ideas, innovations and art in recorded history, can be both a personally and professionally rewarding benefit of a general studies degree.

Designed for individuals with a diverse college background and varied educational interests that cannot be captured in a single degree program. Students have the opportunity to experiment in a variety of academic subjects through a generous amount of free electives.

The ability to include minors (<http://catalog.drexel.edu/minors>) within the General Studies major can be of great value to working adults who are seeking advancement or a change in their employment. Adult learners looking to improve their earning potential often find that a degree makes them eligible for higher-level positions within their organizations or others.

The Goodwin General Studies degree completion program offers students evening and online options to make it as convenient as possible for working adults to take advantage of the opportunity to return to school and complete their college degree.

Advising

Students in the BS in General Studies program are advised by an academic advisor (determined alphabetically by last name) who serves as an important resource to students as they progress and manage their educational and career goals.

Students receive one-on-one personal advisement to ensure that educational and professional objectives are met within the course of study.

For more information on this major, visit Goodwin College's (http://goodwin.drexel.edu/mep/ug_ptgstd.php) web page.

Degree Requirements

This program is designed for individuals with a diverse college background and varied educational interests that cannot be captured in a single degree program. In consultation with their academic advisor, students have the opportunity to experiment in a variety of academic subjects through a generous amount of free electives. An attractive feature is that students can complete minors (<http://catalog.drexel.edu/minors>) en route to their degree.

College Requirements

GSTD 200 Lifelong Learning Theory & Practice

3.0

GSTD 491	Senior Project in General Studies	3.0
English and Speech Requirements		
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
COM 230	Techniques of Speaking	3.0
Mathematics Requirements		
MATH 181	Mathematical Analysis I	3.0
MATH 182	Mathematical Analysis II	3.0
MATH 183	Mathematical Analysis III	3.0
Computing Requirement *		
Select one of the following:		3.0
CS 161	Introduction to Computing	
CS 171	Computer Programming I	
CT 230	Web Development I	
PRST 211	Computer Applications for Professionals	
PRST 212	Creative Studies in the World Wide Web	
Additional computing course options, with Advisor approval		
Upper Level Course Requirements		
As students choose electives from the categories below, a minimum of 36.0 credits must be upper-level courses (typically 300-level and above).		
Natural Science Electives		
Students select 9.0 credits from the following: ANAT, BIO, CHEM, FDSC, NFS, PHEV, PHYS. Courses from other departments may be considered with advisor approval.	9.0	
Specialization Requirements		
Students must complete 45.0 credits within an area of specialization. The specialization is a set of courses built around a cohesive area of study. An academic advisor must pre-approve the specialization. The specialization will not appear on the student transcript.	45.0	
Liberal Studies Requirements		
Students must complete 36.0 credits in Liberal Studies, covering a range of subject areas in the humanities and/or social sciences: anthropology, psychology, sociology, political science, history, philosophy, religion, literature and fine arts. (Arts history or appreciation courses, rather than applied courses.)	36.0	
Free Electives	60.0	
Total Credits	180.0	

* Courses older than three years will not be transferred into the curriculum.

Co-op/Career Opportunities

A well-rounded education results in an enriched view of the world. Full-time students majoring in General Studies find careers in diverse areas, taking skills they learn at Drexel to their future endeavors.

Some General Studies students are already established in their careers and simply need a bachelor's degree to move into higher positions within their organizations and industries and/or to pursue a master's degree.

Goodwin College's General Studies BS degree is designed for students planning to pursue graduate studies in various professional areas.

LeBow College of Business

About the College

The mission of the LeBow College of Business is to integrate Drexel University's technological prominence with experience-based education to develop world-class leaders and advance knowledge through research. At the undergraduate level, this objective is accomplished by providing high-quality educational programs that integrate theory and practice. Drexel's highly regarded co-operative education program in which

students interchange periods of academic study and full-time, off-campus employment with partner companies, sets us apart from other business schools

The College and its distinguished faculty are committed to advancing the science and practice of management through basic, applied, and instructional research in the various disciplines of business. The College maintains strong connections to business professions and the community through participation in professional organizations, a commitment to community service, and dedication to providing opportunities for lifelong learning. Drexel's LeBow College of Business—fully accredited by AACSB-International—offers two distinct undergraduate degrees, Bachelors of Science in Business Administration that has 8 major options and 3 co-majors, and Bachelors of Science in Business and Engineering, plus an option in ten minors and two certificate programs.

Majors

- Accounting (BSBA) (p. 69)
- Business Analytics (co-major) (BSBA) (p. 72)
- Business and Engineering (BSBAE) (p. 76)
- Finance (BSBA) (p. 80)
- General Business (BSBA) (p. 84)
- Legal Studies (BSBA) (p. 86)
- Management Information Systems (BSBA) (p. 88)
- Marketing (BSBA) (p. 91)
- Operations and Supply Chain Management (BSBA) (p. 95)
- Organizational Management (co-major) (BSBA) (p. 98)
- **NEW:** Real Estate Management and Development (BSBA)
- Technology Innovation Management (co-major) (BSBA) (p. 102)

Minors

- Accounting (p. 71)
- Business Administration (p. 95)
- Business Analytics (p. 74)
- Finance (p. 83)
- Legal Studies (p. 88)
- Management Information Systems (p. 90)
- Marketing (p. 93)
- Operations and Supply Chain Management (p. 97)
- Organizational Management (p. 99)
- **NEW:** Real Estate Management and Development
- Technology Innovation Management (p. 103)

Certificates

- Brand and Reputation Management (p. 80)
- Social Responsibility in Business (p. 80)

At the undergraduate level, this objective is accomplished by providing high-quality educational programs that integrate theory and practice. Our highly regarded co-operative education program in which students interchange

periods of academic study and full-time, off-campus employment with partner companies, sets us apart from other business schools.

The College and its distinguished faculty are committed to advancing the science and practice of management through basic, applied, and instructional research in the various disciplines of business. The College maintains strong connections to business professions and the community through participation in professional organizations, a commitment to community service, and dedication to providing opportunities for lifelong learning. Drexel's LeBow College of Business—fully accredited by AACSB-International—offers two distinct undergraduate degrees, Bachelors of Science in Business Administration that has 8 major options and 3 co-majors, and Bachelors of Science in Business and Engineering, plus an option in ten minors and two certificate programs.

About the Curriculum

BS in Business Administration Program

The Bachelor of Science in Business Administration program is designed to prepare students for managerial positions in business and other institutions. To accomplish this, the undergraduate curriculum has the following characteristics and goals:

- An early exposure to the structure and functions of business enterprises
- The bridging of theory and concepts with professional practice
- The integration of material across disciplines within business as well as between business and other fields
- The enhancement of effective communication, problem-solving, and interpersonal skills
- Coverage of the ethical issues inherent in a business setting
- Coverage of the global, political, social, and legal/regulatory environment in which businesses operate
- Coverage of the impact of technology and technological changes on the operation of the business enterprise
- An emphasis on career preparation
- Opportunities for experiential learning through traditional co-op programs and other "hands-on" opportunities

BS in Business and Engineering Program

The Business and Engineering Degree Program contains a broad-based business and engineering curriculum, enabling graduates to work successfully in technically oriented business positions. Students complete a set of broad functional business core courses along with a firm foundation in science, mathematics, and engineering. Students also study more deeply the areas of accounting, economics, finance, information systems, law, marketing, organizational behavior, entrepreneurship, operations, and statistics along with the functional areas of engineering. Graduates of this program will be well prepared to participate in innovative technological efforts in business.

The Business and Engineering Degree Program gives students the opportunity to:

- Develop a breadth and depth of knowledge in functional business areas such as accounting, economics, entrepreneurship, finance, information systems, law, marketing, organizational behavior, operations, and statistics.
- Complete a broad education in engineering disciplines after completing a firm foundation in science and mathematics.

- Develop skills in technical communication and critical reasoning.
- Study ethical issues faced by managers and engineers, and understand technology from a historical perspective.
- Apply acquired skills from co-op work experiences to further enhance their knowledge base.
- Study entrepreneurship from a management and finance perspective for preparation in innovative technological efforts.
- Learn the operational aspects of business operations to improve the functioning of technically oriented businesses

BS in Economics Program

The Bachelor of Science in Economics program is designed to provide students with an understanding of the market system, as well as economic institutions, policies and development. In addition to this deep coverage of economics, the major includes liberal arts and sciences requirements. The program is flexible, allowing the student to customize the curriculum and choose areas of emphasis including concentrations in business economics or mathematical economics, as well as to select a coordinating field from other majors and minors at Drexel. The BS in Economics program provides excellent training for graduate school in economics.

BA in Economics Program

The Bachelor of Arts in Economics introduces students to modern economics within the context of a broad-based liberal arts curriculum. The degree is oriented toward students with interest in the less quantitative features of economics and a broader liberal arts education, particularly in areas offered by the College of Arts and Sciences. The degree gives students the flexibility to major or minor in a coordinate field outside of economics.

The Economics program:

- Provides a deep understanding of economics and broad training in arts and sciences.
- Enables students to apply acquired skills from co-op work experiences to further enhance their knowledge base.
- Prepares students for a wide variety of opportunities after graduations ranging from; corporate positions, consulting, government agencies, business, and law.
- Is a rigorous program that develops students' critical thinking and problem solving skills.

Degree Requirements

The Business Administration curriculum requires a minimum of 180.0 credits. The Business & Engineering curriculum requires a minimum of 185 credits. The Economics curriculum requires a minimum of 187.0 credits. The courses in each curriculum may be grouped into three categories:

General Education

The liberal arts comprise 50 percent or more of total credits required. Courses in communications, economics, English, history, mathematics, natural science, political science, psychology, sociology, and statistics teach students to think effectively and to communicate ideas to others. In addition, they provide a good understanding of the economic, social, and political systems within which we live and business operates.

Common Body of Knowledge in Business

Courses in accounting, business strategy and social responsibility, finance, law, organizational behavior, management information systems, production management, and marketing introduce students to all the functional areas of business, the quantitative aspects of decision-making, and the behavioral factors common to all organizational structures.

Major (BSBA) or Coordinated Field (BSECON & BAECON)

The curriculum permits students to pursue one or more majors within the (BSBA) programs. The major coursework and the common body of knowledge in business together comprise not more than 50 percent of the total credits required for graduation. In the Economic programs, students must select a coordinated field to augment the general education and economics course work.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-course-list>) on the Drexel University Writing Program web page (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). Students scheduling their courses in Banner/DrexelOne can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Cooperative Education

The five-year cooperative education programs consist of 12 terms in college and six terms in co-operative employment. During the freshman year, students spend three terms in school (fall, winter, and spring) and have a summer vacation. For each of the next three years, students alternate two terms in school with two terms of co-op. The senior year consists of three terms in college with no cooperative employment.

The four-year cooperative education program consists of 12 terms in college and two terms in cooperative employment. The two terms of co-op experience take place in the third year.

The non-cooperative four-year program comprises 12 terms in school with vacations during the summers.

Cooperative education, academic eligibility requirements, acceptance of transfer students, and placement services are described in detail in other sections of this catalog. Students wishing to prepare for admission to professional schools may obtain preprofessional counseling from the Office of Preprofessional Programs, 215.895.2437.

Special Programs

Accelerated/Dual Degrees

LeBow College offers an accelerated BS/MBA and BS/MS degree programs that provides academically qualified students with the

opportunity to earn both a bachelor's degree and an MBA or MS in Accounting in the time normally required for the undergraduate degree at Drexel University. The program combines the advantage of practical work experience in the renowned Drexel Co-op with the graduate credentials of our nationally recognized programs.

LeBow College also offers a five-year dual-degree program with the European Business School (ESB) at Reutlingen University in Germany. This exciting dual degree program allows undergraduate students to earn degrees from both Drexel University's LeBow College of Business and Reutlingen University's European School of Business. In total students will spend 18 months in Germany completing two semesters of study and one semester on Co-op.

Drexel in London

The College's *Drexel in London Program* offers flexible schedules for study abroad, ranging from six-week summer sessions to six-month (two-term) combined study and co-operative education programs in which students can earn up to 18 credits and fulfill one of their co-op requirements. The program's emphasis is on international business in general, with a particular focus on the United Kingdom and the European Union. Business course selections each year will be selected from the list of courses that constitute the international business concentration, but students in other concentrations may participate in the program. Housing is provided in South Kensington, one of central London's most desirable residential sections. Drexel in London applications are administered by the Study Abroad (<http://www.drexel.edu/studyabroad>) office, 215.571.3558.

Business Learning Community (BLC)

LeBow College's Business Learning Community (BLC) is a way of life at Drexel University - a cohort of freshman business students who live and attend classes together. The BLC was recently recognized by AACSB Accreditation Committee as a "strength and effective practice of the LeBow College of Business." The program is designed to ease transition to university life, (<http://catalog.drexel.edu/>) enhance student academic performance, (<http://catalog.drexel.edu/>) provide opportunities for student engagement and networking and improve the overall student experience.

LeBow BRIDGE

BRIDGE is a LeBow College of Business undergraduate program that provides support to students in four critical areas: academic excellence, financial literacy and social engagement and community service. BRIDGE scholars receive the tools to be successful through advising programs related to academics, financial skills, professional development, cultural awareness and community service.

Students work together to build relationships within a dynamic and diverse group experience. Mentors are also available to BRIDGE scholars to provide guidance and ensure a positive college experience. After freshman year, BRIDGE scholars can serve as peer mentors to underclassmen.

Global Classroom

The LeBow Global Classroom program prepares candidates to become 21st Century Executives, able to tackle the toughest business challenges in our increasingly globalized business world. Each year a select cohort of 20 high-potential students from around the world enters this rigorous global education experience to acquire the complex set of skills and attitudes to thrive in an increasingly uncharted and globalized

marketplace. The learning community experience is akin to a "Global Classroom".

Peer Leader Program

LeBow College's Peer Leader Program is an outstanding learning experience for sophomore business students. Through a highly competitive application process, top-performing LeBow students with extraordinary leadership potential are identified, selected, trained and paired with UNIV 101 instructors to serve as mentors for new freshmen both inside and outside the classroom.

Summer Institutes

LeBow Summer Institutes offer an introduction to business education through exceptional summer programs designed for outstanding high school students with an interest in business. LeBow Summer Institutes offer the opportunity to maximize and develop the business and leadership skills sought after by employers and college admissions officers.

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty, students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

Accounting

Major: Accounting

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.0301

Standard Occupational Classification (SOC) code: 13-2011; 13-2080

About the Program

Accounting provides critical information that allows for decision making at all levels of business. Required courses prepare students to provide accounting information so it is useful for all decision makers. These courses cover financial accounting, managerial accounting, taxation and auditing. Electives may also be taken in the areas of Forensic accounting, Internal Audit and State And Local Taxation.

There is a wide range of career opportunities for accountants which include public accounting, corporate and non-profit accounting, and governmental accounting. Professional accountants will obtain a license either as a Certified Public Accountant (CPA) or as a Certified Managerial Accountant (CMA) after passing the examinations and completing all education and experience requirements. The University's co-op program provides practical experience for accounting students. Time spent working

in accounting co-op positions is accepted as part of the experience requirement for Pennsylvania and many other states.

Students planning to obtain a CPA license must take additional coursework to meet state mandated requirements. Each state has different education requirements for licensure. Interested students should consult with their academic advisor and/or the Department of Accounting (<http://www.lebow.drexel.edu/Faculty/Departments/Accounting>) upon declaring the major to ensure ample time to fulfill such requirements.

Degree Requirements

Bachelor of Science in Business Administration (BSBA) Degree Requirements

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
COM 270 [WI]	Business Communication	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 101	Introduction to Analysis I	4.0
MATH 102	Introduction to Analysis II	4.0
PHIL 105	Critical Reasoning	3.0
PSY 101	General Psychology I	3.0
UNIV B101	The Drexel Experience	1.0
UNIV B201	Career Management	1.0
English literature elective ENGL 200 through ENGL 399		3.0
Fine Arts elective		3.0
History (HIST) elective		4.0
Select two of the following:		6.0
BIO 100	Applied Cells, Genetics & Physiology	
or BIO 101	Applied Biological Diversity, Ecology & Evolution	
CHEM 151	Applied Chemistry	
PHYS 151	Applied Physics	

General Education Electives

Students select seven (21.0 credits) general education electives, with a minimum of one course in each of the following three categories. Students take the remaining 12.0 credits from any of the topics listed under Additional General Education Electives.

Society and Culture		
Communication, English, Fine Arts, Global Studies, Language or Philosophy		3.0
Social Science		
Anthropology, History, Sociology, Political Science, Psychology		3.0
Science		
Computer Science, Information Systems, Science		3.0

Additional General Education Electives

Twelve (12.0) credits must be earned by taking 4 courses from the following topics: Communication, English, Fine Arts, Global Studies, Language, Philosophy, Anthropology, History, Sociology, Political Science, Psychology, Computer Science, Information Systems, Math, Science

Business Requirements

ACCT 115	Financial Accounting Foundations	4.0
ACCT 116	Managerial Accounting Foundations	4.0
BLAW 201	Business Law I	4.0
BUSN 101	Foundations of Business I (Online students take BUSN 111)	4.0
BUSN 102	Foundations of Business II (Online students take BUSN 112)	4.0

MGMT 451	Management Simulation	
STAT 202	Business Statistics II	
Major Requirements		
Eight required courses (See Major Requirements list below)		32.0
Free Electives		18.0
Total Credits		180.0

Required Accounting Major Courses

ACCT 321	Financial Reporting I	4.0
ACCT 322	Financial Reporting II	4.0
ACCT 323	Financial Reporting III	4.0
ACCT 329	Advanced Accounting	4.0
ACCT 331	Cost Accounting	4.0
ACCT 341	Principles of Auditing	4.0
TAX 341	Individual Income Taxes	4.0
TAX 342	Business Income Taxes	4.0
Total Credits		32.0

A minimum of 20.0 elective (BUSN Non-BUSN) credits are required to fulfill degree completion. Students planning to take the CPA exam should review the educational requirements established by the State Board of Accountancy in the state in which they plan to sit for the examination. Students are qualified to sit for the examination in Pennsylvania by meeting the degree requirements above. Students planning to apply for a CPA license in Pennsylvania have to obtain 225.0 quarter credit hours, the equivalent to 150 semester hours.

Sample Plan of Study

Term 1		Credits
BUSN 101	Foundations of Business I	4.0
ECON 201	Principles of Microeconomics	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 101	Introduction to Analysis I	4.0
UNIV B101	The Drexel Experience	1.0
	Term Credits	16.0
Term 2		
BUSN 102	Foundations of Business II	4.0
ECON 202	Principles of Macroeconomics	4.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
MATH 102	Introduction to Analysis II	4.0
	Term Credits	15.0
Term 3		
ACCT 115	Financial Accounting Foundations	4.0

General education elective		3.0
Free electives		3.0
TAX 342	Business Income Taxes	4.0
	Term Credits	14.0

Term 12

Select one of the following:		4.0
MGMT 260	Introduction to Entrepreneurship	
MGMT 370	Business Consulting	
MGMT 371	Business Consulting for Nonprofits	
MGMT 451	Management Simulation	
STAT 202	Business Statistics II	
Free electives		8.0

Fine arts elective	3.0
Term Credits	15.0
Total Credit: 180.0	

Co-op/Career Opportunities

Public, private, and government accounting provide the greatest range of career possibilities. Professional accountants are normally certified as public accountants (CPA) or managerial accountants (CMA) after passing the appropriate professional examinations.

Drexel's co-op program provides an added advantage to accounting students; time spent working in accounting co-op positions is often accepted as part of the one year of accounting experience needed for CPA certification.

Drexel's accounting graduates accept positions in public accounting, private industry, government, and nonprofit organizations. Many also choose to continue their studies in graduate schools, pursuing such degrees as a MBA, master's in taxation, master's in accounting or a PhD. Overall, Drexel's graduates enjoy a high placement rate.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. To learn more about career opportunities and resources see the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

Minor in Accounting

About the Minor

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- Business administration, business & engineering and economic students may complete any of the business minors, including: economics, finance, international economics, legal studies, management information systems, marketing, business analytics, organizational management, technology innovation management, and operations & supply chain management.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Program Requirements

Required Courses

ACCT 115	Financial Accounting Foundations	4.0
ACCT 116	Managerial Accounting Foundations	4.0
ACCT 321	Financial Reporting I	4.0
ACCT 322	Financial Reporting II	4.0
ACCT 323	Financial Reporting III	4.0
Select one (1) of the following:		4.0
ACCT 331	Cost Accounting	

ACCT 341	Principles of Auditing	
TAX 341	Individual Income Taxes	
Total Credits		24.0

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty, students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

Accounting Faculty

Maureen Breen, MAS, MBA (*University of Illinois at Urbana-Champaign; Drexel University*). Assistant Clinical Professor.

Hsiuhui Chang, PhD (*University of Minnesota*) KPMG Professor of Accounting.

Hiu Lam Choy, PhD (*University of Rochester*). Associate Professor. Financial accounting.

Anthony P. Curatola, PhD (*Texas A&M University*) Joseph F. Ford Professor of Accounting. Professor. Federal and state income tax policy, retirement income taxation, fringe benefits taxation, educational savings and tax incentives, federal and state income tax research.

Xin Dai, PhD (*University of Minnesota*). Assistant Professor.

Hubert Glover, PhD (*Texas A&M University*). Associate Clinical Professor. International financial reporting.

Barbara Murray Grein, PhD (*Kenan-Flagler Business School, University of North Carolina*) Department Head, Accounting and Tax. Associate Professor. Auditing, auditor selection, audit adjustments, audit fees, corporate governance, financial reporting.

Curtis M. Hall, MBA (*University of Arizona*). Assistant Professor. Strategic cost management; corporate governance; capital markets research in accounting; human capital investment.

Natalya V. Khimich, PhD (*University of California at Berkeley*). Assistant Professor. Equity valuation, earnings quality, and accounting for innovation and intangible assets.

Stacy Kline, MBA (*Temple University*). Clinical Professor. Individual, corporation; S corporation and partnership taxation.

Johnny Lee, PhD (*University of Utah*). Associate Clinical Professor. Accounting information systems; E-business; Managerial accounting; Supply chain management

Gordian Nduzibu, PhD (*Temple University*). Professor. Financial accounting.

Duri Park, PhD (*Ohio State University*). Assistant Professor. Financial accounting, insider trading, investments, and cash holdings.

Jennifer Wright, MTA (Villanova University) Assistant Department Head, Accounting and Tax. Associate Clinical Professor.

Business Analytics

Co-Major: Business Analytics

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 186.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.1301

Standard Occupational Classification (SOC) code: 11-1021

The Business Analytics program is a "co-major"

About the Program

How does a company design an effective social media campaign for its brand new product? How does a bank make credit card offers or detect fraud? How does a chain store stock its shelves with just the right products at the right price? Technology has made it possible to collect, store, process and analyze massive data sets that can help businesses make better decisions. However, there remains a gap that can only be filled by those with a background in business analytics. From the junior analyst providing daily reports on production to the CEO seeking to transform his or her business, all are looking for guidance and talent in business analytics.

LeBow students are uniquely positioned to address descriptive, diagnostic, predictive, prescriptive and pre-emptive questions across the business analytics lifecycle from the corporate generation of data through the application and impact on managerial and leadership decision-making and innovation.

Ranked second in a Computerworld survey on the most difficult skills to find, Business Analytics expertise is not only scarce, but in demand. McKinsey Global Institute reports that the United States could face a shortage of between 140,000 and 190,000 individuals who possess Business Analytics skills and an additional 1.5 million managers with the skills to implement the results.

Example business analytics jobs include, BA Strategy Consultants, Business Intelligence and Performance Management Consultants, Advanced Analytics, Optimization Consultants.

Because students in this co-major are required to choose a major in one of the functional areas of business, the curriculum enables students to tailor the program to their interests and anticipated career path.

Students complete the business analytics co-major in conjunction with one of the following majors:

- Accounting (p. 69)
- Finance (p. 80)
- International Business (p. 114)
- Legal Studies (p. 86)
- Management Information Systems (p. 88)
- Marketing (p. 91)
- Operations & Supply Chain Management (p. 95)

An additional distinguishing feature of the business analytics co-major is the required senior project (BUSN 460) where students work in small

teams on real business analytics projects from LeBow College's corporate partners. The projects require students to bring together all the key elements of the business analytics curriculum to derive business insights for a company's current business challenges. Experiencing this data driven decision-making process is invaluable career preparation.

Degree Requirements

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
COM 270 [WI]	Business Communication	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 101	Introduction to Analysis I	4.0
MATH 102	Introduction to Analysis II	4.0
PHIL 105	Critical Reasoning	3.0
PSY 101	General Psychology I	0.0-3.0
UNIV B101	The Drexel Experience	2.0
English Literature elective		3.0
Fine Arts elective		3.0
History elective		4.0
Science Requirement		6.0
Select two courses from the following:		
BIO 100	Applied Cells, Genetics & Physiology	
	or BIO 101 Applied Biological Diversity, Ecology & Evolution	
CHEM 151	Applied Chemistry	
PHYS 151	Applied Physics	
General Education electives *		21.0

Business Requirements

ACCT 115	Financial Accounting Foundations	4.0
ACCT 116	Managerial Accounting Foundations	4.0
BLAW 201	Business Law I	4.0
BUSN 101	Foundations of Business I	4.0
BUSN 102	Foundations of Business II	4.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
FIN 301	Introduction to Finance	4.0
INTB 200	International Business	4.0
MGMT 450	Strategy and Competitive Advantage	4.0
MIS 200	Management Information Systems	4.0
MKTG 201	Introduction to Marketing Management	4.0
OPM 200	Operations Management	4.0
ORGB 300 [WI]	Organizational Behavior	4.0
STAT 201	Introduction to Business Statistics	4.0
STAT 202	Business Statistics II	4.0
Primary Major Courses **		32.0

Business Analytics Requirements

BUSN 260	Introduction to Business Analytics	4.0
BUSN 460	Business Analytics Senior Project	4.0
Select one of the following:		4.0
BUSN 360	Programming for Data Analytics	
MIS 349	Predictive Business Analytics with Relational Database Data	

Business Analytics Electives

Select three of the following:		12.0
BUSN 360	Programming for Data Analytics	
ECON 301	Microeconomics	
ECON 350 [WI]	Applied Econometrics	
ECON 360	Time Series Econometrics	
MIS 342	Systems Analysis and Design	

MIS 343	Database Design and Implementation
MIS 349	Predictive Business Analytics with Relational Database Data
MIS 361	Information System Project Management
MKTG 326	Marketing Insights
MKTG 366	Customer Analytics
MKTG 367	Data-Driven Digital Marketing
OPR 320	Linear Models for Decision Making
OPR 330	Advanced Decision Making and Simulation
OPR 340	Decision Models for the Public Sector
STAT 331	Introduction to Data Mining for Business
STAT 335	Introduction to Experimental Design
Total Credits	183.0-186.0

* Students select seven (21.0 credits) of additional general education electives with a minimum of one course in each of the following categories:

- Society and Culture (Communication, English, Fine Arts, International Area Studies, Language, Philosophy)
- Social Science (Anthropology, History, Sociology, Political Science, Psychology)
- Math and Science (Computer Science, Information Systems, Math, Science)

** Students completing the Business Analytics co-major must do so in conjunction with a primary business major. Students must select a primary major from the following list:

- Accounting
- Real Estate Management and Development
- Finance
- Legal Studies
- Management Information Systems
- Marketing
- Operations & Supply Chain Management
- International Business

*** Occasionally, departments can also offer special topics courses and independent studies on emerging areas of analytics. These courses may be substituted with department chair approval.

† The following groupings of courses are recommended by departments for their respective career pathways. Students are strongly encouraged to complete three courses for at least one career pathway, based on their other major(s) and career goals.

Accounting:

STAT 331: Introduction to Data Mining for Business
 MIS 342: Systems Analysis and Design
 MIS 343: Database Design and Implementation
 OPR 320: Linear Models for Decision Making

Economics:

ECON 301: Microeconomics
 ECON 350 [WI] : Applied Econometrics
 ECON 360: Time Series Econometrics
 MIS 343: Database Design and Implementation
 STAT 331: Introduction to Data Mining for Business
 MKTG 366: Customer Analytics
 MKTG 367: Data-Driven Digital Marketing
 Complete both of the following courses:
 BUSN 360: Programming for Business Analytics (R)
 MIS 349: Predictive Analytics (SAS)

Finance:

ECON 350 [WI] : Applied Econometrics
 ECON 360: Time Series Econometrics
 STAT 331: Introduction to Data Mining for Business
 OPR 320: Linear Models for Decision Making

Management Information Systems:

MIS 342: Systems Analysis and Design
 MIS 343: Database Design and Implementation
 MIS 361: Information System Project Management

Marketing: (Even though only three will be counted toward the BA co-major/minor, we recommend that the students use their primary major or free business electives to complete all of the courses below in order to develop a solid foundation. Note that MKTG 366 and STAT 331 employ similar techniques and MKTG 367 and STAT 335 employ similar techniques.)

MKTG 326: Marketing Insights
 MKTG 366: Customer Analytics
 MKTG 367: Data-Driven Digital Marketing
 STAT 331: Data Mining
 STAT 335: Introduction to Experimental Design

Operations and Supply Chain Management:

ECON 350 [WI] : Applied Econometrics
 ECON 360: Time Series Econometrics
 STAT 331: Introduction to Data Mining for Business
 STAT 335: Introduction to Experimental Design
 MIS 342: Systems Analysis and Design
 MIS 343: Database Design and Implementation
 OPR 320: Linear Models for Decision Making
 OPR 330: Advanced Decision Making and Simulation
 OPR 340: Decision Models for the Public Sector
 MKTG 366: Customer Analytics
 MKTG 367: Data-Driven Digital Marketing

Co-Op/Career Opportunities

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. To learn more about career opportunities and resources see the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- Business administration, business & engineering and economic students may complete any of the business minors, including: economics, finance, international economics, legal studies, management information systems, marketing, organizational management, technology innovation management, and operations & supply chain management.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Minor in Business Analytics

How does a company design an effective social media campaign for its brand new product? How does a bank make credit card offers or detect fraud? How does a chain store stock its shelves with just the right products at the right price? Technology has made it possible to collect, store, process and analyze massive data sets that can help businesses make better decisions. However, there remains a gap that can only be filled by those with a background in business analytics. From the junior analyst providing daily reports on production to the CEO seeking to

transform his or her business, all are looking for guidance and talent in business analytics.

LeBow students are uniquely positioned to address descriptive, diagnostic, predictive, prescriptive and pre-emptive questions across the business analytics lifecycle from the corporate generation of data through the application and impact on managerial and leadership decision-making and innovation.

Ranked second in a Computerworld survey on the most difficult skills to find, Business Analytics expertise is not only scarce, but in demand. McKinsey Global Institute reports that the United States could face a shortage of between 140,000 and 190,000 individuals who possess Business Analytics skills and an additional 1.5 million managers with the skills to implement the results.

The Business Analytics minor at LeBow consists of basic courses in statistics, operations research, and management information systems as well as advanced courses in management information systems, statistics/econometrics, and modeling. The curriculum enables students to tailor the program to their interests and anticipated career path.

One of the distinguishing features of the business analytics minor is the required senior project (BUSN 460) where students work in small teams on real business analytics projects from LeBow College's corporate partners. The projects require students to bring together all the key elements of the business analytics curriculum to derive business insights for a company's current business challenges. Experiencing this data driven decision making process is invaluable career preparation.

Pramod Abichandani, PhD. Assistant Clinical Professor.

Murugan Anandarajan, PhD (*Drexel University*) *Department Chair, Management; Department Head, Decision Sciences and MIS*. Professor. Cyber crime, strategic management of information technology, unstructured data mining, individual internet usage behavior (specifically abuse and addiction), application of artificial intelligence techniques in forensic accounting and ophthalmology.

Orakwue B. Arinze, PhD (*London School of Economics*). Professor. Client/Server computing; Enterprise Application Software (EAS)/ Enterprise Resource Planning Software (ERP); knowledge-based and decision support applications in operations management.

Hande Benson, PhD (*Princeton University*) *Assistant Department Head, Decision Sciences & MIS*. Associate Professor. Interior-point methods, Large Scale Optimization, Mathematical Programming, Nonlinear Optimization, Operations and Supply Chain Optimization, Optimization Software, Portfolio Optimization

Qizhi Dai, PhD (*University of Minnesota*). Associate Professor. Business Value of Information Technology, eCommerce, Economics of Information Technology, Information System Management.

Michaela Draganska, PhD (*Kellogg School of Management, Northwestern University*) *Department of Marketing*. Associate Professor. Advertising strategy, product assortment decisions, new product positioning, distribution channels. Marketing analytics and big data, marketing communications, marketing research, marketing strategy, technology and innovation.

Elea Feit, PhD (*University of Michigan*) *Department of Marketing*. Assistant Professor. Bayesian hierarchical models, interactive (eCommerce), marketing research, missing data.

David Gefen, PhD (*Georgia State University*) *Provost Distinguished Research Professor*. Professor. Strategic IT management; IT development and implementation management; research methodology; managing the adoption of large IT systems, such as MRP II, ERP, and expert systems; research methodology, eCommerce; Online Auctions; Outsourcing; SAS; Technology Adoption.

Merrill W. Liechty, PhD (*Duke University*). Clinical Professor. Bayesian statistics, portfolio selection, higher moment estimation, higher moment estimation, Markov Chain Monte Carlo

Chuanren Liu, PhD (*Rutgers University*). Assistant Professor. Data Mining, Decision Models, Risk Assessment, Sequential Analysis.

Bruce D. McCullough, PhD (*University of Texas Austin*). Professor. Applied Econometrics, Data Mining, Econometric Techniques, Reliability of Statistical and Econometric Software.

Samir Shah, DPS (*Pace University*). Associate Clinical Professor. Drexel University's Provost Fellow India Partnerships

Chaojiang Wu, PhD (*University of Cincinnati*). Assistant Professor. Business Analytics, Computational Statistics, Healthcare Analytics, Semiparametric Regression, Statistical Data Mining.

Business and Engineering

Major: Business and Engineering

Degree Awarded: Bachelor of Science in Business and Engineering (BSBAE)

Calendar: Quarter

Total Credit Hours: 183.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.0101

Standard Occupational Classification (SOC) code: 11-1021

About the Program

The major in business and engineering combines two of Drexel's most exciting programs, linking business and engineering to provide students with expertise in both fields.

The program contains a curriculum combining coursework in both business and engineering, enabling graduates to work successfully in technically oriented business positions. Students complete a set of broad functional business core courses along with a firm foundation in science, mathematics, and engineering. Students also study quantitative decision making within a business context, technology innovation management, and operations management. They complete a minor in business as well as a concentration in engineering. Graduates of this program will be well prepared to participate in innovative technological efforts in business.

The major gives students the opportunity to learn important concepts in functional business areas such as accounting, economics, finance, information systems, law, marketing, organizational behavior, operations, and statistics.

Mission

The Bachelor of Science in Business and Engineering program provides students the opportunity to:

- Learn important concepts in functional business areas such as accounting, economics, finance, information systems, law, marketing, organizational behavior, operations, and statistics.
- Study in more depth the areas of operations, technology innovation management, and other functional business areas.
- Complete a course of study in an engineering discipline after completing a firm foundation in science and mathematics.
- Develop skills in technical communication and critical reasoning.
- Study ethical issues faced by managers and engineers, and understand technology from a historical perspective.
- Apply acquired skills in co-op work experiences to further enhance their knowledge base.
- Study entrepreneurship from a management and finance perspective for preparation in innovative technological efforts.
- Learn to improve the functioning of technically oriented businesses through operational competencies.

About the Business Minors

All Business and Engineering students are required to complete a business minor under the curriculum, and they will have the ability to

choose from any of the business minors that are currently offered by the LeBow College of Business.

- Accounting (p. 71)
- Business Analytics
- Economics
- Finance
- International Economics (p. 120)
- Legal Studies (p. 88)
- Management Information Systems (p. 90)
- Marketing (p. 93)
- Operations & Supply Chain Management (p. 97)
- Organizational Management (p. 99)
- Technology Innovation Management (p. 103)

About the Engineering Concentrations

All Business and Engineering students are required to complete an engineering concentration under the curriculum, and they will have the ability to choose from the following:

- Chemical Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Mechanical Engineering
- General Engineering

For more information on the specific courses for the concentration, please refer to the Degree Requirements Page (p. 77).

Additional Information

For additional information about the program or to schedule an appointment, please contact the Department of Decision Sciences and MIS (<http://www.lebow.drexel.edu/Faculty/Departments/Decision>).

Degree Requirements

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
COM 310 [WI]	Technical Communication (WI)	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
ENGR 231	Linear Engineering Systems	3.0
ENGR 232	Dynamic Engineering Systems	3.0
MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 200	Multivariate Calculus	4.0
PHIL 105	Critical Reasoning	3.0
Select one of the following:		3.0-4.0
HIST 285	Technology in Historical Perspective	
PHIL 301	Business Ethics	
PHIL 315	Engineering Ethics	
UNIV B101	The Drexel Experience	1.0
UNIV B201	Career Management	1.0

Science and Computing Requirements

CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
PHYS 101	Fundamentals of Physics I	4.0
PHYS 102	Fundamentals of Physics II	4.0

Business Requirements

ACCT 115	Financial Accounting Foundations	4.0
ACCT 116	Managerial Accounting Foundations	4.0
BLAW 201	Business Law I	4.0
BUSN 101	Foundations of Business I	4.0
BUSN 102	Foundations of Business II	4.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
FIN 301	Introduction to Finance	4.0
INTB 200	International Business	4.0
MGMT 201	Introduction to Technology Innovation Management	4.0
MGMT 450	Strategy and Competitive Advantage	4.0
MIS 200	Management Information Systems	4.0
MKTG 201	Introduction to Marketing Management	4.0
OPM 321	Planning and Control of Operations	4.0
ORGB 300 [WI]	Organizational Behavior (WI)	4.0
STAT 205	Statistical Inference I	4.0
STAT 206	Statistical Inference II	4.0

Business and Engineering Focus

Quantitative Decision Making in Business

OPR 320	Linear Models for Decision Making	4.0
Select one of the following:		4.0
MKTG 366	Customer Analytics	
MKTG 367	Data-Driven Digital Marketing	
OPR 330	Advanced Decision Making and Simulation	
STAT 325	Six-Sigma Quality Implementation	
STAT 331	Introduction to Data Mining for Business	

Technology Innovation Management

Select one of the following:		4.0
MGMT 301	Designing Innovative Organizations	
MGMT 302	Competing in Technology Industries	
MGMT 364	Technology Management	

Operations Management

Select one of the following:		4.0
MIS 361	Information System Project Management	
OPM 315	Service Operations Management	
OPM 325	Advanced Planning and Control of Operations	

Engineering Requirements

ENGR 101	Engineering Design Laboratory I	2.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 103	Engineering Design Laboratory III	2.0
ENGR 121	Computation Lab I	2.0
ENGR 122	Computation Lab II	1.0
ENGR 220	Fundamentals of Materials	4.0

Business Minor * 16.0

Engineering Concentration ** 15.0

Total Credits 183.0-184.0

* Students must take 4-5 LeBow courses to complete the requirements of a business minor. Students must select a minor from the following list:

- Accounting
- Economics
- Entrepreneurship
- Finance
- International Economics
- Legal Studies
- Management Information Systems
- Marketing
- Operations & Supply Chain Management
- Technology Innovation Management

** Students must select an engineering concentration and complete all five courses required for it:

- Electrical and Computer Engineering: ECE 200, ECE 201, ECEL 301 [WI], ECE 203, ECES 301
- Mechanical Engineering: ENGR 210, MEM 201, MEM 202, MEM 220, MEM 371
- Civil Engineering: ENGR 210, CAEE 202, CAEE 203, CAEE 212, MEM 202
- Chemical Engineering: ENGR 210, CHE 201, CHE 202, CHE 206, (CHE 301 or CHE 307)
- General Engineering: Any 5 courses from those listed for the above concentrations

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

Term 1		Credits
BUSN 101	Foundations of Business I	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 121	Computation Lab I	2.0
MATH 121	Calculus I	4.0

Total Credit: 183.0-184.0	

* See degree requirements (p. 77).

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty, students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

Co-Op/Career Opportunities

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. To learn more about career opportunities and resources see the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

Decision Sciences & MIS Faculty

Pramod Abichandani, PhD. Assistant Clinical Professor.

Murugan Anandarajan, PhD (*Drexel University*) *Department Chair, Management; Department Head, Decision Sciences and MIS*. Professor. Cyber crime, strategic management of information technology, unstructured data mining, individual internet usage behavior (specifically abuse and addiction), application of artificial intelligence techniques in forensic accounting and ophthalmology.

Orakwue B. Arinze, PhD (*London School of Economics*). Professor. Client/Server computing; Enterprise Application Software (EAS)/ Enterprise Resource Planning Software (ERP); knowledge-based and decision support applications in operations management.

Avijit Banerjee, PhD (*The Ohio State University*) *Department of Decision Sciences*. Professor. Interface with Marketing, Pricing Revenue Management, Inventory Control, Operations Planning and Scheduling, Production Planning and Control, Supply Chain Management

Hande Benson, PhD (*Princeton University*) *Assistant Department Head, Decision Sciences & MIS*. Associate Professor. Interior-point methods, Large Scale Optimization, Mathematical Programming, Nonlinear Optimization, Operations and Supply Chain Optimization, Optimization Software, Portfolio Optimization

Oben Ceryan, PhD (*University of Michigan Ann Arbor*) *Department of Decision Sciences*. Assistant Professor. Dynamic Pricing, Inventory

Control, Revenue Management, Stochastic Optimization, Supply Chain Management

Qizhi Dai, PhD (*University of Minnesota*). Associate Professor. Business Value of Information Technology, eCommerce, Economics of Information Technology, Information System Management.

Christopher Gaffney, PhD (*Rutgers University, New Brunswick*). Assistant Clinical Professor. Applied Probability, Decision Theory, Risk Analysis

David Gefen, PhD (*Georgia State University*) *Provost Distinguished Research Professor*. Professor. Strategic IT management; IT development and implementation management; research methodology; managing the adoption of large IT systems, such as MRP II, ERP, and expert systems; research methodology, eCommerce; Online Auctions; Outsourcing; SAS; Technology Adoption.

Seung-Lae Kim, PhD (*Penn State University*) *Department of Decision Sciences*. Professor. Inventory control, Production Planning and Control, Quality Management, Six-Sigma, Supply Chain Management

Jeongsik Lee, PhD (*University of California Los Angeles*). Assistant Professor. Economics of Innovation; Social networks; Technology management

Benjamin Lev, PhD (*Case Western Reserve University*). Trustee Professor. Inventory Control, Mathematical Programming, Operations Planning and Scheduling.

Merrill W. Liechty, PhD (*Duke University*). Clinical Professor. Bayesian statistics, portfolio selection, higher moment estimation, higher moment estimation, Markov Chain Monte Carlo

Chuanren Liu, PhD (*Rutgers University*). Assistant Professor. Data Mining, Decision Models, Risk Assessment, Sequential Analysis.

Hazem Maragah, PhD (*Louisiana University*) *Department of Decision Sciences*. Associate Professor. Statistical quality control, total equity management, applied statistics.

Bruce D. McCullough, PhD (*University of Texas Austin*). Professor. Applied Econometrics, Data Mining, Econometric Techniques, Reliability of Statistical and Econometric Software.

Fariborz Y. Partovi, PhD (*The Wharton School, University of Pennsylvania*) *Department of Decision Sciences*. Professor. Manufacturing Technology Development, Quality Implementation, Quality Management, Service Management, Six-Sigma

Matthew Reindorp, PhD (*University of Maryland*). Associate Clinical Professor. Supply Chain Finance; Supply Chain Management; Stochastic Processes; Simulation; Real options

Samir Shah, DPS (*Pace University*). Associate Clinical Professor. Drexel University's Provost Fellow India Partnerships

Wenjing Shen, PhD (*University of Michigan*). Associate Professor. The interface of operations management and marketing; inventory management; supply chain management.

Min Wang, PhD (*Columbia University*) *Department of Decision Sciences*. Assistant Professor. Healthcare Operations Management, Inventory Control, Production Planning and Control, Service Management, Supply Chain Management

Chaojiang Wu, PhD (*University of Cincinnati*). Assistant Professor. Business Analytics, Computational Statistics, Healthcare Analytics, Semiparametric Regression, Statistical Data Mining.

Certificate in Brand and Reputation Management

Certificate Level: Undergraduate

Admission Requirements: Current Drexel students only

Certificate Type: Certificate

Number of Credits to Completion: 16.0

Instructional Delivery: Campus

Calendar Type: Quarter

Expected Time to Completion: 3 years

Classification of Instructional Program (CIP) Code: 52.1499

Standard Occupational Classification (SOC) Code: 11-2021

In the increasingly competitive and volatile global marketplace, brand and reputation management have gained considerable interest and importance in organizations, including corporations, non-profits, and those in the public sector.

The Brand and Reputation Management Certificate program introduces the concept of the product and/or corporate brand, the components that make up a good brand, and how to develop brand strategies that are appropriate for various types of organizations. Students will also learn about the various stakeholders that impact or enhance an organization's ability to build its brand and reputation as well as learn to analyze the business environment in order to identify a desired image, to create brand positioning strategy, and to develop and nurture the positive perception of a product, organization, individual or place.

Following the completion of all other required courses, all students must also complete an "honors" project as part of MKTG 363 *Brand & Reputation Management Project*. The topic and scope of the project must be approved by the Department Head in the Department of Marketing (<http://www.lebow.drexel.edu/faculty-and-research/disciplines/marketing>). Completed projects will be a written project submitted to the Department Head of Marketing for evaluation in a pass/fail manner.

Program Requirements

COM 181	Public Relations Principles and Theory	3.0
MKTG 322	Advertising & Integrated Marketing Communications	4.0
MKTG 362	Brand and Reputation Management	4.0
MKTG 363	Brand & Reputation Management Project *	1.0
Students must complete one course from the following options, depending upon career interests:		4.0
MKTG 324	Marketing Channels and Distribution Systems	
MKTG 347	New Product Development	
MKTG 348	Services Marketing	
MKTG 356	Consumer Behavior	
Or a course from outside the LeBow College in a related field, with the approval of the Department Head in the department of Marketing.		
Total Credits		16.0

* Taken upon the completion of all other requirements.

Certificate in Social Responsibility in Business

Through course work, civic engagement and related co-op experience, the Certificate in Social Responsibility in Business provides a well-rounded look at corporate social responsibility, giving students a unique perspective on ethical leadership in the business community. The certificate program, open only to currently enrolled Drexel University students, encourages students to seek co-op experience and positions after graduation with firms committed to acting with social responsibly.

Program Requirements

In conjunction with the Lindy Center for Civic Engagement, (<http://drexel.edu/lindycenter>) students initiate and complete a socially focused winter break or spring break project during any one term/break. The scope of the project entails civic responsibility and focuses on business applications. An example would be to assist in the preparation of income tax forms for under privileged Philadelphia residents. This project is in addition to requirements of the University 101 course.

Student will use their My LIFE e-portfolios to retain reflections and relevant writings from each of the required courses.

Coordinated with the Center for Civic Engagement, students will complete a minimum of sixty hours (60) of civic engagement while a student at Drexel University.

Students are required to earn a minimum of "C" in the following required courses, and a "B" average over all the courses.

Required Courses *		
BUSN 103	Advanced First Year Business Seminar *	2.0
ENTP 270	Social Entrepreneurship	3.0
MKTG 368	Corporate Responsibility Management	4.0
ORGB 320	Leadership: Theory and Practice	4.0
PHIL 301	Business Ethics	3.0
Total Credits		16.0

* Students must take BUSN 103 Social Responsibility in Business.

Finance

Major: Finance

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.0801

Standard Occupational Classification (SOC) code: 11-3031;13-2052; 13-2041; 13-2051

About the Program

Students with a major in finance obtain a thorough understanding of the basic concepts, principles, operating procedures, and analytical techniques in the various areas of finance. Throughout the finance curriculum, students develop and apply quantitative skills for financial decision making within the business environment.

This major prepares students for careers in private business firms, including positions involving forecasting and budgeting for financial

resources, cost-effectiveness analysis, control of expenditures, evaluation and financing of new projects, and evaluation of alternative methods of financing; in the investment field, including positions in security analysis, sales and trading, and investment banking and in the public sector, including positions at the federal, state, and local government levels.

For more information about the program, contact the Department of Finance (<http://www.lebow.drexel.edu/faculty-and-research/disciplines/finance>).

Major Requirements

All core mathematics and statistics courses should be completed before embarking on the upper-level finance major courses. A second course in business statistics, STAT 202 with a minimum grade of C, must be completed as a prerequisite for the major's required courses.

Because of the relevance of financial accounting to the field of finance, it is strongly recommended that finance students also complete ACCT 321 and ACCT 322 (*Financial Accounting I and II*) as two of their free electives.

Bachelor of Science in Business Administration (BSBA) Degree Requirements

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
COM 270 [WI]	Business Communication	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 101	Introduction to Analysis I	4.0
MATH 102	Introduction to Analysis II	4.0
PHIL 105	Critical Reasoning	3.0
PSY 101	General Psychology I	3.0
UNIV B101	The Drexel Experience	1.0
UNIV B201	Career Management	1.0
English literature elective ENGL 200 through ENGL 399		3.0
Fine Arts elective		3.0
History (HIST) elective		4.0
Select two of the following:		6.0
BIO 100	Applied Cells, Genetics & Physiology	
	or BIO 101 Applied Biological Diversity, Ecology & Evolution	
CHEM 151	Applied Chemistry	
PHYS 151	Applied Physics	

General Education Electives

Students select seven (21.0 credits) general education electives, with a minimum of one course in each of the following three categories. Students take the remaining 12.0 credits from any of the topics listed under Additional General Education Electives.

Society and Culture		
Communication, English, Fine Arts, Global Studies, Language or Philosophy		3.0
Social Science		
Anthropology, History, Sociology, Political Science, Psychology		3.0
Science		
Computer Science, Information Systems, Science		3.0

Additional General Education Electives

Twelve (12.0) credits must be earned by taking 4 courses from the following topics: Communication, English, Fine Arts, Global Studies, Language, Philosophy, Anthropology, History, Sociology, Political Science, Psychology, Computer Science, Information Systems, Math, Science

Business Requirements

ACCT 115	Financial Accounting Foundations	4.0
ACCT 116	Managerial Accounting Foundations	4.0

BLAW 201	Business Law I	4.0
BUSN 101	Foundations of Business I (Online students take BUSN 111)	4.0
BUSN 102	Foundations of Business II (Online students take BUSN 112)	4.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
FIN 301	Introduction to Finance	4.0
INTB 200	International Business	4.0
MGMT 450	Strategy and Competitive Advantage	4.0
MIS 200	Management Information Systems	4.0
MKTG 201	Introduction to Marketing Management	4.0
OPM 200	Operations Management	4.0
ORGB 300 [WI]	Organizational Behavior	4.0
STAT 201	Introduction to Business Statistics	4.0
Select one of the following:		4.0
MGMT 260	Introduction to Entrepreneurship	
MGMT 370	Business Consulting	
MGMT 371	Business Consulting for Nonprofits	
MGMT 451	Management Simulation	
STAT 202	Business Statistics II	

Major Requirements

Eight required courses (See Major Requirements list below)	32.0
Free Electives	18.0
Total Credits	180.0

Required Finance Major Courses

FIN 302	Intermediate Corporate Finance	4.0
FIN 321	Investment Securities & Markets	4.0
FIN 325	Financial Institutions and Markets	4.0
Select five of the following:		20.0
FIN 323	Risk Management	
FIN 330	Derivative Securities	
FIN 332	Investment Analysis	
FIN 335	Entrepreneurial Finance	
FIN 338	Money and Capital Markets	
FIN 340	Seminar in Finance	
FIN 341	Applied Portfolio Management	
FIN 342	Advanced Portfolio Management	
FIN 346	Global Financial Management	
FIN 348	Corporate Financial Reporting to Executives	
FIN 450	Personal Wealth Management	
Total Credits		32.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-centers>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the

attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

Term 1		Credits
BUSN 101	Foundations of Business I	4.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Co-op/Career Opportunities

The finance program at Drexel prepares students for careers in corporate financial management, the investment field, and the public sector. It also provides excellent basic preparation for various types of professional certification, including chartered financial analyst (CFA) and certified financial planner (CFP). In money and capital markets, finance students often find careers in banking, securities analysis, and

portfolio management. In government, many choose to work for regulatory agencies.

Typical positions include financial analyst, capital budgeting officer, credit analyst, merger and acquisition manager, bank trust officer, portfolio analyst, and personal wealth manager.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) for more detailed information on co-op and post-graduate opportunities. Also visit the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

Minor in Finance

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- Business administration, business & engineering and economic students may complete any of the business minors, including: accounting, economics, international economics, legal studies, management information systems, marketing, business analytics, organizational management, technology innovation management, and operations & supply chain management.
- **Cannot do a major and a minor in the same field of study.**

All core mathematics and statistics courses should be completed before embarking on the upper-level finance minor courses. A second course in business statistics, STAT 202, with a minimum grade of C, must be completed as a prerequisite for the minor's required courses.

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment. Prospective students may also consult with the Finance Department (<http://www.lebow.drexel.edu/academics/undergraduate/majors/finance>).

Required Courses

ACCT 115	Financial Accounting Foundations	4.0
or ACCT 110	Accounting for Professionals

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty,

students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

Finance Faculty

David A. Becher, PhD (*Pennsylvania State University*) *Department of Finance*. Associate Professor. Mergers and acquisitions, corporate governance, financial institutions.

Gloria Bell Adjunct Instructor. Social Media. Over 30 years of successful business operations, communications, event management, and entrepreneurial experience; Co-Founder and Operations Director of The Women In Tech Summit and as an advisor to TechGirlz.

Jie Cai, PhD (*University of Iowa*) *Department of Finance*. Associate Professor. Investment banking, mergers and acquisitions, corporate finance and corporate governance.

Thomas Chi-Nan Chiang, PhD (*The Pennsylvania State University*) *Marshall M. Austin Professor of Finance*. Professor. International finance; time series analysis of financial data; econometric modeling & forecasting; financial markets; international risk management; monetary theory; macroeconomics; emerging markets; and global country funds.

Naveen Daniel, PhD (*Arizona State University*) *Denis O'Brien Research Scholar in Finance*. Associate Professor. Corporate governance, mutual funds, hedge funds, executive compensation

Daniel Dorn, PhD (*Columbia University*) *Department of Finance*. Associate Professor. Capital markets and investments; behavioral finance.

Casey Dougal, PhD (*University of North Carolina, Chapel Hill*). Assistant Professor. Empirical asset pricing, financial media, behavioral finance, and urban economics.

Eliezer M. Fich, PhD (*New York University*) *Department of Finance*. Associate Professor. Empirical topics in corporate finance.

Michael Joseph Gombola, PhD (*University of South Carolina*) *Department Chair, Finance*. Professor. Stock offerings and repurchases, mergers, acquisitions, and restructuring; working capital management, time series analysis; options and derivatives, financial statement analysis.

Amy Kratchman, MBA (*Drexel University*). Associate Clinical Professor. Investments; Portfolio Management

Michelle Lowry, PhD (*University of Rochester*) *TD Bank Endowed Professor*. Empirical corporate finance, including initial public offerings, mergers, and corporate governance

Edward Nelling, PhD, CFA (*University of Pennsylvania-Wharton*) *Department of Finance*. Professor. Investments; corporate finance; real estate finance.

Gregory Nini, PhD (*The Wharton School, University of Pennsylvania*). Assistant Professor. Creditor control rights, corporate governance, and firm value; insurance economics.

Patricia Robak, PhD (*Lehigh University*) *Department of Finance*. Associate Clinical Professor. Investments, money and banking, international finance.

Diana Sandberg, MS (*Drexel University*) *Department of Finance*. Associate Clinical Professor. Portfolio management, derivatives, investment management.

Samuel H. Szewczyk, PhD (*Pennsylvania State University*) *Department of Finance*. Associate Professor. Corporate governance, mergers and acquisitions, financial engineering, investment banking, financial institutions.

George Tsetsekos, PhD (*The University of Tennessee*) *Dean Emeritus, LeBow College of Business; Francis Professor of Finance*. Professor. Valuation and corporate restructuring, treasury and risk/hedging operations, investment banking, securitization, emerging capital markets, multinational finance, bank asset-liability management.

Ralph Walkling, PhD (*University of Maryland*) *Stratakis Professor of Corporate Governance, Department of Finance*. Professor. Corporate governance, mergers and acquisitions.

General Business

Major: General Business

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.0101

Standard Occupational Classification (SOC) code: 11-1021; 11-2022; 11-3011; 11-9199

About the Program

The major in general business equips students with a thorough understanding of theory and practice in the fundamental areas of business such as accounting, economics, finance, management, and marketing. This major is intended for business students who wish to gain breadth within their undergraduate studies. Students will develop the skills and competencies necessary for success across a diverse spectrum of business organizations.

Students selecting the major in general business should choose eight courses from at least five of the following fields: accounting (ACCT (p. 538)), economics (ECON (p. 673)), finance (FIN (p. 736)), human resource management (HRMT (p. 778)), international business (INTB (p. 792)), legal studies (BLAW (p. 801)), management (MGMT (p. 802)), marketing (MKTG (p. 809)), management information systems (MIS (p. 804)), business statistics (STAT (p. 614)), organizational behavior (ORGB (p. 856)), operations research (OPR (p. 855)) and operations management (OPM (p. 854)).

Please note that students pursuing this degree option are not eligible to obtain a business co-major or business minor.

Eric Rios, MBA, M.ED (*Eastern University, Drexel University*). Assistant Clinical Professor. Research on the needs of first generation college students

Legal Studies

Major: Legal Studies

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 22.9999

Standard Occupational Classification (SOC) code: 11-9199

About the Program

Law is pervasive in all aspects of business and life. The major in legal studies provides Drexel University students with the ability to recognize the influence of the law, understand its application and make informed and intelligent decisions regarding the course of action to take.

Although the major in legal studies will benefit those interested in pursuing a career in law, it is not intended solely for students aspiring to attend law school. This major enhances any business student's perspective on the impact of legal issues within their respective professions.

Students will learn the basics of various areas of the law and the legal environment of business and will learn to identify the factual situation in which to apply that law. They will be able to analyze the facts, determine which aspects of the law are pertinent, apply the law to the facts, and draw a conclusion. Clarity of thought, reasoning and expression (both oral and written) are additional results of this process.

Emphasis is on critical thinking as a tool for problem solving, so that whatever the discipline, students will be able to identify and prevent possible problems or seek proper and timely assistance for critical decision making.

Additional Information

For more information about the program, contact the Department of Legal Studies (<http://www.lebow.drexel.edu/Faculty/Departments/Legal>).

Minor in Legal Studies

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- Business administration, business & engineering and economic students may complete any of the business minors, including: accounting, economics, finance, international economics, management information systems, marketing, business analytics, organizational management, technology innovation management, and operations & supply chain management.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Requirements

BLAW 201	Business Law I	4.0
Select five of the following:		20.0
BLAW 202	Business Law II	
BLAW 321	Law of Business Organizations	
BLAW 330	Real Estate	
BLAW 334	Labor Law	
BLAW 338	Government Regulation and Business	
BLAW 340	International Business Law	
BLAW 342	Criminal Law	
BLAW 346	Entrepreneurial Law	
BLAW 348	White Collar Crime	
BLAW 356	Legal Issues in Corporate Governance	
BLAW 358	Employment Law	
BLAW 360	Intellectual Property and Cyber Law	
Total Credits		24.0

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty, students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

Co-Op/Career Opportunities

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. To learn more about career opportunities and resources see the Career Guides (<http://drexel.edu/scdc/career->

[services/counseling/career-guides](http://drexel.edu/scdc/career-)) provided by the Steinbright Career Development Center.

Legal Studies Faculty

Roger D. Collons, JD, PhD (*George Washington University; Georgia State University*) Department of Legal Studies. Professor. Patent law, preservation of wealth.

Richard P. Freedman, JD, LLM (*Temple University*) Head of the Department of Legal Studies. Associate Professor. Taxation, corporate and business matters, real estate, estate planning, estate administration and elder law.

Andrew Genetta, JD (*Cleveland-Marshall College of Law*). Associate Clinical Professor.

Rosalie S. Kreider, JD (*Villanova University*) Department of Legal Studies. Clinical Professor. Business law, international business law.

Neal Orkin, JD (*Temple University*) Department of Legal Studies. Associate Professor. Intellectual property rights of employed inventors and authors; labor relations.

Natalie Pedersen, JD (*Harvard University*) Department of Legal Studies. Assistant Professor. American law, contract law, labor and employment law.

Steven R. Sher, JD (*Georgetown University Law Center*) Department of Legal Studies. Associate Professor. Business law, product liability, negligence, medical malpractice.

Management Information Systems

Major: Management Information Systems

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No

Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.1201

Standard Occupational Classification (SOC) code:11-3021

About the Major

Management Information Systems (MIS) is about managing how and why people, organizations, and markets apply, design, and deploy information technology to achieve tactical and strategic business goals. MIS is about the integration of both areas of expertise and applying the power of technology to solving business problems.

The major in management information systems prepares students for opportunities in the information technology field and business. Aimed at producing graduates who bridge the gap between technical knowledge and business functions, the program focuses on a mix of applied computer systems content, interpersonal interaction, and a practical business orientation.

While administered by the Department of Decision Sciences and MIS (<http://www.lebow.drexel.edu/Faculty/Departments/Management>), the major in management information systems is interdisciplinary in nature. The courses may be taken by students in other colleges and departments who wish to complement other computer-related studies with business-oriented information systems subjects.

Degree Requirements

Bachelor of Science in Business Administration (BSBA) Degree Requirements

General Education Requirements		
CIVC 101	Introduction to Civic Engagement	1.0
COM 270 [WI]	Business Communication	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 101	Introduction to Analysis I	4.0
MATH 102	Introduction to Analysis II	4.0
PHIL 105	Critical Reasoning	3.0
PSY 101	General Psychology I	3.0
UNIV B101	The Drexel Experience	1.0
UNIV B201	Career Management	1.0
English literature elective ENGL 200 through ENGL 399		3.0
Fine Arts elective		3.0
History (HIST) elective		4.0
Select two of the following:		6.0
BIO 100	Applied Cells, Genetics & Physiology	
or BIO 101	Applied Biological Diversity, Ecology & Evolution	
CHEM 151	Applied Chemistry	
PHYS 151	Applied Physics	

General Education Electives

Students select seven (21.0 credits) general education electives, with a minimum of one course in each of the following three categories. Students take the remaining 12.0 credits from any of the topics listed under Additional General Education Electives.

Society and Culture	
Communication, English, Fine Arts, Global Studies, Language or Philosophy	3.0
Social Science	
Anthropology, History, Sociology, Political Science, Psychology	3.0
Science	
Computer Science, Information Systems, Science	3.0

Additional General Education Electives

Twelve (12.0) credits must be earned by taking 4 courses from the following topics: Communication, English, Fine Arts, Global Studies, Language, Philosophy, Anthropology, History, Sociology, Political Science, Psychology, Computer Science, Information Systems, Math, Science

Business Requirements

ACCT 115	Financial Accounting Foundations	4.0
ACCT 116	Managerial Accounting Foundations	4.0
BLAW 201	Business Law I	4.0
BUSN 101	Foundations of Business I (Online students take BUSN 111)	4.0
BUSN 102	Foundations of Business II (Online students take BUSN 112)	4.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
FIN 301	Introduction to Finance	4.0
INTB 200	International Business	4.0
MGMT 450	Strategy and Competitive Advantage	4.0
MIS 200	Management Information Systems	4.0
MKTG 201	Introduction to Marketing Management	4.0
OPM 200	Operations Management	4.0
ORGB 300 [WI]	Organizational Behavior	4.0
STAT 201	Introduction to Business Statistics	4.0
Select one of the following:		4.0
MGMT 260	Introduction to Entrepreneurship	
MGMT 370	Business Consulting	
MGMT 371	Business Consulting for Nonprofits	
MGMT 451	Management Simulation	
STAT 202	Business Statistics II	

Major Requirements

Eight required courses (See Major Requirements list below)	32.0
Free Electives	18.0
Total Credits	180.0

Management Information Systems Major Required Courses

MIS 342	Systems Analysis and Design	4.0
MIS 343	Database Design and Implementation	4.0
Select six of the following: *		24.0
MIS 344	Networking Technologies for Business	
MIS 345	Client/Server Computing for Business	
MIS 346	Management Information Systems Strategy	
MIS 347	Domestic and Global Outsourcing Management	
MIS 348	Visual Basic Database Programming for Business	
MIS 349	Predictive Business Analytics with Relational Database Data	
MIS 351	Introduction to Programming for Business in C#	
MIS 352	Advanced Business Programming with ASP.Net	
MIS 361	Information System Project Management	
Total Credits		32.0

* Students select from the following courses, or any other course at LeBow with the program manager's permission.

Sample Plan of Study

Co-op/Career Opportunities

Career opportunities exist in a wide range of business settings. Students prepare for careers as managers of information resource units, or as staff members who develop and support computer systems.

Recent Management Information System (MIS) graduates have gone on to work for many types of businesses and other organizations. Some job titles include: Management Consultants, IS Business Analysts, IT Project Management, IT Consultants, IT Systems Managers, Systems Analysts. Some MIS students also choose to continue their studies with an MBA; recent Drexel MIS graduates are now attending Columbia, Princeton, and the University of Pennsylvania.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. Also visit the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

Decision Sciences & MIS Faculty

Pramod Abichandani, PhD. Assistant Clinical Professor.

Murugan Anandarajan, PhD (*Drexel University*) *Department Chair, Management; Department Head, Decision Sciences and MIS*. Professor. Cyber crime, strategic management of information technology, unstructured data mining, individual internet usage behavior (specifically abuse and addiction), application of artificial intelligence techniques in forensic accounting and ophthalmology.

Orakwue B. Arinze, PhD (*London School of Economics*). Professor. Client/Server computing; Enterprise Application Software (EAS)/ Enterprise Resource Planning Software (ERP); knowledge-based and decision support applications in operations management.

Avijit Banerjee, PhD (*The Ohio State University*) *Department of Decision Sciences*. Professor. Interface with Marketing, Pricing Revenue Management, Inventory Control, Operations Planning and Scheduling, Production Planning and Control, Supply Chain Management

Hande Benson, PhD (*Princeton University*) *Assistant Department Head, Decision Sciences & MIS*. Associate Professor. Interior-point methods, Large Scale Optimization, Mathematical Programming, Nonlinear Optimization, Operations and Supply Chain Optimization, Optimization Software, Portfolio Optimization

Oben Ceryan, PhD (*University of Michigan Ann Arbor*) *Department of Decision Sciences*. Assistant Professor. Dynamic Pricing, Inventory Control, Revenue Management, Stochastic Optimization, Supply Chain Management

Qizhi Dai, PhD (*University of Minnesota*). Associate Professor. Business Value of Information Technology, eCommerce, Economics of Information Technology, Information System Management.

Christopher Gaffney, PhD (*Rutgers University, New Brunswick*). Assistant Clinical Professor. Applied Probability, Decision Theory, Risk Analysis

David Gefen, PhD (*Georgia State University*) *Provost Distinguished Research Professor*. Professor. Strategic IT management; IT development and implementation management; research methodology; managing the adoption of large IT systems, such as MRP II, ERP, and expert systems; research methodology, eCommerce; Online Auctions; Outsourcing; SAS; Technology Adoption.

Seung-Lae Kim, PhD (*Penn State University*) *Department of Decision Sciences*. Professor. Inventory control, Production Planning and Control, Quality Management, Six-Sigma, Supply Chain Management

Jeongsik Lee, PhD (*University of California Los Angeles*). Assistant Professor. Economics of Innovation; Social networks; Technology management

Benjamin Lev, PhD (*Case Western Reserve University*). Trustee Professor. Inventory Control, Mathematical Programming, Operations Planning and Scheduling.

Merrill W. Liechty, PhD (*Duke University*). Clinical Professor. Bayesian statistics, portfolio selection, higher moment estimation, higher moment estimation, Markov Chain Monte Carlo

Chuanren Liu, PhD (*Rutgers University*). Assistant Professor. Data Mining, Decision Models, Risk Assessment, Sequential Analysis.

Hazem Maragah, PhD (*Louisiana University*) *Department of Decision Sciences*. Associate Professor. Statistical quality control, total equity management, applied statistics.

Bruce D. McCullough, PhD (*University of Texas Austin*). Professor. Applied Econometrics, Data Mining, Econometric Techniques, Reliability of Statistical and Econometric Software.

Fariborz Y. Partovi, PhD (*The Wharton School, University of Pennsylvania*) *Department of Decision Sciences*. Professor. Manufacturing Technology Development, Quality Implementation, Quality Management, Service Management, Six-Sigma

Matthew Reindorp, PhD (*University of Maryland*). Associate Clinical Professor. Supply Chain Finance; Supply Chain Management; Stochastic Processes; Simulation; Real options

Samir Shah, DPS (*Pace University*). Associate Clinical Professor. Drexel University's Provost Fellow India Partnerships

Wenjing Shen, PhD (*University of Michigan*). Associate Professor. The interface of operations management and marketing; inventory management; supply chain management.

Min Wang, PhD (*Columbia University*) *Department of Decision Sciences*. Assistant Professor. Healthcare Operations Management, Inventory Control, Production Planning and Control, Service Management, Supply Chain Management

Chaojiang Wu, PhD (*University of Cincinnati*). Assistant Professor. Business Analytics, Computational Statistics, Healthcare Analytics, Semiparametric Regression, Statistical Data Mining.

Marketing

Major: Marketing

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No

Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.1401

Standard Occupational Classification (SOC) code: 11-2021

About the Program

Marketing is one of the most dynamic areas of business because it focuses on satisfying the ever-changing wants and needs of people. Professional marketers research and identify target audiences, develop products and services, formulate pricing strategies, develop advertising and promotional campaigns, and implement methods of distribution so that customers receive products and services where and when they want them. Perhaps the most basic marketing skill is to be able to see an organization's activities from the customer's viewpoint.

A major in marketing prepares students for the many opportunities that exist in product and brand management, marketing research, advertising, digital marketing, customer analytics, retailing, channel management,

logistics and physical distribution, professional personal selling and sales management, purchasing, wholesaling, marketing planning and analysis, public relations, marketing entrepreneurship, and new-product development.

Additional Information

For more information about the major, contact the Department of Marketing (<http://www.lebow.drexel.edu/academics/disciplines/marketing>).

Co-op/Career Opportunities

Marketing opportunities abound in all types of organizations — including manufacturing firms, wholesalers, retail stores, Internet firms, service organizations, banking and financial institutions, law and accounting firms, hospitals, colleges and universities, museums, chambers of commerce, professional sports teams, government agencies, charitable foundations, churches, and countless other settings. Any organization that seeks to reach a particular audience or consumer group needs the skills of marketers.

There are many specialized jobs in marketing, including product and brand managers, marketing researchers, advertising executives, pricing analysts, direct (non-store) marketers, Internet marketers, professional buyers, manufacturing agents, transportation and distribution managers, industrial and consumer salespeople, stockbrokers, sales managers, college enrollment managers, wholesalers, retailers, marketing planners, sales forecasters, marketing cost analysts, public relations managers, media and event planners, sales promotion managers, trade show or exhibit marketers, new product development managers, management consultants, digital marketers, marketing data analytics and international marketers.

Co-op Experiences

When students complete their co-op jobs, they are asked to write an overview of their experiences. These brief quotes are taken from some recent student reports:

Marketing research assistant, manufacturing firm: "Assisted in the development of new products, which included gathering information concerning competitive products, markets, pricing. Conducted testing of new products. Assisted in special projects. . .gained good experience."

Retail analyst, producer of luxury home products: "Supported the sales and production divisions. Tracked weekly and monthly sales information. Developed product placement charts for forecasting. Assisted in maintaining productivity reports. Developed and presented a window treatment market analysis."

Activity-based management (ABM) analyst, pharmaceuticals manufacturer: "Supported the ABM team (5 people). Member of two sub-project teams. Maintained full participation on both sub-teams while still maintaining responsibilities on core team. Developed proficiencies in re-engineering methodologies, activity-based costing methodologies, and support of change management. . .included as a full team member. "

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. Also visit the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

Minor in Marketing

Marketing is one of the most dynamic areas of business because it focuses on satisfying the ever-changing wants and needs of people. Since it involves the creation of value for customers, as well as the acquisition and retention of customers, this minor is appropriate in combination with a myriad of business and non-business majors including,

but not limited to International Business, Business Analytics, Finance, Management, Management Information Systems, Entrepreneurship, Economics, Legal Studies, Engineering, Design and Merchandising, Fashion Design, Product Design, Interior Design, Music Industry, Film and Video, Communications, Hospitality Management, and Psychology.

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Requirements

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty, students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

Marketing Faculty

Rolph E. Anderson, PhD (*University of Florida*) *Royal H. Gibson Sr. Professor of Marketing*. Professor. Personal selling and sales

management; multivariate data analysis; customer relationship management (CRM); customer satisfaction and customer loyalty.

Trina Larsen Andras, PhD (*University of Texas at Austin*) *Head of the Department of Marketing; Academic Director, Center for Corporate Research Management*. Professor. International marketing, marketing channels management, cross-cultural communication.

Boryana Dimitrova, PhD (*Drexel University*). Assistant Clinical Professor. Global marketing, inter-organizational, marketing channels, retailing and retail management.

Michaela Draganska, PhD (*Kellogg School of Management, Northwestern University*) *Department of Marketing*. Associate Professor. Advertising strategy, product assortment decisions, new product positioning, distribution channels. Marketing analytics and big data, marketing communications, marketing research, marketing strategy, technology and innovation.

Lawrence Duke, MBA (*Harvard Business School*). Clinical Professor. International marketing and strategy, new product development, business-to-business marketing, marketing of financial services.

Elea Feit, PhD (*University of Michigan*) *Department of Marketing*. Assistant Professor. Bayesian hierarchical models, interactive (eCommerce), marketing research, missing data.

Michael Howley, PhD (*Arizona State University*). Clinical Professor. Investments in dissatisfied customers, service recovery, health-care marketing, marketing of service organizations, financial consequences of marketing actions.

Yanliu Huang, PhD (*The Wharton School, University of Pennsylvania*). Associate Professor. Consumer n-store decision making, consumer planning, health marketing, memory and learning.

Daniel Korschun, PhD (*Boston University*). Associate Professor. Brand and corporate reputation management, corporate social responsibility, internal marketing, marketing strategy, relationship marketing.

Hyokjin Kwak, PhD (*University of Georgia*) *Department of Marketing*. Professor. Advertising effects, consumer behaviors and e-commerce.

Bert Rosenbloom, PhD (*Temple University*) *Rauth Chair of Electronic Commerce*. Professor. Marketing channels and distribution systems, electronic commerce, inter-organizational marketing management, wholesale and retail distribution, marketing strategy and planning.

Prashant Srivastava, PhD (*Oklahoma State University*) *Department of Marketing*. Associate Clinical Professor. New product development, supply chain management, B2B marketing, sales, strategic alliances, organizational learning, market orientation, healthcare marketing, and database marketing.

Rajneesh Suri, PhD (*University of Illinois at Urbana-Champaign*) *Associate Dean for Research, Marketing Department*. Professor. Pricing, promotions and branding.

Srinivasan Swaminathan, PhD (*University of Texas-Austin*). Professor. Marketing research and strategy, pricing and promotions, loyalty and satisfaction.

Chen Wang, PhD (*University of British Columbia*). Assistant Professor. Consumer curiosity, self-regulation and goals, sensory perception.

Minor in Business Administration

The minor in business administration is designed to provide some flexibility while at the same time assuring exposure to a number of critical business functional areas.

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculation at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- Business administration and business & engineering & economic students may complete any of the business minors, including: accounting, economics, finance, international economics, legal studies, management information systems, marketing, business analytics, organizational management, technology innovation management, and operations & supply chain management.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Students select six of the following: 24.0

ACCT 115	Financial Accounting Foundations or ACCT 11 Accounting for Professionals	
BLAW 201	Business Law I or BLAW 32 Law of Business Organizations	
ECON 201	Principles of Microeconomics	
ECON 202	Principles of Macroeconomics	
FIN 301	Introduction to Finance	
MIS 200	Management Information Systems	
MKTG 201	Introduction to Marketing Management

STAT 202	Business Statistics II	
Total Credits		24.0

Operations & Supply Chain Management

Major: Operations & Supply Chain Management

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.0205

Standard Occupational Classification (SOC) code: 11-3051; 11-3071

About the Program

The major in Operations & Supply Chain Management is designed to prepare students for eventual participation as managers or specialists in the operations activity of industrial and service systems. Today,

companies worldwide are competing in very different ways and very different environments than they were in the past because of technological advances. Operations, Supply Chain Management, and Logistics are key functions through which companies can gain strategic advantage, and companies are hiring graduates to drive innovations for their new economic surroundings. In this major, courses drawing on the foundations and the state-of-the-art for both production and service industries allow students to craft a course of study that can meet industry standards.

Additional Information

For additional information about the program, students should contact the Department of Decision Sciences and MIS (<http://www.lebow.drexel.edu/Faculty/Departments/Decision>).

Degree Requirements

Bachelor of Science in Business Administration (BSBA) Degree Requirements

General Education Requirements		
CIVC 101	Introduction to Civic Engagement	1.0
COM 270 [W]	Business Communication	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 101	Introduction to Analysis I	4.0
MATH 102	Introduction to Analysis II	4.0

Co-op/Career Opportunities

Operations & Supply Chain Management students go on to work in a variety of fields, including manufacturing, product planning and research and development. The #4 and #6 on the Top 10 Best Business Jobs in the US News and World Report rankings are Operations Analysts and Logistics Analysts. According to the Bureau of Labor Statistics (<https://www.bls.gov>), the number of jobs in Operations & Supply Chain Management will grow 13-22% over the next 7 years. The Operations & Supply Chain Management major is the top BSBA Major in LeBow for job placement satisfaction. The average starting salary of our graduates is \$50,667.

Co-op Placements

Operations & Supply Chain Management majors land some of the most prestigious and highest paying co-op assignments. Our co-op employers include:

- Estee Lauder
- PECO Energy
- Johnson & Johnson
- Bimbo Bakeries
- Exelon Corporation

The average weekly co-op salary is \$517.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. Also visit the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

Minor in Operations and Supply Chain Management

The minor in operations and supply chain management is designed to prepare students for eventual participation as managers or specialists in the operations activity of industrial and service systems. Today, companies worldwide are competing in very different ways and very different environments than they were in the past because of technological advances. Operations, Supply Chain Management, and Logistics are key functions through which companies can gain strategic advantage, and companies are hiring graduates to drive innovations for their new economic surroundings. In this minor, courses drawing on the foundations and the state-of-the-art for both production and service industries allow students to craft a course of study that can complement their existing major.

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.

- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the prerequisites of all classes when selecting electives. It is the responsibility of the student to know prerequisites.
- Business administration and business & engineering & economic students may complete any of the business minors, including: accounting, economics, finance, international economics, legal studies, management information systems, marketing, business analytics, organizational management and technology innovation management.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Program Requirements

Required Courses		
OPM 321	Planning and Control of Operations	4.0
OPR 320	Linear Models for Decision Making	4.0

Decision Sciences & MIS Faculty

Pramod Abichandani, PhD. Assistant Clinical Professor.

Murugan Anandarajan, PhD (*Drexel University*) *Department Chair, Management; Department Head, Decision Sciences and MIS.* Professor. Cyber crime, strategic management of information technology, unstructured data mining, individual internet usage behavior (specifically

abuse and addiction), application of artificial intelligence techniques in forensic accounting and ophthalmology.

Orakwue B. Arinze, PhD (*London School of Economics*). Professor. Client/Server computing; Enterprise Application Software (EAS)/ Enterprise Resource Planning Software (ERP); knowledge-based and decision support applications in operations management.

Avijit Banerjee, PhD (*The Ohio State University*) *Department of Decision Sciences*. Professor. Interface with Marketing, Pricing Revenue Management, Inventory Control, Operations Planning and Scheduling, Production Planning and Control, Supply Chain Management

Hande Benson, PhD (*Princeton University*) *Assistant Department Head, Decision Sciences & MIS*. Associate Professor. Interior-point methods, Large Scale Optimization, Mathematical Programming, Nonlinear Optimization, Operations and Supply Chain Optimization, Optimization Software, Portfolio Optimization

Oben Ceryan, PhD (*University of Michigan Ann Arbor*) *Department of Decision Sciences*. Assistant Professor. Dynamic Pricing, Inventory Control, Revenue Management, Stochastic Optimization, Supply Chain Management

Qizhi Dai, PhD (*University of Minnesota*). Associate Professor. Business Value of Information Technology, eCommerce, Economics of Information Technology, Information System Management.

Christopher Gaffney, PhD (*Rutgers University, New Brunswick*). Assistant Clinical Professor. Applied Probability, Decision Theory, Risk Analysis

David Gefen, PhD (*Georgia State University*) *Provost Distinguished Research Professor*. Professor. Strategic IT management; IT development and implementation management; research methodology; managing the adoption of large IT systems, such as MRP II, ERP, and expert systems; research methodology, eCommerce; Online Auctions; Outsourcing; SAS; Technology Adoption.

Seung-Lae Kim, PhD (*Penn State University*) *Department of Decision Sciences*. Professor. Inventory control, Production Planning and Control, Quality Management, Six-Sigma, Supply Chain Management

Jeongsik Lee, PhD (*University of California Los Angeles*). Assistant Professor. Economics of Innovation; Social networks; Technology management

Benjamin Lev, PhD (*Case Western Reserve University*). Trustee Professor. Inventory Control, Mathematical Programming, Operations Planning and Scheduling.

Merrill W. Liechty, PhD (*Duke University*). Clinical Professor. Bayesian statistics, portfolio selection, higher moment estimation, higher moment estimation, Markov Chain Monte Carlo

Chuanren Liu, PhD (*Rutgers University*). Assistant Professor. Data Mining, Decision Models, Risk Assessment, Sequential Analysis.

Hazem Maragah, PhD (*Louisiana University*) *Department of Decision Sciences*. Associate Professor. Statistical quality control, total equity management, applied statistics.

Bruce D. McCullough, PhD (*University of Texas Austin*). Professor. Applied Econometrics, Data Mining, Econometric Techniques, Reliability of Statistical and Econometric Software.

Fariborz Y. Partovi, PhD (*The Wharton School, University of Pennsylvania*) *Department of Decision Sciences*. Professor. Manufacturing Technology Development, Quality Implementation, Quality Management, Service Management, Six-Sigma

Matthew Reindorp, PhD (*University of Maryland*). Associate Clinical Professor. Supply Chain Finance; Supply Chain Management; Stochastic Processes; Simulation; Real options

Samir Shah, DPS (*Pace University*). Associate Clinical Professor. Drexel University's Provost Fellow India Partnerships

Wenjing Shen, PhD (*University of Michigan*). Associate Professor. The interface of operations management and marketing; inventory management; supply chain management.

Min Wang, PhD (*Columbia University*) *Department of Decision Sciences*. Assistant Professor. Healthcare Operations Management, Inventory Control, Production Planning and Control, Service Management, Supply Chain Management

Chaojiang Wu, PhD (*University of Cincinnati*). Assistant Professor. Business Analytics, Computational Statistics, Healthcare Analytics, Semiparametric Regression, Statistical Data Mining.

Organizational Management

Co-Major: Organizational Management

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 186.0

Classification of Instructional Programs (CIP) code: 52.0213

Standard Occupational Classification (SOC) code: 11-9199

The Organizational Management program is a co-major that must be taken in conjunction with the following majors Accounting, Finance, International Business, Legal Studies, Management Information Systems, Marketing or Operations and Supply Chain Management.

About the Program

The co-major in "Organizational Management" is designed for students with varied backgrounds who seek to develop knowledge and skills in leadership, teamwork, and communication. These organizational management skills are intended to supplement core technical skills such as Finance, Accounting, Marketing, etc. The curriculum provides students with a foundation of skills for effectively working with others in a variety of contexts and situations. This co-major complements a variety of degrees and is suitable for business majors.

Degree Requirements

Required Courses

ORGB 320	Leadership: Theory and Practice	4.0
ORGB 400	Team Development and Leadership	4.0
ORGB 420	Negotiations and Conflict Resolution	4.0
ORGB 430	Strategic Career Development	4.0
Select two of the following:		8.0
HRMT 323	Principles of Human Resource Administration	
MGMT 301	Designing Innovative Organizations	
MGMT 370	Business Consulting	
MGMT 451	Management Simulation	

Total Credits

24.0

Primary Major Courses

Students completing the Organizational Management co-major (requirements listed above) must do so in conjunction with a primary business major. Students must select a primary major from the following list (Accounting, Finance, Legal Studies, International Business, Management Information Systems, Marketing, or Operations & Supply Chain Management.)

Sample Plan of Study

Term 1		Credits
BUSN 101	Foundations of Business I	4.0
ECON 201	Principles of Microeconomics	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 101	Introduction to Analysis I	4.0
UNIV B101	The Drexel Experience	1.0

Minor in Organizational Management

The minor in "Organizational Management" is designed for students with varied backgrounds who seek to develop knowledge and skills in leadership, teamwork, and communication. These organizational management skills are intended to supplement other majors from around the university. The curriculum provides students with a foundation of skills for effectively working with others in a variety of contexts and situations.

Required Courses

ORGB 300 [WI]	Organizational Behavior	4.0
ORGB 320	Leadership: Theory and Practice	4.0
ORGB 400	Team Development and Leadership	4.0
ORGB 420	Negotiations and Conflict Resolution	4.0
Select two of the following courses:		8.0
HRMT 323	Principles of Human Resource Administration	

ORGB 430	Strategic Career Development
MGMT 370	Business Consulting
MGMT 451	Management Simulation
Total Credits	
24.0	

Requirements

- No more than 2 courses or 8.0 credits required by a student’s major may be counted towards this minor.
- A grade of “C” (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- Business & engineering and economic students may complete any of the business minors, including: accounting, economics, finance, international economics, legal studies, management information systems, marketing, business analytics, technology innovation management, organizational management and operations & supply chain management.
- **Cannot do a major and a minor in the same field of study.**

Learning Goals

Upon completing the minor, students will be able to:

- Discover important insights about oneself as a leader and develop a self-awareness of strengths and opportunities for personal growth
- Manage career and networks to achieve personal growth
- Develop the skills and competencies needed to lead effectively in today’s dynamic and diverse environment
- Increase conceptual understanding of leadership in different types of situations and facing different types of challenges
- Learn how to influence and manage conflict within organizations
- Identify various approaches and imperatives for leading teams
- Recognize ethical dilemmas in management practice and how to infuse ethical standards within a group or team
- Learn how to effectively function within a team and lead a team for success
- Recognize how human factors can both distort and enhance the process of managerial decision making
- Understand how the changing nature of work (e.g., global, technological, etc.) influences choices about design and practices within organizations

Organizational Management Faculty

Lauren D’Innocenzo, PhD (*University of Connecticut*). Assistant Professor. Groups/Teams; Multi-Level Modeling; Shared Leadership.

Cuneyt Gozu, PhD (*University of Albany*). Associate Clinical Professor. Attitudes; Groups/Teams; Leadership; Motivation; Power and Influence

Jeffrey H. Greenhaus, PhD (*New York University*) *William A. Mackie Professor of Management*. Professor. Work-Life Balance.

David Kurz, EdD (*University of Pennsylvania*). Assistant Clinical Professor. Business Education; Groups/Teams; Leadership; Supply Chain Leadership.

Mary Mawritz, PhD (*University of Central Florida*). Assistant Professor. Management Department Abusive supervision; deviant behavior; leadership.

Christian Resick, PhD (*Wayne State University*). Associate Professor. Groups/Teams; Leadership; Organizational Culture and Fit; Personality.

Joan Weiner, PhD (*The Wharton School, University of Pennsylvania*). Professor. Business ethics, leadership, communication and decision making; educational innovation; health system management design.

Jonathan C. Ziegert, PhD (*University of Maryland*). Associate Professor. Management Department Attitudes; Diversity; Groups/Teams; Leadership; Organizational Culture and Fit.

Real Estate Management and Development

Major: Real Estate Management and Development
Degree Awarded: Bachelor of Science in Business Administration (BSBA)
Calendar Type: Quarter
Total Credit Hours: 180.0
Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)
 Classification of Instructional Programs (CIP) code: 52.1501
 Standard Occupational Classification (SOC) code: 11-9141

Drexel’s Real Estate Management and Development major encompasses foundation courses in real estate operations, management and development, including specialized courses in sustainability, asset management, real finance, and law. The major balances students’ need for critical thinking and business acumen skills by including core business, social sciences, and humanities courses. Students in this full-time, face-to-face major will benefit from Philadelphia’s outdoor classroom – its diverse real estate market. The curriculum also includes a six-month co-op experience that partners classroom knowledge with experiential learning to further develop the requisite skills students need to succeed as real estate management and development professionals in the built environment.

Degree Requirements

Finance Faculty

David A. Becher, PhD (*Pennsylvania State University*) *Department of Finance*. Associate Professor. Mergers and acquisitions, corporate governance, financial institutions.

Gloria Bell Adjunct Instructor. Social Media. Over 30 years of successful business operations, communications, event management, and entrepreneurial experience; Co-Founder and Operations Director of The Women In Tech Summit and as an advisor to TechGirlz.

Jie Cai, PhD (*University of Iowa*) *Department of Finance*. Associate Professor. Investment banking, mergers and acquisitions, corporate finance and corporate governance.

Thomas Chi-Nan Chiang, PhD (*The Pennsylvania State University*) *Marshall M. Austin Professor of Finance*. Professor. International finance; time series analysis of financial data; econometric modeling & forecasting; financial markets; international risk management; monetary theory; macroeconomics; emerging markets; and global country funds.

Naveen Daniel, PhD (*Arizona State University*) *Denis O'Brien Research Scholar in Finance*. Associate Professor. Corporate governance, mutual funds, hedge funds, executive compensation

Daniel Dorn, PhD (*Columbia University*) *Department of Finance*. Associate Professor. Capital markets and investments; behavioral finance.

Casey Dougal, PhD (*University of North Carolina, Chapel Hill*). Assistant Professor. Empirical asset pricing, financial media, behavioral finance, and urban economics.

Eliezer M. Fich, PhD (*New York University*) *Department of Finance*. Associate Professor. Empirical topics in corporate finance.

Michael Joseph Gombola, PhD (*University of South Carolina*) *Department Chair, Finance*. Professor. Stock offerings and repurchases, mergers, acquisitions, and restructuring; working capital management, time series analysis; options and derivatives, financial statement analysis.

Amy Kratchman, MBA (*Drexel University*). Associate Clinical Professor. Investments; Portfolio Management

Michelle Lowry, PhD (*University of Rochester*) *TD Bank Endowed Professor*. Empirical corporate finance, including initial public offerings, mergers, and corporate governance

Edward Nelling, PhD, CFA (*University of Pennsylvania-Wharton*) *Department of Finance*. Professor. Investments; corporate finance; real estate finance.

Gregory Nini, PhD (*The Wharton School, University of Pennsylvania*). Assistant Professor. Creditor control rights, corporate governance, and firm value; insurance economics.

Patricia Robak, PhD (*Lehigh University*) *Department of Finance*. Associate Clinical Professor. Investments, money and banking, international finance.

Diana Sandberg, MS (*Drexel University*) *Department of Finance*. Associate Clinical Professor. Portfolio management, derivatives, investment management.

Samuel H. Szewczyk, PhD (*Pennsylvania State University*) *Department of Finance*. Associate Professor. Corporate governance, mergers and acquisitions, financial engineering, investment banking, financial institutions.

George Tsetsekos, PhD (*The University of Tennessee*) *Dean Emeritus, LeBow College of Business; Francis Professor of Finance*. Professor. Valuation and corporate restructuring, treasury and risk/hedging operations, investment banking, securitization, emerging capital markets, multinational finance, bank asset-liability management.

Ralph Walkling, PhD (*University of Maryland*) *Stratakis Professor of Corporate Governance, Department of Finance*. Professor. Corporate governance, mergers and acquisitions.

Technology Innovation Management

Co-Major: Technology Innovation Management

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 186.0

Classification of Instructional Programs (CIP) code: 52.0201

Standard Occupational Classification (SOC) code: 11-1021; 11-9199

The Technology Innovation Management program is a co-major that must be taken in conjunction with the following majors Accounting, Finance,

International Business, Legal Studies, Management Information Systems, Marketing or Operations and Supply Chain Management.

About the Program

Technology and Innovation Management is a unique and exciting area within the broad field of management. The field focuses broadly on understanding the process of innovation, and management approaches to innovation with special emphasis on technology change a source of innovations.

The Technology Innovation Management program offers a very significant way of differentiating the Drexel business student in the marketplace by embedding skill sets and knowledge base emphasizing technology innovation management which is built on a solid business background. Students most likely to benefit from a Technology Innovation Management co-major will have majors in Operations and Supply Chain Management, Marketing, and Management Information Systems; however, this is not a restricted co-major. Technology Innovation Management courses are oriented primarily toward innovation, with an emphasis on technology-based innovation.

Degree Requirements

Required Courses:		16.0
MGMT 201	Introduction to Technology Innovation Management	
MGMT 301	Designing Innovative Organizations	
MGMT 302	Competing in Technology Industries	
MGMT 364	Technology Management	
Select two courses from either track:		8.0

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty, students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

Co-Op/Career Opportunities

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. To learn more about career opportunities and resources see the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

LeBow College of Business: School of Economics

Economics is one of Drexel LeBow's strongest disciplines. The LeBow College of Business celebrated its strengths in economics teaching and research by elevating its economics department into a School of Economics. The School of Economics will continue Drexel LeBow's commitment to offering a curriculum that is current and challenging, and to conducting research that aligns with business trends and informs policy makers.

A degree, major or minor in Economics provides students with a robust understanding of the workings of the market system and major economic institutions, economic policy, and development.

- International Business (p. 114)
- International Business co-major (p. 117)

Minors

- Economics (p. 112)
- International Economics (p. 120)

Business Economics

Major: Business Economics

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 184.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 45.0601

Standard Occupational Classification (SOC) code: 11-9199; 19-3011

The Business Economics program is a "co-major."

About the Program

Economics is the study of allocating scarce resources among competing needs. The program places particular emphasis on the application of theory toward the solution of particular problems in such areas as international trade, money and finance, consumer activities, economic development, and other areas.

Drexel's Business Economics co-major is designed for students who wish to receive a sound education within a specific functional area of business (Primary major) while supplementing that knowledge with an overview of economics.

Prepares students to apply the rigorous methods of modern quantitative economics in a business context. This program combines coursework in economics and the functional fields of business administration within the context of a general scientific and humanities curriculum.

More information can be found on the School of Economics webpage (<http://www.lebow.drexel.edu/faculty-and-research/disciplines/economics>).

MIS 200	Management Information Systems	4.0
MKTG 201	Introduction to Marketing Management	4.0
OPM 200	Operations Management	4.0
ORGB 300 [WI]	Organizational Behavior (WI)	4.0
STAT 201	Introduction to Business Statistics	4.0

Select one of the following: 4.0

MGMT 260	Introduction to Entrepreneurship	
MGMT 370	Business Consulting	
MGMT 371	Business Consulting for Nonprofits	
MGMT 451	Management Simulation	
STAT 202	Business Statistics II	

Primary Major Courses 32.0

Students completing the business economics co-major must do so in conjunction with a primary business major. Students must select a primary major from the following list: accounting, entrepreneurship, finance, legal studies, management information systems, marketing, or operations & supply chain management.

Business Economics Requirements

ECON 301	Microeconomics	4.0
ECON 321	Macroeconomics	4.0
ECON 322 [WI]	Economics Seminar (WI)	4.0

Select three of the following: 12.0

ECON 250	Game Theory and Applications	
ECON 326 [WI]	Economic Ideas (WI)	
ECON 330	Managerial Economics	
ECON 334	Public Finance	
ECON 336	Labor Economics	
ECON 338	Industrial Organization	
ECON 342	Economic Development	
ECON 348	Mathematical Economics	
ECON 350 [WI]	Applied Econometrics (WI)	
ECON 351	Resource and Environmental Economics	
ECON 360	Time Series Econometrics	
INTB 332	Multinational Corporations	
INTB 334	International Trade	
INTB 336	International Money and Finance	

INTB 338	Regional Studies in Economic Policies and International Business	
Total Credits		186.0

- * Students select seven (21.0 credits) of additional general education electives with a minimum of one course in each of the following categories:
- Society and Culture (Communication, English, Fine Arts, International Area Studies, Language, Philosophy)
 - Social Science (Anthropology, History, Sociology, Political Science, Psychology)
 - Math and Science (Computer Science, Information Systems, Math, Science).

Sample Plan of Study

Term		Credits
Term 1		
BUSN 101	Foundations of Business I	4.0
ECON 201	Principles of Microeconomics	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 101	Introduction to Analysis I	4.0

Total Credit: 186.0

- * Students completing the Business Economics Co-major must do so in conjunction with a primary business major. Students must select a primary major from the following list: Accounting, Entrepreneurship, Finance, Legal Studies, Management Information Systems, Marketing, or Operations & Supply Chain Management.

School of Economics Faculty

Marco Airaud, PhD (*University of Pennsylvania Philadelphia*). Associate Professor. Computational economics, international economics, macroeconomics and monetary economics.

Patricia Awerbuch, MBA (*Drexel University*). Assistant Clinical Professor. Performance of on-campus students in an online classroom designed for distance learners; business professors.

Richard Barnett, PhD (*University of Minnesota*). Clinical Professor. Economic theory, macroeconomics.

Sebastien Bradley, PhD (*University of Michigan*). Associate Professor. Public finance, international economics, applied econometrics, real estate.

Mian Dai, PhD (*Northwestern University*). Associate Professor. Managerial economics and strategy, applied econometrics, industrial organization.

Pia DiGirolamo, PhD (*Purdue University*). Assistant Clinical Professor. Macroeconomics, international finance.

Shawkat M. Hammoudeh, PhD (*University of Kansas*). Professor. Applied econometrics, financial economics, international economics, and natural resource economics.

Teresa D. Harrison, PhD (*University of Texas Austin*) *Associate Dean for Academic Affairs and Innovation, Academic Director of the Center for Nonprofit Governance*. Associate Professor. Econometrics, public finance, industrial organization, empirical microeconomics including health and nonprofit organizations.

Paul E. Jensen, PhD (*Penn State University*) *Dean, LeBow College of Business*. Associate Professor. International trade. Primary research interest is international trade, particularly in empirical studies of international trade patterns.

Bang Nam Jeon, PhD (*Indiana University*) *Department of Economics and International Business*. Professor. Financial economics, world financial market linkages, foreign direct investment flows in the Asia-Pacific economies, the Korean economy: currency crisis, FDI, and macroeconomic issues, regional economic integration and newly industrializing economies: the

Stephen Joyce, MA (*Temple University*). Assistant Clinical Professor. Education and human capital.

Andre Kurmann, PhD (*University of Virginia*). Associate Professor. Computational economics, financial economics, labor economics, macroeconomics and monetary economics.

Christopher A. Laincz, PhD (*Duke University*) *Director, LeBow College of Business PhD program*. Associate Professor. Economic development, technological change, and growth, industrial organization, macroeconomics and monetary economics.

Vibhas Madan, PhD (*Michigan State University*) *Senior Associate Dean, Academic Programs*. Professor. International trade theory, applied microeconomics.

Roger A. McCain, PhD (*Louisiana State University*). Professor. Computational economics, game theory.

Bruce D. McCullough, PhD (*University of Texas Austin*). Professor. Applied Econometrics, Data Mining, Econometric Techniques, Reliability of Statistical and Econometric Software.

Irina Murtazashvili, PhD (*Michigan State University*). Assistant Professor. Applied econometrics.

Maria Olivero, PhD (*Duke University*). Associate Professor. Macroeconomics, international finance.

Eydis Olsen, MA (*American University*). Associate Clinical Professor. Macroeconomics, political economy.

Tristan Potter, PhD (*Boston College*). Assistant Professor. Macroeconomics, labor economics, search theory

Konstantinos Serfes, PhD (*University of Illinois at Champaign-Urbana*). Professor. Industrial organization, microeconomics, game theory.

Ricardo Serrano-Padial, PhD (*University of California at San Diego*). Assistant Professor. Microeconomics theory, information economics with applications in finance, macroeconomics and industrial organization.

Mark Stehr, PhD (*University of California at Berkeley*) *Interim Director, School of Economics*. Associate Professor. Health economics, health behaviors, public finance, public policy.

Constantinos Syropoulos, PhD (*Yale University*) *Trustee Professor of International Economics*. Professor. International trade, political economy, applied microeconomics.

Yoto Yotov, PhD (*Boston College*). Associate Professor. International trade, applied microeconomics, political economy.

Emeritus Faculty

Edward C. Koziara, PhD (*University of Wisconsin*). Professor Emeritus. Applied micro and macro economics.

Bijou Yang Lester, PhD (*University of Pennsylvania*). Professor Emeritus. Behavioral characteristics of shopping on-line, economic issues of electronic commerce, contingent employment and part-time work, the economy and suicide.

Andrew G. Verzilli, PhD (*Boston College*). Professor Emeritus. Teaching effectiveness in economics; economics and financial history.

Chiou-shuang Yan, PhD (*Purdue University*). Professor Emeritus. International economics, input-output analysis.

Economics

Major: Economics

Degree Awarded: Bachelor of Science in Economics (BSECON) or Bachelor of Arts in Economics (BAECON)

Calendar Type: Quarter

Total Credit Hours: 187.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: (BS) 45.0603; (BA) 45.0601

Standard Occupational Classification (SOC) code: 19-3011; 13-2000

About the Program

Economics is at the root of business decisions, government policy making, and global relations. As a course of study, it can lead to diverse career opportunities, and is often viewed favorably as excellent preparation for graduate programs such as business and law.

Bachelor of Arts in Economics

The BA in Economics introduces students to modern economics within the context of a broad-based liberal arts curriculum. The degree is oriented toward students with interest in the less quantitative features of economics and a broader liberal arts education, particularly in areas offered by the College of Arts and Sciences. The degree requires students

develop a depth of knowledge in a coordinate field (minor or secondary major) outside of economics.

Bachelor of Science in Economics

The BS in Economics program introduces students to modern economics within the context of a general scientific and humanities curriculum. This degree is oriented towards students interested in acquiring a broad-based education with a focus on quantitative and professional skills.

The program is designed to provide students with an understanding of the market system, as well as economic institutions, policies and development. In addition to this deep coverage of economics, the major includes liberal arts and sciences requirements. The degree stipulates that students either complete one of the specific economic concentrations (Business Economics or Mathematical Economics) or develop a depth of knowledge in a minor or secondary major field outside of economics. The BS in Economics program provides excellent training for graduate school in economics.

The BS in Economics offers concentration choices in both Business Economics and Mathematical Economics.

Business Economics Concentration

This concentration prepares students to apply the rigorous methods of modern quantitative economics as professionals in a business context. This program combines coursework in economics and the functional fields of business administration within the context of a general scientific and humanities curriculum.

Mathematical Economics Concentration

This concentration prepares students for graduate study in quantitative and rigorous programs in economics and related fields. This program will also prepare students for professional work in quantitative economics or closely related areas, by providing coursework in economics and mathematics, in the context of a general scientific and humanities curriculum.

Coordinate Field Option

As an alternative to choosing one of these concentrations, students may also personalize their degree by developing a depth of knowledge in a minor or secondary major field outside of economics such as finance, social sciences, international studies or natural sciences. Examples of possible coordinating minors could include a minor in History and Politics for students interested in political economy or policy studies; a minor in American or European Studies for students interested in the economics of those countries, or a minor in Communication for students interested in economic journalism. In addition, students can complete a specialization in business economics or mathematical economics as an area of concentration.

Minor in Economics

The minor in Economics provides a solid background in the application of economic theory to markets. Students complete standard courses in micro- and macroeconomics that emphasize core training in economic decision making. Students also choose a course that applies this training to areas such as international economics, firm and industry behavior, quantitative economic analysis, and public policy. This type of analytical training provides a strong complement to many majors, including business

fields, but would be especially useful for students interested in careers in public policy or law.

Minor in International Economics

The minor in International Economics is designed for students with varied backgrounds who have a particular interest in learning more about the international economic environment. The curriculum provides the students a basic understanding of economics and exposes them to advanced topics dealing with international trade, multinational corporations, and other aspects of international economics. The minor complements a variety of degrees, particularly for students interested in applying their major discipline within an international context or within a multinational corporation.

Additional Information

For more information about this major, contact the School of Economics. (<http://www.lebow.drexel.edu/Faculty/Departments/Economics>)

Degree Requirements (BS)

While a variety of options are available for study in coordinating fields, two specific concentrations have been developed to address key areas in economics.

- The business economics concentration
- The mathematical economics concentration

The requirements for those concentrations are listed beneath the general requirements for the BS in Economics program.

General education requirements

ANTH 101	Introduction to Cultural Diversity	3.0
CIVC 101	Introduction to Civic Engagement	1.0
COM 270 [WI]	Business Communication	3.0
CS 143	Computer Programming Fundamentals	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PSY 101	General Psychology I	3.0
SOC 101	Introduction to Sociology	3.0
UNIV B101	The Drexel Experience	1.0
UNIV B201	Career Management	1.0

Select one of the following math sequences:

MATH 101 & MATH 102	Introduction to Analysis I and Introduction to Analysis II	8.0
MATH 121 & MATH 122	Calculus I and Calculus II	
Fine arts elective		3.0
Three laboratory science electives		9.0
Two English literature electives: (ENGL 200 through ENGL 399)		6.0
One history elective		4.0
Two philosophy electives		6.0

Economics Requirements

ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
ECON 250	Game Theory and Applications	4.0
ECON 301	Microeconomics	4.0
ECON 321	Macroeconomics	4.0
ECON 322 [WI]	Economics Seminar	4.0
ECON 350 [WI]	Applied Econometrics	4.0
ECON 360	Time Series Econometrics	4.0
INTB 334	International Trade	4.0

INTB 336	International Money and Finance	4.0
STAT 201	Introduction to Business Statistics	8.0
& STAT 202	and Business Statistics II	

Economics Electives 20.0

Select 20.0 credits from any of the following:

ECON 203	Survey of Economic Policy	
ECON 260	Economics of Small Business	
ECON 326	Economic Ideas	
[W]		
ECON 330	Managerial Economics	
ECON 331	International Macroeconomics	
ECON 334	Public Finance	
ECON 336	Labor Economics	
ECON 338	Industrial Organization	
ECON 342	Economic Development	
ECON 344	Comparative Economic Systems	
ECON 348	Mathematical Economics	
ECON 351	Resource and Environmental Economics	
ECON T480	Special Topics in ECON	
ENVS 370	Practice of Environmental Economics	
FIN 301	Introduction to Finance	
FIN 325	Financial Institutions and Markets	
INTB 332	Multinational Corporations	
INTB 440	Seminar in International Business	
INTB 338	Regional Studies in Economic Policies and International Business	
SOC 240	Urban Sociology	
SOC 260	Classical Social Theory	

Additional Requirements **

Coordinate Field	26.0
Additional courses as required to satisfy a coordinating field (a second major, minor, or one of the two available concentrations below)	
Free electives	30.0
Total Credits	187.0

* Students pursuing the concentration in Mathematical Economics can select CS 171 instead of CS 143.

** Students who take the Mathematical Economics or Business Economics concentrations must complete the required concentration courses and free electives for a total of 56.0 credits.

Mathematical Economics Concentration

Students selecting this concentration must have satisfied the general educational mathematics requirements by completing MATH 121 and MATH 122.

ECON 348	Mathematical Economics	4.0
MATH 123	Calculus III	4.0
MATH 200	Multivariate Calculus	4.0
MATH 201	Linear Algebra	4.0
MATH 210	Differential Equations	4.0
Select three of the following:	9.0-12.0	
MATH 220	Introduction to Mathematical Reasoning	
[W]		
MATH 285	Differential Equations II	
MATH 300	Numerical Analysis I	
MATH 301	Numerical Analysis II	
MATH 305	Introduction to Optimization Theory	
MATH 320	Actuarial Mathematics	
MATH 401	Elements of Modern Analysis I	
MATH 402	Elements of Modern Analysis II	

Free electives	27.0-24.0
Total Credits	56.0

Business Economics Concentration

Required Courses

ACCT 115	Financial Accounting Foundations	4.0
ECON 330	Managerial Economics	4.0
FIN 301	Introduction to Finance	4.0
MIS 200	Management Information Systems	4.0
ORGB 300 [W]	Organizational Behavior	4.0
or BLAW 201	Business Law I	

Select two of the following: 8.0

ACCT 116	Managerial Accounting Foundations	
FIN 302	Intermediate Corporate Finance	
FIN 321	Investment Securities & Markets	
MKTG 201	Introduction to Marketing Management	
OPM 200	Operations Management	

Free electives	28.0
Total Credits	56.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study (BS)

Term 1		Credits
ECON 201	Principles of Microeconomics	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 121	Calculus I	4.0
or 101	Introduction to Analysis I	
PSY 101	General Psychology I	3.0
UNIV B101	The Drexel Experience	1.0
Term Credits		15.0

Term 2		Credits
CS 143	Computer Programming Fundamentals	3.0
ECON 202	Principles of Macroeconomics	4.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
MATH 122	Calculus II	4.0
or 102	Introduction to Analysis II	

SOC 101	Introduction to Sociology	3.0
	Term Credits	17.0
Term 3

Co-op/Career Opportunities

The study of economics prepares students for a variety of fields: research economists in banks, government and universities; law; economic development for local government, banks and firms; business management and consulting; government and international agencies, such as the CIA, World Bank, IMF and USAID; and business and economic journalism.

Career Paths and Degree Combinations

Economics provides an excellent foundation for many career options and can also be combined with many other majors and minors in preparing students for great careers.

For example:

Banking and Finance

- Economics and Finance
- Economics and Business
- Economics and Mathematics
- Business Economics Concentration
- Economics and Physics

Academia

- Economics and Anthropology
- Economics and Psychology
- Economics and Mathematics
- Economics and Philosophy

Economics Research in Industry

- Economics and Mathematics
- Mathematical Economics Concentration
- Economics and Marketing
- Economics and Finance

High Tech and IT Industries

- Economics and Information Systems
- Economics and Chemistry
- Economics and Biology

Economics Research in Governments and International Organizations

- Economics and Environmental Studies
- Economics and Political Science
- Economics and International Studies

Law School and Other Graduate School Options

- Economics and Legal Studies
- Economics and Philosophy
- Economics and Political Science
- Economics and International Studies

Opportunities

Recently, economics students have obtained positions at the following institutions:

- Federal Reserve Bank, Board of Governors
- Citibank
- Vanguard Corporation
- Deloitte Consulting
- Black Rock Inc.
- Tyco Electronics

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Minor in Economics

The minor in economics provides a solid background in the application of economic theory to markets. Students complete standard courses in micro- and macroeconomics that emphasize core training in economic decision making. Students also choose a course that applies this training to areas such as international economics, firm and industry behavior, quantitative economic analysis, and public policy. This type of analytical training provides a strong complement to many majors, including business fields, but would be especially useful for students interested in careers in public policy or law.

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Required Courses

ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
ECON 301	Microeconomics	4.0
ECON 321	Macroeconomics	4.0
ECON 322 [WI]	Economics Seminar	4.0
Select one of the following:		4.0
ECON 203	Survey of Economic Policy	
ECON 250	Game Theory and Applications	
ECON 260	Economics of Small Business	
ECON 326 [WI]	Economic Ideas	
ECON 331	International Macroeconomics	
ECON 334	Public Finance	
ECON 336	Labor Economics	
ECON 338	Industrial Organization	
ECON 342	Economic Development	
ECON 348	Mathematical Economics	
ECON 350 [WI]	Applied Econometrics	
ECON 351	Resource and Environmental Economics	
INTB 332	Multinational Corporations	
INTB 334	International Trade	
INTB 336	International Money and Finance	
INTB 338	Regional Studies in Economic Policies and International Business	

Total Credits 24.0

Minor in International Economics

This minor is designed for students with varied backgrounds who have a particular interest in learning more about the international economic environment. The curriculum provides the students a basic understanding of economics and exposes them to advanced topics dealing with international trade, multinational corporations, and other aspects of international economics. The minor complements a variety of degrees, particularly for students interested in applying their major discipline within an international context or within a multinational corporation.

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.

- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Required Courses

ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
INTB 200	International Business	4.0
INTB 334	International Trade	4.0
or INTB 336	International Money and Finance	
Select two of the following (at least one from the following list):		8.0
INTB 332	Multinational Corporations	
INTB 334	International Trade	
INTB 336	International Money and Finance	
INTB 338	Regional Studies in Economic Policies and International Business	
ECON 342	Economic Development	

Other Options

Dual/Accelerated Degree

Dual Degree Bachelor's Programs

With careful planning, students can complete two full degrees in the time usually required to complete one. The double major option works best in closely related areas. For detailed information the student should contact his or her advisor.

Degree Requirements BS ECON Dual Degree Bachelor of Science / Juris Doctor

This program is a modified BS in Economics that allows students the ability to consider a BS/JD degree.

Conditional on successful admittance into Drexel's Kline School of Law (<http://drexel.edu/law>).

Due to the complex nature of this program students should work closely with their advisor when selecting courses.

School of Economics Faculty

Marco Airaud, PhD (*University of Pennsylvania Philadelphia*). Associate Professor. Computational economics, international economics, macroeconomics and monetary economics.

Patricia Awerbuch, MBA (*Drexel University*). Assistant Clinical Professor. Performance of on-campus students in an online classroom designed for distance learners; business professors.

Richard Barnett, PhD (*University of Minnesota*). Clinical Professor. Economic theory, macroeconomics.

Sebastien Bradley, PhD (*University of Michigan*). Associate Professor. Public finance, international economics, applied econometrics, real estate.

Mian Dai, PhD (*Northwestern University*). Associate Professor. Managerial economics and strategy, applied econometrics, industrial organization.

Pia DiGirolamo, PhD (*Purdue University*). Assistant Clinical Professor. Macroeconomics, international finance.

Shawkat M. Hammoudeh, PhD (*University of Kansas*). Professor. Applied econometrics, financial economics, international economics, and natural resource economics.

Teresa D. Harrison, PhD (*University of Texas Austin*) Associate Dean for Academic Affairs and Innovation, Academic Director of the Center for Nonprofit Governance. Associate Professor. Econometrics, public finance,

industrial organization, empirical microeconomics including health and nonprofit organizations.

Paul E. Jensen, PhD (*Penn State University*) *Dean, LeBow College of Business*. Associate Professor. International trade. Primary research interest is international trade, particularly in empirical studies of international trade patterns.

Bang Nam Jeon, PhD (*Indiana University*) *Department of Economics and International Business*. Professor. Financial economics, world financial market linkages, foreign direct investment flows in the Asia-Pacific economies, the Korean economy: currency crisis, FDI, and macroeconomic issues, regional economic integration and newly industrializing economies: the

Stephen Joyce, MA (*Temple University*). Assistant Clinical Professor. Education and human capital.

Andre Kurmann, PhD (*University of Virginia*). Associate Professor. Computational economics, financial economics, labor economics, macroeconomics and monetary economics.

Christopher A. Laincz, PhD (*Duke University*) *Director, LeBow College of Business PhD program*. Associate Professor. Economic development, technological change, and growth, industrial organization, macroeconomics and monetary economics.

Vibhas Madan, PhD (*Michigan State University*) *Senior Associate Dean, Academic Programs*. Professor. International trade theory, applied microeconomics.

Roger A. McCain, PhD (*Louisiana State University*). Professor. Computational economics, game theory.

Bruce D. McCullough, PhD (*University of Texas Austin*). Professor. Applied Econometrics, Data Mining, Econometric Techniques, Reliability of Statistical and Econometric Software.

Irina Murtazashvili, PhD (*Michigan State University*). Assistant Professor. Applied econometrics.

Maria Olivero, PhD (*Duke University*). Associate Professor. Macroeconomics, international finance.

Eydis Olsen, MA (*American University*). Associate Clinical Professor. Macroeconomics, political economy.

Tristan Potter, PhD (*Boston College*). Assistant Professor. Macroeconomics, labor economics, search theory

Konstantinos Serfes, PhD (*University of Illinois at Champaign-Urbana*). Professor. Industrial organization, microeconomics, game theory.

Ricardo Serrano-Padial, PhD (*University of California at San Diego*). Assistant Professor. Microeconomics theory, information economics with applications in finance, macroeconomics and industrial organization.

Mark Stehr, PhD (*University of California at Berkeley*) *Interim Director, School of Economics*. Associate Professor. Health economics, health behaviors, public finance, public policy.

Constantinos Syropoulos, PhD (*Yale University*) *Trustee Professor of International Economics*. Professor. International trade, political economy, applied microeconomics.

Yoto Yotov, PhD (*Boston College*). Associate Professor. International trade, applied microeconomics, political economy.

Emeritus Faculty

Edward C. Koziara, PhD (*University of Wisconsin*). Professor Emeritus. Applied micro and macro economics.

Bijou Yang Lester, PhD (*University of Pennsylvania*). Professor Emeritus. Behavioral characteristics of shopping on-line, economic issues of electronic commerce, contingent employment and part-time work, the economy and suicide.

Andrew G. Verzilli, PhD (*Boston College*). Professor Emeritus. Teaching effectiveness in economics; economics and financial history.

Chiou-shuang Yan, PhD (*Purdue University*). Professor Emeritus. International economics, input-output analysis.

International Business

Major: International Business

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No

Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.1101

Standard Occupational Classification (SOC) code: 11-1021

About the Program

The international business major explores the international business environment as well as the internal workings of international corporations and the impact of international considerations on the various functional areas of business.

International business focuses on business activities that cross national borders. The plan of study explores the international business environment as well as the internal workings of international corporations and the impact of international considerations on the various functional areas of business.

This major allows students to choose from a menu of courses. The curriculum is interdisciplinary, with courses drawn from across business disciplines and anthropology. Specialized operational courses are offered, along with more general theoretical and comparative ones.

For more information about this program, contact the School of Economics (<http://www.lebow.drexel.edu/academics/disciplines/economics>).

Degree Requirements

Students completing the major in international business are required to complete six courses in the same language (a language other than the student's native language) at Drexel University. It is recommended that students also take a 320 or 420 language course, focusing on the language of business or professions. This requires a minimum of 6 language courses (24.0 credits) at the college level or up to level 6 placement, including proficiency in at least one language. Some of these courses may count toward the student's general education electives.

Students may satisfy the language requirement through foreign language course replacement by studying overseas. All study abroad programs

must be approved by the Study Abroad Office (<http://www.drexel.edu/studyabroad>).

Bachelor of Science in Business Administration (BSBA) Degree Requirements

Co-op/Career Opportunities

International business graduates are employed in a variety of corporate settings, including the pharmaceutical, banking and telecommunication industries. Some students pursue graduate studies or find employment in multilateral governmental organizations.

The concentration has been designed to provide a competitive advantage for those students interested in international business careers. In addition to business coursework, students also take advantage of Drexel's programs in history-politics, sociology, anthropology, and other areas that focus on international topics.

The University offers minors in Arabic (p. 314), Chinese (p. 315), French (p. 316), German (p. 316), Italian Studies (p. 317), Japanese (p. 317), Korean (p. 317), Russian (<http://catalog.drexel.edu/undergraduate/collegeofartsandsciences/russianminor>), and Spanish (p. 319). Each minor can include study of the vocabulary needed for business transactions within the particular language.

Proficiency certificates are also available to students at the intermediate level as proof that students are proficient enough to live abroad and interact with native speakers in their home countries and cultures. Proficiency certificates are available in Arabic (p. 305), Chinese (p. 306), French (p. 306), German (p. 306), Hebrew (p. 306), Italian (p. 307), Japanese, (p. 307) Korean, (p. 307) Russian, (<http://catalog.drexel.edu/undergraduate/collegeofartsandsciences/intermediaterussianproficiencycertificate>) and Spanish (p. 307).

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities. Also visit the Career Guides (<http://drexel.edu/scdc/career-services/counseling/career-guides>) provided by the Steinbright Career Development Center.

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty, students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

International Business Faculty

Murugan Anandarajan, PhD (*Drexel University*) *Department Chair, Management; Department Head, Decision Sciences and MIS*. Professor. Cyber crime, strategic management of information technology, unstructured data mining, individual internet usage behavior (specifically abuse and addiction), application of artificial intelligence techniques in forensic accounting and ophthalmology.

Rolph E. Anderson, PhD (*University of Florida*) *Royal H. Gibson Sr. Professor of Marketing*. Professor. Personal selling and sales management; multivariate data analysis; customer relationship management (CRM); customer satisfaction and customer loyalty.

Trina Larsen Andras, PhD (*University of Texas at Austin*) *Head of the Department of Marketing; Academic Director, Center for Corporate Research Management*. Professor. International marketing, marketing channels management, cross-cultural communication.

Orakwue B. Arinze, PhD (*London School of Economics*). Professor. Client/Server computing; Enterprise Application Software (EAS)/ Enterprise Resource Planning Software (ERP); knowledge-based and decision support applications in operations management.

Qizhi Dai, PhD (*University of Minnesota*). Associate Professor. Business Value of Information Technology, eCommerce, Economics of Information Technology, Information System Management.

Lawrence Duke, MBA (*Harvard Business School*). Clinical Professor. International marketing and strategy, new product development, business-to-business marketing, marketing of financial services.

David Gefen, PhD (*Georgia State University*) *Provost Distinguished Research Professor*. Professor. Strategic IT management; IT development and implementation management; research methodology; managing the adoption of large IT systems, such as MRP II, ERP, and expert systems; research methodology, eCommerce; Online Auctions; Outsourcing; SAS; Technology Adoption.

Shawkat M. Hammoudeh, PhD (*University of Kansas*). Professor. Applied econometrics, financial economics, international economics, and natural resource economics.

Yanliu Huang, PhD (*The Wharton School, University of Pennsylvania*). Associate Professor. Consumer n-store decision making, consumer planning, health marketing, memory and learning.

Bang Nam Jeon, PhD (*Indiana University*) *Department of Economics and International Business*. Professor. Financial economics, world financial market linkages, foreign direct investment flows in the Asia-Pacific economies, the Korean economy: currency crisis, FDI, and macroeconomic issues, regional economic integration and newly industrializing economies: the

Daniel Korschun, PhD (*Boston University*). Associate Professor. Brand and corporate reputation management, corporate social responsibility, internal marketing, marketing strategy, relationship marketing.

Hyokjin Kwak, PhD (*University of Georgia*) *Department of Marketing*. Professor. Advertising effects, consumer behaviors and e-commerce.

Dali Ma, PhD (*University of Chicago*). Associate Professor. Social hierarchy; Social networks; Sociology of entrepreneurship; Sociology of transitional China

Vibhas Madan, PhD (*Michigan State University*) *Senior Associate Dean, Academic Programs*. Professor. International trade theory, applied microeconomics.

Maria Olivero, PhD (*Duke University*). Associate Professor. Macroeconomics, international finance.

Stanley Ridgley, PhD (*Duke University*). Assistant Clinical Professor. Business communication; Cognition and strategy; Competitive intelligence; Determinants of Firm Performance; Global Management; New Markets in Emerging Countries; Russian Business Culture.

Bert Rosenbloom, PhD (*Temple University*) *Rauth Chair of Electronic Commerce*. Professor. Marketing channels and distribution systems,

electronic commerce, inter-organizational marketing management, wholesale and retail distribution, marketing strategy and planning.

Samir Shah, DPS (*Pace University*). Associate Clinical Professor. Drexel University's Provost Fellow India Partnerships

Srinivasan Swaminathan, PhD (*University of Texas-Austin*). Professor. Marketing research and strategy, pricing and promotions, loyalty and satisfaction.

Constantinos Syropoulos, PhD (*Yale University*) *Trustee Professor of International Economics*. Professor. International trade, political economy, applied microeconomics.

Yoto Yotov, PhD (*Boston College*). Associate Professor. International trade, applied microeconomics, political economy.

International Business Co-Major

Major: International Business

Degree Awarded: Bachelor of Science in Business Administration (BSBA)

Calendar Type: Quarter

Total Credit Hours: 184.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.1101

Standard Occupational Classification (SOC) code: 11-1021

About the Program

The International Business Co-Major explores the international business environment as well as the internal workings of international corporations and the impact of international considerations on the various functional areas of business.

The International Business Co-Major allows students to choose from a menu of courses. The curriculum is interdisciplinary, with courses drawn from across business disciplines and anthropology. Specialized operational courses are offered, along with more general theoretical and comparative ones. The co-major option substitutes further training in a relevant business discipline or functional field in the form of a Primary Major instead of the language courses.

Primary Major Courses		32.0
Students completing the International Business co-major (requirements listed below) must do so in conjunction with a primary business major. Students must select a primary major from the following list (Accounting, Entrepreneurship, Finance, Legal Studies, Management Information Systems, Marketing, or Operations & Supply Chain Management.)		
International Business Co-Major Requirements**		
The International Business Major offers two options: Option (A), which includes study for competency in a language other than English (and other than the student's native language). For more information, please see the International Business (Stand-Alone Option) listed under Majors. Option (B) is the Co-Major option highlighted below. The co-major option substitutes further training in a relevant business discipline or functional field in the form of a Primary Major instead of the language courses.		
Select six of the following:		24.0
ANTH 312	Approaches to Intercultural Behavior

Facilities

In fall 2013, LeBow College opened its 12-story, Gerri C. LeBow Hall, with a finance trading lab, behavioral studies lab and integrated teaching technology in all classrooms. The new building features two lecture halls, 15 classrooms of varying sizes and seating configurations, including case study rooms and cluster classrooms designed to facilitate group work. Other amenities consist of extensive areas of student spaces, including 12 collaboration rooms, two quiet study areas, and 3,500 square feet of student lounges. Gerri C. LeBow Hall brings together faculty, students and staff, in a state of the art building on the University City campus. Please visit the LeBow College of Business webpage (<http://www.lebow.drexel.edu/about/campuses/philadelphia/location/gerri-c-lebow-hall>) to learn more about Gerri C. LeBow Hall.

International Business Faculty

Murugan Anandarajan, PhD (*Drexel University*) *Department Chair, Management; Department Head, Decision Sciences and MIS.* Professor.

Cyber crime, strategic management of information technology, unstructured data mining, individual internet usage behavior (specifically abuse and addiction), application of artificial intelligence techniques in forensic accounting and ophthalmology.

Rolph E. Anderson, PhD (*University of Florida*) *Royal H. Gibson Sr. Professor of Marketing.* Professor. Personal selling and sales management; multivariate data analysis; customer relationship management (CRM); customer satisfaction and customer loyalty.

Trina Larsen Andras, PhD (*University of Texas at Austin*) *Head of the Department of Marketing; Academic Director, Center for Corporate Research Management.* Professor. International marketing, marketing channels management, cross-cultural communication.

Orakwue B. Arinze, PhD (*London School of Economics*). Professor. Client/Server computing; Enterprise Application Software (EAS)/ Enterprise Resource Planning Software (ERP); knowledge-based and decision support applications in operations management.

Qizhi Dai, PhD (*University of Minnesota*). Associate Professor. Business Value of Information Technology, eCommerce, Economics of Information Technology, Information System Management.

Lawrence Duke, MBA (*Harvard Business School*). Clinical Professor. International marketing and strategy, new product development, business-to-business marketing, marketing of financial services.

David Gefen, PhD (*Georgia State University*) *Provost Distinguished Research Professor.* Professor. Strategic IT management; IT development and implementation management; research methodology; managing the adoption of large IT systems, such as MRP II, ERP, and expert systems; research methodology, eCommerce; Online Auctions; Outsourcing; SAS; Technology Adoption.

Shawkat M. Hammoudeh, PhD (*University of Kansas*). Professor. Applied econometrics, financial economics, international economics, and natural resource economics.

Yanliu Huang, PhD (*The Wharton School, University of Pennsylvania*). Associate Professor. Consumer n-store decision making, consumer planning, health marketing, memory and learning.

Bang Nam Jeon, PhD (*Indiana University*) *Department of Economics and International Business.* Professor. Financial economics, world financial market linkages, foreign direct investment flows in the Asia-Pacific economies, the Korean economy: currency crisis, FDI, and macroeconomic issues, regional economic integration and newly industrializing economies: the

Daniel Korschun, PhD (*Boston University*). Associate Professor. Brand and corporate reputation management, corporate social responsibility, internal marketing, marketing strategy, relationship marketing.

Hyokjin Kwak, PhD (*University of Georgia*) *Department of Marketing.* Professor. Advertising effects, consumer behaviors and e-commerce.

Dali Ma, PhD (*University of Chicago*). Associate Professor. Social hierarchy; Social networks; Sociology of entrepreneurship; Sociology of transitional China

Vibhas Madan, PhD (*Michigan State University*) *Senior Associate Dean, Academic Programs.* Professor. International trade theory, applied microeconomics.

Maria Olivero, PhD (*Duke University*). Associate Professor. Macroeconomics, international finance.

Stanley Ridgley, PhD (*Duke University*). Assistant Clinical Professor. Business communication; Cognition and strategy; Competitive intelligence; Determinants of Firm Performance; Global Management; New Markets in Emerging Countries; Russian Business Culture.

Bert Rosenbloom, PhD (*Temple University*) *Rauth Chair of Electronic Commerce*. Professor. Marketing channels and distribution systems, electronic commerce, inter-organizational marketing management, wholesale and retail distribution, marketing strategy and planning.

Samir Shah, DPS (*Pace University*). Associate Clinical Professor. Drexel University's Provost Fellow India Partnerships

Srinivasan Swaminathan, PhD (*University of Texas-Austin*). Professor. Marketing research and strategy, pricing and promotions, loyalty and satisfaction.

Constantinos Syropoulos, PhD (*Yale University*) *Trustee Professor of International Economics*. Professor. International trade, political economy, applied microeconomics.

Yoto Yotov, PhD (*Boston College*). Associate Professor. International trade, applied microeconomics, political economy.

Minor in International Economics

This minor is designed for students with varied backgrounds who have a particular interest in learning more about the international economic environment. The curriculum provides the students a basic understanding of economics and exposes them to advanced topics dealing with international trade, multinational corporations, and other aspects of international economics. The minor complements a variety of degrees, particularly for students interested in applying their major discipline within an international context or within a multinational corporation.

Requirements

- No more than 2 courses or 8.0 credits required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites.
- **Cannot do a major and a minor in the same field of study.**

All prospective students should meet with an advisor from the College as soon as possible. Call 215.895.2110 to set up an appointment.

Required Courses

ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0

MKTG 357	Global Marketing	
Total Credits		24.0

The Antoinette Westphal College of Media Arts & Design

The Antoinette Westphal College of Media Arts & Design curricula include general studies in liberal arts and science, and experiential learning in studio, lab, and classroom settings within the disciplines.

Mission Statement

The Antoinette Westphal College of Media Arts & Design (<http://www.drexel.edu/westphal>) (The Westphal College) is a community of learning in the areas of media, design, fine arts, performing arts, and the management of creative enterprise that values experiential and immersive education. Students are encouraged to give form to ideas by learning to recognize invention and innovation in a rapidly changing world through creative, critical, and collaborative approaches. The Westphal College's diverse programs seek to foster innovation and leadership in progressively interconnected disciplines and areas of study.

The academic programs are rigorous, and provide the appropriate balance of a solid foundation with individual creative direction, cultural awareness, strong technical skills, and an understanding of management and professional practice. The College is committed to continual review of curricula, processes and outcomes to make those improvements and refinements necessary to further enrich our students' education, and to continue to foster independent thinkers, astute leaders, and creative problem solvers.

Majors

- Animation & Visual Effects (BS) (p. 124)
- Architecture (BArch) (p. 127)
- Art History (BA, BS) (p. 134)
- Dance (BS) (p. 143)
- Design & Merchandising (BS) (p. 147)
- Entertainment (p. 151) & (p. 151) Arts Management (BS) (p. 151)
- Fashion Design (BS) (p. 161)
- Film & Video (BS) (p. 165)
- Game Design & Production (BS) (p. 170)
- Graphic Design (BS) (p. 172)
- Interactive Digital Media (BS) (p. 175)

- Interior Design (BS) (p. 179)
- Music Industry (BS) (p. 195)
- Photography (BS) (p. 192)
- Product Design (BS) (p. 195)
- Screenwriting & Playwriting (BS) (p. 198)
- TV Production & Media Management (BS) (p. 202)
- Westphal Studies Program (BS) (p. 204)

Minors

- Animation & Visual Effects (p. 126)
- Architecture (p. 133)
- Art History (p. 134)
- Dance (p. 146)
- Digital Media (p. 183)
- **NEW:** Entertainment & Arts Management
- Film Studies (p. 168)
- Fine Arts (p. 183)
- **NEW:** Immersive Media
- Interactive Digital Media (p. 177)
- Interdisciplinary Smart Initiatives (p. 183)
- Jazz and African-American Music (p. 184)
- Music (p. 184)
- Music Performance (p. 184)
- Music Theory and Composition (p. 192)
- Performing Arts (p. 184)
- Photography (p. 194)
- Product Design (p. 197)
- Retail (p. 185)
- Screenwriting (p. 197)
- Somatics (p. 185)
- Sports Media Production (p. 185)
- Sustainability in the Built Environment (p. 186)
- Television Industry and Enterprise (p. 186)
- TV Production & Media Management (p. 187)
- Theatre (p. 187)
- Video Production (p. 169)

Certificates

- Dance Studies (p. 146)

Undergraduate Co-operative Education

Westphal College students spend a minimum of six months (two terms) applying classroom and studio skills in positions within their chosen professions. Often referred to as "The Ultimate Internship," a co-op is a valuable, direct way to learn about a career, work with other professionals, and gain skills and experience that set Drexel graduates apart from students who complete their professional education in more traditional academic settings.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Special Programs

The Westphal College offers a number of special programs including Study Abroad, Accelerated Dual Degree, Accelerated Summer Courses, Enrichment Programs and Dance for Professionals.

Study Abroad

Many students in the College participate in study abroad ranging from ten days to two terms. Some of the more popular programs are: Drexel in London, Fashion in London, Australia, Rome, France, Prague, Japan and Cuba. Students interested in study abroad should consult with their Program Director, Academic Advisor and the Study Abroad Office, 215-895-1704.

Enrichment Programs

The Department of Architecture & Interiors runs summer study tours abroad to Rome and Paris as elective course offerings in history and theory. These programs focus the travel portion into three-week periods to accommodate student work commitments.

Accelerated Dual Degree Programs

Dual degree programs enable academically qualified students to earn both a bachelor's and an advanced degree in five years.

The following Accelerated Degree Programs are available to qualified High School students entering their freshman year in the Westphal College:

- **BS Music Industry/MBA:** This program offers the highly motivated and musically focused student an opportunity to combine music theory and technology with the MBA degree. The program is available to qualified Music Industry majors.
- **BS Entertainment & Arts Management/MBA:** This program allows high-achieving students preparing for leadership roles in media companies and arts organizations the opportunity to earn their MBA degree. The program is available to qualified Entertainment & Arts management majors.
- **BS in Design & Merchandising/MBA:** This program combines study in the area of fashion retail merchandising with the MBA degree. The program is available to qualified Design and Merchandising majors.

The following Accelerated Degree Programs are available to qualified matriculated students in the Westphal College:

- **BA Art History/MS in Arts Administration:** This five-year program is an excellent option for the student who wishes to broaden and deepen his or her knowledge of the world's cultures and their histories and further develop his or her capacities for critical thinking, reading and writing. Specialized University resources, such as the Leonard Pearlstein Gallery (<http://www.drexel.edu/pearlsteingallery>), the Drexel Collection (<http://drexel.edu/DrexelCollection/about/galleries>), and the Robert and Penny Fox Historic Costume Collection (<http://www.drexel.edu/foxcollection>) are available to directly support the student's studies.
- **BA Art History/MS in Museum Leadership:** This five-year program is an excellent option for the student who wishes to broaden and deepen his or her knowledge of the world's cultures and their histories and further develop his or her capacities for critical thinking, reading and writing, or gain competencies in various applied or technical areas. Specialized University resources, such as the Leonard Pearlstein Gallery (<http://www.drexel.edu/pearlsteingallery>),

the Drexel Collection (<http://www.drexel.edu/DrexelCollection>), The Academy of Natural Sciences of Drexel University (<http://www.ansp.org/visit/exhibits>), and the Robert and Penny Fox Historic Costume Collection (<http://www.drexel.edu/foxcollection>) are available to students wishing to pursue careers in Museum work.

- **BS/MS in Digital Media Programs:** This program allows highly motivated students to complete both the BS (Animation & Visual Effects, Game Design & Production, Interactive Digital Media) and MS degrees in Digital Media programs in five years.
- **BS Interior Design/MS in Interior Architecture & Design:** This program combines the Interior Design undergraduate and the graduate Interior Architecture & Design degrees in an intensive five-year program that provides an opportunity for the student to focus on an area of specialization.
- **BS Dance/MS in Elementary Education:** This career focus, dance in education, prepares students for jobs as elementary school teachers (grades Pre-Kindergarten through 4) who may also serve as school dance specialists. Students choosing this option will earn a BS degree in Dance through the Department of Performing Arts and may elect to continue for a fifth year of study to earn an MS in the Teaching, Learning and Curriculum-Teacher Certification through the School of Education.
- **BS Entertainment & Arts Management/MS in Arts Administration:** While not an accelerated program, students who complete the EAM program may also choose to pursue a graduate degree at Drexel in Arts Administration. Students who apply for the graduate Arts Administration program and graduate with a 3.5 GPA in the last two years of the EAM degree program are automatically accepted into the program.

Accelerated Summer Courses

With departmental permission, students may enroll in Visual Studies accelerated courses over the summer. These typically include courses in Accelerated Design I, II, III, Introductory Drawing and Figure Drawing I. These courses primarily are offered so that new undergraduate transfer students and pre-graduate students can complete their future programs in an economical time frame. Students with some experience in studio coursework may be eligible to take accelerated courses. A portfolio review is required to determine eligibility.

Dance Part Time Professionals

The Part Time Professional Option of the Dance Major is designed for professional dancers interested in pursuing a BS degree in Dance while continuing their performance careers, or at the conclusion of their performing careers. This program grants "professional life experience" credits and an extended period of time to fulfill the remaining required courses.

Ensembles

Choral Ensembles

University Chorus (MUSC 101/001) Dr. Steven Powell, Director
As auditioned, 60-voice group which performs concert choir literature, both a cappella and with instrumental accompaniment.

Chamber Singers (MUSC 102/001) Dr. Steven Powell, Director
A select group of 18 singers chosen by audition from the University Chorus. They perform secular music from the Renaissance period (Madrigals).

Vocal Jazz Ensemble (MUSC 103/001) Dr. Steven Powell, Director

A select group of 16 singers chosen by audition from the University Chorus. They perform "anything that swings," doing a variety of pieces from the 20's to the 10's with a three-piece back-up band.

All College Choir (MUSC 104/001) Scott Bacon, Director
A large un-auditioned choir that performs a varied repertoire including light classics, spirituals, and popular music.

Gospel Choir (MUSC 115/001) Rev. Greg Ross, Director
The Gospel Choir is a group of approximately 60 singers that is open to all Drexel Students. This ensemble performs contemporary gospel music with its own backup band.

Instrumental Ensembles

Concert Band (MUSC 105/001) Dr. Wesley Broadnax, Director
Students who are proficient on woodwind, brass, or percussion instruments may become members of this large instrumental ensemble by auditioning for the director. Membership is based on the student's ability and the instrumental needs of the ensemble.

The Basketball Pep Band (MUSC 116/001) Dr. Wesley Broadnax, Director
This band is made up of brass players, saxophone players, and trap drummers drawn from the membership of the Concert Band.

Jazz Orchestra (MUSC 107/001) Dr. George Starks, Director
Performs music which is associated with and/or inspired by acknowledged masters of the jazz tradition such as Duke Ellington, Count Basie, Charlie Parker, Dizzy Gillespie, Miles Davis, Charles Mingus, Thad Jones, and others.

The Jazztet (MUSC 108/001) Dr. George Starks, Director
This ensemble performs small group masterpieces such as literature associated with Art Blakey, Horace Silver, Clifford Brown, John Coltrane, and others.

University Orchestra (MUSC 109/001)
This is a full orchestra that performs concert repertoire of various periods from the 18th century to the present day. Wind, brass, and percussionists must be in the Concert Band in order to participate.

Fusion Band (MUSC 112/001) Lynn Riley, Director
A small combo utilizing a rhythm section and any varying combination of saxes and brass. The repertoire includes music of the styles of jazz, Latin, funk, and rock.

Percussion Ensemble (MUSC 113/001) Mark Beecher, Director
Students in this group will have the opportunity to play, improve and perform on many instruments of the percussion family including: snare drum, bass drum, xylophone, marimba, timpani- and even hands and feet.

Mediterranean Ensemble (MUSC 114/001) Bruce Kaminsky, Director
Students perform traditional music from Southeastern Europe, the Middle East and Northern Africa. All traditional and Western instruments are welcomed including oud, bouzouki and saz along with guitar, violin and sax. Percussionists can play Drexel's wide assortment of traditional drums including doumbek, riq and djimbe. Students will have the opportunity to perform 7/8 and 9/8 rhythms from Greece, 10/8 rhythms from Turkey, learn songs in Greek, Turkish, Arabic and Hebrew. The ensemble also has a dance component.

Guitar Ensemble II (MUSC 106/002) Greg Wright, Director

An auditioned group of approximately ten guitarists plus bass players and a drummer. Repertoire includes a side range of styles utilizing music reading ability and improvisation skills

Guitar Ensemble I (MUSC 106/001) Greg Wright, Director

An un-auditioned group of ten to fifteen guitarists who use repertoire to sharpen their musical and technical skills.

Keyboard Ensemble (MUSC 110) Wanda Canfield, Director

A group of twelve keyboardists who utilize acoustic and electronic pianos to play a variety of repertoire.

Rock Ensemble (MUSC 117) Lynn Riley, Director

A small combo of vocalists, guitarists, bassists, keyboardist, and drummers who perform repertoire ranging from classic rock to alternative.

Drexel University Dance Program

Dr. Miriam Giguere, Director, Dance Ensemble (DANC 131)

Elegant, exciting, sophisticated, sleek are all words commonly used to describe the Drexel Dance Ensemble. Performing ballet, jazz, tap and modern dance, the Drexel Dancers are both versatile and original.

The Drexel Dance Ensemble (DANC 131)

A professional caliber dance company presenting two fully-produced concerts in the Mandell Theater each year. Students participating in the 60 member ensemble are given the opportunity to explore their artistry through working with professional choreographers, both faculty and guests artists, as well as a selection of student choreographers. The diversity of choreographic talent promises a show with dimension and unique perspectives on contemporary and classical dance forms. Entrance into this company is open to any dancers beyond their freshman year by audition twice yearly.

The FreshDance Ensemble (DANC 131)

Dance company open exclusively to freshmen at Drexel. The 30 dancers in the ensemble perform two fully produced concerts at the Mandell Theater each year. Works by both professional and student choreographers are performed in a variety of genres including ballet, modern, jazz and hip-hop. Entrance into the company is open twice yearly by audition.

The Youth Performance Exchange Touring Ensemble (DANC 131)

This 8-10 member dance troupe performs assembly style lecture demonstration programs introducing student K-8 to the art of dance. Students learn the program each fall and perform for 15-20 elementary and middle school each Friday morning in winter and spring terms. Open by audition each fall term.

Drexel University Theatre Program

Mr. Nick Anselmo, Director of Theatre Programs

Introduction to Theater Production Practicum (THTR 130)

An introduction to the tools, basic skills and safety procedures that students must know in order to work on Theater Program shows.

Theatre Performance Practicum (THTR 131)

Students perform in Mainstage productions in the URBN Annex Black Box Theater or the Mandell Theater. An audition is required to participate in this ensemble.

Theatre Production Practicum (THTR 132)

Students serve as the stage crew for all theatrical productions at the URBN Annex Black Box Theater or the Mandell Theater and build all the sets, costumes, hang lights and run sound for all the shows.

Theatre Management Practicum (THTR 133)

Students work as stage managers, production managers, and in administrative positions of Drexel's Co-op Theater Company.

Open Mic Management Practicum (THTR 134)

Students manage and run all aspects of The Late Night Series, a free weekly open mic that strives to both champion and nurture performing artists with Philadelphia and the Drexel community.

Theatre Performance Ensemble (THTR 141)

The Theatre Performance Ensemble focuses on a specific area of performance training, creation, and research to supplement the standard theatre curriculum in performance.

Director's Lab Practicum (THTR 142)

Practical experience in acting for the stage through participation in a student directed one-act play in conjunction with the Play Directing Class. An audition is required to participate in this ensemble.

Musical Theatre Cabaret (THTR 143)

Practical experience preparing a song for performance with an emphasis on applying acting techniques to the delivery, it concludes with a public Cabaret performance.

New Works Festival Performance Practicum (THTR 144)

Practical experience in acting and dramaturgy for the stage through participation, development, and performance of student written plays in conjunction with the Page-to-Stage class.

Students participate in all aspects of theatre performance and production, including; acting, directing, design, costumes, lighting, sets, sound, publicity, and box office.

Facilities

Designed to be an incubator for tomorrow's creative leaders, The URBN Center is the award-winning home for many of the programs in the Antoinette Westphal College of Media Arts & Design, providing students with rigorous, studio intensive instruction and the latest technological resources. Majors that share this space include Animation & Visual Effects, Architecture, Design & Merchandising, Entertainment & Arts Management, Fashion Design, Game Design & Production, Graphic Design, Interactive Digital Media, Interior Design, Music Industry and Product Design.

The URBN Center also provides a black box theater (<http://drexel.edu/performingarts/about/facilities/URBN-center-black-box-theater>) for our Theatre program, a 3,500 square foot Leonard Pearlstein Gallery (<http://www.drexel.edu/pearlsteingallery>), two MIDI labs (<http://drexel.edu/westphal/academics/undergraduate/MIP/Facilities>) and MAD Dragon Records Suite, a Motion Capture studio, a Hybrid Making Lab (http://drexel.edu/westphal/about/overview/making_spaces/HybridMakingLab) featuring Universal Laser Cutters and 3D printing and prototyping, the Robert and Penny Fox (<http://www.drexel.edu/foxcollection>) Historic Costume Collection (<http://www.drexel.edu/foxcollection>), the Charles Evans Fashion Design Library, a multi-use screening & lecture room, and offices for the College's administrative functions.

The Paul Peck Problem Solving & Research Building is home to our Photography major and Department of Art & Art History. Within this

facility, the Westphal College occupies a 10,000- square-foot photography lab, lighting studios, digital imaging labs (http://drexel.edu/westphal/about/overview/making_spaces/DarkroomFacility), as well as six lecture/laboratory spaces for our Visual Studies courses.

In University Crossings, a 25,000 square foot space houses offices for Film & Video, Screenwriting & Playwriting and Television faculty. Also in this building are two state-of-the-art digital editing facilities, a shooting studio with special effects capability, two screening rooms, a digital audio post production studio, several multi-media classrooms, and a well-stocked equipment room, featuring state of the art cameras ARRIFLEX (Arri) Alexa XT Plus and the Amira Premiere 4K.

MacAlister Hall serves students in the Westphal College with: digital audio labs and recording studios for Music Industry; The Mandell Theater (<http://www.drexel.edu/performingarts/about/facilities/mandell-theater>), a 420-seat proscenium theater with scene shop and dressing rooms; the Ellen Forman Memorial Dance Studio (<http://drexel.edu/performingarts/about/facilities/ellen-forman-dance-studio>); and a high-definition studio space for our college-operated television station, DUTV, which reaches over 400,000 households.

Animation and Visual Effects

Major: Animation and Visual Effects

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 186.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 10.0304

Standard Occupational Classification (SOC) code: 27-1014

About the Program

The Animation & Visual Effects major provides students with the artistic, technological, story-telling and design skills to succeed as animators and visual effects artists in the highly competitive entertainment, design and communications industries.

Animation and Visual Effects has grown beyond its traditional applications in entertainment, such as feature films, television and internet based programming. Today, these production techniques are widely used in feature films, medical research, engineering, virtual reality and augmented reality systems, immersive media, web content, the performing arts, interactive game systems, corporate communications and higher education. The depth and complexity of this field necessitates a rigorous course of study.

To best prepare students for the demands of careers in these cutting-edge disciplines, this program provides a foundational understanding of design and technology, with core courses in multiple aspects of digital media, completing a six month co-op and delving into rigorous coursework covering specialized aspects of digital animation, visual effects and immersive media. Students will learn the underlying principles of animation, along with advanced, industry-standard software and hardware technologies. The entire creative pipeline from storyboarding through modeling and animation is covered in depth, allowing students to experience all aspects of production.

Additional Information

To find out more about this major, visit the Westphal College's Animation & Visual Effects Major (<http://www.drexel.edu/westphal/academics/undergraduate/ANIM>) web page.

Total Credits	
186.0	

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Dual/Accelerated Degrees

The accelerated degree program enables academically qualified students to earn both their bachelor's degree and a master's degree in digital media — graduating sooner than they would in traditional programs.

Current Drexel animation and visual effects students may apply for the accelerated BS/MS degree through the Graduate College of Drexel University after completing 90.0 credits, but no more than 120.0 credits. Contact the Graduate College of Drexel University (<http://www.drexel.edu/graduatecollege>) for further information.

Minor in Animation and Visual Effects

About the Minor

The Animation and Visual Effects Minor requires the completion of eight courses (minimum 24.0 credits). The minor provides basic foundation in the technological, story-telling and design skills used by animators and visual effects artists in the highly competitive entertainment and design worlds, with the opportunity for individualized tailoring according to the student's interests.

Program Requirements

Required Courses:

ANIM 100	Foundational Tools for Animation & VFX	3.0
or DIGM 100	Digital Design Tools	
or PHTO 141	Digital Photographic Post Production	
or VSCM 200	Computer Imaging II	
ANIM 110	Digital Imaging for Animation & VFX	3.0
ANIM 140	Computer Graphics Imagery I	3.0
ANIM 211	Animation I	3.0
Select four of the following:		12.0
ANIM 141	Computer Graphics Imagery II	
ANIM 212	Animation II	
ANIM 215	History of Animation	
ANIM 220	Digital Compositing I	
ANIM 221	Digital Compositing II	
ANIM 247	Organic Modeling I	
ANIM 248	Advanced Lighting	
ANIM 314	Character Animation I	
ANIM 315	Character Animation II	
ANIM 388	Spatial Data Capture	
ANIM 410	Advanced Compositing	
ANIM 411	Advanced Animation	
Total Credits		24.0

Facilities

Our facilities include more than 100 triple-boot MacPro and Boxx Technology workstations, a 16 camera Vicon motion capture studio, green screen room, a 2-ton motion platform theme park ride, FTIR multitouch

displays, laser scanner, stereoscopic projector, eye tracker, fNIR and EEG brain interfaces, and 3D theater, recording studios, etc. Students use professional software including Unreal, Unity3D, Maya, 3D Studio Max, Houdini, Massive, etc.

More information can be found at Drexel RePlay Lab's Facilities (<http://replay.drexel.edu/facilities.html>) page.

Animation and Visual Effects Faculty

Theo Artz, BFA (*Tyler School of Art, Temple University*). Associate Professor. Digital media.

John Berton Assistant Professor. Visual effects, lighting and rendering Computer-Generated Imagery (CGI)

Milady S. Bridges, BA (*Rutgers University*). Assistant Teaching Professor. Animation principles, modeling, texturing, rigging, enveloping, particle simulations, lighting, compositing, and editing.

Graham D. Clark, MFA (*Academy of Art University*). Assistant Teaching Professor. Animation and visual effects, stereography.

Paul Diefenbach, PhD (*University of Pennsylvania*). Assistant Professor. Game development, real-time rendering.

Jeremy Fernsler, BA (*Pennsylvania State University*) Program Director, *Game Design & Production*. Assistant Teaching Professor. Digital effects artist; compositor and animator for the feature film visual effects industry.

Nick Jushchyshyn, MFA (*Academy of Art University*) Program Director, *Animation and Visual Effects, VR/Immersive Media*. Associate Professor. Visual effects, digital media and animation.

Frank J. Lee, PhD (*Carnegie Mellon University*). Professor. Human-computer interaction; cognitive engineering and science; intelligent software agents for games and education.

Robert Lloyd, MFA (*Tyler School of Art, Temple University*) Program Director, *Game Design & Production*. Assistant Teaching Professor. Game development, themed entertainment and motion simulation.

David Mauriello, BA (*Lafayette College*). Assistant Professor. 3D modeling and animation.

Glen Muschio, PhD (*Temple University*). Associate Professor. Digital media, society, communication.

Stefan Rank, PhD (*Vienna University of Technology*). Assistant Professor. Artificial intelligence, game design and human-computer interaction.

Tony Rowe, AA (*Institute of Computer Technology*). Assistant Teaching Professor. Veteran AAA Game Designer, mentor at Drexel's Entrepreneurial Game Studio. Game history, writing, and level design.

Jervis Thompson, BS (*Drexel University*). Associate Teaching Professor. Digital media, interactive multimedia.

Michael Wagner, PhD (*Vienna University of Technology*) Department Head, *Digital Media*. Professor. Production management, educational use of video games.

Jichen Zhu, PhD (*Georgia Institute of Technology*). Associate Professor. Developing humanistic and interpretive framework of computational technology, particularly artificial intelligence (AI), and constructing AI-

based cultural artifacts; interactive storytelling, games and software studies.

Architecture

Major: Architecture

Degree Awarded: Bachelor of Architecture Degree (BArch)

Calendar Type: Quarter

Total Credit Hours: 227.0

Classification of Instructional Programs (CIP) code: 04.0201

Standard Occupational Classification (SOC) code: 17-1011

About the Program

The practice of architecture requires a unique skill set—creative thinking and aesthetic sensitivity balanced with technical knowledge, cultural understanding, and social responsibility. Critical thinking and communication skills are needed. Drexel's Bachelor of Architecture program encompasses foundation courses in the applied and social sciences, the humanities, and a wide range of professional architecture courses to prepare students for careers in architecture and related fields. At the heart of the curriculum are the design studios where students are challenged to apply their knowledge acquired from the above disciplines to consequential design problems.

Drexel's work/study program is an experiential-based learning model that complements and provides an alternative to traditional full-time academic architecture programs. The Drexel model provides a practical, high-quality education to those students who seek early exposure to daily architectural practice as well as an affordable alternative to students who could not otherwise be able to enter the profession.

At Drexel there are two paths to an accredited Bachelor of Architecture degree, serving two distinct populations: the 2+4 option and the part-time evening option.

The Architecture Program's advising guidelines (<http://www.drexel.edu/westphal/undergraduate/ARCH/Curriculum/#c3>) include scheduling guidelines, studio advancement requirements, and general studio policies.

Accreditation

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (<http://www.naab.org>) (NAAB), which is the sole agency authorized to accredit US professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture programs may require a pre-professional undergraduate degree in architecture for admission. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Drexel University, Antoinette Westphal College of Media Arts & Design, Department of Architecture + Interiors offers the following NAAB-accredited degree program(s):

2+4 Option:	6 year program (2 years full-time, 4 years part-time)
	Bachelor of Architecture

	227.0 undergraduate quarter-term credits
--	--

Part-Time Evening Option:	7 year part-time program Bachelor of Architecture 227.0 undergraduate quarter-term credits
---------------------------	--

Next accreditation visit for both tracks: 2018

About the 2+4 Option

The 2+4 option is an accelerated route designed for a small class of well-prepared students entering directly from high school. In this program, two years of full-time coursework address the basic principles of architectural design and satisfy fundamental University core requirements in the arts and sciences as well as those job-related skills that are needed for entry-level professional positions. A comprehensive review of performance will take place after each year to ensure that students are making sufficient progress in all areas. After successfully completing the minimum requirements of the full-time phase, students find full-time employment in the building industry, including architecture firms, while continuing their academic program part-time in the evening for four additional years.

About the Part-time Evening Program

The part-time evening option is one of only two part-time evening architectural programs in the United States, leading to an accredited Bachelor of Architecture degree. Designed for non-traditional and transfer students, this program offers all courses part-time in the evening, enabling students to work full-time. The evening program sequence is seven years, but transfer students with university-level design credits can reduce its length by meeting specific program requirements through transcript and portfolio review.

By combining work and study, all Drexel Architecture students may be able to simultaneously satisfy their required internship for licensure, now called the Architectural Experience Program (AXP) while completing their professional degree, thus qualifying for the registration exam on graduation in most jurisdictions.

Additional Information

For more information, visit the Architecture Program (<http://www.drexel.edu/westphal/academics/undergraduate/ARCH>) website. For advising and transfer information please review the Architecture Program's curriculum (<http://www.drexel.edu/westphal/academics/undergraduate/ARCH/Curriculum>) page.

In August of 2015, Drexel was approved by the National Council of Architectural Registration Boards (NCARB) (<http://www.ncarb.org>) for participation in the Integrated Path to Architectural Licensure (IPAL) (<https://www.ncarb.org/gain-axp-experience>) Program. Students seeking access to this track will be reviewed by the Program Director and Faculty starting in the Spring of 2017.

Note: Architecture vs Architectural Engineering

Because Drexel University offers two programs with "architecture" in their titles, it is useful to point out the significant differences between them:

- **Architects** design buildings to meet people's spatial, organizational, and aesthetic needs; they also coordinate the building design process. All states, the District of Columbia, and three U.S. territories (Guam, Puerto Rico, and the U.S. Virgin Islands) require individuals to be licensed (registered) before they may call themselves architects

or contract to provide architectural services. Many architecture school graduates work in the field even though they are not licensed or while they are in the process of becoming licensed. But they may not call themselves an architect.

A licensed architect is required to take legal responsibility for all work. Licensure requirements usually include:

- A professional degree in architecture;
 - A period of practical training or internship; and
 - Passage of all divisions of the Architect Registration Examination (ARE).
- **Architectural engineers** specialize in the design of engineering systems within buildings. Architectural engineers earn Bachelor of Science degrees and become professional engineers with the required experience and state examinations. Students whose interests are focused on the technological and engineering aspects of buildings should review Drexel's major in Architectural Engineering (p. 346) offered by the College of Engineering.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students

scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study (Part-time Evening Option)

This curriculum format is adjustable to each student's academic situation. Transfer credit evaluation, prior architectural experience, and other considerations may restructure the student's yearly program schedule.

First Year (Part-Time)

* Prior to taking this course student must meet program's minimum studio advancement requirements. See the program's Advising Guidelines (<http://www.drexel.edu/westphal/undergraduate/ARCH/Curriculum/#c3>) for more details.

** See degree requirements (p. 130).

Opportunities

Drexel's work/study program is an experiential-based learning model that complements and provides an alternative to traditional full-time academic architecture programs. The Drexel model provides a practical, high-quality education to those students who seek early exposure to daily architectural practice as well as an affordable alternative to students who could not otherwise be able to enter the profession.

Ordinarily, Drexel's architecture graduates continue working for the firms that employed them during the work-study phase of their studies. In time, some architects reach positions of associate or partner in these offices, while others choose to launch their own firms. Urban design, historic preservation, interior design, and facilities management are some of the related careers that architectural graduates also pursue with similar patterns of success.

Drexel is located in University City, a Philadelphia neighborhood that includes several centers of education and research. Philadelphia itself offers an unparalleled collection of landmark architecture and urban planning that spans 300 years of development. The region has always been home to architectural firms of national and international prominence. A rich and varied environment combined with an accomplished and supportive professional community make Philadelphia an ideal laboratory for the study of architecture. All of the faculty in the program are active in

the Philadelphia architecture community, many in leadership positions at firms.

Students seeking support for resume and portfolio development may schedule an appointment with the Program Director by contacting the Architecture Program. Job listings exclusively for Drexel Architecture students can be found on the Architecture Opportunities site. (<http://www.drexel.edu/westphal/academics/undergraduate/ARCH/Opportunities>) Firms seeking Drexel interns may contact students directly by finding student links to resume, worksample and web portfolios at this site.

Minor in Architecture

About the Minor

A minor in architecture gives students majoring in other disciplines an opportunity to explore architecture through a coherent sequence of coursework. The minor in architecture can also be used for preparation towards professional graduate study in this field. Interested students should consult the Architecture Program Director for course selection and scheduling.

The minor requires design studio courses, courses in architectural history, and architectural elective courses. No more than 9.0 credits from a student's major can be used to fulfill the minor requirements.

Program Requirements

Required Courses	
Required Architectural History	9.0
Choice of Three	
ARCH 141 Architecture and Society I	
ARCH 142 Architecture and Society II	
ARCH 143 Architecture and Society III	
ARCH 144 Architecture and Society IV	
Required Architecture Studios *	12.0
ARCH 107 Foundation Design I (Non Design Majors)	
ARCH 108 Foundation Design II	
ARCH 109 Foundation Design III	
ARCH 211 Architectural Representation I	
ARCH 181 Architecture Studio 1A	
OR	
ARCH 181 Architecture Studio 1A	
ARCH 182 Architecture Studio 1B	
ARCH 183 Architecture Studio 1C	
OR	
ARCH 183 Architecture Studio 1C	
ARCH 281 Architecture Studio 2A	
ARCH 282 Architecture Studio 2B	
Elective Architecture Courses **	3.0-6.0
Total Credits	24.0-27.0

* Non-Design Majors will be required to take the following studios: ARCH 107, ARCH 108, ARCH 109, ARCH 211 & ARCH 181. Students who have successfully completed ARCH 192 or VSST 103 should start the studio sequence with ARCH 181. Students who have successfully completed INTR 233 should start the studio sequence with ARCH 183.

** Electives can be chosen from the ARCH rubric if the prerequisite is satisfied.

Facilities

The Department's offices, studios and teaching facilities are located on floors 3, 3A, 4 and 4A of the URBN Center at 3501 Market Street. The Hybrid Making Lab (http://drexel.edu/westphal/about/overview/making_spaces/HybridMakingLab) on the first floor is open to all Westphal students and has state-of-the-art fabricating equipment, accessible to students after required training. The Westphal Print Center (http://www.drexel.edu/westphal/about/overview/making_spaces/WestphalPrintCenter) is a full-service, low-cost facility is located on 3A and is accessible to students from on and off campus. A full wood working shop is located in the Visual Studies Arts Annex at 3220 Cherry Street.

Interior Design Faculty

Graham Bailer, RA MArch (*University of Pennsylvania*). Adjunct Instructor. Graham Bailer Architecture. Technology and foundations.

Rena Cumby, BArch, MS (*Drexel University*) *Department Head, Department of Architecture & Interiors*. Associate Professor. Interior designer; foundation studies and design education.

Eugenia Ellis, RA, PhD (*Virginia Polytechnic State University*). Associate Professor. Extended-care facilities design, research on spatial visualization, perception and imagination.

Jeff Fama, MArch (*State University of New York at Buffalo*). Adjunct Instructor. Retail, entertainment, and theater design.

Susan Feenan, BArch (*Temple University*). Adjunct Instructor. Institutional and commercial architecture.

Gary Garofalo, BS Arch Eng (*Pennsylvania State University*). Adjunct Instructor. Principal Lighting Design Collaborative; lighting expert, lighting design.

Alan Greenberger, FAIA, BArch (*Rensselaer Polytechnic Institute*) *Department Head, Architecture, Design & Urbanism, Distinguished Visiting Lindy Institute for Urban Innovation Fellow*. Distinguished Teaching Professor. Urban planning and policy.

Carla Heikiin, MS (*Drexel University*). Adjunct Instructor. Workplace Strategy.

Peter Johnston, RA, AIA, MArch (*University of California*). Assistant Teaching Professor. Hospitality and institutional architecture and interior design.

Nicole Koltick, MArch (*University of California*) *Director, Design Futures Lab*. Assistant Professor. Researching possibilities for architecture and design through the use of unexpected and innovative interdisciplinary models. Foundation design studios, fabrication and technology seminars.

Maria Kuttruff, MS (*Drexel University*). Adjunct Instructor. Owner/Principal, Viola Interior Design, LLC. Residential interior design.

William Mangold, NCIDQ, MPhil (*City University Graduate Center, NY*) *Associate Director MS Interior Architecture & Design*. Assistant Teaching Professor. Research on theories of space and place.

Diana S. Nicholas, RA, AIA, NCARB, MFA (*University of the Arts, Philadelphia*) *Director of MS Design Research*. Assistant Professor. Coordinator, Sustainability in the Built Environment

Karen Pelzer, NCIDQ, BS Interior Design (*Drexel University*). Assistant Teaching Professor. President, Karen Pelzer Interiors; hospitality design.

Debra Ruben, MS, IDEC, LEED AP, NCIDQ, MS (*Drexel University*) *Director of BS and MS Interiors Programs*. Associate Professor. Research on user participation and the design process.

Eric Rymshaw, RA, BArch (*Drexel University*). Adjunct Instructor. Vice President and Design Principal of Fury Design, Philadelphia.

Elena Sabinson, MS (*Drexel University*). Assistant Teaching Professor. Technology and visualization methods.

Frances Temple-West, RA, AIA, MArch (*Virginia Tech*). Adjunct Instructor.

Ada Tremonte, NCIDQ, BS (*Drexel University*) *Associate Director, BS Interior Design*. Associate Teaching Professor. President, ada Design Associates; corporate/commercial design.

Emeritus Faculty

Sylvia Clark, MArch (*University of Pennsylvania*). Professor Emeritus.

Marjorie Kriebel, BArch (*University of Pennsylvania*). Professor Emeritus.

Karin Kuenstler, MS (*Bank Street College of Education and Parsons*). Professor Emeritus.

Marilynne L. Rose, NCIDQ, MS (*Drexel University*). Professor Emeritus.

Art History

Major: Art History

Degree Awarded: Bachelor of Arts (BA) or Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 180.0-184.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 50.0701

Standard Occupational Classification (SOC) code: 25-4011; 25-4012; 25-4013

About the Program

The history of art explores the meanings, values, and purposes of the visual arts within the historical cultures that create them. Works of fine and applied arts are understood not merely as aesthetic forms, but as expressions of the social, economic, scientific, religious, and political contexts that gave rise to them. The study of art history thus effectively serves the high purposes of a liberal education by equipping students with an understanding of world cultures and their histories from multiple disciplinary perspectives, and by encouraging the development of critical thinking, reading, research, and writing skills.

The art history program has a uniquely flexible curricular design in that it permits students to pursue art history as either a Bachelor of Arts or a Bachelor of Science degree. The BA degree is intended for students wishing to become professional art historians or who wish to supplement the art history curriculum with other courses leading to a specific career path. The BS degree is designed to allow students to combine the art history major with another major or to tailor the curriculum to their specific interests and aspirations. Both the BA and BS degrees require a total of 180.0-184.0 credit hours.

Another feature of the this program is that it offers two accelerated, five# year degree tracks leading to MS degrees in either Museum Leadership or Arts Administration.

Bachelor of Arts

The BA degree requires 60.0 credit hours of art history, 71.0-75.0 credit hours of General Education courses, and 49.0 credit hours of Free Electives. The BA degree requires a strong component of Arts and Humanities courses in order to prepare students to enter the professional world of art historians by exposing them to critical reasoning, philosophy, anthropology, literature, world cultures, and foreign languages. The 49.0 credit hours of Free Electives can be used under faculty advisement to take additional art history courses, develop special competencies and areas of interest (e.g., race and gender studies; the histories of technology, science and philosophy; Asian or Africana studies; writing, literature, and criticism; design history; museum studies, etc.), or gain competencies in various applied or technical areas. This BA program requires two 3-month co-ops.

Bachelor of Science

The BS degree also requires 60.0 credit hours of art history, but it only requires 35.0-39.0 credit hours of General Education courses, thereby freeing up 85.0 credit hours of coursework to accommodate another major or to design a personalized curriculum. The 85.0 credit hours of free electives provided by the BS degree permits the student to simultaneously pursue a second major, one or more minors, or simply explore the life of the mind by taking courses, with faculty advisement, in diverse fields. This program does not require a co-#op taken in addition to that which is required by the second major.

Minor in Art History

The minor in art history provides a broad humanistic background not only for students planning to attend graduate and professional schools in the fields of applied, media and design arts, social and information sciences, education, business and medicine, but also for those entering a more general job market. The minor is designed to be flexible enough to appeal to Antoinette Westphal College of Media Arts and Design majors as well as majors from the other colleges throughout the university.

Required Courses

ARTH 101 History of Art I: Ancient to Medieval	3.0
ARTH 102 History of Art II: Renaissance to Romanticism	3.0

Dual/Accelerated Degree

Art History BA/ Arts Administration MS

This five-year, accelerated degree program leading to a Master of Science in Arts Administration, is an excellent option for the student who wishes to broaden and deepen his or her knowledge of the world's cultures and their histories and further develop his or her capacities for critical thinking, reading, and writing. The MS in Arts Administration prepares students for careers in the administration of museums and the performing arts.

Specialized University resources, such as the Pearlstein Gallery, the Drexel Museum, and the Historic Costume Collection, are available to directly support student's studies.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Dual/Accelerated Degree

Art History BA/ Museum Leadership MS

This five-year, accelerated degree program leading to a Master of Science in Museum Leadership, is an excellent option for the student who wishes to broaden and deepen his or her knowledge of the world's museums and their practices. The degree prepares students for the opportunities and challenges of the evolving museum landscape. The innovative curriculum embraces planning and design, governance, financial management and resource development for museums. Graduates of this program gain employment in museum marketing, development, education and administration.

Specialized University resources, such as the Pearlstein Gallery, the Drexel Museum, and the Historic Costume Collection, are available to students wishing to pursue careers in Museum work.

Co-op/Career Opportunities

Co-op Opportunities

Drexel's enviable geographical location in the northeast corridor of the United States provides a distinct advantage for an art history program because of the proximity of many important Museums, galleries, and auction houses. The Philadelphia Museum of Art, Pennsylvania Academy of the Fine Arts, Barnes Foundation, Rodin Museum, Institute of Contemporary Art, and the Penn Museum of Archeology and Anthropology are all local and easily accessible. Museums, galleries and auction houses in New York, Washington, Baltimore and other east coast centers are all within a reasonable distance by train, bus, or car. These institutions will offer students an abundance of opportunities for first-hand study of the major collections of art, architecture, and design. Proximity to these institutions can also provide for many choice opportunities for cooperative education experiences.

Some possibilities include:

- Barnes Foundation
- Philadelphia Museum of Art
- Pennsylvania Academy of the Fine Arts
- American Philosophical Society
- Moderne Gallery
- Calderwood Gallery
- RagoArts Auction House, Lambertville, NJ
- Twelve Gates Gallery for Contemporary South Asian Art
- Newark Museum, NJ
- Metropolitan Museum of Art
- Brooklyn Museum
- Mural Arts Program
- Asia Society NY
- Christie's NY

Career Opportunities

A major in art history can prepare students for a wide variety of careers, as well as preparation for graduate school.

Possible career paths:

- Museum Administrator
- Gallery Director
- Curator
- Museum Registrar
- Museum Educator
- Art Consultant
- Art Librarian
- Editor
- Art and/or Intellectual Property Law
- Artist Representative
- Non-profit and governmental organizations
- Teacher (K-12)
- Teacher/Researcher (college and university)

As a particularly broad humanities discipline, art history serves as an outstanding pre-professional degree, providing excellent preparation for a wide variety of professions, such as law, medicine, education and library science.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Art History Faculty

Jennifer Blazina, MFA (*Cranbrook Academy of Art, Bloomfield Hills, MI*). Professor. Coordinator of printmaking, fine arts.

Mark Brack, PhD (*University of California at Berkeley*). Associate Professor. British and American architecture from 1700 to the present; Hispanic colonial architecture in the American Southwest; vernacular architecture; historic preservation.

Pia Brancaccio, PhD (*Istituto Universitario Orientale, Naples, Italy*). Associate Professor. South Asian art.

Katie Broh, AIA, MArch (*University of Pennsylvania*). Adjunct Instructor. Partner, MGA; performing arts and educational facilities.

Charles Capaldi, AIA, LEED, AP, MArch (*Columbia University*). Adjunct Instructor. Partner at CaVa Architects.

Lewis Colburn, MFA (*Syracuse University*) *Sculpture Area Coordinator*. Assistant Professor. Sculpture, 3D design.

Anda Dubinskis, MFA (*University of Pennsylvania*) *Drawing Area Coordinator*. Associate Teaching Professor. Drawing.

Joseph F. Gregory, PhD (*SUNY at Binghamton*). Associate Professor. Modern European art.

Linda Kim, PhD (*University of California, Berkeley*). Associate Professor. American art, Modern art.

Elizabeth Milroy, PhD (*University of Pennsylvania*) *Department Head, Visual Studies*. Professor. American art, Museum Studies.

Orlando Pelliccia, MFA (*University of Pennsylvania*) *Director of the Leonard Perlstein Gallery; Materials Coordinator*. Teaching Professor. Multimedia.

Bruce W. Pollock, M.F.A. (*Tyler School of Art, Temple University*) *Painting Area Coordinator; Fine Arts minor advisor*. Associate Professor. Abstract painting and drawing.

Danielle Rice, PhD (*Yale University*) *Program Director, Museum Leadership*. Teaching Professor. Museum Studies.

Clare Sauro, MA (*Fashion Institute of Technology*) *Curator, Historic Costume Collection*. Associate Teaching Professor. Costume history.

Delia Solomons, PhD (*Institute of Fine Arts, New York University*). Assistant Professor. Contemporary art, Latin American art.

Sara Steinwachs, MFA (*Yale University*) *Visual Studies Area Coordinator*. Associate Professor. Drawing, painting and design.

Mark Stockton, MFA (*Syracuse University*) *Design for Media Area Coordinator*. Assistant Teaching Professor. Drawing, painting, and design.

Joshua Weiss, MFA (*Yale University*). Associate Teaching Professor. Drawing, painting and design.

Emeritus Faculty

Lydia Hunn, MFA (*University of Pennsylvania*) *Multimedia Area Coordinator*. Professor Emeritus. Installations, sculpture, painting and drawing.

Charles Morscheck, PhD (*Bryn Mawr College*). Professor Emeritus.

Blaise J. Tobia, MFA (*University of California, San Diego*). Professor Emeritus.

Dance

Major: Dance

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 185.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Program (CIP) code: 50.0399

Standard Occupational Classification (SOC) code: 25-1071; 27-2031

About the Program

The dance program at Drexel University provides intensive exploration of dance in its physical, intellectual, creative and therapeutic aspects. The major is designed for students to focus on one of the following four tracks:

- Dance/Movement Therapy
- Dance in Education
- Physical Therapy
- Performance

The dance major at Drexel University has a unique curriculum design and focus. This program combines rigorous academic coursework with extensive stage and studio dance experiences to prepare students for four possible career paths within dance: dance/movement therapy, dance in education, physical therapy and performance. Students participating

in this major will earn a BS degree in dance with an optional minor in psychology.

Students focused on **dance/movement therapy** will prepare for jobs as dance/movement therapists. These are psychological counselors working in a variety of settings including hospitals, out-patient clinics and residential treatment centers. Students pursuing this option will earn a BS degree in dance at the Westphal College, through the Department of Performing Arts, for the first four years of study. They will then have the option to continue on to two years of study in the College of Nursing and Health Professions to earn an MA in Creative Arts in Therapy and become a licensed dance therapist.

The second career focus, **dance in education**, prepares students for jobs as elementary school teachers (grades Pre-K through 4) who may also serve as school dance specialists. Students choosing this option will earn a BS degree in dance through the Department of Performing Arts and may elect to continue for a fifth year of study to earn an MS in the Teaching, Learning & Curriculum through the School of Education. Students who successfully complete the five year BS/MS option in education will then be recommended to the State for a Pennsylvania Teaching Certificate in the area of Elementary Education for Pre-K to 4 certification, general education.

The third career focus, **physical therapy**, prepares students to work as physical therapists in a variety of settings, including hospitals, treatment centers, schools, and private practice. Students interested in the physical therapy option will complete the four-year BS degree in dance, along with a series of recommended electives in the physical sciences. After completion of the BS degree, students will continue their education for an additional three years in the College of Nursing and Health Professions to earn a DPT and become a licensed physical therapist.

The fourth option, **custom design**, allows students to work closely with faculty to create a personalized career in dance. Many students in this focus select **performance**, which prepares them to work as performers and/or choreographers in a variety of settings. Students interested in the performance option will complete the four-year BS degree in dance, with an emphasis on collaborative and interdisciplinary work.

The student who enters the dance major at Drexel University is an academically achieving student who has a deep curiosity for non-traditional careers in the field of dance. He or she is looking for extensive experiences to improve as a dancer, choreographer and performer while being stimulated academically. This student wants to study dance—both physically and cognitively—in college while being offered the possibility of gainful employment after graduation.

For more information about this major, visit the Westphal College's Dance (<http://www.drexel.edu/westphal/academics/undergraduate/DANC>) web page.

Degree Requirements

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
COOP 101	Career Management and Professional Development	0.0

* For DANC 131: Sections 001, 005, 006, 007, 008 ONLY

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic

advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

Term 1		Credits
DANC 131	Dance Practicum in Performance	1.0
DANC 140	Ballet Technique I	2.0

Term Credits		15.0

Total Credit: 185.0

Co-op/Career Opportunities

The dance major is designed for students to focus on one of four career options. Several of the tracks lead to graduate study at Drexel or may be completed at the end of four years. Each also includes a co-op experience that allows for extended interaction with professionals in dance therapy, physical therapy, education, and performance. Students wishing to change career focus throughout the course of the undergraduate curriculum will have the option to do so.

Students focusing on **dance/movement therapy** participate in a six month co-op experience during the spring and summer terms of their junior year. These students may participate in co-op with a practicing dance/movement therapist, community dance artist, or mental health professional in a mental health, social service, rehabilitation, medical, special education or community arts setting.

Students focusing on **physical therapy**, will participate in a six month co-op in which they work in a setting with a physical therapist, such as a hospital, treatment center, school, or private practice. Co-op experiences

where students are able to work with physical therapists working on dancers as clients will be encouraged.

Students focusing on **dance in education** participate in after school dance programs, artist in residence school partnerships and auditorium lecture demonstration programs as part of a touring dance company run by the dance program at Drexel, or other dance education focused activities in a school or studio setting, during the fall and winter of their junior year as their co-op experience.

Students focusing on **custom design** or **performance** may participate in a six month co-op including performance, administration, production, event planning and grant writing. Students interested in performance will work with professional choreographers to experience multiple aspects of creating a sustainable life in performance and/or choreography.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Minor in Dance

The minor in dance offers students an opportunity to explore dance in the studio through technique classes, and in the classroom through academic classes in dance. Participation in the dance ensemble class(s) is required, although performance with the ensemble is not. There is no audition for the dance minor program.

Required Courses

DANC 140	Ballet Technique I	2.0
DANC 150	Modern Dance Technique I	2.0
DANC 160	Jazz Dance Technique I	2.0
or DANC 170	Hip-Hop Dance Technique I	
DANC 210	Introduction to Dance	3.0
DANC 240	Dance Composition I	3.0
DANC 325 [WI]	Twentieth Century Dance	3.0
DANC 355	Rhythmic Study for Dance	3.0
THTR 240	Theatre Production I	3.0
Electives in Dance (DANC 140-DANC 495)		3.0
Dance Practicum (6 terms from DANC 131-DANC 133)		0.0
Total Credits		24.0

Dance Faculty

Lindsay Browning, BFA (*Bradford University*). Adjunct Instructor. Yoga

Jim Bunting, BFA (*University of the Arts, Philadelphia*). Adjunct Instructor. Jazz dance.

Antoinette Coward-Gilmore, MA (*New York University*). Adjunct Instructor. African dance, modern dance.

Clyde Evans Adjunct Instructor. Director of Chosen Dance Company; hip-hop.

Chris Farrell, MBA (*Fordham University*). Adjunct Instructor. Rhythmic studies; accompaniment.

Miriam Giguere, PhD (*Temple University*) *Department Head, Performing Arts*. Associate Professor. Professional modern dancer, choreographer and dance educator whose research centers on cognition during the creative process. She has published nationally and internationally and is a frequent presenter on the integration of dance and academics at national and international conferences.

Valerie Ifill, MFA (*University of Oregon*) *Program Director, Dance; Director of the Youth Performance Exchange and Dornsife Dance*. Assistant Teaching Professor. Intersections of dance and the community

Tania Isaac, MFA (*Temple University*). Assistant Teaching Professor. Caribbean-American dancer/choreographer; fusion of choreography with personal documentary and social commentary to grapple with identity, post-colonial issues, feminism and juxtapositions of European and African influences.

Lucinda Lea, BA (*Indiana University*). Adjunct Instructor. Ballet, Certified Trager Practitioner/Movement Educator

Marcie Mamura, MFA (*University of Oregon*). Adjunct Instructor. Assistant Director, FreshDance.

Jennifer Morley, MFA (*Temple University*). Assistant Teaching Professor. Master Pilates instructor and director of the Drexel Pilates Teaching Training program; modern dance, choreography.

Carl Paris, PhD (*Temple University*). Adjunct Instructor. Interdisciplinary approach to dance studies, cultural studies and issues around black dance and performance.

Olive Prince, MFA (*Temple University*). Adjunct Instructor. Choreography, creative process and improvisation; Director of Olive Prince Dance.

Meredith Rainey Adjunct Instructor. Former soloist with Pennsylvania Ballet and director of Carbon Dance Theater. Ballet, choreography.

Heather Smalley, BS (*Drexel University*). Adjunct Instructor. Arts administration.

Leah Stein, BA (*Wesleyan University*). Adjunct Instructor. Modern technique; improvisation.

Lauren Stepanski, DPT (*Drexel University*). Adjunct Instructor. Dance kinesiology

Dance Studies

Professional Dance Certificate Program

Certificate Level: Undergraduate

Admission Requirements: High school diploma or GED equivalency

Certificate Type: Certificate

Number of Credits of Completion: 18.0

Instructional Delivery: Campus

Calendar Type: Quarter

Maximum Time Frame: 1 year

Financial Aid Eligibility: Not aid eligible

Classification of Instructional Program (CIP) Code: 50.0399

Standard Occupational Classification (SOC) Code: 27-2031

The certificate in dance studies is a 1-year option for any qualified professional dancer to assess whether they have the interest and aptitude for entering an undergraduate dance program. The certificate program has no entrance requirement beyond possession of a high school diploma or GED equivalency. All credits earned in the certificate of study in dance will be transferable into the part-time or full time BS degree in Dance (p. 143).

General Requirements

DANC 100	Survey of Dance Studies	3.0
DANC 260	Injury Prevention for Dance	3.0

DANC 201 [WI]	Dance Appreciation	3.0
DANC 210	Introduction to Dance	3.0
DANC 330	Introduction to Laban Movement Analysis	3.0
DANC 355	Rhythmic Study for Dance	3.0
Total Credits		18.0

Design & Merchandising

Major: Design and Merchandising

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 181.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 50.0499

Standard Occupational Classification (SOC) code: 13-1022

About the Program

Students in the Design & Merchandising program develop an appreciation for style and product quality, learn to communicate verbally and visually about design across traditional and emerging media, and gain the business knowledge and skills required to promote an aesthetically grounded point of view in the global marketplace.

The Design & Merchandising program at Drexel University's Antoinette Westphal College of Media Arts & Design educates and prepares students to effect change via creative problem-solving in design and commerce. Through an interdisciplinary approach, we strive to graduate adaptable, creative, confident and passionate professionals who are technologically adept and globally aware.

Through the classroom, co-op experience and study abroad opportunities (<http://www.drexel.edu/studyabroad>), the program prepares students to create, merchandise, market, promote and distribute fashion product, based on a knowledge of visual/aesthetic and business considerations. Design & Merchandising students graduate with the knowledge and skills needed for success in traditional and emerging roles in the global marketplace, and as practical and responsible corporate citizens who will make the world a more compelling, beautiful place in which to live and work.

Design & Merchandising majors typically focus study in the areas of fashion and fashion-related retail merchandising, media merchandising, fashion show production and visual merchandising. Elective credits may be used for a concentration in Retail Buying & Merchandising. Elective credits may also provide students with an option to minor in business administration, art history, product design, marketing, or to pursue other specific educational goals.

For more information about this major, visit the College's Design & Merchandising (<http://www.drexel.edu/westphal/academics/undergraduate/DSMR>) page.

Degree Requirements

Students pursuing the Bachelor of Science in Design & Merchandising may complete a concentration in an Retail Buying & Merchandising using free electives or use these electives toward focused study in Media Merchandising (D&M Magazine), Fashion Show Production or Visual Merchandising (D&M Shop).

Concentration in Retail Buying & Merchandising

This concentration is designed to broaden students' practical and theoretical understanding of consumption as it relates to retail buying,

management and merchandising. With the growth in omni-channel retail, students need to develop their skills not only for careers in traditional brick-and-mortar retailing establishments, but other retail models. These include: print and digital based retailing (catalog, television, and Internet). In this concentration, students explore all major retail merchandising and marketing channels and their requirements for buying, staffing, technology, logistics, distribution, and organizational behavior.

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 119	Mathematical Foundations for Design	4.0
PHYS 121	Physical Science for Design I	4.0
PHYS 122	Physical Science for Design II	4.0
UNIV A101	The Drexel Experience	2.0
Required Arts and Humanities - students elect a minimum of 9 credits. *		9.0
Required Social Science - students elect a minimum of 9 credits **		9.0
Free Electives		31.0

Visual Studies Requirements

ARTH 101	History of Art I: Ancient to Medieval	3.0
ARTH 102	History of Art II: Renaissance to Romanticism	3.0
ARTH 103	History of Art III: Modern Art	3.0
PHOT 110	Photography	3.0
VSST 101	Design I	4.0
VSST 102	Design II	4.0
VSST 103	Design III	4.0
VSST 110	Introductory Drawing	3.0
VSST 111	Figure Drawing I	3.0
VSST 201	Multimedia: Performance	4.0
VSST 202	Multimedia: Space	4.0
VSST 203	Multimedia: Materials	4.0

Professional Requirements

ACCT 110	Accounting for Professionals	4.0
ARTH 300 [WI]	History of Modern Design	3.0
DSMR 100	Computer Imaging I	3.0
DSMR 201	Analysis of Product	3.0
DSMR 210	Presentation Techniques Design and Merchandising	3.0
DSMR 211	Computer Design for Design and Merchandising	3.0
DSMR 230	Textiles for Design and Merchandising	3.0
DSMR 231	Retail Operations	3.0
DSMR 232	Merchandise Planning and Buying	4.0
DSMR 310	Merchandising Operations & Management	3.0
DSMR 311	Visual Merchandising	4.0
DSMR 333	Fashion Product Development	3.0
DSMR 477 [WI]	Design and Merchandising Seminar	3.0
DSMR 496 [WI]	Senior Problem in Design and Merchandising	3.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
FASH 201	Survey of the Fashion Industry	3.0
MKTG 201	Introduction to Marketing Management	4.0
Art History Electives ***		6.0
Total Credits		181.0

* Arts and humanities electives must equal a minimum of 9.0 credits. Suggested arts and humanities electives: ENGL 303 Science Fiction; ENGL 335 Mythology (Women in Literature); HIST 163 Themes in World Civilization III; ENGL 335 Mythology; any foreign language.

- ** Social science electives must equal a minimum of 9.0 credits. Suggested social science electives: SOC 210 Race, Ethnicity and Social Inequality; SOC 215 Sociology of Work; SOC 240 Urban Sociology; SOC 345 Sociology for the Environment; SOC 340 Globalization; SOC I499 Independent Study in SOC.
- *** Suggested art history electives: ARTH 335 History of Costume I: Preclassical to Directoire [WI] ; ARTH 336 History of Costume II: Directoire to World War I [WI] ; ARTH 477 Art History Seminar.

Concentration Options

Retail Buying & Merchandising Concentration

Required Courses

DSMR 233 [WI]	Retail Image Analysis	3.0
DSMR 313	International Fashion Merchandising	3.0
DSMR 324	Retail Intersections: Social & Cultural Issues	3.0
DSMR 325	Advanced Merchandise Planning and Buying	4.0
Select three from the following:		12.0
DSMR 326	Fashion Product Promotion	
DSMR 397	Retail Practicum	
MKTG 324	Marketing Channels and Distribution Systems	
MKTG 344	Professional Personal Selling	
MKTG 355	Interactive Marketing	
MKTG 356	Consumer Behavior	
Total Credits		25.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plans of Study

Fall/Winter Co-op (Cycle A)

Term 1		Credits
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
FASH 201	Survey of the Fashion Industry	3.0

Co-op/Career Opportunities

An education in Design & Merchandising prepares individuals for a wide variety of career paths. Graduates often pursue opportunities in buying, merchandising and retail operations; fashion and home product development; fashion product promotion; media merchandising; and

public relations. More recently, graduates select careers in merchandising technologies, or customer relationship management. Students may elect to choose a minor opening up an unlimited number of options.

Co-Op Experiences

Some past co-op employments of design and merchandising students include:

- Assistant Buyer, Urban Outfitters/Anthropologie, Philadelphia, PA
- Merchandising Co-op, TJX Companies, Framingham, MA
- Merchandising Assistant, Nation Design, New York, NY
- Product Development, Boathouse Sports, Philadelphia, PA
- Merchandising Co-op, Mundi Westport Group, New York, NY
- Creative and Digital Assistant, Article 22, Brooklyn, NY
- Public Relations Assistant, QVC, West Chester, PA
- Assistant Fashion Coordinator, Special Events Department, Saks Fifth Avenue
- Fashion Showroom Co-op, BCBG Max Azria, New York, NY
- Public Relations Assistant, Neiman Marcus, King of Prussia, PA
- Design/Market Co-op, Charlotte Ronson, New York, NY
- Public Relations Co-op, KB Brand Partners, New York, NY
- Production Co-op, Derek Lam, New York, NY
- Retail/Manufacturing/Merchandising Asst., Nicole Miller, Philadelphia PA

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Dual/Accelerated Degree Program

Only available to Design & Merchandising majors (4-year with co-op), this dual degree program combines study in the areas of fashion retail merchandising and product development with the MBA degree. The program is designed to allow students to complete both the bachelor's degree and the Master of Business Administration degree in five years.

Incoming freshmen selected for this program will generally have a minimum of 1350 on the SAT, a GPA of 3.5 or better, and rank in the top 10% of their high school graduating class. A strong candidate for this program will have taken significant AP coursework while in high school.

Degree Requirements

The degree requirements for each program are located on the following pages:

- BS in Design & Merchandising Requirements (p. 147)
- MBA Requirements (<http://catalog.drexel.edu/graduate/collegeofbusiness/businessadministration/#degreerequirementstext>)

Additional requirements for the dual degree program

- A cumulative GPA of at least 3.2 is required throughout the program.
- Students must take the GMAT examination and achieve a minimum score of 570 prior to the end of the tenth term in order to continue in the program. It is recommended that students take the GMAT examination late in the student's third year.
- Students must submit an acceptable plan of study at least three terms before anticipated start of graduate part of the program.

Students should visit the Westphal College of Media Arts and Design (<http://www.drexel.edu/westphal>) for more information.

Fashion, Product Design & Merchandising Faculty

Kristen Ainscoe, BS (*Drexel University*). Assistant Teaching Professor. Visual merchandiser; merchandise management.

Chris Baeza, MLD (*Pennsylvania State University*). Assistant Teaching Professor. Creative direction, brand management, product design and merchandising, textiles and manufacturing.

Catherine Byers, MA (*American University*). Assistant Teaching Professor. Journalism; marketing and communications.

Nick Cassway, BFA (*Tyler School of Art*). Assistant Teaching Professor. Curating; experimental portraiture; computer design.

Anne C. Cecil, MA (*University of the Arts*). Adjunct Instructor. Web designer, product designer, merchandising and artist.

Joseph H. Hancock, II, PhD (*Ohio State University*). Professor. Apparel merchandising, textiles and clothing, culture and marketing strategies.

Tsz Kwok, EdD (*Drexel University*) Associate Director for Graduate College. Adjunct Instructor. Leadership development, creative leadership, pre-orientation program, comparative and international education, qualitative research methods, and teaching and learning about multicultural education in teacher preparation courses.

Beth Phillips, MS (*Georgetown University*). Associate Teaching Professor. Business and international marketing, linguist, analysis of products.

Entertainment & Arts Management

Major: Entertainment & Arts Management

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 185.0 - 187.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Program (CIP) code: 50.1001

Standard Occupational Classification (SOC) code: 13-1011

About the Program

The Entertainment & Arts Management (EAM) program at Drexel University is an international leader in teaching the business of show business. Our unique program is a business degree, yet one that is based in the entertainment and arts sectors. Students in the Entertainment and Arts Management major choose an area of concentration from media, performing arts, or visual arts management disciplines. The curriculum is designed to prepare students to lead and manage in both commercial and non-profit areas of the field. Concentrations are available in: Cinema and Television, Performing Arts, Dance, Theatre, Visual Arts, Digital Media, and Sports Entertainment. Coursework in the EAM program includes general education, core requirements and features a built-in business minor. Students also enjoy a wide-selection of specialized coursework within their chosen area of concentration.

Unlike other undergraduate programs in this field, students are not required to choose commercial or nonprofit. Our philosophy is to prepare students for leadership careers in the vast world of arts and entertainment. This gives EAM students increased flexibility when

choosing their career paths, and a distinct professional advantage in today's ever-changing arts and entertainment industries.

Our Goal

Our overall goal in the EAM program is to prepare students for leadership careers in the entertainment and arts fields by giving them:

- a broad understand of the business of entertainment & the arts, from for-profit commercial entertainment companies to non-profit arts & culture organizations;
- real world work experience;
- skills development in the creative discipline that interests them, and
- expert advice and insight from practicing professionals.

BS/MS Option

Students who complete the Entertainment & Arts Management program may also choose to pursue a graduate degree at Drexel University in arts administration, television management or museum leadership. Students who graduate with a 3.5 GPA in the last two years of the program who apply to the MS in Arts Administration (<http://catalog.drexel.edu/graduate/collegeofmediaartsanddesign/artsadministration>) are automatically accepted into the MS program. Other graduate degrees within the college are available to students as well.

Dual Degree MBA Option

Students majoring in Entertainment and Arts Management (4-year with co-op) may choose the BS Entertainment and Arts Management/MBA dual degree option. This highly attractive program option combines study in the management of the arts and entertainment industries along with the MBA degree. The program is designed to allow students to complete both the bachelor's degree and the MBA in five years.

Applying to the Dual Degree MBA Option

Freshman applicants to the Entertainment & Arts Management program with a combined Math and Critical Reading SAT score of 1300 and a 3.5 GPA may apply for the BS/MBA program at the time of their initial application to Drexel University. Current students may choose to apply to the dual degree option once they have achieved between 90.0 and 120.0 credits. All students who are accepted into the accelerated program must maintain a 3.2 GPA as an EAM undergraduate, and must submit 2 letters of recommendation and meet minimum GMAT requirements at the time of the application to the MBA program.

For more information about this major, visit the College's Entertainment & Arts Management (<http://www.drexel.edu/westphal/academics/undergraduate/eam>) page.

Degree Requirements

Coursework in the EAM program includes general education and core requirements as well as specialized coursework within the student's chosen area of concentration and, if applicable, within a specific arts or media discipline. For instance, within the media management concentration, students choose coursework in one of two disciplines: film, video, and screenwriting or digital media. In the performing arts management concentration, students choose coursework in a dance, performing arts, or theatre discipline.

The core requirements provide an overview of the student's future career field and its required key skills and abilities. The core requirements build

a foundation for further advanced and specialized courses, taught in the student's area of concentration. At the end of their freshman year, students select one of the following concentrations:

- **(A) Visual Arts Management Concentration**
- **(B) Performing Arts Management**
 - a. Dance Concentration
 - b. Performing Arts Concentration
 - c. Theatre Concentration
- **(C) Media Management**
 - a. Digital Media Concentration
 - b. Cinema and Television Concentration
- **(D) Sports Entertainment Concentration**

Concentration Requirements *		48.0
Total Credits		185.0-187.0

- * Minimum number of free electives depends on chosen concentration.
- ** Digital Media track students should take DIGM 100 in place of DSMR 100
- *** EAM 491 is a 1.0 credit course, taken 3 times during the senior year, for a total of 3.0 credits.
- † BS/MBA students should take STAT 201 and FIN 301. Students who take STAT 201 and FIN 301 should not take BUSN 301.

Concentration Requirements

A. Visual Arts Management Concentration

ARTH 101	History of Art I: Ancient to Medieval	3.0
ARTH 102	History of Art II: Renaissance to Romanticism	3.0
ARTH 103	History of Art III: Modern Art	3.0
EAM 270	Audience Development for Arts	3.0
EAM 301	Gallery and Collection Management	3.0
EAM 302	Exhibition Design	3.0
EAM 401 [WI]	Writing for Arts Managers	3.0
EAM 471	Fine Arts Market Development	3.0
EAM 472	Trends in Visual Arts	3.0

Visual Arts students select 21 additional credits from the following: 21.0

ARTH 300 [WI]	History of Modern Design	
INTR 200	History of Modern Architecture and Interiors	
PHTO 110	Photography	
PHTO 210	Intermediate Photography	
PHTO 275 [WI]	History of Photography I	
PHTO 276	History of Photography II	
VSST 101	Design I	
VSST 102	Design II	
VSST 103	Design III	
VSST 110	Introductory Drawing	
VSST 111	Figure Drawing I	
VSST 112	Figure Drawing II	
VSST 301	Painting I	
VSST 302	Painting II	
VSST 303	Painting III	
Total Credits		48.0

B. Performing Arts Management

1. Dance Concentration

DANC 140	Ballet Technique I	2.0
DANC 150	Modern Dance Technique I	2.0
DANC 160	Jazz Dance Technique I	2.0
or DANC 170 Hip-Hop Dance Technique I		
DANC 201 [WI]	Dance Appreciation	3.0
DANC 210	Introduction to Dance	3.0
DANC 240	Dance Composition I	3.0
DANC 325 [WI]	Twentieth Century Dance	3.0
DANC 355	Rhythmic Study for Dance	3.0

EAM 270	Audience Development for Arts	3.0
EAM 313	Volunteer and Board Management	3.0
EAM 321	Box Office and Venue Management	3.0
EAM 322	Performing Arts Touring	3.0
EAM 325	Producing for Live Entertainment	3.0
EAM 401 [WI]	Writing for Arts Managers	3.0
MUSC 130	Introduction to Music	3.0
THTR 240	Theatre Production I	3.0
Six terms of Dance ensembles (DANC 131 -132)		3.0
Total Credits		48.0

2. Performing Arts Concentration

DANC 201 [WI]	Dance Appreciation	3.0
DANC 210	Introduction to Dance	3.0
DANC 325 [WI]	Twentieth Century Dance	3.0
EAM 270	Audience Development for Arts	3.0
EAM 313	Volunteer and Board Management	3.0
EAM 321	Box Office and Venue Management	3.0
EAM 322	Performing Arts Touring	3.0
EAM 325	Producing for Live Entertainment	3.0
EAM 401 [WI]	Writing for Arts Managers	3.0
MUSC 130	Introduction to Music	3.0
Choose 2 of the following 5 MUSC courses		6.0
MUSC 331	World Musics	
MUSC 333	Afro-American Music USA	
MUSC 338 [WI]	American Popular Music	
MUSC 236	Rock Music Through the Mid-60s	
MUSC 238	Rock Music Since the Mid-60s	
THTR 115	Theatrical Experience	3.0
THTR 210	Acting: Fundamentals	3.0
THTR 240	Theatre Production I	3.0
Six terms of Performing Arts ensembles (3 classes must be taken for 1 credit each. One must be THTR 130)		3.0
Total Credits		48.0

3. Theatre Concentration

EAM 270	Audience Development for Arts	3.0
EAM 313	Volunteer and Board Management	3.0
EAM 321	Box Office and Venue Management	3.0
EAM 322	Performing Arts Touring	3.0
EAM 325	Producing for Live Entertainment	3.0
EAM 401 [WI]	Writing for Arts Managers	3.0
THTR 121 [WI]	Dramatic Analysis	3.0
THTR 210	Acting: Fundamentals	3.0
THTR 211	Acting: Scene Study	2.0
THTR 221 [WI]	Theatre History I	3.0
THTR 222 [WI]	Theatre History II	3.0
THTR 240	Theatre Production I	3.0
THTR 260	Production Design	3.0
THTR 320	Play Direction	3.0
One Theatre (THTR) elective		3.0
Six terms of Theatre Practicum Courses *		4.0
Total Credits		48.0

* THTR 130, THTR 131, THTR 132

C. Media Management

1. Digital Media Concentration

ANIM 140	Computer Graphics Imagery I	3.0
COM 111	Principles of Communication	3.0

COM 240	New Technologies In Communication	3.0
COM 270 [WI]	Business Communication	3.0
DIGM 105	Overview of Digital Media	3.0
EAM 365	Media and Entertainment Business	3.0
FMVD 110	Basic Shooting and Lighting	3.0
GMAP 260	Overview of Computer Gaming	3.0
IDM 100	Introduction to Web Development	3.0
IDM 211	User Interface Design I	3.0
IDM 221	Web Design I	3.0
MKTG 322	Advertising & Integrated Marketing Communications	4.0
VSST 110	Introductory Drawing	3.0
One Digital Media (ANIM, GMAP, WBDV) elective		3.0
Digital Media track students also select one course from the following:		3.0
ANIM 220	Digital Compositing I	
DIGM 350 [WI]	Digital Storytelling	
DIGM 451 [WI]	Explorations in New Media	
IDM 222	Web Design II	
Total Credits		46.0

2. Cinema and Television Concentration

COM 111	Principles of Communication	3.0
COM 240	New Technologies In Communication	3.0
COM 270 [WI]	Business Communication	3.0
EAM 365	Media and Entertainment Business	3.0
FMVD 110	Basic Shooting and Lighting	3.0
FMVD 115	Basic Editing	3.0
FMVD 120	Basic Sound	3.0
MKTG 322	Advertising & Integrated Marketing Communications	4.0
SCRIP 270 [WI]	Screenwriting I	3.0
TVIE 285	Media Law and Ethics	3.0
Select four from the following:		12.0
TVPR 212	TV Commercials and Promos	
FMVD 210	Documentary Video Production	
FMVD 215	Narrative Video Production	
FMVD 220	Experimental Video Production	
FMVD 235	Intermediate Lighting	
FMVD 237	Intermediate Editing	
FMVD 305	Special Effects Make-up	
FMVD 365	Special Topics in Production	
SCRIP 241	Writing TV Comedy	
SCRIP 242	Writing TV Drama	
SCRIP 275	Screenwriting II [WI]	
SCRIP 280	Writing the Short Film [WI]	
SCRIP 310	Literature for Screenwriters	
SCRIP 370	Screenplay Story Development	
SCRIP 380	Screenwriting Workshop I	
SCRIP 381	Screenwriting Workshop II	
TVIE 280	Research, Sales and Programming	
TVPR 100	TV Studio: Basic Operations	
TVPR 200	TV Studio: Live Directing	
TVPR 210	TV Studio: Narrative	
TVPR 230	Scripted TV Production	
TVPR 236	Reality TV Production	
TVPR 356	DNews	
TVPR 357	DNews II	
Choose 1 of 2 from the following:		3.0
TVPR 240	Producing for Television	
FMVD 286	Producing for Features	
Total Credits		46.0

D. Sports Entertainment

COM 111	Principles of Communication	3.0
COM 270 [WI]	Business Communication	3.0
EAM 365	Media and Entertainment Business	3.0
FMVD 110	Basic Shooting and Lighting	3.0
FMVD 115	Basic Editing	3.0
FMVD 120	Basic Sound	3.0
SMT 110	The Business of Sport	4.0
SMT 201	Sports Marketing, Promotion, and Public Relations	4.0
SMT 205	Sport Media Relations	4.0
SMT 215	Sports Ticket Sales & Operations	3.0
TVPR 100	TV Studio: Basic Operations	3.0
TVPR 240	Producing for Television	3.0
TVIE 250	TV Sports Program Strategies	3.0
Sport Entertainment Concentration students also select any two of the following courses:		6.0
SMT 200	Introduction to Sport Facility and Event Management	
SMT 225	Sports Budgeting	
SMT 230	Sports and the Law	
SMT 240	Olympic Games	
SMT 260	Sports Agents & Labor Relations	
SMT 305	Fundraising in Sports	
SMT 307	Corporate Sponsorship in Sports	
SMT 309	Capital Campaigns in Athletics	
SMT 310	Sports Contracts	
SMT 315	Sports Publications & Graphics	
SMT 320	Sport Economics	
SMT 337	Risk Management in Sports	
SMT 345	Fan Experience Management	
SMT 347	Sport Tourism	
TVPR 200	TV Studio: Live Directing	
TVST 260	History of Television	
Total Credits		48.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Recommended Plans of Study

At the end of their freshman year, students select one of the following concentrations. Each concentration has its own unique Plan of Study:

(A) Visual Arts Management Concentration

Term 1		Credits
EAM 130	Overview of Entertainment and Arts Management	3.0
ECON 201	Principles of Microeconomics	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 101	Introduction to Analysis I	4.0
UNIV A101	The Drexel Experience	1.0
Term Credits		15.0
Term 2		
ACCT 110	Accounting for Professionals	4.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
MATH 102	Introduction to Analysis II	4.0
UNIV A101	The Drexel Experience	1.0
Free Elective		3.0
Term Credits		15.0
Term 3		
CIVC 101	Introduction to Civic Engagement	1.0
EAM 211	Strategic Management for Entertainment and Arts Management	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
Arts and Humanities elective		3.0
Social science elective		3.0
Free Elective		3.0
Term Credits		16.0
Term 4		
BLAW 201	Business Law I	4.0
COOP 101	Career Management and Professional Development	0.0
DSMR 100	Computer Imaging I	3.0
EAM 391 [WI]	Entertainment Promotion and Branding	3.0
PHYS 121 or BIO 100	Physical Science for Design I Applied Cells, Genetics & Physiology	4.0
Social science elective		3.0
Term Credits		17.0
Term 5		
EAM 261	Copyrights and Trademarks	3.0
EAM 270	Audience Development for Arts	3.0
EAM 312	Introduction to Fund Development for the Arts	3.0
PHYS 122 or BIO 101	Physical Science for Design II Applied Biological Diversity, Ecology & Evolution	4.0
Visual Arts elective*		3.0
Term Credits		16.0
Term 6		
COM 230	Techniques of Speaking	3.0
EAM 200	Introduction to the Music Industry	3.0
EAM 361	Law for Entertainment and Arts Management Managers	3.0
TVIE 290	Introduction to Money and the Media	3.0
Social science elective		3.0
Visual Arts elective*		3.0
Term Credits		18.0
Term 7		
ARTH 101	History of Art I: Ancient to Medieval	3.0
EAM 301	Gallery and Collection Management	3.0
EAM 401 [WI]	Writing for Arts Managers	3.0
Business elective*		4.0
Free elective*		3.0
Term Credits		16.0
Term 8		
ARTH 102	History of Art II: Renaissance to Romanticism	3.0
EAM 302	Exhibition Design	3.0
MKTG 201	Introduction to Marketing Management	4.0
ORGB 300 [WI]	Organizational Behavior	4.0

Visual Arts elective *		3.0
Term Credits		17.0
Term 9		
ARTH 103	History of Art III: Modern Art	3.0
EAM 340	Artist Representation and Management	3.0
EAM 350	Arts, Culture and Society	3.0
Visual Arts elective *		3.0
Business elective *		4.0
Term Credits		16.0
Term 10		
EAM 471	Fine Arts Market Development	3.0
EAM 491	Entertainment and Arts Management Senior Project	1.0
HRMT 323	Principles of Human Resource Administration	4.0
Free elective		3.0
Visual Arts elective *		3.0
Term Credits		14.0
Term 11		
EAM 472	Trends in Visual Arts	3.0
EAM 491	Entertainment and Arts Management Senior Project	1.0
Arts and Humanities Elective		3.0
Free elective		3.0
Visual Arts elective *		3.0
Term Credits		13.0
Term 12		
EAM 491	Entertainment and Arts Management Senior Project	1.0
Business elective *		4.0
Free elective		6.0
Visual Arts elective *		3.0
Term Credits		14.0

Total Credit: 187.0

(B) Performing Arts Management

(1.) Dance Concentration

Term 1		Credits
EAM 130	Overview of Entertainment and Arts Management	3.0
ECON 201	Principles of Microeconomics	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 101	Introduction to Analysis I	4.0
UNIV A101	The Drexel Experience	1.0
Term Credits		15.0
Term 2		
ACCT 110	Accounting for Professionals	4.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
MATH 102	Introduction to Analysis II	4.0
UNIV A101	The Drexel Experience	1.0
Free elective		3.0
Term Credits		15.0
Term 3		
CIVC 101	Introduction to Civic Engagement	1.0
EAM 211	Strategic Management for Entertainment and Arts Management	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
Arts and Humanities elective		3.0
Social science elective		3.0
Free elective		3.0
Term Credits		16.0
Term 4		
BLAW 201	Business Law I	4.0
COOP 101	Career Management and Professional Development	0.0
DSMR 100	Computer Imaging I	3.0

EAM 391 [WI]	Entertainment Promotion and Branding	3.0
PHYS 121	Physical Science for Design I	4.0
or BIO 100	Applied Cells, Genetics & Physiology	
Social science elective		3.0
Term Credits		17.0
Term 5		
EAM 261	Copyrights and Trademarks	3.0
EAM 270	Audience Development for Arts	3.0
EAM 312	Introduction to Fund Development for the Arts	3.0
THTR 240	Theatre Production I	3.0
PHYS 122	Physical Science for Design II	4.0
or BIO 101	Applied Biological Diversity, Ecology & Evolution	
Term Credits		16.0
Term 6		
COM 230	Techniques of Speaking	3.0
DANC 210	Introduction to Dance	3.0
EAM 200	Introduction to the Music Industry	3.0
EAM 313	Volunteer and Board Management	3.0
EAM 361	Law for Entertainment and Arts Management Managers	3.0
TVIE 290	Introduction to Money and the Media	3.0
Required ensemble		0.0
Term Credits		18.0
Term 7		
DANC 140	Ballet Technique I	2.0
DANC 150	Modern Dance Technique I	2.0
or 160	Jazz Dance Technique I	
DANC 160	Jazz Dance Technique I	2.0
or 170	Hip-Hop Dance Technique I	
EAM 321	Box Office and Venue Management	3.0
EAM 401 [WI]	Writing for Arts Managers	3.0
MUSC 130	Introduction to Music	3.0
Required ensemble		1.0
Term Credits		16.0
Term 8		
DANC 355	Rhythmic Study for Dance	3.0
EAM 322	Performing Arts Touring	3.0
MKTG 201	Introduction to Marketing Management	4.0
ORGB 300 [WI]	Organizational Behavior	4.0
Arts and Humanities Elective		3.0
Term Credits		17.0
Term 9

Co-op/Career Opportunities

Entertainment & Arts Management prepares students for a variety of careers in both commercial and nonprofit organizations - from creative, hands-on positions to administrative and management roles.

The career possibilities in this field are extensive and include the following positions:

- Artistic or Creative Director
- Concert and Live Events Manager
- Gallery Owner or Museum Manager
- Special Events Planner
- Marketing or Social Media Director
- Film or TV Producer
- Venue Manager
- Artist Representative - Agent, Manager, or Publicist
- Creative Content Director - Media, TV or Online

Examples of Past Co-op Jobs

EAM students work at many of the leading entertainment and arts companies in the country.

Examples of some of the co-op employers where EAM students have worked:

- Showtime
- A&E Network
- Live Nation - Midwest, Philadelphia, New York
- AEG Live - Los Angeles
- The Tonight Show Starring Jimmy Fallon
- Atlantic Records
- Sony Music Entertainment
- Disney
- Comcast
- NBC Universal - NYC
- The Onion
- Screen Actors Guild
- Sirius/XM Radio
- Abrams Artist Agency – NYC
- Red Light Management - NYC
- Fox News Channel
- Warner Music Group
- Nashville Casting
- Rain Management Group
- The Trocadero
- XFINITY Live! Philadelphia
- Asbury Lanes
- Cosi Television NY
- World Café Live!
- Kimmel Center for the Performing Arts
- Lincoln Center for the Performing Arts
- Sesame Workshop
- Upright Citizens Brigade
- Edinburgh Fringe Festival
- Webster Hall NYC
- Philadelphia Theatre Company
- Joffrey Ballet
- Pennsylvania Ballet
- Arden Theatre Company

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

About the Accelerated Degree Program (BS/MBA)

Available to students majoring in entertainment and arts management (4-year with co-op), this dual degree program combines study in the management of the arts and entertainment industries along with the MBA degree. The program is designed to allow students to complete both the bachelor's degree and the Master of Business Administration degree in five years.

Incoming freshmen selected for this program will generally have a minimum of 1350 on the SAT, a GPA of 3.5 or better, and rank in the top 10% of their high school graduating class. A strong candidate for this program will have taken significant AP coursework while in high school.

Degree requirements

BS in Entertainment & Arts Management (p. 151)

MBA Requirements (<http://catalog.drexel.edu/graduate/collegeofbusiness/businessadministration/#degreerequirementstext>)

BS/MBA students may be waived from three MBA Enterprise Management courses, assuming a grade of B or better is earned in specified undergraduate courses. Students can review the Waiver Policies for the Statement of Curriculum Standing on the LeBow College's web site for additional information. Students who complete MIS 200 in their undergraduate program will, in addition, be waived from a fourth MBA course (MIS 612).

The above conditions hold only for fully accepted BS/MBA students as identified by Enrollment Management.

Additional requirements for the dual degree program

- A cumulative GPA of at least 3.2 is required throughout the program.
- Students must take the GMAT examination and achieve a minimum score of 570 prior to the end of the tenth term in order to continue in the program. It is recommended that students take the GMAT examination late in the student's third year.
- Students must submit an acceptable plan of study at least three terms before anticipated start of graduate part of the program.

Students should visit the Westphal College of Media Arts and Design (<http://www.drexel.edu/undergrad/academics/colleges-schools/westphal>) for more information.

Minor in Entertainment & Arts Management

Drexel's Entertainment & Arts Management (EAM) minor program gives students an introduction to the challenging industry of entertainment and arts business. The selected curriculum gives students a basis in entertainment finance, promotion, business planning, intellectual property rights, cultural literacy, and artist representation. Students in Drexel's EAM minor do not choose concentrations but rather take a core selection of classes and then select nine hours of electives in order to customize their learning.

The EAM minor is open to all undergraduate students in the Drexel University system; no prerequisites or department approval needed.

College of Media Arts and Design Facilities

Our college offers high-quality facilities and resources to its students including a state-of-the-art black-box theatre, HD film screening rooms, rehearsal studios, event venues, and more. The following are some links for more information about some of our facilities.

- Robert and Penny Fox Historic Costume Collection (<http://www.drexel.edu/westphal/resources/FHCC>)
- Design and Imaging Studios (<http://www.drexel.edu/westphal/student-resources/technology>)
- DUTV (<http://www.dutv.org>), (Paul F. Harron Studios) student-run cable television station
- Leonard Pearlstein Gallery (<http://www.drexel.edu/westphal/resources/LeonardPearlsteinGallery>)
- MAD Dragon Media Group (<http://maddragonrecords.com>)
- Mandell Theater (<http://www.drexel.edu/performingarts/about/facilities/mandell-theater>)
- Rudman Institute for Entertainment Industry Studies (<http://www.drexel.edu/westphal/resources/Rudman>)
- WKDU (<http://www.wkdu.org>), Drexel's student-run radio station

Entertainment and Arts Management Faculty

Lawrence Epstein, MBA (*Cornell University*) *Interim Department Head, Arts & Entertainment Enterprise*. Teaching Professor. Media Finance, Station Group Management Media Analytics, Financial, Technical and

Strategic Planning. Technology Assessment and Management, New Venture Management

Julie Goodman, MFA (*Temple University*) *Program Director, MS in Arts Administration*. Associate Professor. Cultural policy, political activism in the arts, changes in economic and social policy, arts sector changes.

Brea Heidelberg, MS, MA, PhD (*Villanova, The Ohio State University*) *Associate Program Director*. Assistant Professor. Arts management educator, consultant, and researcher focusing on the intersection of the arts and other fields of study.

Brian Moore, MS, MFA (*Drexel University; Louisiana State University*) *Program Director, BS in Entertainment and Arts Management*. Associate Teaching Professor. Commercial entertainment: film, theatre, television. Nonprofit organizations: theatre, general fund development; strategic planning; communications and marketing; executive management.

Brandon Pankey, BA (*University of Pennsylvania*). Adjunct Instructor. Vice President of Business Development & Operations for Live Nation Urban, the newest joint venture with Live Nation Entertainment, the world's leading company for live entertainment. Artist clients included The Roots, Jill Scott, Nicki Minaj, Lil' Wayne, and T.I.

Amy Scheidegger, MS (*Drexel University*). Adjunct Instructor. Working artist teaching audience development, advocacy and strategic management. Creator of the *Artistic Rebuttal Book Project*

Scott Schwartz, JD (*University of Buffalo*). Adjunct Instructor. General counsel at Dansko, LLC; teaches Copyright & Trademarks.

Neville Vakharia, MS (*Drexel University*) *Research Director*. Associate Professor. Technology in the arts, strategic planning and evaluation, management and leadership, innovation and entrepreneurship.

David Weiss Adjunct Instructor. VP at Freeman's Auction House, Host of *Antiques Roadshow* on PBC; Teaches Fine Art Market Development

Brannon Wiles, JD (*Columbia University School of Law*). Assistant Professor. Producing for commercial theatre, law and the arts, contract negotiation, labor relations, budgeting and company management.

Justin Wineburgh, JD (*Widener University*). Adjunct Instructor. Teaching Law for Entertainment and Arts Management. CEO of Alkemy-X production company.

Fashion Design

Major: Fashion Design

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 183.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 50.0407

Standard Occupational Classification (SOC) code: 27-1022

About the Program

The Fashion Design Program at Drexel University's Antoinette Westphal College (<http://www.drexel.edu/westphal/undergraduate/FASH>) of Media Arts & Design educates and trains visionary designers to use an integrated approach toward the creation of contemporary fashion within the context of an expanding, yet converging global economy and society. The fusion of art, design, science and technology serves as a springboard

for the production of unique apparel for the 21st century, and represents a trans-disciplinary approach that requires flexibility and focus. Over the past two decades, Drexel's Fashion Design program has developed a stellar, international reputation and is ranked in the top five nationally and 16th worldwide. That is due in part, to a passionate and experienced faculty, novel approaches to pedagogy, and participation in national and international competitions. Faculty and alumni connections to industry leaders strongly augment and catalyze the program, the strength of which is closely linked to the philosophy that each student has a distinct vision and a unique aesthetic that must be cultivated on an individual basis.

Within the beautiful new studios and specialized labs in the URBN Center, students learn to master skills and push the boundaries using those skills. Students can engage in collaborative University wide research through the use of the exCITe Center (<http://drexel.edu/excite>) located next door and the Hybrid Making Lab (http://www.drexel.edu/westphal/resources/making_spaces/HybridMakingLab) located on the URBN Center's first floor. They acquire detailed knowledge about industrial productions, advanced technologies in design, collaborative design, materials and processes, and the marketing and merchandising of clothing. Accordingly, our future fashion designers, both undergraduates and graduates alike, develop an intuitive and practical understanding of design through a fine arts foundation, while studying the psychological, social and historical contexts of fashion through the world-renowned Robert and Penny Fox Historic Costume Collection (<http://www.drexel.edu/foxcollection>) (FHCC). Importantly, the students are provided with commercial studio/ atelier training that goes hand-in-hand with classroom instruction through the University's cooperative education program (<http://www.drexel.edu/westphal/forStudents/co-op>). Cooperative education offers invaluable opportunities for students to observe and participate in the fashion industry at the ground level. Critiques by visiting professionals are included in all upper level courses and provide valuable "real world" input, as well as future career connections. A large percentage of students spend a term studying abroad (<http://www.drexel.edu/studyabroad>) in the world's great fashion capitals, including London (https://studyabroad.drexel.edu/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=10070&Type=O&sType=O) England and Florence (https://studyabroad.drexel.edu/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=40220), Italy. Upon graduation, students show their collections (<http://www.drexel.edu/westphal/creative/fash>) in the annual fashion show.

For more information about this major, visit the College's Fashion Design (<http://drexel.edu/westphal/academics/undergraduate/FASH>) page.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the

attribute "WI" to bring up a list of all writing-intensive courses available that term.

Co-op/Career Opportunities

Drexel Co-op is a renowned collegiate program. Students spend a minimum of 6 months either in the US (<http://www.drexel.edu/westphal/academics/co-op>) or abroad (<http://www.drexel.edu/scdc/co-op/international>) where they can apply their skills in the challenging and

exciting fashion industry. Areas of opportunity include garment design, concept design, product development, production, textile design, costume design, technical design, CAD, publishing, curatorial work, promotion and marketing. During the cooperative education program students apply their industry knowledge and gain experience in the diverse, fast paced global world of fashion. Students forge long lasting relationships with alumni and other industry professionals.

Co-op Experiences

Some past co-op employers of fashion design students include:

- A Wish Come True, Greater Philadelphia Area
- Abercrombie & Fitch, Ohio
- Althea Harper, New York
- Amsale, New York
- Austin Scarlett, New York
- Australian Internships - Bec & Bridge
- Beijing Yu Wen Hua Apparel Company
- BCBG Max Azria, California
- Bioko Biodiversity Protection Program, Equatorial Guinea
- Blazina International, Philadelphia
- Calvin Klein, New York
- Carole Hochman Design Group, New York
- Charlotte Ronson, New York
- Chico's FAS, Inc., Ft. Meyers FL
- Dennis Basso/Stallion Inc., New York
- Derek Lam, New York
- Destination Maternity Corporation, Philadelphia, PA
- DYLANLEX, Philadelphia, PA
- Elite Sportswear, L.P., Reading, PA
- Elie Tahari, New York
- Elixir Fashion Apparel & Alicia Lee Designs, China
- Gelmart International, New York
- Hanky Panky, LTD, New York
- Haute Hippie, New York
- Jill Stuart International, New York
- Joe Fresh, New York
- Jordache Enterprises, New York
- Junko Yoshioka, New York
- Lilly Pulitzer, Greater Philadelphia Area
- LL Bean, Freeport, ME
- Lori Coulter, LLC, St. Louis, MO
- Maggie Norris Couture, New York
- Marchesa, New York, NY
- Marios Schwab Ltd., London, UK
- Michael Kors, New York
- Milly LLC, New York
- Naeem Khan LTD, New York
- Nanette Lepore, New York
- Ohne Titel, New York
- PARIGI Group, Greater Philadelphia Area
- Parker, New York
- Peter Pilotto, London, UK

- Priscilla Costa, Greater Philadelphia Area
- Sally Lapointe, New York
- Shehu, Philadelphia, PA
- Shima Seiki USA, Inc., South New Jersey
- SOTU Productions, New York
- Thakoon, New York
- The Tailory, Philadelphia, PA
- Timo Weiland, New York
- Top Hat Formal Wear, Puerto Rico
- Urban Outfitters, Philadelphia, PA
- Veda, New York
- VF Sportswear, New York
- Yes Master for IMAGO Creations, Ltd, Middlesex, UK
- Zac Posen, New York

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Facilities

Drexel University's Antoinette Westphal College of Media Arts & Design is located in the new URBN Center at 3501 Market Street in Philadelphia. The URBN Center is a 140,000 square foot state-of-the-art facility where the Fashion Design studios are located on the 3rd floor.

Classes are held in fully equipped studios for design and construction, pattern drafting, CAD design, and textile design including a dedicated senior and graduate design studio. Other studios on the 3rd floor include a specialty equipment lab, computer lab, knitwear studio, a fabric dyeing and research lab, fashion drawing studio, and the Charles Evans Library. In our state-of-the-art knitwear lab, students have access to Shima Seiki's computerized flat knitting machine, and APEX Design Systems.

The R (<http://www.drexel.edu/westphal/resources/FHCC>) Robert and Penny Fox Historic Costume Collection (<http://www.drexel.edu/foxcollection>) (FHCC), currently estimated to hold more than 12,000 objects, is located on the first floor and is an invaluable library, archive and educational tool for our students as well as scholars, historians, artists and designers in the national and international community. Also located on the first floor is the Hybrid Making Lab (http://www.drexel.edu/westphal/about/overview/making_spaces/HybridMakingLab). This lab provides collaborative design and research opportunities both within Westphal College and University wide. The exCITe Center (<http://drexel.edu/excite>) (Expressive and Creative Interaction Technologies), located next door at 3401 Market Street, welcomes students and faculty from across the University as well as the community.

The open environment of the URBN Center provides opportunity for collaboration with all of the programs at the Westphal College. Design & Merchandising is on the first floor, opposite the main lobby where work from all of the College's students is regularly displayed. Digital Media, Animation & Visual Effects, Game Art & Production, Web Development & Interaction Design, Product Design, Graphic Design, Interiors, and Architecture's studios and labs are also located in the URBN Center. The Center encourages anyone interested to schedule a visit (<http://www.drexel.edu/westphal/about/contact>) to experience the creativity, technology, innovation and resulting excitement.

Fashion Design Faculty

Renee Weiss Chase, MS (*Drexel University*). Professor. Fashion designer; computer-aided design systems for the fashion curriculum.

Maureen DeSimone, MBA, in progress (*Colorado State*). Adjunct Instructor. Wholesale business operations, marketing and line development.

Anita Dennis, AST (*Art Institute of Philadelphia*) *Fashion Laboratory Technician*. Assistant Teaching Professor. Fashion designer and technician; construction skills.

Genevieve Dion, MFA (*University of the Arts*) *Director, Shima Seiki Haute Technology Lab, ExCITe Center*. Associate Professor. Industrial designer, wearable artist, new materials technology research.

Cynthia Golebuski, MS (*Drexel University*) *Associate Program Director, Fashion Design*. Associate Teaching Professor. Fashion designer, illustrator, computer aided design.

Roberta Gruber, MS (*Drexel University*). Associate Professor. Fashion designer and illustrator; wearable artist, merchandiser, special events.

Lisa L. Hayes, BFA (*Syracuse University*) *Program Director, Fashion Design*. Associate Professor. Fashion designer, product designer, pattern design.

Jaeyoon Jeong, MS (*Drexel University*). Assistant Teaching Professor. Owner/Designer Jaeyoon Jeong Collection

Jackie Kilmartin, MS, BS (*Jefferson University, University of the Sciences*). Assistant Teaching Professor. Owner/Knitwear Designer Lillian Jackson Textiles.

Jan Marshall, BA (*Long Island University*). Assistant Teaching Professor. Fashion designer, knitwear, product development, fashion analysis.

Kathi Martin, MSIS (*Drexel University*) *Associate Director of the Graduate Program in Fashion Design*. Professor. Fashion and textile designer; textile artist; computer-aided design, best practices online databases and graphic interfaces for fashion and historic costume, high resolution 3D interactive images for fashion design.

Alphonso McClendon, MS (*Drexel University*) *Program Director, Design & Merchandising*. Associate Professor. Fashion designer, product and business development, computer aided planning and design.

Clare Sauro, MA (*Fashion Institute of Technology*) *Curator, Historic Costume Collection*. Associate Teaching Professor. Costume history.

Film & Video

Major: Film & Video

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 186.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Program (CIP) code: 50.0602

Standard Occupational Classification (SOC) code: 27-2012; 27-4031; 27-4032

About the Program

The film and video major offers a balance of technical craft and artistic vision that prepares students to pursue professional careers in the film industry. The program is hands-on with ample production opportunities from the first year of study supported by a strong emphasis in the liberal arts and foundations of design. There is also substantial coursework in screenwriting and film studies.

This highly competitive program, with only sixty-four freshmen accepted annually, features smaller classes that foster student-faculty interaction and mentoring, as well as ample access to excellent equipment. The unique Drexel co-op and Los Angeles Summer Program enhance education by providing students with professional employment experience.

The Film and Video program also offers minors in Film Studies and Video Production.

Additional Information

For more information about this program, contact the program director:

Tom Quinn
Film & Video
Department of Cinema and Television
Antoinette Westphal College of Media Arts and Design

For more details, visit the College's Film and Video (<http://www.drexel.edu/westphal/academics/undergraduate/FMVD>) page.

Degree Requirements

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 119	Mathematical Foundations for Design	4.0
UNIV A101	The Drexel Experience	2.0
Required Arts and Humanities-students select a minimum of 12 credits		12.0
Required Natural Science-students select a minimum of 8 credits		8.0
Required Social Science-students select a minimum of 9 credits		9.0
Electives		24.0
Co-operative education (two terms)		0.0

AWCOMAD Requirements

ARTH 102	History of Art II: Renaissance to Romanticism	3.0
ARTH 103	History of Art III: Modern Art	3.0
IDM 100	Introduction to Web Development	3.0
VSST 108	Design I for Media	3.0
VSST 109	Design II for Media	3.0

Film and Video Core Courses

FMST 101	Film History I: Emergence	3.0
FMST 102	Film History II: New Waves	3.0
FMST 103	Film History III: Trends	3.0
FMST 204	Film Voice and Style	3.0
FMST 250	The Documentary Tradition	3.0
FMVD 110	Basic Shooting and Lighting	3.0
FMVD 115	Basic Editing	3.0
FMVD 120	Basic Sound	3.0
FMVD 200	Acting for the Screen	3.0
FMVD 202	Directing for the Screen	3.0

FMVD 210	Documentary Video Production	3.0
FMVD 215	Narrative Video Production	3.0
FMVD 218	Intermediate Cinematography	3.0
FMVD 220	Experimental Video Production	3.0
FMVD 226	Intermediate Sound	3.0
FMVD 228	Visual Storytelling	3.0
FMVD 235	Intermediate Lighting	3.0
FMVD 237	Intermediate Editing	3.0
FMVD 286	Producing for Features	3.0
FMVD 322	Production Workshop I	3.0
FMVD 323	Production Workshop II	3.0
FMVD 401	Creative Careers	3.0
FMVD 495	Senior Project in Film and Video (3 semesters at 3.0 credits)	9.0
SCRP 270 [WI]	Screenwriting I	3.0
SCRP 280 [WI]	Writing the Short Film	3.0
SCRP 370	Screenplay Story Development	3.0
TVPR 100	TV Studio: Basic Operations	3.0

Four Advanced Production Choice Courses

Includes TVPR-TV Studio 200 level course and any non-required TVPR or FMVD course at 300 level or above. Also includes SCRCP courses at 300 level or above. Does not include FMVD 399 or FMVD 490.

Film Studies or Television Studies Course

Select any Film Studies (FMST) or Television Studies (TVST) course not already listed as required.

Total Credits 186.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plans of Study

Co-op Cycle A

(See below this plan for Co-op Cycle B)

Term 1		Credits
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
FMST 101	Film History I: Emergence	3.0
FMVD 110	Basic Shooting and Lighting	3.0
IDM 100	Introduction to Web Development	3.0
UNIV A101	The Drexel Experience	1.0
VSST 108	Design I for Media	3.0
Term Credits		16.0

Term 2			FMVD 495	Senior Project in Film and Video	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0	Advanced Production elective*		3.0
FMST 102	Film History II: New Waves	3.0	Social Science elective		3.0
FMVD 120	Basic Sound	3.0	Free electives		6.0
SCRIP 270 [WI]	Screenwriting I	3.0	Term Credits		15.0
UNIV A101	The Drexel Experience	1.0	Term 11		
VSST 109	Design II for Media	3.0	FMVD 401	Creative Careers	3.0
Term Credits		16.0	FMVD 495	Senior Project in Film and Video	3.0
Term 3			Arts and humanities elective		6.0
ARTH 102	History of Art II: Renaissance to Romanticism	3.0	Free elective		3.0
CIVC 101	Introduction to Civic Engagement	1.0	Term Credits		15.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0	Term 12		
FMVD 115	Basic Editing	3.0	FMVD 495	Senior Project in Film and Video	3.0
MATH 119	Mathematical Foundations for Design	4.0	Free electives		9.0
TVPR 100	TV Studio: Basic Operations	3.0	Term Credits		12.0
Term Credits		17.0	Total Credit: 186.0		
Term 4			Co-op Cycle B		
ARTH 103	History of Art III: Modern Art	3.0	Term 1		
FMST 250	The Documentary Tradition	3.0	ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
FMVD 200	Acting for the Screen	3.0	FMST 101	Film History I: Emergence	3.0
FMVD 210	Documentary Video Production	3.0	FMVD 110	Basic Shooting and Lighting	3.0
FMVD 218	Intermediate Cinematography	3.0	FMVD 120	Basic Sound	3.0

Co-Op/Career Opportunities

Students who study film and video can move on to careers as film or video directors, producers, video or film editors, directors of photography (film), camerawork, as well as grips and special effects coordinators.

Co-Op Experiences

Some past co-op employers of film and video students include:

- USA Network, New York
- Comcast, Philadelphia
- Bad Robot, Los Angeles
- ICM, Los Angeles

- Focus Features, New York
- Law & Order, New York
- NFL Films, Mount Laurel, New Jersey
- Tribeca Film Center, New York
- National Geographic Television, Washington DC
- NBC, New York
- Paramount Studios, Los Angeles
- MTV, New York

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Facilities

Film and Video facilities include a shooting studio with green screen; two screening rooms; a fully equipped HD television studio; post-production labs for editing, color correction and audio recording & mixing; specially outfitted multimedia rooms; state of the art film production equipment including cameras, steadicams, lighting and audio equipment.

Additionally, the college operates DUTV (<http://www.dutv.org>), a HD cable television station reaching over 350,000 households.

Minor in Film Studies

About the Minor

The Minor in Film Studies comprises courses that cover the major artistic and institutional developments in cinema from its late-nineteenth-century origins to the present. As these courses cover a variety of critical topics that are essential to any film studies curriculum - such as the study of major genres and auteurs, the technologies and techniques contributing to the development of the medium, as well as the historical circumstances that influenced the cinema's evolution since its inception - they will establish a sound critical foundation for students to choose and to flourish in the subsequent courses required for the minor.

The Minor in Film Studies is open to all University students.

Program Requirements

Required Courses:

FMST 101	Film History I: Emergence	3.0
FMST 102	Film History II: New Waves	3.0
FMST 103	Film History III: Trends	3.0

Select five of the following: 15.0

FMST 250	The Documentary Tradition	
FMST 255	Hitchcock	
FMST 260	The Western	
FMST 262	Film Comedy	
FMST 266	The Cinematographer's Art	
FMST 270	Controversial Films	
FMST 275	Breakthroughs of Contemporary Film Directors	
FMST 276	Great Years in Cinema: 1999	
FMST 290	Hollywoodland I	
FMST 291	Hollywoodland II	
FMST 340	French New Wave	
FMST 345	Italian Neo Realism	
FMST 352	The Horror Film	
FMST 355	Contemporary Cinema	
FMST T380	Special Topics in Film Studies	

FMST T480 Special Topics in Film Studies

Total Credits 24.0

Minor in Video Production

About the Minor

The Minor in Video Production provides a thorough foundation in filmmaking craft. Once core required courses are completed, students have the opportunity to apply newly acquired skills in their choice of several advanced film production courses or to explore television studio production.

The Minor in Video Production is open to all University students.

Program Requirements

Required Courses

FMVD 110	Basic Shooting and Lighting	3.0
FMVD 115	Basic Editing	3.0
FMVD 120	Basic Sound	3.0
SCRIP 270 [WI]	Screenwriting I	3.0
Four of the following courses:		12.0
FMVD 210	Documentary Video Production	
FMVD 215	Narrative Video Production	
FMVD 220	Experimental Video Production	
FMVD 235	Intermediate Lighting	
FMVD 305	Special Effects Make-up	
FMVD 365	Special Topics in Production	
SCRIP 280 [WI]	Writing the Short Film	
TVPR 100	TV Studio: Basic Operations	
TVPR 200	TV Studio: Live Directing	
Total Credits		24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Film & Television Faculty

Ian N. Abrams, BA (*Duke University*). Associate Professor. Screenwriting, movies, film, Hollywood.

Andrew Altrichter, MBA (*Drexel University*) Program Manager, *Drexel University's television station (DUTV)*. Adjunct Instructor. Videography, editing, production.

John Avarese, BS (*Drexel University*). Assistant Teaching Professor. Composer, film and video scores, mixing and sound design.

Alison Bagnall, BA (*Yale University*). Visiting Professor. Filmmaker

Jackie Borock, LLB (*Widener University*). Adjunct Instructor. Media law, intellectual property, first amendment

David Culver, AS (*Graham Junior College*) Manager of the *Paul F. Harron Studios/DUTV*. Associate Teaching Professor. Film, Video, Station Management, Emerging Media Technology

Karen Curry, BA (*Fordham University*) Executive Director, *Kal and Lucille Rudman Institute for Entertainment Industry Studies*. Adjunct Instructor. Global media, news production and management.

David Deneen, BFA (*Philadelphia College of Art*). Assistant Teaching Professor. Film & video.

Gerard M. Hooper, MFA (*Temple University*). Associate Teaching Professor. Film and video; European and non-western cinema.

D. B. Jones, PhD (*Stanford University*). Professor. Film and video; cinema studies.

Matthew Kaufhold, MA (*University of North Carolina*) Program Director, *Screenwriting and Playwriting*. Associate Teaching Professor. Screenwriter, Producer.

Karin P. Kelly, MFA (*New York University*) Department Head, *Cinema and Television*. Associate Professor. Film and video; filmmaker and author.

Yvonne D. Leach, MFA (*Temple University*). Associate Professor. Television studies.

Susan Magee, MFA (*Bennington*). Instructor. Social marketing, electronic publishing, technical communication.

Joe Marsini, BS, CPA (*University of Delaware*). Adjunct Instructor. Media finance, strategic planning, financial reporting, contract negotiations, collective bargaining agreements.

Thomas Quinn, MFA (*Temple University*) Program Director, *Film & Video*. Assistant Professor. Writer, Director, filmmaker.

Philip W. Salas, BS (*Temple University*). Assistant Teaching Professor. Utilization of advanced set top box data to measure fragmented viewing behavior. Impact of new television distribution technologies on traditional broadcasters and multichannel program providers.

David A. Schwartz, BA (*Rider University*). Associate Teaching Professor. Steadicam operator; cameraman.

Andrew Susskind, BA (*Harvard University*) Program Director of *TV Production & Media Management*. Associate Teaching Professor. Producing for Television, The Sitcom, Directing Single and Multi-Camera

Jocelyn Tarquini-Motter, MFA (*American Film Institute*). Assistant Teaching Professor. Editing.

Albert S. Tedesco, MA (*University of Pennsylvania*) Director of the *Paul F. Harron Graduate Program in Television Management*. Teaching Professor. Media Management, Organizational Structure, Research

Methods, Media Ethics, Media Law, The Regulatory Environment, Technology Assessment, Media Theory, Media Analytics

Gregory S. Wolmart, MFA (*University of Pennsylvania*). Assistant Professor. Cinema studies; film history.

Martin (Marty) Zied, BA (*Penn State*). Adjunct Instructor. Speech Communications, Producer/Director Television and Film

Game Design & Production

Major: Game Design and Production

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 186.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 36.0113

Standard Occupational Classification (SOC) code: 15-1131

About the Program

Drexel's top-ten nationally-ranked Game Design & Production program combines a strong comprehension of animation and interactivity with an understanding of design, programming, production, and team work.

The major mirrors a sector that has seen an explosion in gaming, not just in personal entertainment, but throughout multiple industries and the corporate world. The gaming industry has matured into a source of large-budget AAA and smaller indie entertainment projects. It encompasses the use of serious gaming, where gaming technologies are used in education and training for practically any topic.

Fully immersive games use constantly evolving methods of presentation and interaction, such as personal data-trackers, Internet-of-Things (IoT), multi-touch displays, mediated-reality (augmented and virtual) motion and gesture capture, motion simulation, and haptic devices. To best prepare for the demands of careers in these rapidly changing disciplines, students pursue a foundation of design and technology, taking core courses in all aspects of digital media, completing a six-month co-op and delving into rigorous specialty coursework. Provided a robust foundation, students are prepared to adapt to shifting industry demands and maintain a fluency across the digital media spectrum.

To complement the creative focus of the Game Design & Production major, a minor in Computer Science is popular, and in many cases an ideal supplement for Game Design & Production students. This minor increases programming knowledge while maintaining a creative design and production focus. This minor would be easy to achieve within a plan of study using free electives. For the computer-engineering-focused, a sister concentration in game programming and development (<http://catalog.drexel.edu/undergraduate/collegeofcomputingandinformatics/gameprogramminganddevelopment>) is offered as part of Drexel's major in computer science (<http://catalog.drexel.edu/undergraduate/collegeofcomputingandinformatics/computerscience>).

Additional Information

To find out more about this major, visit the Westphal College's Game Design & Production Major (<http://www.drexel.edu/westphal/undergraduate/GDAP>) page.

Degree Requirements

General education requirements

CIVC 101	Introduction to Civic Engagement	1.0

Co-op/Career Opportunities

Drexel students have broad training in all areas of game design and production, and our students have career opportunities in both entertainment gaming and broader simulation/training industries, and anywhere interactive gaming technology is applied - a growing segment in all industries.

Co-op Experiences

Building a career often begins with a few key contacts and the co-op program gives Drexel students the chance to meet professionals, making their skills known, and build their personal network.. A recent co-op student at Microsoft Studios worked with producers on several different titles and was offered a job in his junior year that was waiting for him after he completed his senior year.

In addition to small and large entertainment companies, students have opportunities to explore how game design is applicable to many local and international industries ranging from aerospace to pharmaceuticals to yacht design.

Recent co-op opportunities include game and digital media jobs in Philadelphia region companies like *eNable Games*, *Entrepreneurial Game Studio*, *iD Tech Game Design & Development Academy*, *IDEA*, *Penn Medicine*, *PHL Collective*, *Skyless Game Studios*, and *Virtual Health*.

Students also secured game and digital media co-ops at national and international companies, like *Rockstar Games* in San Diego and *Inter Media Japan* in Tokyo.

Career Experiences

Our students work in leading entertainment companies including *343 Industries*, *Blizzard*, *Disney*, *EA Games*, *Ghost Story Games*, *Industrial Light & Magic*, *Irrational Games*, *Microsoft Studios*, *Microsoft Xbox*, *Midway MCoft*, *Nexon*, *Oculus VR*, *Riot Games*, *Rockstar Games*, *Sony SCEA*, *Spry Fox*, *The Coalition*, *Turn 10 Studios*, *Volition*, and *Zynga*.

Other students chose indie studios or launch their own digital media or game companies. Students also chose to work outside of entertainment by applying their game production skills to more serious endeavors with companies including *Comcast*, *Lockheed Martin*, and *Vanguard*.

Jobs titles include *Art Director*, *Animator*, *Associate Producer*, *Character Animator*, *Cinematic Lead*, *Cinematics Animator*, *Community Manager*, *Digital Project Coordinator*, *Facial Capture Artist*, *Game Designer*, *Lead Cinematic Animator*, *Lead Technical Director*, *Lead Virtual Production Manager*, *Marketing Manager*, *Motion Capture Technician*, *Previsualization Supervisor*, *Program Manager*, *Programmer*, *Senior Animator*, *Senior Artist*, *Senior Community Manager*, *Simulation Developer*, *Technical Artist*, and *Virtual Production Engineer*.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities, or Drexel's RePlay Lab careers (<http://www.replay.drexel.edu/careers.html>) page.

Dual Accelerated Degrees

BS/MS in Digital Media

The accelerated degree programs enable academically qualified students to earn both a bachelor's and a master's degree in five years instead of six — graduating sooner than they would in traditional programs. In addition, the graduate-level courses students take in their junior and senior years are included in their undergraduate tuition, which saves almost a year's worth of their MS tuition.

Current Drexel students may apply for an accelerated degree programs through the Graduate College of Drexel University (<http://drexel.edu/graduatecollege>) after completing 90.0 credits, but no more than 120.0 credits. Many of our accelerated students have gone on to careers at leading companies including *Pixar*, *Microsoft Studios*, *Dreamworks*, *NCSOft*, and *Disney*.

Game Design and Production Faculty

Theo Artz, BFA (*Tyler School of Art, Temple University*). Associate Professor. Digital media.

Milady S. Bridges, BA (*Rutgers University*). Assistant Teaching Professor. Animation principles, modeling, texturing, rigging, enveloping, particle simulations, lighting, compositing, and editing.

Graham D. Clark, MFA (*Academy of Art University*). Assistant Teaching Professor. Animation and visual effects, stereography.

Paul Diefenbach, PhD (*University of Pennsylvania*). Assistant Professor. Game development, real-time rendering.

Jeremy Fernsler, BA (*Pennsylvania State University*) Program Director, *Game Design & Production*. Assistant Teaching Professor. Digital effects artist; compositor and animator for the feature film visual effects industry.

Troy Finamore, MS (*Drexel University*) Program Director, *Interactive Digital Media*. Assistant Teaching Professor. Advertising, design and interactivity.

Nick Jushchyshyn, MFA (*Academy of Art University*) Program Director, *Animation and Visual Effects, VR/Immersive Media*. Associate Professor. Visual effects, digital media and animation.

Frank J. Lee, PhD (*Carnegie Mellon University*). Professor. Human-computer interaction; cognitive engineering and science; intelligent software agents for games and education.

Robert Lloyd, MFA (*Tyler School of Art, Temple University*) Program Director, *Game Design & Production*. Assistant Teaching Professor. Game development, themed entertainment and motion simulation.

David Mauriello, BA (*Lafayette College*). Assistant Professor. 3D modeling and animation.

Glen Muschio, PhD (*Temple University*). Associate Professor. Digital media, society, communication.

Stefan Rank, PhD (*Vienna University of Technology*). Assistant Professor. Artificial intelligence, game design and human-computer interaction.

Tony Rowe, AA (*Institute of Computer Technology*). Assistant Teaching Professor. Veteran AAA Game Designer, mentor at Drexel's Entrepreneurial Game Studio. Game history, writing, and level design.

Jervis Thompson, BS (*Drexel University*). Associate Teaching Professor. Digital media, interactive multimedia.

Jichen Zhu, PhD (*Georgia Institute of Technology*). Associate Professor. Developing humanistic and interpretive framework of computational technology, particularly artificial intelligence (AI), and constructing AI-based cultural artifacts; interactive storytelling, games and software studies.

Graphic Design

Major: Graphic Design

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 183.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 50.0409

Standard Occupational Classification (SOC) code: 27-1024

About the Program

Westphal College's graphic design curriculum provides a balance of theory and practice in rigorous design study enhanced by general education coursework in the humanities and the physical and social sciences. Students learn to conceptualize, visualize and realize visual communications through the rigor of project-based exploration and experimentation based on the formal foundations of typography, image-making, aesthetics and critical thinking. Graphic design students are immersed in all aspects of visual communications, such as books, magazines and publications (print and screen based), posters,

advertising, packaging, web, motion and interactive design, exhibition design and data visualization. Working on two- and three-dimensional projects and electronic media, students utilize the latest applications and emerging technologies to stay current with the industry.

Graphic design students can also pursue advanced elective coursework in web and motion graphic design, environmental graphic design, experimental publication design and other interdisciplinary special topics projects.

Additional Information

For more information about the major, visit the Graphic Design (<http://www.drexel.edu/westphal/academics/undergraduate/VSCM>) program web page.

* Visual Studies (VSST) elective: choose from any upper-level VSST course.

Co-op/Career Opportunities

Potential employers include advertising agencies, publishers, printers, independent and in-house design studios, museums and galleries, magazines and newspapers, and television. Training in visual communication prepares an individual for careers in many fields because the problem-solving methods and organizational skills it builds are widely applicable.

Co-op Experiences

Following is a sampling of graphic design co-op employers:

- Comcast (<http://corporate.comcast.com>)
- Esquire (<http://www.esquire.com>)
- The Franklin Institute (<https://www.fi.edu>)
- Hasbro (<https://www.hasbro.com/en-us>)
- Intuitive Company (<http://intuitivecompany.com>)
- National Constitution Center (<https://constitutioncenter.org>)
- Philadelphia Museum of Art (<http://www.philamuseum.org>)
- Philadelphia Union (<http://www.philadelphiaunion.com>)
- Quirk Books (<http://www.quirkbooks.com>)
- Razorfish (<https://www.razorfish.com>)
- WebLinc (<https://www.weblinc.com>)

Career Opportunities

Our graphic design alumni go on to successful careers in a range of positions including lead designer, creative director, art director, interaction designer, user experience director, and owner or partner of firms. Some of the companies where you will find our alumni include:

- AgileCat (<http://agilecat.com>)
- America's Test Kitchen (<https://www.americastestkitchen.com>)
- Ann Taylor Inc (<http://www.anninc.com>)
- Apple (<https://www.apple.com>)
- Bloomberg (<https://www.bloomberg.com>)
- Blue Cadet (<http://www.bluecadet.com>)
- Brooks Brothers (<http://www.brooksbrothers.com>)
- Comcast Corporation (<http://corporate.comcast.com>)
- Conde Nast (<http://www.condenast.com>)
- eCity Interactive (<http://www.ecityinteractive.com>)
- ESPN (<http://www.espn.com>)
- ex;it (<http://www.exploreexit.com>)
- Facebook (<https://www.facebook.com/careers/?ref=pf>)
- The Franklin Institute (<https://www.fi.edu>)
- Intuitive Company (<http://intuitivecompany.com>)
- Kikkerland (<https://kikkerland.com>)
- Longwood Gardens (<https://longwoodgardens.org>)
- Marvel Entertainment (<http://marvel.com>)
- Michael Graves Design Group (<https://michaelgraves.com>)
- National Constitution Center (<https://constitutioncenter.org>)
- QVC (<http://www.qvc.com>)
- Philadelphia Museum of Art (<http://www.philamuseum.org>)
- Saatchi & Saatchi (<http://saatchi.com/en-us>)
- Sesame Workshop (<http://www.sesameworkshop.org>)
- Time Inc. (<https://www.timeinc.com>)

- Under Armour (<https://www.underarmour.com/en-us>)
- Vera Bradley (<https://www.verabradley.com/us/Home>)

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Facilities

The graphic design studios are located on the fourth floor of the URBN Center in the Antoinette Westphal College of Media Arts and Design. There are five dedicated studios equipped with up-to-date electronic and traditional tools. Studios have work surfaces for traditional practices that will accommodate 15 students, and wall surfaces for critiques or posting examples of printed work. In addition, students have access to a dedicated, non-scheduled graphic design “open lab” equipped with all necessary technology and work surfaces.

Graphic Design Faculty

Jack Cliggett, MFA (*Syracuse University*). Associate Professor. Graphic design; logo design, corporate identity, Chinese propaganda, and thesis.

Joshua Gdovin, BS (*Drexel University*). Assistant Teaching Professor. Graphic design; web graphics; motion graphics, and thesis.

Jody Graff, BS (*Drexel University*) *Program Director, Graphic Design*. Associate Professor. Graphic design; publication design, annual report design, three-dimensional graphics and packaging, environmental graphic design (exhibition and wayfinding), and thesis.

Eric Karnes, MFA (*Virginia Commonwealth University*). Assistant Professor. Graphic design; logo design, corporate identity, typography, advanced typography, publication design, book design, professional portfolio, thesis.

William Rees, BS (*Drexel University*) *Associate Program Director, Graphic Design*. Associate Teaching Professor. Graphic design; logo design, corporate identity, publication design, electronic imaging, print production, professional portfolio, and thesis.

Sandra Stewart, BFA (*Tyler School of Art, Temple University*) *Academic Associate Dean, Antoinette Westphal College of Media Arts and Design*. Associate Professor. Graphic design; logo design, corporate identity, publication design, three-dimensional graphics and packaging, and thesis.

Mark Willie, MFA (*Boston Museum School of Fine Arts*). Teaching Professor. Graphic design; typography, logo design, corporate identity, publication design, book design, professional portfolio, and thesis.

Shushi Yoshinaga, BFA (*Philadelphia College of the Arts*). Associate Professor. Graphic design; letterform, typography, and thesis.

Emeritus Faculty

David Raizman, PhD (*University of Pittsburgh*). Distinguished University Professor Emeritus. Graphic design; History of Modern Design, Graphic Design; 20th Century & Beyond

Immersive Media

About the Minor

The minor provides a foundation in the principles, techniques and tools used in the design and production of virtual reality, augmented reality (VR/AR) and other forms of Immersive Media, with the opportunity for individualized tailoring according to the student's interests.

Program Requirements

Required Courses:

ANIM 100	Foundational Tools for Animation & VFX	3.0
or DIGM 100	Digital Design Tools	
or PHTO 141	Digital Photographic Post Production	
or VSCM 200	Computer Imaging II	
ANIM 110	Digital Imaging for Animation & VFX	3.0
ANIM 140	Computer Graphics Imagery I	3.0
DIGM 355	Overview of Immersive Media	3.0
DIGM 359	Immersive Media Production & Post	3.0
DIGM 365	Interactive Immersive Media	3.0
Select two of the following:		6.0
ANIM 141	Computer Graphics Imagery II	
ANIM 211	Animation I	
ANIM 220	Digital Compositing I	
ANIM 221	Digital Compositing II	
ANIM 388	Spatial Data Capture	
GMAP 345	Game Development Foundations	
GMAP 367	Character Animation for Gaming	

Total Credits 24.0

Interactive Digital Media

Major: Interactive Digital Media

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 186.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 11.0801

Standard Occupational Classification (SOC) code: 15-1134; 27-1014

About the Major

We design for people, not screens. We are the evangelists of interactivity. We focus on humans and their behavior; on verbs, not nouns. We are empathetic. We care about the user experience. Great content and great design are the tip of the iceberg when it comes to interactive products that engage the mind, heart and body. We aim for design that engages and delights. We are passionate. We create digital products that promote and inspire human activity, and which adapt to individual choice and deliver personalized content. Our products and processes are agile. They can change gracefully over time and still retain their own unique identity. We are future-proof.

Here, we understand that the past is just as important as the future. We learn the core principles to define and stay ahead of the curve. We are flexible and versatile. We know that in an industry of constant change our work is never done and our education never stops. We prepare for this change by building upon a solid foundation in order to discover the trends of tomorrow. To us, work and play have the same definition. We are curious.

We believe that discoveries are made through experimentation and that magical things happen through collaboration. Desktops, laptops, mobile devices, glasses and watches are only the beginning. We know that anything that can be connected will be connected. We are adaptable. While others focus on technology, we choose to focus on creativity. We believe that design and code are inseparable. They are the tools that we use to render the intent of our imagination.

Additional Information

To find out more, visit the Westphal College's Interactive Digital Media major (<http://drexel.edu/westphal/academics/undergraduate/IDM>) web page.

Degree Requirements

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
COM 230	Techniques of Speaking	3.0
COOP 101	Career Management and Professional Development	0.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 101	Introduction to Analysis I	4.0
PHYS 121	Physical Science for Design I	4.0
PHYS 122	Physical Science for Design II	4.0

IDM 380	Special Topics in Interactive Digital Media	
IDM 381	Experimental Interactive Technologies	
IDM 399	Independent Project in Interactive Digital Media	

Total Credits

186.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Co-op/Career Opportunities

Students who study interactive digital media can move on to careers as web designers, graphic designers, digital media designers, user research & experience specialists, multimedia artists, interactive designers, web programmers, and web user interface designers.

Co-op Experiences

Some past co-op employers of film and video students include:

- Brownstein Group
- Comcast
- Digitas Health
- eCity Interactive
- Electronic Ink
- Happy Cog

Visit the Drexel Steinbright Career Development Center (<http://drexel.edu/scdc>) web page for more detailed information on co-op and post-graduate opportunities.

Dual Accelerated Degree

The accelerated degree program enables academically qualified students to earn both their bachelor's degree and a master's degree in digital media — graduating sooner than they would in traditional programs.

Current Drexel digital media students may apply for the accelerated BS/MS degree through the Graduate College after completing 90.0 credits, but no more than 120.0 credits. Contact the Graduate College (<http://www.drexel.edu/graduatecollege>) for further information.

Minor in Interactive Digital Media

About the Minor

The Interactive Digital Media Minor requires the completion of eight courses (minimum 24.0 credits). The minor provides basic foundations in interactivity, including: design and development of websites and mobile applications with the opportunity for individualized tailoring according to the student's interests. It is open to all University students and is administered and advised by the Digital Media program.

Program Requirements

Required Courses

DIGM 100	Digital Design Tools	3.0
IDM 221	Web Design I	3.0
Select six of the following:		18.0
IDM 100	Introduction to Web Development	
IDM 101	History of Web Development

Total Credits

24.0

Facilities

Digital media program facilities include a motion capture and green screen studio, a screening room, DSLR digital still cameras, HD video cameras and lighting equipment, triple boot PowerMac stations (Mac / Windows / Unix) with dual monitors, wacom tablets, game consoles, mobile devices, and 2 undergraduate open labs with 24/7 access.

Additionally, the program houses the RePlay Lab (<http://replay.drexel.edu/facilities.html>) in the URBN Center which is a collaborative effort between the Digital Media program and the Computer Science department (in the College of Computing & Informatics). At Drexel University, game development does not "live" in solely one department, and so mirrors the true nature of game development in commercial settings.

Interactive Digital Media Faculty

Theo Artz, BFA (*Tyler School of Art, Temple University*). Associate Professor. Digital media.

Kurt Aspland, BFA (*Art Center College of Design*). Adjunct Instructor. Illustrator, graphic designer and creative director

John Berton Assistant Professor. Visual effects, lighting and rendering Computer-Generated Imagery (CGI)

Milady S. Bridges, BA (*Rutgers University*). Assistant Teaching Professor. Animation principles, modeling, texturing, rigging, enveloping, particle simulations, lighting, compositing, and editing.

Graham D. Clark, MFA (*Academy of Art University*). Assistant Teaching Professor. Animation and visual effects, stereography.

Chester Cunan, BS (*Drexel University*). Adjunct Instructor.

Paul Diefenbach, PhD (*University of Pennsylvania*). Assistant Professor. Game development, real-time rendering.

Christopher Fernandez, BS (*Drexel University*). Adjunct Instructor. Designer and illustrator in the world of interactive design creating innovative, exciting digital campaigns and solutions

Jeremy Fernsler, BA (*Pennsylvania State University*) Program Director, *Game Design & Production*. Assistant Teaching Professor. Digital effects artist; compositor and animator for the feature film visual effects industry.

Troy Finamore, MS (*Drexel University*) Program Director, *Interactive Digital Media*. Assistant Teaching Professor. Advertising, design and interactivity.

Bernard Flakoff, BS (*Temple University*). Adjunct Instructor. Creative content and strategic analytics for innovative and advanced technology platforms

Kevin Gross, MS (*Drexel University*). Adjunct Instructor.

Nick Jushchysyn, MFA (*Academy of Art University*) Program Director, *Animation and Visual Effects, VR/Immersive Media*. Associate Professor. Visual effects, digital media and animation.

Jason Kirk, MS (*Drexel University*). Adjunct Instructor.

Frank J. Lee, PhD (*Carnegie Mellon University*). Professor. Human-computer interaction; cognitive engineering and science; intelligent software agents for games and education.

Robert Lloyd, MFA (*Tyler School of Art, Temple University*) Program Director, *Game Design & Production*. Assistant Teaching Professor. Game development, themed entertainment and motion simulation.

David Mauriello, BA (*Lafayette College*). Assistant Professor. 3D modeling and animation.

Glen Muschio, PhD (*Temple University*). Associate Professor. Digital media, society, communication.

Kenneth Oum, MS (*Drexel University*). Professor. Computer interface gaming, web development, video production.

Mark Petrovich, MS (*Drexel University*). Adjunct Instructor.

Stefan Rank, PhD (*Vienna University of Technology*). Assistant Professor. Artificial intelligence, game design and human-computer interaction.

Ryan Reed, BS (*Drexel University*). Adjunct Instructor.

Patrick Richardson, MS (*Drexel University*). Professor. Applied physics, electronics, software scripting, and physical computing.

Tony Rowe, AA (*Institute of Computer Technology*). Assistant Teaching Professor. Veteran AAA Game Designer, mentor at Drexel's Entrepreneurial Game Studio. Game history, writing, and level design.

Philip Sinatra, BS (*Drexel University*). Professor. Website/application programming.

Jervis Thompson, BS (*Drexel University*). Associate Teaching Professor. Digital media, interactive multimedia.

Michael Wagner, PhD (*Vienna University of Technology*) Department Head, *Digital Media*. Professor. Production management, educational use of video games.

Ed Yakovich, MS (*Philadelphia University*). Professor. HTML/CSS/JS architecture and best practices.

Kenneth Yanoviak, BA (*Temple University*). Adjunct Instructor. Digital photographer

Diane Zatz Adjunct Instructor.

Jichen Zhu, PhD (*Georgia Institute of Technology*). Associate Professor. Developing humanistic and interpretive framework of computational

technology, particularly artificial intelligence (AI), and constructing AI-based cultural artifacts; interactive storytelling, games and software studies.

Interior Design

Major: Interior Design

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 186.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 50.0408

Standard Occupational Classification (SOC) code: 27-1025

About the Program

The undergraduate interior design program explores the behavioral, technological, environmental and aesthetic aspects of interior design within the context of increasingly more complex design projects. Combined with art and art history and general education requirements, a core of interior design courses creates a unique education at the forefront of design. Through academics grounded in problem-solving design studios, cooperative employment, and a dedicated faculty, the Interior Design program prepares students for leadership positions in the industry. The Interior Design program is ranked in the Top10 by DesignIntelligence, America's Best Architecture & Design Programs.

The BS interior design program is CIDA (Council for Interior Design Accreditation) and NASAD (National Association of Schools of Art & Design) accredited.

Program Philosophy and Mission

The interior design program at the Antoinette Westphal College of Media Arts & Design is committed to developing the leaders of tomorrow. We believe that combining a studio-based, sequential interior design curriculum, with broad liberal arts study and the experiential learning of a well-established co-op program develops skillful designers, creative thinkers and potential leaders. We offer each student the opportunity for intellectual and personal growth through a hands-on approach to teaching, advising and collaborating. Developing skilled designers, creative thinkers, responsible citizens and professional leaders through academic, experiential and professional learning is the mission of the interior design program. We seek to cultivate students who acknowledge their responsibilities to the safety and well-being of the public and the stewardship of the environment and who can lead in a multifaceted profession and ever-changing world.

For more information about this major, visit the College's Interior Design (<http://www.drexel.edu/westphal/academics/undergraduate/INTR>) page.

Co-op/Career Opportunities

Interior design is a multi-faceted field and includes careers with interior design firms, architectural firms, and facilities management organizations; in governmental agencies; and in the furniture and textile industries. Full-time paid employment in the profession is an integral component of the program at Drexel. The six-month co-operative education, undertaken in the junior year, provides project-based experience as well as the daily operation of a design firm. Students may opt to do their co-op in Philadelphia or in another location of their choosing. Through a required course and career advisement services offered by the Steinbright Career Development Center, students develop the ability to market themselves and obtain jobs in leading firms, worldwide.

Co-op Experiences

Some past co-op employers of interior design students include:

- Ballinger
- Children's Hospital of Philadelphia Facilities
- Daroff Design
- DAS
- Disney
- Eberlein Design Consultants
- Ewing Cole
- Floss Barber Inc.
- Gensler
- Hillier Lewis
- Herman Miller
- HOK
- Jacobs Associates
- Knoll International
- L2 Partridge
- Marguerite Rogers
- Nelson
- Perkins Eastman
- RJMJ
- Stantec
- University of Pennsylvania
- West Chester University

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

About the Accelerated Degree Program

Qualified students in Interior Design have the option of continuing into the graduate Interior Architecture + Design program to obtain a dual BS/MS degree. This program allows highly motivated students to graduate with both degrees in a total of five years. Students apply for this accelerated program when they complete 90.0 credits of coursework, and before completing 120.0 credits.

Additional requirements for acceptance into the Dual Degree Program:

- Overall GPA of undergraduate coursework – 3.2 minimum
- Overall GPA of interior design studio coursework – 3.5 minimum
- Portfolio Review: interior studio work and foundation visual work
- Essay: reason for application, professional goals and leadership qualities you possess
- Two letters of recommendation speaking to your work ethic and leadership skills

Evaluation Process

A committee of interiors faculty reviews the applications and discusses the merits of the student to undergo the intensity and rigor of the final two years of the program. The Committee consists of no less than three members – Director of the Interiors programs, Associate Director BS Interior Design program and the Associate Director MS Interior Architecture & Design program.

Students should visit the Westphal College of Media Arts and Design (<http://www.drexel.edu/westphal>) for more information.

Facilities

The interior design program is housed in the URBN Center, a state of the art design and arts facility on Drexel's campus. The URBN Center officially opened in September 2012. A hub for creative minds to gather, share ideas and work together to bring those ideas from the mind to the page, and into the world of tomorrow, interiors students benefit from a wide-range of resources including interior design studios, the interior design resource library, a hybrid making lab, wood shop and computer laboratories. The Hybrid Making Lab (http://drexel.edu/westphal/about/overview/making_spaces/HybridMakingLab) is open to all Westphal students and has state-of-the-art fabricating equipment including 3-d printers, laser cutters and CNC Router. The Westphal Print Center (http://drexel.edu/westphal/about/overview/making_spaces/WestphalPrintCenter) is a full-service, low-cost facility and is accessible to students from on and off campus.

The URBN Annex houses a black box theater, screening room and the Leonard Pearlstein Gallery (<http://www.drexel.edu/pearlsteingallery>). Additional studio and classroom space in the Peck Problem Solving and Research Center and the Design Arts Annex accommodate photography, basic design, painting, sculpture and a full woodworking shop with industrial-quality equipment.

Philadelphia, one of the nation's major design centers, gives interior design students the vitality of the contemporary arts at local galleries; easy access to many museums, libraries, renowned buildings, as well as design centers located in Philadelphia, New York City and Washington, D.C.

Interior Design Faculty

Graham Bailer, RA MArch (*University of Pennsylvania*). Adjunct Instructor. Graham Bailer Architecture. Technology and foundations.

Rena Cumby, BArch, MS (*Drexel University*) *Department Head, Department of Architecture & Interiors*. Associate Professor. Interior designer; foundation studies and design education.

Eugenia Ellis, RA, PhD (*Virginia Polytechnic State University*). Associate Professor. Extended-care facilities design, research on spatial visualization, perception and imagination.

Jeff Fama, MArch (*State University of New York at Buffalo*). Adjunct Instructor. Retail, entertainment, and theater design.

Susan Feenan, BArch (*Temple University*). Adjunct Instructor. Institutional and commercial architecture.

Gary Garofalo, BS Arch Eng (*Pennsylvania State University*). Adjunct Instructor. Principal Lighting Design Collaborative; lighting expert, lighting design.

Alan Greenberger, FAIA, BArch (*Rensselaer Polytechnic Institute*) *Department Head, Architecture, Design & Urbanism, Distinguished Visiting Lindy Institute for Urban Innovation Fellow*. Distinguished Teaching Professor. Urban planning and policy.

Carla Heikiin, MS (*Drexel University*). Adjunct Instructor. Workplace Strategy.

Peter Johnston, RA, AIA, MArch (*University of California*). Assistant Teaching Professor. Hospitality and institutional architecture and interior design.

Nicole Koltick, MArch (*University of California*) *Director, Design Futures Lab*. Assistant Professor. Researching possibilities for architecture and design through the use of unexpected and innovative interdisciplinary models. Foundation design studios, fabrication and technology seminars.

Maria Kuttruff, MS (*Drexel University*). Adjunct Instructor. Owner/Principal, Viola Interior Design, LLC. Residential interior design.

William Mangold, NCIDQ, MPhil (*City University Graduate Center, NY*) *Associate Director MS Interior Architecture & Design*. Assistant Teaching Professor. Research on theories of space and place.

Diana S. Nicholas, RA, AIA, NCARB, MFA (*University of the Arts, Philadelphia*) *Director of MS Design Research*. Assistant Professor. Coordinator, Sustainability in the Built Environment

Karen Pelzer, NCIDQ, BS Interior Design (*Drexel University*). Assistant Teaching Professor. President, Karen Pelzer Interiors; hospitality design.

Debra Ruben, MS, IDEC, LEED AP, NCIDQ, MS (*Drexel University*) *Director of BS and MS Interiors Programs*. Associate Professor. Research on user participation and the design process.

Eric Rymshaw, RA, BArch (*Drexel University*). Adjunct Instructor. Vice President and Design Principal of Fury Design, Philadelphia.

Elena Sabinson, MS (*Drexel University*). Assistant Teaching Professor. Technology and visualization methods.

Frances Temple-West, RA, AIA, MArch (*Virginia Tech*). Adjunct Instructor.

Ada Tremonte, NCIDQ, BS (*Drexel University*) *Associate Director, BS Interior Design*. Associate Teaching Professor. President, ada Design Associates; corporate/commercial design.

Emeritus Faculty

Sylvia Clark, MArch (*University of Pennsylvania*). Professor Emeritus.

Marjorie Kriebel, BArch (*University of Pennsylvania*). Professor Emeritus.

Karin Kuenstler, MS (*Bank Street College of Education and Parsons*). Professor Emeritus.

Marilynne L. Rose, NCIDQ, MS (*Drexel University*). Professor Emeritus.

Minor in Digital Media

About the Program

The Digital Media Minor requires the completion of eight courses (minimum 24.0 credits). The minor provides basic foundations in digital media, including; 3D animation, game art, and interactivity with the opportunity for individualized tailoring according to the student's interests.

The Digital Media Minor is open to all University students.

Program Requirements

Required Courses:

DIGM 100	Digital Design Tools	3.0
DIGM 105	Overview of Digital Media	3.0
ANIM 140	Computer Graphics Imagery I	3.0
GMAP 260	Overview of Computer Gaming	3.0
IDM 100	Introduction to Web Development	3.0
Select any three courses in ANIM, DIGM, GMAP or WBDV		9.0
Total Credits		24.0

Minor in Fine Arts

The Fine Arts minor enables students to develop skills and concepts in the studio arts. Students in studio courses learn to combine skills in using tools and materials, visual theoretical concepts, and new technologies, all of which are necessary for design professionals.

To be eligible for the minor in Fine Arts, a student must have completed a minimum of 30.0 undergraduate credits, have a declared major, and have a minimum GPA of 2.7. The academic credit requirements for the minor must be completed at or before the time of graduation.

Basic design prerequisite courses are required for most Art & Art History courses and some of these may already have been taken for a student's major. However, only 9.0 credits of major-related coursework can be applied to the credits required for the minor in fine arts. Students with design credits from other schools or departments may be allowed to apply them to their prerequisite requirements only upon review by the fine art minor faculty advisor.

Required Courses

VSST 101	Design I	4.0
or VSST 108 Design I for Media		
VSST 110	Introductory Drawing	3.0
Select a minimum of an additional 17.0 credits from the following:		17.0
PHTO 110	Photography	
PHTO 210	Intermediate Photography	
PHTO 233	Large Format Photography	
PHTO 253	Fine Black & White Printing	
VSST 102	Design II	
VSST 103	Design III	
VSST 111	Figure Drawing I	
VSST 109	Design II for Media	
VSST 112	Figure Drawing II	
VSST 201	Multimedia: Performance	
VSST 202	Multimedia: Space	
VSST 203	Multimedia: Materials	
VSST 301	Painting I	
VSST 302	Painting II	

VSST 303	Painting III	
VSST 304	Materials Exploration	
VSST 310	Sculpture: Metal Fabrication	
VSST 311	Sculpture I	
VSST 312	Sculpture II	
VSST 313	Sculpture III	
VSST 321	Screenprint I	
VSST 322	Printmaking I	
VSST 323	Printmaking II	
VSST 324	Advanced Printmaking	
VSST 325	Screenprint II	
VSST I399	Independent Study in Visual Studies	
VSST T480	Special Topics in Visual Studies	
Total Credits		24.0

Minor in Interdisciplinary Smart Initiatives

The Interdisciplinary Smart Initiatives Minor provides students across the University an experience of both breadth and depth through multi-disciplinary practices and learning. Students will develop skills and knowledge in the topics associated with problem solving, innovative technology, leadership and immersive participatory experiences. Skills and knowledge will be delivered through collaborative teaching and coursework, skill building, experimentation, experiential learning, and engaging research initiatives.

This minor provides the opportunities to engage in a variety of University venues and initiatives that places students on the leading edge of their chosen paths. The Interdisciplinary Smart Initiatives Minor is intended to build on experiential learning that is the foundation of a Drexel education.

Admission Requirements

The Interdisciplinary Smart Initiatives Minor is open to all University students that meet the criteria for acceptance. Because of the nature of the minor, success is dependent upon students showing self-discipline, being highly motivated and self-reliant. All applications for the minor will be submitted to the director of the minor.

Please contact Dr. Ulrike Altenmüller-Lewis at ua27@drexel.edu with questions concerning the INSI Minor.

The following are the requirements that students must meet to be considered:

- **Required Essay:** Student statement of interest and desired goals
- **Required Recommendation:** Two letters of recommendation from faculty that speaks to the student's ability to be collegial and collaborative, exhibit initiative and resourcefulness and ability to work independently.

Program Requirements

Required Courses

WEST 210	Innovative Problem Solving	4.0
WEST 220	Multimodal Research	4.0
WEST 310	Active Learning and Exploration	4.0
WEST 320	Active Engagement Projects	4.0
Electives		9.0

Choose 9 credits from the following subject areas:

Antoinette Westphal College of Media Arts & Design	
INTR 310	Sustainability: History, Theory and Critic

PROD 215	Design Thinking in Product Design	
College of Engineering		
CAEE 202	Introduction to Civil, Architectural & Environmental Engineering	
CIVE 240 [WI]	Engineering Economic Analysis	
College of Computing & Informatics		
INFO 101	Introduction to Computing and Security Technology	
INFO 105	Introduction to Informatics	
LeBow College of Business		
BUSN 103	Advanced First Year Business Seminar	
MGMT 260	Introduction to Entrepreneurship	
MGMT 364	Technology Management	
MIS 200	Management Information Systems	
College of Arts and Sciences		
BIO 264	Ethnobotany	
COM 111	Principles of Communication	
COM 220	Qualitative Research Methods	
COM 317 [WI]	Environmental Communication	
ENVS 260	Environmental Science and Society	
PSY 352	Psychology of Sustainability	
SOC 341	Environmental Movements in America	
School of Biomedical Engineering, Science and Health Systems		
BMES 130	Problem Solving in Biomedical Engineering	
Total Credits		25.0

* Other courses may be substituted with the approval of the minor director.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Minor in Jazz and African-American Music

The minor in jazz and African-American music takes advantage of Drexel faculty expertise in those areas. This minor can include course work in jazz history, African-American music, jazz theory, private study in jazz performance, and ensemble work in several ensembles devoted to jazz.

MUSC 121	Music Theory I	3.0
MUSC 125	Ear Training I	1.0
MUSC 126	Ear Training II	1.0

MUSC 196	Jazz Class Piano	2.0
MUSC 241	Private Lesson (3 terms)	6.0
MUSC 300	Improvisation	3.0
MUSC 331	World Musics	3.0
MUSC 333	Afro-American Music USA	3.0
MUSC 336	History of Jazz	3.0
Ensembles*		
Total Credits		25.0

* 6 terms of MUSC 107 and/or MUSC 108, MUSC 112, MUSC 115

Minor in Music

The minor in music requires 26.0 credits, including work in music theory, history, applied music (class or private lessons), and ensemble performance, and 6.0 credits of music electives.

MUSC 121	Music Theory I	3.0
MUSC 125	Ear Training I	1.0
MUSC 126	Ear Training II	1.0
MUSC 331	World Musics	3.0
MUSC 231	Music History I	3.0
MUSC 232	Music History II	3.0
MUSC 241	Private Lesson (Students take 3 terms)	6.0
Music electives		6.0
Ensembles (Six terms from MUSC 101 to MUSC 118)		0.0
Total Credits		26.0

Minor in Music Performance

The minor in music performance requires two years of private lessons study with our artist faculty, culminating in a recital. The Music Program will provide support for the recital venue and accompanist. Students must audition and be approved to pursue this minor.

Required Courses

MUSC 121	Music Theory I	3.0
MUSC 125	Ear Training I	1.0
MUSC 126	Ear Training II	1.0
MUSC 241	Private Lesson (5 terms)	10.0
MUSC 231	Music History I	3.0
MUSC 232	Music History II	3.0
MUSC 331	World Musics	3.0
MUSC 342	Applied Music-Recital	2.0
Ensembles (six terms from MUSC 101 to MUSC 118))		0.0
Total Credits		26.0

Minor in Performing Arts

Designed for the student who wishes to explore the fields of dance, music and theater rather than specialize in one area, the minor in performing arts provides motivated students the opportunity to learn about all three areas while performing for two years in one or more of the department's performing groups.

Required Courses

DANC 210	Introduction to Dance	3.0
MUSC 130	Introduction to Music	3.0
Applied music (two terms selected from MUSC 241/242)		4.0
THTR 115	Theatrical Experience	3.0
Theatre Elective		3.0
Dance Elective		3.0

Performing Arts Electives	7.0
Performing Arts Practicum *	0.0
Total Credits	26.0

* Performing arts practicum (6 terms from MUSC 101 - MUSC 115, THTR 130 , and/or DANC 131 - DANC 133).

Minor in Retail

The retail minor, administered by the Design & Merchandising Program, provides basic foundations in retail operations, buying and merchandise planning and e-commerce. The curriculum allows the opportunity for individualized tailoring according to a student's interests. The minor is open to all Drexel University students, and requires the completion of eight or nine courses for a minimum of 24.0 credits.

Required Courses:

DSMR 231	Retail Operations *	3.0
DSMR 232	Merchandise Planning and Buying *	4.0
DSMR 233 [WI]	Retail Image Analysis	3.0
DSMR 324	Retail Intersections: Social & Cultural Issues	3.0
DSMR 325	Advanced Merchandise Planning and Buying	4.0
Select 2-3 courses:		7.0
DSMR 205	Digital Promotion Strategies	
DSMR I299	Independent Study in Design & Merchandising	
DSMR 305	Digital Commerce	
DSMR 313	International Fashion Merchandising	
DSMR 326	Fashion Product Promotion	
DSMR 397	Retail Practicum	
Total Credits		24.0

* All courses are currently open to all DSMR students. DSMR 231 and DSMR 232 are required for all students enrolled in DSMR and the retail minor. The three elective courses can be delivered during other quarters as required. All courses will be restricted to appropriately include the students enrolled in the retail minor. As the industry and curriculum change, courses will be added and adapted accordingly.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Minor in Somatics

About the Minor

An understanding of movement and body language has become increasingly important across many fields; in communication, corporate training, movement therapy, education, performance, rehabilitation, sport and fitness. Physical health, clear communication and effective leadership all rely on an awareness of how we carry our bodies through our lives.

The Somatics Minor provides an in-depth study of the body, building from an understanding of its functional/structural basis, to its patterns and habits. We focus on how to interpret, analyze, and articulate somatic concepts and develop strategies for application.

Admission requirements

Admission on consultation with Somatics Coordinator:

Jennifer Morley
jsm76@drexel.edu
215.895.2018

Program Requirements

Minor Requirements

DANC 120	Yoga	3.0
DANC 180	Dance Improvisation	2.0
DANC 261	Foundations of Somatic Theory and Practice	3.0
DANC 262	Dance and Fitness	3.0
DANC 263	Survey of Somatic Practices	3.0
DANC 330	Introduction to Laban Movement Analysis	3.0
DANC 360	Dance Kinesiology	3.0
Complete two of the following courses:		4.0-5.0
DANC 140	Ballet Technique I	
DANC 141	Ballet Technique II	
DANC 142	Ballet Dance Technique III	
DANC 150	Modern Dance Technique I	
DANC 151	Modern Dance Technique II	
DANC 152	Modern Dance Technique III	
DANC 160	Jazz Dance Technique I	
DANC 161	Jazz Dance Technique II	
DANC 162	Jazz Dance Technique III	
DANC 170	Hip-Hop Dance Technique I	
DANC 171	Hip-Hop Dance Technique II	
DANC 181	Dance Improvisation II	
DANC 190	African Dance Technique I	
DANC 191	African Dance Technique II	
DANC 260	Injury Prevention for Dance	

Total Credits

24.0-25.0

Minor in Sports Media Production

About the Minor

The Sports Media Production Minor is a gateway for students committed to pursuing a career and a meaningful introduction for those who are intrigued but uncertain about sports media as a profession. Students are required to take the same foundational shooting & lighting, editing, sound, and studio operations courses as the TV Production and Media Management and Film and Video majors and minors. They are also required to take a TVIE sports media strategy course as well as SMT digital and sports media history courses that will provide a greater academic and contextual understanding of the profession. With additional

courses in actual physical production, on-air performance, and technology courses.

Program Requirements

FMVD 110	Basic Shooting and Lighting	3.0
FMVD 115	Basic Editing	3.0
FMVD 120	Basic Sound	3.0
SMT 110	The Business of Sport	3.0
SMT 290	Digital Media in Sport	3.0
TVIE 250	TV Sports Program Strategies	3.0
TVPR 100	TV Studio: Basic Operations	3.0
TVPR 356	DNews	3.0
or TVPR 357	DNews II	
Choose one of the following		3.0
TVPR 200	TV Studio: Live Directing	
TVPR 242	TV On-Camera Performance	
TVPR T280	Special Topics in TV Production	
TVPR T380	Special Topics in TV Production	
TVPR T480	Special Topics in TV Production	
SMT T280	Special topics in SMT	
SMT T380	Special topics in SMT	
SMT T480	Special topics in SMT	
Total Credits		27.0

Minor in Sustainability in the Built Environment

The intent of this minor is to prepare students to engage and analyze future design challenges from a sustainability perspective. Students completing this program will be able to approach these challenges in a resourceful and insightful way, with a solid foundation of sustainability principles. The emphasis on collaboration and trans-disciplinary teamwork will allow students to serve as agile leaders in their future careers and be active participants in the critical discourse of their field.

In addition to the 15.0 credits of core courses, students select 9.0 credits of electives. The list below will be updated as new courses in sustainability become available. Students having a question about the inclusion of a course not currently listed as a possible elective should check with the coordinator for this minor.

Additional Information

For additional information about this program, visit the College's Sustainability in the Built Environment web page. Or contact the program's advisor:

Diana Nicholas
 URBN Center, Suite 410
 Phone: 215.571.4432
 dsn35@drexel.edu

Required Courses

ARCH 315	Sustainable Built Environment I	3.0
ARCH 320	Sustainable Built Environment II	3.0
INTR 310	Sustainability: History, Theory and Critic	3.0
INTR 410	Collaborative Research in Sustainability	3.0
Arts and Sciences Course		3.0

Students must select one of the following courses from the Arts and Science College or an approved substitute with the permission of the advisor for this minor:

ANTH 360	Culture and the Environment
ENVS 260	Environmental Science and Society

PHIL 341	Environmental Philosophy	
SOC/ENVP 345	Sociology of the Environment	
Additional Electives *	9.0	
Students select three of the following (or alternative options with the permission of the advisor for this minor):		
ANTH 360	Culture and the Environment	
ARCH 348 [WI]	Studies in Vernacular Architecture	
ARCH 463	Emerging Architectural Technology	
ARCH 465	Energy and Architecture	
COM 317 [WI]	Environmental Communication	
INTR 465/ENVP 360	Special Topics in Interior Design	
ENVS 260	Environmental Science and Society	
PHIL 341	Environmental Philosophy	
SOC 341	Environmental Movements in America	
SOC/ENVP 345	Sociology of the Environment	
Total Credits		24.0

* The elective list will be updated as new courses in sustainability become available. If a student has questions regarding inclusion of a course not on this list, he or she should see the Advisor for the Sustainability in the Built Environment Minor Program.

Minor in Television Industry and Enterprise

About the Program

Students with a 3.0 or higher G.P.A. may apply for the TV Industry & Enterprise minor program. Once accepted, they take 21.0 credits of required courses that provide a basic foundation in the historical, financial, and programming elements of the television industry. The remaining 6.0 credits of study provide students the opportunity to have more hands-on production experience and/or to delve more deeply into the academic study of a specific area of interest.

Program Requirements

Required Courses

TVIE 180	TV Industry Overview	3.0
TVIE 280	Research, Sales and Programming	3.0
TVIE 285	Media Law and Ethics	3.0
TVIE 290	Introduction to Money and the Media	3.0
TVST 260	History of Television	3.0

One of the following courses: 3.0

TVST 261	History of TV Journalism
TVST 361	Art of TV Comedy
TVST 362	Art of TV Drama

Three of the following courses: 9.0

EAM 211	Strategic Management for Entertainment and Arts Management
EAM 365	Media and Entertainment Business
EAM 391 [WI]	Entertainment Promotion and Branding
FMVD 110	Basic Shooting and Lighting
FMVD 115	Basic Editing
FMVD 120	Basic Sound
SCRIP 270 [WI]	Screenwriting I
TVIE 365	Special Topics: TVIE
TVPR 100	TV Studio: Basic Operations
TVPR 200	TV Studio: Live Directing

TVPR 201	TV Studio: Comedy	
TVPR 202	TV Studio: Drama	
TVPR 205	TV Studio: Advanced Live Directing	
TVPR 240	Producing for Television	
Total Credits		27.0

Minor in Theatre

About the Program

The minor in theatre consists of two distinct, yet closely integrated components: academics and performance. The intertwining of foundation studies and practical application empowers students to discover and develop their own voice and style in their art.

Program Requirements

Required Course

THTR 121 [WI]	Dramatic Analysis	3.0
Theatre History Requirement		
Select 6.0 credits from any combination of approved 3.0 credit Theatre courses listed below with Historical Perspectives (these include 3.0 credit special topics courses with a historical theater perspective as well)		6.0
THTR 221 [WI]	Theatre History I	
THTR 222 [WI]	Theatre History II	
THTR 231	Introduction to Musical Theatre	
THTR 232	Contemporary Musical Theatre	
Select 3.0 credits total from any combination of the following 1.0 credit courses:		3.0
THTR 130	Introduction to Theater Production Practicum	
THTR 131	Theatre Performance Practicum	
THTR 132	Theatre Production Practicum	
THTR 133	Theatre Management Practicum	
THTR 134	Open Mic Management Practicum	
THTR 141	Theatre Performance Ensemble	
THTR 142	Director's Lab Practicum	
THTR 143	Musical Theatre Cabaret	
THTR 144	NewWorks Festival Performance Practicum	
Select 12.0 credits from the following:		12.0
THTR 110	Voice and Articulation	
THTR 115	Theatrical Experience	
THTR 116	Philadelphia Theatre Let's Go!	
THTR 131	Theatre Performance Practicum	
THTR 132	Theatre Production Practicum	
THTR 209	Improvisation for the Theatre	
THTR 210	Acting: Fundamentals	
THTR 211	Acting: Scene Study	
THTR 212	Sketch Comedy	
THTR 231	Introduction to Musical Theatre	
THTR 232	Contemporary Musical Theatre	
THTR 240	Theatre Production I	
THTR 241	Theatre Production II	
THTR 260	Production Design	
THTR 320	Play Direction	
THTR 360	Lighting Design	
THTR I199	Independent Study in THTR	
THTR I299	Independent Study in THTR	
THTR I399	Independent Study in THTR	
THTR I499	Independent Study in THTR	
THTR T180	Special Topics in Theatre	
THTR T280	Special Topics in Theatre	
THTR T380	Special Topics in Theatre	

THTR T480	Special Topics in Theatre	
Total Credits		24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Minor in TV Production & Media Management

About the Program

Students with a 3.0 or higher G.P.A. may apply for the TV Production & Media Management minor program. Once accepted, they take 21.0 credits of required courses that provide a basic foundation in the technical, historical, and creative elements of television production. The remaining 6.0 credits of study provide students the opportunity to have more hands-on production experience and/or to delve more deeply into the academic study of a specific area of interest.

Program Requirements

Required Courses		
FMVD 110	Basic Shooting and Lighting	3.0
FMVD 115	Basic Editing	3.0
FMVD 120	Basic Sound	3.0
SCRIP 270 [WI]	Screenwriting I	3.0
TVPR 100	TV Studio: Basic Operations	3.0
TVPR 212	TV Commercials and Promos	3.0
TVST 260	History of Television	3.0
Two of the following courses:		6.0
SCRIP 241	Writing TV Comedy	
SCRIP 242	Writing TV Drama	
TVPR 200	TV Studio: Live Directing	
TVPR 201	TV Studio: Comedy	
TVPR 202	TV Studio: Drama

Music Industry

Major: Music Industry

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 187.0 - 188.0

Co-op Options: Two Co-ops (Four years)

Classification of Instructional Programs (CIP) code: 50.1003

Standard Occupational Classification (SOC) code: 27-2041

About the Program

The degree in music industry offers the highly motivated student a program of study that combines education in music, music industry practices, and music technology with career preparation. Two concentrations are offered—Music Industry Business and Recording Arts (MIBU) and Music Production (RAMP)—providing hands-on experience and a strong academic foundation in relevant areas of this rapidly changing industry. The music industry curriculum is divided into four areas which are combined with cooperative experience: general education, music core, music industry core, and concentration requirements.

In an industry where the process of career building often begins with a few key contacts, the cooperative education program provides Drexel students the opportunity to meet industry professionals and network. The program prepares students for careers in the music industry in such diverse positions as recording engineer, music producer, sound designer, music lawyer, business manager or music publisher. The co-op experience during the sophomore and junior year summer terms involves

full-time career-related employment, during which students gain valuable insight into how the entertainment industry works.

About the Concentrations

The major offers two concentrations: Music Industry Business and Recording Arts (MIBU) and Music Production (RAMP):

- The **Music Industry Business (MIBU)** concentration provides a rigorous academic foundation complemented by a real-world hands-on, highly-intensive business experience. This mission is realized through the students' participation in the MAD Dragon Music Group, a group of student-run enterprises including: MAD Dragon Records, MAD Dragon Live, MAD Dragon Publishing, and MAD Dragon Marketing.
- The **Recording Arts and Music Production (RAMP)** concentration focuses on the techniques and technologies of music and audio production. As well as providing the technology-oriented student with the necessary skills to perform as an audio engineer or record producer, the concentration teaches students a full range of industry functions including post-production audio, live sound engineering, and music and audio freelancing skills. The concentration encourages the technology student to interact with the students in the business concentration by recording, mixing and mastering the music for MAD Dragon Music Group projects, and engaging in live performance production.

All Music Industry students qualify to apply for a minor in business administration after completing their music industry core requirements. This emphasis on business courses as part of the core requirements is one of the foundations of the program.

Special Admissions Considerations

Students wishing to be admitted to the music industry major must meet or exceed the general requirements for admission to the University and the College of Media Arts and Design.

The program no longer accepts hard-copy portfolios. However, when applying to the Music Industry program, applicants are encouraged to use the portfolio portal provided on the Admissions Instructions webpage to upload electronic examples of pertinent activities (music and/or business and entrepreneurial), as well as a resume of music industry related experience.

In their major-specific essays, applicants should address their reasons for selecting the music industry major at Drexel and share their passion for this unique area of study.

For more information about this major, visit the College's Music Industry (<http://www.drexel.edu/westphal/academics/undergraduate/MIP>) page.

Degree Requirements

All students take the same general education, music industry core and business courses. Students choose their concentration at the time of admission; however it is possible to switch as late as the beginning of junior year.

Concentrations:

- Music Industry: Business (MIBU) Concentration
- Music Industry: Recording Arts & Music Production (RAMP) Concentration

Students are also able to take courses in any other concentration as long as they fulfill the prerequisite requirement(s) and there is room in the class to accommodate the student.

Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
COM 230	Techniques of Speaking	3.0
MATH 101	Introduction to Analysis I	4.0
or MATH 121	Calculus I	
MATH 102	Introduction to Analysis II	4.0
or MATH 122	Calculus II	
CIVC 101	Introduction to Civic Engagement	1.0
UNIV A101	The Drexel Experience	1.0
Required Arts and Humanities-students elect a minimum of 9 credits		9.0
Required Natural Science-students elect a minimum of 3 credits *		3.0
Required Social Science-students elect a minimum of 9 credits		9.0
Music core requirements		15.0
Music Industry core requirements		63.0
Concentration requirements		33.0-34.0
Concentration electives		9.0
Free electives **		24.0
Total Credits		187.0-188.0

* PHYS 107 - Acoustics is recommended.

** MKTG 301, PHIL 301, PSY 101 and/or PSY 150 are recommended.

Music Core Requirements

MUSC 121	Music Theory I	3.0
or MUSC 122	Music Theory II	
MUSC 125	Ear Training I	1.0
MUSC 130	Introduction to Music	3.0
MUSC 190	Class Piano I	2.0
or MUSC 191	Class Guitar I	
MUSC 323	Songwriting	3.0
Music Elective (Select one)		3.0
MUSC 231	Music History I	
MUSC 232	Music History II	
MUSC 234	The Beatles	
MUSC 236	Rock Music Through the Mid-60s	
MUSC 238	Rock Music Since the Mid-60s	
MUSC 331	World Musics	
MUSC 333	Afro-American Music USA	
MUSC 336	History of Jazz	
MUSC 338	American Popular Music [W]	
MUSC T380	Special Topics in Music	
Total Credits		15.0

Music Industry Core Requirements

ACCT 110	Accounting for Professionals	4.0
BLAW 201	Business Law I	4.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
FIN 301	Introduction to Finance	4.0
MIP 132	Survey of the Recording Industry	3.0
MIP 133	Digital Audio Workstations I	3.0

MIP 161	Copyrights in the Music Industry	3.0
MIP 179	Introduction to Sound Recording	2.0
MIP 227	Listening Techniques	1.0
MIP 270	Live Music Industry	3.0
MIP 293 [W]	Survey of Music Production	3.0
MIP 361	Music Publishing	3.0
MIP 374	Entrepreneurship in the Music Industry	3.0
MIP 375 [W]	Marketing and Promo in Music Industry	3.0
MIP 491	Senior Project in Music Industry *	9.0
STAT 201	Introduction to Business Statistics	4.0
WEST 100	Introduction to Digital Design Tools	3.0
Total Credits		63.0

* Repeated over three terms.

Music Industry: Business Concentration Requirements

MIP 276	Sound Recording for Business Concentration *	3.0
MIP 336	Contracts and Legal Issues in the Music Industry	3.0
MIP 376	MAD Dragon Music Group (Taken three terms)	9.0
MIP 394	Big Data In The Music Industry	3.0
MIP 395	Digital Revenue & Creative Destruction	3.0
MIP 396	Global Recording Business	3.0
MIP 426	Global Trends in the Music Industry	3.0
MIP 467	Artist Representation	3.0
MIP 468	Music Industry E-Commerce	3.0
Select Three of the following Business Concentration Electives		9.0

MIP 170	Radio Management	
MIP 263	Media Promotion	
MIP 318	Music Merchandising	
MIP 331	Music Venues and Concerts	
MIP 341	Touring and Booking	
MIP 365	Cities of Music and Culture	
MIP 366	Music Supervision	
Total Credits		42.0

* MUSI Business Concentration Students who would like to continue taking more advanced recording studio and music production courses should take MIP 279 Sound Recording I instead of MIP 276 Sound Recording for Business Concentration.

Music Industry: Recording Arts & Music Production (RAMP) Concentration Requirements

MIP 233	Digital Audio Workstations II	3.0
MIP 279	Sound Recording I	3.0
MIP 333	Digital Audio Workstations III	3.0
MIP 338	Audio Seminar	2.0
MIP 379	Sound Recording II	3.0
MIP 381	Audio for Video	3.0
MIP 388	Music and Audio Freelancing	2.0
MIP 389	Sound Reinforcement	3.0
MIP 477	Music Production	3.0
MIP 481	Mixing and Mastering	3.0
MUSC 122	Music Theory II	3.0
MUSC 229	Modern Arranging Techniques	3.0
Select Three of the following RAMP Concentration electives:		9.0

MIP 358	Electronic Music Production	
MIP 382	Scoring to Picture	
MIP 384	Synthesis and Sampling	
MIP 386	Commercial Music Production	
MIP 387	Studio Maintenance	
MIP 390	Video Game Music and Audio	
MIP 391	Analog Recording	

MIP 392	Music Production Master Class
MIP 433	Digital Audio Workstations IV
Total Credits	
43.0

About the Accelerated Degree Program

The BS in Music Industry/MBA program offers students a program that combines an undergraduate degree in music business and technology with an MBA degree awarded by the Drexel LeBow College of Business. The program is designed to allow students to complete both the bachelor's degree and the Master of Business Administration degree in five years.

The program is offered to qualified students who apply for this option prior to the end of freshmen year or prior to the completion of 90 credits. All students who apply for this option must take the GMAT entrance exam.

Students selected for this program will generally have a minimum of 1350 on the SAT, a GPA of 3.5 or better, and rank in the top 10% of their high school graduating class. A strong candidate for this program will have taken significant AP coursework while in high school.

BS/MBA students may be waived from two MBA Enterprise Management courses, assuming a grade of B or better is earned in specified undergraduate courses. Students can review the Waiver Policies for the Statement of Curriculum Standing on the LeBow College's website for additional information.

The above conditions hold only for fully accepted BS/MBA students as identified by Enrollment Management.

Additional requirements for the dual degree program:

- A minimum of 3.2 cumulative GPA must be maintained throughout the entire undergraduate portion of this program or the student will not be able continue on to the MBA.
- Students must take the GMAT examination and achieve a minimum score of 570 prior to the end of the tenth term in order to continue in the program. It is recommended that students take the GMAT examination late in the student's third year.

- Students must submit an acceptable plan of study at least three terms before anticipated start of graduate part of the program.

Sample Plans of Study

Music Industry: Recording Arts & Music Production Concentration

Term 1		Credits
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MIP 132	Survey of the Recording Industry	3.0
MIP 179	Introduction to Sound Recording	2.0
MIP 227	Listening Techniques	1.0

Term 10		
MIP 396	Global Recording Business	3.0
MIP 491	Senior Project in Music Industry	3.0
Arts and Humanities elective		3.0
MUSC	elective	3.0
Free elective		3.0
Term Credits		15.0
Term 11		
MIP 491	Senior Project in Music Industry	3.0

MIP Business Concentration elective	3.0
Social science elective	3.0
Free electives	6.0
Term Credits	15.0
Term 12	
MIP 491 Senior Project in Music Industry	3.0
MIP Business Concentration elective	3.0
Arts and Humanities elective	3.0
Free electives	3.0
Term Credits	12.0

Total Credit: 187.0

* See degree requirements (p. 188).

** MUSI Business Concentration Students who would like to continue taking more advanced recording studio and music production courses should take MIP 279 Sound Recording I instead of MIP 276 Sound Recording for Business Concentration. Take MIP 279 in Terms 4 or 5 by swapping an elective in Term 3.

Music Industry Faculty

James L. Klein, BA (*Oberlin College*). Associate Professor. Music technologist, sound and recording engineer, songwriter for film, TV and radio music.

Marc Offenback, BA (*CUNY*). Assistant Teaching Professor. Recognized leader and innovator in label management, digital and traditional marketing and artist development.

Ryan Schwabe, BA (*Drexel University*). Assistant Teaching Professor. Musician, producer, sound engineer, programmer and upright bass player. Owner of RareMP3s LLC and guest lecturer at Curtis Institute of Music.

John Seay, BMus (*James Madison University*). Associate Professor. Sound and recording engineer, music technologist, music producer and studio technician.

Cyrille Taillandier Associate Teaching Professor. Recording engineer, music producer and digital editor.

Darren Walters, BA (*University of Delaware*). Associate Teaching Professor. General Manager of Mad Dragon Records and co-owner and President of Jade Tree, an independent record label.

Robert Weitzner, MBA (*Harvard Business School*). Assistant Professor. Has over 20 years of industry experience at the nexus of music, digital media, and technology. Founding Director of the American Association of Independent Music (A2IM) and currently the Head of North America for Consolidated Independent (CI) a London based digital supply chain and asset management solutions provider for the global independent music industry.

Music Theory and Composition

About the Minor

The minor in music theory and composition is aimed at people who are writing their own music or who would like to begin doing so. Students will take courses in music theory, arranging, composition, and digital composition, and end with a portfolio of several completed pieces.

Requirements

MUSC 121	Music Theory I	3.0
MUSC 122	Music Theory II	3.0

MUSC 229	Modern Arranging Techniques	3.0
MUSC 125	Ear Training I	1.0
MUSC 249	Digital Music Composition	3.0
MUSC 231	Music History I	3.0
MUSC 232	Music History II	3.0
MUSC 252	Music Composition	3.0
MUSC 331	World Musics	3.0
MUSC 241	Private Lesson (*)	2.0
Ensembles (**)		
Total Credits		27.0

* Students are strongly encouraged to register for the section designated for composition.

** Ensembles (6 terms from MUSC 101 to MUSC 118)

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Photography

Major: Photography

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 50.0605

Standard Occupational Classification (SOC) code: 27-4021

About the Program

The Drexel University Photography program teaches students how to develop a unique photographic vision using a combination of aesthetics and technology. Using both applied and theoretical teaching methods and blending traditional processes with current digital technologies, the photography curriculum provides aspiring photographers with the breadth of experience and knowledge required to succeed in today's marketplace.

The photography foundation courses are the same for each student until their third year, at which point they design a custom path of study that culminates in their senior thesis portfolio. Our alumni's achievements reflect the diversity built into our program. They own successful photography studios, teach in high school and college programs, serve

as curators, work as magazine photo editors and operate their own digital illustration firms.

The College's extensive photographic facilities (<http://www.drexel.edu/westphal/undergraduate/PHTO/Facilities>) are available to every photography major at Drexel.

Additional Information

For more information about this major, visit the College's Photography (<http://www.drexel.edu/westphal/undergraduate/PHTO>) website.

Degree Requirements

General education requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 119	Mathematical Foundations for Design	4.0
PHYS 121	Physical Science for Design I	4.0
COOP 101	Career Management and Professional Development	0.0
UNIV A101	The Drexel Experience	2.0
Required Arts and Humanities-students elect a minimum of 9 credits		9.0
Required Natural Science-students elect a minimum of 3 credits		3.0-4.0
Required Social Science-students elect a minimum of 9 credits		9.0
Free electives		27.0

Visual Studies requirements

ARTH 101	History of Art I: Ancient to Medieval	3.0
ARTH 102	History of Art II: Renaissance to Romanticism	3.0
ARTH 103	History of Art III: Modern Art	3.0
VSST 101	Design I	4.0
VSST 102	Design II	4.0
VSST 110	Introductory Drawing	3.0
VSST 111	Figure Drawing I	3.0

Visual Studies electives

Students select three additional visual studies (VSST) courses as electives.

Photography requirements

PHTO 110	Photography	3.0
PHTO 140	Digital Photography I	4.0
PHTO 210	Intermediate Photography	3.0
PHTO 231	Color Photography	4.0
PHTO 233	Large Format Photography	4.0
PHTO 234	Studio Photography	4.0
PHTO 236	Photojournalism	4.0
PHTO 240	Digital Photography II	4.0
PHTO 253	Fine Black & White Printing	3.0
PHTO 275 [WI]	History of Photography I	3.0
PHTO 276	History of Photography II	3.0
PHTO 334	Advanced Studio Photography	4.0
PHTO 340	Digital Photography III	4.0
PHTO 361	Advanced Photography	4.0
PHTO 392	Junior Project in Photography	3.0
PHTO 451	Photography and Business	3.0
PHTO 452 [WI]	History of Contemporary Photography	3.0
PHTO 492	Senior Thesis in Photography I	3.0
PHTO 493	Senior Thesis in Photography II	3.0
PHTO 495	Senior Thesis in Photography III	3.0

Photography electives

Students select three courses from the following:

PHTO 335	Portraiture	
PHTO 453	Photography Production	
PHTO 455	Landscape Photography	

PHTO 456	Fashion Photography	
PHTO 457	Palladium Printing	
PHTO 458	Advertising Portfolio Development	
PHTO 459	Marketing for Photographers	
Total Credits		181.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. Co-op/Career Opportunities

Photographers pursue careers in a wide variety of fields. Primary choices among Drexel graduates include journalism, illustration, fashion and advertising, and fine arts.

Recent co-op placements have included:

- Micheal Creagh, New York City
- The Edywnn Houk Gallery, New York City
- Jonathan Pushnik, Advertising Photographer, Philadelphia, PA
- Philadelphia Magazine, Philadelphia, PA
- Jason Varney, Editorial Photographer, Philadelphia
- Saturday Night Live, New York City

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Minor in Photography

About the Minor

The minor in photography gives students a thorough understanding of photographic practices using a combination of aesthetics and technology. This flexible minor has been developed to accommodate both Antoinette Westphal College of Media Arts and Design majors as well as majors from any other college. It is an excellent choice for students who are majoring in marketing, communications and journalism. Many employers in these fields are now routinely request that candidates have a good working knowledge of Photoshop and photographic practices.

Program Requirements

PHTO 110	Photography	3.0
PHTO 140	Digital Photography I	4.0
PHTO 210	Intermediate Photography	3.0
PHTO 231	Color Photography	4.0
PHTO 240	Digital Photography II	4.0
PHTO 234	Studio Photography	4.0
PHTO 236	Photojournalism	4.0
Additional Suggested Electives (Optional)		
PHTO 275 [WI]	History of Photography I	3.0
PHTO 276	History of Photography II	3.0
PHTO 451	Photography and Business	3.0
PHTO 452 [WI]	History of Contemporary Photography	3.0
Total Credits		26.0

Photography Faculty

Cali Capodici, BA (*Montclair State University*). Adjunct Instructor. Advertising portfolio development; photography production and photography & business.

Joanne Carrick, M.Ed (*Tyler School of Art, Temple University*). Adjunct Instructor. Photography and intermediate photography

Julia Cybularz, MFA (*The School of Visual Arts*). Adjunct Instructor. Photography; color photography, junior project in photography, advanced DSLR.

Trevor Dixon, BFA (*University of the Arts*). Adjunct Instructor. Advanced studio photography.

Michael Froio, BS (*Drexel University*). Adjunct Instructor. Photography; intermediate photography and fine black and white printing.

Niko Kallianiotis, MFA (*School of Visual Arts*). Adjunct Instructor. Photography; intermediate photography and photojournalism.

George McCardle, BS (*Drexel University*). Adjunct Instructor. Digital Photography III

Andrea Modica, MFA (*Yale University*). Professor. Photography; portraiture, photojournalism, palladium printing, and thesis.

Benjamin Riley, BS (*Drexel University*). Adjunct Instructor. Photography; intermediate photography and studio photography.

Stuart Rome, MFA (*Arizona State University*). Professor. Photography; color photography, junior project, and thesis.

Diana Rossi, M.Ed (*Arcadia University*). Adjunct Instructor. Photography and intermediate photography.

Paul Runyon, BFA (*The University of New Mexico*) Program Director, *Photography*. Associate Professor. Studio photography, view-camera photography, studio lighting, business aspects of photography.

Ashley Smith, MFA (*School of Visual Arts*). Adjunct Instructor. Photography

Amanda Tinker, MFA (*Temple University*). Assistant Teaching Professor. Photography, history of photography, historical and alternative processes, and intermediate photography.

Jason Varney, BS (*Drexel University*). Adjunct Instructor. Studio photography

L. Kylie Wright, BA (*University of Virginia*). Assistant Teaching Professor. Photography; digital photography, and master printing.

Product Design

Major: Product Design

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 187.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 50.0404

Standard Occupational Classification (SOC) code: 27-1021

About the Program

Product design combines the fields of art, business, and engineering to design the products people use every day. The program in product design focuses creativity and intellect, and prepares students for careers in a range of product design fields including corporate product design, design consulting, entrepreneurial endeavors, sustainable product development, and global design initiatives.

The major in product design is centered on teaching students the skills to develop and design products for a vast array of industries, specializing in multidisciplinary design research focused on product development and commercialization. It will also encourage collaboration in green design, sustainability and innovation in product development, facilitating and combining the fields of art, business, engineering and technology.

Students have the opportunity to create products ranging from furniture and toys to medical devices and consumer electronics in design competitions and *charrettes*. Students learn in state-of-the-art facilities that include a modeling shop and studio, laser cutters, 3D printers, rapid prototypers and molding clays and tools. The modeling shop and studio

are large design-centered spaces, built to promote and sustain the studio culture students will enter upon graduation.

Students enrolled in the product design major will be expected to pursue a minor outside of product design that will allow them to apply their design capabilities toward a specific area of expertise.

For more information about this major, visit the College's Product Design (<http://www.drexel.edu/westphal/academics/undergraduate/PROD>) page.

Degree Requirements

In addition to the following requirements for graduation, students enrolled in the Product Design major will be expected to pursue a minor outside of product design that will allow them to apply their design capabilities toward a specific area of expertise.

General education requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0

Co-op/Career Opportunities

Product designers have careers in a wide range of industries including consumer electronics, housewares, furniture, fashion accessories, medical devices, toys, automotive and transportation. The work of product designers improves the usefulness and appearance of countless products that contribute to the quality of our work and personal lives.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Minor in Product Design

About the Minor

Students in this minor—through a combination of three studio courses and four applied lecture courses—learn to combine skills in creative problem solving with a visual product design process. Students develop product concepts and collaborate on the development of product ideas, including the creation and integration of new technologies, sustainability, health-care and socially responsible design, all of which are beneficial for design professionals.

The minor is specifically created to offer students a unique multi-disciplinary studio experience. Students will develop skills in the rapid visualization of ideas, creative problem solving, transformative design thinking and an understanding of the product development process in a collaborative setting. This minor is offered to all students having an interest in developing product ideas, including students from the College of Engineering, the LeBow College of Business, and the School of Biomedical Engineering as well as College of Media Arts and Design students who would like to add a product focus to their design degree.

Academic requirements

To be eligible for the minor in product design, a student must have completed a minimum of 30.0 undergraduate credits, have declared a major, and have a minimum GPA of 2.7. No prerequisite courses are required. Students may be encouraged to augment or prepare for this minor. Only upon review by the faculty advisor for the minor will students with design credits from other institutions or departments be allowed to apply these to the requirements.

Program Requirements

Required courses		
PROD 101	History and Analysis of Product Design	3.0
PROD 205	Applied Making I	3.0

Screenwriting

Minor in Screenwriting

The minor in screenwriting is intended to guide students from the acquisition of foundational screenwriting skills through the completion of a full-length script for film or television. Fifteen of the credits are directly craft-oriented, teaching students what they need to know to translate their ideas into a format suitable for production; the other nine credits are dedicated to background knowledge intended to inform creative thinking and develop a student's individual voice.

Film & video majors should note that they will be taking half of the courses in the screenwriting minor as part of their degree requirements, making this minor a relatively simple addition to their education.

Required courses

FMST 101	Film History I: Emergence	3.0
FMST 102	Film History II: New Waves	3.0
SCRIP 270 [WI]	Screenwriting I	3.0
SCRIP 275 [WI]	Screenwriting II	3.0
SCRIP 310	Literature for Screenwriters	3.0
SCRIP 370	Screenplay Story Development	3.0
SCRIP 380	Screenwriting Workshop I	3.0
SCRIP 381	Screenwriting Workshop II	3.0
Total Credits		24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the

attribute "WI" to bring up a list of all writing-intensive courses available that term.

Screenwriting and Playwriting

Major: Screenwriting and Playwriting

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 50.0504

Standard Occupational Classification (SOC) code: 27-3043

About the Program

The Westphal College Screenwriting & Playwriting program guides students in their pursuit of a career writing for the stage or screen. The program emphasizes the principles of dramatic writing through a practical hands-on approach to instruction in small classes. Our graduates take away the skills, experience, and confidence to gain an edge in a rewarding and competitive field.

Students first acquire the essential skills of dramatic story telling, then apply those abilities to the creation of scripts that conform to professional standards. Drexel's pioneering co-op affords hands-on experience in the field, working alongside professional artists. Drexel marks the beginning of the life-long process of developing a writer's eye that sees the world from a different angle and allows writers to tell their own uniquely compelling stories.

The Screenwriting & Playwriting Program also offers a Minor in Screenwriting (p. 197).

For more information about this major, visit the College's Screenwriting & Playwriting (<http://www.drexel.edu/westphal/academics/undergraduate/SCRIP>) page, or contact the Program Director:

Matthew J. Kaufhold (<http://drexel.edu/westphal/about/directory/KaufholdMatthew>)

Co-op/Career Opportunities

Dramatic writing is writing for production — work intended for performance on the stage or screen. These days, “screen” can mean movie, TV, or

computer, and the work can be anything from full stage plays to 15-second commercials to video game scripts. As the entertainment industry changes, so do the outlets for our students and graduates.

Co-op Experiences

By working for film and television production companies, theater organizations, entertainment management companies, magazines, advertising and public relations firms, and other professional writers, Screenwriting & Playwriting students gain valuable insights into how the entertainment industry works. In an industry where the process of building a career often begins with a few key contacts, the co-op program gives Drexel students the chance to begin shaping their own professional networks.

Screenwriting and Playwriting students secured Co-op or post-graduation positions with:

- IM Global
- Disney Video Animation
- Marvel Comics
- Lionsgate Films
- Skyles Games
- Arden Theater Company
- Campbell's Soup
- Marvel Studios
- SyFy Network
- Nickelodeon
- Dynamite Entertainment
- prominent Hollywood talent managers
- The Playwright's Center
- Valiant Entertainment
- Sciencefiction.com
- Major League Baseball Productions
- Panels.net
- Voice of America
- Fantagraphics
- the production office of "Star Trek: Enterprise"

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Screenwriting and Playwriting Faculty

Ian N. Abrams, BA (*Duke University*). Associate Professor. Screenwriting, movies, film, Hollywood.

Bruce Graham, BA (*Indiana University of Pennsylvania*). Associate Teaching Professor. Playwright.

Matthew Kaufhold, MA (*University of North Carolina*) Program Director, Screenwriting and Playwriting. Associate Teaching Professor. Screenwriter, Producer.

Thomas Quinn, MFA (*Temple University*) Program Director, Film & Video. Assistant Professor. Writer, Director, filmmaker.

Andrew Susskind, BA (Harvard University) Program Director of TV Production & Media Management. Associate Teaching Professor. Producing for Television, The Sitcom, Directing Single and Multi-Camera

TV Production & Media Management

Major: TV Production and Media Management

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 186.0

Co-op Options: One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 10.0202

Standard Occupational Classification (SOC) code: 27-2012

About the Program

The TV Production and Media Management program educates students to conceive, produce, and market entertainment through current and evolving television platforms. The program addresses the creative aspects, the craft, and the business of producing fictional and nonfictional content, and prepares students to work in all distribution formats.

The TV Production and Media Management program combines the resources of DUTV, Drexel's fully-equipped, high-definition television station, with a comprehensive academic program to provide students with foundational experiences in the development, writing, production, editing, programming, multi-platform distribution, management, and promotion of television and internet content.

The major offers a course of study of 186.0 credits distributed over courses focused on development, production and post-production, business, and history. Students are taught by and work with a faculty of notable industry professionals whose experience, passion, and contacts help prepare them to enter and navigate the competitive world of television.

The major is designed as a four year, co-op program. For more information about this major, visit the College's TV Production and Media Management (<http://www.drexel.edu/westphal/academics/undergraduate/TELE>) page.

Degree Requirements

All TV Production & Media Management majors take the same core courses for the first five terms (through the winter term of their sophomore year). These core courses encompass production fundamentals, digital media fundamentals, an introduction to television industry and enterprise, and beginning screenwriting. Finally, there is an introductory TV studio course, TV field course, and television studies course. The core requirements build a foundation for further advanced and specialized courses, taught in the student's area of concentration.

By the spring term their sophomore year, students select one of the following concentrations:

- **TV Comedy & Drama:** Students who choose this track gain an education in fictional programming. They will further hone their production skills in lighting and editing; they will be introduced to acting so they can better understand directing actors.
- **TV Industry & Enterprise:** Students choosing this track gain an education in the business of television, completing three courses in

the LeBow College of Business: business law, entrepreneurship, and marketing. They learn about the financial aspects of television and are introduced to managing the IT area as it relates to television.

- **TV News & Non-Fiction Production:** Students who choose this track gain an education in documentary, news and nonfiction programming. They will hone their production skills in lighting and editing; they will learn how to direct TV studio programs and remote programs using multiple cameras.

Degree Requirements

Written Analysis and Communication Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0

Co-op/Career Opportunities

As the fourth largest television market and home of Comcast, one of the most rapidly expanding cable companies in the United States, Philadelphia is a major national television center. The TV Production & Media Management program takes advantage of this in numerous ways, including adjunct faculty, guest speakers, scholarship possibilities, internships, co-op experiences, and joint ventures. The major interacts with the Paul F. Harron TV Studios, which houses DUTV (<http://dutv.drexel.edu/television/Main.html>)'s fully HD studio, where students produce projects as part of their course work.

TV majors have done internships and Co-ops in New York, Philadelphia, and Los Angeles, working for production companies, talent and casting agencies, and television stations.

Drexel also offers a graduate level program in Television Management, and some students in the undergraduate major may wish to apply to the graduate program.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Television Facilities

DUTV, an educational access channel operated by Drexel University, provides a laboratory for students majoring in Television. The Paul F. Harron TV Studios houses DUTV and its fully-HD shooting studio, providing students with work space as well as hands-on technical and management experience that is so essential to the program. Film and video facilities include a shooting studio with a green screen, large and small screening rooms, a fully equipped television studio; digital editing facilities; specially outfitted multimedia rooms for all courses; digital video camcorders; 16mm film cameras, and lighting and audio equipment.

TV Production & Media Management Faculty

Andrew Altrichter, MBA (*Drexel University*) Program Manager, *Drexel University's television station (DUTV)*. Adjunct Instructor. Videography, editing, production.

Jackie Borock, LLB (*Widener University*). Adjunct Instructor. Media law, intellectual property, first amendment

David Culver, AS (*Graham Junior College*) Manager of the *Paul F. Harron Studios/DUTV*. Associate Teaching Professor. Film, Video, Station Management, Emerging Media Technology

Karen Curry, BA (*Fordham University*) Executive Director, *Kal and Lucille Rudman Institute for Entertainment Industry Studies*. Adjunct Instructor. Global media, news production and management.

Yvonne D. Leach, MFA (*Temple University*). Associate Professor. Television studies.

Joe Marsini, BS, CPA (*University of Delaware*). Adjunct Instructor. Media finance, strategic planning, financial reporting, contract negotiations, collective bargaining agreements.

Philip W. Salas, BS (*Temple University*). Assistant Teaching Professor. Utilization of advanced set top box data to measure fragmented viewing behavior. Impact of new television distribution technologies on traditional broadcasters and multichannel program providers.

Andrew Susskind, BA (*Harvard University*) Program Director of *TV Production & Media Management*. Associate Teaching Professor. Producing for Television, The Sitcom, Directing Single and Multi-Camera

Albert S. Tedesco, MA (*University of Pennsylvania*) Director of the *Paul F. Harron Graduate Program in Television Management*. Teaching Professor. Media Management, Organizational Structure, Research Methods, Media Ethics, Media Law, The Regulatory Environment, Technology Assessment, Media Theory, Media Analytics

Martin (Marty) Zied, BA (*Penn State*). Adjunct Instructor. Speech Communications, Producer/Director Television and Film

Westphal Studies Program

Major: *Westphal Studies*

Degree Awarded: *Bachelor of Science (BS)*

Calendar Type: *Quarter*

Total Credit Hours: *180.0*

Classification of Instructional Programs (CIP) code: *50.0101*

Standard Occupational Classification (SOC) code: *27-1019*

About the Program

The Westphal Studies program provides an individualized course of study initiated by a student. The student must have completed two terms of the junior year in an Antoinette Westphal College of Media Arts and Design major to be eligible for admission into this major.

A small number of students in the Antoinette Westphal College of Media Arts and Design decide that their goals lie at the periphery of the major or the intersection between several majors and would be served by more latitude than offered in the highly specified courses in their major. For these students, the Westphal Studies program major broadens future career goals and allows exploration combined with a focused exposure to

a second field. It acknowledges the specialization that is characteristic of the majors in the College and the expectations of the professional fields for which our students are being prepared. Simultaneously, it recognizes the breadth and rapidly changing nature of many disciplines and permits a student who has acquired a basic working knowledge of a specific aspect of media arts and design to investigate a clearly defined alternative.

Admission to the program is limited to currently matriculated College of Media Arts and Design students who have completed the major-intensive sophomore year and experienced a co-op placement or completed their junior-year courses. The following items are required as part of the application:

- A student-generated, individualized plan of study, developed with and signed by a member of the Westphal Studies Program Advisors Committee
- A statement in writing of the student's goals in applying to the major and the rationale of how the proposed plan of study addresses those goals
- A definition of appropriate co-operative education placement if the student has not completed a six-month employment in the field of his or her major
- A letter from the student's current program director

Approval by the Westphal Studies Program Advisors Committee is required for admission to the major; it is not automatic upon request. The committee must be convinced by the validity of the applicant's reasons for applying, the proposed study plan, and accompanying documentation. Details about the application procedure may be obtained from the director of Westphal Studies Program.

Recommended Plan of Study

This program requires an individualized plan of study. Students sign off on this agreed-upon plan with the Director of the Studies of the Westphal Studies program. A student must have completed two terms of junior year in a College of Media Arts and Design major to be eligible for admission into this major.

The student, in consultation with her/his advisor and the director of the program, devises a personalized interdisciplinary study plan. The approved plan of study provides a rationale for the concentration and how the elective credits are to be used. This plan of study must be completed and approved before admission into the major.

Degree Requirements

General Education Requirements

General Education Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0

The Close School of Entrepreneurship

In today's extremely competitive global workforce, there is an increased value and demand for initiative, independence, innovation, and the intellectual dexterity to rethink of old ways of doing things and invent new ones. The Charles D. Close School has pioneered an approach to entrepreneurship education that addresses this need by teaching students to be entrepreneurial thinkers and doers, preparing them to meet the world market on solid footing and to create their own opportunities.

The Close School defines entrepreneurship as more than starting a company or sparking innovation within established organizations. At the Close School, entrepreneurship is a habit of mind and attitude; a skill set applicable to pursuing innovation in business, personal and career contexts; we assist students in cultivating an approach to life build around innovative thinking, calculated daring and proactive behavior.

Within our unique curriculum, students learn skills such as resilience, collaboration, negotiation and communication. The Close School's

academic programs prepare students to face the challenges of self-employment and new venture creation in an evolving 21st century workforce.

Majors

- Entrepreneurship and Innovation (BA) (p. 207)

Minors

- Energy Innovations (p. 209)
- Entrepreneurship and Innovation (p. 209)
- Health Innovations (p. 210)
- Social Entrepreneurship (p. 210)

Background

Charles D. Close was a groundbreaking entrepreneur who experienced success as founder, leader, and investor in a series of technology companies. He also was one of Drexel University's most distinguished alumni, graduating in 1936 with a degree in electrical engineering.

Mr. Close was the former Chairman of the Board of Expansion Seal Technologies Group, and former Chairman of the Board of CDS Analytical. Earlier in his career he was President of Continental Disc Corporation, Technical Investor at Kellet Corp, President and Chairman of Compudyne Corporation, and Founder and President of Fluid Controls Company. Over the years, he also published a number of technical articles on instrument controls and systems. Mr. Close was a Director at J.W. Microelectronics, Athena Controls, Kellet Corp., Chemical Data Systems, Instrument Society of America, and General Components. In addition, he was a trustee for the privately-held CDC Fund.

In addition to the Drexel 100, Mr. Close was also inducted into the Alumni Circle of Distinction for the College of Engineering. As a student, he was President of the Chess Club and a member of the American Institute of Electrical Engineers.

He and his late wife, Barbara, established a philanthropic legacy that included a sizable anonymous gift in 1999 to Drexel University that helped launch and build the Baiada Institute for Entrepreneurship (<http://www2.lebow.drexel.edu/Baiada>).

In March 2009, the Charles and Barbara Close Foundation gave Drexel \$1.5 million to establish the A.J. Drexel Autism Institute, and in December 2012, the foundation's gift of \$12.5 million established the Charles D. Close School of Entrepreneurship.

Mr. Close, whom friends knew as "Charley," enjoyed skiing, music, science, and was an avid golfer and member of the Cedarbrook Country Club in Blue Bell, PA. Charles D. Close passed away on September 6, 2009, at the age of 94. His legacy lives on in the generations of future entrepreneurs being educated in the Charles D. Close School of Entrepreneurship.

In 2014, the Charles D. Close School of Entrepreneurship became the first freestanding school of entrepreneurship in the nation to offer degrees.

Goals and Objectives

- Infuse entrepreneurship as a way to think, learn, and succeed across the University in terms of values, behaviors, and process, regardless of major.
- Provide a coordinated approach to entrepreneurship education throughout Drexel University.
- Complement and enhance undergraduate and graduate education outcomes for all Drexel University students by developing entrepreneurial thinking within the curriculum and opportunities for entrepreneurial practice.
- Provide students with different paths to engage, learn, and live entrepreneurship, depending on their personal level of interest and career ambitions, having exposed all to introductory concepts and approaches.
- Integrate academic and campus life activities as they relate to entrepreneurship providing multiple paths that align with student aspirations.
- Encourage and create a supportive academic and physical environment to allow the pursuit of student and faculty passions, and big ideas.

School Offerings

The Close School of Entrepreneurship offers students various paths to becoming an "entrepreneur." The School is based on the premise that all students have the potential to be innovative: to take their ideas, in whatever context, and make their ideas a reality. The curricular and co-curricular programs are formulated to accommodate students' potential paths to learning and living entrepreneurship.

The School's curricular initiatives emphasize interdisciplinary coursework in collaboration with other academic units. The School offers a BA in Entrepreneurship and Innovation, minors in Energy Innovations, Entrepreneurship and Innovation, Health Innovations, and Social Entrepreneurship. In addition, elective courses with minimal or no prerequisites are available to all Drexel students to integrate entrepreneurial education with all other academic disciplines at the University. The School collaborates with the Office of Research and Technology Commercialization in developing programs and activities focused on academic entrepreneurship. Through the appointment of joint interdisciplinary faculty, a core of clinical faculty (serial entrepreneurs and seasoned executives) and tenured/tenure-track faculty, the Close School will cultivate a research agenda, providing thought leadership to academics and practitioners. Finally, the Close School of Entrepreneurship collaborates with regional and national organizations and the entrepreneurial community to advance innovation and entrepreneurial initiatives.

Entrepreneurship Living-Learning Community

The Close School of Entrepreneurship has created a community of young entrepreneurs at Drexel. Students of all backgrounds and interests, united by dreams of starting companies and pursuing their entrepreneurial passions, participate in a unique residential program supported by dedicated faculty and staff. This close-knit community of enterprising students lives together and enjoys targeted training, fun activities, and

field trips as well as experienced and connected mentors able to foster their innovative aspirations.

The Entrepreneurship Living-Learning Community hosts approximately twenty incoming freshmen annually and is comprised of students from different majors across the University. All full-time entering freshmen planning to live on campus with an interest in innovation and entrepreneurship are encouraged to apply regardless of undergraduate major. Students in this community all live on the same floor and wing of Myers Hall.

Entrepreneurship Co-Op

The co-op experience is the hallmark of a Drexel education. Drexel students intersperse one or three six-month periods of work within their academic plans of study. By weaving together scholarly and practical experiences, Drexel students graduate with a unique set of skills that open up a diverse array of professional opportunities upon graduation.

The Close School recognizes that many undergraduates have already started their own companies. To encourage this entrepreneurial spirit within our student body, the Close School, in collaboration with the Steinbright Career Development Center, offers to all Drexel undergraduate students the opportunity to use their own company as their co-op experience. Students who qualify for this opportunity receive a salary (\$15,000), like other co-op students who work for established companies and organizations. Most importantly, students participating in the entrepreneurship co-op receive weekly mentoring from Close School faculty.

Launch It!

During this ten-week capstone course, students work on the actual launching of a start-up and de-risking their business model. Students will talk to customers, partners, and competitors as they engage the iterative process of how a start-up actually works. Students learn how to use the business model canvas to brainstorm each part of a company. Each week will bring a new adventure outside of the classroom as students test each part of their business models, and then share their hard-earned knowledge with the rest of the class.

Entrepreneurship and Innovation

Major: Entrepreneurship and Innovation

Degree Awarded: Bachelor of Arts Degree (BA)

Calendar Type: Quarter

Total Credit Hours: 181.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.0701

Standard Occupational Classification (SOC) code: 11-1011; 11-1021; 11-9199

About the Program

The BA in Entrepreneurship and Innovation is designed to prepare students to think and act entrepreneurially, in the context of established companies, in working for small and growing ventures, in starting a new venture or self-employment, and in an overall general approach to their personal and professional lives. Within this innovative curriculum, students build entrepreneurial skills such as resilience, opportunity recognition, collaboration, negotiation and effective communication.

The program emphasizes interdisciplinary coursework in collaboration with other Drexel colleges and schools providing entrepreneurship students with the opportunity to take classes with future engineers, scientists, artists, and business leaders.

For additional information about the BA in Entrepreneurship and Innovation, please contact Jamuna Saha at js3599@drexel.edu.

Degree Requirements

Required Courses:

- **Entrepreneurial Mindset:** This is a suite of courses that addresses individual entrepreneurial skills such as resiliency, collaboration, innovative thinking and communication. These courses develop personal and interpersonal skills needed to be a successful “entrepreneur” in several contexts.
- **The Process of Entrepreneurship:** This set of required courses covers a broad range of topics that immerse students in the entire landscape of entrepreneurship.
- **A choice of three concentration areas:** Social Entrepreneurship, Energy Innovations, Health Innovations.
- **Electives:** Constitutes a group of courses from the Close School and across the University that reflect the themes of innovation and entrepreneurship.
- **Minors:** All entrepreneurship majors are required to select an academic minor which will provide domain expertise in their area of interest. Students may select from over 100 minors offered by the University.

Minor in Entrepreneurship and Innovation

The minor in entrepreneurship and innovation is designed for students who are interested in starting their own ventures, working for start-up companies, or pursuing jobs within established corporations. Students who minor in entrepreneurship and innovation will learn to adopt the entrepreneurial mindset that can be applied to their personal and professional lives.

For additional information about the entrepreneurship minor, please contact Jamuna Saha at js3599@drexel.edu.

Required Courses		
ACCT 110	Accounting for Professionals	4.0
ENTP 101	Life Strategies I	3.0
ENTP 325	Early Stage Venture Funding	3.0
ENTP 440	Launch It!: Early Stage	3.0
Select four of the following:		12.0
ENTP 205	Ready, Set, Fail	
ENTP 210 [WI]	Leading Start-Ups	
ENTP 215	Building Entrepreneurial Teams	
ENTP 250	Ideation	
ENTP 270	Social Entrepreneurship	
ENTP 350	Dynamics of the Family Firm	
Total Credits		25.0

Minor in Energy Innovations

About the Program

The Energy Innovations minor is designed for students interested in acquiring a broad understanding of industry dynamics in preparation for careers within the energy sector. Students will learn the economic, technological and global forces that are impacting the energy industry.

For additional information about the Energy Innovations minor, please contact Jamuna Saha at js3599@drexel.edu.

Program Requirements

Required Courses

ENTP 101	Life Strategies I	3.0
ENTP 205	Ready, Set, Fail	3.0
or ENTP 210	Leading Start-Ups	
ENTP 250	Ideation	3.0
ENTP 270	Social Entrepreneurship	3.0
ENTP 390	Energy Entrepreneurship	3.0
ENTP 440	Launch It!: Early Stage	3.0
ECEP 380	Introduction to Renewable Energy	3.0
MEM 462 [WI]	Introduction to Engineering Management	3.0
Total Credits		24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Additional Information

For additional information about the Energy Innovations minor, please contact Jamuna Saha at js3599@drexel.edu.

Minor in Health Innovations

The Health Innovations minor is designed for students interested in how entrepreneurs can leverage their understanding of advancements in biotechnologies and health care to benefit society. Students will learn the economic, technological and global forces that are impacting the health care industry.

ENTP 101	Life Strategies I	3.0
ENTP 205	Ready, Set, Fail	3.0
or ENTP 210	Leading Start-Ups	
ENTP 250	Ideation	3.0
ENTP 440	Launch It!: Early Stage	3.0
BIO 112	Biotechnology for Society	3.0
BMES 340	Health Care Administration	3.0
BMES 409	Entrepreneurship for BMES	3.0
Select one of the following courses:		3.0
PBHL 101	Public Health 101	

Health and Society Elective *	
Total Credits	24.0

* Any Health and Society (HLSO) course from HLSO 301 to HLSO 470. See the Course Descriptions (p. 756) page for more information on individual courses.

For additional information about the Health Innovations minor, please contact Jamuna Saha at js3599@drexel.edu.

Minor in Social Entrepreneurship

The Social Entrepreneurship minor is designed for students interested in learning how to create and sustain social value within companies or through the pursuit of a social venture. Students will learn to develop, fund and implement solutions to social, cultural, or environmental issues.

ENTP 101	Life Strategies I	3.0
ENTP 205	Ready, Set, Fail	3.0
or ENTP 210	Leading Start-Ups	
ENTP 250	Ideation	3.0
ENTP 270	Social Entrepreneurship	3.0
ENTP 275	Diversity Entrepreneurship	3.0
ENTP 440	Launch It!: Early Stage	3.0
Select two of the following:		6.0
ENTP 370	Global Entrepreneurship	
ENTP 390	Energy Entrepreneurship	
PBHL 101	Public Health 101	
Health and Society (HLSO) Courses *		

Total Credits	24.0
---------------	------

* Any Health and Society (HLSO) course from HLSO 301 to HLSO 470. See the Course Descriptions (p. 756) page for more information on individual courses.

For additional information about the Social Entrepreneurship minor, please contact Jamuna Saha at js3599@drexel.edu.

The College of Arts and Sciences

About the College

Mission Statement

By pursuing excellence in research and scholarship, we educate our students to become ethical professionals and citizens with knowledge of and appreciation for the fundamental interactions among the humanities, social sciences and the sciences in a fast-changing, challenging, and diverse world.

About the College of Arts and Sciences

Drexel University's College of Arts and Sciences (<http://www.drexel.edu/coas>) (CoAS) stands unafraid in the face of change. We recognize that our ever-evolving, fast-paced culture required a new approach to education, one that understands the world is malleable and can be molded by minds inspired to lead society's evolution.

But innovation requires more than an ambitious personality. It requires versatility -- we must not only be experts in our field, but also agile enough to engage in the cross-disciplinary work needed to address modern problems resourcefully. That's why our faculty challenge students to see past their own perspectives and establish a deeper understanding of humanity's needs. It's why our co-op program inserts students within

a professional culture, introducing them to the expectations of the job while offering hands-on practical application of coursework. And it's why, starting as early as early as freshman year, students team with faculty members as peers, conducting research that affects the world now.

Here at CoAS, we are committed to implementing in-the-moment change, not for personal glory, but because it's what the world needs.

Majors

- Anthropology (BA) (p. 222)
- Biological Sciences (BS) (p. 226)
- Chemistry (BA, BS) (p. 240)
- **NEW:** Chemistry-Biochemistry Concentration (BS)
- Communication (BA, BS) (p. 250)
- Criminology and Justice Studies (BS) (p. 263)
- English (BA) (p. 269)
- Environmental Science (BS) (p. 277)
- Environmental Studies (BS) (p. 281)
- Environmental Studies and Sustainability (BA) (p. 283)
- Geoscience (BS) (p. 286)
- Global Studies (BA) (p. 290)
- History (BA) (p. 298)
- Mathematics (BA, BS) (p. 308)
- Philosophy (BA) (p. 321)
- Physics (BS) (p. 326)
- Political Science (BA) (p. 331)
- Psychology (BS) (p. 335)
- Sociology (BA) (p. 339)

Accelerated Degrees

- Chemistry (BS) / Chemistry (MS) (p. 247)
- English (BA) / Publishing (MA) (p. 272)
- History (BA) / Library and Information Science (MSLIS) (p. 302)
- History (BA) / Science, Technology & Society (MS) (p. 302)
- Philosophy (BA) / Public Policy (MS) (p. 213)
- Philosophy (BA) / Science, Technology & Society (MS) (p. 216)
- Political Science (BA) / Science, Technology & Society (MS) (p. 332)
- Sociology (BA) / Science, Technology & Society (MS) (p. 219)

Certificates

- **NEW:** Ethical Theory and Practice
- **NEW:** Interfaith and Religious Studies
- Medical Humanities (p. 237)
- Philosophy, Arts, & Humanities (p. 325)
- Philosophy, Science and Technology (p. 326)
- Writing and Publishing (p. 238)

NEW: Intermediate Proficiency Certificates

- Arabic (p. 305)
- Chinese (p. 306)
- French (p. 306)
- German (p. 306)
- Hebrew (p. 306)

- Italian (p. 307)
- Japanese (p. 307)
- Korean (p. 307)
- Spanish (p. 307)

Minors

- Africana Studies (p. 314)
- Anthropology (p. 224)
- Arabic (p. 314)
- Astrophysics (p. 328)
- Bioinformatics (p. 315)
- Biological Sciences (p. 235)
- Biophysics (p. 329)
- Bioscience and Society (p. 315)
- Chemistry (p. 248)
- Chinese (p. 315)
- Communication (p. 259)
- Computer Crime (p. 316)
- Criminal Justice (p. 263)
- Ecology (p. 316)
- English (p. 272)
- Environmental Studies (p. 283)
- French (p. 316)
- Geoscience (p. 288)
- German (p. 316)
- Global Studies (p. 296)
- History (p. 305)
- Human Factors and Ergonomics (p. 316)
- **NEW:** Italian Studies
- Japanese (p. 317)
- Judaic Studies (p. 342)
- Korean (p. 317)
- Mathematics (p. 312)
- Neuroscience (p. 318)
- Nonprofit Communication (p. 318)
- Philosophy (p. 324)
- Physics (p. 328)
- Politics (p. 318)
- Psychology (p. 337)
- Science, Technology and Society (p. 318)
- Sociology (p. 341)
- Spanish (p. 319)
- Women's and Gender Studies (p. 319)
- Writing (p. 320)

Special Programs

Emerging Scholars Program

This two-year program is designed for students interested in the humanities and social sciences who want to experience the range of opportunities in these disciplines before choosing a major. The program provides mentorship, specialized seminars, and co-curricular events, as well as a co-op position in the community to guide students toward

defining their scholarly and career interests. The Emerging Scholars Program does not grant a degree, but helps guide students in choosing a major that's right for them.

Learn more on the College of Arts and Sciences (<http://drexel.edu/coas/academics/undergraduate-programs/emerging-scholars-program>) website.

Pre-professional Programs

Students wishing to prepare for admission to professional schools of medicine, veterinary medicine, dentistry, or public health may obtain pre-professional counseling and application assistance at the Steinbright Career Development Center. (<http://drexel.edu/scdc>) For health profession application assistance, students may call 215.895.2437. For law school admission assistance, students may call 215.895.1632

Accelerated Programs

The College of Arts and Sciences offers several accelerated degree programs that enable academically qualified students to earn both a bachelor's and an advanced degree concurrently, graduating sooner than they would in traditional programs. Depending on the academic program, eligible students can be admitted to an accelerated degree program in one of two ways: as an incoming freshman or after completing a minimum of 90.0 credits but no more than 120.0 credits. Note: In addition to the options listed below, student can apply to combine degree programs into an accelerated BS/MS program. Talk to your academic advisor to learn more.

More details about Accelerated Programs can be found on the Undergraduate Admissions (<http://drexel.edu/coas/admissions/overview>) website.

DragonsTeach

DragonsTeach is a collaboration between the College of Engineering, the College of Arts and Sciences, and the School of Education designed to allow students in science, technology, engineering, and math (STEM) degree programs to explore a career in education. Through a unique combination of skills development and classroom experiences, DragonsTeach students can earn a minor in STEM Education and eligibility for teaching credentials while completing their major degree program and co-ops. Learn more on the DragonsTeach website (<http://drexel.edu/dragonsteach>).

Eligible Majors:

- BS in Biology
- BS or BA in Chemistry
- BS in Environmental Science
- BS or BA in Mathematics
- BS in Physics

Secondary and Elementary Teacher Certification

The School of Education offers innovative curricula that combines academic majors with appropriate coursework to satisfy state requirements for certification in elementary education. Students interested in the teacher education programs should contact the School of Education (<http://drexel.edu/soe>).

The Drexel Writing Center

The Drexel Writing Center (DWC) is dedicated to helping students, faculty, and staff, at all levels of experience and across all disciplines, in their development as writers.

- The DWC works with writers at all stages in the writing process, from brainstorming ideas to polishing final drafts.
- The DWC focus is on individual, one-on-one sessions that feature a conversational, collaborative relationship between the reader and the writer they work with.
- Interaction with the DWC will help writers develop not just writing but critical thinking and reading skills.
- While DWC readers do not perform copy-editing services, they will help students learn strategies for proofreading and editing their documents.

The DWC is located at 0032 MacAlister Hall and can be reached at 215.895.6633. Further information can be found at the Drexel Writing Center (<http://drexel.edu/writingcenter>) website.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

English Language Center

As part of the College of Arts and Sciences, Drexel's English Language Center (<http://www.drexel.edu/elc>) offers an accredited intensive English program throughout the year. In addition to classes in academic skills such as essay writing and oral presentations, the Center offers the Language of STEM (Science Technology Engineering and Math), Language of Media and Design, Global Business English program (GLOBE), English for academic purposes, TOEFL and IELTS preparation, ESL Teaching enhancement programs, and other subjects.

Through the International Gateway program, the English Language Center offers academic language preparation for students who have an admissible high school academic background but need further English language proficiency. This pathway program combines academic English language courses, credit courses taught by CoAS faculty, and acculturation activities. Students admitted into the University Preparation program (UPREP) begin their studies at Drexel in the English Language

Center in a short, pre-term program designed to prepare international students for the academic work and culture of the American university.

Accepted undergraduate students have access to free language tutoring and other academic skills workshops throughout the academic year.

For more information, see the ELC website or contact the Center at:

English Language Center
229 N. 33rd Street
Philadelphia, PA 19104

Phone: 215-895-2022

Fax: 215-895-6775

E-mail: elc@drexel.edu

The Drexel Co-op

No summers of coffee runs or mindless filing here! Drexel students embark on six-month periods of full-time employment in practical, discipline-specific positions consistent with their interests and abilities. Depending on their chosen program, students have the opportunity to participate in up to three different co-op positions - that's 18 months of real work experience - during their time at Drexel, allowing them to explore their career options, strengthen their resumes and build a professional network in the process. While co-op opportunities can be both paid and unpaid, students who participate in the co-op program typically receive higher starting salaries post-graduation than graduates of other schools.

The number of co-op experiences required for graduation is determined by the student's chosen course of study. The following options exist for most majors:

- **Three Co-op Option** (Five Years)
- **One Co-op Option** (Four Years)
- **No Co-op Option** (Four Years) *Though this program is available, we strongly encourage students to take advantage of the co-op program, a key benefit of a Drexel education.*

Learn more on the Steinbright Career Development Center (<http://drexel.edu/scdc>) website.

Global Opportunities

Global Opportunities Abound

Philadelphia may be the heart of Drexel's campus, but the world is our muse. There are numerous opportunities for Drexel Dragons to go abroad.

Study Abroad

Study abroad allows students a unique academic experience to learn about subjects from an international perspective, often with local students and professors. From Costa Rica to Barcelona, Milan to Turkey, Brazil to Israel, our students have studied all over the world.

Research Abroad

Research extends far beyond the walls of any laboratory. Our students have studied sea turtles in Costa Rica, infectious diseases in Uganda and data from the Double Chooz experiment in France. Many of our faculty members are also involved in international research collaborations and our students have the opportunity to make an impact alongside them.

Co-Op Abroad

Co-op abroad provides students with a unique professional perspective and exposure to an international work environment. Our students have worked at Coca Cola in India, the UN Development Programme in Africa, the Italian Parliament in Rome, and the Heraklion Community Mental Health Center in Greece - just to name a few.

An international co-op gives students a distinct advantage in the global economy, making them more attractive to prospective employers. Candidates with international experience also have the ability to earn higher starting salaries upon graduation.

Visit the Steinbright Career Development Center (<http://drexel.edu/scdc>) website to learn more.

Travel Courses

The College of Arts and Sciences' travel-integrated courses allow students to travel domestically or internationally for one or two weeks at the end of a course to extend their studies beyond the classroom. Recent classes have traveled to France to learn about WWI and Brazil to study commodities exchange. Talk to your academic advisor to learn more.

Alternative Spring Break

The Alternative Spring Break (ASB) program places teams of Drexel students in communities to engage in community service and experiential learning during spring break. Students may choose to work domestically or internationally in activities that benefit the environment, the community and those in need.

Community-Based Learning

In the College of Arts and Sciences' unique Community-Based-Learning (CBL) courses, students don't just study the issues affecting the world, they study alongside the people affected - from prison inmates to hospice patients. CBL courses are offered in three formats:

- Side by side
- Community Hybrid
- Service Learning

Side-by-side courses create a co-learning environment in which Drexel students and the community members take classes together.

Community hybrid courses are composed entirely of Drexel students are split between the classroom and the community.

Service-learning courses require service in the community in addition to students' credit hours in the classroom.

For a current list of available courses, visit the Lindy Center for Civic Engagement (<http://drexel.edu/lindycenter>).

Accelerated BA in Philosophy and MS in Public Policy

Major: Philosophy and Public Policy

Degrees Awarded: Bachelor of Arts (BA) and Master of Science (MS)

Calendar Type: Quarter

Total Credit Hours: 225.0

Co-op Options: Three Co-op (Five years)

Classification of Instructional Programs (CIP) code: 44.0501

Standard Occupational Classification (SOC) code: 19-3094

About the Program

Accelerated-degree programs provides the opportunity to earn both a BA degree and an MS degree (two diplomas are awarded) in the time normally required to finish a bachelor's degree alone.

No undergraduate major prepares students for success in as wide a range of research areas and careers as philosophy. Drexel's Philosophy program is uniquely devoted to the idea that theory without practice is empty and practice without theory is blind. This makes our BA an especially valuable foundation for research and careers in Public Policy.

Admission Requirements

Students who meet the standard eligibility requirement for accelerated programs should consult with their advisor and work on an individual plan of study to submit with the Change of Curriculum form.

Degree Requirements

College of Arts and Sciences Requirements - PHIL-BA

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0

Virtual Reality & Immersive Media Faculty

Paul Diefenbach, PhD (*University of Pennsylvania*). Assistant Professor. Game development, real-time rendering.

Jeremy Fernsler, BA (*Pennsylvania State University*) Program Director, *Game Design & Production*. Assistant Teaching Professor. Digital effects artist; compositor and animator for the feature film visual effects industry.

Nick Jushchyshyn, MFA (*Academy of Art University*) Program Director, *Animation and Visual Effects, VR/Immersive Media*. Associate Professor. Visual effects, digital media and animation.

Frank J. Lee, PhD (*Carnegie Mellon University*). Professor. Human-computer interaction; cognitive engineering and science; intelligent software agents for games and education.

Robert Lloyd, MFA (*Tyler School of Art, Temple University*) Program Director, *Game Design & Production*. Assistant Teaching Professor. Game development, themed entertainment and motion simulation.

David Mauriello, BA (*Lafayette College*). Assistant Professor. 3D modeling and animation.

Glen Muschio, PhD (*Temple University*). Associate Professor. Digital media, society, communication.

Stefan Rank, PhD (*Vienna University of Technology*). Assistant Professor. Artificial intelligence, game design and human-computer interaction.

Jervis Thompson, BS (*Drexel University*). Associate Teaching Professor. Digital media, interactive multimedia.

Michael Wagner, PhD (*Vienna University of Technology*) Department Head, *Digital Media*. Professor. Production management, educational use of video games.

Jichen Zhu, PhD (*Georgia Institute of Technology*). Associate Professor. Developing humanistic and interpretive framework of computational technology, particularly artificial intelligence (AI), and constructing AI-

based cultural artifacts; interactive storytelling, games and software studies.

Accelerated BA in Philosophy and MS in Science, Technology & Society

Major: Philosophy and Science, Technology & Society

Degrees Awarded: Bachelor of Arts (BA) and Master of Science (MS)

Calendar Type: Quarter

Total Credit Hours: 225.0

Classification of Instructional Programs (CIP) code: 30.1501

Standard Occupational Classification (SOC) code: 11-9121

About the Program

The accelerated-degree program provides an opportunity to simultaneously earn both a BA degree and an MS degree (two diplomas are awarded) in the time normally required to finish a bachelor's degree alone. By combining graduate-level study with their undergraduate program, motivated students graduate with an MS and BA in just five years. Students can complete the degree solely through coursework or combine coursework with a master's project or a master's thesis. The flexibility offered by the STS curriculum, the opportunity to work closely alongside research-active faculty, and the training offered in multiple theoretical and research methodologies opens the door to a wide range of career opportunities.

Students in the accelerated program have the opportunity to craft their own original research project with guidance from some of the most interesting and dynamic faculty scholars in their fields. The STS Lab course is a unique feature of the curriculum--it prepares students to work as a team to address meaningful science and technology related topics. Working with a faculty adviser, graduate students develop an individualized plan of study that allows them to pursue their interests in depth.

Admission Requirements

Depending on the academic program, eligible students can be admitted to an accelerated degree program in one of two ways: as an incoming freshman or after completing a minimum of 90 credits but no more than 120 credits.

To learn more about eligibility and enrollment requirements, visit the Undergraduate Admissions (<http://drexel.edu/undergrad/academics/accelerated-degrees>) web page.

Accelerated BA in Sociology and MS in Science, Technology & Society

Major: *Sociology and Science, Technology & Society*

Degrees Awarded: *Bachelor of Arts (BA) and Master of Science (MS)*

Calendar Type: *Quarter*

Total Credit Hours: *225.0*

Co-op Options: *Three Co-op (Five years)*

Classification of Instructional Programs (CIP) code: *31.1501*

Standard Occupational Classification (SOC) code: *11-9121*

About the Program

The accelerated-degree program provides an opportunity to simultaneously earn both a BA degree and an MS degree (two diplomas are awarded) in the time normally required to finish a bachelor's degree alone. The accelerated program provides students with a strong training in sociology and in the interdisciplinary field of Science, Technology and Society (STS).

The sociology major at Drexel University has three components: theory, methods, substantive coursework and features specialized coursework relating to social justice issues.

Sociology is the systematic study of societies. Society is the sum total of individual and group interaction and relations, from small groups and families to global networks and complex social organizations. The discipline covers a wide variety of fields of inquiry. Sociologists examine structural relations—how human society is organized from small groups to large institutions—and is committed to developing a *critical understanding* of these relationships. Thus the sociology major stresses theory, research methods, quantitative and qualitative data analysis as applied to a wide variety of substantive areas including but not limited to social inequality, political power, gender, class, race, ethnicity, family, crime, technology and environmental change as well as a wide variety of social and political movements connected with social change. The stress on *critical understanding* means that sociology majors will strive not only to develop strong analytic abilities but an intellectual and ethical engagement reflected in sociologically informed thinking and action. The research and analytical skills developed in our program are sought after by a wide variety of professions.

Specialized social justice coursework is typically carried out in connection with community groups and organizations. It is a way the Sociology Program and Drexel University as a whole seeks to become practically engaged with the wider community while promoting social justice.

The Science, Technology, and Society (STS) program systemically investigates the social dimensions of science, technology and medicine. Faculty from a range of disciplines contribute to a curriculum that features a broad set of perspectives, all grounded in a foundation of critical thinking, research methods, and writing and presentation skills. The STS program emphasizes three interrelated areas: environment and sustainability; health and medicine; and information, identities and networks. The STS Lab course is a unique feature of the curriculum—it prepares students to work as a team to address meaningful science and technology related topics. Working with a faculty adviser, graduate students develop an individualized plan of study that allows them to pursue their interests in depth.

STS students are independent thinkers who are dedicated to understanding the intersections of society, science, medicine and technology. While STS students vary in their professional and educational backgrounds and career ambitions, they share a common commitment to a critical approach to our world's most pressing technoscientific challenges.

Prospective students for the MS in STS see this educational opportunity as a crucial factor in their skill development and career advancement. They are recent college graduates in the social sciences, humanities, natural sciences, and engineering; middle and high school teachers; and professionals in businesses, city and state government offices, and area hospitals. Students can attend full time or part time and complete all coursework in the evening.

Degree Requirements

General Requirements

Term Credits		15.0
Total Credit: 225.0		

Science, Technology and Society Faculty

Lloyd Ackert, PhD (*Johns Hopkins University*). Teaching Professor. History of science and technology; ecology; Russian science.

Peter Amato, PhD (*Fordham University*) *Director, Philosophy*. Teaching Professor. Ethics, Marxism, Continental philosophy

Jesse Ballenger, PhD (*Case Western Reserve University*). Associate Teaching Professor. Healthcare, medicine and ethics; aging and neurodegenerative diseases; Science and Technology Studies.

Merritt Brockman, DHA, FACHE (*Medical University of South Carolina*). Assistant Professor. Patient Centered Medical Home, Improvements in Health Care Delivery.

Robert J. Brulle, PhD (*George Washington University*). Professor. Environmental policy and politics, critical theory, marine risk, social movements, environmental sociology.

Chalmers Clark, PhD (*Graduate Center of the City University of New York*). Associate Professor. Wittgenstein (the contextual grounds of human language), Holism in the Naturalized Epistemology of WV Quine, Trust relations in the medical profession (physician-patient, biomedical research, and public health), the professions and public trusts.

Robert D'Ovidio, PhD (*Temple University*) *Associate Dean for Humanities and Social Science Research and Graduate Education*. Associate Professor. The intersection of computer technology, crime, and the criminal justice system; criminological theory; policing; transnational crime.

Mary Ebeling, PhD (*University of Surrey*) *Director, Women's and Gender Studies*. Associate Professor. Science and technology studies; emerging technologies and biocapital; media and democratic cultures; radical social movements; sociology of markets; political sociology; and ethnographic methodologies.

Christian Hunold, PhD (*University of Pittsburgh*). Associate Professor. Environmental policy; comparative politics; urban wildlife; political theory.

Krik Jalbert, PhD (*Rensselaer Polytechnic Institute*). Visiting Research Professor. Social studies of science and technology, citizen science, environmental justice, information transparency, knowledge infrastructures, energy policy

Kelly Joyce, PhD (*Boston College*) *Director, Master's Program in Science Technology & Society*. Professor. Science, medicine and technology; aging and technology; qualitative social science methods; healthcare and medicine.

Alison Kenner, PhD (*Rensselaer Polytechnic Institute*). Assistant Professor. Science, technology, and health; environmental health problems; cities and place; feminist theory; medical anthropology; digital humanities

Scott G. Knowles, PhD (*Johns Hopkins University*) *Interim Department Head, History*. Professor. Urban history, history of technology, history of disasters, modern history.

Brent Luvaas, PhD (*UCLA*). Associate Professor. DIY and independent media production; transnational consumer culture; popular music; new media and mediated subjectivities; youth culture in the US and Indonesia.

Jonson Miller, PhD (*Virginia Tech*). Associate Teaching Professor. Science and technology, American history, military history.

Kevin Mitchell, PhD, MBA (*Walden University*). Assistant Professor. Health disparities in vulnerable populations, strategic healthcare management, evidenced based medicine and clinical pharmacology and therapeutics.

Gwen Ottinger, PhD (*University of California, Berkeley*). Assistant Professor. Social studies of science and technology, environmental justice, science and engineering ethics, citizen science, environmental ethics.

Flavia Padovani, PhD (*University of Geneva*). Assistant Professor. Philosophy of science, epistemology, logic

Rosalind Remer, PhD (*University of California*) Vice Provost and Executive Director, *Lenfest Center for Cultural Partnerships*. History of the book, early American economic and business history, public history, museum planning, non-profit management.

Jody A. Roberts, PhD (*Virginia Polytechnic Institute and State University*) Director, *Center for Contemporary History and Policy, Chemical Heritage Foundation*. Assistant Professor. Intersections of emerging molecular sciences and public policy and the ways in which tensions brought about between the two get resolved.

John Rossi, VMD, MBE (*University of Pennsylvania*) Director, *M.S. in Public Health Ethics*. Assistant Professor. Public health ethics, research ethics, ethical theory, animal and environmental ethics, risk assessment and communication, public health history.

Tiago Saraiva, PhD (*Universidad Autónoma de Madrid*). Associate Professor. History of science and technology; transnational history; environmental history

Jonathan Seitz, PhD (*University of Wisconsin*) Assistant Department Head, *History*. Teaching Professor. History of religion, science, medicine, witchcraft, early modern Europe, Italy.

Nicholas Shapiro, PhD (*University of Oxford*). Visiting Research Professor. Everyday infrastructure; DIY scientific instrumentation; biopolitics; critical theory; multispecies ethnography.

Mimi Sheller, PhD (*New School for Social Research*) Director, *Center for Mobilities Research and Policy*. Professor. Sustainable mobility and mobility justice: new cultures and infrastructures of travel, transport, mobile communication, and urbanism; Caribbean Studies: history, culture and political theory of the region, including intersections of race, ethnicity, gender, sexuality and class.

Chloe Silverman, PhD (*University of Pennsylvania*). Associate Professor. Parent advocacy for autism, neurodiversity, and pollinator health research.

Amy Slaton, PhD (*University of Pennsylvania*). Professor. History of science and technology; history of standards and metrology; intersectionality, race, labor.

Andrew Smith, PhD (*SUNY, Stony Brook*). Assistant Professor. Social and political philosophy, ethics, American philosophy

Kathryn Steen, PhD (*University of Delaware*). Associate Professor. History of technology, history of industry and business, and comparative history.

Michael Yudell, MPH, PhD, MPhil (*Columbia University*) Chair, *Department of Community Health and Prevention*. Associate Professor. Public health genomics; bioethics; history of public health; addiction.

Anthropology

Major: Anthropology

Degree Awarded: Bachelor of Arts (BA)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 45.0201

Standard Occupational Classification (SOC) code: 19-3091

About the Program

Anthropology is the study of human beings — past and present. Students majoring in anthropology broaden their understanding of the ways of life on planet Earth through courses that explore the diversity of human cultures, courses that explore the range of theoretical ideas about culture and human organization, and specialized courses in field techniques and methodology.

The anthropology major is a small, highly specialized program. The program has emphases in digital and media anthropology, symbolic communication, and community organization. Students are provided with an exceptional background in theory, and methodology, and fieldwork that will open doors to various career paths or lead to graduate training.

Two options exist in the anthropology bachelor of arts degree program. The first option is a four-year program with a single six month co-op in the junior year. For the majority of anthropology majors, the co-op will provide a fieldwork experience for students. Students who select to undertake a co-op are guided by interaction with faculty both inside and outside the classroom. The second option is a four-year non-co-op option. The core of the major in this option is the seminar in ethnography which majors are required to take each fall term for a total of 12.0 credits.

Additional Information

Dr. Wesley Shumar
Anthropology Department Head
Room 117, PSA Bldg #47

WGST 320	Masculinities	
Electives		
Free Electives		42.0-38.0
Total Credits		181.0-182.0

:

* At least one foreign language course must be at the 200-level.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the

attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

Term	Credits
Term 1	
ANTH 101 Introduction to Cultural Diversity	3.0
ANTH 390 Seminar in Ethnography	2.0
ENGL 101 Composition and Rhetoric I: Inquiry and Exploratory Research	3.0

Free electives	12.0
Term Credits	15.0

Total Credit: 181.0-188.0

* See degree requirements (p. 222).

Co-op/Career Opportunities

C0-0p Opportunities

In order for majors to take the required seminar in ethnography, all anthropology co-ops are scheduled for the fall/winter cycle. Anthropology co-ops are student initiated and developed through discussions with faculty, rather than being selected from an existing list. Co-op ideas frequently emerge from discussions in the seminar in ethnography as students who have undertaken co-ops report on their experiences. Past co-ops have included: teaching English in Costa Rica; working on an archeological dig in the Yucatan; studying agricultural practices in Hawaii; working with an arts program in Oaxaca. In addition, several majors have collaborated on faculty research, while others have been engaged in community outreach projects.

Post-Graduate Opportunities

Many corporations, schools and health-care institutions are using ethnographic field techniques and qualitative methods in order to understand their markets and clientele, or for that matter, their own organizational structure. The Anthropology major prepares students for employment in these areas, as well as for further graduate work in anthropology, public policy, law and other social and behavioral sciences.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) web page for more detailed information on post-graduate opportunities.

Minor in Anthropology

The anthropology minor provides students in other fields with a cross-cultural awareness that will enable them to interact with a variety of people in a wide range of situations. By giving students a respect for and understanding of the basis of cultural variation, the minor can facilitate working in international settings. Even for students working within the United States, anthropology offers increased sensitivity to ethnic and population diversity. Medicine, law, counseling, nursing, and nutrition are

only a few of the fields in which clients and professionals may come from different parts of our heterogeneous society.

Please note: No more than three courses that are required for a student's major can count towards fulfilling requirements for the minor.

Required (Core) Courses

ANTH 101	Introduction to Cultural Diversity	3.0
ANTH 110	Human Past: Anthropology and Prehistoric Archeology	3.0
ANTH 210 [WI]	Worldview: Science, Religion and Magic	3.0
ANTH 370	Ethnographic Methods	3.0
ANTH 410	Cultural Theory I	3.0
Select three of the following:		9.0
ANTH 111	Introduction to Biological Anthropology	
ANTH 112	Language, Culture & Cognition	
ANTH 117	Introduction to World Religions	
ANTH 120	Biblical Archaeology: The Archaeology of Israel and Jordan	
ANTH 140	Anthropology of Food	
ANTH 150	Anthropology of Water	
ANTH 205	Imagining Africa	
ANTH 212 [WI]	Topics in World Ethnography	
ANTH 215	Anthropology of Gender	
ANTH 217	Anthropology of Interfaith Relations	
ANTH 220	Aging In Cross-Cultural Perspective	
ANTH 225	Anthropology of Youth	
ANTH 240	Urban Anthropology	
ANTH 245	Reflecting on Work Identity	
ANTH 250	Anthropology of Immigration	
ANTH 255	Psychological Anthropology	
ANTH 265	Health & Healing Practices in Cross-Cultural Perspective	
ANTH 270	Comparative Religious Ethics

(<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Anthropology Faculty

Barbara Hornum, PhD (*Bryn Mawr College*) *Director of Center for Academic Excellence (DCAE)*. Associate Professor. Comparative gerontology, planned communities, continuing care communities, retirement, faculty development.

David Kutzik, PhD (*Temple University*). Professor. Social and cultural theory; political economy; gerontology; materialisms; semiotic realisms; activity theory; reflection theories; communities of practice and labor theories of culture.

Brent Luvaas, PhD (*UCLA*). Associate Professor. DIY and independent media production; transnational consumer culture; popular music; new media and mediated subjectivities; youth culture in the US and Indonesia.

Usha Menon, PhD (*University of Chicago*). Professor. Self, identity & personhood, emotional functioning, Hindu morality, gender relations in Hindu society, adult development, popular Hinduism, post-colonial feminism, Hindu religious nationalism and Islamic radicalism.

Rakhmiel Peltz, PhD (*Columbia University, Linguistics; University of Pennsylvania, Biological Sciences*) *Director of Judaic Studies Program*. Professor. Sociolinguistics, ethnography of communication, social history of Yiddish language and culture, Yiddish culture of Eastern Europe, language planning, language and ethnic identity, language and group memory, aging and ethnicity, history of urban neighbors.

Douglas V. Porpora, PhD (*Temple University*) *Director of Graduate Program in Communication, Culture, and Media*. Professor. International political economy, culture, social theory, and philosophy of social science.

Robert Powell, PhD (*Temple University*). Assistant Teaching Professor. Early and Middle Bronze Age Crete; archaeoastronomy; early state formation; archaeology and anthropology of frontiers; mass communication.

Amber R. Reed, PhD (*UCLA*). Visiting Assistant Professor. Democracy, Apartheid, Nostalgia, Race, Postcolonial Theory, Childhood/Youth Studies, Politics of Culture

Rachel R. Reynolds, PhD (*University of Illinois at Chicago*). Associate Professor. Sociolinguistics, ethnography of communication, intercultural communication, globalization and the rhetoric of community, political economy of immigration, race and ethnicity, new African immigrants in the United States, Igbo studies.

Wesley Shumar, PhD (*Temple University*) *Department Head, Anthropology*. Professor. Ethnography of cyberspace, online learning

communities, political economy of higher education, globalization, activity theory, semiotics, critical realism, psychoanalysis, identity and the self.

Emeritus Faculty

Anthony Glascock, PhD (*University of Pittsburgh*) *Coordinator of the Anthropology Program*. Professor Emeritus. Aging and health, definitions of functionality and impairment, technology and aging, social organization, Ireland, East Africa.

Biological Sciences

Major: Biological Sciences

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 182.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 26.0101

Standard Occupational Classification (SOC) code: 19-1029

About the Program

The biological sciences major resides in the Department of Biology (<http://drexel.edu/coas/academics/departments-centers/biology>). Students earn a bachelor's degree in the biological sciences and are prepared for technical careers in research or commercial laboratories, or for professional schools or graduate study.

The biological sciences encompass many areas of study. Biologists study the structure and functions of living organisms from the individual cell to the full organism, and collectively to the community level. Discoveries in the biological sciences influence many aspects of our daily lives and have become the foundation of many new developments in biotechnology and medicine. In the past two decades, advances in molecular biology, cell biology and genetics have been rapid, opening many new, exciting career opportunities in biotechnology, genetic engineering and the development of new diagnostics and therapeutics. Biologists can pursue a variety of options including careers in medicine, dentistry, veterinary medicine or other health-related areas; in research or commercial laboratories at pharmaceutical companies, medical research laboratories, biotechnology companies or in government agencies; and in teaching. In fact, more than 100 different occupations have been listed for biologists. Graduates in the biological sciences are in demand and enjoy a high placement rate with competitive salaries.

The curricular choices are designed to provide a sound basis for careers in the private sector, government and research laboratories, and for advanced study in graduate and professional programs in medicine, other health related areas, or in teaching.

The course requirements identifies required support courses in chemistry, physics, mathematics, humanities, and science and human affairs. With proper selection of electives, students can meet teacher certification requirements or complete a minor in another field. Students are encouraged to consult frequently with their academic advisor for curriculum planning.

In addition to the core requirements, students select one of five concentrations in a field of interest:

- Cell/Molecular Biology/Genetics/Biochemistry
- Organismal Biology/Physiology

- Ecology/Evolution/Genomics
- Pathobiology
- General Biology

Program Options

Co-op employment is an option for biological science students. The major offers three distinct plans:

Five-year option with co-op experience

This option allows for the greatest amount of employment experience, with three distinct six-month periods of employment included with studies. After the start of the sophomore year, students study or work through all terms, including summer.

Four-year option with co-op experience

The degree includes just one six-month period of employment. After the start of sophomore year, students study or work through all terms, including summer.

Four-year option without co-op experience

The degree can be completed in four years without co-op/internship employment. Students are not required to pursue studies during any of the summer terms.

Degree Requirements

The Biological Sciences curriculum is designed to provide students with both depth and flexibility within the field of biology. In addition to the core requirements, students select one of five concentrations in a field of interest.

- Cell/Molecular Biology/Genetics/Biochemistry
- Organismal Biology/Physiology
- Ecology/Evolution/Genomics
- Pathobiology
- General Biology

Concentration requirements and elective options are outlined below. Within each concentration, students are able to further specialize in a focus area by taking recommended electives.

Requirements		
Humanities and Social Sciences		
CIVC 101	Introduction to Civic Engagement	1.0
COM 230	Techniques of Speaking	3.0
COM 310 [WI]	Technical Communication	3.0
or COM 320	Science Writing	
COOP 101	Career Management and Professional Development	0.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PHIL 251	Ethics	3.0
UNIV S101	The Drexel Experience	1.0
UNIV S201	Looking Forward: Academics and Careers	1.0
Humanities and Social Science Electives		9.0
Science, Technology, Health and Human Affairs Elective		3.0
Mathematics and Statistics		
Select one of the following sequences:		12.0
Intro to Analysis		
MATH 101	Introduction to Analysis I	
& MATH 102	and Introduction to Analysis II	
& MATH 239	and Mathematics for the Life Sciences	

Calculus		
MATH 121 & MATH 122 & MATH 123	Calculus I and Calculus II and Calculus III	
MATH 410	Scientific Data Analysis I	3.0
MATH 411	Scientific Data Analysis II	3.0
Physical Sciences		
BIO 311 or CHEM 243	Biochemistry or Organic Chemistry III	4.0
CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
CHEM 103	General Chemistry III	5.0
CHEM 241	Organic Chemistry I	4.0
CHEM 242	Organic Chemistry II	4.0
PHYS 152	Introductory Physics I	4.0
PHYS 153	Introductory Physics II	4.0
PHYS 154	Introductory Physics III	4.0
Core Biology Courses		
BIO 122	Cells and Genetics	4.5
BIO 124	Evolution & Organismal Diversity	4.5
BIO 126	Physiology and Ecology	4.5
BIO 207	Applications in Biology I	1.0
BIO 208	Applications in Biology II	1.0
BIO 209	Cell, Molecular & Developmental Biology I	4.0
BIO 211	Cell, Molecular & Developmental Biology II	4.0
BIO 219 [WI]	Techniques in Molecular Biology	3.0
BIO 224	Form, Function & Evolution of Vertebrates	4.0
BIO 225	Vertebrate Biology and Evolution Laboratory	2.0
BIO 471	Seminar in Biological Sciences	2.0
BIO 472	Seminar in Biological Sciences	2.0
BIO 473 [WI]	Seminar in Biological Sciences	2.0
ENVS 212	Evolution	4.0
Concentration Courses		28.0-30.0
Free electives		24.0
Total Credits		182.5-184.5

Students select one of five concentration and fulfill the requirements, as outlined below.

1. The Cell/Molecular/Genetics/Biochemistry (CMGB) Concentration

This concentration provides exposure to several vital disciplines within Biology, and will prepare students for a diversity of careers in research, medicine, and industry. Students interested in tailoring their studies more specifically may follow the suggested "focus areas" when selecting their two CMGB Concentration electives.

Cell/Molecular/Genetics/Biochemistry (CMGB) Concentration Requirements

BIO 244 or BIO 444	Genetics I or Human Genetics	3.0
BIO 314 or BIO 404	Pharmacology or Structure and Function of Biomolecules	3.0
BIO 318 or BIO 430	Biology of Cancer or Cell Biology of Disease	3.0
BIO 410	Advanced Molecular Biology	3.0

Cell/Molecular/Genetics/Biochemistry (CMGB) Concentration Electives (See Lists Below)

Two Cell/Molecular/Genetics/Biochemistry (CMGB) Electives (see list below)	6.0
Organismal/Physiology Elective (see list below)	3.0
Ecology/Evolution/Genomics Elective (see list below)	3.0

Concentration Laboratory Courses

Two Laboratory Electives (see list below)	4.0
Total Credits	28.0

* Students interested in pursuing a focus area in Neurobiology, Pharmaceuticals, Cell Biology, Biochemistry, Molecular Biology or Genetics should contact the academic advisor in the Biology Department for specific focus recommendations.

Cell/Molecular/Genetics/Biochemistry (CMGB) Electives

BIO 231	Cell Physiology	3.0
BIO 244	Genetics I	3.0
BIO 285	Forensic Biology	3.0
BIO 311	Biochemistry	4.0
BIO 314	Pharmacology	3.0
BIO 318	Biology of Cancer	3.0
BIO 346	Stem Cell Research	3.0
BIO 348	Neuroscience: From Cells to Circuits	3.0
BIO 404	Structure and Function of Biomolecules	4.0
BIO 414	Behavioral Genetics	3.0
BIO 415	Proteins	3.0
BIO 416	Biochemistry of Major Diseases	3.0
BIO 421	Biomembranes	3.0
BIO 430	Cell Biology of Disease	3.0
BIO 433	Advanced Cell Biology	3.0
BIO 444	Human Genetics	3.0
BIO 445	Microbial Genetics	3.0
BIO 447	Advanced Genetics and Molecular Biology	3.0
BIO 451	Genetic Reg Development	3.0
BIO 453	Protein Dysfunction in Disease	3.0
BIO 462	Biology of Neuron Function	3.0
BIO 463	Molecular Mechanisms of Neurodegeneration	3.0
BIO 465	Neurobiology of Disease	3.0
ENVS 326	Molecular Ecology	3.0
Organismal/Physiology Electives		
BIO 201	Human Physiology I	4.0
BIO 221	Microbiology	3.0
BIO 223	Parasitology	3.0
BIO 256	Vertebrate Morphology and Physiology	3.0
BIO 270	Development Biology	3.0
BIO 284	Biology of Stress	3.0
BIO 286	Forensic Toxicology	3.0
BIO 310	Comparative Physiology	3.0
BIO 322	Mycology	4.5
BIO 368	Embryology	4.0
BIO 370	Teratology	3.0
BIO 372	Histology	4.0
BIO 386	Gross Anatomy I	2.0
BIO 412	Biology of Aging	3.0
BIO 420	Virology	3.0
BIO 426	Immunology	3.0
BIO 349	Behavioral Neuroscience	3.0
BIO 461	Neurobiology of Autism Disorders	3.0
ENVS 254	Invertebrate Morphology and Physiology	3.0
ENVS 392	Ichthyology and Herpetology	3.0
ENVS 393	Entomology	3.0
Ecology/Evolution/Genomics Electives		
BIO 228	Evolutionary Biology & Human Health	3.0
BIO 331	Bioinformatics I	3.0
BIO 413	Genomics	3.0
BIO 436	Population Genetics	4.0
ENVS 230	General Ecology	3.0
ENVS 247	Native Plants and Sustainability	3.0

ENVS 323	Tropical Field Studies	3.0
ENVS 328	Conservation Biology	3.0
ENVS 333	Wetland Ecology	3.0
ENVS 343	Equatorial Guinea: Field Methods	3.0
ENVS 352	Ornithology	3.0
ENVS 354	Ichthyology	3.0
ENVS 360	Evolutionary Developmental Biology	3.0
ENVS 364	Animal Behavior	3.0
ENVS 382	Field Botany of the New Jersey Pine Barrens	4.0
ENVS 383	Ecology of the New Jersey Pine Barrens	4.0
ENVS 391	Freshwater and Marine Algae	3.0
ENVS 470	Advanced Topics in Evolution	3.0
Laboratory Electives		
BIO 202	Human Physiology Laboratory	2.0
BIO 213	Drosophila Neural Research	3.0
BIO 215 [WI]	Techniques in Cell Biology	3.0
BIO 222	Microbiology Laboratory	2.0
BIO 229	Dictyostelium Research	3.0
BIO 232	Discovering Antibiotics	3.0
BIO 257	Vertebrate Morphology & Physiology Lab	2.0
BIO 271	Developmental Biology Laboratory	2.0
BIO 306	Biochemistry Laboratory	2.0
BIO 313	Comparative Physiology Laboratory	2.0
BIO 387	Gross Anatomy I Laboratory	2.0
BIO 389	Gross Anatomy II Lab	2.0
BIO 406	Computational Biochemistry Laboratory	2.0
BIO 427	Immunology Laboratory	2.0
BIO 497	Research	0.5-12.0
ENVS 255	Invertebrate Morphology and Physiology Lab	2.0
ENVS 344	Equatorial Guinea: Field Research	6.0
ENVS 365	Animal Behavior Laboratory	2.0
ENVS 394	Entomology Laboratory	2.0

2. The Organismal Biology/Physiology Concentration

This concentration combines courses in organismal biology and physiology with an opportunity to focus on human physiology. The concentration is designed to appeal to students interested in health and medicine, but also accommodates students seeking a wider breadth of knowledge in organismal diversity. Students can focus their electives in human physiology or can choose courses that study non-human organisms.

Organismal Biology/Physiology Concentration Requirements

BIO 201	Human Physiology I	4.0
BIO 203	Human Physiology II	4.0
or BIO 256	Vertebrate Morphology and Physiology	
BIO 270	Development Biology	3.0
Select one of the following:		
BIO 412	Biology of Aging	3.0
or BIO 284	Biology of Stress	
or BIO 466	Endocrinology	
or BIO 468	Pathophysiology	

Organismal Biology/Physiology Concentration Concentration Electives (See List Below)

Cell/Molecular/Genetics/Biochemistry (CMGB) Elective	3.0
Two Organismal/Physiology Electives	6.0
Ecology/Evolution/Genomics Elective	3.0
Concentration Laboratory Courses	
Two Laboratory Electives	4.0
Total Credits	30.0

* Students interesting in pursuing a focus area in Human Physiology or Organismal Biology should contact the academic advisor in the Biology Department for specific focus recommendations.

*Cell/Molecular/Genetics/Biochemistry (CMGB) electives

BIO 244	Genetics I	3.0
BIO 285	Forensic Biology	3.0
BIO 311	Biochemistry	4.0
BIO 314	Pharmacology	3.0
BIO 318	Biology of Cancer	3.0
BIO 346	Stem Cell Research	3.0
BIO 348	Neuroscience: From Cells to Circuits	3.0
BIO 404	Structure and Function of Biomolecules	4.0
BIO 410	Advanced Molecular Biology	3.0
BIO 414	Behavioral Genetics	3.0
BIO 416	Biochemistry of Major Diseases	3.0
BIO 430	Cell Biology of Disease	3.0
BIO 433	Advanced Cell Biology	3.0
BIO 444	Human Genetics	3.0
BIO 449	Recombinant DNA Laboratory	5.0
BIO 453	Protein Dysfunction in Disease	3.0
BIO 462	Biology of Neuron Function	3.0
BIO 463	Molecular Mechanisms of Neurodegeneration	3.0
ENVS 326	Molecular Ecology	3.0

**Organismal/Physiology electives

BIO 201	Human Physiology I	4.0
BIO 203	Human Physiology II	4.0
BIO 221	Microbiology	3.0
BIO 223	Parasitology	3.0
BIO 256	Vertebrate Morphology and Physiology	3.0
BIO 264	Ethnobotany	3.0
BIO 284	Biology of Stress	3.0
BIO 286	Forensic Toxicology	3.0
BIO 310	Comparative Physiology	3.0
BIO 320	Microbial Pathogenesis	3.0
BIO 322	Mycology	4.5
BIO 349	Behavioral Neuroscience	3.0
BIO 368	Embryology	4.0
BIO 370	Teratology	3.0
BIO 372	Histology	4.0
BIO 386	Gross Anatomy I	2.0
BIO 388	Gross Anatomy II	2.0
BIO 412	Biology of Aging	3.0
BIO 420	Virology	3.0
BIO 424	Microbial Physiology	3.0
BIO 426	Immunology	3.0
BIO 435	Immunobiology of Disease	3.0
BIO 461	Neurobiology of Autism Disorders	3.0
BIO 466	Endocrinology	4.0
BIO 468	Pathophysiology	4.0
ENVS 254	Invertebrate Morphology and Physiology	3.0
ENVS 392	Ichthyology and Herpetology	3.0
ENVS 393	Entomology	3.0

*** Ecology/Evolution/Genomics electives

BIO 228	Evolutionary Biology & Human Health	3.0
BIO 331	Bioinformatics I	3.0
BIO 413	Genomics	3.0
BIO 436	Population Genetics	4.0

ENVS 230	General Ecology	3.0
ENVS 247	Native Plants and Sustainability	3.0
ENVS 323	Tropical Field Studies	3.0
ENVS 328	Conservation Biology	3.0
ENVS 333	Wetland Ecology	3.0
ENVS 343	Equatorial Guinea: Field Methods	3.0
ENVS 352	Ornithology	3.0
ENVS 354	Ichthyology	3.0
ENVS 360	Evolutionary Developmental Biology	3.0
ENVS 364	Animal Behavior	3.0
ENVS 382	Field Botany of the New Jersey Pine Barrens	4.0
ENVS 383	Ecology of the New Jersey Pine Barrens	4.0
ENVS 388	Marine Field Methods	4.0
ENVS 391	Freshwater and Marine Algae	3.0
ENVS 438	Biodiversity	3.0
ENVS 470	Advanced Topics in Evolution	3.0

+Laboratory electives

BIO 202	Human Physiology Laboratory	2.0
BIO 213	Drosophila Neural Research	3.0
BIO 215 [WI]	Techniques in Cell Biology	3.0
BIO 222	Microbiology Laboratory	2.0
BIO 229	Dictyostelium Research	3.0
BIO 232	Discovering Antibiotics	3.0
BIO 257	Vertebrate Morphology & Physiology Lab	2.0
BIO 271	Developmental Biology Laboratory	2.0
BIO 306	Biochemistry Laboratory	2.0
BIO 313	Comparative Physiology Laboratory	2.0
BIO 333	Bioinformatics Laboratory	2.0
BIO 387	Gross Anatomy I Laboratory	2.0
BIO 389	Gross Anatomy II Lab	2.0
BIO 406	Computational Biochemistry Laboratory	2.0
BIO 427	Immunology Laboratory	2.0
BIO 434 [WI]	Advanced Cell Biology Laboratory	2.0
BIO 449	Recombinant DNA Laboratory	5.0
ENVS 255	Invertebrate Morphology and Physiology Lab	2.0
ENVS 344	Equatorial Guinea: Field Research	6.0
ENVS 365	Animal Behavior Laboratory	2.0
ENVS 394	Entomology Laboratory	2.0

3. The Ecology/Evolution/Genomics Concentration

This concentration focuses on ecological and evolutionary aspects of biology for biology majors who also have specific interests in ecology, evolution or genomics. This concentration is designed to maintain a breadth of knowledge in biology, but also allows students to tailor their course work more specifically to reflect their specific area of interest.

Ecology/Evolution/Genomics Concentration requirements

ENVS 326	Molecular Ecology	3.0
BIO 228	Evolutionary Biology & Human Health	3.0
or BIO 331	Bioinformatics I	
BIO 436	Population Genetics	3.0-4.0
or ENVS 230	General Ecology	
Select one of the following:		3.0-5.0
BIO 221	Microbiology	
BIO 223	Parasitology	
BIO 256	Vertebrate Morphology and Physiology	
BIO 413	Genomics	
BIO 420	Virology	

ENVS 254	Invertebrate Morphology and Physiology	
ENVS 360	Evolutionary Developmental Biology	
ENVS 382	Field Botany of the New Jersey Pine Barrens	
ENVS 391	Freshwater and Marine Algae	
ENVS 392	Ichthyology and Herpetology	
ENVS 393	Entomology	
ENVS 438	Biodiversity	

Ecology/Evolution/Genomics concentration electives

Select one Cell/Molecular/Genetics/Biochemistry (CMGB) elective (see list below) 3.0

Select one Organismal/Physiology elective (see list below) 3.0

Select two Ecology/Evolution/Genomics electives (see list below) 6.0

Concentration Laboratory Courses

Select two Laboratory electives (see list below) 4.0

Total Credits 28.0-31.0

* Students interested in pursuing a focus area in Ecology, Evolutionary Biology or Genomics should contact the academic advisor in the Biology Department for specific focus recommendations.

Cell/Molecular/Genetics/Biochemistry (CMGB) electives

BIO 244	Genetics I	3.0
BIO 285	Forensic Biology	3.0
BIO 311	Biochemistry	4.0
BIO 314	Pharmacology	3.0
BIO 318	Biology of Cancer	3.0
BIO 346	Stem Cell Research	3.0
BIO 348	Neuroscience: From Cells to Circuits	3.0
BIO 404	Structure and Function of Biomolecules	4.0
BIO 410	Advanced Molecular Biology	3.0
BIO 414	Behavioral Genetics	3.0
BIO 415	Proteins	3.0
BIO 416	Biochemistry of Major Diseases	3.0
BIO 421	Biomembranes	3.0
BIO 430	Cell Biology of Disease	3.0
BIO 433	Advanced Cell Biology	3.0
BIO 444	Human Genetics	3.0
BIO 449	Recombinant DNA Laboratory	5.0
BIO 453	Protein Dysfunction in Disease	3.0
BIO 462	Biology of Neuron Function	3.0
BIO 463	Molecular Mechanisms of Neurodegeneration	3.0

Organismal/Physiology electives

BIO 201	Human Physiology I	4.0
BIO 221	Microbiology	3.0
BIO 223	Parasitology	3.0
BIO 256	Vertebrate Morphology and Physiology	3.0
BIO 264	Ethnobotany	3.0
BIO 284	Biology of Stress	3.0
BIO 286	Forensic Toxicology	3.0
BIO 310	Comparative Physiology	3.0
BIO 322	Mycology	4.5
BIO 349	Behavioral Neuroscience	3.0
BIO 368	Embryology	4.0
BIO 372	Histology	4.0
BIO 386	Gross Anatomy I	2.0
BIO 388	Gross Anatomy II	2.0
BIO 412	Biology of Aging	3.0
BIO 420	Virology	3.0

ENVS 322	Tropical Ecology	3.0
ENVS 328	Conservation Biology	3.0
ENVS 330	Aquatic Ecology	3.0
ENVS 333	Wetland Ecology	3.0
ENVS 336	Terrestrial Ecology	5.0
ENVS 343	Equatorial Guinea: Field Methods	3.0
ENVS 352	Ornithology	3.0
ENVS 354	Ichthyology	3.0
ENVS 360	Evolutionary Developmental Biology	3.0
ENVS 364	Animal Behavior	3.0
ENVS 382	Field Botany of the New Jersey Pine Barrens	4.0
ENVS 383	Ecology of the New Jersey Pine Barrens	4.0
ENVS 390	Marine Ecology	3.0
ENVS 391	Freshwater and Marine Algae	3.0
ENVS 410	Physiological Ecology	3.0
ENVS 412	Biophysical Ecology	3.0
ENVS 413	Advanced Population Ecology	3.0
ENVS 414	Advanced Community Ecology	3.0
ENVS 438	Biodiversity	3.0
ENVS 470	Advanced Topics in Evolution	3.0

Laboratory electives

BIO 202	Human Physiology Laboratory	2.0
BIO 213	Drosophila Neural Research	3.0
BIO 215 [WI]	Techniques in Cell Biology	3.0
BIO 222	Microbiology Laboratory	2.0
BIO 229	Dictyostelium Research	3.0
BIO 232	Discovering Antibiotics	3.0
BIO 257	Vertebrate Morphology & Physiology Lab	2.0
BIO 271	Developmental Biology Laboratory	2.0
BIO 306	Biochemistry Laboratory	2.0
BIO 313	Comparative Physiology Laboratory	2.0
BIO 333	Bioinformatics Laboratory	2.0
BIO 387	Gross Anatomy I Laboratory	2.0
BIO 389	Gross Anatomy II Lab	2.0
BIO 406	Computational Biochemistry Laboratory	2.0
BIO 427	Immunology Laboratory	2.0
BIO 449	Recombinant DNA Laboratory	5.0
BIO 497	Research (by permission of the department)	0.5-12.0
ENVS 255	Invertebrate Morphology and Physiology Lab	2.0
ENVS 285 [WI]	Population Ecology Laboratory	2.0
ENVS 287	Community Ecology Laboratory	2.0
ENVS 327	Molecular Ecology Laboratory	2.0
ENVS 336	Terrestrial Ecology	5.0
ENVS 344	Equatorial Guinea: Field Research	6.0
ENVS 365	Animal Behavior Laboratory	2.0

ENVS 382	Field Botany of the New Jersey Pine Barrens	4.0
ENVS 383	Ecology of the New Jersey Pine Barrens	4.0
ENVS 388	Marine Field Methods	4.0
ENVS 394	Entomology Laboratory	2.0

4. The Pathobiology Concentration

The Pathobiology concentration focuses on pathogenesis, and provides a unique option for students that differs from the more traditional disciplines in cell/molecular/genetics/biochemistry. This concentration is designed to appeal to students with an interest in pursuing careers in areas of public and allied health.

BIO 221	Microbiology	3.0
BIO 223	Parasitology	3.0
or BIO 420	Virology	
or BIO 435	Immunobiology of Disease	
BIO 320	Microbial Pathogenesis	3.0
BIO 426	Immunology	3.0
Select one Cell/Molecular/Genetics/Biochemistry (CMGB) elective (see list below)		
Select two Organismal/Physiology electives (see list below)		
Select one Evolutionary Bio/Ecology elective (see list below)		
Concentration Laboratory Courses		
Two Laboratory electives (see list below)		
Total Credits		28.0

Cell/Molecular/Genetics/Biochemistry (CMGB) electives:

BIO 244	Genetics I	3.0
BIO 285	Forensic Biology	3.0
BIO 311	Biochemistry	4.0
BIO 314	Pharmacology	3.0
BIO 318	Biology of Cancer	3.0
BIO 346	Stem Cell Research	3.0
BIO 348	Neuroscience: From Cells to Circuits	3.0
BIO 404	Structure and Function of Biomolecules	4.0
BIO 410	Advanced Molecular Biology	3.0
BIO 414	Behavioral Genetics	3.0
BIO 415	Proteins	3.0
BIO 416	Biochemistry of Major Diseases	3.0
BIO 421	Biomembranes	3.0
BIO 430	Cell Biology of Disease	3.0
BIO 433	Advanced Cell Biology	3.0
BIO 444	Human Genetics	3.0
BIO 449	Recombinant DNA Laboratory	5.0
BIO 453	Protein Dysfunction in Disease	3.0

5. The General Biology Concentration

This concentration will allow maximum flexibility for students who want to develop their own unique plan of study. The concentration is designed for students who may not have one specific area of interest, but who are

looking to be well-rounded in the biological sciences. Students pursuing careers in education, where a wider breadth of knowledge in biology is desirable, may choose to select this concentration.

General Biology Concentration Electives	24.0
2 or 3 Cell/Molecular/Genetics/Biochemistry (CMGB) electives (see list below)	
2 or 3 Organismal/Physiology electives (see list below)	
2 or 3 Ecology/Evolution/Genomics electives (see list below)	
Concentration Laboratory Courses	
Two Laboratory electives (see list below)	4.0
Total Credits	28.0

Cell/Molecular/Genetics/Biochemistry (CMGB) electives

BIO 231	Cell Physiology	3.0
BIO 244	Genetics I	3.0
BIO 285	Forensic Biology	3.0
BIO 311	Biochemistry	4.0
BIO 314	Pharmacology	3.0
BIO 318	Biology of Cancer	3.0
BIO 331	Bioinformatics I	3.0
BIO 332	Bioinformatics II	3.0
BIO 346	Stem Cell Research	3.0
BIO 348	Neuroscience: From Cells to Circuits	3.0
BIO 404	Structure and Function of Biomolecules	4.0
BIO 413	Genomics	3.0
BIO 415	Proteins	3.0
BIO 421	Biomembranes	3.0
BIO 430	Cell Biology of Disease	3.0
BIO 433	Advanced Cell Biology	3.0
BIO 444	Human Genetics	3.0
BIO 445	Microbial Genetics	3.0
BIO 447	Advanced Genetics and Molecular Biology	3.0
BIO 449	Recombinant DNA Laboratory	5.0
BIO 451	Genetic Reg Development	3.0
BIO 453	Protein Dysfunction in Disease	3.0
BIO 462	Biology of Neuron Function	3.0
BIO 465	Neurobiology of Disease	3.0
ENVS 326	Molecular Ecology	3.0

Organismal/Physiology electives

BIO 201	Human Physiology I	4.0
BIO 203	Human Physiology II	4.0
BIO 221	Microbiology	3.0
BIO 223	Parasitology	3.0
BIO 256	Vertebrate Morphology and Physiology	3.0
BIO 264	Ethnobotany	3.0
BIO 270	Development Biology	3.0
BIO 284	Biology of Stress	3.0
BIO 286	Forensic Toxicology	3.0
BIO 310	Comparative Physiology	3.0
BIO 320	Microbial Pathogenesis	3.0
BIO 322	Mycology	4.5
BIO 349	Behavioral Neuroscience	3.0
BIO 368	Embryology	4.0
BIO 370	Teratology	3.0
BIO 372	Histology	4.0
BIO 386	Gross Anatomy I	2.0
BIO 388	Gross Anatomy II	2.0
BIO 412	Biology of Aging	3.0
BIO 420	Virology	3.0

BIO 424	Microbial Physiology	3.0
BIO 426	Immunology	3.0
BIO 435	Immunobiology of Disease	3.0
BIO 461	Neurobiology of Autism Disorders	3.0
BIO 466	Endocrinology	4.0
BIO 468	Pathophysiology	4.0
ENVS 254	Invertebrate Morphology and Physiology	3.0
ENVS 392	Ichthyology and Herpetology	3.0
ENVS 393	Entomology	3.0

Ecology/Evolution/Genomics electives

BIO 228	Evolutionary Biology & Human Health	3.0
BIO 331	Bioinformatics I	3.0
BIO 332	Bioinformatics II	3.0
BIO 413	Genomics	3.0
ENVS 230	General Ecology	3.0
ENVS 247	Native Plants and Sustainability	3.0
ENVS 284	Physiological and Population Ecology	3.0
ENVS 286	Community and Ecosystem Ecology	3.0
ENVS 315	Plant Animal Interactions	3.0
ENVS 322	Tropical Ecology	3.0
ENVS 323	Tropical Field Studies	3.0
ENVS 328	Conservation Biology	3.0
ENVS 330	Aquatic Ecology	3.0
ENVS 333	Wetland Ecology	3.0
ENVS 336	Terrestrial Ecology	5.0
ENVS 343	Equatorial Guinea: Field Methods	3.0
ENVS 352	Ornithology	3.0
ENVS 354	Ichthyology	3.0
ENVS 360	Evolutionary Developmental Biology	3.0
ENVS 364	Animal Behavior	3.0
ENVS 382	Field Botany of the New Jersey Pine Barrens	4.0
ENVS 383	Ecology of the New Jersey Pine Barrens	4.0
ENVS 388	Marine Field Methods	4.0
ENVS 390	Marine Ecology	3.0
ENVS 391	Freshwater and Marine Algae	3.0
ENVS 410	Physiological Ecology	3.0
ENVS 412	Biophysical Ecology	3.0
ENVS 413	Advanced Population Ecology	3.0
ENVS 414	Advanced Community Ecology	3.0
ENVS 438	Biodiversity	3.0
ENVS 470	Advanced Topics in Evolution	3.0

Laboratory electives

BIO 202	Human Physiology Laboratory	2.0
BIO 213	Drosophila Neural Research	3.0
BIO 215 [WI]	Techniques in Cell Biology	3.0
BIO 222	Microbiology Laboratory	2.0
BIO 229	Dictyostelium Research	3.0
BIO 232	Discovering Antibiotics	3.0
BIO 257	Vertebrate Morphology & Physiology Lab	2.0
BIO 271	Developmental Biology Laboratory	2.0
BIO 306	Biochemistry Laboratory	2.0
BIO 313	Comparative Physiology Laboratory	2.0
BIO 333	Bioinformatics Laboratory	2.0
BIO 387	Gross Anatomy I Laboratory	2.0
BIO 389	Gross Anatomy II Lab	2.0
BIO 406	Computational Biochemistry Laboratory	2.0
BIO 427	Immunology Laboratory	2.0
BIO 449	Recombinant DNA Laboratory	5.0
BIO 497	Research (by permission of the department)	0.5-12.0

ENVS 255	Invertebrate Morphology and Physiology Lab	2.0
ENVS 285 [WI]	Population Ecology Laboratory	2.0
ENVS 287	Community Ecology Laboratory	2.0
ENVS 327	Molecular Ecology Laboratory	2.0
ENVS 344	Equatorial Guinea: Field Research	6.0
ENVS 365	Animal Behavior Laboratory	2.0
ENVS 382	Field Botany of the New Jersey Pine Barrens	4.0
ENVS 383	Ecology of the New Jersey Pine Barrens	4.0
ENVS 388	Marine Field Methods	4.0
ENVS 394	Entomology Laboratory	2.0

Note about laboratory credits: BIO 449, ENVS 336, ENVS 382 and ENVS 388 have both a lecture and laboratory component.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plans of Study

Biological Sciences Major: Four-year Co-op

(Additional sample plans for other co-op options can be viewed below.)

Term 1		Credits
BIO 122	Cells and Genetics	4.5
CHEM 101	General Chemistry I	3.5
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 121 or 101	Calculus I Introduction to Analysis I	4.0
UNIV S101	The Drexel Experience	1.0
Term Credits		16.0
Term 2		Credits
BIO 124	Evolution & Organismal Diversity	4.5
CHEM 102	General Chemistry II	4.5
CIVC 101	Introduction to Civic Engagement	1.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
MATH 122 or 102	Calculus II Introduction to Analysis II	4.0
Term Credits		17.0
Term 3		Credits
BIO 126	Physiology and Ecology	4.5
CHEM 103	General Chemistry III	5.0

COOP 101	Career Management and Professional Development	0.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 239 or 123	Mathematics for the Life Sciences Calculus III	4.0
Term Credits		16.5

Term 4

BIO 207	Applications in Biology I	1.0
BIO 209	Cell, Molecular & Developmental Biology I	4.0
BIO 219 [WI]	Techniques in Molecular Biology	3.0
CHEM 241	Organic Chemistry I	4.0
PHYS 152	Introductory Physics I	4.0
Term Credits		16.0

Term 5

BIO 208	Applications in Biology II	1.0
BIO 211	Cell, Molecular & Developmental Biology II	4.0
Biology Laboratory Requirement*		2.0
CHEM 242	Organic Chemistry II	4.0
PHYS 153	Introductory Physics II	4.0
UNIV S201	Looking Forward: Academics and Careers	1.0
Term Credits		16.0

Term 6

BIO 311 or CHEM 243	Biochemistry Organic Chemistry III	4.0
ENVS 212	Evolution	4.0
PHIL 251	Ethics	3.0
PHYS 154	Introductory Physics III	4.0
Term Credits		15.0

Term 7

BIO 224	Form, Function & Evolution of Vertebrates	4.0
BIO 225	Vertebrate Biology and Evolution Laboratory	2.0
Sci, tech, health & human affairs elective		3.0
BIO/ENVS Elective		3.0
Biology Laboratory Requirement		2.0
Term Credits		14.0

Term 8

COM 230	Techniques of Speaking	3.0
MATH 410	Scientific Data Analysis I	3.0
BIO/ENVS Elective		3.0
Free Electives		6.0
Term Credits		15.0

Term 9

COM 310 [WI]	Technical Communication	3.0
MATH 411	Scientific Data Analysis II	3.0
Humanities/Social Science Elective		3.0
BIO/ENVS Elective		3.0
Free Elective		3.0
Term Credits		15.0

Term 10

BIO 471	Seminar in Biological Sciences	2.0
BIO/ENVS Electives		6.0
Free Electives		6.0
Term Credits		14.0

Term 11

BIO 472	Seminar in Biological Sciences	2.0
BIO/ENVS Electives		6.0
Humanities/Social Science Elective		3.0
Free Elective		3.0
Term Credits		14.0

Term 12

BIO 473 [WI]	Seminar in Biological Sciences	2.0
BIO/ENVS Elective		3.0
Humanities/Social Science Elective		3.0

Free Electives	6.0
Term Credits	14.0

Total Credit: 182.5

* See degree requirements (p. 226).

Biological Sciences Major: Five-year Co-op

Term 1	Credits	
BIO 122	Cells and Genetics	4.5
CHEM 101	General Chemistry I	3.5
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 121 or 101	Calculus I Introduction to Analysis I	4.0
UNIV S101	The Drexel Experience	1.0
Term Credits		16.0

Term 2	Credits	
BIO 124	Evolution & Organismal Diversity	4.5

Total Credit: 182.5

* See degree requirements (p. 226).

Co-op/Career Opportunities

Opportunities

Students earn a bachelor's degree in the biological sciences and are prepared for technical careers in research or commercial laboratories or for professional schools.

Graduates typically work for pharmaceutical companies, medical research laboratories, biotechnology companies, or in government laboratories.

Many graduates also choose to pursue an advanced degree in the field.

Co-op Opportunities

Past co-op employers of biosciences majors have included:

- GlaxoSmithKline
- Fox Chase Cancer Center
- Children's Hospital of Philadelphia
- Johnson and Johnson
- Merck
- Wistar Institute
- Moss Rehab
- ViroPharma, Inc.
- Janssen Biotech
- Integral Molecular

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Dual/Accelerated Degree

Combined Bachelors/Masters Degree

Qualified students can take graduate courses in their junior and senior years for undergraduate or graduate credit. They can also complete a combined BS /MS degree in five years. Further questions about the BS / MS degree program should be directed to the departmental graduate advisor:

Kate Pelusi
Graduate Program Manager
Department of Biology
215.895.6374
kp475@drexel.edu

Minor in Biological Sciences

The minor in biological sciences is designed for students who wish to become acquainted with the life sciences while pursuing a major in another area. This option should be particularly useful for students majoring in areas such as chemistry, engineering, physics, or psychology who are interested in admission to medical schools or graduate programs. Students interested in the minor should consult with an academic advisor in the department for help with course selections.

Required Courses *

BIO 122	Cells and Genetics	4.5
BIO 124	Evolution & Organismal Diversity	4.5
BIO 126	Physiology and Ecology	4.5
BIO 218	Principles of Molecular Biology	4.0
BIO 224	Form, Function & Evolution of Vertebrates	4.0

BIO ELECTIVE OR ENVS 212 **	3.0
Total Credits	24.5

* A grade of "C" or better must be earned for each course in this minor for the course to meet the requirement.

** The Biology Elective can be selected from any of the regularly offered Biology department lecture courses 200-level and above according to your specific interests. Note that existing course pre-requisites may affect which courses may be selected.

Facilities

The Department of Biology resides in the Papadakis Integrated Sciences Building (PISB). This state of the art facility has well-equipped teaching laboratories with networked computers and advanced digital image analysis capability. Both teaching and research laboratories contain a range of modern equipment including microscopes, centrifuges, chromatographs, spectrophotometers, scintillation counters, culture chambers, and densitometers.

Visit the Research in Biology (<http://www.drexel.edu/coas/academics/departments-centers/biology/research>) web page for more information.

Biological Sciences Faculty

Michael Akins, PhD (*Yale University*). Assistant Professor. The neural mechanisms underlying how organisms interact with the environment; circuit formation, particularly of sensory circuits, and neural diseases including autism and Fragile X syndrome (FXS).

Shivanthi Anandan, PhD (*University of California, Los Angeles*). Associate Professor. Microbial genetics, in particular the analysis of light-regulated signal transduction pathways and the regulation of gene expression in photosynthesizing organisms.

John R. Bethea, PhD (*University of Alabama at Birmingham*) Department Head. Professor. Neuroscience and immunology.

Valerie Bracchi-Ricard, PhD (*University Joseph Fourier, Grenoble, France*). Research Assistant Professor. Role of TNF and TNF receptors in neuroinflammation and remyelination following spinal cord injury.

Laura Duwel, PhD (*University of Cincinnati*) Assistant Department Head, Department of Biology. Teaching Professor. Immunology and microbiology.

Felice Elephant, PhD (*Temple University*). Associate Professor. Understanding the roles of two classes of chromatin regulatory proteins termed histone acetyltransferases (HATs) and histone de-methylases.

Denise Garcia, PhD (*UCLA*). Assistant Professor. Neuroscience, the role of astrocytes in the central nervous system.

Tali Gidalevitz, PhD (*University of Chicago*). Assistant Professor. Genetic and molecular pathways regulating protein folding homeostasis, and their role in protein conformation diseases, aging, and development.

Mary Katherine Gonder, PhD (*The City University of New York*) Director, Bioko Biodiversity Protection Program Co-Founder, Central African Biodiversity Alliance. Associate Professor. Deciphering spatial patterns of biodiversity across the Gulf of Guinea and Congo Basin region; Conservation measures to mitigate the effects of habitat loss and climate change in western equatorial Africa.

Susan Gurney, PhD (*Westfälische Wilhelms-Universität Münster (Germany)*). Assistant Teaching Professor. Evolutionary genetics (human and equids); stem cell biology; forensic science

Meshagae Hunte-Brown, PhD (*Drexel University*). Associate Teaching Professor. Stable isotopes in aquatic food webs, ecosystem ecology, STEM education.

Jiu Jiang, MD, PhD (*Shanghai Second Medical University*). Research Associate Professor. T cell immune response to virus infection in aged mice.

Karen Kabnick, PhD (*Massachusetts Institute of Technology*). Associate Teaching Professor. Molecular and genetic mechanisms of cellular biology, human disease, host/parasite interactions.

Robert Loudon, PhD (*Thomas Jefferson University*). Associate Teaching Professor. Rho GTPases, regulation of actin cytoskeleton, Regulation of G protein-coupled receptors by receptor kinases and arrestins.

Daniel Marena, PhD (*Syracuse University*) *Director of the Biology Graduate Program, Co-Director of the Cell Imaging Center*. Associate Professor. Developmental neurobiology and behavior; CHARGE syndrome; Pitt-Hopkins syndrome; Alzheimer's disease.

Donna Murasko, PhD (*Penn State Hershey Medical Center*) *Dean, College of Arts and Sciences*. Professor. The effects of aging on the adaptive immune response to influenza virus and retrovirus latency and reactivation.

Michael O'Connor, MD, PhD (*MD, Johns Hopkins University; PhD, Colorado State*). Associate Professor. Biophysical and physiological ecology, thermoregulation of vertebrates, ecological modeling.

Sean O'Donnell, PhD (*University of Wisconsin-Madison*). Professor. Tropical ecology, focusing on geographic variation and elevation effects on ecology and behavior of army ants and ant-bird interactions; neurobiology, focusing on brain plasticity and brain evolution in social insects.

Ryan Petrie, PhD (*McGill University*). Assistant Professor. Mechanisms of cell movement through three-dimensional extracellular matrix.

Jerome Ricard, PhD (*University Joseph Fourier, Grenoble, France*). Research Assistant Professor. Inflammation and cell death after spinal cord injury. Regulation of cell death by Eph receptors.

Jacob Russell, PhD (*University of Arizona*). Associate Professor. Microbiomes and metagenomics; ecology and evolution of symbiosis.

Nianli Sang, MB, PhD (*M.B., Fudan University Shanghai Medical College; Ph.D., Thomas Jefferson University*) *Co-Director of the Cell Imaging Center*. Associate Professor. Molecular and cellular biology of cancer; posttranslational modification, folding and quality control of proteins and their implication in cell physiology and human diseases.

Aleister Saunders, PhD (*University of North Carolina, Chapel Hill*) *Senior Vice Provost for Research, Director of the RNAi Resource Center*. Associate Professor. Identification and characterization of genes and proteins involved in Alzheimer's disease.

Kevin P.W. Smith, PhD (*Drexel University*). Assistant Teaching Professor. Linking behavioral ecology and organismal diversity, neonate behavior in herpetological models, STEM education.

Elias T. Spiliotis, PhD (*The Johns Hopkins University*) *Director of the Cell Imaging Center*. Associate Professor. Cell polarity and cell division: regulation of cytoskeleton-dependent motility.

Jennifer Stanford, PhD (*Harvard University*). Assistant Professor. Evaluating and improving approaches to teach STEM content in higher education environments to promote student learning, engagement in STEM courses, and STEM student retention.

Monica M. Togna, PhD (*New Jersey Institute of Technology*). Assistant Teaching Professor. Examination of the structure and function of living organisms from the cellular to the organismal level in order to better understand common physiological processes.

Emeritus Faculty

Jospeh Bentz, PhD (*State University of New York (SUNY) at Buffalo*). Professor. Biophysics, biochemistry and biopharmaceutics, focused on the molecular basis of biological membrane transport and fusion.

Cecilie Goodrich, PhD (*Harvard University*). Professor Emeritus. Neuroscience and systems physiology, postnatal maturation of physiology and behavior in relation to brain immunocytochemistry.

Certificate in Ethical Theory and Practice

Only available to currently enrolled Drexel students.

The Certificate in Ethical Theory and Practice exemplifies Drexel's commitment to engaged education and the Philosophy Program's emphasis on the inter-involvement of theory and practice. In our family, civic, work, and professional lives, we are confronted with issues of conduct and choices about what to do, what to create, how to move through the world and what kind of persons to be. This Certificate reflects each student's potential to move through the world as a positive and constructive force no matter what field of endeavor he or she may pursue.

Admission Requirements

Open to Drexel students in all schools and colleges, in all majors who have completed fifteen credits.

Program Requirements

Required Courses

PHIL 101	Introduction to Western Philosophy	3.0
or PHIL 102	Introduction to Eastern Philosophy	
PHIL 105	Critical Reasoning	3.0
PHIL 241	Social & Political Philosophy	3.0
PHIL 251	Ethics	3.0
Select two of the following:		6.0
PHIL 301	Business Ethics	
PHIL 305	Ethics and the Media	
PHIL 311	Ethics and Information Technology	
PHIL 315	Engineering Ethics	
PHIL 317	Ethics and Design Professions	
PHIL 321	Biomedical Ethics	
PHIL 322	Ethics of Human Enhancement	
PHIL 323	Organizational Ethics	
PHIL 325	Ethics in Sports Management	
PHIL 330	Criminal Justice Ethics	
PHIL 335	Global Ethical Issues	
PHIL 340	Environmental Ethics	

PHIL 385 Philosophy of Law

Total Credits 18.0

Certificate in Interfaith and Religious Studies

Only available to currently enrolled Drexel students.

The Certificate in Interfaith and Religious Studies represents Drexel University's commitment to the study of spirituality and the contribution of the world's organized religions to the psychological and social well-being of individuals, groups, and societies. Through the study of the interrelationship of religions and the efforts of interfaith initiatives, students will better understand group commonalities and differences and attempts for social improvement and the resolution of conflict.

The Judaic Studies Program, an interdepartmental and interdisciplinary program in the College of Arts and Sciences, has for many years taught about the centrality of religion in cultural life. In its core courses, the evolution of Judaism alongside the rise of Christianity and Islam, has been studied. As the coordinating body for the new Certificate in Interfaith and Religious Studies, the Judaic Studies Program continues its tradition of exposing Drexel students to the leaders, thinkers, and institutions of the larger, outside community.

Program Requirements

Students must complete at least 15 credits from the list below: 15.0

JUDA 117	Introduction to World Religions
or ANTH 11 Introduction to World Religions	
JUDA 221	Anthropology of Interfaith Relations
or ANTH 21 Anthropology of Interfaith Relations	
JUDA 222	Comparative Religious Ethics
or ANTH 27 Comparative Religious Ethics	
JUDA 223	Coexistence and Conflict: Jews, Christians, and Muslims in the Early Mediterranean
or HIST 260 Coexistence and Conflict: Jews, Christians, and Muslims in the Early Mediterranean	
JUDA 224	Judaism and Christianity: Two Religions or One?
or PHIL 291 Judaism and Christianity: Two Religions or One?	
JUDA 225	Philosophy of Religion
or PHIL 391 Philosophy of Religion	
Total Credits 15.0	

Any travel-add-on component to these courses can be counted towards the Certificate.

Certificate in Medical Humanities

The Certificate Program in Medical Humanities is designed for students majoring in any of the biological sciences, health professions including biomedical engineering, nursing and public health, the humanities, and the social sciences, with the aim of promoting dialogue and mutual appreciation for various approaches to health related issues.

The wide range of applicable courses within designated disciplines fosters an interdisciplinary context for investigating the many challenges within medicine and caregiving. This format, in turn, encourages students to explore illness, disability, dying, and healing as *human* experiences and to evaluate some of the limitations of an exclusively scientific perspective on medical practice and research.

A three credit introductory seminar (HUM 315) and a three credit concluding Capstone Seminar (ENGL 470) further provide intellectual cohesiveness and a sense of community among students enrolled in the program. Both co-directors of the program will help students choose courses best suited for their personal and professional interests. Note that most courses applicable to the program also fulfill humanities electives for other majors and that courses may change as departments offer more options.

Opportunities

Those students who successfully complete the program will receive a certificate in medical humanities. This certificate highlights the student's proficiency in an interdisciplinary approach to health related issues not easily attainable through isolated courses.

Additional information

For additional information, contact the program directors:

Edward "Ted" Fristrom, PhD
Department of English and Philosophy
College of Arts and Sciences, Drexel University
ecf35@drexel.edu

Stacey Ake, PHD (biology), PHD (philosophy)
Department of English and Philosophy
College of Arts and Sciences, Drexel University
sea29@drexel.edu

Required Courses

HUM 315	Perspectives in Medical Humanities	3.0
ENGL 470	Capstone Seminar in Medical Humanities	3.0
Select one of the following literature courses:		3.0
ENGL 360 [WI]	Literature and Society (Portrayals of Mental Disorders)	
ENGL 370	Topics in Literature and Medicine (Illness and Healing in Literature)	
ENGL 370	Topics in Literature and Medicine (The Physician in Literature and Film)	
ENGL 370	Topics in Literature and Medicine (Health Matters in Drama)	
Select one of the following philosophy courses:		3.0
PHIL 251	Ethics	
PHIL 321	Biomedical Ethics	
PHIL 355	Philosophy of Medicine	
PHIL 361	Philosophy of Science	
Select two courses from the following:		6.0
AFAS T380	Special Topics in Africana Studies (Race, Disease, and History)	
AFAS T380	Special Topics in Africana Studies (HIV/Aids in Africa)	
ANTH 210 [WI]	Worldview: Science, Religion and Magic	
ANTH 220	Aging In Cross-Cultural Perspective	
ARTH 320	Art in the Age of Technology	
ARTH 465 [WI]	Special Topics in Art History	
BIO 212	Biotechnology	
BMES 338	Biomedical Ethics and Law	
ENVS 321	Environmental Health	
HIST 280	History of Science: Ancient to Medieval	
HIST 285	Technology in Historical Perspective	
PSY 242	Psychology of Disability	
PSY 244	Culture and Personality	
PSY 252	Death and Dying	
PSY 356	Women's Health Psychology	
SOC 120	Sociology of the Family	
SOC 125	Sociology of Aging	
SOC 225	Sociology of Technology & Aging	

Certificate in Writing and Publishing

The certificate in writing and publishing (CWP) offers currently enrolled Drexel University students the opportunity for both professional and personal development through a combination of available courses in professional writing, creative writing and publishing. The certificate enhances employment opportunities, opening a broad range of professional choices in cooperative employment and in the post-degree job market as skills are acquired. The CWP improves on-the-job performance, as the student develops writing skills and associated professional knowledge.

The program develops core competencies through the synergy of writing and publishing courses. The courses develop the student's skills in writing and publishing both through theory and practical application.

General requirements

The certificate in writing and publishing allows students to achieve certification in one or more of the following tracks:

- professional writing and publishing
- creative writing and publishing
- comprehensive writing and publishing (no longer accepting new students)

Each track requires the completion of a minimum of six courses (18.0 credits). Tracks can be designed to meet the professional needs and personal interests of the individual student.

Working with an advisor, students will choose not only the track but the courses within the track to develop an individually tailored program. Students can choose courses that will meet the general requirements of the program, while also satisfying their own professional and personal requirements.

Those students who have successfully completed this program will receive a certificate in writing and publishing. The transcript will indicate the completion of the CWP. This certification will indicate proficiency in written communication and familiarity with techniques in publishing in a variety of venues. The certificate program in writing and publishing highlights the student's acquisition of skills more than they would be in a list of courses on a transcript.

The completion of the certificate demonstrates the student's commitment to writing and publishing skills. It highlights writing skills of students majoring in business and technical areas; similarly, for students in the humanities and social sciences, it certifies writing and publishing skills, either in creative writing or professional writing.

Students meet with one of the two program co-directors to determine their track:

Harriet Levin Millan
Director, Certificate in Writing and Publishing
harriet.levin.millan@drexel.edu

Henry Israeli
Associate Director, Certificate in Writing and Publishing

hpi22@drexel.edu

Track Requirements

The professional writing and publishing track offers three options: business communication and publishing; technical communication and publishing; and journalism. This track is useful for business majors or students in technical or science areas who want to highlight their acquisition of writing skills. For students majoring in the humanities it provides an opportunity to develop areas of writing and publishing competencies in the professional arena. The creative writing and publishing track, is useful to all students as it encourages personal and professional development through creative writing and a knowledge of publishing. The comprehensive track is no longer accepting new students.

Note: Many majors already require one or more of the courses leading to the certificate in writing and publishing or list these courses as recommended electives

Professional Writing and Publishing Track

18.0 quarter credits

The professional writing and publishing track is useful for business majors or students in technical or science areas who want to highlight their acquisition of writing skills. For students majoring in the humanities it provides an opportunity to develop areas of writing and publishing competencies in the professional arena.

This track offers three focus options:

- business communication and publishing: for students interested in a career in business.
- technical communication and publishing: for students interested in engineering, science, information science and technology and careers in higher education.
- journalism: for students interested in global journalism and international affairs.

Business Communication and Publishing

Required Courses

COM 270 [WI]	Business Communication	3.0
COM 350 [WI]	Document Design and Evaluation	3.0
or COM 375	Grant Writing	
or WRIT 312	Writing for Target Audiences	
Select one of the following:		3.0
COM 320 [WI]	Science Writing	
COM 420	Technical, Science and Health Editing	
COM T380	Special Topics in Communication Theory	
VSCM 480 [WI]	Graphic Design Seminar: Design Perceptions	
Select one of the following:		3.0
COM 335	Electronic Publishing	
COM 340	Desktop Publishing	
VSCM 479	Graphic Design Seminar: Advanced Media (Bookmaking)	
WRIT 310	Literary Editing & Publication	
WRIT 400 [WI]	Writing for -- and about -- the Web	
Select two of the following:		6.0
COM 160	Introduction to Journalism	
COM 315	Investigative Journalism	
COM 390 [WI]	Global Journalism	
CULA 412	Food Writing	
HNRS 301	Colloquium II *	
WRIT 210 [WI]	The Peer Reader in Context	

WRIT 220 [WI] Creative Nonfiction Writing	
WRIT 225 [WI] Creative Writing	
WRIT 301 [WI] Writing Poetry	
WRIT 302 [WI] Writing Fiction	
WRIT 303 Writing Humor and Comedy	
WRIT 304 [WI] Special Topics in Writing	
WRIT 306 Writing About the Media	
WRIT 312 [WI] Writing for Target Audiences	
Total Credits	18.0

* By Director's permission only.

Technical Communication and Publishing

Required Courses

COM 310 [WI] Technical Communication	3.0
COM 375 [WI] Grant Writing	3.0
or WRIT 312 Writing for Target Audiences	
Select one of the following:	3.0
COM 320 [WI] Science Writing	
COM 350 [WI] Document Design and Evaluation	
COM 420 Technical, Science and Health Editing	
COM T380 Special Topics in Communication Theory	
VSCM 480 Graphic Design Seminar: Design Perceptions [WI]	
Select one of the following:	3.0
COM 335 Electronic Publishing	
COM 340 Desktop Publishing	
VSCM 479 Graphic Design Seminar: Advanced Media (Bookmaking)	
WRIT 310 Literary Editing & Publication	
WRIT 400 [WI] Writing for -- and about -- the Web	
Select any two additional Certificate in Writing and Publishing courses, including but not limited to the following:	6.0
COM 160 Introduction to Journalism	
COM 315 Investigative Journalism	
COM 390 [WI] Global Journalism	
CULA 412 Food Writing	
HNRS 301 Colloquium II *	
WRIT 210 [WI] The Peer Reader in Context	
WRIT 220 [WI] Creative Nonfiction Writing	
WRIT 301 [WI] Writing Poetry	
WRIT 302 [WI] Writing Fiction	
WRIT 303 Writing Humor and Comedy	
WRIT 304 [WI] Special Topics in Writing	
WRIT 306 Writing About the Media	
WRIT 312 [WI] Writing for Target Audiences	
Total Credits	18.0

* By Director's permission only.

Journalism

Required Courses

COM 160 Introduction to Journalism	3.0
Select two of the following:	6.0
COM 261 Advanced Journalism	
COM 315 Investigative Journalism	
COM 390 [WI] Global Journalism	
Select one of the following:	3.0
COM 335 Electronic Publishing	
COM 340 Desktop Publishing	
WRIT 310 Literary Editing & Publication	
WRIT 400 [WI] Writing for -- and about -- the Web	

Select any two additional Certificate in Writing and Publishing courses, including but not limited to the following:

COM 270 [WI] Business Communication	
or COM 310 Technical Communication	
COM 320 [WI] Science Writing	
COM 375 [WI] Grant Writing	
COM 420 Technical, Science and Health Editing	
CULA 412 Food Writing	
HNRS 301 Colloquium II *	
VSCM 479 Graphic Design Seminar: Advanced Media (Bookmaking)	
VSCM 480 Graphic Design Seminar: Design Perceptions [WI]	
WRIT 210 [WI] The Peer Reader in Context	
WRIT 220 [WI] Creative Nonfiction Writing	
WRIT 225 [WI] Creative Writing	
WRIT 301 [WI] Writing Poetry	
WRIT 302 [WI] Writing Fiction	
WRIT 303 Writing Humor and Comedy	
WRIT 304 [WI] Special Topics in Writing	
WRIT 306 Writing About the Media	
WRIT 312 [WI] Writing for Target Audiences	
Total Credits	18.0

* By Director's permission only.

Creative Writing and Publishing track

18.0 quarter credits

This track is designed for students who want to develop their creative writing skills either for personal development and expression, or because they recognize that creative writing develops imagination; sharpens clarity of expression; and enhances sensitivity to other people. Creative writing is a good pre-professional concentration for pre-law, pre-med, and the social sciences. The importance of creative writing has been recognized for engineering and for business.

Select three of the following (one of which must be a 200-level course):

WRIT 220 [WI] Creative Nonfiction Writing	9.0
WRIT 225 [WI] Creative Writing	
WRIT 301 [WI] Writing Poetry	
WRIT 302 [WI] Writing Fiction	
WRIT 303 Writing Humor and Comedy	
WRIT 304 [WI] Special Topics in Writing	
WRIT 306 Writing About the Media	
Select one of the following:	3.0
COM 335 Electronic Publishing	
COM 340 Desktop Publishing	
COM 350 [WI] Document Design and Evaluation	
VSCM 479 Graphic Design Seminar: Advanced Media (Bookmaking)	
WRIT 310 Literary Editing & Publication	
WRIT 400 [WI] Writing for -- and about -- the Web	
WRIT 405 Internship in Publishing *	

Select any two additional Certificate in Writing and Publishing courses, including but not limited to the following:

COM 160 Introduction to Journalism	
COM 261 Advanced Journalism	
COM 270 [WI] Business Communication	
COM 310 [WI] Technical Communication	
COM 315 Investigative Journalism	
COM 320 [WI] Science Writing	
COM 350 [WI] Document Design and Evaluation	
COM 375 [WI] Grant Writing	

COM 390 [WI]	Global Journalism	
COM 420	Technical, Science and Health Editing	
CULA 412	Food Writing **	
HNRS 301	Colloquium II **	
VSCM 480 [WI]	Graphic Design Seminar: Design Perceptions **	
WRIT 312 [WI]	Writing for Target Audiences	
WRIT 210 [WI]	The Peer Reader in Context **	
Total Credits		18.0

* WRIT 405 must be taken twice if no other publishing course is taken.

** By Director's permission only.

Comprehensive Certificate track

18.0 quarter credits

The Comprehensive Track is designed for students whose majors and minors include writing courses (either as electives or required courses) and whose schedules allow for the additional credits to obtain certification.

Select two of the following:		6.0
COM 335	Electronic Publishing	
COM 340	Desktop Publishing	
VSCM 479	Graphic Design Seminar: Advanced Media	
WRIT 310	Literary Editing & Publication	
WRIT 400 [WI]	Writing for -- and about -- the Web	
WRIT 405	Internship in Publishing *	
Select two of the following: **		12.0

Creative Writing

Track A

WRIT 220 [WI] Creative Nonfiction Writing

Any 300-level writing (WRIT) course

Track B

WRIT 225 [WI] Creative Writing

Any 300-level writing (WRIT) course

Professional Writing

Track A

COM 310 [WI] Technical Communication

COM 420 Technical, Science and Health Editing

or COM 375 Grant Writing

or VSCM 480 Graphic Design Seminar: Design Perceptions

Track B

COM 270 [WI] Business Communication

COM 375 [WI] Grant Writing

or COM 350 Document Design and Evaluation

or VSCM 480 Graphic Design Seminar: Design Perceptions

Journalism

COM 160	Introduction to Journalism	3.0
---------	----------------------------	-----

Select one of the following:

COM 315	Investigative Journalism	
COM 390 [WI]	Global Journalism	
CULA 412	Food Writing	
WRIT 210 [WI]	The Peer Reader in Context ***	

Total Credits		21.0
---------------	--	------

* WRIT 405 Must be taken twice.

** Students select two of the following course sequences from at least two different categories

*** By Director's permission only.

Chemistry

Major: Chemistry

Degree Awarded: Bachelor of Arts (BA) or Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: BA -184.5; BS - 190.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 40.0501

Standard Occupational Classification (SOC) code: 19-2031

About the Program

Drexel's Department of Chemistry offers both a BA and a BS degree in chemistry. The BA is offered as a 4-year non-co-op program for those interested in following their undergraduate education in chemistry with professional school, such as law or medicine. The BS degree, offered in three formats (a 5-year three co-op, 4-year one co-op and a 4-year non-co-op), is certified by the American Chemical Society. In addition, a minor in chemistry is available for students in other majors who desire a strong physical science background.

Each student plans a course of study and selects electives in consultation with an advisor in the Department of Chemistry (<http://www.drexel.edu/coas/academics/departments-centers/chemistry>). Students who show initiative and laboratory ability are encouraged to participate in undergraduate research by selecting a research problem in collaboration with one of the departmental faculty members. Students in the BS program are required to participate in undergraduate research through the Senior Research courses.

Most graduate courses in chemistry are open to qualified seniors.

Prerequisites and descriptions of available graduate courses appear in the graduate catalog.

Additional Information

For more information about the major in chemistry, contact:

Daniel King, PhD

Undergraduate Affairs Committee Chair

Department of Chemistry

Drexel University

dk68@drexel.edu

Degree Requirements (BA)

General Education Requirements *

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0

PHYS 201	Fundamentals of Physics III	4.0
Free Electives		
Free electives		36.0
Total Credits		184.5

* Categories of Electives:

- *Humanities and Arts Electives*
Designated courses in art, art history, communication studies, foreign languages (300-level or above), history, literature, music, philosophy, religion, and theatre arts.
- *International Electives*
Designated courses in anthropology, art history, history, literature, music, politics and sociology. Courses with an international focus may be used to fulfill requirements in other categories as well.
- *Social and Behavioral Studies Electives*
Designated courses in anthropology, criminal justice, economics, international relations, history, politics, psychology and sociology.
- *Studies in Diversity Electives*
Africana studies, women's studies or designated cross-listed courses in anthropology, art, art history, history, literature, music, philosophy, politics and sociology.
- *Language Requirement*
Students may satisfy the language course requirements in two ways: (1) taking two terms of sequential study of a foreign language (or placement at the exit level of 103 or above); or (2) taking two terms of a computer language or placement out as determined by the Department of Computer Science.

** Courses with CHEM prefix, although ENVS chemistry courses can also fulfill this requirement.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study (BA)

Four-year Non-Co-op

Term 1		Credits
BIO 122	Cells and Genetics	4.5
CHEM 121	Majors Chemistry I	5.0

PHYS 102	Fundamentals of Physics II	4.0
PHYS 201	Fundamentals of Physics III	4.0

Free Electives

Free electives		24.0
Total Credits		190.5

Footnotes

* Technical electives are defined as 200+ level courses from Science, Mathematics, Business, Engineering or Information Studies. Liberal studies electives are defined as courses (at any level) from all other areas.

** The American Chemical Society requires ACS-certified students to take a specified number of biochemistry courses. To fulfill this requirement in the BS curriculum, you should take a combination of one lecture and one lab course from the choice of: BIO 311, BIO 306 or BIO 404 to fulfill the biochemistry requirement. Students may also choose to take the two lecture courses (BIO 404 and BIO 311) rather than a lecture/laboratory combination.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plans of Study (BS)

Five-year Co-op

(See below this plan for Four-year Non-Co-op and One-Co-op options)

Term 1		Credits

* CHEM 230 and CHEM 231 must be taken concurrently.

** *Biochemistry Requirement:* The American Chemical Society requires ACS-certified students to take a specified number of biochemistry courses. To fulfill this requirement in the BS curriculum, you should take a combination of one lecture and one lab course from the choice of: BIO 311, BIO 306 or BIO 404 to fulfill the biochemistry requirement. Students may also choose to take the two lecture courses (BIO 404 and BIO 311) rather than a lecture/laboratory combination. Note that the courses BIO 122 and BIO 214 are required in order to provide adequate background in biology for taking these upper-level biochemistry courses.

*** Must be at a 200+ level. See Degree Requirements for more information on acceptable classes.

* CHEM 230 and CHEM 231 must be taken concurrently.

** Must be at a 200+ level. See Degree Requirements for more information on acceptable classes.

Accelerated Bachelor's/Master's Dual Degree

The Bachelor's/Master's (BS/MS) dual degree program is an accelerated program providing the academically qualified student with an opportunity to earn both a BS and an MS degree (two diplomas are awarded) in five years, the time normally required to finish the co-op option BS degree alone.

This is an academically demanding program, but there are several allowances built in to enable the program to be completed in the time allotted. For instance, only 180 rather than 190.5 undergraduate quarter credits are required. The co-op experience may be adjusted; the student may take two rather than three co-op cycles, enabling two additional quarters of on-campus study. If needed, the student may also take evening courses while on co-op.

Eligibility

Exceptional students with a cumulative grade point average of at least 3.0 and who are enrolled in the five-year co-op option program are eligible for the BS/MS program. Students formally apply to the program after they have completed 90 credits but before they have completed 120 credits. Students are strongly encouraged to begin planning for the program as early as their freshman year. Students who have more than 120 credits are not eligible.

Transfer students are eligible to join the BS/MS program, but they must be able to complete the program in the time it would take to complete the BS degree alone. International transfer students must be able to meet the required minimum TOEFL score for the department graduate program (currently 550) in order to be admitted to the BS/MS program.

Application Process

Interested applicants need to formally apply to the program. Applications are available in the Office of Graduate Admissions or in the College of

Arts & Sciences advisor's office. Applications must be accompanied by a Plan of Study prepared in consultation with the undergraduate and graduate advisor in the department and approved by both the Department Head and the Dean. Entry into the program must be officially approved by both the Department Head and Academic Dean.

BS/MS Requirements

Students enrolled in the BS/MS dual degree program must complete 180 undergraduate quarter credits for the BS degree and at least 45 graduate quarter credits for the MS degree. All graduate departmental requirements must be satisfied in full, including producing a thesis, if the thesis-option Master's program is elected. Master's thesis requirements may be completed in the summer term of the final year with prior approval of the department. Students in the BS/MS program must maintain a cumulative GPA of 3.0 in their undergraduate and graduate coursework to remain in the program. Further questions about the BS/MS degree program should be directed to the departmental graduate advisor.

Additional Information

For more information about the major in chemistry, contact:

Daniel King, PhD
Undergraduate Affairs Committee Chair
Department of Chemistry
Drexel University
dk68@drexel.edu

Minor in Chemistry

The academic minor program in chemistry is designed to expose students to each of the major sub-disciplines of chemistry (analytical, inorganic, organic, and physical). In order to accomplish this students take a total of at least 27.5 credits of chemistry past the freshman year (100 level courses).

As chemistry is an experimental science at least two laboratory courses must be included in the group of courses taken for the minor. Students should note that their academic major may require certain chemistry courses that can also be used to fulfill the requirements for a minor in chemistry.

Required Courses

CHEM 241	Organic Chemistry I	4.0
CHEM 230	Quantitative Analysis	4.0
CHEM 253	Thermodynamics and Kinetics	4.0
CHEM 421	Inorganic Chemistry I	3.0
CHEM 244	Organic Chemistry Laboratory I	3.0
Chemistry Electives**		9.5
Total Credits		27.5

* May substitute CHEC 352 Physical Chemistry and Applications II (4 credits) or CHEC 353 Physical Chemistry and Applications III (4 credits) for the CHEM 253 Thermodynamics and Kinetics requirement.

** The 9.5 credits of chemistry electives must include at least one additional laboratory course. These electives are selected from any of the regularly offered chemistry department lecture or laboratory courses 200-level and above according to your specific interests. Note that existing course pre-requisites may affect which courses may be selected. The variable credit courses CHEM 493 Senior Research Project or CHEM 497 Research (Undergraduate) may also be used to fulfill either the lecture or laboratory requirements for the minor.

Additional Information

For more information about the minor in chemistry, contact:

Daniel King, PhD
Undergraduate Affairs Committee Chair

Co-op/Career Opportunities

Opportunities for chemistry majors include working in research and development in corporate and government laboratories in the chemical, pharmaceutical and agricultural (e.g., U.S. Department of Agriculture) sectors. There is a remarkably high concentration of chemical and pharmaceutical companies in the Philadelphia region. Other options include entering medical, dental, law, or other professional schools.

The major in chemistry is sufficiently flexible to allow students to prepare to teach at the secondary level. With proper selection of electives, students can meet teacher certification requirements.

Sample Co-op Opportunities

A five-year co-op degree is offered. When students complete their co-op jobs, they are asked to write an overview of their experiences. These brief quotes are taken from some recent student reports:

Assistant chemist, pharmaceuticals manufacturer: "My position involved the synthesis and characterization of target compounds in the endothelium project. Involved the development of synthetic roots to the prescribed target. This would include the investigation of reactions which were going to be used. . . .the position was very independent. . .great working environment. "

Co-op chemist, petroleum refiner: "Performed synthesis of ligands and metal complexes. Operated FT-IR spectrometer for sample analysis. Submitted samples for analysis by mass spectrometer and NMR. . . .The position allowed me to develop the skills necessary for independent research in organic synthesis. "

Assistant lab technician, pharmaceuticals manufacturer: "I was an assistant technician in a mass spectrometry lab. . . . I was responsible for the development of SDS-gel electrophoresis techniques for gels and gel membranes. . . . I developed the methods independently and my employer encouraged me to be an expert on the technique and explore any method I found that would benefit the lab. "

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Facilities

There are nine undergraduate teaching laboratories in the department: three freshman Chemistry labs, three Organic Chemistry labs, a Physical Chemistry lab, an Analytical Instrumentation Laboratory and a combined Analytical/Inorganic Chemistry lab.

Mass Spectrometry Laboratory

The department maintains a professionally staffed mass spectrometry facility available to all members of the university community. Currently available instrumentation consists of a Waters Autospec M high resolution magnetic-sector mass spectrometer, a Bruker Autoflex III MALDI Time-of-Flight Mass Spectrometer, a Thermo LTQ-FT Fourier Transform Mass Spectrometer, a Sciex API-3000 triple-quadrupole mass spectrometer, and a Varian Saturn 2000 Gas Chromatograph/Ion-trap mass spectrometer system.

Nuclear Magnetic Resonance Laboratory

The professionally staffed Chemistry Department NMR facility is equipped with 300MHz and 500MHz Varian Unity INNOVA NMR systems; both instruments have multi-nuclear capability. The probe on the 500MHz instrument is a cryogenically cooled triple resonance model (1H {13C/15N}) suitable for protein analysis. A Varian X-band 12" EPR spectrometer is also available.

Analytical Instrumentation Laboratory

The open-access departmental Analytical Instrumentation Laboratory includes two Perkin-Elmer (PE) Spectrum One Fourier-transform infrared absorption spectrometers each with a universal diamond ATR accessory, a PE Lambda-35 UV/visible spectrometer, a PE Lambda-950 UV/visible/NIR spectrometer with a 60-mm-diameter diffuse reflectance integrating sphere, a PE model 343 polarimeter, a PE LS55B luminescence spectrometer, a PE Clarus 500 capillary-column GC with dual FID detectors, a Clarus 500 capillary-column GC/MS system (with electron impact capability), a PE Series 200 Quaternary HPLC development system with UV/visible photodiode array detector, a PE Series 200 binary HPLC system interfaced to a Sciex 2000 triple-quadrupole mass spectrometer, a PE Series 2000 binary Gel Permeation Chromatography system with refractive index detector, and a Varian AA240FS flame atomic absorption spectrometer equipped with a GTA 120 Graphite Furnace Accessory.

Organic Instrumentation Laboratory

The Organic Instrumentation Laboratory (co-located with the organic synthesis teaching laboratories in the Papdakis Integrated Sciences Building) is equipped with two Perkin-Elmer (PE) Spectrum Two Fourier-transform infrared absorption spectrometers each with a universal diamond ATR accessory, a PE Clarus 500 capillary-column GC with one FID and one TCD detector, and an Anasazi EFT-90 FT-NMR system.

Other Departmental Facilities

The department has a VEECO INNOVA N3 Multimode Scanning Probe Microscope and also maintains a computational chemistry laboratory equipped with nine Dell Optiplex 790 computers running Hyperchem v 8.0. Research laboratories for each of the department faculty members are located in Disque and Stratton Halls. Instrumentation available in the research laboratories is described on individual faculty web pages. Full-time professional support includes two electronic instrument specialists (for NMR and MS- Chemistry Department), two electronics specialists (College of Arts & Sciences Electronics Shop), and four machinists (Drexel University Machine Shop).

Chemistry Faculty

Anthony W. Addison, PhD (*University of Kent at Canterbury, England*). Professor. Design and synthesis of novel biomimetic and oligonuclear chelates of copper, nickel, iron, ruthenium and vanadium; their interpretation by magnetochemical, electrochemical and spectroscopic methods, including electron spin resonance; CD and ESR spectroscopy and kinetics for elucidation of molecular architecture of derivatives (including NO) of oxygen-binding and electron-transfer heme- and non-heme iron metalloproteins of vertebrate and invertebrate origins; energy-transfer by Ru, Ir and lanthanide-containing molecules and assemblies.

Jason Cross, PhD (*University of Surrey (UK)*). Assistant Teaching Professor. Luminescent lanthanide complexes

Peter DeCarlo, PhD (*University of Colorado*) Graduate Studies Advisor.. Associate Professor. Outdoor air quality, particulate matter size and composition instrumentation and measurements, source apportionment of ambient particulate matter, climate impacts of particulate matter.

Aaron Fafarman, PhD (*Stanford University*). Assistant Professor. Photovoltaic energy conversion; solution-based semiconductor synthesis; colloidal nanocrystals; electrical and optical spectroscopies.

Fraser Fleming, PhD (*University of British Columbia (Canada)*) Department Head, Chemistry. Professor. Nitriles, Isonitriles, Stereochemistry, Organometallics

Joe P. Foley, PhD (*University of Florida*) Associate Department Head. Professor. Separation science, especially the fundamentals and biomedical/pharmaceutical applications of the following voltage- or pressure-driven separation techniques: capillary electrophoresis (CE), electrokinetic chromatography, supercritical fluid chromatography, and high-performance and two-dimensional liquid chromatography (LC). Within these techniques, we explore novel separation modes (e.g., dual-opposite-injection CE and sequential elution LC), novel surfactant aggregate pseudophases, and chiral separations.

Lee Hoffman, PhD (*Flinders University, Adelaide, South Australia*). Assistant Teaching Professor. Interfacial studies on the self-assembly of natural organic materials, understanding the nature of each component, and development of a mechanism describing this process; Dendrimer/metal nanocomposite design and synthesis hosting metal nanoparticles, utilizing the multivalent dendritic polymer architecture for further exploitation with other molecules such as antibodies and other targeting species.

Monica Ilies, PhD (*Polytechnic University of Bucharest*). Assistant Teaching Professor.

Haifeng Frank Ji, PhD (*Chinese Academy of Sciences*). Professor. Chemistry Micromechanical sensors for biological and environmental applications; Nanomechanical drug screening technology.

Daniel B. King, PhD (*University of Miami*). Associate Professor. Assessment of active learning methods and technology in chemistry courses; incorporation of environmental data into chemistry classroom modules; development of hands-on activities and laboratory experiments.

Daniel A. Kleier, PhD (*University of Notre Dame*). Associate Teaching Professor.

Molly O'Connor, PhD (*Drexel University*). Assistant Teaching Professor. Synthesis and characterization of chiral and achiral metal complexes with novel multidentate ligands.

Kevin G. Owens, PhD (*Indiana University*). Associate Professor. Mass spectrometry research, including the development of sample preparation techniques for quantitative analysis and mass spectrometric imaging using matrix-assisted laser desorption/ionization (MALDI) time-of-flight mass spectrometry (TOFMS) techniques for both biological and synthetic polymer systems, the development of laser spectroscopic techniques for combustion analysis, and the development of correlation analysis and other chemometric techniques for automating the analysis of mass spectral information.

Lynn S. Penn, PhD (*Bryn Mawr College*). Professor. Surface modification for specific applications: chemically derivatize metal and ceramic solid surfaces; designing and executing sequential chemical processes, building complex and layered structures on surfaces, with specific focus on behavior of polymer brushes (investigating the fundamental transport-selective behavior of polymer brushes because of potential in drug delivery, biomedical devices and as an explanation of some biological processes).

Reinhard Schweitzer-Stenner, PhD (*Universitat Bremen (Germany)*). Professor. Exploring conformational ensembles of unfolded or partially folded peptides and proteins; determining the parameters governing peptide self-aggregation; structure and function of heme proteins; investigating protein-membrane interactions; use of IR, VCD, Raman, NMR and absorption spectroscopy for structure analysis.

Karl Sohlberg, PhD (*University of Delaware*). Associate Professor. *Chemistry* Computational and theoretical materials-related chemistry: (1) complex catalytic materials; (2) mechanical and electrical molecular devices.

Peter A. Wade, PhD (*Purdue University*). Associate Professor. Exploration of a newly discovered [3,3]-sigmatropic rearrangement in which O-allyl nitronic esters are thermally converted to α,β -unsaturated nitro compounds; development and exploitation of a carbon-based hemiacetal mimic; and exploration of cycloaddition reactions involving nitroethylene derivatives and novel nitrile oxides.

Anthony Wambsgans, PhD (*Rice University*). Associate Teaching Professor.

Jun Xi, PhD (*Cornell University*). Associate Teaching Professor. Biomacromolecular interactions both in solution and in confined environment; mechanisms of DNA replication and DNA repair; structure and function of molecular chaperones; drug target identification and new therapeutic development; single molecule enzymology; DNA directed organic synthesis.

Emeritus Faculty

Amar Nath, PhD (*Moscow State University, Moscow USSR*). Professor Emeritus.

Communication

Major: Communication

Degree Awarded: Bachelor of Science (BS) or Bachelor of Arts (BA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 09.0401; 09.0900; 09.0908; 09.9999; 23.1303

Standard Occupational Classification (SOC) code: 11-2011; 11-2031; 27-3022; 27-3041; 27-3042; 27-3043

About the Program

The Communication department offers a major in communication, with concentrations in public relations, journalism, technical and science communication, and an open, flexible track.

The department is committed to helping students become broadly educated and professionally competent communicators. Students are exposed to a variety of media and are guided in the development of their interpretive and expressive skills.

All communication majors take a common core of courses that emphasize communication theory and methods. They then specialize in one of four concentrations. Students in the public relations concentration pursue careers in public relations, event planning, media relations, social media, and corporate communication. Those who choose the technical and science communication concentration go on to work in technical writing, science writing, publishing, and software and hardware documentation. Journalism students pursue careers in journalism and news. Students in the Open concentration have the flexibility of crafting their path through the major and thus have career possibilities in any of the areas listed here. Many communication graduates also go on to law school, to business school for an MBA, or to graduate school.

Students who elect the public relations concentration have the option of pursuing either a bachelor of arts degree or a bachelor of science degree. Students who elect the technical and science communication concentration must pursue the bachelor of science degree. Students in journalism must complete the requirements for the bachelor of arts degree. Students in the open track complete the requirements for the bachelor of arts degree.

Degree Requirements: Journalism (BA)

Journalism provides students with the skills and theoretical perspective they need to be a journalist in today's swiftly changing media environment. An extension of the program's core curriculum, the concentration hones the student's ability to write, edit, and produce audiovisual content while at the same time exposing the student to new and evolving aspects of the field.

General Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PSY 101	General Psychology I	3.0
UNIV H101	The Drexel Experience	1.0
UNIV H201	Looking Forward: Academics and Careers	1.0
Two mathematics courses		6.0-8.0
Two science courses		6.0-8.0
Foreign language courses		7.0-15.0
Humanities and fine arts		12.0
Social and behavioral sciences		9.0
International studies		6.0
Studies in diversity		6.0

Communication Core Requirements		
Theory Sequence		
COM 101	Human Communication	3.0
COM 150	Mass Media and Society	3.0
COM 210	Theory and Models of Communication	3.0
COM 400	Seminar in Communication	3.0
LING 101	Introduction to Linguistics	3.0
or LING 102	Language and Society	
Methods Sequence		
COM 220	Qualitative Research Methods	3.0
COM 221	Quantitative Research Methods in Communication	3.0
Additional Core Requirements		
COM 230	Techniques of Speaking	3.0
COM 240	New Technologies In Communication	3.0
COM 491	Senior Project in Communication I	3.0
COM 492	Senior Project in Communication II	3.0
PHIL 305	Ethics and the Media	3.0
Journalism Concentration Requirements		
COM 160	Introduction to Journalism	3.0

COM 261	Advanced Journalism	3.0
COM 266	Copy Editing for the Media	3.0
COM 315	Investigative Journalism	3.0
COM 365	Journalists, the Courts, and the Law	3.0
TVPR 220	TV News Writing	3.0
Additional Electives		
Communication electives		18.0
Free Electives		38.0
Total Credits		180.0-192.0

* At least one foreign language course must be at the 200-level.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Degree Requirements: Public Relations (BA)

The concentration in public relations covers a broad range of activities that help an organization and its public communicate with one another. The field includes public relations, media relations, event planning, publication design, employee and customer communication, social media, and government relations.

Skills in this field include written, oral, and visual communication. A public relations specialist might be called on to write articles for an in-house newsletter, to research and write an annual report to shareholders, to publicize a special event, to write a speech for an executive, to plan a press conference, to develop a media plan for an organization, or to script a video for an employee orientation session.

Degree Requirements: Public Relations (BS)

The concentration public relations covers a broad range of activities that help an organization and its public communicate with one another. The field includes public relations, media relations, event planning, publication design, employee and customer communication, social media and government relations.

Skills in this field include written, oral, and visual communication. A public relations specialist might be called on to write articles for an in-house newsletter, to research and write an annual report to shareholders, to publicize a special event, to write a speech for an executive, to plan a press conference, to develop a media plan for an organization, or to script a video for an employee orientation session.

General Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PSY 101	General Psychology I	3.0
UNIV H101	The Drexel Experience	1.0
UNIV H201	Looking Forward: Academics and Careers	1.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Degree Requirements: Technical & Science Communication (BS)

Students within this track learn to communicate scientific and technical information to various professional and public audiences. The program combines courses that develop communication skills with courses that enhance understanding of science and technology.

Students who study technical and science communication find work in a wide range of areas, including technical writing for software or hardware products, proposal and grant writing, and research or writing in the fields of health, pharmaceuticals, medicine or science.

Co-op/Career Opportunities

Public Relations

Graduates with a concentration in public relations find employment in a wide variety of fields, including public relations, advertising, special events planning, writing and editing, and public information. In addition, the strong communication and management skills stressed by this concentration enable the graduates to find administrative positions in various business areas with an indirect relationship to public relations such as marketing, sales, human resources consulting, or publishing.

Although graduate study is not necessary for those who pursue careers in public relations, students have used the major as a basis for graduate work in a variety of areas, including communication, business, and law.

Co-op Experiences in Public Relations

Cooperative education opportunities are available with a variety of corporations and nonprofits in such positions as corporate communication specialist, public relations assistant, and newsletter writer. The following are samples of co-op experiences:

- Advertising and Promotions Assistant, CoreStates Bicycle Championships, Philadelphia.
- Corporate Communications Co-op, Philadelphia Electric Company, Philadelphia.
- Advertising/ Promotions Co-op, U.S. Marketing Division, Mobil Oil Corp., Fairfax, VA.
- Assistant Coordinator, Communications Bureau, United Way of Southeastern Pennsylvania, Philadelphia.

Journalism

Journalism students pursue careers in journalism, broadcast media, and news. Given the rapidly changing nature of these fields, graduates may also find work in new types of publishing platforms, such as social media or mobile, or involving audiovisual content creation. Journalism graduates may also choose to pursue graduate study, whether in journalism or another discipline.

Co-op Experiences in Journalism

Journalism students have held co-ops with a number of media, news, and information companies, including the following:

- *Production assistant*, WPVI-TV (Channel 6) Philadelphia
- *Staff writer*, Delaware County Daily Times
- *Promotions department*, WPLY-FM (Y-100)
- *Production assistant*, sports department, FOX-29 (WTFX-TV)

Technical and Science Communication

Students who study technical and science communication are prepared for a variety of career options. Many students become technical writers and editors who produce manuals and reports about high-technology products and services. Students may also go on to write specifications and in-house organs for business, industry, and government. Other students conduct and interpret surveys for business. In addition, this program is excellent preparation for graduate study in a number of fields, such as law and medicine.

Co-op Experiences in Technical and Science Communication

Communication students have worked for corporations and nonprofit organizations. The following are some samples of past co-op experiences:

- *Technical writer*, Unisys Corp. and Hewlett Packard
- *Web page writer*, Hospital of the University of Pennsylvania
- *Pharmaceutical writer*, GlaxoSmithKline
- *Medical writer*, Medcases Corp.

Open Communication Track

Students in the Open track will develop a focus that fits their interests in the field of Communication and will thus be ready for a variety of career options, which can include any of the directions open to students in the other concentrations in communication. In addition, this program is

excellent preparation for graduate study in a number of fields, such as law and medicine.

Co-op Experiences in the Open Communication track

Students in this track can choose from the variety of co-op opportunities open to any student in Communication.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Minor in Communication

The minor in communication is a 24.0 credit curriculum designed to familiarize students with communication theory while providing training in print and digital communication. The minor can provide a strong complement for majors that emphasize presentations, interpersonal skills, publicity, and marketing. Students minoring in communication can focus on public relations, journalism, technical and science communication, environmental communication, or nonprofit communication.

Students complete 2 required courses, 2 courses in one of the areas listed below, and four additional electives from the COM course offerings that fit their interest.

Please note: No more than three courses that are required for a student's major can count towards fulfilling requirements for the minor.

Core Courses

COM 101	Human Communication	3.0
or COM 111	Principles of Communication	
COM 210	Theory and Models of Communication	3.0

Focus Areas 6.0

Select one of the following areas of focus (2 courses):

Journalism

COM 160	Introduction to Journalism
COM 261	Advanced Journalism

Public Relations

COM 181	Public Relations Principles and Theory
COM 270 [WI]	Business Communication
or COM 282	Public Relations Writing
or COM 284	Public Relations Research, Measurement and Evaluation

Technical and Science Communication

COM 310 [WI]	Technical Communication
COM 320 [WI]	Science Writing
or COM 375	Grant Writing

Environmental Communication

COM 316	Campaigns for Health & Environment
or COM 318	Film, Celebrity and the Environmental Movement
COM 317 [WI]	Environmental Communication

FOUR Additional Courses

Four COM or LING electives	12.0
Total Credits	24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic

advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Communication Faculty

Ronald Bishop, III, PhD (*Temple University*) *Undergraduate Director*. Professor. Investigative reporting, sports journalism, journalism history, journalism sourcing patterns, textual narrative and ideological analysis, cultural history of fame.

Joan W. Blumberg, BA (*Pennsylvania State University*). Instructor. Publishing, electronic publishing, publishing and communications, publishing and mass-media.

Karen Cristiano, MS (*Temple University*) *Assistant Department Head of Communication*. Teaching Professor. Journalism, medical writing, feature writing, copy editing, mass media and society.

Richard Forney Assistant Teaching Professor. Broadcast journalism technology and the effects of new technologies on personal and corporate communication skills.

Alexander Friedlander, PhD (*Carnegie Mellon University*) *Associate Dean for Undergraduate Education, College of Arts and Sciences*. Associate Professor. Rhetorical theory and practice, document design, writing and technology.

Ernest A. Hakanen, PhD (*Temple University*). Professor. Telecommunications policy, adolescent media use, communication theory and history, global media, semiotics.

Barbara Hoekje, PhD (*University of Pennsylvania*). Associate Professor. Sociolinguistic theory, discourse analysis, applied linguistics (language teaching, learning, and testing).

Julia May, PhD (*Drexel University*) *Graduate Director*. Assistant Teaching Professor. Political communication, international politics and news coverage thereof, public opinion, transatlantic relations, war, torture and human rights, debate in the public sphere.

Alexander Nikolaev, PhD (*Florida State University*). Associate Professor. Public relations, political communication, organizational communication, mass communication, international communications and negotiations, communications theory.

Rosemary Rys, MA (*Rowan University*). Assistant Teaching Professor. Public relations and marketing.

Lawrence Souder, PhD (*Temple University*). Associate Teaching Professor. Science and technical writing, communication ethics, nonprofit communication.

Allan Stegeman, MA (*University of Houston*). Teaching Professor. Communication, technology and mass media, video.

Susan Stein, PhD (*University of Wisconsin*). Associate Teaching Professor. Science, environmental, and health communication

Scott Tattar, BA (*York College*). Instructor. Public relations, media relations, technical communication, strategic communication.

Asta Zelenkauskaitė, PhD (*Indiana University*). Assistant Professor. Social media, user-generated content, computer-mediated communication, interactivity, active audience analysis, mobile communication, gender and online identity, prosumer culture, internet of things, quantitative/qualitative research.

Criminology and Justice Studies

Major: Criminology and Justice Studies

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 45.0401

Standard Occupational Classification (SOC) code: 11-9199

Justice Informatics Concentration

Program Description

With its thematic concentration in Justice Informatics (JI), Drexel University has transformed the traditional criminal justice degree program to produce graduates who possess knowledge and skills that are highly valued by criminal justice agencies in the 21st century. Namely, the program draws from criminology and criminal justice and computing and informatics to produce globally aware and technology proficient graduates who bring an analytical and information-led approach to solving the problems crime creates for society.

Each exposure to the criminal justice system represents a data collection point, which becomes part of a massive and disparate array of data held by the government. Students will learn how to collect, manage, visualize, and analyze large sources of information so that they can bring their expertise into the crime and justice occupational arena and/or graduate school. In addition to learning to work with "big" data in the public justice arena, students will learn how to identify, collect, manage, and use data from the expansive -- and rapidly growing -- private system of justice and security to create innovative solutions for identifying, solving, and preventing crime.

Graduates of Drexel's Justice Informatics concentration will be ideally suited to meet the demands of the growing job market for crime analysts among criminal justice, defense, and intelligence agencies and in the private-sector security community. Crime analysts have become an essential part of the modern criminal justice agency. They have become vital to, for example, the large police department looking to deploy resources in a manner that matches crime trends, the intelligence agency working to prevent terrorist events, and the financial services firm hoping to identify the fraudulent use of a credit card. JI graduates can also play an integral role on teams that build future information technology solutions for intelligence, defense, and criminal justice agencies from the public and private sectors.

Given the global nature of crime and justice issues, JI requires one course on international justice systems; and it encourages all students

to participate in at least one faculty-led study abroad program during which students will explore various justice-related themes (examples of recent trips: *The Legacy of Nazi Policing and Cold War Justice in Munich and Prague*; *The Roots of Common Law Justice in London*. Please visit the Study Abroad Program (http://studyabroad.drexel.edu/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=47709) web page to view the location and itinerary of the 2016 study tour). The emphasis on comparative justice and study abroad reside at the leading edge of Drexel's core value of global citizenship.

The Justice Informatics thematic concentration reserves 27.0 credits of free electives so that students can earn a minor outside the Program in Criminology and Justice Studies. Students interested in intelligence/security-related careers should consider minoring in a language. Visit Drexel's Modern Languages Program (<http://www.drexel.edu/culturecomm/academics/undergraduate/modernlang/languages>) web page for a list of language minors.

Additional Information

Minor in Criminal Justice

Students from any major who are interested in the law, legal issues and the forensic sciences may envision a future connection with the criminal

justice system. These students could enhance their career possibilities by adding a minor in criminal justice to their major field of study.

The minor consists of four required courses and four criminal justice electives for a total of 24.0 credits

Required Courses

CJS 101	Introduction to Criminal Justice	3.0
CJS 200	Criminology	3.0
CJS 210	Race, Crime, and Justice	3.0
CJS 220	Crime and the City	3.0

Criminal Justice Elective Courses

Select 12 credits from the following: 12.0

CJS 260	Justice in Our Community	
CJS 261	Prison, Society and You	
CJS 265	Criminal Investigation	
CJS 266	Crime Prevention Planning	
CJS 267	Introduction to Security Studies	
CJS 273	Surveillance, Technology, and the Law	
CJS 274	Sex, Violence, & Crime on the Internet	
CJS 275	Issues in Domestic Violence	
CJS 276	Introduction to Computer Crime	
CJS 277	Introduction to Correctional Practices	
CJS 278	Introduction to Law Enforcement	
CJS 280	Communities and Crime	
CJS 289	Terrorism	
CJS 290	Crime and Public Policy	
CJS 295	International Field Experience	
CJS 302	Advanced Criminological Theorizing	
CJS 320	Comparative Justice Systems	
CJS 330	Crime Mapping I Using Geographic Information Systems	
CJS 335	Intelligence-Led Decision-Making	
CJS 360	Juvenile Justice	
CJS 362	Gender, Crime, and Justice	
CJS 364	Community Corrections	
CJS 365	Computer Investigations and the Law

CJS 379	Forensic DNA Analysis	
CJS 401	Program Evaluation	
CJS T380	Special Topics in Criminology and Justice Studies	
CJS I399	Independent Study	

Total Credits 24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of

writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Justice Informatics Concentration

Professional Experiences

Students will complete one co-op (i.e., professional placement), typically during the spring and summer quarters of their Junior year. This way, when they return for the start of their senior year, they can immediately begin their (impending) post-graduation job search with their co-op experience still recent on their resume. Some placements are paid (usually in the private sector) and others are unpaid (primarily in the public sector). The placements earn students academic credit while providing professional socialization and learning with crime and justice professionals. The networking aspects of these placements are invaluable for future career development. In addition to the learning experiences, past students have received excellent letters of recommendation for future employment agencies and for graduate and law school admissions.

In recent years, students have been placed in local agencies such as the District Attorney's Office, the Institutional Law Project, the Juvenile Law Center, the Defendants Association of Philadelphia, the Philadelphia and Bucks County Prison Systems and the Pennsylvania Prison Society, Pennsylvania and New Jersey State Police. Several students have co-op'd and later worked full time at the Eastern State Penitentiary Historical Site and Museum. On the state level, co-op students have worked with the Board of Probation & Parole and other agencies. At the federal level, The US Customs Service had an agreement to accept cooperative education placements after having been screened by faculty. The faculty in Criminology and Justice Studies has been working over the past few years to expand its list of research co-ops (primarily for students working toward graduate school) and international co-ops.

Criminology and Justice Studies Faculty

Robert D'Ovidio, PhD (*Temple University*) Associate Dean for Humanities and Social Science Research and Graduate Education. Associate Professor. The intersection of computer technology, crime, and the criminal justice system; criminological theory; policing; transnational crime.

Ashley Dickinson, PhD (*Indiana University of Pennsylvania*). Assistant Teaching Professor. Corrections; offender rehabilitation; risk management; offender classification; gender and crime.

Jordan Hyatt, PhD, JD (*University of Pennsylvania, Villanova University School of Law*). Assistant Professor. Community corrections; drug treatment; homelessness; probation/parole; re-entry; risk assessment; sentencing.

Lallen Johnson, PhD (*Temple University*). Assistant Professor. Drugs and violence; race, crime and justice; ecology of crime; geographic information systems.

Robert J. Kane, PhD (*Temple University*) Director, *Criminology and Justice Studies Program*. Professor. Police authority and accountability; urban ecology and sociology; violence and public health; police strategies and practices.

Cyndi Rickards, EdD (*Drexel University*) Senior Assistant Dean for *Community Engagement*. Assistant Teaching Professor. On-line pedagogy; service-learning pedagogy; juvenile justice; domestic violence.

Criminology and Justice Studies

About the Department

In what ways did the War on Drugs of the 1980s and 1990s impact urban communities in terms of street-corner dealing, violence, and overall health? What about national incarceration rates, and racial disparities in the adjudication process? How do so-called Three Strikes laws typically influence the decisions of judges at sentencing? How far will the War on Terrorism push the legal boundaries of government surveillance and the monitoring of electronic communications, and what will be the impacts of such forces? Finally, how are "big data" being used (now and in the future) by justice, intelligence, or private organizations to identify social networks, conduct risk assessments, and make decisions about crime policy and resource deployment?

Drexel University's Program of Criminology and Justice Studies offers a rich educational experience that emphasizes justice and criminological theory, the use of tools and data to answer big questions about crime and justice while teaching students how to translate conceptual knowledge into the state of the art practice. With its three thematic concentrations -- Criminology and Justice Policy, Justice Informatics, and Criminal Justice -- the Department of Criminology and Justice Studies offers students many pathways through which to explore a curriculum that emphasizes learning beyond the classroom in urban, global, and experiential settings.

Criminology and Justice Policy concentration

About the Program

The Criminology & Justice Policy (C&JP) concentration grounds students in criminological theory and crime policy, as well as justice analytics, to help them identify, describe, and respond to current and emerging crime and security problems. A key goal of any rational crime policy is to maximize its benefits — e.g., reducing crime — while limiting its social costs, such as mass-incarceration, racial disparities, and violent backlashes. Through that lens, C&JP students will work with crime and police calls for service data, geo-tagged social media transmissions, and other sources of information to identify and explain crime trends, "hotspots," and "coldspots" across given geographies; and they will put their theory to use as they learn to generate and test research hypotheses related to crime and justice policy outcomes. Moreover, through community-based learning (a core value of the program), C&JP offers students the unique opportunity to experience criminology and justice education from the perspectives of those most affected by the criminal justice system: One required course is taught in an active jail; another is taught in a local community service organization.

Finally, recognizing the global nature of crime and justice issues, C&JP requires one course on international justice systems, two globally-themed courses outside the program; and it encourages all students to participate in at least one faculty-led study abroad program during which students will explore various justice-related themes (examples of recent trips: *The Legacy of Nazi Policing and Cold War Justice in Munich and Prague; The Roots of Common Law Justice in London*. Please see the Study Abroad Program (http://studyabroad.drexel.edu/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=47709) web page to view the location and itinerary of the 2016 study tour.). The emphasis on comparative justice and study abroad reside at the leading edge of Drexel's core value of global citizenship.

The Criminology & Justice Policy thematic concentration reserves 31.0 credits of free electives so that students can earn a minor outside the Program in Criminology and Justice Studies. Students interested in intelligence/security-related careers should consider minoring in a language. Visit Drexel's Modern Languages Program (<http://www.drexel.edu/coas/academics/departments-centers/global-studies-modern-languages/degrees-programs/modern-languages>) web page for a list of language minors.

Minor in Criminal Justice

Students from any major who are interested in the law, legal issues and the forensic sciences may envision a future connection with the criminal justice system. These students could enhance their career possibilities by adding a minor in criminal justice to their major field of study.

The minor consists of four required courses and four criminal justice electives chosen from two categories, for a total of 24.0 credits.

Required Courses		
CJS 101	Introduction to Criminal Justice	3.0
CJS 200	Criminology	3.0
CJS 210	Race, Crime, and Justice	3.0

CJS 220	Crime and the City	3.0
Criminal Justice Elective Courses		
Select 12 credits from the following:		12.0
CJS 260	Justice in Our Community	
CJS 261	Prison, Society and You	
CJS 265	Criminal Investigation	
CJS 266	Crime Prevention Planning	
CJS 267	Introduction to Security Studies	
CJS 273	Surveillance, Technology, and the Law	
CJS 274	Sex, Violence, & Crime on the Internet	
CJS 275	Issues in Domestic Violence	
CJS 276	Introduction to Computer Crime	
CJS 277	Introduction to Correctional Practices	
CJS 278	Introduction to Law Enforcement	
CJS 280	Communities and Crime	
CJS 289	Terrorism	
CJS 290	Crime and Public Policy	
CJS 295	International Field Experience	
CJS 302	Advanced Criminological Theorizing	
CJS 320	Comparative Justice Systems	
CJS 330	Crime Mapping I Using Geographic Information Systems	
CJS 335	Intelligence-Led Decision-Making	
CJS 360	Juvenile Justice	
CJS 362	Gender, Crime, and Justice	
CJS 364	Community Corrections	
CJS 365	Computer Investigations and the Law	
CJS 366	Technology and the Justice System	
CJS 369	Forensic Science Survey Course	
CJS 372	Death Penalty - An American Dilemma	
CJS 374	Restorative Justice	
CJS 375	Criminal Procedure	
CJS 376	Sentencing	
CJS 377	Intellectual Property Theft in the Digital Age	
CJS 378	Science of Forensic Science	
CJS 379	Forensic DNA Analysis	
CJS 401	Program Evaluation	
CJS T380	Special Topics in Criminology and Justice Studies	
CJS I399	Independent Study	
Total Credits		24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the

attribute "WI" to bring up a list of all writing-intensive courses available that term.

Criminology and Justice Policy concentration

Professional Experiences

Students will complete one co-op (i.e., professional placement), typically during the spring and summer quarters of their Junior year. When they return for the start of their senior year, they can immediately begin their (impending) post-graduation job search with their co-op experience still recent on their resume. Some placements are paid (usually in the private sector) and others are unpaid (primarily in the public sector). The placements earn students academic credit while providing professional socialization and learning with crime and justice professionals. The networking aspects of these placements are invaluable for future career development. In addition to the learning experiences, past students have received excellent letters of recommendation for future employment agencies and for graduate and law school admissions.

In recent years, students have been placed in local agencies such as the District Attorney's Office, the Institutional Law Project, the Juvenile Law Center, the Defendants Association of Philadelphia, the Philadelphia and Bucks County Prison Systems and the Pennsylvania Prison Society, Pennsylvania and New Jersey State Police. Several students have done co-ops and later worked full time at the Eastern State Penitentiary Historical Site and Museum. On the state level, co-op students have worked with the Board of Probation & Parole and other agencies. At the federal level, The US Customs Service had an agreement to accept cooperative education placements after having been screened by faculty. The faculty in Criminology and Justice Studies has been working over the past few years to expand its list of research co-ops (primarily for students working toward graduate school) and international co-ops.

Criminology and Justice Studies Faculty

Robert D'Ovidio, PhD (*Temple University*) Associate Dean for Humanities and Social Science Research and Graduate Education. Associate Professor. The intersection of computer technology, crime, and the criminal justice system; criminological theory; policing; transnational crime.

Ashley Dickinson, PhD (*Indiana University of Pennsylvania*). Assistant Teaching Professor. Corrections; offender rehabilitation; risk management; offender classification; gender and crime.

Jordan Hyatt, PhD, JD (*University of Pennsylvania, Villanova University School of Law*). Assistant Professor. Community corrections; drug treatment; homelessness; probation/parole; re-entry; risk assessment; sentencing.

Lallen Johnson, PhD (*Temple University*). Assistant Professor. Drugs and violence; race, crime and justice; ecology of crime; geographic information systems.

Robert J. Kane, PhD (*Temple University*) Director, Criminology and Justice Studies Program. Professor. Police authority and accountability; urban ecology and sociology; violence and public health; police strategies and practices.

Cyndi Rickards, EdD (Drexel University) Senior Assistant Dean for Community Engagement. Assistant Teaching Professor. On-line pedagogy; service-learning pedagogy; juvenile justice; domestic violence.

Criminology and Justice Studies

Major: Criminology and Justice Studies

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 45.0401

Standard Occupational Classification (SOC) code: 11-9199

Criminal Justice Concentration

The Criminal Justice concentration is housed in the Program of Criminology and Justice Studies and serves as the "generalist" concentration for the program. Specifically, the Criminal Justice concentration focuses its curriculum primarily on the substance of criminal justice institutions and crime and does not require many of the analytics and computer-based courses that the other two concentrations require. This concentration is primarily intended for students seeking a traditional criminal justice education. Because the Criminal Justice concentration reserves 41.0 credits of free electives, it is the most flexible of the three concentrations, allowing students, for example, to relatively easily double major, or to take on a minor while still reserving enough free credit for other courses of interest outside the program.

Despite that the CJ concentration is the least analytically demanding of the three concentrations, it still offers the community-based learning and global perspective of the other two concentrations. Students in all three concentrations are encouraged to participate in at least one faculty-led study abroad program during which students will explore various justice related themes. Recent trips have been *The Legacy of Nazi Policing and Cold War Justice* in Munich and Prague and *The Roots of Common Law Justice* in London. Please see the Study Abroad Program (http://studyabroad.drexel.edu/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=47709) web page to view the location and itinerary of the 2016 study tour. The emphasis on comparative justice and study abroad reside at the leading edges of Drexel's core value of global citizenship.

About the Program

Specifically designed to engage students in critical thinking and applied writing skills, the English major offers a wide-ranging curriculum on British, American and World literatures and stresses the cultural, historical and political contexts that shape and affect literary production. The Department of English and Philosophy (<http://www.drexel.edu/coas/academics/departments-centers/english-philosophy>) also offers variety of courses on periods and genres; creative writing; and the relationship between literature and the visual arts, science and technology.

Students develop solid techniques in critical inquiry as well as in writing, literary, and reading skills. Implicit in our undertaking is the leadership role of our department in the formulation and discussion of such broad theoretical and practical questions as the following: the connection between oral and written communication skills; analytical, ethical, and critical thinking; questions of value and morality; the relevance and relation of the past to the present; the relations between and among cultures; the role of literary and philosophical texts in our attempts to explain human motives and behavior; and the relations between the sexes.

Co-op/Career Opportunities

English majors pursue many professional fields in addition to teaching and creative writing. Many go on to law school, politics and government, or business careers. The critical thinking, analytical and writing skills provided by our program are essential for high-level decision-making and problem solving in any professional situation.

Co-op employment is an option for English majors who can explore co-op or internship opportunities at Philadelphia museums, city government and visitors' bureaus, television and radio stations, law firms, and nonprofit organizations.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) for more detailed information on co-op and post-graduate opportunities.

Minor in English

About the Minor

The English minor provides students from other majors with a more intensive background in literature. Coursework in the minor exposes students to literature from a variety of periods, cultures and genres and also provides practice in critical thinking, literary analysis and writing. These courses enrich students' intellectual lives and provide them with skills that are valuable in a variety of professional situations. Where a course required for the minor is already required for a student's major, the student is directed to choose another English elective. Other substitutions are permissible at the discretion of the Program Director.

Program Requirements

Requirements

Select a minimum of 9 credits of the following:	9.0
ENGL 200 [WI] Classical to Medieval Literature	
ENGL 201 Renaissance to the Enlightenment	
ENGL 202 [WI] Romanticism to Modernism	
ENGL 203 [WI] Post-Colonial Literature I	
ENGL 204 Post-Colonial Literature II	
ENGL 205 [WI] American Literature I	
ENGL 206 [WI] American Literature II	
ENGL 207 [WI] African American Literature	
ENGL 211 [WI] British Literature I	
ENGL 212 British Literature II	
ENGL 214 Readings in Fiction	
ENGL 215 [WI] Readings in Poetry	
ENGL 216 [WI] Readings in Drama	
Select a minimum of 6 credits of the following:	6.0
WRIT 220 [WI] Creative Nonfiction Writing	
WRIT 225 [WI] Creative Writing	
WRIT 301 [WI] Writing Poetry	
WRIT 302 [WI] Writing Fiction	
WRIT 303 Writing Humor and Comedy	
WRIT 304 [WI] Special Topics in Writing	
WRIT 306 Writing About the Media	
WRIT 310 Literary Editing & Publication	
WRIT 312 [WI] Writing for Target Audiences	
WRIT 400 [WI] Writing for -- and about -- the Web	
WRIT 405 Internship in Publishing	
Select a minimum of 9 credits of the following:	9.0
ENGL 300 [WI] Literature & Science	
ENGL 302 Environmental Literature	
ENGL 303 Science Fiction	
ENGL 305 [WI] The Mystery Story	
ENGL 306 Literature of Baseball	
ENGL 307 Literature of the Holocausts	
ENGL 310 [WI] Period Studies	
ENGL 315 [WI] Shakespeare	
ENGL 320 [WI] Major Authors	
ENGL 325 Topics in World Literature	
ENGL 330 The Bible as Literature

ENGL 360 [WI] Literature and Society	
ENGL 365 Topics in African American Literature	
ENGL 370 Topics in Literature and Medicine	
ENGL 380 Literary Theory	
Total Credits	24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Accelerated/Dual Degree

About the Program - English BA / Publishing MA

In keeping with Drexel University's commitment to experiential learning, the accelerated degree program of a BA in English and an MA in Publishing offers students the opportunity to graduate in five years with two separate six-month co-op experiences and a Masters degree, which also includes many opportunities for hands-on experience.

Drexel's unique quarter system allows English majors with considerable flexibility within their course of study. Students can focus on writing, literary criticism, or comparative literature, for example, while also enhancing the breadth and depth of their education with courses taught in other departments and programs across the University. Drexel Publishing Group (DPG) is a unique part of the English department. DPG is solely responsible for three publications, each one unique and vital: Painted Bride Quarterly, one of the nation's oldest literary magazines; 5027mac.org, a news and culture blog written by our students; and The 33rd, the only university-based text in the United States that includes interdisciplinary, multi-genre pieces written by students at all levels and faculty as well. DPG and its activities are the overlapping element between our undergraduate and graduate programs, with student at all levels working together to make each element more successful.

Drexel's Masters of Arts in Publishing is interdisciplinary, offering courses in law, marketing, and graphic design. Instructors come from all areas of publishing: from newspapers to small presses, from online venues to academic presses. Classes often feature guest speakers who are also currently working in the industry, such as small press founders, trade magazine editors, agents, and more. Course instructors and

guest speakers inform students and broaden perspectives on career opportunities in the publishing industry.

Admission Requirements

Students must apply when their undergrad status is at a minimum of 90.0 credits and a maximum of 120.0 credits.

Students apply through Graduate Admissions and must follow Drexel University admission application guidelines.

English Faculty

Jan Armon, PhD (*University of Michigan*). Associate Teaching Professor. Academic functions of personal writing, first-year writing.

Kenneth Bingham, MA (*Temple University*). Teaching Professor. Literature of baseball; engineering ethics; first-year writing.

Valerie Booth, PhD (*Emory University*). Associate Teaching Professor. Literature and science; first-year writing.

André Carrington, PhD (*New York University*). Assistant Professor. Cultural politics of race, gender and genre; feminism criticism; critical race theory.

Paula Marantz Cohen, PhD (*Columbia University*) *Dean of the Pennoni Honors College*. Distinguished Professor. Co-editor, *Journal of Modern Literature*. Host of the Drexel Interview. Nineteenth- and early twentieth-century English and American literature; film studies.

Lisa DiMaio, MEd (*Temple University*). Teaching Professor. English as a Second Language (ESL).

Dan Driscoll, MA (*Temple University*) *Associate Director, University Writing Center*. Teaching Professor. Curricular Initiatives. Co-Director, Minor in Writing. First-year writing.

Anne Erickson, PhD (*Purdue University*). Assistant Teaching Professor. Online educational applications; the short story cycle; first-year writing.

Nomi Eve, MFA (*Brown University*). Assistant Teaching Professor. Director, Drexel Storylab. Fiction writing.

Robert Finegan, MFA (*University of Pittsburgh*). Associate Teaching Professor. Technical writing; creative writing; first-year writing.

Alexis Finger, MS (*Queens College, CUNY*). Associate Teaching Professor. Speech education; English as a Second Language (ESL); oral communication.

Valerie Fox, PhD (*Binghamton University*). Teaching Professor. Interests include creative writing, literary editing, cross-disciplinary genres, and small press related topics.

Edward Fristrom, PhD (*State University of New York-Albany*). Associate Teaching Professor. Co-Director, Certificate in Medical Humanities. Medical memoir; writing studies; environmental literature and rhetoric; creative writing, multimedia, and writing education; first-year writing.

Keunah Han, PhD (*Temple University*). Assistant Teaching Professor. English as a Second Language (ESL)

Cassandra Hirsch, MFA (*Rosemont College*). Assistant Teaching Professor. Fiction writing; first-year writing.

Gabriella Ibieta, PhD (*City University of New York*). Associate Professor. Comparative literature; Cuban and Latin American fiction.

Henry Israeli, MFA (*University of Iowa*) *Associate Director, Certificate in Writing and Publishing*. Associate Teaching Professor. Founder and editor of Saturnalia Books, a publisher of contemporary poetry. Holocaust literature; dramatic literature; first-year writing.

Kirsten Kaschock, PhD (*University of Georgia*). Assistant Teaching Professor. Editor-in-chief of thINKing DANCE. Associate Editor, 5027 Mac. American literature; first-year writing.

Miriam Kotzin, PhD (*New York University*). Professor. Founding Editor, *Per Contra*. American literature; genre studies; creative writing; communications.

Roger Kurtz, PhD (*University of Iowa*) *Department Head*. Professor. Postcolonial and world literatures; African literature and culture; trauma theory.

Stephen Mandell, PhD (*Temple University*). Professor. American literature; technical writing; speech; first-year writing.

Deirdre McMahon, PhD (*University of Iowa*). Associate Teaching Professor. Nineteenth-century British literature and culture: empire, critical race studies and analyses of material culture; first-year writing.

Marianallet Mendez-Rivera, PhD (*University of Minnesota*). Assistant Teaching Professor. Use of the mass media to secure, maintain and enhance political power; international technical communication—including issues of translation v. localization; first-year writing.

Harriet Levin Millan, MFA (*University of Iowa*) *Director, Certificate in Writing and Publishing*. Associate Teaching Professor. Poetry writing; first-year writing.

Jill Moses, MFA (*University of Oregon*). Assistant Teaching Professor. Dramatic literature; first-year writing.

Christopher T. Nielson, PhD (*Purdue University*) *Assistant Department Head; Director, Programs in English*. Teaching Professor. Shakespeare; Renaissance drama and literature; dramatic literature; first-year writing.

Karen Nulton, PhD (*Rutgers University*) *Director, Writing Assessment*. Associate Teaching Professor. American literature; writing assessment; writing pedagogy; writing across the curriculum; first-year writing.

Margene Peterson, MA (*Rhode Island School of Design*). Assistant Teaching Professor. English as a Second Language (ESL).

Abioseh Porter, PhD (*University of Alberta, Canada*). Professor. Editor, *JALA, Journal of the African Literature Association*. Comparative literature; postcolonial literatures.

Donald Riggs, PhD (*University of North Carolina-Chapel Hill*). Teaching Professor. Cinematic monsters; science fiction and fantasy literature and film; Renaissance literature; creative writing; first-year writing.

Donna Rondolone, PhD (*University of Pennsylvania*). Associate Teaching Professor. Medieval literature; Arthurian legend; first-year writing.

Gail Rosen, JD (*Temple University*). Associate Teaching Professor. Literature and law; first-year writing.

Doreen Alvarez Saar, PhD (*SUNY Buffalo*) *American Literature Editor, Rocky Mountain Review of Language and Literature*. Professor. American literature; early American literature; eighteenth-century American literature; race and gender studies.

Sheila Sandapen, PhD (*Indiana University of Pennsylvania*) *Assistant Director, First-Year Writing Program*. Assistant Teaching Professor. Cultural studies; postcolonial literature; British literature; children's literature; women's studies; history and film; first-year writing.

Fred A. Siegel, PhD (*New York University*) *Director, First-Year Writing Program*. Teaching Professor. Popular theater; dramatic literature, creative non-fiction; first-year writing.

Scott Stein, MFA (*University of Miami*). Teaching Professor. Founding Editor, *When Falls the Coliseum: A Journal of American Culture (Or Lack Thereof)*. Creative writing; first-year writing.

Eva Thury, PhD (*University of Pennsylvania*). Associate Professor. Mythology; classical literature; dramatic literature; desktop publishing and software documentation; first-year writing.

Kathleen Volk Miller, MA (*Rutgers University*) Director, Graduate Program in Publishing; Co-Director, Drexel Publishing Group. Teaching Professor. Co-Editor, Painted Bride Quarterly (PBQ). Associate Editor, 5027 Mac. Faculty Advisor, Maya. Creative writing; first-year writing.

Maria Volynsky, EdD (*Temple University*) Associate Director, First-Year Writing Program; ESL Coordinator. Associate Teaching Professor. English as a Second Language (ESL).

Scott Warnock, PhD (*Temple University*) Director, Drexel Writing Center; Director, University Writing Program. Professor. Rhetoric and composition; medical writing; information technology and literacy.

Robert A. Watts, MA (*Temple University*). Associate Teaching Professor. Creative writing; first-year writing.

Rachel Wenrick, MFA (*Columbia University*) Director, Writers Room. Associate Director, University Writing Program: Strategic Initiatives; Co-Director, Minor in Writing. Associate Teaching Professor. First-year writing.

Vincent Williams, PhD (*Temple University*). Associate Teaching Professor. The intersection of race, gender, class and urbanism; first-year writing.

Jennifer Yusin, PhD (*Emory University*). Associate Professor. Postcolonial literature; trauma theory; literary theory; psychoanalysis, and memory studies in contemporary literature in English.

Emeritus Faculty

Valarie Arms, PhD (*Temple University*). Professor Emeritus. Rhetoric and Composition

Richard Astro, PhD (*University of Washington*) Distinguished Professor. Provost Emeritus. Twentieth-century American literature; eighteenth-century British poetry; sports and social issues.

Raymond Brebach, PhD (*University of Illinois*). Professor Emeritus. Modern British fiction; the novel; textual studies.

Environmental Science

Major: Environmental Science

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 183.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 03.0104

Standard Occupational Classification (SOC) code: 19-2041

About the Program

The environmental science program at Drexel University is committed to educating undergraduates for technical careers and graduate study in the diverse areas of environmental science vital to understanding, conservation and restoration of clean and healthy natural environments in the 21st century. The affiliation between the Academy of Natural Science (<http://www.ansp.org>) and Drexel University offers students unique opportunities to take a leadership role in ecology, environmental science and environmental policy, and to grow the scope, capacity and reputation of the natural sciences at the University. The philosophy

of the Biodiversity, Earth, and Environmental Science Department is "Experiential Learning Early and Often."

Environmental science is a multidisciplinary field designed to examine environmental problems and find solutions. This field requires understanding of a number of disciplines, including biology, physics and chemistry. Solving some of our environmental problems also requires knowledge of environmental policy, ethics, and scientific data analysis.

The program has an integrated curricular approach designed around student laboratory and field investigations. The goal of this program is to give students not only knowledge about biology, chemistry, and ecology but also the ability to use the tools and skills of a scientist. The program includes extensive use of computers in the laboratory, and students make frequent oral and written presentations based on their laboratory projects.

Field experience electives may include trips to local aquatic and terrestrial habitats such as streams, lakes, the John Heinz National Wildlife Refuge, New Jersey Pine Barrens, Delaware, Barnegat and Chesapeake Bays, and the Appalachian Mountains. Students are also encouraged to take advantage of study abroad (<http://www.drexel.edu/studyabroad>) options, including ENVIS field courses. These programs often require early planning so it is advisable for interested students to speak to their advisor about opportunities in their first year.

Concentrations are available in:

- Biodiversity and Evolution
- Ecology & Conservation
- Environmental Science

Additional Information

For more information about the program, visit the Department of Biodiversity, Earth & Environmental Science's (<http://www.drexel.edu/coas/academics/departments-centers/bees>) web page.

Susan Cole

Undergraduate Advisor

Environmental Science

coless@drexel.edu or email bees@drexel.edu.

Degree Requirements

The program is designed to prepare students for careers in environmental science, environmental assessment, marine science, basic and applied ecology, biodiversity, evolutionary biology, and conservation and paleontology. The requirements for specific concentrations in biodiversity and evolution; earth science; ecology & conservation; and environmental science follow the list of degree requirements.

Degree Requirements

Humanities and Social Science		
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
COM 230	Techniques of Speaking	3.0
COM 310 [WI]	Technical Communication	3.0
PHIL 340 or PHIL 341	Environmental Ethics Environmental Philosophy	3.0
Humanities/Social Science electives		6.0
UNIV S101	The Drexel Experience	1.0
CIVC 101	Introduction to Civic Engagement	1.0

UNIV S201	Looking Forward: Academics and Careers	1.0
Mathematics and Statistics		18.0
Select one of the following sequences:		
Calculus sequence		
MATH 121	Calculus I	
MATH 122	Calculus II	
MATH 123	Calculus III	
Analysis sequence		
MATH 101	Introduction to Analysis I	
MATH 102	Introduction to Analysis II	
MATH 239	Mathematics for the Life Sciences	
Additional required mathematics courses:		
MATH 410	Scientific Data Analysis I	
MATH 411	Scientific Data Analysis II	
Physical Sciences		
CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
CHEM 103	General Chemistry III	5.0
Choose two chemistry electives from:		5.0-7.0
CHEM 241	Organic Chemistry I	
ENVS 302	Environmental Chemistry Laboratory	
ENVS 310	Introduction to Environmental Chemistry	
Physics sequence		
PHYS 152	Introductory Physics I	4.0
PHYS 153	Introductory Physics II	4.0
PHYS 154	Introductory Physics III	4.0
Biological Sciences		
BIO 122	Cells and Genetics	4.5
BIO 124	Evolution & Organismal Diversity	4.5
BIO 126	Physiology and Ecology	4.5
Geoscience Requirements		
GEO 101	Physical Geology	4.0
GEO 103	Introduction to Field Methods in Earth Science	2.0
GEO 201 [WI]	Earth Systems Processes	3.0
Environmental Science Core Requirements		
ENSS 341	Environmental Movements in America	4.0
or ENSS 347	Introduction to Environmental Policy Analysis	
ENVS 101	Introduction to Environmental Science	5.0
ENVS 102	Natural History, Research and Collections	2.0
ENVS 201	Practical Identification of Plants and Animals	2.0
ENVS 202	Tree of Life	2.0
ENVS 203	The Watershed Approach	2.0
ENVS 212	Evolution	4.0
ENVS 230	General Ecology	3.0
ENVS 308	GIS and Environmental Modeling	3.0
ENVS 441 [WI]	Issues in Global Change I: Seminar	2.0
ENVS 442	Issues in Global Change II: Research	2.0
ENVS 443	Issues in Global Change III: Synthesis	2.0
Environmental Science Lab Requirements		2.0
Environmental Concentration Requirements		12.0-14.0
See list of concentration requirements below.		
Environmental Electives		15.0
Free Electives		24.0
Total Credits		183.5-187.5

Environmental Science Concentrations

Each concentration has four required courses. In addition, the department maintains a menu of electives specific to each concentration. Check with the department for selecting the appropriate 12.0 - 16.0 credits of Environmental Science electives.

Biodiversity & Evolution Concentration

Required Courses		
BIO 244	Genetics I	3.0
ENVS 312	Systematic Biology	3.0
ENVS 438	Biodiversity	3.0
ENVS 470	Advanced Topics in Evolution	3.0
Total Credits		12.0

Ecology & Conservation Concentration

Required Courses		
ENVS 284	Physiological and Population Ecology	3.0
ENVS 286	Community and Ecosystem Ecology	3.0
ENVS 328	Conservation Biology	3.0
Ecology & Conservation elective		3.0
Total Credits		12.0

Environmental Science Concentration

Required Courses		
ENSS 341	Environmental Movements in America	4.0
or ENSS 347	Introduction to Environmental Policy Analysis	
ENVS 275	Global Climate Change	3.0
ENVS 284	Physiological and Population Ecology	3.0
or ENVS 286	Community and Ecosystem Ecology	
ENVS 310	Introduction to Environmental Chemistry	3.0
Total Credits		13.0

Notes about Environmental Science Opportunities:

- Field experience electives include quantitative environmental measurements in local aquatic and terrestrial habitats, such as streams, lakes, the Delaware Bay, the Poconos, and the New Jersey Pine Barrens (for example, Field Botany: NJ Pine Barrens; Ecology of the Pine Barrens; Marine Field Methods).
- Students are required to consult frequently with their academic advisors for curriculum planning. Many of the graduate courses in environmental science are also open to qualified seniors who wish to become familiar with some of the applications in the field. Prerequisites and descriptions of available graduate courses appear in the graduate catalog.
- The Equatorial Guinea: Bioko Island Study Abroad Program offers a unique opportunity for undergraduates and recent graduates to study tropical biodiversity and its conservation, with an emphasis on field work that takes advantage of Bioko Island's pristine rainforests ranging from sea level to over 10,000 feet in altitude, its seven species of rare monkeys and its four species of nesting sea turtles. For more information, please visit the Drexel Study Abroad Office (<http://www.drexel.edu/studyabroad>).

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing

Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

The plan of study below is a generic plan, suited for all four concentrations. Contact the program advisor for additional details.

Term 1		Credits
CHEM 101	General Chemistry I	3.5
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENVS 101	Introduction to Environmental Science	5.0
MATH 101 or 121	Introduction to Analysis I Calculus I	4.0
UNIV S101	The Drexel Experience	1.0
Term Credits		16.5
Term 2		Credits
BIO 124	Evolution & Organismal Diversity	4.5
CHEM 102	General Chemistry II	4.5
CIVC 101	Introduction to Civic Engagement	1.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
MATH 102 or 122	Introduction to Analysis II Calculus II	4.0
Term Credits		17.0
Term 3		Credits
BIO 126	Physiology and Ecology	4.5
CHEM 103	General Chemistry III	5.0
ENVS 102	Natural History, Research and Collections	2.0
GEO 103	Introduction to Field Methods in Earth Science	2.0
MATH 239 or 123	Mathematics for the Life Sciences Calculus III	4.0
Term Credits		17.5
Term 4		Credits
BIO 122	Cells and Genetics	4.5
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
ENVS 201	Practical Identification of Plants and Animals	2.0
GEO 101	Physical Geology	4.0
Free elective		3.0
Term Credits		16.5
Term 5		Credits
ENVS 202	Tree of Life	2.0
ENVS 230	General Ecology	3.0
ENVS 308	GIS and Environmental Modeling	3.0
GEO 201 [WI]	Earth Systems Processes	3.0
Free elective		3.0
Term Credits		14.0
Term 6		Credits
ENVS 203	The Watershed Approach	2.0
ENVS 212	Evolution	4.0
PHYS 152	Introductory Physics I	4.0
PHIL 340 or 341	Environmental Ethics Environmental Philosophy	3.0
Env Chem elective		3.0-4.0
Term Credits		16.0-17.0
Term 7		Credits

PHYS 153	Introductory Physics II	4.0
ENSS 341 or 347	Environmental Movements in America Introduction to Environmental Policy Analysis	4.0
ENVS concentration course*		3.0-4.0
Free elective		3.0
UNIV S201	Looking Forward: Academics and Careers	1.0
Term Credits		15.0-16.0
Term 8		Credits
COM 230	Techniques of Speaking	3.0
MATH 410	Scientific Data Analysis I	3.0
PHYS 154	Introductory Physics III	4.0
ENVS concentration course*		3.0-4.0
Humanities/Social Science elective		3.0
Term Credits		16.0-17.0
Term 9		Credits
COM 310 [WI]	Technical Communication	3.0
MATH 411	Scientific Data Analysis II	3.0
ENVS concentration course*		3.0-4.0
Env Chem elective		2.0-3.0
Free elective		3.0
Term Credits		14.0-16.0
Term 10		Credits
ENVS 441 [WI]	Issues in Global Change I: Seminar	2.0
ENVS concentration course*		3.0-4.0
Environmental Science (ENVS) elective		3.0
Environmental Science (ENVS) lab elective		2.0
Free elective		3.0
Term Credits		13.0-14.0
Term 11		Credits
ENVS 442	Issues in Global Change II: Research	2.0
Environmental Science (ENVS) electives		6.0
Humanities/Social Science elective		3.0
Free elective		3.0
Term Credits		14.0
Term 12		Credits
ENVS 443	Issues in Global Change III: Synthesis	2.0
Environmental Science (ENVS) electives		6.0
Free electives		6.0
Term Credits		14.0
Total Credit: 183.5-189.5		

* See degree requirements (p. 277).

Co-op/Career Opportunities

Environmental scientists pursue careers in environmental assessment, environmental health, ecology, conservation, marine science, and atmospheric science.

Co-op Opportunities

Co-op and research opportunities will be available with the scientists at the Academy of Natural Sciences (<http://www.ansp.org>). In addition, recent co-op experiences have included:

- CHPlanning, Center City Philadelphia
- Lakes Environmental Assn., Maine
- US Environmental Protection Agency, Center City Philadelphia
- Criterion Lab Inc, Philadelphia PA Suburbs
- Philadelphia Water Department, Philadelphia
- Temple University, Philadelphia
- Fairway Testing Co., NYC

University of Alaska, Fairbanks, Alaska
 Bioko Biodiversity Protection Program, Equatorial Guinea
 React Environmental Professional Services Group Inc., Philadelphia
 Air Management Services, Philadelphia
 Exelon Corporation, Philadelphia

Graduate Opportunities

Graduates in this major typically work for government environmental agencies, in environmental consulting firms, and in environmental departments of various industries. Additional training at the graduate level is an option for many students.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Environmental Science Faculty

Walter F. Bien, PhD (*Drexel University*) *Director, Laboratory of Pinelands Research*. Research Professor. Natural resource management, restoration ecology, conservation biology, and New Jersey Pinelands community dynamics.

Carol Collier, FAICP, FAWRA, MRP (*University of Pennsylvania*) *Sr. Advisor, Watershed Management and Policy at the Academy of Natural Sciences; Director, Environmental Studies and Sustainability Program*. Water resources management, environmental planning, climate change policy, the intersection of science, policy and decision making.

Ted Daeschler, PhD (*University of Pennsylvania*) *Associate Curator of Vertebrate Zoology; Vice President for Systematic Biology and the Library; Academy of Natural Sciences*. Associate Professor. Vertebrate fauna of the Late Devonian Period in eastern North America; fossil collecting; systematic work focusing on freshwater vertebrates; nature of early non-marine ecosystems.

Daniel P. Duran, PhD (*Vanderbilt University*). Associate Teaching Professor. Phylogeography, systematics and taxonomy, population and conservation genetics, ecological niche modeling, focusing on insect systems to better understand fundamental evolutionary processes and maintain biodiversity.

Jon Gelhaus, PhD (*University of Kansas*) *Curator, Department of Entomology; Academy of Natural Sciences*. Professor. Systematic expertise in crane flies (Tipuloidea); phylogenetic reconstruction; historical and ecological biogeography; biodiversity measures and evolution of morphological character systems.

Richard J. Horwitz, PhD (*University of Chicago*) *Senior Scientist; Fisheries Section Leader; Ruth Patrick Chair of Environmental Sciences*. Associate Professor. Reproductive ecology, life history and distribution of freshwater fishes; effects of land use, habitat structure and hydrology on population dynamics and species composition in aquatic systems; ecological modeling and biometry; anthropogenic contaminants in fishes.

Susan S. Kilham, PhD (*Duke University*). Professor. Aquatic ecology: phytoplankton; physiological ecology, especially of diatoms in freshwater and marine systems; large lakes; food webs; biogeochemistry.

Danielle Kreeger, PhD (*Oregon State University*). Research Associate Professor. Trophic interactions in aquatic ecosystems.

Tatyana Livshultz, PhD (*Cornell University*) *Assistant Curator of Botany*. Assistant Professor. Expertise of the milkweed and dogbane family

(Apocynaceae); evolution and species diversity of the genus *Dischidia*; differences in floral form and function.

Richard McCourt, PhD (*University of Arizona*) *Associate Curator of Botany, Academy of Natural Sciences of Drexel University; 2010-2012: Program Director, Division of Graduate Education, National Science Foundation*. Professor. Biodiversity, evolution, ecology, and systematic of green algae, specifically charophyte algae.

Michael O'Connor, MD, PhD (*MD, Johns Hopkins University; PhD, Colorado State*). Associate Professor. Biophysical and physiological ecology, thermoregulation of vertebrates, ecological modeling.

Sean O'Donnell, PhD (*University of Wisconsin-Madison*). Professor. Tropical ecology, focusing on geographic variation and elevation effects on ecology and behavior of army ants and ant-bird interactions; neurobiology, focusing on brain plasticity and brain evolution in social insects.

Marina Potapova, PhD (*Russian Academy of Sciences*) *Assistant Curator*. Assistant Professor. Taxonomy, ecology, and biogeography of freshwater diatoms; methods of quantifying morphological characters of diatom frustules based on geometric morphometrics; systematic of monoraphid freshwater diatoms.

Gary Rosenberg, PhD (*Harvard University*) *Pilsbry Chair of Malacology*. Professor. Magnitude and origin of species-level diversity in the Mollusca.

Jacob Russell, PhD (*University of Arizona*). Associate Professor. Microbiomes and metagenomics; ecology and evolution of symbiosis.

James R. Spotila, PhD (*University of Arkansas*) *L. D. Betz Chair Professor*. Professor. Physiological and biophysical ecology, thermoregulation of aquatic vertebrates, biology of sea turtles.

Loyc Vanderkluisen, PhD (*University of Hawaii*). Assistant Professor. The cyclicity of volcanic eruptions, volcanic degassing processes, and large igneous provinces.

David J. Velinsky, PhD (*Old Dominion University*) *Department Head, Biodiversity, Earth and Environmental Science*. Professor. Geochemical cycling of organic and inorganic constituents of sediments and waters; Sedimentary diagenesis of major and minor elements; Isotope biogeochemistry of carbon, nitrogen and sulfur in marine and freshwater systems.

Elizabeth B. Watson, PhD (*University of California, Berkeley*). Assistant Professor. The implications of global and regional environmental change, and unraveling the interacting effects of multiple anthropogenic stressors on coastal ecosystems to promote more informed management, conservation, and restoration.

Jason Weckstein, PhD (*Louisiana State University*) *Associate Curator of Ornithology*. Associate Professor. Avian phylogenetics, comparative biology and evolutionary history; biodiversity surveys of birds and their parasites and pathogens; coevolutionary history of birds and their parasites.

Emeritus Faculty

Jospeh Bentz, PhD (*State University of New York (SUNY) at Buffalo*). Professor. Biophysics, biochemistry and biopharmaceutics, focused on the molecular basis of biological membrane transport and fusion.

John G. Lundberg, PhD (*University of Michigan*). Professor Emeritus. Diversity and diversification of fishes; documenting and interpreting the morphological, molecular, and taxonomic diversity of living and fossil fishes in the interrelated fields of systematic, faunistics and biogeography and paleobiology; exploration and collecting in poorly-known tropical freshwater habitats and regions.

Daniel Otte, PhD (*University of Michigan*) *Senior Curator, Systematics and Evolutionary Biology*. Professor Emeritus. Taxonomy and biogeography of Orthoptera (grasshoppers, crickets, katydids and their relatives).

Environmental Studies

Major: Environmental Science

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 182.0

Classification of Instructional Programs (CIP) code: 03.0313

Standard Occupational Classification (SOC) code: 19-2041

About the Program

Note: Effective Fall 2014, students are no longer being accepted into this program. Please see the BA in Environmental Studies and Sustainability (p. 283).

The major in environmental studies is a multi-disciplinary program designed to provide students with both a technical grounding in environmental science as well as a strong emphasis in social science in order to prepare students for environmental policy careers

The causes and consequences of environmental problems are extremely complex, involving the connection of natural ecological systems to human systems such as physical infrastructure and the built environment. Equally important to understanding environmental problems are the social, economic and political considerations that govern society's ability to balance its current needs and desires with those of future generations. Indeed, ecological problems and their consequences are an enduring problem of society. Problems such as air and water pollution, exposure to toxic chemicals, sprawling land development, environmentally damaging energy extraction and unsustainable energy use practices, to name a few, all conspire to negatively influence our natural world as well as human health and well being.

The environmental studies major draws on the University's academic strengths in science, technology, social science and communication. Courses and faculty are drawn from a diverse set of academic programs: including the natural sciences, social sciences and the humanities. The program also benefits from Drexel's urban location -- as issues related to urban sustainability policy and planning, including urban redevelopment and land reuse practices, transportation policy, green building, energy efficiency, urban farming and food systems, recycling, and racial and class-based environmental justice and health -- are core topics of the program of study.

The degree is designed to prepare students for a wide set of vocational opportunities with governmental agencies, corporations, and nonprofit organizations that develop, implement and communicate environmental policies. Students are strongly encouraged to gain valuable professional experience through Drexel's cooperative education program.

For more information visit the Department of Biodiversity, Earth & Environmental Science (<http://www.drexel.edu/coas/academics/departments-centers/bees>) web page.

Degree Requirements

General Requirements

ANTH 101	Introduction to Cultural Diversity	3.0
or ANTH 110	Human Past: Anthropology and Prehistoric Archeology	
BIO 107	Cells, Genetics & Physiology	3.0
BIO 108	Cells, Genetics and Physiology Laboratory	1.0
BIO 109	Biological Diversity, Ecology & Evolution	3.0
BIO 110	Biological Diversity, Ecology and Evolution Laboratory	1.0
COM 150	Mass Media and Society	3.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PSCI 110	American Government	4.0
PSY 101	General Psychology I	3.0
SOC 101	Introduction to Sociology	3.0
UNIV H101	The Drexel Experience	2.0
Two English (ENGL) Electives *		6.0
Philosophy (PHIL) Elective		3.0
Two History (HIST) Electives		6.0
Math Sequences		8.0

Select one of the following sequences:

MATH 101	Introduction to Analysis I
& MATH 102	and Introduction to Analysis II
MATH 121	Calculus I
& MATH 122	and Calculus II

Environmental Studies Core Requirements

Theory Sequence Requirements

COM 210	Theory and Models of Communication	3.0
SOC 260	Classical Social Theory	3.0
ANTH 410	Cultural Theory I	3.0
or SOC 460	Contemporary Social Theory	

Methods Sequence Requirements

COM 220	Qualitative Research Methods	3.0
SOC 250	Research Methods I	3.0
SOC 364	Computer-Assisted Data Analysis	3.0

Natural Science Requirements

ENVS 230	General Ecology	3.0
ENVS 286	Community and Ecosystem Ecology	3.0
ENVS 328	Conservation Biology	3.0
Natural Science Elective **		3.0

Other Required Courses

ANTH 360	Culture and the Environment	3.0
COM 316	Campaigns for Health & Environment	3.0
COM 317 [WI]	Environmental Communication	3.0
CJS 373	Environmental Crime	3.0
ENSS 325	Introduction to Urban and Environmental Planning	3.0
ENSS 341	Environmental Movements in America	3.0
ENSS 345	Sociology of the Environment	3.0
ENSS 346	Environmental Justice	3.0
ENSS 347	Introduction to Environmental Policy Analysis	3.0
ENVS 260	Environmental Science and Society	3.0
PSCI 331	Environmental Politics	4.0
SOC 240	Urban Sociology	3.0

Other Environmental Studies Program Electives

Select ten of the following:	30.0
------------------------------	------

BIO 118	Basics of Cancer
BIO 220	Essential Microbiology
CHEM 111	General Chemistry I
CHEM 112	General Chemistry II
CHEM 151	Applied Chemistry
COM 101	Human Communication
COM 230	Techniques of Speaking
COM 260	Advanced Journalism
COM 270 [WI]	Business Communication
COM 280	Public Relations Principles and Theory
COM 310 [WI]	Technical Communication
COM 318	Film, Celebrity and the Environmental Movement
COM 320 [WI]	Science Writing
COM 350 [WI]	Document Design and Evaluation
COM 375 [WI]	Grant Writing
ENGL 302	Environmental Literature
ENSS 275	Global Climate Change

Minor in Environmental Studies

The environmental studies minor is an interdisciplinary minor designed to give students specializing in other fields a background in contemporary environmental issues and the ability to analyze such issues. For students majoring in such fields as business and engineering, the minor in environmental studies will provide them with the tools to make better decisions about products or projects related to environmental economics, politic pollutants, environmental policy, and environmental justice. For students who are liberal arts majors, the minor in environmental studies offers the opportunity to focus on the social- and natural-science aspects of the environment, and to be prepared for issues they may encounter in their careers.

Required Courses

ENSS 120	Introduction to Environmental Studies	3.0
ENVS 260	Environmental Science and Society	3.0
ENSS 326	Cities and Sustainability	4.0
ENSS 345	Sociology of the Environment	4.0
ENSS 347	Introduction to Environmental Policy Analysis	4.0
Select two of the following:		6.0
ENSS 275	Global Climate Change	
ENSS 325	Introduction to Urban and Environmental Planning	
ENSS 341	Environmental Movements in America	
ENSS 346	Environmental Justice	
ANTH 360	Culture and the Environment	
CJS 373	Environmental Crime	

ECON 351	Resource and Environmental Economics	
ENGL 302	Environmental Literature	
ENVS 230	General Ecology	
GEO 101	Physical Geology	
GEO 306	Environmental Geology	
PHIL 340	Environmental Ethics	
PHIL 341	Environmental Philosophy	
PSCI 331	Environmental Politics	
SOC 444	Social Movements	
Total Credits		24.0

* Other courses may be taken as electives with Departmental approval.

Environmental Studies and Sustainability

Major: Environmental Studies and Sustainability

Degree Awarded: Bachelor of Arts (BA)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 03.0313

Standard Occupational Classification (SOC) code: 19-2041

The BA in Environmental Studies and Sustainability (ENSS) is administered in the Department of Biodiversity, Earth and Environmental Science (BEES). It is a multidisciplinary degree that takes advantage of existing courses in both the Arts and Sciences to educate graduates who will be able to work in government agencies, corporations and nonprofit organizations who develop, implement or are affected by environmental policies.

Objective

The objective of this major is to educate students so that they will be successful in finding solutions to environmental challenges that all societies will face in the 21st century. Graduates will be educated with the goal of thinking in terms of cross-cultural ideas and dialogue. In that way they will be encouraged to help people of all cultures understand environmental problems and act in the area of environmental stewardship.

The BA in Environmental Studies and Sustainability will provide graduates with a broad understanding of environmental science, policy development, needs of decision makers, attorneys and engineers, urban and international concerns and current environmental issues. Important to any future position in fields of environmental policy, planning and sustainability, the program builds on communication skills, collaboration abilities and team building, a "customer" orientation, creativity and innovative thinking ability, analytical ability and critical thinking and problem solving ability, a work orientation with professionalism and a positive attitude, occupation-specific skill and knowledge through co-op, and leadership ability. Students may opt to specialize in different study tracks including Policy, Government and Business; Social Awareness and Action, and Scientific Inquiry.

Drexel Advantage

There is a distinct advantage to a student in undertaking an environmental studies and sustainability degree at Drexel. Drexel University was one of the first universities in the nation to establish an undergraduate environmental science degree in the late 1960s. Since that time Drexel has expanded to areas of environmental policy and sustainability. Over

the long history of the program, Drexel has established an extensive network of co-op employers who value Drexel students, including federal and state governments, consulting firms, research institutions, non-profit organizations and industry, with work ranging from biological field sampling to developing policy with governmental decision makers, action plans for non-profit organizations, or model environmental strategies with industrial sustainability offices. Drexel students take advantage of the co-op program to both get more extensive experience and get paid while doing so. By graduation, students resumes include real-world experiences.

Degree Requirements

General Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0

Career Opportunities

The largest job opportunities exist in the areas of environmental communication, sustainability, environmental policy, community action, water quality, parks and outdoor recreation, ecotourism, natural resources and conservation, international environmental policy, renewable energy, and climate change

This major will educate individuals who seek careers and/or additional academic training in the following fields:

- Sustainability planning and implementation
- Urban, Regional and Community Planning
- Geographic Information Systems
- Environmental Communications
- Environmental Journalism
- Environmental Law
- Park Management and Outdoor Recreation
- Environmental Consulting
- Environmental Policy Analysis
- Natural Resource Management

Environmental Studies and Sustainability Faculty

Walter F. Bien, PhD (*Drexel University*) Director, Laboratory of Pinelands Research. Research Professor. Natural resource management, restoration ecology, conservation biology, and New Jersey Pinelands community dynamics.

Carol Collier, FAICP, FAWRA, MRP (*University of Pennsylvania*) Sr. Advisor, Watershed Management and Policy at the Academy of Natural Sciences; Director, Environmental Studies and Sustainability Program. Water resources management, environmental planning, climate change policy, the intersection of science, policy and decision making.

Ted Daeschler, PhD (*University of Pennsylvania*) Associate Curator of Vertebrate Zoology; Vice President for Systematic Biology and the Library: Academy of Natural Sciences. Associate Professor. Vertebrate fauna of the Late Devonian Period in eastern North America; fossil collecting; systematic work focusing on freshwater vertebrates; nature of early non-marine ecosystems.

Daniel P. Duran, PhD (*Vanderbilt University*). Associate Teaching Professor. Phylogeography, systematics and taxonomy, population and conservation genetics, ecological niche modeling, focusing on insect systems to better understand fundamental evolutionary processes and maintain biodiversity.

Jon Gelhaus, PhD (*University of Kansas*) Curator, Department of Entomology: Academy of Natural Sciences. Professor. Systematic expertise in crane flies (Tipuloidea); phylogenetic reconstruction; historical and ecological biogeography; biodiversity measures and evolution of morphological character systems.

Richard J. Horwitz, PhD (*University of Chicago*) Senior Scientist; Fisheries Section Leader; Ruth Patrick Chair of Environmental Sciences. Associate Professor. Reproductive ecology, life history and distribution of freshwater fishes; effects of land use, habitat structure and hydrology on population dynamics and species composition in aquatic systems; ecological modeling and biometry; anthropogenic contaminants in fishes.

Susan S. Kilham, PhD (*Duke University*). Professor. Aquatic ecology: phytoplankton; physiological ecology, especially of diatoms in freshwater and marine systems; large lakes; food webs; biogeochemistry.

Danielle Kreeger, PhD (*Oregon State University*). Research Associate Professor. Trophic interactions in aquatic ecosystems.

Tatyana Livshultz, PhD (*Cornell University*) Assistant Curator of Botany. Assistant Professor. Expertise of the milkweed and dogbane family (Apocynaceae); evolution and species diversity of the genus *Dischidia*; differences in floral form and function.

Richard McCourt, PhD (*University of Arizona*) Associate Curator of Botany, Academy of Natural Sciences of Drexel University; 2010-2012: Program Director, Division of Graduate Education, National Science Foundation. Professor. Biodiversity, evolution, ecology, and systematic of green algae, specifically charophyte algae.

Michael O'Connor, MD, PhD (*MD, Johns Hopkins University; PhD, Colorado State*). Associate Professor. Biophysical and physiological ecology, thermoregulation of vertebrates, ecological modeling.

Sean O'Donnell, PhD (*University of Wisconsin-Madison*). Professor. Tropical ecology, focusing on geographic variation and elevation

effects on ecology and behavior of army ants and ant-bird interactions; neurobiology, focusing on brain plasticity and brain evolution in social insects.

Marina Potapova, PhD (*Russian Academy of Sciences*) *Assistant Curator*. Assistant Professor. Taxonomy, ecology, and biogeography of freshwater diatoms; methods of quantifying morphological characters of diatom frustules based on geometric morphometrics; systematic of monoraphid freshwater diatoms.

Gary Rosenberg, PhD (*Harvard University*) *Pilsbry Chair of Malacology*. Professor. Magnitude and origin of species-level diversity in the Mollusca.

Jacob Russell, PhD (*University of Arizona*). Associate Professor. Microbiomes and metagenomics; ecology and evolution of symbiosis.

James R. Spotila, PhD (*University of Arkansas*) *L. D. Betz Chair Professor*. Professor. Physiological and biophysical ecology, thermoregulation of aquatic vertebrates, biology of sea turtles.

Loyc Vanderkluysen, PhD (*University of Hawaii*). Assistant Professor. The cyclicity of volcanic eruptions, volcanic degassing processes, and large igneous provinces.

Elizabeth B. Watson, PhD (*University of California, Berkeley*). Assistant Professor. The implications of global and regional environmental change, and unraveling the interacting effects of multiple anthropogenic stressors on coastal ecosystems to promote more informed management, conservation, and restoration.

Jason Weckstein, PhD (*Louisiana State University*) *Associate Curator of Ornithology*. Associate Professor. Avian phylogenetics, comparative biology and evolutionary history; biodiversity surveys of birds and their parasites and pathogens; coevolutionary history of birds and their parasites.

Emeritus Faculty

Jospeh Bentz, PhD (*State University of New York (SUNY) at Buffalo*). Professor. Biophysics, biochemistry and biopharmaceutics, focused on the molecular basis of biological membrane transport and fusion.

John G. Lundberg, PhD (*University of Michigan*). Professor Emeritus. Diversity and diversification of fishes; documenting and interpreting the morphological, molecular, and taxonomic diversity of living and fossil fishes in the interrelated fields of systematic, faunistics and biogeography and paleobiology; exploration and collecting in poorly-known tropical freshwater habitats and regions.

Daniel Otte, PhD (*University of Michigan*) *Senior Curator, Systematics and Evolutionary Biology*. Professor Emeritus. Taxonomy and biogeography of Orthoptera (grasshoppers, crickets, katydids and their relatives).

Geoscience

Major: Geoscience

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: Three Co-op (Five years)

Classification of Instructional Programs (CIP) code: 40.0601

Standard Occupational Classification (SOC) code: 11-9121; 19-2042

About the Program

From energy to climate change to environmental degradation, many of the most pressing societal issues of the coming century will pertain to geoscience. The study of the Earth is central to maintaining clean drinking water, mitigating environmental contamination, providing ores and rare elements necessary for industry, and locating new sources of energy.

The Biodiversity, Earth and Environmental Science (BEES) Department offers a major in geoscience, with three concentration options designed to meet the needs of students wishing to pursue graduate school or immediate employment in the geosciences:

- Applied Geology
- General Geoscience
- Paleontology

The core requirements encompass foundational courses in science, writing, and math, and traditional courses that form the backbone of the geosciences. Building upon these are innovative courses focused on Earth systems processes, key environmental issues, practical field experiences, and advanced geological study.

In addition to nourishing and honing the passions of students studying the Earth, the core curriculum is designed to:

1. Instill key technical skills early-on, as a pathway to high-quality co-op opportunities;
2. Lay the groundwork for our students to pursue advanced graduate study in the geosciences and other disciplines, and;
3. Enable our graduates to translate marketable skills and knowledge into high-quality jobs in industry and government.

Geoscience majors will begin their field experiences during the first term of their freshmen year. Most courses include a laboratory section or a hands-on recitation section ("dry lab"), plus at least three field trips to relevant regional geological sites. These courses, combined with the co-op experience and summer geological field camp, provide students real-world experience in the field.

About the Concentrations

Applied Geology

The applied geology concentration is designed for students wishing to enter the geoscience workforce upon graduation. Possible employment opportunities include jobs in: environmental consulting, geotechnical consulting, geophysical consulting, the petroleum and natural gas industry, the mining industry, federal agencies (e.g., USGS, USDA, NOAA, FEMA, EPA, DOI, and Army Corps of Engineers), and state and local agencies (e.g., state environmental agencies, state geological surveys, and municipal water departments).

General Geoscience

The general geoscience concentration allows maximum flexibility and is designed for students wishing to pursue other areas of study within the geosciences, students wishing to pursue policy-related careers, and students planning to apply to professional graduate programs, such as those in law or business schools. The policy component of this concentration allows students to explore related societal issues, which may help guide their career aspirations. This concentration also provides transfer students with a pathway to graduate on time.

Students graduating from this concentration will be well prepared to enter graduate school in science or policy, as well as to pursue professional studies. Students seeking immediate employment will be competitive for jobs with, for example, certain NGOs, environmental foundations, consulting companies, and government policy positions related to natural resources and the environment.

Paleontology

The concentration in paleontology prepares students who are interested in pursuing related research in graduate school and students seeking entry-level positions in paleontology. Examples of these jobs include biostratigrapher for petroleum companies, fossil resource manager for the Bureau of Land Management, and related positions with the National Parks Service, USGS, and state geological surveys.

Undergraduates in this concentration benefit from world-class resources already established at the Academy of Natural Sciences. These include the Invertebrate paleontology collection, with over 1 million specimens; the vertebrate fossil collection, with over 22,000 specimens; historically important specimens, such as the Thomas Jefferson fossil collection, the first discovered dinosaur skeleton, and the first discovered tyrannosaur; and the paleobotany collection, with over 5,000 specimens, including a large proportion of type specimens.

Students in the paleontology concentration will have access to numerous fossil sites along the Atlantic Coastal Plain and in the Appalachian Province. Opportunities exist for student research at two well-established sites: Dr. Daeschler's Red Hill site, which produces evolutionarily important forms representing the fish to tetrapod transition; and Dr. Lacovara's Inversand site, which records a mass-death assemblage at the end of the Cretaceous Period.

Additional Information

For additional information about this program, visit the Biodiversity, Earth and Environmental Science (BEES) Department website.

Degree Requirements

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
COM 230	Techniques of Speaking	3.0
COM 310 [WI]	Technical Communication	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PHIL 340	Environmental Ethics	3.0
or PHIL 341	Environmental Philosophy	
UNIV S101	The Drexel Experience	1.0

Term 8		Credits
GEO 311	Stratigraphy	4.0
MATH 410	Scientific Data Analysis I	3.0
PHIL 340 or 341	Environmental Ethics Environmental Philosophy	3.0
GEO Concentration elective		4.0
Term Credits		14.0
Term 9		Credits
MATH 411	Scientific Data Analysis II	3.0
GEO Concentration courses		8.0
Free elective		3.0
Field Camp**		6.0
Term Credits		20.0
Term 10		Credits
ENVS 441 [WI]	Issues in Global Change I: Seminar	2.0
GEO 320	Invertebrate Paleontology	4.0
GEO elective		3.0-4.0
Humanities or Social Science elective		3.0
Free Elective		3.0
Term Credits		15.0-16.0
Term 11		Credits
ENVS 442	Issues in Global Change II: Research	2.0
GEO concentration elective		4.0
Humanities or Social Science elective		3.0
Free elective		6.0
Term Credits		15.0
Term 12		Credits
ENVS 443	Issues in Global Change III: Synthesis	2.0
GEO elective		3.0-4.0
Free electives		7.0
Term Credits		12.0-13.0
Total Credit: 184.0-186.0		

* Choose to start CHEM or BIO sequence depending on concentration. Paleontology students should take BIO 124 & BIO 126. Students interested in applied or geochemistry should start CHEM.

** Note: Students do Field Camps during Co-Op in the Junior year. These 6.0 credits are transferred during Co-Op. Please see your advisor for additional information.

Minor in Geoscience

Geosciences are at the core of numerous problems facing the world today, and impact the lives of communities across the planet. Climate change, natural disasters, access to mineral resources and clean water, and availability of energy all shape government policies and corporate strategies, and are a cause of concern for society at large.

The geoscience minor is designed to give students specializing in other fields the skills to understand and analyze these issues. It is a natural fit for environmental science majors who wish to understand how the physical world can impact biodiversity, ecological processes and environmental impacts. For students majoring in such fields as business and engineering, the minor in geoscience will provide them with the tools to make better decisions about products or projects related to natural hazards and their impact, cost and availability of natural resources, energy policy, space exploration, land use, and environmental justice. For students who are liberal arts majors, the minor in geoscience offers the opportunity to explore earth science issues that shape the social, cultural,

political and scientific debate, and to be prepared for issues they may encounter in their careers.

GEO 101	Physical Geology	4.0
GEO 102	History of the Earth	4.0
GEO Electives		16.0
GEO 103	Introduction to Field Methods in Earth Science	
GEO 201 [WI]	Earth Systems Processes	
GEO 205	Dinosaurs and Their World	
GEO 211	Sedimentary Environments	
GEO 215	Mineralogy	
GEO 301	Advanced Field Methods in Earth Science	
GEO 306	Environmental Geology	
GEO 309	Geochemistry	
GEO 311	Stratigraphy	
GEO 320	Invertebrate Paleontology	
GEO 322	Vertebrate Paleontology	
GEO 325	Structural Geology	
GEO 340	Quaternary Geology	
GEO 342	Geomorphology	
GEO 346	Coastal Geology	
GEO 348	Oceanography	
GEO 350	Volcanology	
GEO 401	Igneous and Metamorphic Petrology	
GEO 412	Geology of Groundwater	
GEO 418	Geophysics	
Total Credits		24.0

Co-Op/Career Opportunities

Co-Op Opportunities

There are over one hundred environmental, geophysical, and geotechnical firms within the greater Philadelphia region. Plus, there are opportunities with federal, state, and municipal agencies, jobs in central Pennsylvania related to the Marcellus Shale, and research opportunities between Drexel and the Academy of Natural Sciences.

All geoscience majors follow the five-year, three co-op plan of study program. Transfer students may be granted an exception for a two co-op plan of study, so that they may remain on schedule. The summer geological field camp will occur during the third co-op cycle. In this third co-op, geoscience students attend field camp and also partake in an abbreviated co-op work experience.

Career Opportunities

According to the US Bureau of Labor Statistics (BLS), employment for geoscientists through 2020 is expected to grow faster than the average for all occupations. In addition, the geosciences are expected to outpace life, physical, and social sciences in job creation. The employment outlook for geoscientists in Drexel's surrounding area is particularly bright, with a robust environmental consulting industry and exploding demand related to Marcellus Shale drilling.

The geoscience major, with its three concentrations, prepares students who are interested in entering the workforce immediately as well as those who are interested in pursuing related research in graduate schools.

Facilities and Field Sites

Facilities

The geoscience major leverages resources at Drexel University and the Academy of Natural Sciences (<http://www.ansp.org>), such as a mineral

collection with 9,000 specimens, over a million fossil specimens, Dinosaur Hall, The Patrick Center for Environmental Research, a state-of-the-art fossil preparation lab, notable research programs, and faculty with expertise in geology, paleontology, and related disciplines.

Summer Geological Field Camp

Summer geological field camp is the quintessential undergraduate experience for geosciences students. It is a long-held tradition in geology departments that students head out West, during the summer before graduation, to apply their knowledge to real-world situations and to acquire field skills that will serve them throughout their careers. This is particularly important for students in eastern schools, where the mountains are small and outcrops are scarce. Field camp also provides networking and bonding opportunity for students. Friends made at field camp often become colleagues for life. At the Geological Society of America meeting, reunions are organized by university *and* by field camp.

The summer geological field camp for geoscience students will occur during the third co-op cycle.

Barnegat Bay Coastal Field Station

The BEES field station on Barnegat Bay in Waretown, NJ provides geoscience students with opportunities to engage in hands-on research in coastal geology, barrier island morphology, oceanography, and sedimentology. The facility includes a lodge, two classrooms/meeting rooms, dining hall, dormitories, and rustic cabins. The field station is located on 194 acres of diverse coastal habitat, including a maritime forest, tidal creek, salt marsh, fresh water pond, brackish impoundment, and bayshore environments. The department's research vessel gives students access to back-bay and near-shore marine environments.

The department holds its introductory field session for incoming freshmen and other events at the field station. The facility may also serve as a base for excursions into the Pine Barrens, a heavily forested area containing a number of interesting deposits related to the last glacial period.

Red Hill Fossil Site

The Red Hill fossil site, in Tioga County, Pennsylvania, exposes Devonian coastal sedimentary rocks that preserve a rich fossil fauna. Of particular importance is a fossil fish species, studied by Dr. Ted Daeschler, representing a critical transition between fish and tetrapods (land animals.) This site offers opportunities for studying vertebrate paleontology, stratigraphy, and sedimentology and provides students with a window into an important moment in the history of life on Earth.

Inversand Fossil Site: Local training ground for Geoscience Majors

The Inversand fossil site is a unique resource for geological education, research, and STEM outreach. The quarry is located in Gloucester Country, NJ, only 20 minutes from Drexel's campus, making it possible to conduct field exercises there within a three-hour class period. The geological formations that outcrop in the Inversand Quarry have yielded many new fossil species. The site has significance beyond vertebrate paleontology, however, and will provide a local laboratory for classes in geochemistry, geophysics, stratigraphy, sedimentology, hydrogeology, and environmental geology. As such, it will provide a valuable training-ground, a short distance from campus, for all Drexel geoscience majors.

Geoscience Faculty

Walter F. Bien, PhD (*Drexel University*) *Director, Laboratory of Pinelands Research*. Research Professor. Natural resource management,

restoration ecology, conservation biology, and New Jersey Pinelands community dynamics.

Carol Collier, FAICP, FAWRA, MRP (*University of Pennsylvania*) Sr. Advisor, *Watershed Management and Policy at the Academy of Natural Sciences*; Director, *Environmental Studies and Sustainability Program*. Water resources management, environmental planning, climate change policy, the intersection of science, policy and decision making.

Ted Daeschler, PhD (*University of Pennsylvania*) Associate Curator of *Vertebrate Zoology*; Vice President for *Systematic Biology and the Library: Academy of Natural Sciences*. Associate Professor. Vertebrate fauna of the Late Devonian Period in eastern North America; fossil collecting; systematic work focusing on freshwater vertebrates; nature of early non-marine ecosystems.

Daniel P. Duran, PhD (*Vanderbilt University*). Associate Teaching Professor. Phylogeography, systematics and taxonomy, population and conservation genetics, ecological niche modeling, focusing on insect systems to better understand fundamental evolutionary processes and maintain biodiversity.

Jon Gelhaus, PhD (*University of Kansas*) Curator, *Department of Entomology: Academy of Natural Sciences*. Professor. Systematic expertise in crane flies (Tipuloidea); phylogenetic reconstruction; historical and ecological biogeography; biodiversity measures and evolution of morphological character systems.

Richard J. Horwitz, PhD (*University of Chicago*) Senior Scientist; *Fisheries Section Leader*; *Ruth Patrick Chair of Environmental Sciences*. Associate Professor. Reproductive ecology, life history and distribution of freshwater fishes; effects of land use, habitat structure and hydrology on population dynamics and species composition in aquatic systems; ecological modeling and biometry; anthropogenic contaminants in fishes.

Susan S. Kilham, PhD (*Duke University*). Professor. Aquatic ecology: phytoplankton; physiological ecology, especially of diatoms in freshwater and marine systems; large lakes; food webs; biogeochemistry.

Danielle Kreeger, PhD (*Oregon State University*). Research Associate Professor. Trophic interactions in aquatic ecosystems.

Tatyana Livshultz, PhD (*Cornell University*) Assistant Curator of *Botany*. Assistant Professor. Expertise of the milkweed and dogbane family (Apocynaceae); evolution and species diversity of the genus *Dischidia*; differences in floral form and function.

Richard McCourt, PhD (*University of Arizona*) Associate Curator of *Botany, Academy of Natural Sciences of Drexel University*; 2010-2012: Program Director, *Division of Graduate Education, National Science Foundation*. Professor. Biodiversity, evolution, ecology, and systematic of green algae, specifically charophyte algae.

Michael O'Connor, MD, PhD (MD, *Johns Hopkins University*; PhD, *Colorado State*). Associate Professor. Biophysical and physiological ecology, thermoregulation of vertebrates, ecological modeling.

Sean O'Donnell, PhD (*University of Wisconsin-Madison*). Professor. Tropical ecology, focusing on geographic variation and elevation effects on ecology and behavior of army ants and ant-bird interactions; neurobiology, focusing on brain plasticity and brain evolution in social insects.

Marina Potapova, PhD (*Russian Academy of Sciences*) Assistant Curator. Assistant Professor. Taxonomy, ecology, and biogeography of freshwater

diatoms; methods of quantifying morphological characters of diatom frustules based on geometric morphometrics; systematic of monoraphid freshwater diatoms.

Gary Rosenberg, PhD (*Harvard University*) *Pilsbry Chair of Malacology*. Professor. Magnitude and origin of species-level diversity in the Mollusca.

Jacob Russell, PhD (*University of Arizona*). Associate Professor. Microbiomes and metagenomics; ecology and evolution of symbiosis.

James R. Spotila, PhD (*University of Arkansas*) *L. D. Betz Chair Professor*. Professor. Physiological and biophysical ecology, thermoregulation of aquatic vertebrates, biology of sea turtles.

Loyc Vanderkluyzen, PhD (*University of Hawaii*). Assistant Professor. The cyclicity of volcanic eruptions, volcanic degassing processes, and large igneous provinces.

David J. Velinsky, PhD (*Old Dominion University*) *Department Head, Biodiversity, Earth and Environmental Science*. Professor. Geochemical cycling of organic and inorganic constituents of sediments and waters; Sedimentary diagenesis of major and minor elements; Isotope biogeochemistry of carbon, nitrogen and sulfur in marine and freshwater systems.

Elizabeth B. Watson, PhD (*University of California, Berkeley*). Assistant Professor. The implications of global and regional environmental change, and unraveling the interacting effects of multiple anthropogenic stressors on coastal ecosystems to promote more informed management, conservation, and restoration.

Jason Weckstein, PhD (*Louisiana State University*) Associate Curator of *Ornithology*. Associate Professor. Avian phylogenetics, comparative biology and evolutionary history; biodiversity surveys of birds and their parasites and pathogens; coevolutionary history of birds and their parasites.

Emeritus Faculty

Jospeh Bentz, PhD (*State University of New York (SUNY) at Buffalo*). Professor. Biophysics, biochemistry and biopharmaceutics, focused on the molecular basis of biological membrane transport and fusion.

John G. Lundberg, PhD (*University of Michigan*). Professor Emeritus. Diversity and diversification of fishes; documenting and interpreting the morphological, molecular, and taxonomic diversity of living and fossil fishes in the interrelated fields of systematic, faunistics and biogeography and paleobiology; exploration and collecting in poorly-known tropical freshwater habitats and regions.

Daniel Otte, PhD (*University of Michigan*) Senior Curator, *Systematics and Evolutionary Biology*. Professor Emeritus. Taxonomy and biogeography of Orthoptera (grasshoppers, crickets, katydids and their relatives).

Global Studies

Major: Global Studies

Degree Awarded: Bachelor of Arts (BA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 30.2001

Standard Occupational Classification (SOC) code: 19-3094

About the Program

Global Studies practices socially-responsible global citizenship through a unique combination of research-oriented and multilingual instruction, professional experience, and meaningful engagement with communities both here in Philadelphia and abroad.

Our students experience Global Studies by:

- Examining the movement of peoples, goods, and cultures across countries and regions
- Studying global issues in concrete socio-economic, cultural, and geographical contexts
- Tackling structural inequalities from a variety of perspectives and disciplines
- Developing intercultural and language skills through unique pedagogical models
- Working with employers and communities in Philadelphia and around the world through Drexel's Co-Op opportunities

Degree Requirements

Global Media, Arts, and Cultures Concentration

General Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
UNIV H101	The Drexel Experience	1.0
UNIV H201	Looking Forward: Academics and Careers	1.0
Two mathematics courses		6.0-8.0
Two science courses		6.0-8.0

Global Studies Core Requirements

GST 101	Becoming Global – Language and Cultural Context	3.0
GST 102	Introduction to Global Studies	3.0
GST 359	Culture and Values	3.0
WGST 240	Women and Society in a Global Context	3.0
Two 200+ level GST courses		6.0

Language minor

Students must complete at least 24 credits above the 103-105 language level to earn a language minor.

Media, Arts, and Cultures Distribution Requirements

ANTH 212 [WI]	Topics in World Ethnography	3.0
ANTH 330	Media Anthropology	3.0
DIGM 100	Digital Design Tools	3.0
ENGL 325	Topics in World Literature	3.0
PHIL 305	Ethics and the Media	3.0

Select one of the following:

ARTH 101	History of Art I: Ancient to Medieval	3.0
ARTH 102	History of Art II: Renaissance to Romanticism	3.0
ARTH 103	History of Art III: Modern Art	3.0

Media, Arts, and Cultures Distribution Options

Students must complete at least 30 distribution credits from the approved list		30.0
ANTH 210 [WI]	Worldview: Science, Religion and Magic	
ANTH 220	Aging In Cross-Cultural Perspective	
ANTH 250	Anthropology of Immigration

Minor in Global Studies

Global Studies practices socially-responsible global citizenship through a unique combination of research-oriented and multilingual instruction, professional experience, and meaningful engagement with communities both here in Philadelphia and abroad.

Students experience Global Studies by:

- Examining the movement of peoples, goods, and cultures across countries and regions
- Studying global issues in concrete socio-economic, cultural, and geographical contexts
- Tackling structural inequalities from a variety of perspectives and disciplines
- Developing intercultural and language skills through unique pedagogical models
- Working with employers and communities in Philadelphia and around the world through Drexel's Co-op opportunities

Program Requirements

Students must complete at least 201 of a language before earning the GST minor.

Core requirements		
GST 360	Civilizations	3.0
WGST 240	Women and Society in a Global Context	3.0
Students select one region-specific course approved by GST advisor		3.0-4.0
Global Studies Electives		15.0
Students must complete at least fifteen credits from the following list:		
AFAS T280	Special Topics in Africana Studies	
ANTH 212 [WI]	Topics in World Ethnography	
ANTH 220	Aging In Cross-Cultural Perspective	
ANTH 310	Societies In Transition: The Impact of Modernization and the Third World	
ANTH 312	Approaches to Intercultural Behavior	
ANTH 410	Cultural Theory I	
BIO 264	Ethnobotany	
BLAW 340	International Business Law	
COM 342	English Worldwide	
COM 345	Intercultural Communication	
COM 355	Ethnography of Communication	
COM 362	International Negotiations	
COM 390 [WI]	Global Journalism	
ECON 342	Economic Development	
ENGL 203 [WI]	Post-Colonial Literature I	
ENGL 204	Post-Colonial Literature II	
ENGL 323	Literature and Other Arts	
ENGL 325	Topics in World Literature	
ENGL 360 [WI]	Literature and Society	
GST 320	Building Global Bridges	
INTB 332	Multinational Corporations	
INTB 334	International Trade	
INTB 336	International Money and Finance	
MUSC 331	World Musics	
NFS 345	Foods and Nutrition of World Cultures	
NFS 446	Perspectives in World Nutrition	
PHIL 335	Global Ethical Issues	
PSCI 120	History of Political Thought	
PSCI 240	Comparative Politics II	
PSCI 255	International Political Economy	
PSCI 351	International Organizations: The United Nations	
PSCI 352	Ethics and International Relations	
PSCI 353	International Human Rights	
PSCI 357	The European Union in World Politics

SOC 346	Environmental Justice	
SOC 444	Social Movements	

WGST T280 Special Topics in Women's and Gender Studies

Total Credits

24.0-25.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Global Studies Faculty

Debjani Bhattacharyya, PhD (*Emory University*). Assistant Professor. Modern South Asian history; urban environmental history; history of economic thought; and post-colonial theory.

Rebecca Clothey, PhD (*University of Pittsburgh*) Director, *Global Studies major*. Assistant Professor. Comparative and international education, education of ethnic and linguistic minorities, sociology of education.

Vincent Duclos, PhD (*University of Montreal*). Assistant Professor. Digital spaces/technologies; global health; development; and relations between India and Africa.

Brenda Dyer, MA (*University of Pennsylvania*). Associate Teaching Professor. Language acquisition pedagogy, teaching writing, seventeenth and eighteenth century French literature, women writers, translation.

Mary Ebeling, PhD (*University of Surrey*) Director, *Women's and Gender Studies*. Associate Professor. Science and technology studies; emerging technologies and biocapital; media and democratic cultures; radical social movements; sociology of markets; political sociology; and ethnographic methodologies.

Gabriella Ibieta, PhD (*City University of New York*). Associate Professor. Comparative literature; Cuban and Latin American fiction.

Kristine Kelly, PhD (*University of Wisconsin, Madison*). Assistant Clinical Professor. Sociology of gender and development; anthropology of policy; comparative and international education; qualitative research methods; Vietnam and Southeast Asia.

Hiroimi Koyama, MA (*Okayama University*). Teaching Instructor. Japanese language and literature; teaching writing; business Japanese; classical and modern Japanese literature

Christopher A. Laincz, PhD (*Duke University*) Director, *LeBow College of Business PhD program*. Associate Professor. Economic

development, technological change, and growth, industrial organization, macroeconomics and monetary economics.

Brent Luvaas, PhD (*UCLA*). Associate Professor. DIY and independent media production; transnational consumer culture; popular music; new media and mediated subjectivities; youth culture in the US and Indonesia.

Nadia Magnanini, MA (*University of Turin*). Adjunct Professor.

Ilana Margolis Adjunct Professor.

Natalie N.H. Marley, MA (*University of Hawaii*). Assistant Teaching Professor. Research in Japanese Linguistics with a focus on pedagogy and topics concerning second language acquisition and teaching; translation and interpretation between Japanese and English.

Ana Martinez-Donate, PhD (*Universidad Autonoma de Madrid, Spain*). Associate Professor. HIV prevention, Tobacco control, Obesity prevention, Access to health services.

Nada Matta, PhD (*New York University*). Assistant Professor. Middle East Studies; political economy; social movements; gender studies; revolutions; inequality

Maria delaluz Matus-Mendoza, PhD (*Temple University*) *Director of Modern Languages*. Associate Professor. Spanish Linguistic variation in the US; the relationship between language variation and mobility (social and geographical) among the Mexican communities in Mexico and in the United States; second language acquisition; language variation in media.

Usha Menon, PhD (*University of Chicago*). Professor. Self, identity & personhood, emotional functioning, Hindu morality, gender relations in Hindu society, adult development, popular Hinduism, post-colonial feminism, Hindu religious nationalism and Islamic radicalism.

Amel Mili, PhD, JD (*Rutgers University, the University of Tunis*). Assistant Teaching Professor. The intersection between religion and law; gender and politics; constitutional transition; language education

Rogelio Minana, PhD (*Penn State*) *Department Head, Global Studies and Modern Languages*. Professor. The role of classic cultural icons, particularly Don Quixote, in 21st century political and social justice discourse; the interplay between the traditional humanities, youth organizations, and digital storytelling.

Joel E. Oestreich, PhD (*Brown University*) *Director of the Global Studies major*. Associate Professor. International organizations, international finance, development, and human rights.

Sunmi Oh, MA (*Graduate School of Hyosung Women's University*). Instructor.

Ni Ou, MS (*University of Pennsylvania*). Assistant Teaching Professor. Chinese language grammar and writing; Chinese language pedagogy; intercultural communication

Robert Powell, PhD (*Temple University*). Assistant Teaching Professor. Early and Middle Bronze Age Crete; archaeoastronomy; early state formation; archaeology and anthropology of frontiers; mass communication.

Rachel R. Reynolds, PhD (*University of Illinois at Chicago*). Associate Professor. Sociolinguistics, ethnography of communication, intercultural communication, globalization and the rhetoric of community, political

economy of immigration, race and ethnicity, new African immigrants in the United States, Igbo studies.

Simone Schlichting-Artur, EdD (*University of Pennsylvania*) *Senior Assistant Dean of Global Initiatives*. Teaching Professor. International business communication (Germany and the U.S.), public health policy and languages, German post-war history through film and literature, development of writing assessment tools for German minor.

Steve Vasquez Dolph, PhD (*University of Pennsylvania*). Assistant Teaching Professor. Early modern cultural production; ecology and representation; history and sociology of science; historical bibliography; politics and poetics of translation.

Alden Young, PhD (*Princeton University*) *Director, Africana Studies*. Assistant Professor. African history; economic history and the history of Arab and African interactions.

Emeritus Faculty

Julie Mostov, PhD (*New York University*) *Vice Provost for Global Initiatives*. Professor Emeritus. Modern political thought, democratic theory, nationalism, gender studies, South Eastern Europe and the Balkans.

History

Major: History

Degree Awarded: Bachelor of Arts (BA)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 54.0101

Standard Occupational Classification (SOC) code: 19-3093

About the Program

The history program reflects the strengths of Drexel University, including specialization in transnational history and in the history of science, technology and the environment. A series of required courses in history build skills in research and interpretation of the past while elective courses within and outside the history program allow students to shape their curriculum to meet their needs and interests. Our history graduates go to graduate school in history, to professional schools in law, medicine, and business, and to work in business, government agencies, and non-profit organizations.

We apply Drexel's experiential, research-intensive approach to the discipline of history. Using the extensive historical resources of Philadelphia, the region, and the digital world, students develop a profound understanding of history and the ways it is made. We also encourage students to enrich their education through co-op, study abroad, and summer research projects working alongside department faculty.

Degree Offered

The **Bachelor of Arts (BA)** provides a course of study that includes foreign language courses and a broad grounding in the liberal arts, with flexibility for students to choose courses to fulfill humanities, social science, math, and science requirements that will contribute to their overall educational and career plans.

The History (<http://catalog.drexel.edu/undergraduate/collegeofartsandsciences/history/#historyminortext>) minor allows students in other majors to explore the historical background of their discipline, to better understand the origins of the contemporary world, and to build the knowledge and skills needed to understand the development of human societies over time and to understand historical episodes into their proper contexts. The minor in History is highly flexible and allows students to choose those History courses which appeal to them and which will contribute to their broader education. To complete the minor, students must take a total of six History courses (24.0 credits), five of which must be at the 200-level or above.

Additional Information

For more information about this program, please visit the Department of History (<http://drexel.edu/history>) website or contact:

Degree Requirements (BA)

General Education Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
UNIV H101	The Drexel Experience	1.0
CIVC 101	Introduction to Civic Engagement	1.0
UNIV H201	Looking Forward: Academics and Careers	1.0
Math courses		6.0-8.0
Science courses		6.0-8.0

Foundation Requirements

Diversity electives		6.0
Two Consecutive Foreign Language courses (must complete level 201)		7.0-8.0
Humanities/Fine Arts electives		12.0
Social Science electives		12.0
International Studies electives		6.0

Core History Requirements

HIST 101	Introductory Seminar in History I **	
HIST 102	Introductory Seminar in History II **	
HIST 296	Research Methods in History I **	
HIST 301	The Study of History **	
HIST 396	Research Methods in History II **	
HIST 490 [WI]	Senior Seminar I **	
HIST 491 [WI]	Senior Seminar II **	
Any 1 Advanced History Seminar (Topics will vary)		
HIST T380	Special Topics in History	
History Distribution Courses***		20.0
Any 2 non-U.S. History courses		
Any 1 U.S. History Course		
Any 1 History courses covering pre-1700 history (May not be HIST 201)		
Any 1 History of Science, Technology, and Environment course		
History Concentration courses or any 7 History courses (at least four must be 200-level and above)		28.0
Free electives ****		33.0
Total Credits		180.0-185.0

- * Any Biology (BIO), Chemistry (CHEM), Nutrition (NFS), Physics (PHYS), Geoscience (GEO), Environmental Science (ENVS), or Physics-Environmental Science (PHEV).
- ** These courses must be taken in sequence.
- *** Only 200-level and above HIST courses will fulfill this this requirement.
- **** 33 credits is the minimum allowed. Variations in concentration requirements and actual elective choices may result in earning more free elective credits.

Optional History Concentrations

Students may select one of the two following concentrations in the History BA, or they may elect not to undertake a concentration. The courses in the required history distribution list may count toward the 28.0 credits in a concentration; the courses in the required core sequence may not count toward the 28.0 credits in the concentration.

History of Science, Technology, and Environment Concentration

HIST 302	The Study of Science, Technology, and Environment in History	4.0
Select 1 Environmental History course from the following list:		4.0
HIST 280	History of Science: Ancient to Medieval	
HIST 320	Disaster in Global History	
HIST 321	Themes in Global Environmental History	
HIST T380	Special Topics in History (with approval when appropriate topic offered)	
Select 1 Transnational Histories of Science and Technology course from the following list:		4.0
HIST T280	Special Topics in History (with approval when appropriate topic offered)	
HIST 290	Technology and the World Community	
HIST T380	Special Topics in History (with approval when appropriate topic offered)	
HIST 385	Transnational History of Science, Technology and Environment	
Select 1 History of Medicine and Disabilities course from the following list:		4.0
HIST T280	Special Topics in History (with approval when appropriate topic offered)	
HIST T380	Special Topics in History (with approval when appropriate topic offered)	
HIST 340	History of Bodies in Science, Technology, and Medicine	
HIST 341	Disabilities in History	
Concentration Electives (select three from the following list)		12.0
HIST T280	Special Topics in History (with approval when appropriate topic offered)	
HIST 283	Technology and Identity	
HIST 285	Technology in Historical Perspective	
HIST 287	History of Science: Ancient to Medieval	
HIST 288	History of Science: Medieval to Enlightenment	
HIST 289	History of Science: Enlightenment to Modernity	
HIST 290	Technology and the World Community	
HIST 291	Global History of Engineering	
HIST 292	Technology in American Life	
HIST 320	Disaster in Global History	
HIST 321	Themes in Global Environmental History	
HIST 322	Empire and Environment	
HIST 340	History of Bodies in Science, Technology, and Medicine	
HIST 341	Disabilities in History	
HIST 365	Science and State Power: Colonialism	
HIST T380	Special Topics in History (with approval when appropriate topic offered)	
Total Credits		28.0

Global History Concentration

HIST 303	The Study of Global History	4.0
Global Engagement Course †		4.0
One Foreign Language Course ††		3.0-4.0
Concentration Electives (select any four from the following list) †††		16.0
HIST 235	The Great War, 1914-1918	
HIST 236	World War II	
HIST 246	England from Elizabeth to Waterloo, 1558-1815	
HIST 247	Modern England, 1815 - present	
HIST 250	European Revolutionary Movements and Ideology, 1815-1914	
HIST 251	Fascism	
HIST 254	Russian History Before 1900	
HIST 255	Twentieth Century Russia & the USSR	
HIST 256	Germany & the World of Hitler	
HIST 257	The Reformation Age	
HIST 258	History of Europe in the 19th Century	
HIST 259	History of Europe in the 20th Century	
HIST 261	Making of Modern South Asia	
HIST 263	The World and China	
HIST 264	East Asia in Modern Times	
HIST 267	Twentieth Century World I	
HIST 268	Twentieth Century World II	
HIST 270 [WI]	Introduction to Latin American History	
HIST 271	History of Mexico	
HIST 274	Conquest of Mexico	
HIST T280	Special Topics in History (with approval when appropriate topic offered)	
HIST 290	Technology and the World Community	
HIST 291	Global History of Engineering	
HIST 315	History of Capitalism	
HIST 320	Disaster in Global History	
HIST 321	Themes in Global Environmental History	
HIST 322	Empire and Environment	
HIST 355	Venice and the Mediterranean from the Middle Ages to Napoleon	
HIST 365	Science and State Power: Colonialism	
HIST T380	Special Topics in History (with approval when appropriate topic offered)	
HIST 385	Transnational History of Science, Technology and Environment	
Total Credits		27.0-28.0

† Courses which may fulfill the global engagement requirement include designated travel-integrated courses, study abroad courses (with approval), Global Classroom courses in history, or independent study courses (with approval.)

†† In addition to the required CoAS Foundation Requirements foreign language courses (two courses, including completion of a language through 201) in one language, students in the global history concentration must take at least one courses in a second foreign language.

††† At least two courses must be 300-level and above.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic

advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study (BA)

History BA - No concentration

Term 1		Credits
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
HIST 101	Introductory Seminar in History I	4.0

Co-Op/Career Opportunities

Co-Op Experiences

History majors have a wide variety of co-op experiences from which to choose. Business and public utilities offer many possibilities, and local, state, and federal governments; museums and archives; and law firms present many additional interesting co-op placements. Pre-law students, for example, are especially eager to see the inside of a law office, whether the co-op job they receive is clerical or a more challenging paralegal assignment. These practical experiences in the "real" world can reinforce the lessons of the classroom, sharpen skills, and establish important contacts. Sample co-op positions include:

- Law clerk/paralegal, Joe Davidson, Attorney-at-Law, Philadelphia
- Research analyst, Legislative Office for Research Liaison, Harrisburg, PA
- Legislative intern, Corporate Public Affairs Division, Philadelphia Electric Company
- Assistant lobbyist, Government Relations Office, Drexel University
- Education intern, Philadelphia Museum of Art
- Researcher, Philadelphia Chamber of Commerce
- Assistant, Office of the Governor, Harrisburg, PA

Career Opportunities

The flexible programs allow students to shape a curriculum that meets their needs, whether they are preparing for the business world, graduate school in history or political science, the MS in Science, Technology, and Society program (<http://catalog.drexel.edu/graduate/collegeofartsandsciences/sciencetechnologyandsociety>), an MBA or other business program, or law school.

Accelerated/Dual Degrees

About the Programs

Two accelerated/dual degrees are available:

- BA in History and MS in Science, Technology and Society program
- BA in History and the MS(LIS) program

Drexel University permits undergraduate students in 5-year programs to apply for graduate programs while completing their undergraduate programs, allowing students to complete their master's degrees in a shorter amount of time.

The accelerated-degree program provides an opportunity to simultaneously earn both a BA degree and an MS degree (two diplomas are awarded) in the time normally required to finish a bachelor's degree alone.

Students entering the program must:

- have and maintain a minimum of 3.0 grade point average throughout the program
- have no fewer than 90.0 earned credits
- have no more than 120.0 registered credits
- complete only 2 co-ops if in a BA/MS program.

BA in History and the MS in Science, Technology, and Society Accelerated Degree

The accelerated degree program in History and Science, Technology and Society provides an opportunity to earn both a BA degree and an MS degree (two diplomas are awarded) in five years.

This program was created to meet the academic needs of History students who are interested in History, Technology and Science, and interested in pursuing careers in the rapidly growing field of STS.

Recommended Plan of Study

Students should work closely with undergraduate advisor and the graduate Science, Technology & Society advisor to schedule an individualized plan of study for their accelerated degree completion.

The following is a sample plan of study.

Term 1		Credits
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
HIST 101	Introductory Seminar in History I	4.0
UNIV H101	The Drexel Experience	1.0
	Foreign language course (103-level or higher)	4.0

BA in History and the MS(LIS) Accelerated Degree

This program pairs the undergraduate History major with the school's MS in Library and Information Science in an accelerated time-frame. Students have the opportunity to earn both the undergraduate and graduate degrees in five years. Two diplomas are awarded. For students completing this program, the undergraduate background in history provides a natural fit with areas of library specialization, such as archival studies, records management, and related fields

About the Program

Applicants may be provisionally admitted into the program as incoming freshmen. Participants have the option of choosing either a one or a two co-op history program. The non-co-op option is not available for students choosing this accelerated degree option.

When students have accumulated 90.0 credits, but have not yet registered for 120.0 credits, they can apply to formally enter the graduate program. The student must have at least a 3.2 GPA and must maintain this 3.2 GPA for the graduate portion of the program.

Advising/Plan of Study

Students should work closely with faculty advisers to schedule and maintain a plan of study throughout the accelerated program.

History Faculty

Lloyd Ackert, PhD (*Johns Hopkins University*). Teaching Professor. History of science and technology; ecology; Russian science.

Debjani Bhattacharyya, PhD (*Emory University*). Assistant Professor. Modern South Asian history; urban environmental history; history of economic thought; and post-colonial theory.

Scott G. Knowles, PhD (*Johns Hopkins University*) *Interim Department Head, History*. Professor. Urban history, history of technology, history of disasters, modern history.

Sharon Ku, PhD (*University of Cambridge, UK*). Assistant Research Professor. History and sociology of science; nanotechnology; scientific standardization.

Jonson Miller, PhD (*Virginia Tech*). Associate Teaching Professor. Science and technology, American history, military history.

Rosalind Remer, PhD (*University of California*) *Vice Provost and Executive Director, Lenfest Center for Cultural Partnerships*. History of the book, early American economic and business history, public history, museum planning, non-profit management.

Tiago Saraiva, PhD (*Universidad Autónoma de Madrid*). Associate Professor. History of science and technology; transnational history; environmental history

Jonathan Seitz, PhD (*University of Wisconsin*) *Assistant Department Head, History*. Teaching Professor. History of religion, science, medicine, witchcraft, early modern Europe, Italy.

Amy Slaton, PhD (*University of Pennsylvania*). Professor. History of science and technology; history of standards and metrology; intersectionality, race, labor.

Kathryn Steen, PhD (*University of Delaware*). Associate Professor. History of technology, history of industry and business, and comparative history.

Donald F. Stevens, PhD (*University of Chicago*). Associate Professor. Modern Latin American history.

Alden Young, PhD (*Princeton University*) *Director, Africana Studies*. Assistant Professor. African history; economic history and the history of Arab and African interactions.

Michael Yudell, MPH, PhD, MPhil (*Columbia University*) *Chair, Department of Community Health and Prevention*. Associate Professor. Public health genomics; bioethics; history of public health; addiction.

Emeritus Faculty

Eric Dorn Brose, PhD (*Ohio State University*). Professor Emeritus. German and European history.

Robert Zaller, PhD (*Washington University*). Professor Emeritus. English history and early modern European history.

Intermediate Arabic Proficiency Certificate

The Intermediate Arabic Proficiency Certificate offers students a language certificate at the intermediate level as proof that they are proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate Arabic Certificate requires a minimum of 15 credits and the required course of ARBC 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses.

ARBC 101	Arabic I
ARBC 102	Arabic II
ARBC 103	Arabic III
ARBC 201	Arabic IV
ARBC 202	Arabic V
ARBC 450	Advanced Studies in Language, Media, and Society

Total Credits 15.0

Intermediate Chinese Proficiency Certificate

The Intermediate Chinese Proficiency Certificate offers students a language certificate at the intermediate level as proof that they are proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate Chinese Certificate requires a minimum of 15 credits and the required course of CHIN 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses.

CHIN 101	Chinese I
CHIN 102	Chinese II
CHIN 103	Chinese III
CHIN 201	Chinese IV
CHIN 202	Chinese V
CHIN 310	Advanced Writing and Speaking
CHIN 320	Introduction to Language for the Professions
CHIN 340	Introduction to Power and Resistance
CHIN 350	Introduction to Language, Media, and Society
CHIN 420	Advanced Topics in Language for the Professions
CHIN 440	Advanced Topics in Power and Resistance
CHIN 450	Advanced Topics in Language, Media, and Society

Total Credits 15.0

Intermediate French Proficiency Certificate

The Intermediate French Proficiency Certificate offers students a language certificate at the intermediate level as proof that they are proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate French Certificate requires a minimum of 15 credits and the required course of FREN 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses.

FREN 101	French I
FREN 102	French II
FREN 103	French III
FREN 201	French IV
FREN 202	French V
FREN 310	Advanced Writing and Speaking
FREN 320	Introduction to Language for the Professions
FREN 330	Introduction to Identities and Communities
FREN 340	Introduction to Power and Resistance
FREN 350	Introduction to Language, Media, and Society
FREN 410	Advanced Grammar and Translation
FREN 420	Advanced Studies in Language for the Professions
FREN 430	Advanced Studies in Identities and Communities
FREN 440	Advanced Studies in Power and Resistance
FREN 450	Advanced Studies in Language, Media, and Society

Total Credits 15.0

Intermediate German Proficiency Certificate

The Intermediate German Proficiency Certificate offers students a language certificate at the intermediate level as proof that they are proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate German Certificate requires a minimum of 15 credits and the required course of GER 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses.

GER 101	German I
GER 102	German II
GER 103	German III
GER 201	German IV
GER 202	German V
GER 310	Advanced Writing and Speaking
GER 320	Introduction to Language for the Professions
GER 330	Introduction to Identities and Communities
GER 340	Introduction to Power and Resistance
GER 350	Introduction to Language, Media, and Society
GER 410	Advanced Grammar and Translation
GER 420	Advanced Studies in Language for the Professions
GER 430	Advanced Studies in Identities and Communities
GER 440	Advanced Studies in Power and Resistance
GER 450	Advanced Studies in Language, Media, and Society

Total Credits 15.0

Intermediate Hebrew Proficiency Certificate

The Intermediate Hebrew Proficiency Certificate offers students a language certificate at the intermediate level as proof that they are

proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate Hebrew Certificate requires a minimum of 15 credits and the required course of HBRW 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses. 15.0

HBRW 101	Introduction to Hebrew I
HBRW 102	Introduction to Hebrew II
HBRW 103	Introduction to Hebrew III
HBRW 201	Hebrew IV
HBRW 202	Hebrew V
HBRW 310	Advanced Writing and Speaking
HBRW 410	Advanced Grammar and Translation
Total Credits 15.0	

Intermediate Italian Proficiency Certificate

The Intermediate Italian Proficiency Certificate offers students a language certificate at the intermediate level as proof that they are proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate Italian Certificate requires a minimum of 15 credits and the required course of ITAL 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses. 15.0

ITAL 101	Italian I
ITAL 102	Italian II
ITAL 103	Italian III
ITAL 201	Italian IV
ITAL 202	Italian V
ITAL 310	Advanced Writing and Speaking
ITAL 320	Introduction to Language for the Professions
ITAL 330	Topics in Identities and Communities
ITAL 410	Advanced Grammar and Translation
ITAL 420	Advanced Topics in Language for the Professions
ITAL 430	Advanced Topics in Identities and Communities
Total Credits 15.0	

Intermediate Japanese Proficiency Certificate

The Intermediate Japanese Proficiency Certificate offers students a language certificate at the intermediate level as proof that they are proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate Japanese Certificate requires a minimum of 15 credits and the required course of JAPN 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses. 15.0

JAPN 101	Japanese I
JAPN 102	Japanese II
JAPN 103	Japanese III
JAPN 201	Japanese IV
JAPN 202	Japanese V
JAPN 310	Advanced Writing and Speaking
JAPN 320	Introduction to Language for the Professions
JAPN 340	Introduction to Power and Resistance
JAPN 350	Introduction to Language, Media, and Society
JAPN 410	Advanced Grammar and Translation
JAPN 420	Advanced Studies in Language for the Professions
JAPN 440	Advanced Studies in Power and Resistance
JAPN 450	Advanced Studies in Language, Media, and Society
Total Credits 15.0	

Intermediate Korean Proficiency Certificate

The Intermediate Proficiency Korean Certificate offers students a language certificate at the intermediate level as proof that they are proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate Korean Certificate requires a minimum of 15 credits and the required course of KOR 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses. 15.0

KOR 101	Korean I
KOR 102	Korean II
KOR 103	Korean III
KOR 201	Korean IV
KOR 202	Korean V
KOR 310	Advanced Writing & Speaking
KOR 320	Introduction to Language for the Professions
KOR 350	Introduction to Language, Media, and Society
KOR 410	Advanced Grammar and Translation
KOR 420	Advanced Studies in Language for the Professions
KOR 450	Advanced Topics in Language, Media, and Society
Total Credits 15.0	

Intermediate Spanish Proficiency Certificate

The Intermediate Spanish Proficiency Certificate offers students a language certificate at the intermediate level as proof that they are proficient enough to live abroad and interact with native speakers in their home countries and cultures.

Please note that this certificate is available only to currently matriculated Drexel students.

Program Requirements

The Intermediate Spanish Certificate requires a minimum of 15 credits and the required course of SPAN 202. Some study abroad courses may count towards the certificate with pre-approval from the Department. Students can choose from the following courses. 15.0

SPAN 101	Spanish I
SPAN 102	Spanish II
SPAN 103	Spanish III
SPAN 201	Spanish IV
SPAN 202	Spanish V
SPAN 310	Advanced Writing and Speaking
SPAN 320	Introduction to Language for the Professions
SPAN 330	Introduction to Identities and Communities
SPAN 340	Introduction to Power and Resistance
SPAN 350	Introduction to Language, Media, and Society
SPAN 410	Advanced Grammar and Translation
SPAN 420	Advanced Studies in Language for the Professions
SPAN 430	Advanced Studies in Identities and Communities
SPAN 440	Advanced Studies in Power and Resistance
SPAN 450	Advanced Studies in Language, Media, and Society

Total Credits	15.0

Mathematics

Major: Mathematics

Degree Awarded: Bachelor of Arts (BA) or Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 181.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 27.0101

Standard Occupational Classification (SOC) code: 15-2021; 15-2041

About the Program

The mathematics major at Drexel provides a supportive learning environment in which students obtain a firm grounding in the core areas of mathematics and apply this knowledge to problems encountered in a technological society. The Department of Mathematics (<http://drexel.edu/coas/academics/departments-centers/mathematics>) offers students the option of either a BA or a BS degree.

The Mathematics Department takes pride in offering a balanced and flexible curriculum. Three very different kinds of skills are emphasized in the mathematics major:

- **Abstract Reasoning**

All students majoring in mathematics take courses that emphasize abstract reasoning. Students read and write proofs, and graduate well prepared to enter a PhD program in mathematics.

- **Computing**

All students majoring in mathematics take a series of computing courses. This emphasis on computing is one of the distinctive features of the mathematics program at Drexel, and provides students with a competitive advantage in the job market.

- **Mathematical Modeling**

All students majoring in mathematics take multidisciplinary courses that focus on the interplay between mathematics and an area of application.

Students often use electives to focus on an area of personal interest. The Department of Mathematics encourages students to minor in a subject where mathematics is applied. The Department provides an advisor to assist students in selecting electives and planning career paths.

Degree Requirements (BA)

General Education Requirements

CIVC 101	Introduction to Civic Engagement	1.0
COM 230	Techniques of Speaking	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
UNIV S101	The Drexel Experience	1.0
UNIV S201	Looking Forward: Academics and Careers	1.0
One of the following Computer Science sequences:		9.0

Option I

CS 140	Computer Science Principles
CS 143	Computer Programming Fundamentals
CS 171	Computer Programming I

Option II

CS 140	Computer Science Principles
CS 171	Computer Programming I
CS 172	Computer Programming II

Humanities and fine arts electives	6.0
International studies electives	6.0
Science electives	6.0
Social and behavioral sciences electives	6.0
Studies in diversity electives	6.0
Free Electives	67.0

Core Mathematics Requirements

MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 123	Calculus III	4.0
MATH 200	Multivariate Calculus	4.0
MATH 201	Linear Algebra	4.0
MATH 210	Differential Equations	4.0
MATH 220 [WI]	Introduction to Mathematical Reasoning	3.0
MATH 331	Abstract Algebra I	3.0-4.0
or MATH 401	Elements of Modern Analysis I	
Math Major Electives	**	30.0

Select a minimum of 30 credits from the following:

MATH 205	Survey of Geometry
MATH 221	Discrete Mathematics
MATH 222	Combinatorics
MATH 235	Math Competition Problem Solving Seminar
MATH 238	History of Mathematics
MATH 250	Mathematics of Investment and Credit
MATH 285	Differential Equations II
MATH 300	Numerical Analysis I
MATH 301	Numerical Analysis II
MATH 305	Introduction to Optimization Theory
MATH 311	Probability and Statistics I
MATH 312	Probability and Statistics II
MATH 316	Mathematical Applications of Symbolic Software
MATH 318	Mathematical Applications of Statistical Software [WI]

MATH 319	Techniques of Data Analysis
MATH 320	Actuarial Mathematics
MATH 321	Vector Calculus
MATH 322	Complex Variables
MATH 323	Partial Differential Equations
MATH 332	Abstract Algebra II
MATH 387	Linear Algebra II
MATH 401	Elements of Modern Analysis I or MATH 332 Abstract Algebra I
MATH 402	Elements of Modern Analysis II
MATH 422	Introduction to Topology
MATH 449	Mathematical Finance
MATH 450	Introduction to Graph Theory
MATH 475	Cryptography
MATH 483	Discrete Event Simulation
MATH 489	Tensor Calculus
<hr/>	
Total Credits	181.0-182.0

* Math majors must pass MATH 121 with a grade of B or higher.

** If a student takes both of MATH 331 and MATH 401, then one of these can count as a Mathematics Elective. Up to 3 mathematics-related courses from other departments may be substituted for Mathematics Electives with departmental permission. MATH special topics courses may be substituted for Mathematics Electives with departmental permission.

Categories of Electives

- *Humanities and arts electives*
Designated courses in art, art history, communication studies, foreign languages (300-level or above), history, literature, music, philosophy, religion, and theatre arts.
- *International electives*
Designated courses in anthropology, art history, history, literature, music, politics and sociology. Courses with an international focus may be used to fulfill requirements in other categories as well.
- *Science electives*
Students select two courses from chemistry, biology or physics. Both courses may be in the same subject or they may be in different subject areas.
- *Social and behavioral sciences electives*
Designated courses in anthropology, economics, criminology & justice studies, international relations, history, politics, psychology and sociology.
- *Studies in diversity electives*
Designated courses in Africana studies, anthropology, communication, English, history, Judaic studies, linguistics, music, sociology and women's & gender studies.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic

advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Term Credits		15.0-16.0
Total Credit: 181.0-184.0		

- * See degree requirements (p. 308).
- ** Select from MATH 222, MATH 235, MATH 250, MATH 285, MATH 300, MATH 301, MATH 305, MATH 311, MATH 312, MATH 316, MATH 318 [WI], MATH 319, MATH 320, MATH 321, MATH 322, MATH 323, MATH 387, MATH 422, MATH 449, MATH 450, MATH 475, MATH 483, MATH 489. MATH special topics courses may be substituted for Mathematics Electives with departmental permission.

Co-op/Career Opportunities

Mathematicians are employed in a variety of capacities in business, industry, and government. Students can combine courses in economics or finance and mathematics to prepare for careers in the actuarial field, banks, stock exchanges, or finance departments of large corporations or other financial institutions. Students interested in science careers may focus on probability and statistics in order to work for industries like pharmaceutical manufacturers. Many others combine math studies with computer science courses to prepare for careers in information systems or engineering.

Teacher certification is also a career option available through a joint program in mathematics and teacher education.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) for more detailed information on co-op and post-graduate opportunities.

Dual Degree Bachelor's Programs

Since applied mathematics plays an important role in many different disciplines, mathematics majors often choose to pursue specialization in a second field of study. Students may choose a dual major that involves completing the requirements of two separate majors or they can opt for a minor, which involves completing the major in one field and a smaller set of courses in another.

Dual majors are common in mathematics/computer science and mathematics/physics. Students interested in a dual major should consult with their advisor or contact the assistant department head. Dual majors in other fields are also possible, but early planning and discussions with advisors is essential.

Minor in Mathematics

The minor in mathematics consists of five required courses and elective courses from the specified group of courses listed below resulting in a minimum of 38.0 credits.

Required Courses

MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 123	Calculus III	4.0
MATH 200	Multivariate Calculus	4.0
MATH 201	Linear Algebra *	3.0-4.0
or MATH 261	Linear Algebra	

Mathematics Minor Electives **

Select from the following:		18.0-19.0
MATH 210	Differential Equations *	
or MATH 260	Differential Equations	
MATH 220	Introduction to Mathematical Reasoning [WI]	
MATH 221	Discrete Mathematics	
MATH 235	Math Competition Problem Solving Seminar	

MATH 250	Mathematics of Investment and Credit
MATH 285	Differential Equations II
MATH 291	Complex and Vector Analysis for Engineers ***
MATH 300	Numerical Analysis I
MATH 301	Numerical Analysis II
MATH 305	Introduction to Optimization Theory
MATH 311	Probability and Statistics I
MATH 312	Probability and Statistics II
MATH 316	Mathematical Applications of Symbolic Software
MATH 318	Mathematical Applications of Statistical Software [WI]
MATH 319	Techniques of Data Analysis
MATH 320	Actuarial Mathematics
MATH 321	Vector Calculus
MATH 322	Complex Variables
MATH 323	Partial Differential Equations
MATH 331	Abstract Algebra I
MATH 332	Abstract Algebra II
MATH 387	Linear Algebra II
MATH 401	Elements of Modern Analysis I
MATH 402	Elements of Modern Analysis II
MATH 410	Scientific Data Analysis I
MATH 411	Scientific Data Analysis II
MATH 422	Introduction to Topology
MATH 449	Mathematical Finance
MATH 450	Introduction to Graph Theory
MATH 475	Cryptography
MATH 483	Discrete Event Simulation
MATH 489	Tensor Calculus

Total Credits 38.0

- * Students count only one of these two courses for their minor.
- ** A request form is available for any other mathematics courses upon the written approval prior to the beginning of the quarter in which the course is to be offered. Students should contact the Mathematics undergraduate academic advisor at advisor@math.drexel.edu.
- *** Students who take MATH 291 cannot also count MATH 321 or MATH 322 toward their minor.

Mathematics Faculty

David M. Ambrose, PhD (*Duke University*) Associate Department Head. Professor. Applied analysis and computing for systems of nonlinear partial differential equations, especially free-surface problems in fluid dynamics.

Jason Aran, MS (*Drexel University*). Assistant Teaching Professor.

Jonah D. Blasiak, PhD (*University of California at Berkeley*). Assistant Professor. Algebraic combinatorics, representation theory, and complexity theory.

Robert P. Boyer, PhD (*University of Pennsylvania*). Professor. Functional analysis, C^* -algebras and the theory of group representations.

Patrick Clarke, PhD (*University of Miami*). Associate Professor. Homological mirror symmetry, Landau-Ginzburg models, algebraic geometry, symplectic geometry.

Ilker Colak, PhD (*Universitat Autònoma de Barcelona*). Visiting Assistant Professor. ODE's. Dynamical Systems, Evolution of Social Behavior.

Daryl Falco, MS (*Drexel University*). Associate Teaching Professor. Discrete mathematics and automata theory.

Raymond Favocci, MS (*Drexel University*). Associate Teaching Professor.

Pavel Grinfeld, PhD (*Massachusetts Institute of Technology*). Associate Professor. Intersection of physics, engineering, applied mathematics and computational science.

Anatolii Grinshpan, PhD (*University of California at Berkeley*). Assistant Teaching Professor. Function theory and operator theory, harmonic analysis, matrix theory.

Yixin Guo, PhD (*University of Pittsburgh*). Associate Professor. Biomathematics, dynamical systems, ordinary and partial differential equations and math education.

R. Andrew Hicks, PhD (*University of Pennsylvania*). Professor. Geometry; optics; computer vision.

Pawel Hitczenko, PhD (*Warsaw University*). Professor. Probability theory and its applications to analysis, combinatorics, wavelets, and the analysis of algorithms.

Robert Immordino, MS (*Drexel University*). Associate Teaching Professor.

Dmitry Kaliuzhnyi-Verbovetskyi, PhD (*Kharkov University*). Professor. Operator theory, systems theory, complex analysis, C^* -algebras and harmonic analysis.

Hwan Yong Lee, PhD (*University of Utah*). Assistant Teaching Professor. Electromagnetic wave propagation in composite media, optimization and inverse problem.

Georgi S. Medvedev, PhD (*Boston University*). Associate Professor. Ordinary and partial differential equations, mathematical neuroscience.

Shari Moskow, PhD (*Rutgers University*) *Department Head*. Professor. Partial differential equations and numerical analysis, including homogenization theory, numerical methods for problems with rough coefficients, and inverse problems.

Marna A. Mozeff, MS (*Drexel University*). Teaching Professor.

Oksana P. Odintsova, PhD (*Omsk State University*). Teaching Professor. Math education; geometrical modeling.

Dimitrios Papadopoulos, EdD (*Drexel University*). Assistant Teaching Professor.

Joel Pereira, PhD (*University of North Carolina*). Assistant Teaching Professor. Commutative Algebra.

Ronald K. Perline, PhD (*University of California at Berkeley*) *Undergraduate Advisor*. Associate Professor. Applied mathematics, numerical analysis, symbolic computation, differential geometry, mathematical physics.

Marci A. Perlstadt, PhD (*University of California at Berkeley*). Associate Professor. Applied mathematics, computed tomography, numerical analysis of function reconstruction, signal processing, combinatorics.

Brianna Pezzato, MEd (*Millersville University*). Instructor.

Anna Pun, PhD (*University of Pennsylvania*). Visiting Assistant Professor. Algebraic Combinatorics, Discrete Mathematics, Finite Geometry.

Adam C. Rickert, MS (*Drexel University*). Associate Teaching Professor.

Valerie Sarris, PhD (*Yale University*). Instructor.

Eric Schmutz, PhD (*University of Pennsylvania*). Professor. Probabilistic combinatorics, asymptotic enumeration.

Li Sheng, PhD (*Rutgers University*). Associate Professor. Discrete optimization, combinatorics, operations research, graph theory and its application in molecular biology, social sciences and communication networks, biostatistics.

Gideon Simpson, PhD (*Columbia University*). Associate Professor. Partial differential equations, scientific computing and applied mathematics.

Xiaoming Song, PhD (*University of Kansas*). Assistant Professor. Stochastic Calculus, Large Deviation Theory, Theoretical Statistics, Data Network Modeling and Numerical Analysis.

Kenneth P. Swartz, PhD (*Harvard University*). Assistant Teaching Professor. Applied statistics, data analysis, calculus, discrete mathematics, biostatistics.

Vaishalee T. Wadke, MS (*Columbia University*). Instructor.

Richard D. White, MS (*Penn State University*). Assistant Teaching Professor.

Hugo J. Woerdeman, PhD (*Vrije Universiteit, Amsterdam*). Professor. Matrix and operator theory, systems theory, signal and image processing, and harmonic analysis.

J. Douglas Wright, PhD (*Boston University*) *Graduate Advisor. Associate Department Head*. Professor. Partial differential equations, specifically nonlinear waves and their interactions.

Dennis G. Yang, PhD (*Cornell University*). Assistant Teaching Professor. Dynamical systems, neurodynamics.

Thomas (Pok-Yin) Yu, PhD (*Stanford University*). Professor. Multiscale mathematics, wavelets, applied harmonic analysis, subdivision algorithms, nonlinear analysis, applied differential geometry and data analysis.

Matthew Ziemke, PhD (*University of South Carolina*). Assistant Teaching Professor. Functional Analysis, Operator Algebras, Semigroups, Mathematical Physics.

Emeritus Faculty

Loren N. Argabright, PhD (*University of Washington*). Professor Emeritus. Functional analysis, wavelets, abstract harmonic analysis, the theory of group representations.

Robert C. Busby, PhD (*University of Pennsylvania*). Professor Emeritus. Functional analysis, C^* -algebras and group representations, computer science.

Ewaugh Finney Fields, EdD (*Temple University*) *Dean Emeritus*. Professor Emeritus. Mathematics education, curriculum and instruction, minority engineering education.

William M.Y. Goh, PhD (*Ohio State University*). Associate Professor Emeritus. Number theory, approximation theory and special functions, combinatorics, asymptotic analysis.

Bernard Kolman, PhD (*University of Pennsylvania*). Professor Emeritus. Lie algebras; theory, applications, and computational techniques; operations research.

Charles J. Mode, PhD (*University of California at Davis*). Professor Emeritus. Probability and statistics, biostatistics, epidemiology, mathematical demography, data analysis, computer-intensive methods.

Chris Rorres, PhD (*Courant Institute, New York University*). Professor Emeritus. Applied mathematics, scattering theory, mathematical modeling in biological sciences, solar-collection systems.

Patricia Henry Russell, MS (*LaSalle University*). Teaching Professor.

Justin R. Smith, PhD (*Courant Institute, New York University*). Professor. Homotopy theory, operad theory, quantum mechanics, quantum computing.

Jet Wimp, PhD (*University of Edinburgh*). Professor Emeritus. Applied mathematics, special factors, approximation theory, numerical techniques, asymptotic analysis.

Minor in Africana Studies

The minor in Africana studies was created to provide the opportunity for undergraduate students throughout the University to gain an understanding of and background in the history and cultures of peoples of African descent in North and South America, the Caribbean, and Africa.

This interdisciplinary minor includes courses in anthropology, history, literature, music, political science, and sociology, and provides an opportunity for directed study in areas of particular interest to the students. The Africana studies minor has intrinsic intellectual value and helps prepare individuals to become contributors to an increasingly pluralistic society. At the same time, this minor allows students interested in business, the sciences, engineering, government, and social services to present to prospective employers a unique academic background.

Required Courses

AFAS 101	Introduction to Africana Studies	3.0
AFAS 201	Cross Currents in Africana Studies	3.0
Students must complete a minimum of 18 credits from the list provided: *		18.0
AFAS 210	Topics in Africana Arts	
AFAS 220	Topics in Africana Society	
AFAS 230	Topics in African History	
AFAS 240	Topics in Africana Current Events	
AFAS 255	Gender & Black Popular Culture	
AFAS 260	Race, Politics and Religion	
AFAS 301	Politics of Hip Hop	
AFAS 385	Rum, Rice and Revolution: Caribbean History	
AFAS 401	Urban Social Justice Practicum I	
AFAS 402	Urban Social Justice Practicum II	
AFAS I299	Independent Study in AFAS	
AFAS T280	Special Topics in Africana Studies	
AFAS T380	Special Topics in Africana Studies	
ANTH 101	Introduction to Cultural Diversity	
ANTH 310	Societies In Transition: The Impact of Modernization and the Third World	
ARTH 315	African-American Art	
ARTH 316	African Art	
DANC 190	African Dance Technique I	
ENGL 203 [WI]	Post-Colonial Literature I (WI)	
ENGL 204	Post-Colonial Literature II	
ENGL 207 [WI]	African American Literature	
ENGL 325	Topics in World Literature **	
ENGL 492	Seminar in World Literature	
HIST 215	American Slavery	

HIST 216	Freedom in America	
MUSC 107	Jazz Ensembles	
MUSC 331	World Musics	
MUSC 333	Afro-American Music USA	
MUSC 336	History of Jazz	
PSCI 372	City in United States Political Development	
SOC 210	Race, Ethnicity and Social Inequality	
SOC 240	Urban Sociology	
WGST 240	Women and Society in a Global Context	
WGST T280	Special Topics in Women's and Gender Studies ***	
Total Credits		24.0

* Students must check with the Program Director for approval prior to making substitutions.

** With a focus on the Caribbean, Latin America or the Diaspora.

*** With a focus on race or the Diaspora.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Minor in Arabic

About the Minor

In our globalized world, intercultural and multilingual communication is an indispensable asset for the 21st century citizen and worker. As part of the Department of Global Studies and Modern Languages, we offer language instruction rooted in communication and embedded in authentic cultural contexts. Language study opens a world of opportunities for our students, from co-ops and study abroad programs to engagement with global communities here in Philadelphia. Media and technology, as well as travel and commerce, make the study of languages more crucial than ever, for tackling global challenges such as climate change and inequality demand that our students communicate across languages and cultures.

The Arabic minor requires 24 credits of language study above Arabic 103. Students can choose from the following courses options including a minimum 13 credits of Special Topics classes.

ARBC 201	Arabic IV	
ARBC 202	Arabic V	
ARBC 450	Advanced Studies in Language, Media, and Society	

ARBC T280	Special Topics in Arabic
ARBC T380	Special Topics in Arabic

MATH 410	Scientific Data Analysis I	3.0
MATH 411	Scientific Data Analysis II	3.0

* Students can take multiple Special Topics courses for Minor credit.

Minor in Bioinformatics

About the Minor

The bioinformatics minor examines the application of computer technology and programming to biological fields such as genomics or proteomics. This multidisciplinary program is designed for students majoring in biomedical engineering, biological sciences, computer science, information systems, or mathematics. Combination with other majors is possible through consultation with the program director. The minor is divided among courses in biology, programming and computation, human-computer interface design, databases, and statistics.

Program Requirements

Students must complete a minimum of 24 credits of coursework as follows:

Core Courses

BIO 331	Bioinformatics I	3.0
BIO 332	Bioinformatics II	3.0
Two Senior Research Project Courses *		

* Until research project courses are developed specifically for this minor, the department will accept whatever research project(s) the student has taken as part of their major under the number for that major.

Area-specific courses

In each of the following five areas, the requirements of a student's major cover some of the competencies for Bioinformatics, while the remaining requirements will be fulfilled within the minor itself.

A plan of study is determined by an Advisor in the Department of Biology based on the student's major field of study. Thus, the requirements for completing the minor are determined on a case-by-case basis. Possible options for area-specific courses include the following:

Bioscience

BIO 107	Cells, Genetics & Physiology	3.0
BIO 108	Cells, Genetics and Physiology Laboratory	1.0
BIO 109	Biological Diversity, Ecology & Evolution	3.0
BIO 110	Biological Diversity, Ecology and Evolution Laboratory	1.0
BIO 449	Recombinant DNA Laboratory	5.0

Programming and Computation

CS 171	Computer Programming I	3.0
CS 172	Computer Programming II	3.0
CS 260	Data Structures	3.0

Human/Computer Interface Design

CS 337	The Psychology of Human-Computer Interaction	3.0
INFO 110	Introduction to Human-Computer Interaction	3.0

Databases

CS 461	Database Systems	3.0
INFO 200	Systems Analysis I	3.0
INFO 210	Database Management Systems	3.0

Statistics

MATH 310	Probability and Statistics	4.0
MATH 311	Probability and Statistics I	4.0
MATH 312	Probability and Statistics II	4.0

Minor in Bioscience and Society

Designed for non-majors, the minor in bioscience and society is accessible to all students with an interest in biology. The minor includes a list of topical courses from which students can choose freely depending upon interest.

Required Courses *

Select one of the following options:		3.0-4.0
BIO 100	Applied Cells, Genetics & Physiology	
or		
BIO 107 & BIO 108	Cells, Genetics & Physiology and Cells, Genetics and Physiology Laboratory	
Select one of the following options:		3.0-4.0
BIO 101	Applied Biological Diversity, Ecology & Evolution	
or		
BIO 109 & BIO 110	Biological Diversity, Ecology & Evolution and Biological Diversity, Ecology and Evolution Laboratory	
ENVS 212	Evolution	4.0
Select four of the following: **		14.0
BIO 112	Biotechnology for Society	
BIO 116	How Your Body Works-Or Not	
BIO 118	Basics of Cancer	
BIO 264	Ethnobotany	
BIO 284	Biology of Stress	
BIO 312	Genetically Modified Foods	
ENVS 260	Environmental Science and Society	
Total Credits		24.0-26.0

* A grade of "C" or better must be earned for each course in this minor for the course to meet the requirement.

** Other courses may be substituted depending on yearly course offerings after consultation with an academic advisor in the Department of Biology.

Minor in Chinese

About the Minor

In our globalized world, intercultural and multilingual communication is an indispensable asset for the 21st century citizen and worker. As part of the Department of Global Studies and Modern Languages, we offer language instruction rooted in communication and embedded in authentic cultural contexts. Language study opens a world of opportunities for our students, from co-ops and study abroad programs to engagement with global communities here in Philadelphia. Media and technology, as well as travel and commerce, make the study of languages more crucial than ever, for tackling global challenges such as climate change and inequality demand that our students communicate across languages and cultures.

The Chinese minor requires 24.0 credits of language study above Chinese 105. Students can choose from the following course options including 12 credits of Special Topics classes. Students will likely be required to take advanced courses abroad to complete the minor.

CHIN 201	Chinese IV
CHIN 202	Chinese V
CHIN 310	Advanced Writing and Speaking
CHIN 320	Introduction to Language for the Professions
CHIN 340	Introduction to Power and Resistance
CHIN 350	Introduction to Language, Media, and Society

CHIN 420	Advanced Topics in Language for the Professions
CHIN 440	Advanced Topics in Power and Resistance
CHIN 450	Advanced Topics in Language, Media, and Society
CHIN T380	Special Topics in Chinese

*Students can take multiple Special Topics courses for Minor credit.

Minor in Computer Crime

The minor in computer crime grounds students in the fundamentals of crime, security and technology by focusing on the behavioral, legal, and societal factors associated with technology and deviance as they relate to both the private and public sectors. The curriculum exposes students to both the concepts and tools necessary to understand and ultimately address computer crime, such as financial fraud, identity theft and other digital crimes that cross national and international boundaries.

Required Courses

CJS 101	Introduction to Criminal Justice	3.0
CJS 200	Criminology	3.0
CJS 276	Introduction to Computer Crime	3.0
CJS 274	Sex, Violence, & Crime on the Internet	3.0
CJS 365	Computer Investigations and the Law	3.0
CJS 377	Intellectual Property Theft in the Digital Age	3.0

Additional Elective Courses

Select two of the following:		6.0
CJS 265	Criminal Investigation	
CJS 266	Crime Prevention Planning	
CJS 267	Introduction to Security Studies	
CJS 273	Surveillance, Technology, and the Law	
CJS 362	Gender, Crime, and Justice	
CJS 375	Criminal Procedure	
CJS T380	Special Topics in Criminology and Justice Studies	

Total Credits 24.0

Minor in Ecology

The minor in ecology meets the needs of engineering, science, arts, applied arts, information, and business students interested in environmental science. Prior to taking ENVS 230 General Ecology, students are minimally expected to have had one term to a year of both general biology and general chemistry.

Required Courses

ENVS 212	Evolution	4.0
ENVS 230	General Ecology	3.0
ENVS 260	Environmental Science and Society	3.0
ENVS 284	Physiological and Population Ecology	3.0
ENVS 286	Community and Ecosystem Ecology	3.0
ENVS 328	Conservation Biology	3.0
Environmental Science elective		3.0
Field Course		4.0

Choose one of:

ENVS 382	Field Botany of the New Jersey Pine Barrens
ENVS 383	Ecology of the New Jersey Pine Barrens
ENVS 388	Marine Field Methods

Total Credits 26.0

Minor in French

In our globalized world, intercultural and multilingual communication is an indispensable asset for the 21st century citizen and worker. As part

of the Department of Global Studies and Modern Languages, we offer language instruction rooted in communication and embedded in authentic cultural contexts. Language study opens a world of opportunities for our students, from co-ops and study abroad programs to engagement with global communities here in Philadelphia. Media and technology, as well as travel and commerce, make the study of languages more crucial than ever, for tackling global challenges such as climate change and inequality demand that our students communicate across languages and cultures.

The French minor requires a minimum of 24 credits above French 103, including at least 12 credits above French 310, and at least one 400 level course. Students can choose from the following 300 and 400 level courses.

FREN 201	French IV
FREN 202	French V
FREN 310	Advanced Writing and Speaking
FREN 320	Introduction to Language for the Professions
FREN 330	Introduction to Identities and Communities
FREN 340	Introduction to Power and Resistance
FREN 350	Introduction to Language, Media, and Society
FREN 410	Advanced Grammar and Translation
FREN 420	Advanced Studies in Language for the Professions
FREN 430	Advanced Studies in Identities and Communities
FREN 440	Advanced Studies in Power and Resistance
FREN 450	Advanced Studies in Language, Media, and Society

Minor in German

In our globalized world, intercultural and multilingual communication is an indispensable asset for the 21st century citizen and worker. As part of the Department of Global Studies and Modern Languages, we offer language instruction rooted in communication and embedded in authentic cultural contexts. Language study opens a world of opportunities for our students, from co-ops and study abroad programs to engagement with global communities here in Philadelphia. Media and technology, as well as travel and commerce, make the study of languages more crucial than ever, for tackling global challenges such as climate change and inequality demand that our students communicate across languages and cultures.

The German minor requires a minimum of 24 credits above German 103, including at least 12 credits above German 310, and at least one 400 level course. Students can choose from the following 300 and 400 level courses.

GER 201	German IV
GER 202	German V
GER 310	Advanced Writing and Speaking
GER 320	Introduction to Language for the Professions
GER 330	Introduction to Identities and Communities
GER 340	Introduction to Power and Resistance
GER 350	Introduction to Language, Media, and Society
GER 410	Advanced Grammar and Translation
GER 420	Advanced Studies in Language for the Professions
GER 430	Advanced Studies in Identities and Communities
GER 440	Advanced Studies in Power and Resistance
GER 450	Advanced Studies in Language, Media, and Society

Minor in Human Factors and Ergonomics

Note: Effective Fall 2015, students will no longer be accepted into this minor.

This minor is intended to meet the needs of the students who have an interest in any type of design and who recognize the importance of taking

account of human characteristics, both strengths and weaknesses, in the design of artifacts intended for human use (e.g., equipment, computer software, consumer products, and even entire work environments).

The minor should also be of particular interest to students who have an interest in doing graduate work in human factors, ergonomics, industrial design, etc.

Entry into the minor requires that general psychology (or an equivalent introductory course) be taken as a prerequisite. Students who have completed PSY 101 and who are interested in a minor in Psychology are expected to meet with a Psychology Department faculty member to discuss the selection of appropriate courses. No more than three courses that are required for a student's major can count towards fulfilling requirements for the minor.

Required Prerequisite

General Psychology course (PSY 101 or equivalent)

Required Courses

PSY 212	Physiological Psychology	3.0
PSY 213	Sensation and Perception	3.0
PSY 250 [WI]	Industrial Psychology	3.0
PSY 330	Cognitive Psychology	3.0
PSY 332	Human Factors and Cognitive Engineering	3.0
PSY 337	Human-Computer Interaction	3.0
PSY 360 [WI]	Experimental Psychology	3.0
BMES 330	Biological Rhythm in Pharmacology and Toxicology	3.0

Select one course from the following:

BMES 350	Med & Bio Effects Of Light	
BMES 411	Chronoengineering I: Biological Rhythms in Health and Performance	
BMES 412	Chronoengineering II: Sleep Functions in Health and Performance	
PSY 150	Introduction to Social Psychology	
PSY 230	Psychology of Learning	
PSY 310	Drugs & Human Behavior	
PSY 340	Psychological Testing and Assessment	
PSY 350	Advanced Social Psychology	

Total Credits 24.0

Minor in Italian Studies

About the Minor

Drexel University and Philadelphia have deep connections with the Italian and Italo-American communities. In addition to the large population of Italians and Italian-Americans in Philadelphia and the region, including a substantial proportion of Drexel students, a significant number of faculty across the university have research interests that include the Italian context. The interdisciplinary minor in Italian Studies is designed to attract students interested in a variety of aspects related to Italian culture and to make use of the deep and diverse pool of resources on Drexel's campus, in the region, and abroad.

The minor in Italian Studies shares the existing curriculum in Italian language but only requires three courses (9-12 cr.) of language study. This allows students to achieve at least a level of language proficiency sufficient to navigate Italian society but also allows students whose interests lie beyond the language to pursue substantial Italy-related coursework in other disciplines. The cultural studies side of the minor include 12-15 credits of coursework on Italian society and culture, including a required seminar in contemporary Italy.

Program Requirements

Required courses:

Students select 9.0-12.0 credits ITAL courses. 9.0-12.0

ITAL 230 Italy and Italians Today 3.0

Italian Studies Electives: 12.0-13.0

ARTH 102	History of Art II: Renaissance to Romanticism
ARTH 325	Ancient Greek and Roman Art
ARTH 327	Italian Renaissance Art
CULA 305	Fundamentals of Italian Cuisine
FMST 345	Italian Neo Realism
HIST 355	Venice and the Mediterranean from the Middle Ages to Napoleon
SCL 419	Global Coaching Seminar

Total Credits 24.0-28.0

Minor in Japanese

About the Program

In our globalized world, intercultural and multilingual communication is an indispensable asset for the 21st century citizen and worker. As part of the Department of Global Studies and Modern Languages, we offer language instruction rooted in communication and embedded in authentic cultural contexts. Language study opens a world of opportunities for our students, from co-ops and study abroad programs to engagement with global communities here in Philadelphia. Media and technology, as well as travel and commerce, make the study of languages more crucial than ever, for tackling global challenges such as climate change and inequality demand that our students communicate across languages and cultures.

The Japanese minor requires a minimum of 24 credits with a minimum of 12 credits above JAPN 310 24.0

JAPN 201	Japanese IV
JAPN 202	Japanese V
JAPN 310	Advanced Writing and Speaking
JAPN 320	Introduction to Language for the Professions
JAPN 340	Introduction to Power and Resistance
JAPN 410	Advanced Grammar and Translation
JAPN 420	Advanced Studies in Language for the Professions
JAPN 440	Advanced Studies in Power and Resistance
JAPN 450	Advanced Studies in Language, Media, and Society

Minor in Korean

About the Program

In our globalized world, intercultural and multilingual communication is an indispensable asset for the 21st century citizen and worker. As part of the Department of Global Studies and Modern Languages, we offer language instruction rooted in communication and embedded in authentic cultural contexts. Language study opens a world of opportunities for our students, from co-ops and study abroad programs to engagement with global communities here in Philadelphia. Media and technology, as well as travel and commerce, make the study of languages more crucial than ever, for tackling global challenges such as climate change and inequality demand that our students communicate across languages and cultures.

The Korean minor requires 24.0 credits above KOR 103. Students can select from the following course options including 12.0 credits of Special Topics classes. Students will likely be required to take advanced courses abroad to complete the minor. 24.0

KOR 201	Korean IV
---------	-----------

KOR 202	Korean V
KOR 310	Advanced Writing & Speaking
KOR 350	Introduction to Language, Media, and Society
KOR 410	Advanced Grammar and Translation
KOR 450	Advanced Topics in Language, Media, and Society
KOR T380	Special Topics in Korean

*Students can take multiple Special Topics courses for Minor credit.

Minor in Neuroscience

About the Program

The Neuroscience minor allows students from a vast array of disciplines the opportunity for formalized study in Neuroscience. This interdisciplinary minor integrates content from cellular, molecular, and systems neurobiology with neuropsychology, providing students with a strong foundation in basic principles of neurobiology and neuropsychology. This minor is a collaborative effort between Biology and Psychology, but is open to students in any major with an interest in gaining a deeper understanding of the biological and cognitive principles underlying brain function.

Required Courses

BIO 348	Neuroscience: From Cells to Circuits	3.0
BIO 349	Behavioral Neuroscience	3.0
PSY 312	Cognitive Neuroscience	3.0
PSY 410	Neuropsychology	3.0

Biology and Psychology Electives *

Select 2 BIO courses		6.0
BIO 414	Behavioral Genetics	
BIO 461	Neurobiology of Autism Disorders	
BIO 462	Biology of Neuron Function	
BIO 463	Molecular Mechanisms of Neurodegeneration	
BIO 465	Neurobiology of Disease	
Select 2 PSY courses		6.0
PSY 212	Physiological Psychology	
PSY 213	Sensation and Perception	
PSY 310	Drugs & Human Behavior	
PSY 325	Psychology of Learning	
PSY 330	Cognitive Psychology	
PSY 336	Psychology of Language	

Total Credits 24.0

A grade of "C" or better must be earned for each course in this minor to meet the requirements.

* 3 credits of research in neuroscience as BIO 497 or PSY 499 can be substituted for 1 elective in either of the categories

Minor in Nonprofit Communication

About the Program

The minor in nonprofit communication is a 24.0 credit curriculum designed to familiarize students with general communication theory and practice while providing training in print and electronic communication skills peculiar to the nonprofit sector. In addition to conventional course work this minor will include a practicum in the form of a 3.0 credit independent study (COM I399) for one term in which students will provide service and consultation for an area nonprofit organization as selected and

coordinated by Drexel Edits (<http://www.drexel.edu/coas/academics/departments-centers/communication/drexel-edits>), the university's center for the support of nonprofit communication.

Core Courses

COM 181	Public Relations Principles and Theory	3.0
COM 375 [WI]	Grant Writing	3.0
COM 376	Nonprofit Communication	3.0
COM 377	Communication for Civic Engagement	3.0
COM 378	Public Service Campaigns	3.0
COM I399	Independent Study in COM	3.0

Choose at least 2 courses:

COM 160	Introduction to Journalism	
COM 265	Audio Journalism	
COM 270 [WI]	Business Communication	
COM 282 [WI]	Public Relations Writing	
COM 311	Dynamics of Interpersonal Communication	
COM 330	Professional Presentations	
COM 352	Social Media and Communication	
COM 363	Event Planning	

Total Credits 24.0

Minor in Politics

A Minor in Politics enriches almost every major. With a Minor in Politics, you can hone your analytical and critical thinking skills and take your understanding of political science and research methodology to your field of study.

Political science pairs well with economics, criminal justice, psychology, public health, history, anthropology, communications or education.

Required Courses

Select three of the following:		12.0
PSCI 100	Introduction to Political Science	
PSCI 110	American Government	
PSCI 120	History of Political Thought	
PSCI 130	Research Design for Political Science	
PSCI 140	Comparative Politics I	
PSCI 150	International Politics	

Political Science Electives

12.0 credits of any additional 200-level or higher PSCI courses. 12.0

Total Credits 24.0

Minor in Science, Technology and Society

The minor in Science, Technology and Society [STS] allows students to explore the cultural, ethical, historical, political, and institutional dimensions of science, medicine, and technology. By taking courses in different disciplines, students develop an interdisciplinary approach that empowers them to critically analyze the social dimensions of science, medicine, and technology. Science, technology and society (STS) programs, also called science and technology studies (STS), are growing in the US and worldwide. The ability to critically identify the values and incentives built into scientific knowledge and technology design and use is highly valued in settings such as health care organizations, government agencies, public policy realms, tech industries, and more.

For more information about this program, visit Drexel's Center for Science, Technology and Society (<http://drexel.edu/coas/academics/departments-centers/science-technology-society>) page.

Select 6 - 8 classes from the list below, with a minimum of 24 credits. At least 3 different subject areas must be represented among these classes. 24.0

ANTH 330	Media Anthropology
ANTH 345	Visual Anthropology
ANTH 355	Digital Culture
ANTH 360	Culture and the Environment
ARCH 315	Sustainable Built Environment I
BIO 112	Biotechnology for Society
BIO 312	Genetically Modified Foods
COM 240	New Technologies In Communication
COM 351	Computer Mediated Communication
COM 352	Social Media and Communication
ENGL 300 [WI]	Literature & Science
ENGL 302	Environmental Literature
ENGL 303	Science Fiction
ENGL 370	Topics in Literature and Medicine
INTR 310	Sustainability: History, Theory and Critic
HIST 283	Technology and Identity
HIST 285	Technology in Historical Perspective
HIST 287	History of Science: Ancient to Medieval
HIST 288	History of Science: Medieval to Enlightenment
HIST 289	History of Science: Enlightenment to Modernity
HIST 290	Technology and the World Community
HIST 291	Global History of Engineering
HIST 292	Technology in American Life
HIST 320	Disaster in Global History
HIST 321	Themes in Global Environmental History
HIST 340	History of Bodies in Science, Technology, and Medicine
HIST 341	Disabilities in History
HIST 385	Transnational History of Science, Technology and Environment
PHIL 111	Symbolic Logic I
PHIL 207	Symbolic Logic II
PHIL 311	Ethics and Information Technology
PHIL 321	Biomedical Ethics
PHIL 322	Ethics of Human Enhancement
PHIL 340	Environmental Ethics
PHIL 341	Environmental Philosophy
PHIL 351	Philosophy of Technology
PHIL 355	Philosophy of Medicine
PHIL 361	Philosophy of Science
PSCI 331	Environmental Politics
PSCI 334	Politics of Environment and Health
PSCI 369	The Politics of Food
PSCI 371	Science, Technology, & Public Policy
PBHL 302	Introduction to the History of Public Health
PSY 332	Human Factors and Cognitive Engineering
PSY 337	Human-Computer Interaction
SOC 235	Sociology of Health and Illness
SOC 250	Research Methods I
SOC 312	Topics in Sociology of Science and Technology
SOC 326	Cities and Sustainability
SOC 341	Environmental Movements in America
SOC 345	Sociology of the Environment
SOC 346	Environmental Justice
SOC 349	Sociology of Disasters
WGST 225	Women & Human Rights Worldwide

Minor in Spanish

About the Program

In our globalized world, intercultural and multilingual communication is an indispensable asset for the 21st century citizen and worker. As part of the Department of Global Studies and Modern Languages, we offer language instruction rooted in communication and embedded in authentic cultural contexts. Language study opens a world of opportunities for our students, from co-ops and study abroad programs to engagement with global communities here in Philadelphia. Media and technology, as well as travel and commerce, make the study of languages more crucial than ever, for tackling global challenges such as climate change and inequality demand that our students communicate across languages and cultures.

The Spanish minor requires a minimum of 24 credits above SPAN 103, including at least 12 credits above SPAN 310, and at least one 400 level course. Students can choose from the following 300 and 400 level courses. 24.0

SPAN 201	Spanish IV
SPAN 202	Spanish V
SPAN 310	Advanced Writing and Speaking
SPAN 320	Introduction to Language for the Professions
SPAN 330	Introduction to Identities and Communities
SPAN 340	Introduction to Power and Resistance
SPAN 350	Introduction to Language, Media, and Society
SPAN 410	Advanced Grammar and Translation
SPAN 420	Advanced Studies in Language for the Professions
SPAN 430	Advanced Studies in Identities and Communities
SPAN 440	Advanced Studies in Power and Resistance
SPAN 450	Advanced Studies in Language, Media, and Society

Minor in Women's and Gender Studies

The Women's and Gender Studies (WGST) Minor gives students a broad, interdisciplinary and global understanding of how gender intersects with race, age, class, sexual orientation, and other identities that shape human consciousness and experience. The WGST minor equips women, men and people who are gender variant with tools for making sense of societal structures within which they must operate as students, professionals and citizens. Through comparative study of gender across cultures, both within the United States and globally, students who minor in WGST gain a critical lens on the complexities of gender as it is constructed and understood in diverse contexts. Through WGST courses, students develop skills to be attuned to how gender impacts all aspects of human interaction, from the family, to the workplace, to the voting booth.

As an academic program Women's and Gender Studies provides a sharp focus on assumptions about the way the world can and does work. It offers a conceptual framework to analyze experiences of inequality or discrimination, and asks students to become active, engaged, thoughtful participants in their learning and in their lives. Women's and Gender Studies prioritizes learning that helps students understand their "real life" experiences, at the same time that it asks students to reflect on and ask difficult, provocative and meaningful questions about those experiences.

Women's and Gender Studies works with many programs and departments at Drexel to emphasize how sex and sexuality intersect with other identities, as well as history, culture and geography to produce different beliefs, experiences and practices in peoples' lives and in larger social structures.

Because businesses working across many industries, including those in the nonprofit sector, are increasingly sensitive to issues such as gender discrimination, sexual harassment, equal pay for comparable work, support for LGBTQ-identified employees, parental leave, and day care, students with a Minor in Women's and Gender Studies gain a definite edge over other applicants for managerial and policy-making positions.

Required Courses

WGST 101	Introduction to Women's and Gender Studies	3.0
WGST 201	Introduction to Feminisms	3.0
Choose one of the following three theory courses		3.0
WGST 301	Sex, Gender, Feminism: A Seminar in Feminist Theories	
WGST 308	Queer Theory	
WGST 320	Masculinities	
Students must complete at least 15 credits of elective courses:		15.0
AFAS 255	Gender & Black Popular Culture	
ANTH 215	Anthropology of Gender	
ANTH 365	Family and Kinship	
ARTH 340	Women in Art	
COM 246	Media and Identity	
CJS 274	Sex, Violence, & Crime on the Internet	
CJS 362	Gender, Crime, and Justice	
CJS 275	Issues in Domestic Violence	
ENGL 355 [WI]	Women and Literature	
GST 225	Women and Human Rights Worldwide	
GST 230	Women Arab Writers	
GST 235	African Francophone Women Writers	
HIST 208	Women in American History	
HIST 283	Technology and Identity	
PBHL 305	Women and Children: Health & Society	
PHIL 255	Philosophy of Sex & Love	
PSY 356	Women's Health Psychology	
SMT 254	Women & Minority Opportunities in Sport	
SMT 255	Legal Foundations of Title IX	
SOC 222	Sex and Society	
SOC 230	Gender and Society	
WGST 220	Writing on the Body	
WGST 225	Women & Human Rights Worldwide	
WGST 230	Arab Women Writers	
WGST 235	African Francophone Women Writers: Displacement. From One Continent To Another	
WGST 240	Women and Society in a Global Context	
WGST 255	Gender and Black Popular Culture	
WGST 260	Gender and Judaism	
WGST 270	Cigarettes and High Heels	
WGST 275	Women's Health and Human Rights	
WGST T280	Special Topics in Women's and Gender Studies	
WGST I299	Independent Study in Women's and Gender Studies	
WGST 301	Sex, Gender, Feminism: A Seminar in Feminist Theories	
WGST 308	Queer Theory	
WGST 320	Masculinities	
WGST 324	Retail Intersections: Social & Cultural Issues	
WGST T380	Special Topics in Women's and Gender Studies	
WGST T480	Special Topics in Women's and Gender Studies	

Total Credits 24.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end

of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Minor in Writing

The Minor in Writing invites students from all disciplines to develop their writing skills and further their abilities to think critically and creatively by encouraging them to make connections beyond the scope of their discipline.

Students who complete the Minor in Writing will:

- be better positioned to succeed as writers in their future professional and personal endeavors;
- obtain a strong background in theoretical perspectives and practices of writing and rhetoric, as well as reading;
- achieve a better understanding of writing within their major fields of study;
- gain significant practice and experience in writing in many genres and rhetorical modes.

Required Courses

ENGL 340 [WI]	Classical Rhetoric	3.0
WRIT 225 [WI]	Creative Writing	3.0
WRIT 312 [WI]	Writing for Target Audiences	3.0
COM 210	Theory and Models of Communication	3.0
	or ANTH 350 Anthropology of Language	
	or PHIL 305 Ethics and the Media	

Reading Courses

Select one of the following:		3.0
ENGL 200 [WI]	Classical to Medieval Literature	
ENGL 201	Renaissance to the Enlightenment	
ENGL 202 [WI]	Romanticism to Modernism	
ENGL 203 [WI]	Post-Colonial Literature I	
ENGL 204	Post-Colonial Literature II	
ENGL 205 [WI]	American Literature I	
ENGL 206 [WI]	American Literature II	
ENGL 207 [WI]	African American Literature	
ENGL 211 [WI]	British Literature I	
ENGL 212	British Literature II	
ENGL 214	Readings in Fiction	
ENGL 215 [WI]	Readings in Poetry	
ENGL 216 [WI]	Readings in Drama	
PHIL 105	Critical Reasoning	
PSCI 330	Public Opinion & Propaganda	
WRIT 210 [WI]	The Peer Reader in Context	

Theoretical Perspectives on Writing Courses

Select one of the following: 3.0

ANTH 330	Media Anthropology
ANTH 350	Anthropology of Language *
CJS 377	Intellectual Property Theft in the Digital Age
COM 220	Qualitative Research Methods
COM 355	Ethnography of Communication
EDUC 236	Early Literacy I
EDUC 256	Teaching Writing Grades 4-8
EDUC 326	Language Arts Processes [W]
ENGL 340 [W]	Classical Rhetoric
PHIL 305	Ethics and the Media *
PSCI 335	Political Communication
PSY 336	Psychology of Language

Writing in Practice Courses

Select two of the following: 6.0

COM 160	Introduction to Journalism
COM 270 [W]	Business Communication
COM 310 [W]	Technical Communication
COM 320 [W]	Science Writing
COM 335	Electronic Publishing
CULA 412	Food Writing
DSMR 233	Retail Image Analysis [W]
FASH 467	Style and the Media
SCRP 220	Playwriting I
SCRP 225	Playwriting II
SCRP 270	Screenwriting I [W]
SCRP 275	Screenwriting II [W]
SCRP 350	TV Comedy Practicum
SCRP 353	TV Drama Practicum
TVPR 220	TV News Writing
WRIT 220 [W]	Creative Nonfiction Writing
WRIT 301 [W]	Writing Poetry
WRIT 302 [W]	Writing Fiction
WRIT 303	Writing Humor and Comedy
WRIT 304 [W]	Special Topics in Writing
WRIT 306	Writing About the Media
WRIT 310	Literary Editing & Publication
WRIT 400 [W]	Writing for -- and about -- the Web

Total Credits 24.0

* Courses marked with an asterisk are also listed as options for the 4th required course for the minor. A student who elects to take one of these courses may not count it twice (once as a required course and once as an elective). For example, a student who chooses to take ANTH 350, "Anthropology of Language," as a required course may not take it again as one of the electives; however, this student could take PHIL 305, "Communication Ethics," as an elective.

Writing-Intensive Course Requirements

Philosophy

Major: Philosophy

Degree Awarded: Bachelor of Arts (BA)

Calendar Type: Quarter

Total Credit Hours: 182.0

Co-op Options: One Co-op (Four years); No Co-op (Four years); Three Co-op (Five years)

Classification of Instructional Programs (CIP) code: 38.0101

Standard Occupational Classification (SOC) code: 25-1126

About the Program

A great philosopher once said, "Philosophers have just interpreted the world--but the point is to change it." At Drexel, we believe ideas do affect and change the world--in how we choose what to do, in how we approach our activities, and in what we learn from them. We think the most important reason to engage in philosophy is that we *can* change the world.

The Drexel philosophy program is organized around the idea that the study of philosophy should help students confront life's complexity. Philosophy classes at Drexel involve students in the active development of their reflective, creative, rational, logical, and linguistic abilities by engaging them with the problems of life and the world. The Drexel philosophy major is an excellent preparation for success in any field of endeavor that values thoughtful reflection, logical thinking, and clear communication about real issues and concerns. It is particularly valuable as a preparation for careers in education and law, or in graduate study in philosophy, or in fields related to philosophy like critical media studies, public policy, or science, technology, and society (STS).

Drexel philosophy majors take a mixture of historical and topical courses in the major fields of philosophical inquiry. These include ethics, metaphysics (philosophy of reality), epistemology (philosophy of knowledge), aesthetics (philosophy of art), social and political philosophy, philosophy of science, and logic. Our philosophy elective classes cover a wide range of subjects including technology, medicine, law, religion, science, the environment, and more. Our upper-level seminar classes are discussion-driven, reading- and writing-intensive classes usually limited to 10-12 students.

Prior to the end of sophomore year students may choose to focus their philosophical studies in one of three areas of concentration. These are:

- Ethical Theory and Practice,
- Philosophy and Law,
- Philosophy, Technology, and Science.

Students may also remain in the general Philosophy concentration, which gives them the widest range of options from which to select their courses.

Prior to the end of junior year, students may opt to work on a nine-credit Senior Thesis. This is a year-long, self-designed independent research and writing project, culminating in a defense before the program's faculty and students. This project consists of three one-on-one tutorials with a faculty member of the student's choosing.

The philosophy BA includes approximately 50.0 credits of free electives, which makes it possible for many students to double major. The Drexel philosophy program also offers a minor in philosophy (24.0 credits) and certificate programs in Ethical Theory and Practice; Philosophy, Arts and Humanities; and Philosophy, Science, and Technology, (18.0 credits each).

Additional Information

For more information about Drexel philosophy classes and programs, please visit the Department of English & Philosophy website or drop by to see our director anytime. The Department of English and Philosophy is located in MacAlister Hall, room 5044. The director can be contacted at:

Degree Requirements

As an alternative to PHIL 421 [WI], PHIL 431 [WI], and PHIL 461 [WI], students may select PHIL T480 *Special Topics*, PHIL 481 [WI] *Philosophical School or Movement*, or PHIL 485 [WI] *Major Philosopher* class with program approval.

College of Arts and Sciences Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PHIL 105	Critical Reasoning	3.0
UNIV H101	The Drexel Experience	1.0
UNIV H201	Looking Forward: Academics and Careers	1.0
Two Studies in Diversity Electives		6.0-8.0
Two International Studies Electives		6.0-8.0
Two Math Electives		6.0-8.0
Two Natural Science Electives		6.0-8.0
Four Social and Behavioral Sciences Electives		12.0-16.0
Select two of the following:		6.0
ARTH 101	History of Art I: Ancient to Medieval	
ARTH 102	History of Art II: Renaissance to Romanticism	
ARTH 103	History of Art III: Modern Art	

Language Requirement

Any two (2) consecutive foreign language courses (completing level 201) 7.0-8.0

Major Requirements - All Concentrations

COM 230	Techniques of Speaking	3.0
PHIL 101	Introduction to Western Philosophy	3.0
PHIL 211	Metaphysics: Philosophy of Reality	3.0
PHIL 212	Ancient Philosophy	3.0
PHIL 214	Modern Philosophy	3.0
PHIL 215	Contemporary Philosophy	3.0

PHIL 221	Epistemology: Philosophy of Knowledge	3.0
PHIL 251	Ethics	3.0
PHIL 421 [WI]	Seminar in Ancient Philosophy	3.0
PHIL 431 [WI]	Seminar in Modern Philosophy	3.0
PHIL 461 [WI]	Seminar in Contemporary Philosophy	3.0

Professional Ethics Elective

Select one of the following:		3.0
PHIL 301	Business Ethics	
PHIL 305	Ethics and the Media	
PHIL 311	Ethics and Information Technology	
PHIL 315	Engineering Ethics	
PHIL 317	Ethics and Design Professions	
PHIL 321	Biomedical Ethics	
PHIL 322	Ethics of Human Enhancement	
PHIL 323	Organizational Ethics	
PHIL 325	Ethics in Sports Management	
PHIL 330	Criminal Justice Ethics	
PHIL 335	Global Ethical Issues	
PHIL 340	Environmental Ethics	

Thesis or Non-Thesis Option 9.0

Thesis Option:

PHIL 497 [WI]	Senior Essay I: Research & Thesis Development	
PHIL 498 [WI]	Senior Essay II: Argument Construction	
PHIL 499 [WI]	Senior Essay III: Defense	

Non-Thesis Option:

PHIL 481 [WI]	Seminar in a Philosophical School	
PHIL 485 [WI]	Seminar in a Major Philosopher	

Select one of the following:

PHIL 341	Environmental Philosophy	
PHIL 351	Philosophy of Technology	
PHIL 355	Philosophy of Medicine	
PHIL 361	Philosophy of Science	
PHIL 381 [WI]	Philosophy in Literature	
PHIL 385	Philosophy of Law	
PHIL 391	Philosophy of Religion	

Electives

Free Electives		52.0
Concentration Option		21.0

General Philosophy Concentration:

PHIL 111	Symbolic Logic I	
PHIL 231	Aesthetics: Philosophy of Art	
or PHIL 218	Philosophy of Mathematics	
PHIL 481 [WI]	Seminar in a Philosophical School	
PHIL 485 [WI]	Seminar in a Major Philosopher	

Select one of the following courses:

PHIL 207	Symbolic Logic II	
PHIL 301	Business Ethics	
PHIL 305	Ethics and the Media	
PHIL 311	Ethics and Information Technology	
PHIL 315	Engineering Ethics	
PHIL 317	Ethics and Design Professions	
PHIL 321	Biomedical Ethics	
PHIL 322	Ethics of Human Enhancement	
PHIL 323	Organizational Ethics	
PHIL 325	Ethics in Sports Management	
PHIL 330	Criminal Justice Ethics	
PHIL 335	Global Ethical Issues	
PHIL 340	Environmental Ethics	

Select two of the following courses:

PHIL 341	Environmental Philosophy	
PHIL 351	Philosophy of Technology	
PHIL 355	Philosophy of Medicine	

PHIL 361	Philosophy of Science
PHIL 381 [WI]	Philosophy in Literature
PHIL 385	Philosophy of Law
PHIL 391	Philosophy of Religion
Philosophy & Law Concentration:	
PHIL 111	Symbolic Logic I
PHIL 207	Symbolic Logic II
PHIL 241	Social & Political Philosophy
PHIL 385	Philosophy of Law
PHIL 391	Philosophy of Religion
PHIL 481 [WI]	Seminar in a Philosophical School or PHIL 485 Seminar in a Major Philosopher
Select one of the following courses:	
PHIL 301	Business Ethics
PHIL 305	Ethics and the Media
PHIL 311	Ethics and Information Technology
PHIL 315	Engineering Ethics
PHIL 317	Ethics and Design Professions
PHIL 321	Biomedical Ethics
PHIL 322	Ethics of Human Enhancement
PHIL 323	Organizational Ethics
PHIL 325	Ethics in Sports Management
PHIL 330	Criminal Justice Ethics
PHIL 335	Global Ethical Issues
PHIL 340	Environmental Ethics
Ethical Theory & Practice Concentration:	
PHIL 102	Introduction to Eastern Philosophy
PHIL 231	Aesthetics: Philosophy of Art or PHIL 241 Social & Political Philosophy
PHIL 385	Philosophy of Law
PHIL 391	Philosophy of Religion
PHIL 481 [WI]	Seminar in a Philosophical School
PHIL 485 [WI]	Seminar in a Major Philosopher
Select one of the following courses:	
PHIL 301	Business Ethics
PHIL 305	Ethics and the Media
PHIL 311	Ethics and Information Technology
PHIL 315	Engineering Ethics
PHIL 317	Ethics and Design Professions
PHIL 321	Biomedical Ethics
PHIL 322	Ethics of Human Enhancement
PHIL 323	Organizational Ethics
PHIL 325	Ethics in Sports Management
PHIL 330	Criminal Justice Ethics
PHIL 335	Global Ethical Issues
PHIL 340	Environmental Ethics
Philosophy, Technology & Science Concentration:	
PHIL 111	Symbolic Logic I
PHIL 207	Symbolic Logic II
PHIL 351	Philosophy of Technology
PHIL 218	Philosophy of Mathematics or PHIL 231 Aesthetics: Philosophy of Art
PHIL 361	Philosophy of Science
PHIL 481 [WI]	Seminar in a Philosophical School
PHIL 485 [WI]	Seminar in a Major Philosopher
Total Credits	182.0-195.0

Sample Plan of Study

Term 1		Credits
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
PHIL 101	Introduction to Western Philosophy	3.0
PHIL 105	Critical Reasoning	3.0
UNIV H101	The Drexel Experience	1.0
Math elective		3.0-4.0
Term Credits		13.0-14.0
Term 2		
CIVC 101	Introduction to Civic Engagement	1.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
PHIL 212	Ancient Philosophy	3.0
Language elective*		4.0
Math elective		3.0-4.0
Term Credits		14.0-15.0
Term 3		
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PHIL 214	Modern Philosophy	3.0
Language elective		3.0-4.0
Natural Science elective		3.0-4.0
Social Science elective		3.0-4.0
Term Credits		15.0-18.0
Term 4		
ARTH 101	History of Art I: Ancient to Medieval	3.0
PHIL 215	Contemporary Philosophy	3.0
PHIL 251	Ethics	3.0
Diversity elective		3.0-4.0
Social Science elective		3.0-4.0
Term Credits		15.0-17.0
Term 5		
ARTH 102	History of Art II: Renaissance to Romanticism	3.0
PHIL 111	Symbolic Logic I	3.0
PHIL 211	Metaphysics: Philosophy of Reality	3.0
Diversity elective		3.0-4.0
Natural Science elective		3.0-4.0
Term Credits		15.0-17.0
Term 6		
COM 230	Techniques of Speaking	3.0
PHIL 207	Symbolic Logic II (Or any Professional Ethics elective PHIL 301-340)	3.0
PHIL 221	Epistemology: Philosophy of Knowledge	3.0

Social Science elective		3.0-4.0
Free elective		3.0
Term Credits		15.0-16.0
Term 7		
PHIL 231	Aesthetics: Philosophy of Art	3.0
Professional Ethics elective		3.0
Social Science elective		3.0-4.0
Free electives		9.0
Term Credits		18.0-19.0
Term 8		
PHIL 481 [WI]	Seminar in a Philosophical School	3.0
International Studies elective		3.0-4.0
Free electives		9.0
Term Credits		15.0-16.0
Term 9		
PHIL 485 [WI]	Seminar in a Major Philosopher	3.0
International Studies elective		3.0-4.0
Free electives		9.0
Term Credits		15.0-16.0
Term 10		
PHIL 421 [WI]	Seminar in Ancient Philosophy	3.0
PHIL 497 [WI]	Senior Essay I: Research & Thesis Development (or Philosophy elective PHIL 341-395)	3.0
UNIV H201	Looking Forward: Academics and Careers	1.0
Philosophy elective PHIL 341-391		3.0
Free electives		6.0
Term Credits		16.0
Term 11		
PHIL 431 [WI]	Seminar in Modern Philosophy	3.0
PHIL 498 [WI]	Senior Essay II: Argument Construction or 481 [WI]	3.0
	Seminar in a Philosophical School	
Philosophy Elective PHIL 341-391		3.0
Free electives		6.0
Term Credits		15.0
Term 12		
PHIL 461 [WI]	Seminar in Contemporary Philosophy	3.0
PHIL 499 [WI]	Senior Essay III: Defense or 485 [WI]	3.0
	Seminar in a Major Philosopher	
Free electives		10.0
Term Credits		16.0
Total Credit: 182.0-195.0		

* Students must complete two consecutive courses in a foreign language and must reach the 201 level. This may require incoming students to complete preliminary classes.

Accelerated/Dual Degrees About the Programs

Accelerated degree programs provide the opportunity to earn both a BA degree and an MS degree in the time normally required to finish a bachelor's degree alone, or a BA and a JD in one year less than is normally required.

Three accelerated/dual degrees are available:

- BA in Philosophy and JD in Law
- BA in Philosophy and MS in Public Policy (p. 213)
- BA in Philosophy and MS in Science, Technology & Society (p. 216)

Admission Requirements

Information about the BA/JD program is available by visiting the BA/BS + JD web page (<https://drexel.edu/coas/academics/pre-professional-degrees/ba-bs-jd>).

Students who meet the standard eligibility requirement for accelerated programs should consult with their advisor and work on an individual plan of study to submit with the Change of Curriculum form.

Minor in Philosophy

This minor is intended for undergraduates seeking to broaden and enhance their education by attaining a firm grounding in philosophy. The minor requires seven carefully-selected classes, plus one 400-level seminar. Students who have completed 30.0 credits may apply for the philosophy minor by submitting the Application for Admission to Minor Program form, available online at the Drexel Central (<http://www.drexel.edu/src>) website.

As an alternative to PHIL 421 [WI], PHIL 431 [WI], and PHIL 461 [WI], students may select PHIL T480 *Special Topics*, PHIL 481 [WI] *Philosophical School or Movement*, or PHIL 485 [WI] *Major Philosopher* class with program approval.

Required Courses

PHIL 101	Introduction to Western Philosophy	3.0
Select one of the following:		3.0
PHIL 105	Critical Reasoning	
PHIL 111	Symbolic Logic I	
Select three Philosophy Foundations Electives:		9.0
PHIL 207	Symbolic Logic II	
PHIL 211	Metaphysics: Philosophy of Reality	
PHIL 212	Ancient Philosophy	
PHIL 214	Modern Philosophy	
PHIL 215	Contemporary Philosophy	
PHIL 221	Epistemology: Philosophy of Knowledge	
PHIL 231	Aesthetics: Philosophy of Art	
PHIL 241	Social & Political Philosophy	
PHIL 251	Ethics	
Select one Philosophy Elective:		3.0
PHIL 341	Environmental Philosophy	
PHIL 351	Philosophy of Technology	
PHIL 355	Philosophy of Medicine	
PHIL 361	Philosophy of Science	
PHIL 381 [WI]	Philosophy in Literature	
PHIL 385	Philosophy of Law	
PHIL 391	Philosophy of Religion	
Select one Professional Ethics Elective:		3.0
PHIL 301	Business Ethics	
PHIL 305	Ethics and the Media	
PHIL 311	Ethics and Information Technology	
PHIL 315	Engineering Ethics	
PHIL 317	Ethics and Design Professions	
PHIL 321	Biomedical Ethics	
PHIL 322	Ethics of Human Enhancement	
PHIL 323	Organizational Ethics	
PHIL 325	Ethics in Sports Management	
PHIL 330	Criminal Justice Ethics	
PHIL 335	Global Ethical Issues	
PHIL 340	Environmental Ethics	
Select one Philosophy Seminar Elective:		3.0
PHIL 421 [WI]	Seminar in Ancient Philosophy	

PHIL 431 [WI] Seminar in Modern Philosophy

PHIL 461 [WI] Seminar in Contemporary Philosophy

Total Credits

24.0

Co-op/Career Opportunities

Opportunities

No major prepares students for success in as wide a variety of careers as philosophy. Because philosophical work helps students develop superior reasoning, communication, and analytical skills, a philosophy major can be an ideal choice for pre-med or pre-law students. It is also particularly valuable as a preparation for graduate study in philosophy, and fields related to it, such as critical media studies, public policy, education, and science, technology, and society (STS). The Drexel philosophy major is an excellent preparation for success in any field of endeavor that values thoughtful reflection, logical thinking, and clear communication. Philosophy majors graduate into a wide range of successful careers in business, industry, law, government, education, and service organizations and agencies as well as many fields of graduate study and research.

In just its first five years, the Drexel philosophy BA program graduated students into careers including teaching, the law, public policy, and academic research.

Co-op Experiences

Philosophy students at Drexel are encouraged to seek out interesting co-op opportunities related to the skills and interests they are developing through their philosophical studies and potential career options they would like to explore. These can be as broad as the difference between an ethics-related co-op that has the student shadowing an ethicist working for a hospital's board of institutional review, to a student who is interested in aesthetics and politics working with the Philadelphia Mural Arts Program in liaison with community groups. Students in philosophy who are pre-law frequently pursue law-related co-ops and co-ops at public and private agencies and organizations that employ lawyers and law students. Students in philosophy who are thinking about careers in academia have the full gamut of writing, editing, and publishing co-ops available to them, as well as research related co-ops they can develop by working with professors. While academically-oriented co-ops and co-ops in the Humanities generally pay less than those in the sciences, business, law, and engineering—if they pay at all—they are still enormously valuable as a way for students to develop a sense of what various careers might actually be like and how they work.

For detailed information on co-op and career opportunities, visit the Drexel Steinbright Career Development Center web page. For further information

about co-op and career prospects related to philosophy, contact the Drexel philosophy program director:

Dr. Peter Amato
Director of Programs in Philosophy
Department of English and Philosophy
MacAlister 5030

Philosophy Faculty

Stacey Ake, PhD (*Pennsylvania State University*). Associate Teaching Professor. Ethics, semiotics, existentialism

Peter Amato, PhD (*Fordham University*) Director, *Philosophy*. Teaching Professor. Ethics, Marxism, Continental philosophy

Jacques N. Catudal, PhD (*Temple University*). Associate Professor. Epistemology, aesthetics, philosophy of religion

Nathan Hanna, PhD (*Syracuse University*). Assistant Professor. Ethics, philosophy of law, political philosophy

Adam Knowles, PhD (*The New School for Social Research*). Assistant Teaching Professor. Continental philosophy, phenomenology, Ancient Greek philosophy

Carol Mele, PhD (*University of Pennsylvania*). Associate Teaching Professor. Ethics, medical ethics, critical reasoning

Flavia Padovani, PhD (*University of Geneva*). Assistant Professor. Philosophy of science, epistemology, logic

Marilyn Gaye Piety, PhD (*McGill University*). Associate Professor. History of philosophy, philosophy of religion, Kierkegaard

Andrew Smith, PhD (*SUNY, Stony Brook*). Assistant Professor. Social and political philosophy, ethics, American philosophy

Philosophy, Arts, and Humanities Certificate

Only available to currently enrolled Drexel students.

The Certificate in Philosophy, Arts, and Humanities provides an excellent opportunity for undergraduate students in all majors to deepen and broaden their educational experience through engagement with questions and ideas related to the arts and the humanities. What is the nature of art and how is it related to ideas about "beauty?" How do interpretations contribute to our idea of what is true? How can competing interpretations be assessed and evaluated? These and many other related issues will be explored.

Required Courses

PHIL 101	Introduction to Western Philosophy	3.0
or PHIL 102	Introduction to Eastern Philosophy	
PHIL 105	Critical Reasoning	3.0
or PHIL 107	Philosophy and Knowledge Organization	
PHIL 231	Aesthetics: Philosophy of Art	3.0
Select three of the following:		9.0
PHIL 212	Ancient Philosophy	
or PHIL 214	Modern Philosophy	
or PHIL 215	Contemporary Philosophy	

PHIL 381 [WI]	Philosophy in Literature	
PHIL 385	Philosophy of Law	
PHIL 391	Philosophy of Religion	
Total Credits		18.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Philosophy, Science, and Technology Certificate

Only available to currently enrolled Drexel students.

The Certificate in Philosophy, Science and Technology provides an excellent opportunity for undergraduate students in all majors to deepen and broaden their educational experience by enhancing and exercising their philosophical skills in relation to some of the most central issues and ideas related to science and technology. What is the nature and scope of natural science? How do the sciences produce our knowledge? Is technology a neutral factor in human life and history? What is our responsibility to the environment? These and many other questions will be explored.

Program Requirements

Required Courses		
PHIL 101	Introduction to Western Philosophy	3.0
PHIL 111	Symbolic Logic I	3.0
or PHIL 107	Philosophy and Knowledge Organization	
Select one of the following:		3.0
PHIL 207	Symbolic Logic II	
PHIL 216	Philosophy of Time	
PHIL 218	Philosophy of Mathematics	
PHIL 221	Epistemology: Philosophy of Knowledge	
Select three of the following:		9.0
PHIL 341	Environmental Philosophy	
PHIL 351	Philosophy of Technology	
PHIL 355	Philosophy of Medicine	
PHIL 361	Philosophy of Science	
Total Credits		18.0

Physics

Major: Physics

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 40.0801

Standard Occupational Classification (SOC) code: 19-2012

About the Program

Drexel's undergraduate program provides a solid foundation in physics suitable for graduate study or to branch out into other scientific or technical disciplines. The physics program offers an innovative curriculum in a top-notch learning environment: small class sizes, personal input from faculty, and close interaction with researchers who are leaders in their fields. Students explore the span of universal phenomenon—from the farthest reaches of astrophysics and cosmology, to molecular biophysics and subatomic particle physics—providing a solid foundation for continued study and exploration. Most undergraduates actively participate in research projects, including co-authoring publications and presenting results at conferences.

Virtually every course in the physics major is designed to extend the students' ability to handle real-world problems solved by state-of-the-art techniques. An important feature of the program is the large number of electives, which allow a student to pursue topics of special interest. There are numerous elective courses in areas as diverse as biophysics and cosmology, nanoscience and particle physics. Students can also choose electives to meet teacher certification requirements.

The Laboratory for High-Performance Computational Physics is a venue for students to become proficient in numerical techniques, parallel processing, electronic communication, and the basic computer languages and software relevant to advanced studies and research in physics.

The Department of Physics (<http://www.drexel.edu/coas/academics/departments-centers/physics>) conducts a broad array of outreach activities including the Kaczmarczik Lecture Series, public observing nights at the Lynch Observatory (<http://www.physics.drexel.edu/observatory>), and demonstrations in grade school performed by the Drexel Chapter of the Society of Physics Students (<http://www.drexel.edu/coas/academics/departments-centers/physics/student-organizations/society-physics-students>) (SPS).

In addition to the physics major, the Department also offers a minor in physics (p. 328) as well as a minor in astrophysics (p. 328) and a minor in biophysics (p. 329).

Degree Requirements

Core Physics Requirements

PHYS 105	Computational Physics I	3.0
PHYS 113	Contemporary Physics I	5.0
PHYS 114	Contemporary Physics II	5.0
PHYS 115	Contemporary Physics III	5.0
PHYS 128	Introduction to Experimental Physics	3.0
PHYS 217	Thermodynamics	4.0
PHYS 311	Classical Mechanics I	4.0
PHYS 317	Statistical Mechanics	3.0
PHYS 321	Electromagnetic Fields I	4.0
PHYS 322	Electromagnetic Fields II	4.0
PHYS 326	Quantum Mechanics I	4.0

PHYS 327	Quantum Mechanics II	4.0
PHYS 328 [WI]	Advanced Laboratory	3.0
PHYS 491	Senior Research I	3.0
PHYS 492	Senior Research II	3.0
PHYS 493 [WI]	Senior Research III	3.0
PHYS 408	Physics Seminar (To be taken 3 times.)	3.0
Method Classes: Complete 12.0 credits from the following *		12.0
MATH 322	Complex Variables	
MATH 323	Partial Differential Equations	
MATH 331	Abstract Algebra I	
MATH 401	Elements of Modern Analysis I	
PHYS 160	Introduction to Scientific Computing	
PHYS 226	Instrumentation for Scientists I	
PHYS 227	Instrumentation for Scientists II	
PHYS 232	Observational Astrophysics	
PHYS 305	Computational Physics II	
PHYS 324	Topics in Mathematical Physics	
PHYS 325	Computational Physics III	
PHYS 405	Advanced Computational Physics	
Subject Courses: Complete 15.0 credits from the following: **		15.0
HNRS 301	Colloquium II (Special Relativity)	
PHYS 231	Introductory Astrophysics	
PHYS 233	Introduction to Relativity	
PHYS 262	Introduction to Biophysics	
PHYS 330	Introduction to Nuclear Physics	
PHYS 312	Classical Mechanics II	
PHYS 428	Quantum Mechanics III	
PHYS 431	Galactic Astrophysics	
PHYS 432	Cosmology	
PHYS 452	Solid State Physics	
PHYS 453	Nanoscience	
PHYS 461	Biophysics	
PHYS 462	Computational Biophysics	
PHYS 471	Nonlinear Dynamics	
PHYS 476	Particle Physics	
Math and Technical Requirements		
MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 200	Multivariate Calculus	4.0
MATH 201	Linear Algebra	3.0-4.0
or MATH 261	Linear Algebra	
MATH 210	Differential Equations	4.0
MATH 291	Complex and Vector Analysis for Engineers	4.0
Sciences		
CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
CHEM 103	General Chemistry III (OR Any Bio OR an ENGR class at 200 or higher)	5.0
CS 171	Computer Programming I	3.0
or CS 143	Computer Programming Fundamentals	
General Education		
CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
UNIV S101	The Drexel Experience	1.0
Liberal electives		9.0
Technical elective ***		3.0
Business elective		4.0

Free electives	24.0
Total Credits	180.0-181.0

* At least 6 credits must have a PHYS subject code.

** Courses at the 400 level and above will also be accepted.

*** Technical electives can be any course in BIO, CHEM, ENVS, GEO, MATH, PHYS, or any course from the College of Engineering.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

Term 1		Credits
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
MATH 121	Calculus I	4.0
PHYS 113	Contemporary Physics I	5.0
PHYS 128	Introduction to Experimental Physics	3.0
UNIV S101	The Drexel Experience	1.0
Term Credits		16.0
Term 2		
CS 143	Computer Programming Fundamentals	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
MATH 122	Calculus II	4.0
PHYS 114	Contemporary Physics II	5.0
Term Credits		15.0
Term 3		
CIVC 101	Introduction to Civic Engagement	1.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
MATH 200	Multivariate Calculus	4.0
PHYS 105	Computational Physics I	3.0
PHYS 115	Contemporary Physics III	5.0
Term Credits		16.0
Term 4		
CHEM 101	General Chemistry I	3.5
MATH 201	Linear Algebra	4.0
or 261	Linear Algebra	
MATH 291	Complex and Vector Analysis for Engineers	4.0
PHYS 217	Thermodynamics	4.0
Term Credits		15.5
Term 5		

CHEM 102	General Chemistry II	4.5
MATH 210	Differential Equations	4.0
PHYS 311	Classical Mechanics I	4.0
Subject course*		3.0
Term Credits		15.5

Term 6

One of the following:		3.0-5.0
CHEM 103	General Chemistry III	
Any Biology (BIO) course		
Any ENGR course 200-level or higher		
PHYS 326	Quantum Mechanics I	4.0
Method course*		3.0
Free elective		3.0
Term Credits		13.0-15.0

Term 7

PHYS 317	Statistical Mechanics	3.0
PHYS 327	Quantum Mechanics II	4.0
Method course		3.0
Business elective		3.0
Liberal studies elective		3.0
Term Credits		16.0

Term 8

PHYS 321	Electromagnetic Fields I	4.0
Two Subject courses		6.0
Technical elective		3.0
Free elective		3.0
Term Credits		16.0

Term 9

PHYS 322	Electromagnetic Fields II	4.0
PHYS 328 [WI]	Advanced Laboratory	3.0
Method course		3.0
Liberal studies elective		3.0
Business elective		3.0
Term Credits		16.0

Term 10

PHYS 408	Physics Seminar	1.0
PHYS 491	Senior Research I	3.0
UNIV S201	Looking Forward: Academics and Careers (Recommended only. For students pursuing graduate study.)	1.0
Subject course		3.0
Liberal studies elective		3.0
Free elective		3.0
Term Credits		14.0

Term 11

PHYS 408	Physics Seminar	1.0
PHYS 492	Senior Research II	3.0
Subject course		3.0
Free electives		6.0
Term Credits		13.0

Term 12

PHYS 408	Physics Seminar	1.0
PHYS 493 [WI]	Senior Research III	3.0
Method course		3.0
Free electives		7.0
Term Credits		14.0

Total Credit: 180.0-182.0

* See degree requirements (p. 326).

Co-op/Career Opportunities

Students who complete a degree in physics have many options. Some enter graduate school with the intention of obtaining a master's or a PhD. Others attend medical school. Engineering is yet another option, and graduates of an undergraduate physics program can enter this field with an unusually solid background in fundamental physical principles, mathematics, and computation. It is also possible for physics graduates to work in business and finance; for example, Wall Street employs many analysts trained in such "hard sciences" as physics.

Many Drexel physics graduates proceed directly into graduate schools, or medical or other professional programs. Physics graduates have attended some of the best graduate programs in the United States, including Columbia, Harvard, and CalTech. Other graduates have found jobs in engineering and business, and with such government agencies as the National Bureau of Standards.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) for more detailed information on co-op and post-graduate opportunities.

Minor in Physics

About the Minor

Physics is a science that studies the natural phenomena at all scales, from that of the universe to elementary particles. This minor exposes the students to some of the basic principles of physics and would easily complement any other discipline—from engineering to other sciences.

The minor in physics requires a total of 10.0 credits from the elective list in addition to the prerequisite and core courses.

Because of the overlap in requirements between the astrophysics minor (p. 328) and the physics minor, students cannot minor in both.

Required Prerequisite Courses*

PHYS 113	Contemporary Physics I
PHYS 114	Contemporary Physics II
PHYS 115	Contemporary Physics III

Required Courses

PHYS 311	Classical Mechanics I	4.0
PHYS 321	Electromagnetic Fields I	4.0
PHYS 217	Thermodynamics	4.0
PHYS 326	Quantum Mechanics I	4.0

Electives

Select at least 10.0 credits from PHYS courses at the 300 level or above	10.0
Total Credits	26.0

* PHYS 101, PHYS 102 and PHYS 201 will also satisfy the prerequisite requirements.

Minor in Astrophysics

About the Minor

Astrophysics brings together many disparate areas of physics—gravitational physics govern the evolution of galaxies and clusters, nuclear physics dominates the cores of stars, electromagnetism governs the radiation that we use to observe these objects. Students majoring in mathematics and computer science, as well as other disciplines, are often fascinated by the questions raised by astrophysics.

Because of the overlap in requirements between the astrophysics minor and the physics minor (p. 328), (p.) students cannot minor in both.

Admission Requirements

Consultation with the Physics Department.

Program Requirements

Required Prerequisite Courses

PHYS 113 & PHYS 114 & PHYS 115	Contemporary Physics I and Contemporary Physics II and Contemporary Physics III
OR	
PHYS 101 & PHYS 102 & PHYS 201	Fundamentals of Physics I and Fundamentals of Physics II and Fundamentals of Physics III

Required Courses

PHYS 217	Thermodynamics	4.0
PHYS 231	Introductory Astrophysics	3.0
PHYS 232	Observational Astrophysics	3.0
PHYS 311	Classical Mechanics I	4.0
PHYS 321	Electromagnetic Fields I	4.0
PHYS 431	Galactic Astrophysics	3.0
PHYS 432	Cosmology	3.0
Total Credits		24.0

Minor in Biophysics

About the Minor

Biophysics is the study of the complexity of life using tools provided by physics. It attempts to construct mathematical frameworks that explain among many other topics, how organisms obtain energy from the environment, how complex structures appear in the cell and how these relate to function. In essence, biophysics looks for principles that describe observed patterns and propose predictions based on these principles.

Admissions Requirements

Consultation and approval of the program director and completion of one of the prerequisite sequences. Students who have completed the PHYS 152, PHYS 153, PHYS 154 sequence will also be accepted into the minor provided they have an A- average in those courses and have completed MATH 121 and MATH 122.

Program Requirements

Required Pre-requisites

PHYS 113	Contemporary Physics I
PHYS 114	Contemporary Physics II
PHYS 115	Contemporary Physics III
OR	
PHYS 101	Fundamentals of Physics I
PHYS 102	Fundamentals of Physics II
PHYS 201	Fundamentals of Physics III

Core Requirements

PHYS 217	Thermodynamics	3.0-4.0
or CHEM 253	Thermodynamics and Kinetics	
or ENGR 210	Introduction to Thermodynamics	
PHYS 262	Introduction to Biophysics	3.0
PHYS 317	Statistical Mechanics	3.0
PHYS 321	Electromagnetic Fields I	4.0
PHYS 461	Biophysics	3.0
PHYS 462	Computational Biophysics	3.0

One course from the following:		4.5
BIO 122	Cells and Genetics	
BIO 141	Essential Biology	
One course from the following:		3.0-4.0
BIO 209	Cell, Molecular & Developmental Biology I	
BIO 214	Principles of Cell Biology	
BIO 218	Principles of Molecular Biology	
CHEM 371	Chemistry of Biomolecules	
Total Credits		26.5-28.5

Facilities

Astrophysics Facilities:

- The Numerical Astrophysics Facility emphasizes theoretical and numerical studies of stars, star formation, planetary systems, star clusters, galaxy distributions, cosmological modeling, gravitational lensing, and the early universe. The facility employs a high-performance Graphics Processing Unit (GPU) compute cluster, each node containing two 6-core, 2.7 GHz Intel Xeon CPUs and 96 Gbytes of RAM, accelerated by 4–6 Nvidia Fermi/Titan GPUs, and connected by QDR infiniband, affording computational speeds of up to 50 trillion floating point operations per second.
- The Joseph R. Lynch Observatory houses a 16-inch Mead Schmidt-Cassegrain telescope equipped with an SBIG CCD camera. Drexel was a member of the original Sloan Digital Sky Survey (SDSS) collaboration; faculty and students remain active in analyzing data from the SDSS. Drexel is currently an institutional member of the Large Synoptic Survey Telescope (LSST), currently under construction in Chile; faculty and students are developing LSST-related machine learning tools and analyzing simulated LSST data to prepare for "first light" in 2022.

Biophysics Facilities:

- Bio-manipulation and microscopy laboratories. Four optical tables and six research grade microscopes are configured to perform microscopic spectroscopy and manipulation on solutions and individual cells. A spatial light modulator allows spatial patterns to be encoded on samples and explored; all microscopes are temperature controlled with state of the art cameras, including a 2,000 frame per second high speed system. Each optical table is also equipped with high power lasers for photolysis or fluorescence spectroscopy. Microfluidic attachments are present on one table, and in an adjacent laboratory, a small microfluidic fabrication facility has been established.
- Experimental biophysics lab for studies of proteins and biomimetic lipids, including a fluorescence spectrometer.
- The Computational Biophysics facility also includes: (i) a Beowulf cluster with 46 dual Quad-core hyperthreaded Xeon CPU (736 cores) and 12Gb of RAM nodes plus a master with 1Tb of storage and 24Gb of RAM, (ii) a Beowulf cluster with 44 dual-core Xeon CPU (344 cores), (iii) a dual Quad-core hyperthreaded Xeon CPU workstation with 24Gb RAM and 3Tb disk with two Tesla C2050 GPU CUDA-accelerated graphics card, (iv) a dual Quad-core hyperthreaded Xeon CPU workstation with 8Gb RAM and 4Tb disk with an NVIDIA N280 GPU CUDA-accelerated graphics card, (v) a quad 8-core hyperthreaded Xeon CPU workstation with 128Gb RAM and 16Tb total disk, (vi) a 72Tb file server with 12Gb RAM, (vii) a 96Tb quad 6-core file server with 64Gb RAM, (viii) and several Linux workstations connected through a gigabit network.

Condensed Matter Facilities:

- The Ultrafast Electron Diffraction laboratory investigates structural dynamics in nanoscale materials at timescales that are fundamental to materials science and condensed matter physics. The techniques are based on exciting matter with light and probing the response of the lattice with electrons. The research interests of the lab are in a range of phenomena and systems including phase transformations induced by strong laser excitation, phase transformations in strongly correlated systems, generation and detection of coherent lattice vibrations, and characterization of materials properties of graphene, few-layer-graphene, ultra-thin graphite & nanocrystalline diamond.
- The research at Energy Materials Research Laboratory is devoted to atomic scale investigations of materials for energy. As the size of the system shrinks, conventional bulk thermodynamics becomes irrelevant and we enter the realm of mesoscopic physics. The equilibrium behavior of small systems is governed by the prevailing number of surface atoms that behave differently from the bulk ones. The electronic properties are also subject to reduced number of available electronic states. We take advantage of different scanning probe microscopy and spectroscopy techniques to elucidate the local electronic properties of materials that are relevant to solving energy problems. The laboratory research is funded by grants from NSF and DOE.
- The Ultra-low Temperature Laboratory includes a dilution refrigerator, ³He and ⁴He cryostats and microwave sources to study quantum phenomena in nano and microscale devices, superconducting qubits, nanostructures and quantum fluids and solids.

Particle Physics Facilities:

- The Drexel particle physics group contributes to neutrino oscillation experiments at different baselines, including the DUNE long baseline experiment hosted by Fermilab, the Double Chooz experiment in France, and the PROSPECT short baseline experiment at Oak Ridge National Laboratory. We are also active in the IceCube neutrino telescope located at the geographic South Pole, the EXO-200 experiment located in NM, and the PICO dark matter experiment located at SNOLAB in Canada.
- The Bubble Chamber Laboratory develops superheated-liquid detectors for rare-interaction searches.

Laboratory for High-Performance Computational Physics:

- In addition to the department computing cluster (15 linux workstations), high-performance computing resources include a dual-processor server with two Xeon E5-2650 processors (16 cores), 128 GB of RAM, and two Xeon Phi P5110 co-processor cards (480 cores). Department researchers also have access to a cluster of 18 Dell PowerEdge C6145 servers (AMD Opteron 6378 Piledriver CPU's, 64 cores/server, 256 GB RAM/server) with a total of 1152 cores and 4.5TB RAM.

Physics Faculty

Alexey Aprelev, PhD (*St Petersburg State University*). Assistant Teaching Professor. Experimental biophysics.

Eric Brewe, PhD (*Arizona State University*). Associate Professor. Physics Education Research, introductory course reform, network analysis in learning, neuromechanisms of learning.

Luis R. Cruz Cruz, PhD (*MIT*). Associate Professor. Computational studies of confinement effects on the folding of amyloidogenic proteins, spatial correlations of neurons in the brain, firing dynamics of neuronal networks, fluid flow through porous media.

N. John DiNardo, PhD (*University of Pennsylvania*) *Special Advisor to the Provost*. Professor. Vibrational and electron dynamics at semiconductor surfaces and interfaces, metal-semiconductor interfaces, polymer surfaces and interfaces, diamond-like carbon thin films, and protein and cell interactions with biomaterials surfaces.

Michelle Dolinski, PhD (*University of California, Berkeley*). Associate Professor. Neutrino physics, rare nuclear decays, cryogenic detector technologies.

Frank A. Ferrone, PhD (*Princeton University*). Professor. Experimental and theoretical protein dynamics, kinetics of biological self-assembly, including sickle cell and Alzheimer's disease, sickle cell testing and diagnostic devices.

David M. Goldberg, PhD (*Princeton University*) *Associate Dean for Research and Graduate Education, Associate Department Head for Undergraduate Studies*. Professor. Theoretical and computational cosmology, extragalactic astrophysics, gravitational lensing.

Maher Harb, PhD (*University of Toronto*). Assistant Professor. Solid state physics, ultrafast electron diffraction, time-resolved X-ray diffraction, ultrafast lasers, nanofabrication, nano/microfluidics, instrument development, vacuum technologies.

Goran Karapetrov, PhD (*Oregon State University*). Associate Professor. Experimental solid state physics, scanning probe microscopy, nanoscale catalysis, mesoscopic superconductivity.

Rachael M. Kratzer, PhD (*Drexel University*). Assistant Teaching Professor. Quasars, active galactic nuclei

Charles Lane, PhD (*California Institute of Technology*). Professor. Experimental tests of invariance principles and conservation laws, neutrino oscillations and properties.

Christina Love, PhD (*Temple University*). Assistant Teaching Professor. Educational methods and technology, STEM education, science literacy and outreach, particle physics, astrophysics.

Stephen L. W. McMillan, PhD (*Harvard University*) *Department Head*. Professor. Stellar dynamics, large-scale computations of stellar systems, and high-performance special-purpose computers.

Naoko Kurahashi Neilson, PhD (*Stanford University*). Assistant Professor. Neutrino physics, high energy astro-particle physics.

Russell Neilson, PhD (*Stanford University*). Assistant Professor. Dark matter, neutrino physics.

Gordon Richards, PhD (*University of Chicago*). Professor. Quasars, active galactic nuclei, supermassive black holes, galaxy evolution, sky surveys, infrared/X-ray/radio astronomy

Somdev Tyagi, PhD (*Brigham Young University*) *Associate Head of Non-Major Studies in Physics*. Professor. Nanobiophysics, Raman spectroscopy, magnetic materials.

Brigita Urbanc, PhD (*University of Ljubljana, Slovenia*). Associate Professor. Computational and experimental biophysics of protein folding

and assembly, relevant to Alzheimer's and Parkinson's disease; discrete molecular dynamics of coarse-grained protein and lipid models.

Michael Vogeley, PhD (*Harvard University*) Associate Department Head for Graduate Studies. Professor. Cosmology; galaxy formation and evolution; statistical analysis of large data sets; active galactic nuclei.

Jian-Min Yuan, PhD (*University of Chicago*). Professor. Protein folding, signal transduction pathways, computational biophysics, nonlinear dynamics and chaos in atomic and molecular systems, protein folding.

Emeritus Faculty

Shyamalendu Bose, PhD (*University of Maryland*). Professor. Nanoscience, high-temperature superconductivity, theory of surfaces and interfaces, disordered systems, electron and X-ray spectroscopies of solids.

Leonard D. Cohen, PhD (*University of Pennsylvania*). Professor Emeritus.

Leonard X. Finegold, PhD (*University of London*). Professor Emeritus.

Robert Gilmore, PhD (*Massachusetts Institute of Technology*). Professor. Applications of compact and non-compact Lie algebras for problems in nuclear, atomic, and molecular physics; nonlinear dynamics and chaos and the analysis of chaotic data.

Richard D. Haracz, PhD (*Wayne State University*). Professor Emeritus.

Frederick House, PhD (*University of Wisconsin*). Professor Emeritus.

Arthur P. Joblin, PhD (*Drexel University*). Professor Emeritus.

Donald C. Larson, PhD (*Harvard University*). Professor Emeritus.

Teck-Kah Lim, PhD (*University of Adelaide*). Professor. Structures and dynamics of small nuclear and molecular systems, spin-polarized quantum systems, physics in two dimensions. Physics education.

Arthur E. Lord, PhD (*Columbia University*). Professor Emeritus.

James McCray, PhD (*California Institute of Technology*). Professor Emeritus.

Richard I Steinberg, PhD (*Yale University*). Professor. Neutrino physics.

Michel Vallières, PhD (*University of Pennsylvania*). Professor. Shell-model and mean field studies of nuclei on and off beta-stability, chaotic scattering, computational physics.

T. S. Venkataraman, PhD (*Worcester Polytechnic Institute*). Professor Emeritus.

Political Science

Major: Political Science

Degree Awarded: Bachelor of Arts (BA)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 45.1001

Standard Occupational Classification (SOC) code: 19-3094

About the Program

The political science program in the Department of Politics (<http://www.drexel.edu/coas/academics/departments-centers/politics>) helps students cultivate perspective, develop critical thinking and communication skills, and understand the economic, social, and political systems within which we live and work. Our curriculum builds on the department's research focuses and strengths. These include public policy, environmental politics, international organizations, human rights, and law and society. This flexible program allows students to shape a curriculum that meets their needs, whether they are preparing for public service, the business world, graduate school in political science, an MBA or other business program, or law school.

Degree Offered

The department offers a Bachelor of Arts (BA) in political science. Students may choose a substantive 'track' that best fits their needs and future goals. Our current tracks are: American Politics and Policy, International Politics, and Law and Politics.

The Bachelor of Arts (BA) provides a flexible course of study, which includes foreign language and allows for options in the fulfillment of humanities, social science, math, and science requirements.

Degree Requirements

General Education Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
UNIV H101	The Drexel Experience	1.0
UNIV H201	Looking Forward: Academics and Careers	1.0
CIVC 101	Introduction to Civic Engagement	1.0
Two Math courses		6.0-8.0
Two Science courses*		6.0-8.0

Foundation Requirements

Studies in Diversity electives		6.0
Three Consecutive Foreign Language courses (must complete level 201)**		11.0-12.0
Humanities/Fine Arts electives		12.0
Social Science electives		12.0
International Studies electives		6.0

Core Political Science Requirements

PSCI 110	American Government	4.0
PSCI 120	History of Political Thought	4.0
PSCI 140	Comparative Politics I	4.0
PSCI 150	International Politics	4.0

Political Science Research Methods Sequence

PSCI 131 [WI]	Research Design for Political Science	4.0
PSCI 231	Qualitative and Mixed-Methods Research in Political Science	4.0
PSCI 232	Quantitative Research Methods in Political Science	4.0

Intermediate Courses

Select four of the following courses:

PSCI 200	American Political Development	
PSCI 211	American Government II	
PSCI 220	Constitutional Law I	
PSCI 223	Comparative Political Thought	
PSCI 229	Theories of Justice	
PSCI 240	Comparative Politics II	
PSCI 250	American Foreign Policy	
PSCI 251	Global Governance	
PSCI 260 [WI]	Power in Protest: Social Movements in Comparative Perspective	
PSCI 270	Problems of Individual Liberty and Government Authority	

PSCI 330	Public Opinion & Propaganda	
PSCI 363	Constitutional Law II	
Political Science Electives ***		32.0
Free Electives		33.0
Total Credits		180.0-185.0

- * Any Biology (BIO), Chemistry (CHEM), Geoscience (GEO), Nutrition (NFS), Physics (PHYS) or Environmental Science (ENVS) course.
- ** University requirement is two consecutive courses; the third language course, though listed here, is a departmental requirement.
- *** Choose eight 200-level or above PSCI courses.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

Term 1		Credits
UNIV H101	The Drexel Experience	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
PSCI 110	American Government	4.0
PSCI 150	International Politics	4.0
Foreign Language course		4.0
Term Credits		16.0
Term 2		Credits
CIVC 101	Introduction to Civic Engagement	1.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
PSCI 120	History of Political Thought	4.0
PSCI 131 [WI]	Research Design for Political Science	4.0
Foreign Language course		4.0
Term Credits		16.0
Term 3		Credits
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PSCI 140	Comparative Politics I	4.0
Foreign Language course		3.0
Diversity Studies elective		3.0
Social Science elective		3.0
Term Credits		16.0
Term 4		Credits
PSCI 232	Quantitative Research Methods in Political Science	4.0

Choose one intermediate course	4.0	
Mathematics course	3.0	
Diversity Studies elective	3.0	
Free elective	3.0	
Term Credits		17.0

Term 5		Credits
PSCI 231	Qualitative and Mixed-Methods Research in Political Science	4.0
Choose one intermediate course		4.0
Social Science elective		3.0
Mathematics course		3.0
Free elective		3.0
Term Credits		17.0

Political Science elective		4.0
Free elective		3.0
Term Credits		14.0

Term 11		Credits
International Area Studies elective		3.0
Political Science electives		8.0
Free elective		3.0
Term Credits		14.0

Term 12		Credits
Political Science elective		4.0
International Area Studies elective		3.0
Free electives		6.0
Term Credits		13.0

Total Credit: 180.0

Accelerated BA in Political Science and MS in Science, Technology & Society

About the Program

Drexel University permits undergraduate students to apply for graduate programs while completing their undergraduate programs, allowing students to complete their master's degrees in a shorter amount of time.

The accelerated-degree program provides an opportunity to simultaneously earn both a BA degree and an MS degree in Science, Technology & Society (<http://catalog.drexel.edu/graduate/collegeofartsandsciences/sciencetechnologyandsociety>) (two diplomas are awarded) in five years.

Students entering the program must:

- have and maintain a minimum of 3.0 grade point average throughout the program
- have no fewer than 90.0 earned credits
- have no more than 120.0 registered credits

The Department of Politics would especially like to encourage its own majors to consider the accelerated degree program in Science, Technology & Society. If you are currently enrolled in a 4+1 (4COP Accelerated Program) degree program, you are required to fill out the Accelerated Degree Level Conversion Form. After obtaining all the required signatures, please direct the form to the Assistant Director for Graduate Studies Office, Randell 240.

For more information about the accelerated BA/MS program, contact:
STS Program Director
Macalister Hall, 3025
215.895.2463

Recommended Plan of Study

Students should work closely with faculty advisors in the Science, Technology & Society program to schedule an individualized plan of study for their accelerated degree completion.

225.0 minimum credits

Term 1		Credits
UNIV H101	The Drexel Experience	1.0

Free Electives	6.0
SCTS electives	9.0
Term Credits	15.0
Total Credit: 225.0	

Co-Op/Career Opportunities

Political science majors have a wide variety of co-op experiences from which to choose. Business and public utilities offer many lucrative possibilities, and local, state, and federal governments; museums and archives; and law firms present many additional interesting co-op placements. Pre-law students, for example, are especially eager to see the inside of a law office, whether the co-op job they receive is clerical or a more challenging paralegal assignment. These practical experiences in the “real” world can reinforce the lessons of the classroom, sharpen skills, and establish important contacts. Sample co-op positions include:

- Law clerk/paralegal, Joe Davidson, Attorney-at-Law, Philadelphia
- Research analyst, Legislative Office for Research Liaison, Harrisburg, PA
- Legislative intern, Corporate Public Affairs Division, Philadelphia Electric Company
- Assistant lobbyist, Government Relations Office, Drexel University
- Education intern, Philadelphia Museum of Art
- Researcher, Philadelphia Chamber of Commerce
- Assistant, Office of the Governor, Harrisburg, PA

Career Opportunities

The flexible programs allow students to shape a curriculum that meets their needs, whether they are preparing for the business world, graduate school in history or political science, the Department’s Masters Program in Science, Technology, and Society (<http://drexel.edu/coas/academics/departments-centers/science-technology-society>), an MBA or other business program, or law school.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Politics Faculty

Phillip Ayoub, PhD (*Cornell University*). Assistant Professor. International relations, comparative politics, transnational social movements, marginalized groups

Scott Barclay, PhD (*Northwestern University*) *Department Head, Politics*. Professor. Judicial systems, civil rights, public policy and administration.

Zoltan Buzas, PhD (*Ohio State University*). Assistant Professor. International relations theory, international security, race and politics, diplomatic history.

Audrey Comstock, PhD (expected 2015) (*Cornell University*). Post-Doctoral Fellow. International law, international LGBT politics, foreign aid, African politics

Rose Corrigan, PhD (*Rutgers University*). Associate Professor. Women, public law, American politics and policy.

Richardson Dilworth, PhD (*Johns Hopkins University*) *Director, Center for Public Policy*. Professor. American political development, urban politics, public policy.

Erin R. Graham, PhD (*Ohio State University*). Assistant Professor. International institutions, international relations theory, global environmental politics.

Amelia Hoover Green, PhD (*Yale University*). Assistant Professor. Dynamics of conflict-related violence; intra-armed group politics and socialization; statistics in human rights.

Christian Hunold, PhD (*University of Pittsburgh*). Associate Professor. Environmental policy; comparative politics; urban wildlife; political theory.

Alison Kenner, PhD (*Rensselaer Polytechnic Institute*). Assistant Professor. Science, technology, and health; environmental health problems; cities and place; feminist theory; medical anthropology; digital humanities

Joel E. Oestreich, PhD (*Brown University*) *Director of the Global Studies major*. Associate Professor. International organizations, international finance, development, and human rights.

Elva Orozco-Mendoza, PhD (*University of Massachusetts*). Assistant Teaching Professor. Political freedom and action in the thought of Hanna Arendt; Feminist theory and feminist methodology; Protest politics; Theories of Violence; Identity politics, race, and gender in Latin American politics

Gwen Ottinger, PhD (*University of California, Berkeley*). Assistant Professor. Social studies of science and technology, environmental justice, science and engineering ethics, citizen science, environmental ethics.

Joshua Plencner, PhD (*University of Oregon*). Assistant Teaching Professor. American politics, race and racism, visual politics, political theory

William L. Rosenberg, PhD (*Temple University*). Professor. Behavioral politics, public opinion, and political communication.

Chloe Silverman, PhD (*University of Pennsylvania*). Associate Professor. Parent advocacy for autism, neurodiversity, and pollinator health research.

Jose Tapia, PhD (*New School for Social Research*). Associate Professor. The crises and fluctuations of the economy and the relation between these fluctuations and health conditions; quantitative aspects of social science.

Emeritus Faculty

Julie Mostov, PhD (*New York University*) *Vice Provost for Global Initiatives*. Professor Emeritus. Modern political thought, democratic theory, nationalism, gender studies, South Eastern Europe and the Balkans.

Psychology

Major: Psychology

Degree Awarded: Bachelor of Science (BS)

Calendar Type: Quarter

Total Credit Hours: 180.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 42.0101

Standard Occupational Classification (SOC) code: 19-3031; 19-3032; 19-3039

About the Program

Drexel University's Department of Psychology is a tight-knit, active community of internationally known faculty and impressive student scholars. The department defines psychology as a science of mind and behavior. From the neurophysiological underpinnings of cognition to defining the impact of human behaviors within the judicial systems and policies. Psychology contributes the human behavioral aspects to other fields, including STEM, medicine, law, arts and social sciences. Our students work alongside professors on cutting-edge research and clinical projects in a range of areas, including health, forensic, neuropsychology, human development, experimental, cognitive and clinical psychology. Undergraduates also benefit from Drexel's cooperative education program, gaining hands-on, extensive work experience in areas of their interest.

Bachelors of Science in Psychology

Students in the Bachelor of Science in Psychology program learn how to ask and answer important questions regarding human behavior, cognition and emotion, and how to apply their findings to improve lives. Within the program, students have the option to concentration in specific areas:

Mind, Brain and Behavior

The Mind, Brain and Behavior (MBB) area of focus allows psychology majors to concentrate their plan of study on how the mind and brain produce human behavior. Situating the mind within its biological substrate is one of the great scientific challenges of the 21st century. MBB covers introductory through advanced courses, exposing students to the formal study of the human mind and behavior and their underlying brain systems and structures

Human Development

This area allows students to focus on issues affecting human development across the lifespan. Using a biological, cognitive and socio-emotional perspective, students gain both breadth and depth in the understanding of current issues in child, adolescent and adult development.

Clinical and Health

For those interested in health and service careers, this area of focus includes coursework, experiential learning, and individualized mentorship, providing students with practical experience in the field.

Combined Bachelors/Masters Degree

There is an accelerated MS program entitled the Psychology BS/MS Scholars program to which undergraduates may apply. For more information, visit the Drexel University Department of Psychology (<http://www.drexel.edu/coas/academics/departments-centers/psychology>) homepage.

www.drexel.edu/coas/academics/departments-centers/psychology) homepage.

Additional Information

To schedule an appointment students should contact the Psychology department's academic advisor:

Degree Requirements

College Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
COM 230	Techniques of Speaking	3.0
Select one of the following:		8.0
MATH 101 & MATH 102	Introduction to Analysis I and Introduction to Analysis II	
MATH 121 & MATH 122	Calculus I and Calculus II	
PSCI 100	Introduction to Political Science	4.0
UNIV H101	The Drexel Experience	1.0
CIVC 101	Introduction to Civic Engagement	1.0
UNIV H201	Looking Forward: Academics and Careers	1.0
Economics elective		4.0
Fine Arts elective		3.0
History electives		6.0
Philosophy elective		3.0
Sociology (SOC) course		3.0
Anthropology (ANTH) course		3.0
Two English (ENGL) courses, 200-level or above		6.0
Select one of the following sequences:		8.0
Biology		
BIO 107	Cells, Genetics & Physiology	
BIO 108	Cells, Genetics and Physiology Laboratory	
BIO 109	Biological Diversity, Ecology & Evolution	
BIO 110	Biological Diversity, Ecology and Evolution Laboratory	
Chemistry		
CHEM 111	General Chemistry I	
CHEM 112	General Chemistry II	
Physics		
PHYS 103 & PHYS 104	General Physics I and General Physics II	
Other Courses		
Free electives		51.0
Departmental Requirements		
General Psychology Requirements		
PSY 111	Pre-Professional General Psychology I *	3.0
PSY 112	Pre-Professional General Psychology II *	3.0
100-Level Requirements		
Select two of the following:		6.0
PSY 120	Developmental Psychology	
PSY 140	Approaches to Personality	
PSY 150	Introduction to Social Psychology	
Required Psychology Courses		
PSY 212	Physiological Psychology	3.0

PSY 325	Psychology of Learning	3.0
PSY 240 [WI]	Abnormal Psychology	3.0
PSY 280	Psychological Research I	3.0
PSY 264	Computer-Assisted Data Analysis I	3.0
PSY 265	Computer-Assisted Data Analysis II	3.0
PSY 290	History and Systems of Psychology	3.0
PSY 330	Cognitive Psychology	3.0
PSY 360 [WI]	Experimental Psychology	3.0
PSY 380	Psychological Testing and Assessment	3.0

Advanced Psychology Electives (See Term Master Schedule for additional course offerings)

Select four of the following:	12.0
PSY 210	Evolutionary Psychology
PSY 213	Sensation and Perception
PSY 222	Psychological Problems of Modern Youth
PSY 225	Child Psychopathology
PSY 242	Psychology of Disability
PSY 244	Culture and Personality
PSY 245 [WI]	Sports Psychology
PSY 250 [WI]	Industrial Psychology
PSY 252	Death and Dying
PSY 254	Psychology of Sexual Behavior
PSY 305	Science and Pseudoscience in Psychology
PSY 310	Drugs & Human Behavior
PSY 322	Advanced Developmental Psychology
PSY 332	Human Factors and Cognitive Engineering
PSY 336	Psychology of Language
PSY 337	Human-Computer Interaction
PSY 342	Counseling Psychology
PSY 345	Narrative Psychology
PSY 350	Advanced Social Psychology
PSY 352	Psychology of Sustainability
PSY 355	Health Psychology
PSY 356	Women's Health Psychology
PSY 357	The Psychology of Eating Disorders and Obesity
PSY 370	Forensic Psychology
PSY 371	Law and Psychology
PSY 410	Neuropsychology
PSY 450	Autism Spectrum Disorders

Senior Seminar Sequence OR Psychology Electives **

PSY 490 [WI]	Psychology Senior Thesis I	4.0
PSY 491 [WI]	Psychology Senior Thesis II	4.0
PSY 492 [WI]	Psychology Senior Thesis III	4.0
Total Credits		180.0

* Students with AP psychology, or transfer students with PSY 101 credit, should check the AP Student Placement Exam Crosswalk (http://www.drexel.edu/provost/policies/pdf/supporting/ap_crosswalk.pdf) or check with their advisor.

** Students who do not wish to elect the research seminar sequence are required to take four additional advanced psychology electives instead.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic

advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

Term 1		Credits
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
PSY 111	Pre-Professional General Psychology I	3.0
MATH 121	Calculus I	4.0
or 101	Introduction to Analysis I	
UNIV H101	The Drexel Experience	1.0
Select one of the following:		4.0
CHEM 111	General Chemistry I	
PHYS 103	General Physics I	
BIO 107	Cells, Genetics & Physiology

Free electives		9.0
Term Credits		13.0

Total Credit: 180.0

* See degree requirements (p. 335).

Co-op/Career Opportunities

Some graduates seek employment immediately after receiving their bachelor's degrees. They are well trained to work as research assistants in consulting firms and medical settings or to provide front-line services in mental health and educational settings. Other graduates go on to professional schools in law, business, medicine, and other health professions. Still others pursue graduate training in psychology and related fields. Students build skills and knowledge that provide a foundation for advanced study, create opportunities for future growth, and can be used to improve the quality of life for others.

Co-Op Experiences

Drexel University has long been known for its co-operative education programs, through which students mix periods of full-time, career-related employment with their studies. Co-op/internship employment is an option for psychology majors. Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Minor in Psychology

The minor in psychology is intended to meet the needs of students who recognize that an understanding and analysis of individual psychological processes is a key component of their education. Students in the minor learn how to ask and answer important questions regarding human behavior, cognition and emotion to complement their major. The minor may also be of interest to students who have an interest in a double major but are unable to satisfy all of the requirements in two major fields.

Entry into the minor requires that PSY 101 General Psychology (or an equivalent introductory course) be taken as a prerequisite. Students who have completed and who are interested in a minor in Psychology are expected to meet with a Psychology Department faculty member to discuss the selection of courses appropriate to their major and their own personal interests. No more than three courses that are required for a student's major can count towards fulfilling requirements for the minor.

Required Prerequisite

PSY 101	General Psychology I (or equivalent)
---------	--------------------------------------

Required Courses

Select eight of the following:		24.0
PSY 120	Developmental Psychology	
PSY 140	Approaches to Personality	
PSY 150	Introduction to Social Psychology	
PSY 210	Evolutionary Psychology	
PSY 212	Physiological Psychology	
PSY 213	Sensation and Perception	
PSY 240 [WI]	Abnormal Psychology	
PSY 245 [WI]	Sports Psychology	
PSY 250 [WI]	Industrial Psychology

Psychology Faculty

Meghan Butryn, PhD (*Drexel University*). Associate Research Professor. Treatment and prevention of obesity and eating disorders, behavioral treatment, acceptance and commitment therapy.

Dorothy Charbonnier, PhD (*SUNY Stony Brook*). Assistant Teaching Professor. The nature of the creative process and writing.

Evangelia G. Chrsikou, PhD (*Temple University*). Associate Professor. Cognitive neuroscience of memory, concepts, and action, neural mechanisms of cognitive and affective regulation, translational neuroscience.

Douglas L. Chute, PhD (*University of Missouri*) *Louis and Bessie Stein Fellow; Faculty coordinator of ePsychology*. Professor. Neuropsychology and rehabilitation; technological applications for the cognitively compromised and those with acquired brain injuries.

Brian Daly, PhD (*Loyola University, Chicago*) *Director, Practicum Training*. Assistant Professor. Pediatric neuropsychology, intervention with at-risk youth.

David DeMatteo, PhD, JD (*MCP Hahnemann University; Villanova University School of Law*) *Director of the JD-PhD Program in Law and Psychology*. Associate Professor. Psychopathy, forensic mental health assessment, drug policy; offender diversion.

Evan M. Forman, PhD (*University of Rochester*). Professor. Clinical psychology: mechanisms and measurement of psychotherapy outcome, cognitive-behavioral and acceptance based psychotherapies, the development and evaluation of acceptance-based interventions for health behavior change (for problems of obesity and cardiac disease) as well as mood and anxiety disorders; neurocognition of eating.

Pamela Geller, PhD (*Kent State University*). Associate Professor. Stressful life events and physical and mental health outcomes, particularly in the area of women's reproductive health (e.g. pregnancy, pregnancy loss, infertility, medical education).

Maureen Gibney, PsyD (*Widener University*). Associate Teaching Professor. Clinical psychopathology; neuropsychological evaluation and intervention with the elderly.

Naomi Goldstein, PhD (*University of Massachusetts*) *Co-Director of the JD-PhD Program*. Associate Professor. Forensic psychology; juvenile

justice; Miranda rights comprehension; false confessions; juvenile justice treatment outcome research; anger management intervention development; child and adolescent behavior problems.

Kirk Heilbrun, PhD (*University of Texas at Austin*). Professor. Forensic psychology, juvenile and adult criminality, violence risk assessment, forensic psychological assessment, treatment of mentally disordered offenders, academic-sports mentoring.

Adrienne Juarascio, PhD (*Drexel University*). Assistant Research Professor. Enhancing treatment outcomes for eating disorders and obesity; Acceptance-based behavioral treatments; Evaluating mechanisms of action in behavioral treatments

Marlin Killen, PhD (*Trident University International*) *Faculty Coordinator of ePsychology; Online Learning Council Fellow*. Associate Teaching Professor. Authentic teaching methods in Psychology as well as student persistence behavior.

John Kounios, PhD (*University of Michigan*) *Director, PhD Program in Applied Cognitive and Brain Sciences*. Professor. Cognitive neuroscience, especially creativity, problem solving, and cognitive enhancement.

Michael Lowe, PhD (*Boston College*). Professor. Prevention and treatment of eating disorders and obesity; effects of appetitive responsiveness and dietary restraint on eating regulation; psychobiology of obesity-proneness; empirical foundations of unconscious processes.

John Medaglia, PhD (*Pennsylvania State University*). Assistant Professor. Neuropsychology; cognitive control; brain stimulation; neuroimaging; network analysis; cognitive neuroengineering; wellbeing.

Megan L. Meyer, PhD (*Temple University*). Assistant Teaching Professor. Influences on preferred body type; changes in body image, self-esteem, and self-efficacy in females as a function of strength training. Sensation and perception.

Danette Morrison, PhD (*University of Maryland-College Park*). Assistant Teaching Professor. Social relationships, identity development and achievement motivation of ethnic minorities.

Arthur Nezu, PhD, DHLL, ABPP (*State University of New York at Stony Brook*). Distinguished Professor. Behavioral medicine applications of problem-solving therapy and other cognitive-behavior therapies (e.g., to decrease emotional and psychosocial risk factors; improve adherence), particularly with regard to patients with cardiovascular disease; assessment.

Christine Maguth Nezu, PhD (*Fairleigh Dickinson University*). Professor. Cognitive-behavioral assessment and treatment for mood, anxiety, personality disorders, and coping with chronic illness; mind/body studies; stress and coping; developmental disabilities and comorbid behavioral and emotional disorders; spirituality and psychology.

Karol Osipowicz, PhD (*Thomas Jefferson University*). Assistant Teaching Professor. The application of advanced neuroimaging to the study of human brain function and anatomy.

Nancy Raitano Lee, PhD (*University of Denver*) *Director MS and BS/MS Programs*. Assistant Professor. Neuropsychological and neuroanatomic correlates of intellectual and developmental disabilities; Verbal memory and language difficulties in Down syndrome and other genetic disorders; Comorbid autism spectrum disorder symptoms in youth with genetic

disorders; Neuroanatomic correlates of individual differences in typical and atypical cognition

Diana Robins, PhD (*University of Connecticut*) *Research Program Leader, Early Detection and Intervention Program, AJ Drexel Autism Institute.*
Associate Professor. Autism screening, early detection of autism

Ludo Scheffer, PhD (*University of Pennsylvania*) *Director of Undergraduate Studies.* Teaching Professor. Meta-cognitive development, writing, and computers; Language and literacy development in the early years in the context of family and schooling; Youth-at-risk; School violence and bullying; Program/intervention effectiveness

Maria Schultheis, PhD (*Drexel University*) *Interim Dean, College of Arts and Sciences.* Professor. Clinical Neuropsychology and rehabilitation following neurological compromise (brain injury, stroke, multiple sclerosis), application of technologies in psychology. Specialization in the use of virtual reality (VR) simulation, and evaluation of the demands of driving after disability.

Jennifer Schwartz, PhD (*Idaho State University*) *Director of Psychological Services Center.* Associate Teaching Professor. Adult psychopathology; evidence-based clinical practice; competency-based training; competency-based clinical supervision.

Julia Sluzenski, PhD (*Temple University*). Assistant Teaching Professor. Spatial and episodic memory, memory loss across the lifespan, developmental psychology.

Fengqing (Zoe) Zhang, PhD (*Northwestern University*). Assistant Professor. Neuroimaging data analysis; Data mining; Bayesian inference; High dimensional data analysis

Eric A Zillmer, PsyD (*Florida Institute of Technology*) *Carl R. Pacifico Professor of Neuropsychology and the Director of Athletics.* Professor. Psychological assessment (neuropsychological, cognitive, personality), psychiatric and neurological disorders, behavioral medicine, neurogerontology, mathematical modeling, sports psychology, psychology of genocide.

Emeritus Faculty

Donald Bersoff, JD, PhD (*Yale University, New York University*).
Professor Emeritus. Law and psychology; mental health law.

Thomas T. Hewett, PhD (*University of Illinois at Urbana-Champaign*).
Professor Emeritus. Human computer interaction and cognitive engineering; development of computing environments to support knowledge, workers, and high performance experts.

Myrna Shure, PhD (*Cornell University*). Professor Emeritus. Child development, problem-solving interventions with children, prevention programs.

Mary Spiers, PhD (*University of Alabama at Birmingham*). Professor Emeritus. Clinical neuropsychology and medical psychology; memory and practical applications for memory disorders in the elderly; cognitive health of women.

Sociology

Major: Sociology
Degree Awarded: Bachelor of Arts (BA)
Calendar Type: Quarter
Total Credit Hours: 182.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional Programs (CIP) code: 45.1101
Standard Occupational Classification (SOC) code: 19-3041

About the Program

The sociology major at Drexel University has three components: theory, methods, substantive coursework and features specialized coursework relating to social justice issues.

Sociology is the systematic study of societies. Society is the sum total of individual and group interaction and relations, from small groups and families to global networks and complex social organizations. The discipline covers a wide variety of fields of inquiry. Sociologists examine structural relations—how human society is organized from small groups to large institutions—and is committed to developing a *critical understanding* of these relationships. Thus the sociology major stresses theory, research methods, quantitative and qualitative data analysis as applied to a wide variety of substantive areas including but not limited to social inequality, political power, gender, class, race, ethnicity, family, crime, technology and environmental change as well as a wide variety of social and political movements connected with social change. The stress on *critical understanding* means that sociology majors will strive not only to develop strong analytic abilities but an intellectual and ethical engagement reflected in sociologically informed thinking and action. The research and analytical skills developed in our program are sought after by a wide variety of professions.

Specialized social justice coursework is typically carried out in connection with community groups and organizations. It is a way the Sociology Program and Drexel University as a whole seek to become practically engaged with the wider community while promoting social justice.

For more information about the sociology major, visit the Department of Sociology (<http://www.drexel.edu/coas/academics/departments-centers/sociology>) web page.

Degree Requirements

General Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0

Co-op/Career Opportunities

An undergraduate degree in sociology is excellent preparation for law school, medical school, or for graduate work in such fields as sociology, history, gerontology, or political science.

Outside of academics, sociologists work in a wide variety of settings. Some serve as statistical analysts for market research firms, health care agencies, and government. Others are involved in urban planning, survey research, public relations, agency management, trend analysis, or criminal justice. There are sociologists of religion working for national church organizations, and sociologists specializing in gerontology who are engaged in research or administration for agencies concerned with the aged.

Co-op Experiences

Some recent co-op positions held by sociology students include the following:

- Human Resources Assistant, National Board of Medical Examiners (<http://www.nbme.org>)
- Giving Corps Intern, Cradles to Crayons (<http://www.nbme.org>)
- Organizing Internship, Food & Water Watch (<https://www.foodandwaterwatch.org>)
- Marketing Intern, Stradley Ronon Stevens & Young LLP (<http://www.stradley.com>)
- Small Business Outreach Co-op, The Welcoming Center for New Pennsylvanians (<http://welcomingcenter.org>)

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Minor in Sociology

The sociology minor is designed to give students specializing in other fields a broader knowledge of contemporary social issues and the ability to analyze them in a reasoned fashion. For students majoring in such fields as business and engineering, the minor helps develop skills in critical thinking that go beyond the acquisition of specialized, professional techniques. For students majoring in another area of the liberal arts, the minor offers the opportunity to place the issues raised in the major discipline within a larger social context.

Please note: No more than three courses that are required for a student's major can count towards fulfilling requirements for the minor.

Required Courses *

SOC 355 [WI]	Classical Social Theory	4.0
or SOC 356	Contemporary Social Theory	
Select five of the following: **		20.0

SOC 115	Social Problems

SOC 450	Capstone in Sociology	
SOC T480	Special Topics in Sociology	
SOC I499	Independent Study in SOC	
Total Credits		24.0

* No more than three courses that are required for a student's major can count towards fulfilling requirements for the minor.

** Students must take at least three elective courses at the 300 or 400 level.

Sociology Faculty

Susan Bell, PhD (*Brandeis University*) Department Head, Sociology. Professor. The interaction between patient cultures and embodied health movements; changing culture and structure of biomedicine; the experience of illness, women's health, and narrative representations of the politics of cancer, medicine, and women's bodies.

Robert J. Brulle, PhD (*George Washington University*). Professor. Environmental policy and politics, critical theory, marine risk, social movements, environmental sociology.

Jessica Cohen, PhD (*Bowling Green State University*). Associate Teaching Professor. Family demography

Mary Ebeling, PhD (*University of Surrey*) Director, Women's and Gender Studies. Associate Professor. Science and technology studies; emerging technologies and biocapital; media and democratic cultures; radical social movements; sociology of markets; political sociology; and ethnographic methodologies.

Claire Herbert, PhD (*University of Michigan*). Assistant Professor. Urban sociology; Housing and homelessness; Criminology; Law and society; Poverty and inequality; Resistance; Social change

Kelly Joyce, PhD (*Boston College*) Director, *Master's Program in Science Technology & Society*. Professor. Science, medicine and technology; aging and technology; qualitative social science methods; healthcare and medicine.

Emmanuel F. Koku, PhD (*University of Toronto*). Associate Professor. Social network analysis; qualitative/quantitative research; medical sociology; social epidemiology; social demography; sociology of development; communication and information technology; community and urban sociology.

Nada Matta, PhD (*New York University*). Assistant Professor. Middle East Studies; political economy; social movements; gender studies; revolutions; inequality

Elizabeth McGhee Hassrick, PhD (*University of Chicago*). Assistant Research Professor. Social network interventions that promote positive outcomes for people with ASD, their families and communities

Kevin Moseby, PhD (*University of California-San Diego*). Assistant Teaching Professor. The social and cultural studies of biomedicine/health, particularly as those domains intersect with and through the institutions of race/sexuality/gender, social movements/community advocacy, HIV/AIDS, racial health disparities, science and technological studies, and Black Studies

Jason Orne, PhD (*University of Wisconsin-Madison*). Assistant Professor. Urban and Community Sociology; Sexualities Studies; Qualitative Methodologies; Sociology of Race and Ethnicity; Social Psychology; Social Theory

Mimi Sheller, PhD (*New School for Social Research*) Director, *Center for Mobilities Research and Policy*. Professor. Sustainable mobility and mobility justice: new cultures and infrastructures of travel, transport, mobile communication, and urbanism; Caribbean Studies: history, culture and political theory of the region, including intersections of race, ethnicity, gender, sexuality and class.

Diane Sicotte, PhD (*Arizona State University*). Associate Professor. Sociology of environmental injustice: inequalities in the citing of environmental hazards; community-based research in neighborhoods dealing with industrial hazards; sociology of the environment; urban sociology; social inequalities.

Kelly Underman, PhD (*University of Illinois at Chicago*). Assistant Professor. Medical education, the social construction of bodies and emotions, and the politics of scientific knowledge production

Kevin Woodson, PhD, JD (*Princeton University; Yale Law School*). Associate Professor. Race and the legal profession; criminal procedure; civil rights law.

The Louis Stein Minor in Judaic Studies

The Louis Stein Minor in Judaic Studies, housed within the College of Arts and Sciences, is designed to give students the opportunity to explore and understand the history, culture, politics, and religion of the Jewish people. Through interdisciplinary coursework and directed field study,

students investigate the Jewish experience from both a contemporary and a historical perspective.

The Louis Stein Minor in Judaic Studies requires 24.0 credits: 11.0 from required courses, and 13.0 from electives. Students can apply a maximum of 6.0 credits toward the minor from field study under the supervision of the academic advisor.

Program Requirements

Required Courses

JUDA 201	Jewish Literature and Civilization *	3.0
JUDA 202	Jewish Life and Culture in the Middle Ages **	4.0
JUDA 203	Modern Jewish History †	4.0
Minor electives		13.0
Total Credits		24.0

* Offered concurrently with ENGL 350 Jewish Literature and Civilization.

** Offered concurrently with HIST 253 Jewish Life and Culture in the Middle Ages.

† Offered concurrently with HIST 249 Modern Jewish History.

Courses offered as electives have included:

- JUDA 211 (<http://catalog.drexel.edu/search/?P=JUDA%20211>) American Jewish Experience
- JUDA 212 (<http://catalog.drexel.edu/search/?P=JUDA%20212>) [WI (<http://catalog.drexel.edu/undergraduate/collegeofartsandsciences/judaicstudies>)] Contemporary Jewish Life
- JUDA 213 (<http://catalog.drexel.edu/search/?P=JUDA%20213>) Jewish Cultural Tapestry
- JUDA 214 (<http://catalog.drexel.edu/search/?P=JUDA%20214>) Language and Cultural Diversity in the USA
- JUDA 215 (<http://catalog.drexel.edu/search/?P=JUDA%20215>) Reconstructing History After Genocide
- JUDA 216 (<http://catalog.drexel.edu/search/?P=JUDA%20216>) Yiddish Literature and Culture
- JUDA 280 (<http://catalog.drexel.edu/search/?P=JUDA%20280>) Special Topics in Judaic Studies
- JUDA 298 (<http://catalog.drexel.edu/search/?P=JUDA%20298>) Field Work in Judaic Studies
- JUDA I299 (<http://catalog.drexel.edu/search/?P=JUDA%20I299>) Independent Study in Judaic Studies
- ANTH 120 (<http://catalog.drexel.edu/search/?P=ANTH%20120>) Biblical Archeology of Israel and Jordan
- ANTH 380 (<http://catalog.drexel.edu/search/?P=ANTH%20380>) Special Topics in Anthropology (When offered as Archeology of the Middle East)
- HBRW 101 (<http://catalog.drexel.edu/search/?P=HBRW%20101>) Introduction to Hebrew I
- HBRW 102 (<http://catalog.drexel.edu/search/?P=HBRW%20102>) Introduction to Hebrew II
- HBRW 103 (<http://catalog.drexel.edu/search/?P=HBRW%20103>) Introduction to Hebrew III
- HBRW 201 (<http://catalog.drexel.edu/search/?P=HBRW%20201>) Intermediate Hebrew IV
- HBRW 202 (<http://catalog.drexel.edu/search/?P=HBRW%20202>) Intermediate Hebrew V

- HBRW 203 (<http://catalog.drexel.edu/search/?P=HBRW%20203>) Intermediate Hebrew VI
- ENGL 395 (<http://catalog.drexel.edu/search/?P=ENGL%20395>) [WI (<http://catalog.drexel.edu/undergraduate/collegeofartsandsciences/judaicstudies>)] Special Studies in Literature (When offered as Jewish Women in Literature and History)
- ENGL 323 (<http://catalog.drexel.edu/search/?P=ENGL%20323>) Literature and Other Arts (When offered as Holocaust Testimonies)
- ENGL 345 (<http://catalog.drexel.edu/search/?P=ENGL%20345>) American Ethnic Literature (When offered as Jewish American Writers)
- ENGL 325 (<http://catalog.drexel.edu/search/?P=ENGL%20325>) Topics as World Literature (When offered as Israeli Literature & Culture, or as Yiddish Literature & Culture)
- LANG 180 (<http://catalog.drexel.edu/search/?P=LANG%20180>) Special Topics in Languages (When offered as Yiddish Language I)
- LANG 180 (<http://catalog.drexel.edu/search/?P=LANG%20180>) Special Topics in Languages (When offered as Yiddish Language II)

Additional Information

For more information about the Louis Stein Minor in Judaic Studies, please contact:

The Judaic Studies Program offices are located in Room 331 of Hagerty Library.

The College of Engineering

The College of Engineering curriculum is designed to provide students a thorough understanding of scientific, mathematical, and engineering fundamentals--as well as the ability to apply these areas of knowledge creatively to a wide variety of engineering problems.

Majors

- Architectural Engineering (BSAE) (p. 346)
- Chemical Engineering (BSCHE) (p. 353)
- Civil Engineering (BSCIV) (p. 357)
- Computer Engineering (BSCE) (p. 361)
- Construction Management (BSCMGT) (p. 368)
 - Real Estate Concentration (p. 370)
- Electrical Engineering (BSEE) (p. 372)
- Engineering (BSE) (p. 379)
- Engineering Technology (BSET) (p. 386)
 - Biomedical Engineering Technology Concentration (p. 382)
 - Computer Engineering Technology Concentration (p. 383)

- Electrical Engineering Technology Concentration (p. 385)
- Industrial Engineering Technology Concentration (p. 388)
- Mechanical Engineering Technology Concentration (p. 390)
- Environmental Engineering (BSENE) (p. 392)
- Materials Science and Engineering (BSMSE) (p. 396)
- Mechanical Engineering (BSME) (p. 402)
- Property Management (BSPRMT) (p. 414)

Accelerated Degree Programs

- Any Discipline BS / Project Management MS (<http://catalog.drexel.edu/graduate/collegeofengineering/projectmanagement/#advanceddualdegreeoptionstext>)
- Engineering Management BS/MS (<http://catalog.drexel.edu/graduate/collegeofengineering/engineeringmanagement/#accelerateddualdegreetext>)
- Systems Engineering BS/MS (p. 416)

Minors

- Architectural Engineering (p. 351)
- Computer Engineering (p. 364)
- Construction Management (p. 371)
- Electrical Engineering (p. 375)
- **NEW:** Engineering Leadership
- Engineering Management (p. 409)
- Engineering Policy Analysis (p. 381)
- **NEW:** Engineering Product Development
- Entertainment Engineering (p. 410)
- Environmental Engineering (p. 394)
- Global Engineering (p. 410)
- **NEW:** Green Energy and Sustainability
- Materials Science and Engineering (p. 400)
- Mechanical Engineering (p. 405)
- Nuclear Engineering (p. 411)
- Project Management (p. 412)
- Property Management (p. 416)
- Real Estate (p. 412)
- **NEW:** Robotics and Automation
- Systems Engineering (p. 413)
- **NEW:** Technology

Certificates

- Construction Management (I, II, III, IV) (p. 352)
- **NEW:** NAE Grand Challenge Scholars Program

About the College

Drexel University's College of Engineering has emphasized its strengths in engineering, science and technology to train students to become the leaders of the future. In little over a century, Drexel University has transformed itself into a large, comprehensive institution committed to excellence in education, research and service to the engineering society and to the broader community. Although much has changed, the original mission of the University still rings true today.

The College of Engineering offers students a diverse academic learning and research environment embodying the highest standards of knowledge

and preparing them to impact society's greatest challenges. Through entrepreneurial risk-taking and exploration, students are encouraged to find innovative solutions that promote economic development and improve life.

In addition to the traditional engineering curriculum, the college offers Engineering Technology (p. 386) and Construction Management (p. 368).

Objectives of the traditional Undergraduate Engineering Program

The profession of engineering is concerned with turning the natural elements and energies to the service of mankind. The objectives of the undergraduate program in the College of Engineering (<http://www.drexel.edu/coe>) are:

- *To offer an education that will give graduates the flexibility to adjust to future changes in technology*
- *To develop a sense of professionalism and entrepreneurship*
- *To provide a framework for concentrated study in a professional area*

To implement those objectives the curricula of the College of Engineering are designed to provide a firm grounding in basic science and liberal arts, along with broad-based engineering sciences and professional engineering subjects.

Cooperative Education

In five-year cooperative programs, engineering majors spend a total of 12 terms in school and six terms on co-op assignment. Freshmen attend classes for three terms. During their sophomore, pre-junior, and junior years, students generally attend class for two terms and are assigned a cooperative employment position for two terms each year.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

About the Traditional Engineering Curriculum

Degree Requirements

The degree of Bachelor of Science in the engineering specialties is comprised of academic work and six terms of co-op or engineering experience for the five-year program. For the four-year program, only two terms of co-op are required. Transfer students must complete a minimum of two terms of co-op or engineering experience in order to earn a cooperative engineering degree accredited by ABET (<http://www.abet.org>).

Engineering student must maintain an overall grade point average of 2.0 in all required courses in their major.

The Bachelor of Science in Engineering (BSE) program is a customizable undergraduate engineering degree program offered in the College of Engineering. The program is designed for students who are seeking an interdisciplinary education rooted in engineering. The degree is structured so students achieve a strong foundation in science, math and engineering. Upper level engineering electives can be chosen to fit the student's individual interests and career objectives. The BS in Engineering program allows the student to create their own engineering curriculum path with the assistance of their BSE advisors. The program is also flexible enough so that students can complete up to two minors

in areas which may include but are not limited to environmental studies, finance, entrepreneurship, music, legal studies or pre-med. To learn more about the Bachelor of Science in Engineering program, please visit the Program Overview webpage (<http://drexel.edu/engineering/areas-of-study/engineering/BSE/ProgramOverview>).

Curricular Organization

Students in the traditional engineering programs study the same subjects during the three terms in the first year. During the two terms of the sophomore year, students begin taking department specific coursework.

The first five terms are devoted to those subjects that form the foundation of the engineering curriculum. Courses in the core engineering curriculum are organized and taught to provide an integrated view of the basic sciences and an introduction to the art of engineering through group projects that deal with open-ended problems characteristic of the practice of engineering. Students also learn to use the modern tools of engineering both on the computer and in the laboratory.

The college considers it essential that students entering the Drexel Engineering Curriculum be placed in courses that take advantage of their abilities and prior training. Student preparation level is determined by a review committee that evaluates the student's high school record, standardized test scores, and placement tests administered during freshman orientation.

Students who demonstrate the preparation and skills to succeed in our integrated engineering calculus course immediately will be placed in the course starting in the fall term. Students who are not prepared for this sequence may participate in a special "pre-engineering" program before the fall term. These students may also have a modified fall schedule and may need summer school during the following summer.

In the second year, professional subjects are introduced, and all the first-level professional courses are completed by the junior year. The senior year in all curricula contains at least one elective sequence so that students can study some aspect of engineering more deeply. In addition, all curricula provide a design experience in the senior year. Recognizing the importance of general education studies in the education of an engineer, all curricula require that courses be taken in this area. These requirements are described in more detail in the General Education Requirements (<http://drexel.edu/engineering/resources/undergraduate-advising/current-students/electives/general-ed-electives>).

The Common Curriculum

While some programs vary in detail, the following courses are common to most engineering curricula. See each program for specifics.

University Requirements

CIVC 101	Introduction to Civic Engagement	1.0
UNIV E101	The Drexel Experience	2.0

Foundation Requirements

MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 200	Multivariate Calculus	4.0
PHYS 101	Fundamentals of Physics I	4.0
PHYS 102	Fundamentals of Physics II	4.0
PHYS 201	Fundamentals of Physics III	4.0
CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
BIO 141	Essential Biology	4.5
ENGR 100	Beginning Computer Aided Drafting for Design	1.0

ENGR 101	Engineering Design Laboratory I	2.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 103	Engineering Design Laboratory III	2.0
ENGR 121	Computation Lab I	2.0
ENGR 122	Computation Lab II	1.0
ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 210	Introduction to Thermodynamics	3.0
ENGR 220	Fundamentals of Materials	4.0
ENGR 231	Linear Engineering Systems	3.0
ENGR 232	Dynamic Engineering Systems	3.0

In addition, engineering students complete thirty (30.0) credits of General Education Requirements (p. 345).

Electives

In addition to the electives in the General Education electives there are two types of elective sequences in the engineering curricula: technical electives and free electives. Technical electives are courses in engineering, science, or management that build on the required professional courses and lead to a specific technical specialization. Possible elective sequences should be discussed with and approved by advisors before the end of the junior year. Free electives are any courses for which students are eligible and that are not remedial in nature for engineering students.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

General Education Requirements

The General Education Program is designed to give engineering students an opportunity to take a set of courses that complement their technical studies and satisfy their intellectual and/or career interests. All engineering majors must take thirty (30.0) credits. Nine (9.0) of the thirty credits are designated as follows and must be completed by all majors:

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0

General Education requirements for specific majors can be found in the degree requirements for each major. The remaining credits can be chosen from the disciplines listed below.

Course Subjects

This following list is a sampling of subject codes for courses that can be taken to fulfill General Education requirements; other courses may be accepted upon advisor approval.

Accounting (ACCT), Africana Studies (AFAS), Anthropology (ANTH), Arabic (ARBC), Architecture (ARCH), Art History (ARTH), Business Law (BLAW), Chinese (CHIN), Communication (COM), Criminology & Justice Studies (CJS), Culinary Arts (CULA), Dance (DANC), Economics (ECON), Education (EDUC), English (ENGL, except ENGL 101, ENGL 102, ENGL 103 & ENGL 105), Entertainment & Arts Management (EAM), Entrepreneurship (ENTP), Film Studies (FMST), Finance (FIN), French (FREN), General Business (BUSN), German (GER), Global Studies (GST), Hebrew (HBRW), History (HIST), Hotel & Restaurant Management (HRM), Humanities (HUM, except HUM 107 & HUM 108), Interior Design (INTR), International Business (INTB), Italian (ITAL), Japanese (JAPN), Judaic Studies (JUDA), Korean (KOR), Language (LANG), Leadership (LEAD), Management (MGMT), Marketing (MKTG), Military Science (MLSC), Music (MUSC), Music Industry Program (MIP), Operations Management (OPM), Operations Research (OPR), Organizational Behavior (ORGB), Philosophy (PHIL), Photography (PHTO), Product Design (PROD) Project Management (PROJ), Political Science (PSCI), Psychology (PSY, except PSY 330 & PSY 337), Public Health (PBHL), Real Estate (REAL), Russian (RUSS), Screenwriting & Playwriting (SCRIP), Sociology (SOC, except SOC 364 & SOC 365), Spanish (SPAN), Sports Management (SMT), STEM Teacher Education (ESTM), Taxation (TAX), Theatre (THTR), Visual Studies (VSST), WEST Studies (WEST), Women's and Gender Studies (WGST), and Writing (WRIT).

General Education electives must be non-technical. All Computer, Math, Engineering & Science related courses will NOT count as General Education electives.

Special Programs

Accelerated Programs/ Bachelor's/Master's Dual Degree Program

The Accelerated Program of the College of Engineering provides opportunities for highly talented and strongly motivated students to progress toward their educational goals essentially at their own pace. Primarily through advanced placement, credit by examination, flexibility of scheduling, and independent study, the program makes it possible to complete the undergraduate curriculum and initiate graduate study in less than the five years required by the standard curriculum. Students enrolled in this program may take advantage of the five-year Bachelor's/Master's Dual Degree Program described on the College of Engineering's Accelerated Programs (<http://drexel.edu/engineering/programs/undergraduate/accelerated-programs>) web page.

Lincoln University/Drexel 3-3 Plan

Drexel participates in a program with Lincoln University under which a student may attend Lincoln University for three years, taking liberal arts subjects and pre-engineering courses in mathematics, science, and related areas; transfer to Drexel; and receive a degree in engineering after three additional years at Drexel. This is similar to the conventional

3-2 program in which other colleges and universities participate; the extra year is necessitated by Drexel's co-operative education plan.

Facilities

Core Engineering Facilities

The Freshman Engineering Design Laboratories are located in the newly-created Innovation Studio. The Studio hosts activities for all class levels from Freshman Design at one end through Senior Design at the other. It includes 3D printers, multiple sensor suites and the college machine shop representing the flow of freshman initial ideas through complex fabrication.

Freshman Design courses taken by all new freshmen are held exclusively in the Innovation Studio which was completed in the fall of 2015. A team of Drexel faculty and staff designed the studio to allow activities of many scales as well as to promote open communication within and across groups of students. The lab tables accommodate work in small and larger groups.

The Innovation Studios are an example of Drexel's commitment to undergraduate education, but providing up-to-date, high-quality technology to facilitate the kind of experiential learning that keeps Drexel at the cutting edge.

Department Facilities

Departments within the College of Engineering have laboratory equipment appropriate for required lab coursework within curriculum. Most engineering department webpages describe their specialized facilities in detail.

Architectural Engineering

Major: Architectural Engineering

Degree Awarded: Bachelor of Science in Architectural Engineering (BSAE)

Calendar Type: Quarter

Total Credit Hours: 193.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 14.0401

Standard Occupational Classification (SOC) code: 11-9041

About the Program

The architectural engineering major prepares graduates for professional work in the analysis, design, construction, and operation of residential, commercial, institutional, and industrial buildings. The program develops engineers familiar with all aspects of safe and economical construction. Students study the principles of structural support and external cladding, building environmental systems, and project management and develop depth in at least one area.

The program integrates building disciplines, including coordination with architects, construction managers, civil, mechanical, and electrical engineers, and others. Students use computer-aided design tools to understand system interactions, perform analysis, design, scheduling, and cost analysis, and present their work.

The first two years of the curriculum cover fundamentals necessary for all engineers. The pre-junior and junior years emphasize building systems and the principles governing their performance. In addition to the core engineering and science, students learn architectural approaches through studio design. Seniors focus on either structural or building environmental

systems design, as well as a full-year realistic design project. The academic program is complemented by exposure to professional practice in the co-op experience.

A special feature of the major is senior design. A group of students works with a faculty advisor to develop a significant design project selected by the group. All architectural engineering students participate in a design project.

Mission Statement

The civil and architectural engineering faculty are responsible for delivering an outstanding curriculum that equips our graduates with the broad technical knowledge, design proficiency, professionalism, and communications skills required for them to make substantial contributions to society and to enjoy rewarding careers.

Program Educational Objectives

Architectural engineering graduates will become professionals who analyze, design, construct, manage, or operate residential, commercial, institutional and industrial buildings and systems, or advance knowledge of the field.

Student Outcomes

The department's student outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate. These are:

- a) an ability to apply knowledge of mathematics, science, and engineering;
- b) an ability to design and conduct experiments, as well as to analyze and interpret data;
- c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- d) an ability to function on multidisciplinary teams;
- e) an ability to identify, formulate, and solve engineering problems;
- f) an understanding of professional and ethical responsibility;
- g) an ability to communicate effectively;
- h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- i) a recognition of the need for, and an ability to engage in life-long learning;
- j) a knowledge of contemporary issues;
- k) an ability to use the techniques, skills, and modern engineering tools necessary for architectural engineering practice.

Concentration Options

Mechanical Concentration (HVAC)

Students who choose the mechanical concentration (HVAC) prepare for careers dealing with the building environment. As co-ops and graduates,

they will be involved in the many design aspects of building environmental control, including:

- building load definitions
- equipment selection and design
- distribution system design
- control systems design
- energy analysis and system optimization
- building operation for safety, economy and maximum performance

Structural Concentration

Students who choose the structural concentration prepare for careers dealing with the building structure. As co-ops and graduates, they will be involved in the design of the many aspects of building structure including:

- building load definitions
- structural system design
- foundation system design

Digital Building Concentration

Students who choose the digital building concentration prepare for careers dealing with the role of computer technology in building design, construction and operation. As co-ops and graduates, they will be involved in:

- development and use of Building Information Models (BIM) and databases
- configuration and operation of building sensor and actuator networks and monitoring systems
- developing and maintaining construction schedules, databases and monitoring systems

Additional Information

The Architectural Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

For more information about this major, contact the program director:

Michael Waring, PhD

Assistant Professor

Civil, Architectural & Environmental Engineering

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

BS Architectural Engineering, Building Systems Concentration

5 YR UG Co-op Concentration/Building Systems

Term 1		Credits
CHEM 101	General Chemistry I	3.5
COOP 101	Career Management and Professional Development	0.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 121	Computation Lab I	2.0
MATH 121	Calculus I	4.0
UNIV E101	The Drexel Experience	1.0
Term Credits		16.5
Term 2		
CHEM 102	General Chemistry II	4.5
CIVC 101	Introduction to Civic Engagement	1.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 122	Computation Lab II	1.0
PHYS 101	Fundamentals of Physics I	4.0
MATH 122	Calculus II	4.0
Term Credits		19.5
Term 3		
BIO 141	Essential Biology	4.5
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0

ENGR 103	Engineering Design Laboratory III	2.0
MATH 200	Multivariate Calculus	4.0
PHYS 102	Fundamentals of Physics II	4.0
Term Credits		17.5
Term 4		
ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 220	Fundamentals of Materials	4.0
ENGR 231	Linear Engineering Systems	3.0
PHYS 201	Fundamentals of Physics III	4.0
CAEE 202	Introduction to Civil, Architectural & Environmental Engineering	3.0
Term Credits		17.0
Term 5		
ARCH 191	Studio 1-AE	3.0
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 210	Introduction to Thermodynamics	3.0
ENGR 232	Dynamic Engineering Systems	3.0
MEM 202	Statics	3.0
CAEE 203	System Balances and Design in CAEE	3.0
Term Credits		18.0
Term 6		
AE 340	Architectural Illumination and Electrical Systems	3.0
ARCH 141	Architecture and Society I	3.0
ARCH 192	Studio 2-AE	3.0
CIVE 320	Introduction to Fluid Flow	3.0
MEM 230	Mechanics of Materials I	4.0
Term Credits		16.0
Term 7		
AE 220	Introduction to HVAC	3.5
ARCH 142	Architecture and Society II	3.0
CIVE 250	Construction Materials	4.0
CIVE 330	Hydraulics	4.0
CAEE 212	Geologic Principles for Infrastructure & Environmental Engineering	4.0
Term Credits		18.5
Term 8		
AE 390	Architectural Engineering Design I	4.0
ARCH 143	Architecture and Society III	3.0
CIVE 240 [WI]	Engineering Economic Analysis	3.0
MEM 345	Heat Transfer	4.0
CIVE 302	Structural Analysis I	4.0
Term Credits		18.0
Term 9		
AE 391	Architectural Engineering Design II	4.0
Professional elective*		3.0
CIVE 303	Structural Design I	3.0
General Education elective*		3.0
Term Credits		13.0
Term 10		
AE 544	Building Envelope Systems	3.0
CAE 491 [WI]	Senior Design Project I	3.0
CAEE 361	Statistical Analysis of Engineering Systems	3.0
MEM 413	HVAC Loads	3.0
General Education elective*		3.0
Term Credits		15.0
Term 11		
CAE 492 [WI]	Senior Design Project II	3.0
MEM 414	HVAC Equipment	3.0
Professional elective*		3.0
General Education elective*		3.0
Term Credits		12.0
Term 12		
AE 430	Control Systems for HVAC	3.0

CAE 493 [WI]	Senior Design Project III	3.0
Professional elective*		3.0
General Education elective*		3.0
Term Credits		12.0

Total Credit: 193.0

* See degree requirements (p. 347).

BS Architectural Engineering, Structural 5 YR UG Co-op Concentration/Structural

Term 1		Credits
CHEM 101	General Chemistry I	3.5

** Students are asked to speak with their program advisor before registering for the INFO elective.

Co-op/Career Opportunities

The major in architectural engineering prepares students for professional work in residential, commercial, institutional, and industrial building systems, in cooperation with architects and other engineers.

Sample Co-op Experiences

When students complete their co-op jobs, they are asked to write an overview of their experiences. These brief quotes are taken from some recent student reports:

Project technician, major university: "Studied and surveyed existing buildings and facilities for: their compliance with the Americans with Disabilities Act, heating and air conditioning equipment sizing, electrical loads, and their planning and usage of space. Designed improvements from the field surveys taken, and developed construction drawings. Worked closely with the workforce in implementing these changes."

CAD technician, private engineering firm: "Prepared computer generated construction plans for various water and sewer reconstruction projects. . . Was able to expand my knowledge of Auto CAD to include Advanced Design Modules."

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Dual/Accelerated Degree

The Accelerated Program of the College of Engineering provides opportunities for highly talented and strongly motivated students to progress toward their educational goals essentially at their own pace. Primarily through advanced placement, credit by examination, flexibility of scheduling, and independent study, the program makes it possible to complete the undergraduate curriculum and initiate graduate study in less than the five years required by the standard curriculum.

Dual Degree Bachelor's Programs

A student completing the Bachelor of Science degree program in architectural engineering may complete additional courses (specified by the department) to earn the Bachelor of Science degree in civil engineering. (The reverse is difficult because of prerequisites in the sequence of architectural studio design courses, which begins in the sophomore year.)

Required Courses for Dual Degree in Civil Engineering

CIVE 430	Hydrology	3.0
CIVE 477 [WI]	Seminar	2.0

CIVE 478 [WI]	Seminar	1.0
ENVE 300	Introduction to Environmental Engineering	3.0
Technical Elective (200-level or above) *		3.0
Required Courses for Mechanical Concentration		
CIVE 310	Soil Mechanics I	4.0
CIVE 410	Foundation Engineering	3.0
Required Courses for Structural Concentration		
CIVE 375	Structural Material Behavior	3.0

* Check with the Department for Technical elective options.

Bachelor's/Master's Dual Degree Program

Exceptional students can also pursue a master of science degree in the same period as the bachelor of science. Exceptional students can also pursue a master of science degree in the same period as the bachelor of science. For more information about this program, visit the Department's BS/MS Dual Degree Program (http://www.cae.drexel.edu/dual_degree.asp) page.

Minor in Architectural Engineering

About the Minor

The minor in architectural engineering, designed to broaden the professional capabilities of students, offers the building systems portion of the architectural engineering curriculum with enough attention to structural components for completeness. Pursuing a minor in architectural engineering can be of interest to mechanical engineering students who wish to learn the application of HVAC systems within the building context; to civil engineering students who require knowledge of large-scale infrastructure systems; and to chemical engineering students who wish to understand the energy and distribution aspects of process plant design.

The minor consists of a minimum of 24.0 credits total, with five required core courses. Students take a minimum of eight additional credits taken from a list of optional courses.

While this minor is primarily designed to provide technical knowledge and skills to other engineers, with the appropriate prerequisites students from other disciplines—such as architecture—can also complete this minor.

Prerequisites

The common engineering core curriculum prerequisites are required of all students in the College of Engineering. Students from other colleges will need the appropriate background prerequisite courses in physics, mathematics and thermodynamics.

Program Requirements

Required Courses

AE 220	Introduction to HVAC	3.5
AE 340	Architectural Illumination and Electrical Systems	3.0
or ARCH 263	Environmental Systems III	
AE 390	Architectural Engineering Design I	4.0
CAEE 202	Introduction to Civil, Architectural & Environmental Engineering	3.0
CIVE 302	Structural Analysis I	4.0
Select two of the following:		8.0
AE 391	Architectural Engineering Design II	
ARCH 191	Studio 1-AE	
or ARCH 105	Studio 1-A	
CIVE 240 [WI]	Engineering Economic Analysis	
CIVE 250	Construction Materials	
CIVE 303	Structural Design I	

MEM 310	Thermodynamic Analysis I	
MEM 413	HVAC Loads	
Total Credits		25.5

Facilities

The Department is well equipped with state-of-the-art facilities:

- The department computer labs are in operation: a computer-assisted design (CAD) and computerized instructional lab; and a graduate-level lab (advanced undergraduates can become involved in graduate-level work).
- External labs are used for surveying, building diagnostics, and surface and ground-water measurements.

Civil, Architectural and Environmental Engineering Faculty

Abieyuwa Aghayere, PhD (*University of Alberta*). Professor. Structural design - concrete, steel and wood; structural failure analysis; retrofitting of existing structures; new structural systems and materials; engineering education.

A. Emin Aktan, PhD (*University of Illinois at Urbana-Champaign*) *John Roebling Professor of Infrastructure Studies*. Professor. Structural engineering; health monitoring of large infrastructure systems; infrastructure evaluation; intelligent systems.

Ivan Bartoli, PhD (*University of California, San Diego*). Associate Professor. Non-destructive evaluation and structural health monitoring; dynamic identification, stress wave propagation modeling.

Robert Brehm, PhD (*Drexel University*). Associate Teaching Professor. International infrastructure delivery; response to natural catastrophes; risk assessment and mitigation strategies; project management techniques.

S.C. Jonathan Cheng, PhD (*West Virginia University*). Associate Professor. Soil mechanics; geosynthetics; probabilistic design; landfill containments; engineering education.

Peter DeCarlo, PhD (*University of Colorado*) *Graduate Studies Advisor*. Associate Professor. Outdoor air quality, particulate matter size and composition instrumentation and measurements, source apportionment of ambient particulate matter, climate impacts of particulate matter.

Eugenia Ellis, RA, PhD (*Virginia Polytechnic State University*). Associate Professor. Extended-care facilities design, research on spatial visualization, perception and imagination.

Patricia Gallagher, PhD (*Virginia Polytechnic Institute*). Associate Professor. Soil mechanics; geoenvironmental; ground improvement; sustainability.

Patrick Gurian, PhD (*Carnegie-Mellon University*). Associate Professor. Risk analysis of environmental and infrastructure systems; novel adsorbent materials; environmental standard setting; Bayesian statistical modeling; community outreach and environmental health.

Charles N. Haas, PhD (*University of Illinois-Urbana*) *L. D. Betz Professor and Department Head, Civil, Architectural and Environmental Engineering*. Professor. Control of human exposures to and risk assessment of pathogenic organisms; water and waste treatment; homeland security.

Ahmad Hamid, PhD (*McMaster University*). Professor. Engineered masonry; seismic behavior, design and retrofit of masonry structures; development of new materials and building systems.

Y. Grace Hsuan, PhD (*Imperial College*). Professor. Director, Center for Family Intervention Science, a multidisciplinary research program focused on developing and testing family centered care models across the life span and in a variety of health care settings. Developer of Attachment Based Family Therapy (ABFT) focused on youth with depression, suicide trauma, and youth in the LGBTQ community. Behavioral health integration into primary care

Joseph B. Hughes, PhD (*University of Iowa*) *Dean of the College of Engineering and Distinguished Professor*. Biological processes and applications of nanotechnology in environmental systems.

L. James Lo, PhD (*University of Texas at Austin*). Assistant Professor. Computational Fluid Dynamics (CFD) and airflow simulation; Indoor Environmental Quality; Building control integration with building information management systems.

Roger Marino, PhD (*Drexel University*). Associate Teaching Professor. Fluid mechanics; water resources; engineering education; land development.

Joseph P. Martin, PhD (*Colorado State University*). Professor. Geotechnical and geoenvironmental engineering; hydrology; transportation; waste management.

James E. Mitchell, MArch (*University of Pennsylvania*) *Associate Dean for Undergraduate Affairs*. Professor. Architectural engineering design; building systems; engineering education.

Franco Montalto, PhD (*Cornell University*). Associate Professor. Effects of built infrastructure on societal water needs, ecohydrologic patterns and processes, ecological restoration, green design, water interventions.

Michael Ryan, PhD (*Drexel University*). Assistant Teaching Professor. Microbial Source Tracking (MST); Quantitative Microbial Risk Assessment (QMRA); Dynamic Engineering Systems Modeling; Molecular Microbial Biology; Environmental Statistics; Engineering Economics; Microbiology

Christopher Sales, PhD (*University of California, Berkeley*). Assistant Professor. Environmental microbiology and biotechnology; biodegradation of environmental contaminants; microbial processes for energy and resource recovery from waste.

Yared Shifferaw, PhD (*Johns Hopkins University*). Assistant Professor. Computational and experimental mechanics; structural stability; optimization; health monitoring and hazard mitigation; sustainable structures; emerging materials; thin-walled structures and metallic structures.

Kurt Sjoblom, PhD (*Massachusetts Institute of Technology*). Assistant Teaching Professor. Laboratory testing of geomaterials, geotechnical engineering, foundation engineering.

Sabrina Spatari, PhD (*University of Toronto*). Associate Professor. Research in industrial ecology; development and application of life cycle assessment (LCA) and material flow analysis (MFA) methods for guiding engineering and policy decisions; specific interest in biomass and bioenergy, biofuels, and urban infrastructure.

Robert Swan Associate Teaching Professor. Geotechnical and Geosynthetic Engineering; soil/geosynthetic interaction and performance; laboratory and field geotechnical/geosynthetic testing.

Michael Waring, PhD (*University of Texas-Austin*) *Associate Department Head for Undergraduate Programs; Director of Architectural Engineering Program*. Associate Professor. Indoor air quality and building sustainability; indoor particulate matter fate and transport; indoor chemistry and particle formation; secondary impacts of control technologies and strategies.

Jin Wen, PhD (*University of Iowa*). Professor. Architectural engineering; Building Energy Efficiency; Intelligent Building; Net-zero Building; and Indoor Air Quality.

Aspasia Zerva, PhD (*University of Illinois*). Professor. Earthquake engineering; mechanics; seismology; structural reliability; system identification; advanced computational computational methods in structural analysis.

Emeritus Faculty

Harry G. Harris, PhD (*Cornell University*). Professor Emeritus. Structural models; dynamics of structures, plates and shells; industrialized building construction.

Joseph V. Mullin, PhD (*Pennsylvania State University*) *Associate Department Head*. Professor Emeritus. Structural engineering; failure analysis; experimental stress analysis; construction materials; marine structures.

Richard Weggel, PhD (*University of Illinois*) *Samuel S. Baxter Professor Emeritus; Civil and Environmental Engineering*. Professor Emeritus. Coastal engineering; hydraulics engineering; hydrology.

Richard Woodring, PhD (*University of Illinois*) *Dean of Engineering Emeritus*. Professor Emeritus. Structural engineering, reinforced concrete.

Certificate in Construction Management

Certificate Level: Undergraduate

Admission Requirements: High school diploma or GED

Certificate Type: Certificate

Number of Credits to Completion: 18.0 - 19.0

Instructional Delivery: Campus, Online

Calendar Type: Quarter

Expected Time to Completion: 1 year

Financial Aid Eligibility: Not aid eligible

Classification of Instructional Program (CIP) Code: 52.2001

Standard Occupational Classification (SOC) Code: 11-9021

Construction Management I - Fundamentals

18.0 quarter credits

The Construction Management I - Fundamentals Certificate introduces students to the basic concepts of the construction industry.

Students interested in continuing their education after certification are able to apply their coursework and credits directly to the Bachelor of Science in Construction Management (p. 368).

Requirements

CMGT 101	Introduction to Construction Management	3.0
CMGT 161	Building Materials and Construction Methods I	3.0
CMGT 162	Building Materials and Construction Methods II	3.0
CMGT 163	Building Materials and Construction Methods III	3.0
CMGT 261	Construction Safety	3.0
CMGT 263	Understanding Construction Drawings	3.0

Total Credits		18.0
---------------	--	------

Construction Management II - Construction Science

18.0 quarter credits

The Construction Management II - Construction Science Certificate focuses on introducing students to design concepts relating to heating, ventilation, and air conditioning systems and the integration of these systems into the construction process. In addition, the certificate also covers the process of estimating as well as building codes involved in construction projects.

Students interested in continuing their education after certification are able to apply their coursework and credits directly to the Bachelor of Science in Construction Management (p. 368).

Requirements

CMGT 266	Building Systems I	3.0
CMGT 267	Building Systems II	3.0
CMGT 363	Estimating I	3.0
CMGT 364	Estimating II	3.0

Select two of the following:		6.0
------------------------------	--	-----

CMGT 262	Building Codes	
CMGT 265	Information Technologies in Construction	
CMGT 450	Management of Field Operations	

Total Credits		18.0
---------------	--	------

Construction Management III - Management Concepts

19.0 quarter credits

The Construction Management III - Management Concepts Certificate focuses on construction contracts, specifications, and practices with regard to business law and liability. The certificate also covers value engineering and construction planning, scheduling, network systems, as well as the communications required for project control and claims prevention.

Students interested in continuing their education after certification are able to apply their coursework and credits directly to the Bachelor of Science in Construction Management (p. 368).

Requirements

CMGT 361	Contracts And Specifications I	3.0
CMGT 362	Contracts and Specifications II	3.0
CMGT 385	Selling and Negotiation Techniques in Construction	3.0
CMGT 461	Construction Project & Company Management	3.0
CMGT 463	Value Engineering	3.0
CMGT 467	Techniques of Project Control	4.0

Total Credits		19.0
---------------	--	------

Construction Management IV - Customized Independent

18.0 quarter credits

The Construction Management IV - Customized Independent Certificate is designed to allow students to choose the higher-level courses that best suit their special needs and interests. Students must select all six of their courses at the start of the Certificate program.

Students interested in continuing their education after certification are able to apply their coursework and credits directly to the Bachelor of Science in Construction Management (p. 368).

Requirements

A minimum of six (6) 300-level or higher approved CMGT courses *	18.0
--	------

* CIVE and CAEE majors may not include CMGT 371 or CMGT 372.

Chemical Engineering

Major: Chemical Engineering

Degree Awarded: Bachelor of Science in Chemical Engineering (BSCHE)

Calendar Type: Quarter

Total Credit Hours: 184.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 14.0701

Standard Occupational Classification (SOC) code: 17-2041

About the Program

The department of Chemical and Biological Engineering's chemical engineering curriculum progresses through sequences in the fundamental physical sciences, humanities, engineering sciences, and engineering design.

Chemical engineers are dedicated to designing devices and processes that convert input materials into more valuable products and often to designing those products themselves. Such end products include petrochemical derivatives, fine chemicals, pharmaceuticals, plastics, and other materials, integrated circuits, electrical energy, biologically derived fuels, and much more. Chemical engineering often begins with small laboratory scale processes that must be scaled up to production levels through carefully integrated design, optimization, economic, environmental and safety analyses.

The Department of Chemical and Biological Engineering is responsible for equipping our graduates with the broad technical knowledge and teamwork skills required for them to make substantial contributions to society.

Sample Senior Design Projects

A special feature of the major is senior design. A group of students in the chemical engineering major works with a faculty advisor to develop a significant design project. Some recent examples include:

- Design of a process to make petrochemical intermediates
- Plastics recycling design
- Process design for antibiotic products

Program Educational Objectives

The chemical engineering major has four goals for its students:

- Our graduates will succeed in careers requiring strong skills in engineering, science, communication, and teamwork.
- Our graduates will continue to upgrade their technological skills through life-long learning involving self- or group-study.
- Our graduates will conduct their work with an understanding of its global impact and ethical consequences.
- Our graduates will contribute to research and development at the forefront of chemical engineering and related fields.

To help students reach these goals, the curriculum is structured so that they progress through sequences in the fundamental physical sciences, humanities, engineering sciences, and design.

The department's student outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate. These are:

- an ability to apply knowledge of mathematics, science, and engineering;
- an ability to design and conduct experiments, as well as to analyze and interpret data;
- an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- an ability to function on multidisciplinary teams;
- an ability to identify, formulate, and solve engineering problems;
- an understanding of professional and ethical responsibility;
- an ability to communicate effectively;
- the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- a recognition of the need for, and an ability to engage in life-long learning;
- a knowledge of contemporary issues;
- an ability to use the techniques, skills, and modern engineering tools necessary for chemical engineering practice.

Additional Information

The Chemical Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

For more information about this program, visit Drexel University's Department of Chemical and Biological Engineering (<http://www.chemeng.drexel.edu>) web page.

Degree Requirements

General Education/Liberal Studies Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
UNIV E101	The Drexel Experience	1.0
General Education Requirements *		19.0

Foundation Requirements

BIO 141	Essential Biology	4.5
CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 103	Engineering Design Laboratory III	2.0
ENGR 121	Computation Lab I	2.0
ENGR 122	Computation Lab II	1.0
ENGR 220	Fundamentals of Materials	4.0
MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 200	Multivariate Calculus	4.0
MATH 201	Linear Algebra	4.0
MATH 210	Differential Equations	4.0
PHYS 101	Fundamentals of Physics I	4.0
PHYS 102	Fundamentals of Physics II	4.0

Professional Requirements

CHE 211	Material and Energy Balances I	4.0
CHE 212	Material and Energy Balances II	4.0
CHE 220	Computational Methods in Chemical Engineering I	3.0
CHE 230	Chemical Engineering Thermodynamics I	4.0
CHE 320	Computational Methods in Chemical Engineering II	3.0
CHE 330	Chemical Engineering Thermodynamics II	4.0
CHE 331	Separation Processes	3.0

CHEM 242	Organic Chemistry II	4.0
CHEM 356	Physical Chemistry Laboratory	2.0
Technical Electives **		12.0
Total Credits		184.0

* General Education Requirements (p. 345).

** An optional concentration in Biological Engineering is available. If you elect to take that option, the 12.0 technical elective credits will count toward the concentration.

Biological Engineering Concentration

Core Courses

BIO 218	Principles of Molecular Biology	4.0
BIO 270	Development Biology	3.0
BIO 306	Biochemistry Laboratory	2.0
BIO 311	Biochemistry	4.0
BIO 214	Principles of Cell Biology	3.0
CHE 360	BioProcess Principles	3.0
Complete 5 credits from the following:		5.0
BIO 215 [WI]	Techniques in Cell Biology	

BIO 219 [WI]	Techniques in Molecular Biology	
BIO 221	Microbiology	
BIO 222	Microbiology Laboratory	
BIO 318	Biology of Cancer	
BIO 346	Stem Cell Research	
BIO 404	Structure and Function of Biomolecules	
BIO 415	Proteins	
BIO 420	Virology	
BIO 444	Human Genetics	
BIO 466	Endocrinology	
BIO I399	Independent Study in BIO	
BIO 426	Immunology	
BIO 447	Advanced Genetics and Molecular Biology	
CHE 344	Transport Phenomena in Bioengineering Processes	
CHE 364	Bioprocess Unit Operations	
CHE I399	Independent Study in CHE	
Graduate Course Options Require 3.0 GPA		
BIO 500	Biochemistry I	
BIO 615	Proteins	
BIO 650	Virology	
BIO I799	Independent Study in BIO	
Total Credits		24.0

Graduate-Level Electives

CHE 502	Mathematical Methods in Chemical Engineering	3.0
CHE 513	Chemical Engineering Thermodynamics I	3.0
CHE 525	Transport Phenomena I	3.0
CHE 543	Kinetics & Catalysis I	3.0
CHE 554	Process Systems Engineering	3.0
CHE 562	Bioreactor Engineering	3.0
CHE 564	Unit Operations in Bioprocess Systems	3.0
CHE 614	Chemical Engineering Thermodynamics II	3.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

5 YR UG Co-op Concentration

Term 1		Credits
CHEM 101	General Chemistry I	3.5
COOP 101	Career Management and Professional Development	0.0

Co-op/Career Opportunities

Chemical engineers tend to work for large corporations with such job assignments as process engineering, design engineering, plant operation, research and development, sales, and management. They also work for federal and state government agencies on projects related to environmental problems, defense, energy, and health-related research.

Some major employers of Drexel's chemical engineering graduates are DuPont, Merck, BASF, ExxonMobil, Dow Chemical, and Air Products. A number of graduates go on to pursue master's and/or doctoral degrees. Graduate schools that Drexel's chemical engineers have attended include the University of California at Berkeley and Massachusetts Institute of Technology, among others.

Co-op Experiences

Drexel is located in downtown Philadelphia with easy access to major pharmaceutical, chemical, and petroleum companies. When students complete their co-op jobs, they are asked to write an overview of their experiences. These brief quotes are taken from some recent student reports:

Research assistant, chemicals manufacturer: "Conducted research in a developmental polyamide process. Aspects included scale-up from bench-scale to batch demonstration, installation and calibration of on-line composition sensors, off-line analytical techniques to assess product quality, and interfacing with plant sites to define and standardize a critical quality lab procedure. Documented results in technical memos and in a plant presentation . . . I had a lot of freedom and responsibility. It was great interacting with other researchers and technicians. Everyone was so helpful."

Co-op engineer, chemicals manufacturer: "Created material safety data sheets, which involved chemical composition, hazard communication, occupational safety and health, emergency response, and regulatory issues for numerous products and wastes. Handled domestic and

international regulatory reviews. Determined hazardous waste reporting requirements, handling and disposal procedures. Evaluated toxicological and ecological data for assessment of hazard ratings. Provided input on product safety technical reports."

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Facilities

The Department of Chemical and Biological Engineering occupies the 2nd, 3rd, and 4th floors of the Center for Automation Technology. Approximately 35,000 square feet (gross) are available for the department.

Two thousand square feet of laboratory facilities are designed for the pre-junior and junior year laboratory courses. Experiments in these laboratory courses focus on applying concepts in thermodynamics, fluid mechanics, heat and mass transfer, separations, and reaction engineering. Laboratory courses are run with class sizes of 18 students or less.

The department has two computer laboratories:

- The senior design laboratory features nine booths designed for team projects. Each booth contains a work station loaded with the latest process simulation software produced by Aspen, Simulation Sciences and HYSIS. Seniors use the room heavily during their Capstone design experience, although pre-junior courses in separations and transport also include projects requiring use of the process simulation software.
- A second computer lab contains over 30 individual work stations with general and engineering-specific software.

Many undergraduate students participate in research projects in faculty laboratories as part of independent study coursework or BS/MS thesis work. Chemical engineering faculty are engaged in a wide range of research activities in areas including energy and the environment, polymer science and engineering, biological engineering, and multi-scale modeling and process systems engineering. Further details can be found on the Department of Chemical and Biological Engineering's Research Group (<http://drexel.edu/cbe/research/groups>) web page.

Dual/Accelerated Degree

Accelerated Program

The accelerated program of the College of Engineering provides opportunities for highly-talented and strongly-motivated students to progress toward their educational goals essentially at their own pace. Through advanced placement, credit by examination, flexibility of scheduling, and independent study, the program makes it possible to complete the undergraduate curriculum and initiate graduate study in less than the five years required by the standard curriculum.

Bachelor's/Master's Dual Degree Program

Drexel offers a combined BS/MS degree program for our top engineering students who want to obtain both degrees in the same time period as most students obtain a Bachelor's degree. In chemical engineering, the course sequence for BS/MS students involves additional graduate courses and electives.

Chemical Engineering Faculty

Cameron F. Abrams, PhD (*University of California, Berkeley*) Department Head, Chemical and Biological Engineering. Professor. Molecular simulations in biophysics and materials; HIV drug design and molecular virology; thermoset molecular modeling and design.

Nicolas Alvarez, PhD (*Carnegie Mellon University*). Assistant Professor. Photonic crystal defect chromatography; extensional rheology of polymer/polymer composites; surfactant/polymer transport to fluid and solid interfaces; aqueous lubrication; interfacial instabilities.

Jason Baxter, PhD (*University of California, Santa Barbara*). Professor. Solar cells; semiconductor nanomaterials and thin films; ultrafast spectroscopy.

Richard A. Cairncross, PhD (*University of Minnesota*). Associate Professor. Effects of microstructure on transport and properties of polymers; moisture transport and degradation on biodegradation on biodegradable polymers; production of biofuel.

Nily R. Dan, PhD (*University of Minnesota*). Associate Professor. Design of synthetic gene and drug carriers; design of polymeric drug carriers; metal cluster formation in polymeric matrices; colloidal absorption in patterned surfaces.

Aaron Fafarman, PhD (*Stanford University*). Assistant Professor. Photovoltaic energy conversion; solution-based semiconductor synthesis; colloidal nanocrystals; electrical and optical spectroscopies.

Vibha Kalra, PhD (*Cornell University*). Associate Professor. Nanomaterials for energy storage devices; electrospinning of nanofibers; in-situ spectroscopy to understand energy storage mechanisms; molecular dynamics simulations.

Kenneth K.S. Lau, PhD (*Massachusetts Institute of Technology*). Associate Professor. Polymer thin films and devices; solar cells, supercapacitors and batteries; superhydrophobic and superhydrophilic surfaces; surface science and engineering; chemical vapor deposition.

Raj Mutharasan, PhD (*Drexel University*) Frank A. Fletcher Professor. Biochemical engineering; cellular metabolism and bioreactors; biosensors.

Giuseppe R. Palmese, PhD (*University of Delaware*). Professor. Reacting polymer systems; nanostructured polymers; radiation processing of materials; composites and interfaces.

Joshua Snyder, PhD (*Johns Hopkins University*). Assistant Professor. Electrocatalysis (energy conversion/storage); heterogeneous catalysis corrosion (dealloying nanoporous metals); interfacial electrochemical phenomena in nanostructured materials; colloidal synthesis.

Masoud Soroush, PhD (*University of Michigan*). Professor. Process systems engineering; polymer engineering.

John H. Speidel, BCHE, MCHE (*University of Delaware; Illinois Institute of Technology*). Teaching Professor. Chemical process safety; process design engineering; integrated case studies.

Maureen Tang, PhD (*University of California, Berkeley*). Assistant Professor. Electrochemistry and electrochemical engineering; lithium-ion and beyond-Li batteries; electrocatalysis; passivation and charge transport.

Michael Walters, PhD (*Drexel University*). Assistant Teaching Professor. Undergraduate laboratory.

Steven P. Wrenn, PhD (*University of Delaware*). Professor. Biological colloids; microbubbles; ultrasound in complex fluids with theranostic applications.

Emeritus Faculty

Charles B. Weinberger, PhD (*University of Michigan*). Professor Emeritus. Suspension rheology; fluid mechanics of multi-phase systems.

Civil Engineering

Major: Civil Engineering

Degree Awarded: Bachelor of Science in Civil Engineering (BSCIV)

Calendar Type: Quarter

Total Credit Hours: 190.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 14.0801

Standard Occupational Classification (SOC) code: 17-2051

About the Program

The civil engineering major prepares students in the fundamental principles necessary to practice this profession in any of its branches, including construction management, water resources, structural, transportation, environmental, geotechnical, and public facilities engineering.

Civil engineers are active in the planning, design, construction, research and development, operation, maintenance, and rehabilitation of large engineering systems. A particular focus is the reconstruction of the nation's infrastructure through solutions that minimize the disruption of social and natural environments.

Civil engineering graduates are grounded in the fundamental principles necessary for the practice of this profession in any of its modern branches, including construction management, water resources engineering, structural engineering, geotechnical engineering, transportation engineering, and environmental engineering.

Seven of the required courses in the discipline include integral laboratories or field projects for both educational illustration and professional practice exposure.

Careful selection of the electives specified in the curriculum can lead to a wide variety of career objectives. For instance, students with an interest in water resources engineering may elect advanced courses in hydrology, ecology, and chemistry; select senior professional electives in the geotechnical and water resources areas; and choose appropriate topics for senior design and senior seminar. Seniors, with the approval of the department head, can elect certain graduate courses.

A special feature of the major is senior design. A group of students works with a faculty advisor to develop a significant design project selected by the group. All civil engineering students participate in a design project.

Mission Statement

The civil and architectural engineering faculty are responsible for delivering an outstanding curriculum that equips our graduates with the broad technical knowledge, design proficiency, professionalism, and

communications skills required for them to make substantial contributions to society and to enjoy rewarding careers.

Program Educational Objectives

Civil engineering graduates will become professionals who analyze, design, construct, manage or operate physical infrastructure and systems, or advance knowledge of the field.

Student Outcomes

The department's student outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate. These are:

- a) an ability to apply knowledge of mathematics, science, and engineering;
- b) an ability to design and conduct experiments, as well as to analyze and interpret data;
- c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- d) an ability to function on multidisciplinary teams;
- e) an ability to identify, formulate, and solve engineering problems;
- f) an understanding of professional and ethical responsibility;
- g) an ability to communicate effectively;
- h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- i) a recognition of the need for, and an ability to engage in life-long learning;
- j) a knowledge of contemporary issues;
- k) an ability to use the techniques, skills, and modern engineering tools necessary for civil engineering practice.

Additional Information

The Civil Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

For more information about this major, contact the Department of Civil, Architectural and Environmental Engineering (<http://www.cae.drexel.edu>).

Co-op/Career Opportunities

When students complete their co-op jobs, they are asked to write an overview of their experiences. These brief quotes are taken from some recent student reports:

Engineering construction inspector, state department of transportation:
Supervised daily activities involved in the roadway construction of the [interstate] bypass. Recorded daily visual inspection reports for soil sub-base and materials placed on site. Aided senior roadway engineers in approving grade prior to asphalt placement. Used various instruments to check temperature and depths for asphalt placement. Took part in on-site discussions with contractor to clear up any daily construction problems that would hinder quality of construction. "

Construction inspector, municipal department of public property:
"Inspected work performed by private contractors on city public works construction and rehabilitation projects for adherence to contract

plans and specifications. Projects included health centers, police and fire stations, libraries, city hall, transit concourses, and prisons. Responsible for daily inspection reports and overall coordination for each respective project. Also responsible for reviewing bills and writing contract modifications and amendments. . .the variety of work was excellent. "

Environmental co-op, chemicals manufacturer. "Compiled data and wrote monthly regulatory reports, in charge of hazardous waste management and small projects as needed. . . . I had my own responsibilities that had an impact on the entire company. Employer was really interested in my opinion and gave me a chance to demonstrate my abilities, but also knew when to step in. Everybody was willing to answer any questions I may have had."

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on co-op and post-graduate opportunities.

Dual/Accelerated Degree

Accelerated program

The Accelerated Program of the College of Engineering provides opportunities for highly talented and strongly motivated students to progress toward their educational goals essentially at their own pace. Primarily through advanced placement, credit by examination, flexibility of scheduling, and independent study, the program makes it possible to complete the undergraduate curriculum and initiate graduate study in less than the five years required by the standard curriculum.

Dual Degree Bachelor's Programs

A student completing the Bachelor of Science degree program in architectural engineering may complete additional courses (specified by the department) to earn the Bachelor of Science degree in civil engineering. (The reverse is difficult because of prerequisites in the sequence of architectural studio design courses, which begins in the sophomore year.)

Civil Engineering students can also complete a dual degree with the Bachelor of Science in Environmental Engineering.

Bachelor's/Master's Dual Degree Program

Exceptional students can also pursue a master of science degree in the same period as the bachelor of science.

For more information about this program, visit the Department's BS/MS Dual Degree Program (<http://www.drexel.edu/cae/academics/bs-environmental-engineering/Accelerated%20and%20Dual%20Degree%20Programs%20CAEE>) web page.

Facilities

The Department is well equipped with state-of-the-art facilities:

- The department computer labs are in operation: a computer-assisted design (CAD) and computerized instructional lab; and a graduate-level lab (advanced undergraduates can become involved in graduate-level work).
- External labs are used for surveying, building diagnostics, and surface and ground-water measurements.
- A \$4.5-million instruction and research lab renovation was funded by the National Science Foundation, alumni, and corporations.

Civil, Architectural and Environmental Engineering Faculty

Abieyuwa Aghayere, PhD (*University of Alberta*). Professor. Structural design - concrete, steel and wood; structural failure analysis; retrofitting of existing structures; new structural systems and materials; engineering education.

A. Emin Aktan, PhD (*University of Illinois at Urbana-Champaign*) *John Roebling Professor of Infrastructure Studies*. Professor. Structural engineering; health monitoring of large infrastructure systems; infrastructure evaluation; intelligent systems.

Ivan Bartoli, PhD (*University of California, San Diego*). Associate Professor. Non-destructive evaluation and structural health monitoring; dynamic identification, stress wave propagation modeling.

Robert Brehm, PhD (*Drexel University*). Associate Teaching Professor. International infrastructure delivery; response to natural catastrophes; risk assessment and mitigation strategies; project management techniques.

S.C. Jonathan Cheng, PhD (*West Virginia University*). Associate Professor. Soil mechanics; geosynthetics; probabilistic design; landfill containments; engineering education.

Peter DeCarlo, PhD (*University of Colorado*) *Graduate Studies Advisor*. Associate Professor. Outdoor air quality, particulate matter size and composition instrumentation and measurements, source apportionment of ambient particulate matter, climate impacts of particulate matter.

Eugenia Ellis, RA, PhD (*Virginia Polytechnic State University*). Associate Professor. Extended-care facilities design, research on spatial visualization, perception and imagination.

Patricia Gallagher, PhD (*Virginia Polytechnic Institute*). Associate Professor. Soil mechanics; geoenvironmental; ground improvement; sustainability.

Patrick Gurian, PhD (*Carnegie-Mellon University*). Associate Professor. Risk analysis of environmental and infrastructure systems; novel adsorbent materials; environmental standard setting; Bayesian statistical modeling; community outreach and environmental health.

Charles N. Haas, PhD (*University of Illinois-Urbana*) *L. D. Betz Professor and Department Head, Civil, Architectural and Environmental Engineering*. Professor. Control of human exposures to and risk assessment of pathogenic organisms; water and waste treatment; homeland security.

Ahmad Hamid, PhD (*McMaster University*). Professor. Engineered masonry; seismic behavior, design and retrofit of masonry structures; development of new materials and building systems.

Y. Grace Hsuan, PhD (*Imperial College*). Professor. Director, Center for Family Intervention Science, a multidisciplinary research program focused on developing and testing family centered care models across the life span and in a variety of health care settings. Developer of Attachment Based Family Therapy (ABFT) focused on youth with depression, suicide trauma, and youth in the LGBTQ community. Behavioral health integration into primary care

Joseph B. Hughes, PhD (*University of Iowa*) *Dean of the College of Engineering and Distinguished Professor*. Biological processes and applications of nanotechnology in environmental systems.

L. James Lo, PhD (*University of Texas at Austin*). Assistant Professor. Computational Fluid Dynamics (CFD) and airflow simulation; Indoor Environmental Quality; Building control integration with building information management systems.

Roger Marino, PhD (*Drexel University*). Associate Teaching Professor. Fluid mechanics; water resources; engineering education; land development.

Joseph P. Martin, PhD (*Colorado State University*). Professor. Geotechnical and geoenvironmental engineering; hydrology; transportation; waste management.

James E. Mitchell, MArch (*University of Pennsylvania*) Associate Dean for Undergraduate Affairs. Professor. Architectural engineering design; building systems; engineering education.

Franco Montalto, PhD (*Cornell University*). Associate Professor. Effects of built infrastructure on societal water needs, ecohydrologic patterns and processes, ecological restoration, green design, water interventions.

Michael Ryan, PhD (*Drexel University*). Assistant Teaching Professor. Microbial Source Tracking (MST); Quantitative Microbial Risk Assessment (QMRA); Dynamic Engineering Systems Modeling; Molecular Microbial Biology; Environmental Statistics; Engineering Economics; Microbiology

Christopher Sales, PhD (*University of California, Berkeley*). Assistant Professor. Environmental microbiology and biotechnology; biodegradation of environmental contaminants; microbial processes for energy and resource recovery from waste.

Yared Shifferaw, PhD (*Johns Hopkins University*). Assistant Professor. Computational and experimental mechanics; structural stability; optimization; health monitoring and hazard mitigation; sustainable structures; emerging materials; thin-walled structures and metallic structures.

Kurt Sjoblom, PhD (*Massachusetts Institute of Technology*). Assistant Teaching Professor. Laboratory testing of geomaterials, geotechnical engineering, foundation engineering.

Sabrina Spatari, PhD (*University of Toronto*). Associate Professor. Research in industrial ecology; development and application of life cycle assessment (LCA) and material flow analysis (MFA) methods for guiding engineering and policy decisions; specific interest in biomass and bioenergy, biofuels, and urban infrastructure.

Robert Swan Associate Teaching Professor. Geotechnical and Geosynthetic Engineering; soil/geosynthetic interaction and performance; laboratory and field geotechnical/geosynthetic testing.

Michael Waring, PhD (*University of Texas-Austin*) Associate Department Head for Undergraduate Programs; Director of Architectural Engineering Program. Associate Professor. Indoor air quality and building sustainability; indoor particulate matter fate and transport; indoor chemistry and particle formation; secondary impacts of control technologies and strategies.

Jin Wen, PhD (*University of Iowa*). Professor. Architectural engineering; Building Energy Efficiency; Intelligent Building; Net-zero Building; and Indoor Air Quality.

Aspasia Zerva, PhD (*University of Illinois*). Professor. Earthquake engineering; mechanics; seismology; structural reliability; system

identification; advanced computational computational methods in structural analysis.

Emeritus Faculty

Harry G. Harris, PhD (*Cornell University*). Professor Emeritus. Structural models; dynamics of structures, plates and shells; industrialized building construction.

Joseph V. Mullin, PhD (*Pennsylvania State University*) Associate Department Head. Professor Emeritus. Structural engineering; failure analysis; experimental stress analysis; construction materials; marine structures.

Richard Weggel, PhD (*University of Illinois*) Samuel S. Baxter Professor Emeritus; Civil and Environmental Engineering. Professor Emeritus. Coastal engineering; hydraulics engineering; hydrology.

Richard Woodring, PhD (*University of Illinois*) Dean of Engineering Emeritus. Professor Emeritus. Structural engineering, reinforced concrete.

Computer Engineering

Major: Computer Engineering

Degree Awarded: Bachelor of Science in Computer Engineering (BSCE)

Calendar Type: Quarter

Total Credit Hours: 192.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 14.0901

Standard Occupational Classification (SOC) code: 15-1132; 15-1133; 15-1143; 17-2031

About the Program

The major provides a broad focus on digital circuit design, computer hardware and organization, programming and computer software, algorithms, and networks.

Computer engineers design smaller, faster, and more reliable computers and digital systems, embed microprocessors in larger systems (e.g., anti-lock brake systems), work in theoretical issues in computing, use object-oriented programming languages, and design large-scale software systems and computer networks. Computer engineers may work in positions that apply computers in control systems, digital signal processing, telecommunications, and power systems, and may design very large-scale integration (VLSI) integrated circuits and systems.

The computer engineering degree program is designed to provide our students with breadth in engineering, the sciences, mathematics, and the humanities, as well as depth in both software and hardware disciplines appropriate for a computer engineer. It embodies the philosophy and style of the Drexel Engineering Curriculum, and will develop the student's design and analytical skills. In combination with the co-op experience, it opens to the student opportunities in engineering practice, advanced training in engineering or in other professions, and an entry to business and administration.

The computer engineering program's courses in ECE are supplemented with courses from the departments of Mathematics and Computer Science. Students gain the depth of knowledge of computer hardware and software essential for the computer engineer.

Mission Statement

The ECE Department at Drexel University (<http://drexel.edu/ece>) serves the public and the university community by providing superior career-integrated education in electrical and computer engineering; by conducting research in these fields, to generate new knowledge and technologies; and by promoting among all its constituents professionalism, social responsibility, civic engagement and leadership.

Program Educational Objectives

The Electrical and Computer Engineering Program Educational Objectives are such that its alumni, in their early years after graduation can:

1. Secure positions and continue as valued, creative, dependable, and proficient employees in a wide variety of fields and industries, in particular as electrical and computer engineers;
2. Succeed in graduate and professional studies, such as engineering, science, law, medicine and business;
3. Pursue professional development through lifelong learning opportunities for a successful and rewarding career;
4. Provide leadership in their profession, in their communities, and in the global society;
5. Contribute to their professional disciplines body of knowledge;
6. Function as responsible members of society with an awareness of the social and ethical ramifications of their work.

Student Outcomes

The department's student outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate. These are:

- a) an ability to apply knowledge of mathematics, science, and engineering;
- b) an ability to design and conduct experiments, as well as to analyze and interpret data;
- c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- d) an ability to function on multidisciplinary teams;
- e) an ability to identify, formulate, and solve engineering problems;
- f) an understanding of professional and ethical responsibility;
- g) an ability to communicate effectively;
- h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- i) a recognition of the need for, and an ability to engage in life-long learning;
- j) a knowledge of contemporary issues;
- k) an ability to use the techniques, skills, and modern engineering tools necessary for computer engineering practice.

Additional Information

The Computer Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

Additional information about the major is available on the ECE Department website (http://www.ece.drexel.edu/Undergraduate_Programs2.html).

For advising questions, please contact the ECE advisor (<http://drexel.edu/ece/academics/undergrad/advising>).

Degree Requirements

Students must take ENGL 101

General Education/Liberal Studies Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PHIL 315	Engineering Ethics	3.0
UNIV E101	The Drexel Experience	1.0
General Education Requirements *		18.0

Foundation Requirements

BIO 141	Essential Biology	4.5
CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
ECE 200	Digital Logic Design	4.0
ECE 201	Foundations of Electric Circuits I	4.0
ECE 203	Programming for Engineers	3.0
ENGR 121	Computation Lab I	2.0
ENGR 122	Computation Lab II	1.0
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 103	Engineering Design Laboratory III	2.0
ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 220	Fundamentals of Materials	4.0
ENGR 231	Linear Engineering Systems	3.0
ENGR 232	Dynamic Engineering Systems	3.0
MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 200	Multivariate Calculus	4.0
PHYS 101	Fundamentals of Physics I	4.0
PHYS 102	Fundamentals of Physics II	4.0
PHYS 201	Fundamentals of Physics III	4.0

Professional Requirements

CS 260	Data Structures	3.0
CS 265	Advanced Programming Tools and Techniques	3.0
ECE 361	Probability for Engineers	4.0
ECE 391	Introduction to Engineering Design Methods	1.0
ECE 491 [WI]	Senior Design Project I	2.0
ECE 492 [WI]	Senior Design Project II	2.0
ECE 493	Senior Design Project III	4.0
ECEC 301	Advanced Programming for Engineers	3.0
ECEC 302	Digital Systems Projects	4.0
ECEC 304	Design with Microcontrollers	4.0
ECEC 353	Systems Programming	3.0
ECEC 355	Computer Organization & Architecture	4.0
ECEC 357	Introduction to Computer Networks	4.0

ECEL 301 [WI]	Electrical Engineering Laboratory	2.0
ECEL 302	ECE Laboratory II	2.0
ECEL 303	ECE Laboratory III	2.0
ECES 301	Signals and Systems I	4.0
MATH 221	Discrete Mathematics	3.0
Seven Computer Engineering Courses		21.0
Free Electives		11.5
<hr/>		
Total Credits		192.0

* General Education Requirements (p. 345).

** In addition to completing 192.0 credits, students majoring in computer engineering student must have a 2.0 cumulative overall GPA and a 2.0 cumulative GPA in their Computer Engineering courses

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

5 YR Ug Co-op Concentration

Term 1		Credits
CHEM 101	General Chemistry I	3.5
COOP 101	Career Management and Professional Development	0.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 121	Computation Lab I	2.0
MATH 121	Calculus I	4.0
UNIV E101	The Drexel Experience	1.0
<hr/>		
Term Credits		16.5
Term 2		
CHEM 102	General Chemistry II	4.5
CIVC 101	Introduction to Civic Engagement	1.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 122	Computation Lab II	1.0
MATH 122	Calculus II	4.0
PHYS 101	Fundamentals of Physics I	4.0
<hr/>		
Term Credits		19.5
Term 3		

BIO 141	Essential Biology	4.5
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
ENGR 103	Engineering Design Laboratory III	2.0
MATH 200	Multivariate Calculus	4.0
PHYS 102	Fundamentals of Physics II	4.0
<hr/>		
Term Credits		17.5
Term 4		
ECE 200	Digital Logic Design	4.0
ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 220	Fundamentals of Materials	4.0
ENGR 231	Linear Engineering Systems	3.0
PHYS 201	Fundamentals of Physics III	4.0
<hr/>		
Term Credits		18.0
Term 5		
ECE 201	Foundations of Electric Circuits I	4.0
ECE 203	Programming for Engineers	3.0
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 232	Dynamic Engineering Systems	3.0
MATH 221	Discrete Mathematics	3.0
<hr/>		
Term Credits		16.0
Term 6		
ECEC 301	Advanced Programming for Engineers	3.0
ECEC 302	Digital Systems Projects	4.0
ECEL 301 [WI]	Electrical Engineering Laboratory	2.0
ECE 361	Probability for Engineers	4.0
General Education elective*		3.0
<hr/>		
Term Credits		16.0
Term 7		
ECEC 304	Design with Microcontrollers	4.0
ECEC 355	Computer Organization & Architecture	4.0
ECEL 302	ECE Laboratory II	2.0
ECES 301	Signals and Systems I	4.0
PHIL 315	Engineering Ethics	3.0
<hr/>		
Term Credits		17.0
Term 8		
CS 265	Advanced Programming Tools and Techniques	3.0
ECEC 357	Introduction to Computer Networks	4.0
ECEL 303	ECE Laboratory III	2.0
One Computer Engineering elective		3.0
General Education elective*		3.0
<hr/>		
Term Credits		15.0
Term 9		
CS 260	Data Structures	3.0
ECE 391	Introduction to Engineering Design Methods (Also offered spring term.)	1.0
ECEC 353	Systems Programming	3.0
General Education elective*		3.0
Free elective		3.0
<hr/>		
Term Credits		13.0
Term 10		
ECE 491 [WI]	Senior Design Project I	2.0
Two Computer Engineering electives		6.0
General Education elective*		3.0
Free Elective		3.0
<hr/>		
Term Credits		14.0
Term 11		
ECE 492 [WI]	Senior Design Project II	2.0
Two Computer Engineering electives		6.0
General Education elective*		3.0
Free elective		3.5
<hr/>		
Term Credits		14.5

Term 12		
ECE 493	Senior Design Project III	4.0
Two Computer Engineering electives		6.0
General Education elective*		2.0
Free elective		3.0
Term Credits		15.0
Total Credit: 192.0		

* See degree requirements (p. 362).

** In addition to completing 192.0 credits, students majoring in Computer Engineering must have a 2.0 cumulative overall GPA and a 2.0 cumulative GPA in their Computer Engineering courses.

Co-op/Career Opportunities

Drexel University's co-op program has an 80 year history and is one of the oldest and largest co-op programs in the world. Students graduate with 6-18 months of full time employment experience, depending on their choice of a 4-year or 5-year program. The majority of Computer Engineering students in ECE choose the 5-year program and graduate with 18 months of full-time work experience, and often receive a job offer from their third co-op employer or from a connection made from one of their co-op experiences.

Computer engineers work for computer and microprocessor manufacturers; manufacturers of digital devices for telecommunications, peripherals, electronics, control, and robotics; software engineering; the computer network industry; and related fields. A degree in computer engineering can also serve as an excellent foundation to pursue graduate professional careers in medicine, law, business, and government. Graduates are also pursuing advanced studies in electrical and computer engineering, aerospace engineering, and mechanical engineering at such schools as MIT, Stanford, Princeton, Georgia Institute of Technology, University of California at Berkeley, University of Pennsylvania, and University of Maryland.

The Steinbright Career Development Center had a co-op placement rate of approximately 99% for electrical and computer engineering majors.

Co-op employers for computer engineering majors include:

- Lockheed Martin
- Comcast Corporation
- SAP America
- Susquehanna International Group LLC
- PJM Interconnection, LLC
- Dell
- National Board of Medical Examiners
- UNISYS Corporation
- Woodward McCoach, Inc.
- NAVSEA
- ClarivateAnalytics (Thomson Reuters)
- NVIDIA
- Excelon Corporation

For more information about the co-op process, please contact the Steinbright Career Development Center (<http://drexel.edu/scdc>).

Dual Degree Bachelor's Program

With careful planning, students can complete both a Computer Engineering and an Electrical Engineering degree in the time usually

required to complete one degree. For detailed information the student should contact the ECE advisor (<http://drexel.edu/ece/academics/undergrad/advising>).

Bachelor's/Master's Dual Degree Program

Exceptional students can also pursue a master of science degree in the same period as the bachelor of science.

For more information on these and other options, visit the Department of Electrical and Computer Engineering BS/MS (<http://drexel.edu/ece/academics/undergrad/bs-ms>) page.

Minor in Computer Engineering

The computer engineering minor is designed to provide students from other computer-intensive majors—such as computer science or other engineering majors—with a foundation of knowledge in the hardware portion of computer systems.

Prerequisites

Minor prerequisites include ENGR 103 or CS 172 or ECE 203. ECEC 301 or CS 172, CS 260 and CS 265 are also recommended, and are required for some upper level ECEC courses. Courses taken to meet these requirements will not count toward the minor.

Required Courses		
ECE 200	Digital Logic Design	4.0
ECEC 302	Digital Systems Projects	4.0
ECEC 355	Computer Organization & Architecture	4.0
ECEL 304	ECE Laboratory IV (prerequisite waived for minor)	2.0
Electives*		12.0
Total Credits		26.0

* Students should choose an additional 12 credits from 300- and/or 400-level Computer Engineering (ECEC) courses. All prerequisites must be satisfied.

Additional Information

Additional information about this minor is available on the ECE Department website (http://www.ece.drexel.edu/Undergraduate_Programs2.html).

For advising questions, please contact the ECE advisor (<http://drexel.edu/ece/academics/undergrad/advising>).

Facilities

Drexel University and the Electrical and Computer Engineering Department are nationally recognized for a strong history of developing innovative research. Research programs in the ECE Department prepare students for careers in research and development, and aim to endow graduates with the ability to identify, analyze, and address new technical and scientific challenges. The ECE Department is well equipped with state-of-the-art facilities in each of the following ECE Research laboratories:

Research Laboratories at the ECE Department

Adaptive Signal Processing and Information Theory Research Group

The Adaptive Signal Processing and Information Theory Research Group (<http://www.ece.drexel.edu/walsh/aspirg/home.html>) conducts

research in the area of signal processing and information theory. Our main interests are belief/expectation propagation, turbo decoding and composite adaptive system theory. We are currently doing projects on the following topics:

- i) Delay mitigating codes for network coded systems,
- ii) Distributed estimation in sensor networks via expectation propagation,
- iii) Turbo speaker identification,
- iv) Performance and convergence of expectation propagation,
- v) Investigating bounds for SINR performance of autocorrelation based channel shorteners.

Bioimage Laboratory

Uses computer gaming hardware for enhanced and affordable 3-D visualization, along with techniques from information theory and machine learning to combine the exquisite capabilities of the human visual system with computational sensing techniques for analyzing vast quantities of image sequence data.

Data Fusion Laboratory

The Data Fusion Laboratory investigates problems in multisensory detection and estimation, with applications in robotics, digital communications, radar, and target tracking. Among the projects in progress: computationally efficient parallel distributed detection architectures, data fusion for robot navigation, modulation recognition and RF scene analysis in time-varying environments, pattern recognition in biological data sequences and large arrays, and hardware realizations of data fusion architectures for target detection and target tracking.

Drexel Network Modeling Laboratory

The Drexel Network Modeling Laboratory investigates problems in the mathematical modeling of communication networks, with specific focus on wireless ad hoc networks, wireless sensor networks, and supporting guaranteed delivery service models on best effort and multipath routed networks. Typical methodologies employed in our research include mathematical modeling, computer simulation, and performance optimization, often with the end goal of obtaining meaningful insights into network design principles and fundamental performance tradeoffs.

Drexel Power-Aware Computing Laboratory

The Power-Aware Computing Lab (<http://dpac.ece.drexel.edu>) investigates methods to increase energy efficiency across the boundaries of circuits, architecture, and systems. Our recent accomplishments include the Sigil profiling tool, scalable modeling infrastructure for accelerator implementations, microarchitecture-aware VDD gating algorithms, an accelerator architecture for ultrasound imaging, evaluation of hardware reference counting, hardware and operating system support for power-agile computing, and memory systems for accelerator-based architectures.

Drexel University Nuclear Engineering Education Laboratory

The field of nuclear engineering encompasses a wide spectrum of occupations, including nuclear reactor design, medical imaging, homeland security, and oil exploration. The Drexel University Nuclear Engineering Education Laboratory (DUNEEL) provides fundamental hands on understanding for power plant design and radiation detection and analysis. Software based study for power plant design, as well as physical laboratory equipment for radiation detection, strengthen the underlying concepts used in nuclear engineering such that the student will comprehend and appreciate the basic concepts and terminology used in

various nuclear engineering professions. Additionally, students use the laboratory to develop methods for delivering remote, live time radiation detection and analysis. The goal of DUNEEL is to prepare students for potential employment in the nuclear engineering arena.

Drexel VLSI Laboratory

The Drexel VLSI Laboratory (http://ece.drexel.edu/faculty/taskin/wiki/vlsilab/index.php/Main_Page) investigates problems in the design, analysis, optimization and manufacturing of high performance (low power, high throughput) integrated circuits in contemporary CMOS and emerging technologies. Suited with industrial design tools for integrated circuits, simulation tools and measurement beds, the VLSI group is involved with digital and mixed-signal circuit design to verify the functionality of the discovered novel circuit and physical design principles. The Drexel VLSI laboratory develops design methodologies and automation tools in these areas, particularly in novel clocking techniques, featuring resonant clocking, and interconnects, featuring wireless interconnects.

Drexel Wireless Systems Laboratory

The Drexel Wireless Systems Laboratory (DWSL) contains an extensive suite of equipment for constructing, debugging, and testing prototype wireless communications systems. Major equipment within DWSL includes:

- three software defined radio network testbeds (HYDRA, USRP, and WARP) for rapidly prototyping radio, optical and ultrasonic communications systems,
- a TDK RF anechoic chamber and EMSCAN desktop antenna pattern measurement system,
- a materials printer and printed circuit board milling machine for fabricating conformal antennas and
- wireless protocol conformance testing equipment from Aeroflex.

The lab is also equipped with network analyzers, high speed signal generators, oscilloscopes, and spectrum analyzers as well as several Zigbee development platforms for rapidly prototyping sensor networks.

DWSL personnel also collaborate to create wearable, fabric based transceivers through collaboration with the Shima Seiki Haute Laboratory in the Drexel ExCITe Center. The knitting equipment at Drexel includes sixteen SDS-ONE APEX3 workstations and four state-of-the-art knitting machines. The workstations accurately simulate fabric construction and provide researchers and designers the opportunity to program, create and simulate textile prototypes, import CAD specifications of final products, and produce made-to-measure or mass-produced pieces on Shima Seiki knitting machines. For testing smart textiles for biomedical, DWSL personnel also have collaborators in the Center for Interdisciplinary Clinical Simulation and Practice (CICSP) in the Drexel College of Medicine which provides access to medical mannequin simulators.

Ecological and Evolutionary Signal-processing and Informatics Laboratory

The Ecological and Evolutionary Signal-processing and Informatics Laboratory (EESI) (<http://www.ece.drexel.edu/gailr/EESI>) seeks to solve problems in high-throughput genomics and engineer better solutions for biochemical applications. The lab's primary thrust is to enhance the use of high-throughput DNA sequencing technologies with pattern recognition and signal processing techniques. Applications include assessing the organism content of an environmental sample, recognizing/classifying potential and functional genes, inferring environmental factors and inter-species relationships, and inferring microbial evolutionary relationships

from short-read DNA/RNA fragments. The lab also investigates higher-level biological systems such as modeling and controlling chemotaxis, the movement of cells.

Electric Power Engineering Center

This newly established facility makes possible state-of-the-art research in a wide variety of areas, ranging from detailed theoretical model study to experimental investigation in its high voltage laboratories. The mission is to advance and apply scientific and engineering knowledge associated with the generation, transmission, distribution, use, and conservation of electric power. In pursuing these goals, this center works with electric utilities, state and federal agencies, private industries, nonprofit organizations and other universities on a wide spectrum of projects. Research efforts, both theoretical and experimental, focus on the solution of those problems currently faced by the electric power industry. Advanced concepts for electric power generation are also under investigation to ensure that electric power needs will be met at the present and in the future.

Electronic Design Automation Facility

Industrial-grade electronic design automation software suite and integrated design environment for digital, analog and mixed-signal systems development. Field Programmable Gate Array (FPGA) development hardware. Most up-to-date FPGA/embedded system development hardware kits. Printed circuit board production facility. Also see Drexel VLSI Laboratory.

Microwave-Photonics Device Laboratories

The laboratory is equipped with test and measurement equipment for high-speed analog and digital electronics and fiber optic systems. The test equipment includes network analyzers from Agilent (100kHz- 1.3 GHz and 45 Mhz-40 GHz), and Anritsu (45 MHz-6 GHz); spectrum analyzers from Tektronix, HP, and Agilent with measurement capability of DC to 40 GHz and up to 90 GHz using external mixers; signal generators and communication channel modulators from HP, Rhode-Schwartz, Systron Donner, and Agilent; microwave power meter and sensor heads, assortment of passive and active microwave components up to 40 GHz ; data pattern generator and BER tester up to 3Gb/s; optical spectrum analyzer from Anritsu and power meters from HP; single and multimode fiber optic based optical transmitter and receiver boards covering ITU channels at data rates up to 10Gb/s; passive optical components such as isolator, filter, couplers, optical connectors and fusion splicer; LPKF milling machine for fabrication of printed circuit boards; wire-bonding and Cascade probe stations; Intercontinental test fixtures for testing of MMIC circuits and solid-state transistors; state-of-the-art microwave and electromagnetic CAD packages such as Agilent ADS, ANSYS HFSS, and COMSOL multi-physics module.

Music and Entertainment Technology Laboratory

The Music and Entertainment Technology Laboratory (MET-lab) is devoted to research in digital media technologies that will shape the future of entertainment, especially in the areas of sound and music. We employ digital signal processing and machine learning to pursue novel applications in music information retrieval, music production and processing technology, and new music interfaces. The MET-lab is also heavily involved in outreach programs for K-12 students and hosts the Summer Music Technology program, a one-week learning experience for high school students. Lab facilities include a sound isolation booth for audio and music recording, a digital audio workstation running ProTools,

two large multi-touch display interfaces of our own design, and a small computing cluster for distributed processing.

NanoPhotonics+ Lab (<http://drexelnanophotonics.com>)

Our research is primarily in the area of nanophotonics with a focus on the nanoscale interaction of light with matter. Interests include: liquid crystal/polymer composites for gratings, lenses and HOEs; liquid crystal interactions with surfaces and in confined nanospaces; alternative energy generation through novel photon interactions; ink-jet printed conducting materials for RF and photonic applications; and the creation and development of smart textiles technologies including soft interconnects, sensors, and wireless implementations.

Opto-Electro-Mechanical Laboratory

This lab concentrates on the system integration on optics, electronics, and mechanical components and systems, for applications in imaging, communication, and biomedical research. Research areas include: Programmable Imaging with Optical Micro-electrical-mechanical systems (MEMS), in which microscopic mirrors are used to image light into a single photodetector; Pre-Cancerous Detection using White Light Spectroscopy, which performs a cellular size analysis of nuclei in tissue; Free-space Optical Communication using Space Time Coding, which consists of diffused light for computer-to-computer communications, and also tiny lasers and detectors for chip-to-chip communication; Magnetic Particle Locomotion, which showed that particles could swim in a uniform field; and Transparent Antennas using Polymer, which enables antennas to be printed through an ink-jet printer.

Plasma and Magnetics Laboratory

Research is focused on applications of electrical and magnetic technologies to biology and medicine. This includes the subjects of non-thermal atmospheric pressure plasma for medicine, magnetic manipulation of particles for drug delivery and bio-separation, development of miniature NMR sensors for cellular imaging and carbon nanotube cellular probes.

Power Electronics Research Laboratory

The Power Electronics Research Laboratory (PERL) is involved in circuit and design simulation, device modeling and simulation, and experimental testing and fabrication of power electronic circuits. The research and development activities include electrical terminations, power quality, solar photovoltaic systems, GTO modeling, protection and relay coordination, and solid-state circuit breakers. The analysis tools include EMPT, SPICE, and others, which have been modified to incorporate models of such controllable solid-state switches as SCRs, GTOs, and MOSFETs. These programs have a wide variety and range of modeling capabilities used to model electromagnetics and electromechanical transients ranging from microseconds to seconds in duration. The PERL is a fully equipped laboratory with 42 kVA AC and 70 kVA DC power sources and data acquisition systems, which have the ability to display and store data for detailed analysis. Some of the equipment available is a distribution and HV transformer and three phase rectifiers for power sources and digital oscilloscopes for data measuring and experimental analysis. Some of the recent studies performed by the PERL include static VAR compensators, power quality of motor controllers, solid-state circuit breakers, and power device modeling which have been supported by PECCO, GE, Gould, and EPRI.

Testbed for Power-Performance Management of Enterprise Computing Systems

This computing testbed is used to validate techniques and algorithms aimed at managing the performance and power consumption of enterprise computing systems. The testbed comprises a rack of Dell 2950 and Dell 1950 PowerEdge servers, as well as assorted desktop machines, networked via a gigabit switch. Virtualization of this cluster is enabled by VMWare's ESX Server running the Linux RedHat kernel. It also comprises of a rack of ten Apple Xserve machines networked via a gigabit switch. These servers run the OS X Leopard operating systems and have access to a RAID with TBs of total disk capacity.

Computer Engineering Faculty

Juadelice Cavalcante de Oliveira, PhD (*Georgia Institute of Technology*). Associate Professor. Software-defined networking; social and economic networks; network security; design and analysis of protocols, algorithms and architectures in computer networks, particularly solutions for the Internet of Things

Tom Chmielewski, PhD (*Drexel University*). Teaching Professor. Modeling and simulation of electro-mechanical systems; optimal, adaptive and non-linear control; DC motor control; system identification; kalman filters (smoothing algorithms, tracking); image processing; robot design; biometric technology and design of embedded systems for control applications utilizing MATLAB and SIMULINK

Fernand Cohen, PhD (*Brown University*). Professor. Surface modeling; tissue characterization and modeling; face modeling; recognition and tracking.

Andrew Cohen, PhD (*Rensselaer Polytechnic Institute*). Associate Professor. Image processing; multi-target tracking; statistical pattern recognition and machine learning; algorithmic information theory; 5-D visualization

Kapil Dandekar, PhD (*University of Texas-Austin*) *Director of the Drexel Wireless Systems Laboratory (DWSL); Associate Dean of Research, College of Engineering*. Professor. Cellular/mobile communications and wireless LAN; smart antenna/MIMO for wireless communications; applied computational electromagnetics; microwave antenna and receiver development; free space optical communication; ultrasonic communication; sensor networks for homeland security; ultrawideband communication.

Afshin Daryoush, ScD (*Drexel University*). Professor. Digital and microwave photonics; nonlinear microwave circuits; RFIC; medical imaging.

Anup Das, PhD (*National University of Singapore*). Assistant Professor. Design of algorithms and architecture for neuromorphic computing; machine learning particularly unsupervised learning using spiking neural networks; in-memory computing using non-volatile memories

Bruce A. Eisenstein, PhD (*University of Pennsylvania*) *Vice Dean, College of Engineering; Arthur J. Rowland Professor*. Professor. Pattern recognition; estimation; decision theory.

Adam K. Fontecchio, PhD (*Brown University*) *Director, Center for the Advancement of STEM Teaching and Learning Excellence (CASTLE)*. Professor. Electro-optics; remote sensing; active optical elements; liquid crystal devices.

Gary Friedman, PhD (*University of Maryland-College Park*) *Associate Department Head for Graduate Affairs*. Professor. Biological and biomedical applications of nanoscale magnetic systems.

Allon Guez, PhD (*University of Florida*). Professor. Intelligent control systems; robotics, biomedical, automation and manufacturing; business systems engineering.

Peter R. Herczfeld, PhD (*University of Minnesota*) *Lester A. Kraus Professor/Director, Center for Microwave/Lightwave Engineering*. Professor. Lightwave technology; microwaves; millimeter waves; fiberoptic and integrated optic devices.

Leonid Hrebien, PhD (*Drexel University*). Professor. Tissue excitability; acceleration effects on physiology; bioinformatics.

Nagarajan Kandasamy, PhD (*University of Michigan*) *Associate Department Head for Undergraduate Affairs*. Professor. Embedded systems, self-managing systems, reliable and fault-tolerant computing, distributed systems, computer architecture, and testing and verification of digital systems.

Youngmoo Kim, PhD (*MIT*). Professor. Audio and music signal processing, voice analysis and synthesis, music information retrieval, machine learning.

Fei Lu, PhD (*University of Michigan-Ann Arbor*). Assistant Professor. Power electronics.

Karen Miu, PhD (*Cornell University*). Professor. Power systems; distribution networks; distribution automation; optimization; system analysis.

Bahram Nabet, PhD (*University of Washington*) *Associate Dean for Special Projects, College of Engineering; Electrical and Computer Engineering*. Professor. Optoelectronics; fabrication and modeling; fiber optic devices; nanoelectronics; nanowires.

Prawat Nagvajara, Ph.D. (*Boston University*). Associate Professor. System on a chip; embedded systems; power grid computation; testing of computer hardware; fault-tolerant computing; VLSI systems; error control coding.

Dagmar Niebur, PhD (*Swiss Federal Institute of Technology*). Associate Professor. Intelligent systems; dynamical systems; power system monitoring and control.

Christopher Peters, PhD (*University of Michigan-Ann Arbor*). Teaching Professor. Nuclear reactor design; ionizing radiation detection; nuclear forensics; power plant reliability and risk analysis; naval/marine power and propulsion; directed energy/high power microwaves; nonstationary signal processing; radar; electronic survivability/susceptibility to harsh environments; electronic warfare

Gail L. Rosen, PhD (*Georgia Institute of Technology*). Associate Professor. Signal processing, signal processing for biological analysis and modeling, bio-inspired designs, source localization and tracking.

Ionnis Savidis, PhD (*University of Rochester*). Assistant Professor. Analysis, modeling, and design methodologies for high performance digital and mixed-signal integrated circuits; Emerging integrated circuit technologies; Electrical and thermal modeling and characterization, signal and power integrity, and power and clock delivery for 3-D IC technologies

Kevin J. Scoles, PhD (*Dartmouth College*). Associate Professor. Microelectronics; electric vehicles; solar energy; biomedical electronics.

Harish Sethu, PhD (*Lehigh University*). Associate Professor. Protocols, architectures and algorithms in computer networks; computer security; mobile ad hoc networks; large-scale complex adaptive networks and systems.

James Shackleford, PhD (*Drexel University*). Assistant Professor. Medical image processing, high performance computing, embedded systems, computer vision, machine learning

P. Mohana Shankar, PhD (*Indian Institute of Technology*) *Allen Rothwarf Professor of Electrical and Computer Engineering*. Professor. Wireless communications; biomedical ultrasonics; fiberoptic bio-sensors.

Matthew Stamm, PhD (*University of Maryland-College Park*). Assistant Professor. Information Security; multimedia forensics and anti-forensics; information verification; adversarial dynamics; signal processing

Baris Taskin, PhD (*University of Pittsburgh*). Professor. Electronic Design Automation (EDA) of VLSI Circuits; high-performance circuits; resonant clocking; integrated circuit (IC) physical design; nanoarchitectures; and wireless IC interconnects

John Walsh, PhD (*Cornell University*). Associate Professor. Bounding the region of entropic vectors and its implications for the limits of communication networks, big data distributed storage systems, and graphical model based machine learning; efficient computation and analysis of rate regions for network coding and distributed storage: code construction, polyhedral computation, enumeration, hierarchy, and symmetry

Steven Weber, PhD (*University of Texas-Austin Interim Department Head*). Professor. Mathematical modeling of computer and communication networks, specifically streaming multimedia and ad hoc networks.

Jaudelice Cavalcante de Oliveira, PhD (*Georgia Institute of Technology*). Associate Professor. Software-defined networking; social and economic networks; network security; design and analysis of protocols, algorithms and architectures in computer networks, particularly solutions for the Internet of Things

Construction Management

Major: Construction Management

Degree Awarded: Bachelor of Science in Construction Management (BSCMG)

Calendar Type: Quarter

Total Credit Hours: 184.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 52.2001

Standard Occupational Classification (SOC) code: 11-9021

About the Program

Construction management is a dynamic profession that is a combination of art and science. While an understanding of the technical aspects of construction is extremely important, it is also essential that construction professionals have knowledge of the business and management aspects of the profession. While construction has traditionally been a very conservative industry, the increasing rate of technological development and competition in the industry serves to accelerate the development of new construction methods, equipment, materials, and management

techniques. As a result of these forces, there is an increasing need for innovative and professionally competent construction professionals.

The Construction Management major prepares students for all phases of operation and management of the construction organization including cost estimating, project scheduling, and planning. Students are able to choose from a wide range of subjects in the social sciences and humanities to satisfy electives in the liberal arts and free elective requirements. Pursuing part-time, degree completion on average takes six years.

Students in Drexel's Construction Management program receive broad academic, technical, business, and construction management courses that are designed to produce well-rounded construction professionals. Students interested in extending their construction management studies into real estate development should consider the concentration in real estate. This concentration in real estate is designed for students to attain the knowledge and skills required to create and maintain built environments for living, working and entertainment purposes, as well as to explore issues in the real estate development process and the industry as a whole.

Program Delivery Options

Program delivery options for the Construction Management program include:

- A traditional 5-year with co-op
- 4-year with one co-op
- A part-time study option

Additional Information

For additional information, visit the Construction Management (<http://drexel.edu/engmgmt/cmgt>) website or contact:

Free Electives		9.0
Total Credits		186.0

* Students may choose another construction elective but the permission of the Program is required.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are

advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

Term 1		Credits
CMGT 101	Introduction to Construction Management	3.0
CMGT 161	Building Materials and Construction Methods I	3.0
ENGR 101	Engineering Design Laboratory I	2.0

Total Credit: 186.0

* See degree requirements (p.).

Real Estate Concentration

The concentration in real estate provides students with training in issues such as project finance, real estate as investment, design and construction, operations, development law, environmental remediation, public policy, market analysis, and architecture. For this specialization, students take the same Construction Management (CMGT) core requirements, replacing some electives with the concentration-specific courses.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Career Opportunities

The graduates of the construction management program have secured positions as project managers, estimators, schedulers, and field superintendents for general contractors, subcontractors, and construction managers. Many are employed as owner representatives working for architectural firms, consulting engineering firms, commercial companies and institutions that have needs for building or other construction projects. Some have risen to executive positions within companies while others own their own firms. Graduates have also returned to the program after obtaining positions in the field to teach and share expertise.

The College of Engineering offers a Bachelor of Science in Construction Management as well as a Certificate Program in Construction Management. Depending on student goals, each option provides a strong educational foundation for successful performance and/or entrance into the construction industry.

Employers

Some of the companies that have hired Drexel students as co-op or full-time employees:

- Gilbane Building Company
- L.F. Driscoll Construction Company
- Allan Myers
- Pennoni Associates
- Brandywine Realty Trust
- Turner Construction Company
- Intech Construction Managers
- Urban Engineers, Inc.

Potential Careers

Construction Manager. Coordinates a venture from its initial development through final construction. Develops a schedule and ensures the project

is completed on time and within budget. Obtains necessary licenses and permits and oversees the progress of the project.

Cost Estimator. Prepares information about costs that are necessary for a business to bid on a contract or to determine the profitability of a proposed product. Assembles information about factors that can influence costs such as materials, labor, location, and special machinery requirements, including computer hardware and software.

Project Manager. Develops requirements, budgets, and timetables for a firm's construction plans to ensure that the projects are successful. Determines the tasks to complete, assigns responsibilities to team members, and sees the project through from conception to completion.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more information on career opportunities.

Minor in Construction Management

Students in civil engineering, architectural engineering and architecture may select to pursue construction management as a minor area of study. Because construction is inherently related to design in these disciplines, the construction management minor can be a natural extension of each field of study.

The requirements for the minor include:

- Completion of a minimum of 24.0 credits.
- Courses used to fulfill general education requirements may not be counted toward an academic minor.
- Up to nine credits earned within the student's major may be counted toward the minor with minor department approval.
- Prerequisite courses may be counted toward the minor if recommended by the minor department.

Required Courses

CMGT 161	Building Materials and Construction Methods I	3.0
CMGT 162	Building Materials and Construction Methods II	3.0
CMGT 361	Contracts And Specifications I	3.0
CMGT 362	Contracts and Specifications II	3.0
CMGT 363	Estimating I	3.0
CMGT 467	Techniques of Project Control	4.0
Select two of the following: *		6.0
CMGT 261	Construction Safety	
CMGT 263	Understanding Construction Drawings	
CMGT 364	Estimating II	
CMGT 385	Selling and Negotiation Techniques in Construction	
CMGT 461	Construction Project & Company Management	
CMGT 463	Value Engineering	

* Choice of electives must be approved by the department based on the student's major field and prior experience.

Certain courses within the student's major may also be used to meet the minor requirements. These include:

ARCH 261	Environmental Systems I	3.0
ARCH 262	Environmental Systems II	3.0
CIVE 240 [WI]	Engineering Economic Analysis	3.0
ARCH 161	Architectural Construction *	3.0
Total Credits		12.0

* ARCH 161 can be substituted for CMGT 161 for Architects. An elective may be substituted for CMGT 162.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Construction Management Faculty

Robert Beard, PhD (*Georgia Institute of Technology*). Associate Clinical Professor. Project and Program Management; Entrepreneurship in design and construction; Integrated project delivery systems; History of engineering and construction; Sustainable design and construction.

Douglas Carney, MBA, AIA (*Eastern University*). Clinical Professor. Architecture; Contract management; Master planning; Site analysis; Feasibility and zoning issues; Space needs and program development; Code analysis and compliance studies; project scheduling.

Charles Cook, PhD (*New York University*). Assistant Clinical Professor. Construction management; project management; leadership and teambuilding; oral and written communication.

Christine M. Fiori, PhD (*Drexel University*) *Program Director*. Clinical Professor. Improving the delivery of safety education in construction curriculum; Ancient construction techniques; Design and construction in developing countries; Leadership in construction; Workforce development

Kenneth S. Sands, PhD (*Virginia Tech*). Associate Clinical Professor. Workforce development and lifelong learning; ethics and construction education; transformative safety leadership for construction education; sustainable facilities and infrastructure.

Richard Sievert, PhD (*Northwestern University*). Associate Clinical Professor. Project management and construction management; value engineering; cost reduction and waste minimization; facilities planning and management; marketing and selling professional services; quality management, engineering and construction business administration.

Electrical Engineering

Major: Electrical Engineering

Degree Awarded: Bachelor of Science in Electrical Engineering (BSEE)
Calendar Type: Quarter

Total Credit Hours: 192.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 14.1001

Standard Occupational Classification (SOC) code: 17-2071

About the Program

The electrical engineering major emphasizes the fundamentals of electrical engineering, hands-on learning, and flexibility in course selection to satisfy diverse career goals. Students choose one or more areas of study beginning in their pre-junior year.

State-of-the-art interdisciplinary courses have been developed to prepare the Drexel engineer for the technical challenges and the business atmosphere of the 21st century. Strong emphasis is given to the role of the engineer in the global competitive economy, and to the need to work closely with experts and practitioners in many fields.

Students can choose courses in various areas of study, including telecommunications, digital signal processing, electronics, power and systems and control.

Mission Statement

The ECE Department at Drexel University serves the public and the university community by providing superior career-integrated education in electrical and computer engineering; by conducting research in these fields, to generate new knowledge and technologies; and by promoting among all its constituents professionalism, social responsibility, civic engagement and leadership.

Program Educational Objectives

The Electrical and Computer Engineering Program Educational Objectives are that its alumni in their early years after graduation:

1. Secure positions and continue as valued, creative, dependable, and proficient employees in a wide variety of fields and industries, in particular as electrical and computer engineers;
2. Succeed in graduate and professional studies, such as engineering, science, law, medicine and business;
3. Pursue professional development through lifelong learning opportunities for a successful and rewarding career;
4. Provide leadership in their profession, in their communities, and in the global society;
5. Contribute to their professional disciplines body of knowledge;
6. Function as responsible members of society with an awareness of the social and ethical ramifications of their work.

Student Outcomes

The department's student outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate. These are:

- a) an ability to apply knowledge of mathematics, science, and engineering;
- b) an ability to design and conduct experiments, as well as to analyze and interpret data;

- c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- d) an ability to function on multidisciplinary teams;
- e) ability to identify, formulate, and solve engineering problems;
- f) an understanding of professional and ethical responsibility;
- g) an ability to communicate effectively;
- h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- i) a recognition of the need for, and an ability to engage in life-long learning;
- j) a knowledge of contemporary issues;
- k) an ability to use the techniques, skills, and modern engineering tools necessary for electrical engineering practice.

Areas of Study

Telecommunications and Digital Signal Processing (DSP)

Telecommunications and digital signal processing (DSP) are two of the fastest-growing fields of electrical engineering. The telecommunications and DSP areas of study prepare students for mastery of fundamental and applied knowledge in the theory and the technology of the transmission and processing of information-bearing signals such as voice, audio, data, images, and video. The curriculum includes core courses in electromagnetic propagation, communication devices and media, signal processing, analog and digital communication. Complementary electives can be taken in computers, electronics, control systems, and electric power systems.

Career opportunities include design and development of digital communications systems and telephony, speech recognition systems, fiber-optic networks, digital radio, medical diagnostic image processing, high-definition television, cellular and wireless communications, satellite communications, networked multimedia communications, and personal communication systems.

Electronics

The electronics area of study constitutes the study of electronic and optical semiconductor devices; analog and digital electronic circuits; and generation, transmission, and reception of information both in optical and microwave frequency ranges and guided or free-space conditions.

Career opportunities include jobs in telecommunications (optical, wireless, wired, satellite, and radar), VLSI (analog and digital), aerospace, remote sensing and instrumentation, computer circuitry interface, biomedical instrumentation, semiconductor device fabrication, and transportation.

Power and Systems/Control

Power and Systems/Control has at its core the areas of controls engineering and electric power engineering, the classic core of electrical engineering, and exploits the synergies between these two areas. These areas of study explores subjects such as modeling, analysis and control of dynamic systems including power systems, planning and optimization, electromechanical energy conversion, motor operation and control,

transformers, power electronics, sensors and actuators, and the electrical and economic structure of the power industry. These areas of study offer access to two state-of-the-art laboratories. In the Interconnected Power System Laboratory, students can operate and control a small power system through the fusing of computer software and hardware technology with high-voltage, high-power technology. The Ortlip Systems Laboratory houses various experiments in sensing, feedback, and control. Both laboratories stress the use of modeling software, especially MATLAB, and the integrated use of computers and hardware.

Career opportunities include options ranging from manufacturing, the power industry (generation, transmission, distribution, marketing, and consumption), robotics, and transportation to Wall Street.

Additional Information

The Electrical Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

Additional information about the major is available on the ECE Department website (http://www.ece.drexel.edu/Undergraduate_Programs2.html).

For advising questions, please contact the ECE advisor (<http://drexel.edu/ece/academics/undergrad/advising>).

Degree Requirements

In addition to completing 192.0 credits, students majoring in electrical engineering student must have a 2.0 cumulative overall GPA and a 2.0 cumulative GPA in their Electrical Engineering courses.

General Education/Liberal Studies Requirements

ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
PHIL 315	Engineering Ethics	3.0
UNIV E101	The Drexel Experience	1.0
CIVC 101	Introduction to Civic Engagement	1.0
General Education Courses		18.0

Foundation Requirements

MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 200	Multivariate Calculus	4.0
PHYS 101	Fundamentals of Physics I	4.0
PHYS 102	Fundamentals of Physics II	4.0
PHYS 201	Fundamentals of Physics III	4.0
BIO 141	Essential Biology	4.5
CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
ENGR 121	Computation Lab I	2.0
ENGR 122	Computation Lab II	1.0
ECE 200	Digital Logic Design	4.0
ECE 201	Foundations of Electric Circuits I	4.0
ECE 203	Programming for Engineers	3.0
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 103	Engineering Design Laboratory III	2.0
ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 220	Fundamentals of Materials	4.0
ENGR 231	Linear Engineering Systems	3.0

ENGR 232	Dynamic Engineering Systems	3.0
Sophomore Engineering Elective Options		
Select one of the following:		3.0-4.0
ENGR 210	Introduction to Thermodynamics	
MATH 221	Discrete Mathematics	
Professional Requirements		
ECEL 301 [WI]	Electrical Engineering Laboratory	2.0
ECEL 302	ECE Laboratory II	2.0
ECEL 303	ECE Laboratory III	2.0
ECE 361	Probability for Engineers	4.0
ECES 301	Signals and Systems I	4.0
ECES 303	Signals and Systems II	3.0
ECE 391	Introduction to Engineering Design Methods	1.0
ECE 491 [WI]	Senior Design Project I	2.0
ECE 492 [WI]	Senior Design Project II	2.0
ECE 493	Senior Design Project III	4.0
13 ECE Electives		42.0
Math Elective**		3.0
Free Electives		12.5
Total Credits		192.0-193.0

* General Education Courses (p. 345).

** The math elective is a 3.0-4.5 credit course from MATH at a 200-level or higher. MATH 291 (Complex & Vector Analysis) is recommended for EE majors.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

5 YR UG Co-op Concentration

Term 1		Credits
CHEM 101	General Chemistry I	3.5
COOP 101	Career Management and Professional Development	0.0
ENGR 121	Computation Lab I	2.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
MATH 121	Calculus I	4.0

UNIV E101	The Drexel Experience	1.0
Term Credits		16.5
Term 2		
CHEM 102	General Chemistry II	4.5
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGR 122	Computation Lab II	1.0
ENGR 102	Engineering Design Laboratory II	2.0
MATH 122	Calculus II	4.0
PHYS 101	Fundamentals of Physics I	4.0
CIVC 101	Introduction to Civic Engagement	1.0
Term Credits		19.5
Term 3		
BIO 141	Essential Biology	4.5
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
ENGR 103	Engineering Design Laboratory III	2.0
MATH 200	Multivariate Calculus	4.0
PHYS 102	Fundamentals of Physics II	4.0
Term Credits		17.5
Term 4		
ECE 200	Digital Logic Design	4.0
ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 220	Fundamentals of Materials	4.0
ENGR 231	Linear Engineering Systems	3.0
PHYS 201	Fundamentals of Physics III	4.0
Term Credits		18.0
Term 5		
ECE 201	Foundations of Electric Circuits I	4.0
ECE 203	Programming for Engineers	3.0
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 232	Dynamic Engineering Systems	3.0
Math Elective**		3.0
Term Credits		16.0
Term 6		
ECES 301	Signals and Systems I	4.0
ECE 361	Probability for Engineers	4.0
ECEL 301 [WI]	Electrical Engineering Laboratory	2.0
One ECE Elective*		3.0
Sophomore Engineering Elective*		3.0
Term Credits		16.0
Term 7		
ECES 303	Signals and Systems II	3.0
ECEL 302	ECE Laboratory II	2.0
PHIL 315	Engineering Ethics	3.0
Two ECE Elective*		6.0
Free elective		3.0
Term Credits		17.0
Term 8		
ECEL 303	ECE Laboratory III	2.0
Two ECE Electives*		6.0
General Education elective*		3.0
Free elective		3.0
Term Credits		14.0
Term 9		
ECE 391	Introduction to Engineering Design Methods (Also offered spring term.)	1.0
Two ECE Electives*		6.0
General Education elective*		3.0
Free elective		3.0
Term Credits		13.0
Term 10		
ECE 491 [WI]	Senior Design Project I	2.0

Two ECE Electives*		6.0
Two General Education electives*		6.0
Term Credits		14.0
Term 11		
ECE 492 [WI]	Senior Design Project II	2.0
Two ECE Electives*		7.0
General Education elective*		3.0
Free elective		4.5
Term Credits		16.5
Term 12		
ECE 493	Senior Design Project III	4.0
Two ECE Electives*		7.0
General Education elective*		3.0
Term Credits		14.0

Total Credit: 192.0

* See degree requirements (p. 373).

Co-op/Career Opportunities

Top co-op employers for electrical engineering majors include:

- PJM Interconnection LLC
- Exelon Corporation (PECO)
- Lockheed Martin
- Woodward McCoach, Inc.
- NAVSEA
- EwingCole
- Schweitzer Engineering Laboratories Inc.
- Ametek, Inc.
- SAP America
- Comcast Corporation
- Susquehanna Int'l Group LLP
- L-3 Communications
- Philadelphia Department of Commerce
- Philadelphia Water Department

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) for more detailed information on co-op and post-graduate opportunities.

Drexel University's co-op program has an 80 year history and is one of the oldest and largest co-op programs in the world. Students graduate with 6-18 months of full time employment experience, depending on their choice of a 4-year or 5-year program. The majority of Computer Engineering students in ECE choose the 5-year program and graduate with 18 months of full-time work experience, and often receive a job offer from their third co-op employer or from a connection made from one of their co-op experiences.

Electrical engineers are employed in corporations, government agencies, and other organizations. In their work, these engineers are developers of electrical equipment for digital communications (such as satellite communication, fiber-optic networks, and coding and cryptography), mobile radio, radar and surveillance, process control, robotics, speech processing, aerospace circuitry, power generation and distribution, computer hardware and software, computer networks, sensor technology, counter-crime measures, electronic compatibility, consumer electronics, and related fields.

Graduates are also pursuing advanced studies in electrical and computer engineering, aerospace engineering, and mechanical engineering at such

schools as MIT, Stanford, Princeton, Georgia Institute of Technology, University of California at Berkeley, University of Pennsylvania, and University of Maryland.

The Steinbright Career Development Center had a co-op placement rate of approximately 99% for electrical and computer engineering majors.

A degree in electrical engineering can also serve as an excellent foundation to pursue graduate professional careers in medicine, law, business, and government.

Dual Degrees

Dual Degree Bachelor's Program

With careful planning, students can complete both an Electrical Engineering degree and a Computer Engineering degree in the time usually required to complete one degree. For detailed information the student should contact the ECE advisor (<http://drexel.edu/ece/academics/undergrad/advising>).

Bachelor's/Master's Dual Degree Program

Exceptional students can also pursue a master of science degree in the same period as the bachelor of science.

For more information on these and other options, visit the Department of Electrical and Computer Engineering BS/MS (<http://drexel.edu/ece/academics/undergrad/bs-ms>) page.

Minor in Electrical Engineering

This minor is designed to provide other engineering majors or students from other disciplines an introduction to the wide-ranging content of the electrical engineering major.

Prerequisites

Calculus prerequisites should include MATH 121, MATH 122 and differential equations. Physics requirements are PHYS 101 and PHYS 102. Knowledge of linear algebra is also recommended. Students will have needed to complete ENGR 103 as well as ENGR 231 and ENGR 232 to satisfy the prerequisite requirement for future classes. Courses taken to meet these requirements will not count toward the minor.

Required Courses		
ECE 200	Digital Logic Design	3.0
ECE 201	Foundations of Electric Circuits I	3.0
ECEL 301 [WI]	Electrical Engineering Laboratory	2.0
ECEL 302	ECE Laboratory II	2.0
ECES 301	Signals and Systems I	4.0
ECES 303	Signals and Systems II	3.0
Electives*		9.0
Total Credits		26.0

* Students should choose 9 credits from the 300- and/or 400-level ECE courses. These courses can come from the Computer (ECEC), Electrophysics (ECEE), Electric Power (ECEP), or Systems (ECES) groups. All prerequisites must be satisfied. Students majoring in Computer Engineering and minoring in Electrical Engineering may **only** choose elective courses from the ECEE, ECEP, and ECES course groups.

Additional information

Additional information about this minor is available on the ECE Department website (<http://www.drexel.edu/ece/academics/undergrad/minors>).

For advising questions, please contact the ECE advisor. (<http://drexel.edu/ece/academics/undergrad/advising>)

Facilities

Drexel University and the Electrical and Computer Engineering Department are nationally recognized for a strong history of developing innovative research. Research programs in the ECE Department prepare students for careers in research and development, and aim to endow graduates with the ability to identify, analyze, and address new technical and scientific challenges. The ECE Department is well equipped with state-of-the-art facilities in each of the following ECE Research laboratories:

Research Laboratories at the ECE Department

Adaptive Signal Processing and Information Theory Research Group

The Adaptive Signal Processing and Information Theory Research Group (<http://www.ece.drexel.edu/walsh/aspitrg/home.html>) conducts research in the area of signal processing and information theory. Our main interests are belief/expectation propagation, turbo decoding and composite adaptive system theory. We are currently doing projects on the following topics:

- i) Delay mitigating codes for network coded systems,
- ii) Distributed estimation in sensor networks via expectation propagation,
- iii) Turbo speaker identification,
- iv) Performance and convergence of expectation propagation,
- v) Investigating bounds for SINR performance of autocorrelation based channel shorteners.

Bioimage Laboratory

Uses computer gaming hardware for enhanced and affordable 3-D visualization, along with techniques from information theory and machine learning to combine the exquisite capabilities of the human visual system with computational sensing techniques for analyzing vast quantities of image sequence data.

Data Fusion Laboratory

The Data Fusion Laboratory investigates problems in multisensory detection and estimation, with applications in robotics, digital communications, radar, and target tracking. Among the projects in progress: computationally efficient parallel distributed detection architectures, data fusion for robot navigation, modulation recognition and RF scene analysis in time-varying environments, pattern recognition in biological data sequences and large arrays, and hardware realizations of data fusion architectures for target detection and target tracking.

Drexel Network Modeling Laboratory

The Drexel Network Modeling Laboratory investigates problems in the mathematical modeling of communication networks, with specific focus on wireless ad hoc networks, wireless sensor networks, and supporting guaranteed delivery service models on best effort and multipath routed networks. Typical methodologies employed in our research include mathematical modeling, computer simulation, and performance

optimization, often with the end goal of obtaining meaningful insights into network design principles and fundamental performance tradeoffs.

Drexel Power-Aware Computing Laboratory

The Power-Aware Computing Lab (<http://dpac.ece.drexel.edu>) investigates methods to increase energy efficiency across the boundaries of circuits, architecture, and systems. Our recent accomplishments include the Sigil profiling tool, scalable modeling infrastructure for accelerator implementations, microarchitecture-aware VDD gating algorithms, an accelerator architecture for ultrasound imaging, evaluation of hardware reference counting, hardware and operating system support for power-agile computing, and memory systems for accelerator-based architectures.

Drexel University Nuclear Engineering Education Laboratory

The field of nuclear engineering encompasses a wide spectrum of occupations, including nuclear reactor design, medical imaging, homeland security, and oil exploration. The Drexel University Nuclear Engineering Education Laboratory (DUNEEL) provides fundamental hands on understanding for power plant design and radiation detection and analysis. Software based study for power plant design, as well as physical laboratory equipment for radiation detection, strengthen the underlying concepts used in nuclear engineering such that the student will comprehend and appreciate the basic concepts and terminology used in various nuclear engineering professions. Additionally, students use the laboratory to develop methods for delivering remote, live time radiation detection and analysis. The goal of DUNEEL is to prepare students for potential employment in the nuclear engineering arena.

Drexel VLSI Laboratory

The Drexel VLSI Laboratory (http://ece.drexel.edu/faculty/taskin/wiki/visilab/index.php/Main_Page) investigates problems in the design, analysis, optimization and manufacturing of high performance (low power, high throughput) integrated circuits in contemporary CMOS and emerging technologies. Suited with industrial design tools for integrated circuits, simulation tools and measurement beds, the VLSI group is involved with digital and mixed-signal circuit design to verify the functionality of the discovered novel circuit and physical design principles. The Drexel VLSI laboratory develops design methodologies and automation tools in these areas, particularly in novel clocking techniques, featuring resonant clocking, and interconnects, featuring wireless interconnects.

Drexel Wireless Systems Laboratory

The Drexel Wireless Systems Laboratory (DWSL) contains an extensive suite of equipment for constructing, debugging, and testing prototype wireless communications systems. Major equipment within DWSL includes:

- three software defined radio network testbeds (HYDRA, USRP, and WARP) for rapidly prototyping radio, optical and ultrasonic communications systems,
- a TDK RF anechoic chamber and EMSCAN desktop antenna pattern measurement system,
- a materials printer and printed circuit board milling machine for fabricating conformal antennas and
- wireless protocol conformance testing equipment from Aeroflex.

The lab is also equipped with network analyzers, high speed signal generators, oscilloscopes, and spectrum analyzers as well as several Zigbee development platforms for rapidly prototyping sensor networks.

DWSL personnel also collaborate to create wearable, fabric based transceivers through collaboration with the Shima Seiki Haute Laboratory in the Drexel ExCITE Center. The knitting equipment at Drexel includes sixteen SDS-ONE APEX3 workstations and four state-of-the-art knitting machines. The workstations accurately simulate fabric construction and provide researchers and designers the opportunity to program, create and simulate textile prototypes, import CAD specifications of final products, and produce made-to-measure or mass-produced pieces on Shima Seiki knitting machines. For testing smart textiles for biomedical, DWSL personnel also have collaborators in the Center for Interdisciplinary Clinical Simulation and Practice (CICSP) in the Drexel College of Medicine which provides access to medical mannequin simulators.

Ecological and Evolutionary Signal-processing and Informatics Laboratory

The Ecological and Evolutionary Signal-processing and Informatics Laboratory (EESI) (<http://www.ece.drexel.edu/gailr/EESI>) seeks to solve problems in high-throughput genomics and engineer better solutions for biochemical applications. The lab's primary thrust is to enhance the use of high-throughput DNA sequencing technologies with pattern recognition and signal processing techniques. Applications include assessing the organism content of an environmental sample, recognizing/classifying potential and functional genes, inferring environmental factors and inter-species relationships, and inferring microbial evolutionary relationships from short-read DNA/RNA fragments. The lab also investigates higher-level biological systems such as modeling and controlling chemotaxis, the movement of cells.

Electric Power Engineering Center

This newly established facility makes possible state-of-the-art research in a wide variety of areas, ranging from detailed theoretical model study to experimental investigation in its high voltage laboratories. The mission is to advance and apply scientific and engineering knowledge associated with the generation, transmission, distribution, use, and conservation of electric power. In pursuing these goals, this center works with electric utilities, state and federal agencies, private industries, nonprofit organizations and other universities on a wide spectrum of projects. Research efforts, both theoretical and experimental, focus on the solution of those problems currently faced by the electric power industry. Advanced concepts for electric power generation are also under investigation to ensure that electric power needs will be met at the present and in the future.

Electronic Design Automation Facility

Industrial-grade electronic design automation software suite and integrated design environment for digital, analog and mixed-signal systems development. Field Programmable Gate Array (FPGA) development hardware. Most up-to-date FPGA/embedded system development hardware kits. Printed circuit board production facility. Also see Drexel VLSI Laboratory.

Microwave-Photonics Device Laboratories

The laboratory is equipped with test and measurement equipment for high-speed analog and digital electronics and fiber optic systems. The test equipment includes network analyzers from Agilent (100kHz- 1.3 GHz and 45 Mhz-40 GHz), and Anritsu (45 MHz-6 GHz); spectrum analyzers

from Tektronix, HP, and Agilent with measurement capability of DC to 40 GHz and up to 90 GHz using external mixers; signal generators and communication channel modulators from HP, Rhode-Schwartz, Systron Donner, and Agilent; microwave power meter and sensor heads, assortment of passive and active microwave components up to 40 GHz ; data pattern generator and BER tester up to 3Gb/s; optical spectrum analyzer from Anritsu and power meters from HP; single and multimode fiber optic based optical transmitter and receiver boards covering ITU channels at data rates up to 10Gb/s; passive optical components such as isolator, filter, couplers, optical connectors and fusion splicer; LPKF milling machine for fabrication of printed circuit boards; wire-bonding and Cascade probe stations; Intercontinental test fixtures for testing of MMIC circuits and solid-state transistors; state-of-the-art microwave and electromagnetic CAD packages such as Agilent ADS, ANSYS HFSS, and COMSOL multi-physics module.

Music and Entertainment Technology Laboratory

The Music and Entertainment Technology Laboratory (MET-lab) is devoted to research in digital media technologies that will shape the future of entertainment, especially in the areas of sound and music. We employ digital signal processing and machine learning to pursue novel applications in music information retrieval, music production and processing technology, and new music interfaces. The MET-lab is also heavily involved in outreach programs for K-12 students and hosts the Summer Music Technology program, a one-week learning experience for high school students. Lab facilities include a sound isolation booth for audio and music recording, a digital audio workstation running ProTools, two large multi-touch display interfaces of our own design, and a small computing cluster for distributed processing.

NanoPhotonics+ Lab (<http://drexelnanophotonics.com>)

Our research is primarily in the area of nanophotonics with a focus on the nanoscale interaction of light with matter. Interests include: liquid crystal/polymer composites for gratings, lenses and HOEs; liquid crystal interactions with surfaces and in confined nanospaces; alternative energy generation through novel photon interactions; ink-jet printed conducting materials for RF and photonic applications; and the creation and development of smart textiles technologies including soft interconnects, sensors, and wireless implementations.

Opto-Electro-Mechanical Laboratory

This lab concentrates on the system integration on optics, electronics, and mechanical components and systems, for applications in imaging, communication, and biomedical research. Research areas include: Programmable Imaging with Optical Micro-electrical-mechanical systems (MEMS), in which microscopic mirrors are used to image light into a single photodetector; Pre-Cancerous Detection using White Light Spectroscopy, which performs a cellular size analysis of nuclei in tissue; Free-space Optical Communication using Space Time Coding, which consists of diffused light for computer-to-computer communications, and also tiny lasers and detectors for chip-to-chip communication; Magnetic Particle Locomotion, which showed that particles could swim in a uniform field; and Transparent Antennas using Polymer, which enables antennas to be printed through an ink-jet printer.

Plasma and Magnetism Laboratory

Research is focused on applications of electrical and magnetic technologies to biology and medicine. This includes the subjects of non-thermal atmospheric pressure plasma for medicine, magnetic

manipulation of particles for drug delivery and bio-separation, development of miniature NMR sensors for cellular imaging and carbon nanotube cellular probes.

Power Electronics Research Laboratory

The Power Electronics Research Laboratory (PERL) is involved in circuit and design simulation, device modeling and simulation, and experimental testing and fabrication of power electronic circuits. The research and development activities include electrical terminations, power quality, solar photovoltaic systems, GTO modeling, protection and relay coordination, and solid-state circuit breakers. The analysis tools include EMPT, SPICE, and others, which have been modified to incorporate models of such controllable solid-state switches as SCRs, GTOs, and MOSFETs. These programs have a wide variety and range of modeling capabilities used to model electromagnetics and electromechanical transients ranging from microseconds to seconds in duration. The PERL is a fully equipped laboratory with 42 kVA AC and 70 kVA DC power sources and data acquisition systems, which have the ability to display and store data for detailed analysis. Some of the equipment available is a distribution and HV transformer and three phase rectifiers for power sources and digital oscilloscopes for data measuring and experimental analysis. Some of the recent studies performed by the PERL include static VAR compensators, power quality of motor controllers, solid-state circuit breakers, and power device modeling which have been supported by PECO, GE, Gould, and EPRI.

Testbed for Power-Performance Management of Enterprise Computing Systems

This computing testbed is used to validate techniques and algorithms aimed at managing the performance and power consumption of enterprise computing systems. The testbed comprises a rack of Dell 2950 and Dell 1950 PowerEdge servers, as well as assorted desktop machines, networked via a gigabit switch. Virtualization of this cluster is enabled by VMWare's ESX Server running the Linux RedHat kernel. It also comprises of a rack of ten Apple Xserve machines networked via a gigabit switch. These servers run the OS X Leopard operating systems and have access to a RAID with TBs of total disk capacity.

Electrical Engineering Faculty

Juadelice Cavalcante de Oliveira, PhD (*Georgia Institute of Technology*). Associate Professor. Software-defined networking; social and economic networks; network security; design and analysis of protocols, algorithms and architectures in computer networks, particularly solutions for the Internet of Things

Tom Chmielewski, PhD (*Drexel University*). Teaching Professor. Modeling and simulation of electro-mechanical systems; optimal, adaptive and non-linear control; DC motor control; system identification; kalman filters (smoothing algorithms, tracking); image processing; robot design; biometric technology and design of embedded systems for control applications utilizing MATLAB and SIMULINK

Fernand Cohen, PhD (*Brown University*). Professor. Surface modeling; tissue characterization and modeling; face modeling; recognition and tracking.

Andrew Cohen, PhD (*Rensselaer Polytechnic Institute*). Associate Professor. Image processing; multi-target tracking; statistical pattern recognition and machine learning; algorithmic information theory; 5-D visualization

Kapil Dandekar, PhD (*University of Texas-Austin*) Director of the *Drexel Wireless Systems Laboratory (DWSL)*; Associate Dean of Research, College of Engineering. Professor. Cellular/mobile communications and wireless LAN; smart antenna/MIMO for wireless communications; applied computational electromagnetics; microwave antenna and receiver development; free space optical communication; ultrasonic communication; sensor networks for homeland security; ultrawideband communication.

Afshin Daryoush, ScD (*Drexel University*). Professor. Digital and microwave photonics; nonlinear microwave circuits; RFIC; medical imaging.

Anup Das, PhD (*National University of Singapore*). Assistant Professor. Design of algorithms and architecture for neuromorphic computing; machine learning particularly unsupervised learning using spiking neural networks; in-memory computing using non-volatile memories

Bruce A. Eisenstein, PhD (*University of Pennsylvania*) Vice Dean, College of Engineering; Arthur J. Rowland Professor. Professor. Pattern recognition; estimation; decision theory.

Adam K. Fontecchio, PhD (*Brown University*) Director, Center for the Advancement of STEM Teaching and Learning Excellence (CASTLE). Professor. Electro-optics; remote sensing; active optical elements; liquid crystal devices.

Gary Friedman, PhD (*University of Maryland-College Park*) Associate Department Head for Graduate Affairs. Professor. Biological and biomedical applications of nanoscale magnetic systems.

Allon Guez, PhD (*University of Florida*). Professor. Intelligent control systems; robotics, biomedical, automation and manufacturing; business systems engineering.

Peter R. Herczfeld, PhD (*University of Minnesota*) Lester A. Kraus Professor/Director, Center for Microwave/Lightwave Engineering. Professor. Lightwave technology; microwaves; millimeter waves; fiberoptic and integrated optic devices.

Leonid Hrebien, PhD (*Drexel University*). Professor. Tissue excitability; acceleration effects on physiology; bioinformatics.

Nagarajan Kandasamy, PhD (*University of Michigan*) Associate Department Head for Undergraduate Affairs. Professor. Embedded systems, self-managing systems, reliable and fault-tolerant computing, distributed systems, computer architecture, and testing and verification of digital systems.

Youngmoo Kim, PhD (*MIT*). Professor. Audio and music signal processing, voice analysis and synthesis, music information retrieval, machine learning.

Fei Lu, PhD (*University of Michigan-Ann Arbor*). Assistant Professor. Power electronics.

Karen Miu, PhD (*Cornell University*). Professor. Power systems; distribution networks; distribution automation; optimization; system analysis.

Bahram Nabet, PhD (*University of Washington*) Associate Dean for Special Projects, College of Engineering; Electrical and Computer Engineering. Professor. Optoelectronics; fabrication and modeling; fiber optic devices; nanoelectronics; nanowires.

Prawat Nagvajara, Ph.D. (*Boston University*). Associate Professor. System on a chip; embedded systems; power grid computation; testing of computer hardware; fault-tolerant computing; VLSI systems; error control coding.

Dagmar Niebur, PhD (*Swiss Federal Institute of Technology*). Associate Professor. Intelligent systems; dynamical systems; power system monitoring and control.

Christopher Peters, PhD (*University of Michigan-Ann Arbor*). Teaching Professor. Nuclear reactor design; ionizing radiation detection; nuclear forensics; power plant reliability and risk analysis; naval/marine power and propulsion; directed energy/high power microwaves; nonstationary signal processing; radar; electronic survivability/susceptibility to harsh environments; electronic warfare

Gail L. Rosen, PhD (*Georgia Institute of Technology*). Associate Professor. Signal processing, signal processing for biological analysis and modeling, bio-inspired designs, source localization and tracking.

Ionnis Savidis, PhD (*University of Rochester*). Assistant Professor. Analysis, modeling, and design methodologies for high performance digital and mixed-signal integrated circuits; Emerging integrated circuit technologies; Electrical and thermal modeling and characterization, signal and power integrity, and power and clock delivery for 3-D IC technologies

Kevin J. Scoles, PhD (*Dartmouth College*). Associate Professor. Microelectronics; electric vehicles; solar energy; biomedical electronics.

Harish Sethu, PhD (*Lehigh University*). Associate Professor. Protocols, architectures and algorithms in computer networks; computer security; mobile ad hoc networks; large-scale complex adaptive networks and systems.

James Shackelford, PhD (*Drexel University*). Assistant Professor. Medical image processing, high performance computing, embedded systems, computer vision, machine learning

P. Mohana Shankar, PhD (*Indian Institute of Technology*) *Allen Rothwarf Professor of Electrical and Computer Engineering*. Professor. Wireless communications; biomedical ultrasonics; fiberoptic bio-sensors.

Matthew Stamm, PhD (*University of Maryland-College Park*). Assistant Professor. Information Security; multimedia forensics and anti-forensics; information verification; adversarial dynamics; signal processing

Baris Taskin, PhD (*University of Pittsburgh*). Professor. Electronic Design Automation (EDA) of VLSI Circuits; high-performance circuits; resonant clocking; integrated circuit (IC) physical design; nanoarchitectures; and wireless IC interconnects

John Walsh, PhD (*Cornell University*). Associate Professor. Bounding the region of entropic vectors and its implications for the limits of communication networks, big data distributed storage systems, and graphical model based machine learning; efficient computation and analysis of rate regions for network coding and distributed storage: code construction, polyhedral computation, enumeration, hierarchy, and symmetry

Steven Weber, PhD (*University of Texas-Austin*) *Interim Department Head*. Professor. Mathematical modeling of computer and communication networks, specifically streaming multimedia and ad hoc networks.

Jauelice Cavalcante de Oliveira, PhD (*Georgia Institute of Technology*). Associate Professor. Software-defined networking; social and economic

networks; network security; design and analysis of protocols, algorithms and architectures in computer networks, particularly solutions for the Internet of Things

Engineering

Major: Engineering

Degree Awarded: Bachelor of Science in Engineering (BSE)

Calendar Type: Quarter

Total Credit Hours: 180.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional (CIP) code: 14.0101

Standard Occupational Classification (SOC) code: 17-2199

About the Program

The Bachelor of Science in Engineering major is an interdisciplinary engineering major for students who do not intend to be practicing engineers. Students in the Bachelor of Science in Engineering major combine a rigorous engineering education in the College of Engineering with interdisciplinary studies in fields outside of engineering such as law, medicine, business, entrepreneurship, teaching, international studies, public policy, music, art, environmental studies, and more. The Bachelor of Science in Engineering major provides a strong grounding in the foundations of engineering, in quantitative skills, and in the analytic processes that engineers use in design of practical technology.

Drexel's Bachelor of Science in Engineering major was developed to provide students with educational and professional challenges not available in the traditional engineering curriculum.

Program Objectives

The key objectives of the Bachelor of Science in Engineering program are to provide the student with:

- a strong foundation in science and mathematics
- a foundation of the fundamentals of engineering as a discipline
- a strong grounding in a second cognate area (either technical, pre-professional, cultural, global, or another area worked out between the student and his/her advisor)
- an integrating experience that ties the technical and the cognate areas together. Examples of such experiences may be, but are not limited to, research projects, capstone designs, a public service assignment, etc.

Additional Information

Additional information about the Bachelor of Science in Engineering program is available on the Bachelor of Science in Engineering website.

Degree Requirements

General Education/Liberal Studies Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
UNIV E101	The Drexel Experience	1.0
General Education Requirements		24.0
Free Electives		24.0

Math and Science Requirements

BIO 141	Essential Biology	4.5
CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 200	Multivariate Calculus	4.0
PHYS 101	Fundamentals of Physics I	4.0
PHYS 102	Fundamentals of Physics II	4.0
PHYS 201	Fundamentals of Physics III	4.0
Core Curriculum Requirements		
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 103	Engineering Design Laboratory III	2.0
ENGR 121	Computation Lab I	2.0
ENGR 122	Computation Lab II	1.0
ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 231	Linear Engineering Systems	3.0
ENGR 232	Dynamic Engineering Systems	3.0
Engineering Requirements		
As part of the 45.0 credits of Engineering requirements, students must include a capstone experience (Senior design sequence, research project, etc.)		45.0
Technical Electives		
Students select 18.0 credits of 200-level (or higher) courses in BMES, MATH, CHEM, PHYS, BIO or College of Engineering courses. Advisor approval is required for technical electives.		18.0
Total Credits		180.5

* General Education Requirements. (p. 345)

Sample Plan of Study

5 YR UG Co-op Concentration

Term	Credits	
Term 1		
CHEM 101	General Chemistry I	3.5
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 121	Computation Lab I	2.0
MATH 121	Calculus I	4.0

Term Credits		15.0
Term 12		
Senior Design Project III or Capstone course*		3.0
General Education elective*		3.0
Technical elective		3.0
Free elective		3.0
Term Credits		12.0
Total Credit:		180.5

* See degree requirements (p. 379).

Facilities

From the start of their freshman year, students learn to use the equipment they are likely to need in their careers, such as oscilloscopes, signal generators, amplifiers, and power supplies. These skills make students more useful as co-op employees and give them a competitive advantage in their engineering careers.

Computer/Design Center

The Drexel Curriculum boasts two types of lab experience: Instrumentation and Computer Design. Instrumentation Labs introduce Engineering Majors to the sight, sound, and feel of equipment such as digital multimeters, power supplies, oscilloscopes, and waveform generators. The Computer Labs imbue these pre-engineers with knowledge of software which will be vital in today's work environment.

Engineering Policy Analysis Minor

An increasingly complex, interrelated, and technological society has come to rely on quantitative models of engineering systems to make decisions. While these models are used to make decisions in domains as varied as telecommunications, energy, and environmental quality, a common set of tools for the use of such models in decision making has been developed and forms the basis of an emerging discipline in engineering policy analysis. The practitioners of this discipline need training in mathematical and social science analytic approaches, as well as an understanding of the human factors that inevitably influence real-world policy choices. The minor in engineering policy analysis is designed to introduce students to these topics.

This minor broadens the exposure of engineering students to societal issues and provides an initial introduction to analytic skills which they may use both in engineering practice and as managers (given that many engineers become managers both in the private and public sector). Graduates will have additional training and credentials relevant not only to engineering careers, but also to other fields, including urban planning, management consulting, and public administration.

The program provides a basis for students to evaluate their interest and aptitude for graduate studies in fields such as business administration, public administration, and public policy. For pre-law students, the minor introduces them to analytic methods that inform the establishment and interpretation of laws as a mechanism of public policy implementation.

Applied Quantitative Methods (6.0 credits minimum)

Students select one sequence in probability and statistics consisting of one introductory course and one advanced course. Any introductory course may be combined with advanced course provided that the prerequisites of the advanced course are met.

Introductory Course Options

Select one of the following:	3.0-4.0
CHE 335	Statistics and Design of Experiments
ENGR 361	Statistical Analysis of Engineering Systems
MATH 311	Probability and Statistics I
MEM 361	Engineering Reliability
STAT 205	Statistical Inference I

Advanced Course Options

Select one of the following:	3.0-4.0
MATH 312	Probability and Statistics II
STAT 206	Statistical Inference II
ENVE 750	Data-based Engineering Modeling

Additional Quantitative Method Electives

MATH 300	Numerical Analysis I
----------	----------------------

MATH 305	Introduction to Optimization Theory
MATH 318 [WI]	Mathematical Applications of Statistical Software
OPR 320	Linear Models for Decision Making
OPR 330	Advanced Decision Making and Simulation

Policy Analytic Methods

Students are required to take at least 11.0 credits, including a course on capital investment decision making and a two-course sequence in economics.

CIVE 240 [WI]	Engineering Economic Analysis	3.0
ECON 201	Principles of Microeconomics	4.0
ECON 202	Principles of Macroeconomics	4.0

Additional Policy Analytic Methods Electives

ECON 250	Game Theory and Applications
ECON 301	Microeconomics
ECON 330	Managerial Economics
ECON 334	Public Finance
ECON 351	Resource and Environmental Economics
ENVS 370	Practice of Environmental Economics
ENVE 727	Risk Assessment

Human Factors

Select two of the following:	6.0
ENSS 347	Introduction to Environmental Policy Analysis
PSCI 110	American Government
PSCI 211	American Government II
PSCI 220	Constitutional Law I
PSCI 331	Environmental Politics
PSCI 372	City in United States Political Development
SOC 215	Sociology of Work
SOC 240	Urban Sociology

Elective

One additional credit of coursework is required for the minor. This credit may be any of the three areas above. It is permissible to count 3.0 of the credits from a 4.0 credit class towards fulfilling one of the other areas, thereby using the 4th credit to meet the elective credit requirement.

Total Credits	24.0-26.0
---------------	-----------

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Engineering Technology

Biomedical Engineering Technology Concentration

The biomedical engineering technology concentration focuses on the practice of medical equipment operation and support in the clinical environment. This concentration provides students with the knowledge they need to work in the medical field operating complicated diagnostic and patient care equipment.

During the first three years, students of all concentrations in engineering technology take electrical, mechanical, and industrial courses to get a solid, systematic background in different engineering fields. Students are required to complete general and concentration engineering technology courses, technical electives, and free elective courses that permit students great latitude in tailoring the program of study to match their career goals.

Engineering Technology

Computer Engineering Technology Concentration

The Computer Engineering Technology Concentration provides in-depth knowledge of hardware and software design, development, and maintenance. The curriculum is based on a solid foundation with intensive classroom and laboratory experiences. Students will gain a strong background in cutting-edge development with programming languages currently used in industry. In addition, students will learn industry standard approaches to application software development as well as state-of-the-art problem-solving techniques for developing applications code and firmware including networking / web operations.

The hardware focus of the curriculum is on digital systems design and development. From low-level gate design to high-end microprocessors and current bus standards, students gain an architectural understanding of computer systems. The curriculum includes in-depth design and analysis of combinational logic, sequential logic and state machines, microcontroller systems, microprocessor systems, and state-of-the-art computer technology.

Engineering Technology

Electrical Engineering Technology Concentration

The electrical engineering technology concentration provides an extensive background in electric circuit analysis and electronics. Students are required to study digital and analog electronics, digital computer design, analysis of electric power systems, and renewable energy.

During the first three years, students of all concentrations in engineering technology take electrical, mechanical, and industrial courses to get a solid, systematic background in different engineering fields. Students are required to complete general and concentration engineering technology courses, technical electives, and free elective courses that permit students great latitude in tailoring the program of study to match their career goals.

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Engineering Technology

Major: Engineering Technology

Degree Awarded: Bachelor of Science in Engineering Technology (BSET)

Calendar Type: Quarter

Total Credit Hours: 187.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years); No Co-op (Four years)

Classification of Instructional (CIP) code: 15.0000

Standard Occupational Classification (SOC) code: 17-3029

About the Program

The degree is **Engineering Technology**, the career is **Engineering**.™

Engineering Technology is a branch of engineering that emphasizes practice and the application of theory to solve real-world problems. Although the subject areas of core courses in both engineering technology and traditional engineering are similar, engineering technology courses stress the application of engineering techniques, while traditional engineering courses focus on the development of concepts.

To meet the increasing need for engineering technologists, the BS in Engineering Technology program at Drexel University is organized around a practice-based learning approach to knowledge development. There is extensive use of hands-on laboratory exercises in a majority of the classes. Due to its application-oriented focus, the program is ideally suited for students who plan to pursue careers in a variety of design-, production-, and service-related positions and who learn best by seeing concepts put into practice, "learn by doing." In addition, the program teaches how the different engineering fields work together as a system.

As Engineering Technology students advance, the practice-based approach leads them to skills in the practical and immediate use of technology. *Engineering Technology graduates focus on using current and emerging technologies to solve applied engineering problems that industry faces.*

The state-of-the-art technology at the heart of the practice-based laboratories, allows graduates to be well versed in the application of modern technology to production-level engineering problems. Through real world industry-sponsored capstone projects, internships with local and international companies, students in the Engineering Technology program frequently become closely connected to the regional industry and often end up employed with those local industries.

Concentrations are available in biomedical, electrical, mechanical, and industrial engineering technology:

- Biomedical Engineering Technology (p. 382)
- Computer Engineering Technology (p. 383)
- Electrical Engineering Technology (p. 385)
- Industrial Engineering Technology (p. 388)
- Mechanical Engineering Technology (p. 390)

All students enrolled in the program are required to take general education courses, including mathematics, sciences and general education electives. All concentrations consist of core fundamental courses, technical electives, free electives, and a three-term senior design project, reflecting industrial practices. During their sophomore year, students need to choose one of the four available concentrations.

The program includes full-time and part-time enrollment options. Students pursuing the full-time option can opt for a four-year program with a six-month internship or a five-year program with three six-month co-op cycles.

Engineering technology graduates are uniquely qualified to serve in a variety of functions requiring traditional and nontraditional technological skills. The program also prepares students for graduate study in a variety

of fields, including engineering technology, engineering management, business administration, and health-care.

Mission

The mission of the Engineering Technology program is to provide contemporary students with an academic foundation and practical education in engineering technology through an outstanding curriculum and applied research program, and the participation of our students in one of the nation's most successful cooperative educational programs.

Engineering Technology Program Educational Objectives

The Engineering Technology program produces graduates who:

- apply discipline-specific theory, experiments and real world experience to interpret, analyze and solve current and emerging technical problems;
- communicate clearly and persuasively with technical and non-technical people in oral, written and graphical forms;
- function individually and on teams to design quality systems, components or processes in a timely, responsible and creative manner;
- demonstrate behavior consistent with professional ethics and are cognizant of social concerns as they relate to the practice of engineering technology;
- strive for professional growth and engage in lifelong learning.

Engineering Technology Student Outcomes

The program's outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate. These are:

- an ability to select and apply the knowledge, techniques, skills, and modern tools of the discipline to broadly-defined engineering technology activities;
- an ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies;
- an ability to conduct standard tests and measurements, to conduct, analyze, and interpret experiments, and to apply experimental results to improve processes;
- an ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to program educational objectives;
- an ability to function effectively as a member or leader on a technical team;
- an ability to identify, analyze, and solve broadly-defined engineering technology problems;
- an ability to apply written, oral, and graphical communication in both technical and non-technical environments, and an ability to identify and use appropriate technical literature;
- an understanding of the need for and an ability to engage in self-directed continuing professional development;
- an understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity;
- a knowledge of the impact of engineering technology solutions in a societal and global context;
- a commitment to quality, timeliness, and continuous improvement.

Additional Information

The Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET. (<http://www.abet.org>)

For additional information, please visit the Engineering Technology (<http://www.drexel.edu/engtech>) web page.

Career Opportunities

The Engineering Technology program is designed to meet employers' growing needs for college-educated problem-solvers, created by the technology revolution. Career opportunities in engineering technology are virtually limitless with at least 5,500 companies in the region offering more than 150 current job openings for engineering technologists. As a leading urban university in the Greater Philadelphia region, Drexel's location offers access to a vast number of industries including:

- Defense
- Aerospace
- Power generation
- Public utilities
- Shipbuilding
- Railroad
- Manufacturing
- Environmental
- Chemical
- Pharmaceutical
- Medical care

With the skills developed in this program, students will be able to integrate academic theory and professional practice in order to communicate effectively with engineers from different fields, scientists, the production workforce, marketing professionals, company management, and ultimately the customer. Students may participate in the design, development, testing, and manufacturing of industrial machinery, electric and electronic equipment, medical devices, consumer products, and other equipment.

Engineering technologists can serve in industry in many capacities; some fields include:

- Automation design and process engineering
- Mechanical/production engineering
- Electrical engineering and electronics
- Field engineering
- Systems engineering and management
- Environmental engineering
- Quality control
- Sales and customer service
- Systems/programming
- Testing engineering

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on post-graduate opportunities.

Engineering Technology Faculty

M. Eric Carr, MsCpE (*Drexel University*). Instructor. Computer Engineering, Digital Design, Programmable Devices, Genetic Algorithms, Programming, Additive Manufacturing, Maker Movement.

Yalcin Ertekin, PhD (*University of Missouri-Rolla*). Associate Clinical Professor. High speed machining with micromachining applications, machining process optimization and condition monitoring using multiple sensors, FEA simulation with 3D solid modeling applications, rapid prototyping and reverse engineering, quality and reliability improvement through statistically designed experiments, neural networks and data mining and Taguchi methods, CNC machine tool calibration characterization of cold fastening, clinching and self-pierced riveting processes, non-invasive surgical tool design, student learning enhancement using online simulation tools.

Vladimir Genis, PhD (*Kiev State University, Ukraine*) Department Head, *Engineering Technology*. Professor. Ultrasound wave propagation and scattering, ultrasound imaging, electronic instrumentation, piezoelectric transducers, and engineering education. Designed and developed diagnostic and therapeutic equipment for medical applications and electronic systems and techniques for defense-related and industrial applications.

Irina Ciobanescu Husanu, PhD (*Drexel University*). Assistant Clinical Professor. Microgravity combustion, thermal-fluid science with applications in micro-combustion, fuel cells and research of alternative and green fuels, energy conversion and renewable energy, industrial experience in aerospace engineering areas (theoretical analysis, numerical simulations and experimental investigations), design and testing of propulsion systems, mechanical instrumentation, and developing industrial applications of aircraft engines.

Lunal Khuon, PhD (*Massachusetts Institute of Technology*). Clinical Associate Professor. Radio frequency, analog, and biomedical integrated circuits, biomedical instrumentation, neural interfaces, wireless systems, and engineering education. Research topics include area-efficient and power-efficient integrated circuits, plasmonics, adiabatic circuits, rotary clocks, and medical cyber-physical systems.

Michael Mauk, PhD, PE (*University of Delaware*). Assistant Clinical Professor. Rapid prototyping, microfluidics, alternative energy including solar energy and photovoltaics, semiconductor materials science, nanotechnology.

Engineering Technology

Industrial Engineering Technology Concentration

The industrial engineering technology concentration provides students with knowledge and skills in management and relevant engineering technology disciplines for manufacturing, service, and healthcare enterprises, including automation, logistics, scheduling, simulation, maintainability, and advanced manufacturing processes. Students learn how to co-ordinate, integrate, and optimize people, machines, materials, and energy to improve efficiency, sustainability, quality, and environment.

During the first three years, students of all concentrations in engineering technology take electrical, mechanical, and industrial courses to get a solid, systematic background in different engineering fields. Students are required to complete general and concentration engineering technology

courses, technical electives, and free elective courses that permit students great latitude in tailoring the program of study to match their career goals.

Engineering Technology

Mechanical Engineering Technology Concentration

The mechanical engineering technology concentration stresses on the design, development, testing, and manufacturing of industrial machinery, consumer and biomedical products, CNC (Computer Numerical Control), prototyping machinery, and similar equipment. The concentration includes study in computer graphics, statics, dynamics, stress analysis, fluid dynamics, and Computer Aided Engineering (CAE) tools, including instrumentation and testing procedures of various industrial systems.

During the first three years, students of all concentrations in engineering technology take electrical, mechanical, and industrial courses to get a solid, systematic background in different engineering fields. Students are required to complete general and concentration engineering

technology courses, technical electives, and free elective courses that permit students great latitude in tailoring the program of study to match their career goals.

Mechanical Engineering Technology Concentration

Degree Requirements

Humanities and Social Sciences Requirements

COM 111	Principles of Communication	3.0
COM 230	Techniques of Speaking	3.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Environmental Engineering

Major: Environmental Engineering

Degree Awarded: Bachelor of Science in Environmental Engineering (BSENE)

Calendar Type: Quarter

Total Credit Hours: 193.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 14.1401

Standard Occupational Classification (SOC) code: 17-2081

About the Program

Environmental engineering is concerned with the design of systems, policies and processes to protect human, animal, and plant populations from the effects of adverse environmental factors, including toxic chemicals and wastes, pathogenic bacteria, and global warming, and to design systems that enable a more sustainable society.

Environmental engineers design systems, processes and policies to minimize the effect of human activities on the physical and living environment so that we can all live more healthy and sustainable lives. Environmental engineers work to meet human needs for resources in ways to minimize impact on the ecosystem and adverse effects on health. This field builds on other branches of engineering, especially civil, chemical, and mechanical engineering. It also builds on information from many of the sciences, such as chemistry, physics, hydrology, geology, atmospheric science, and several specializations of biology (ecology, microbiology, and biochemistry). Students who elect to study environmental engineering will become familiar with many of these areas because maintaining and improving the environment requires that problems be evaluated and solutions found using a multidisciplinary approach.

Mission

The mission of the undergraduate environmental engineering program at Drexel University is to graduate outstanding engineers who can identify, evaluate and solve complex environmental problems, and who desire to continue their education on a lifelong basis.

Program Educational Objectives

Environmental engineering graduates will become professionals who analyze, design, construct, manage or operate facilities or systems to protect or enhance the environment of people and other living things, or advance knowledge of the field.

Student Outcomes

The department's student outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate. These are:

- an ability to apply knowledge of mathematics, science, and engineering;
- an ability to design and conduct experiments, as well as to analyze and interpret data;

c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;

d) an ability to function on multidisciplinary teams;

e) an ability to identify, formulate, and solve engineering problems;

f) an understanding of professional and ethical responsibility;

g) an ability to communicate effectively;

h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;

i) a recognition of the need for, and an ability to engage in life-long learning;

j) a knowledge of contemporary issues;

k) an ability to use the techniques, skills, and modern engineering tools necessary for environmental engineering practice.

Additional Information

The Environmental Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

For more information about this major, visit the Civil, Architectural and Environmental Engineering Department (<http://www.cae.drexel.edu>) and the BS in Environmental Engineering (<http://www.drexel.edu/cae/academics/bs-environmental-engineering>) page.

Co-op/Career Opportunities

Environmental Engineers pursue careers with many different industries, such as chemical, pharmaceutical and manufacturing, in groundwater and hazardous waste remediation, in water or wastewater treatment, in air pollution abatement and control, and in mining. Some also join environmental consulting firms which serve several engineering areas. In addition, some students go to graduate school. The breadth of an environmental engineering education prepares the student to follow many career paths.

Co-op Experiences

Past co-op employers of Environmental Engineering majors have included:

- Exelon, Philadelphia, PA
- U.S. Environmental Protection Agency, Philadelphia, PA
- Philadelphia Water Department, Philadelphia, PA
- Sun Co., Philadelphia, PA
- Aqua America, Bryn Mawr, PA
- Fairmount Park Commission, Philadelphia, PA

- Weston Solutions, West Chester, PA
- CDM Consultants, Philadelphia PA and other offices

Dual/Accelerated Degree

The Accelerated Program of the College of Engineering provides opportunities for highly talented and strongly motivated students to progress toward their educational goals essentially at their own pace. Through advanced placement, credit by examination, flexibility of scheduling, and independent study, the program makes it possible to complete the undergraduate curriculum and initiate graduate study in less than the five years required by the standard curriculum.

Bachelor's/Master's Dual Degree Program

Drexel offers a combined BS/MS degree program for our top engineering students who want to obtain both degrees in the same time period as most students obtain a Bachelors degree.

For more information on this program visit the Department's BS/MS Dual Degree Program (<http://www.drexel.edu/cae/academics/bs-environmental-engineering/Accelerated%20and%20Dual%20Degree%20Programs%20CAEE>) page.

Minor in Environmental Engineering

The Environmental Engineering minor focuses on pollution control and is primarily designed to broaden the professional capabilities of engineering students. For example, chemical and mechanical engineers working in process and manufacturing plants will be provided with a better understanding of the natural context of their facilities, better equipped to perform fate and risk analyses, and better able to apply the appropriate technology to control air and water discharges.

While this minor is designed to provide technical knowledge and skills to other engineers, with the appropriate prerequisites students from disciplines other than engineering can also complete this minor.

The minor consists of five required core courses and nine additional credits taken from a list of options.

Prerequisites

The common engineering core curriculum prerequisites are required of all students in the College of Engineering. Students from other colleges will need the appropriate background in physics, mathematics and thermodynamics.

Required Courses

CAEE 203	System Balances and Design in CAEE	3.0
CIVE 330	Hydraulics	4.0
ENVE 300	Introduction to Environmental Engineering	3.0
ENVE 302	Environmental Transport and Kinetics	3.0
ENVS 401	Chemistry of the Environment	3.0
Select three of the following:		8.0
CIVE 430	Hydrology	
ENVE 410	Solid and Hazardous Waste	
ENVE 460	Fundamentals of Air Pollution Control	
ENVE 486	Environmental Engineering Processes Laboratory I	
ENVE 487	Environmental Engineering Processes Laboratory II	
Total Credits		24.0

Facilities

The Department is well equipped with state-of-the-art facilities:

- The department computer labs are in operation: a computer-assisted design (CAD) and computerized instructional lab; and a graduate-level lab (advanced undergraduates can become involved in graduate-level work)
- External labs are used for surveying, building diagnostics, and surface and ground-water measurements
- Molecular microbiology laboratory to conduct PCR and qPCR analyses, as well as classical measurements
- Analytical equipment for chemical contaminants
- Instrumentation for characterization of indoor and outdoor atmospheric aerosols

Civil, Architectural and Environmental Engineering Faculty

Abieyuwa Aghayere, PhD (*University of Alberta*). Professor. Structural design - concrete, steel and wood; structural failure analysis; retrofitting of existing structures; new structural systems and materials; engineering education.

A. Emin Aktan, PhD (*University of Illinois at Urbana-Champaign*) *John Roebling Professor of Infrastructure Studies*. Professor. Structural engineering; health monitoring of large infrastructure systems; infrastructure evaluation; intelligent systems.

Ivan Bartoli, PhD (*University of California, San Diego*). Associate Professor. Non-destructive evaluation and structural health monitoring; dynamic identification, stress wave propagation modeling.

Robert Brehm, PhD (*Drexel University*). Associate Teaching Professor. International infrastructure delivery; response to natural catastrophes; risk assessment and mitigation strategies; project management techniques.

S.C. Jonathan Cheng, PhD (*West Virginia University*). Associate Professor. Soil mechanics; geosynthetics; probabilistic design; landfill containments; engineering education.

Peter DeCarlo, PhD (*University of Colorado*) *Graduate Studies Advisor*. Associate Professor. Outdoor air quality, particulate matter size and composition instrumentation and measurements, source apportionment of ambient particulate matter, climate impacts of particulate matter.

Eugenia Ellis, RA, PhD (*Virginia Polytechnic State University*). Associate Professor. Extended-care facilities design, research on spatial visualization, perception and imagination.

Patricia Gallagher, PhD (*Virginia Polytechnic Institute*). Associate Professor. Soil mechanics; geoenvironmental; ground improvement; sustainability.

Patrick Gurian, PhD (*Carnegie-Mellon University*). Associate Professor. Risk analysis of environmental and infrastructure systems; novel adsorbent materials; environmental standard setting; Bayesian statistical modeling; community outreach and environmental health.

Charles N. Haas, PhD (*University of Illinois-Urbana*) *L. D. Betz Professor and Department Head, Civil, Architectural and Environmental Engineering*. Professor. Control of human exposures to and risk

assessment of pathogenic organisms; water and waste treatment; homeland security.

Ahmad Hamid, PhD (*McMaster University*). Professor. Engineered masonry; seismic behavior, design and retrofit of masonry structures; development of new materials and building systems.

Y. Grace Hsuan, PhD (*Imperial College*). Professor. Director, Center for Family Intervention Science, a multidisciplinary research program focused on developing and testing family centered care models across the life span and in a variety of health care settings. Developer of Attachment Based Family Therapy (ABFT) focused on youth with depression, suicide trauma, and youth in the LGBTQ community. Behavioral health integration into primary care

Joseph B. Hughes, PhD (*University of Iowa*) *Dean of the College of Engineering and Distinguished Professor*. Biological processes and applications of nanotechnology in environmental systems.

L. James Lo, PhD (*University of Texas at Austin*). Assistant Professor. Computational Fluid Dynamics (CFD) and airflow simulation; Indoor Environmental Quality; Building control integration with building information management systems.

Roger Marino, PhD (*Drexel University*). Associate Teaching Professor. Fluid mechanics; water resources; engineering education; land development.

Joseph P. Martin, PhD (*Colorado State University*). Professor. Geotechnical and geoenvironmental engineering; hydrology; transportation; waste management.

James E. Mitchell, MArch (*University of Pennsylvania*) *Associate Dean for Undergraduate Affairs*. Professor. Architectural engineering design; building systems; engineering education.

Franco Montalto, PhD (*Cornell University*). Associate Professor. Effects of built infrastructure on societal water needs, ecohydrologic patterns and processes, ecological restoration, green design, water interventions.

Michael Ryan, PhD (*Drexel University*). Assistant Teaching Professor. Microbial Source Tracking (MST); Quantitative Microbial Risk Assessment (QMRA); Dynamic Engineering Systems Modeling; Molecular Microbial Biology; Environmental Statistics; Engineering Economics; Microbiology

Christopher Sales, PhD (*University of California, Berkeley*). Assistant Professor. Environmental microbiology and biotechnology; biodegradation of environmental contaminants; microbial processes for energy and resource recovery from waste.

Yared Shifferaw, PhD (*Johns Hopkins University*). Assistant Professor. Computational and experimental mechanics; structural stability; optimization; health monitoring and hazard mitigation; sustainable structures; emerging materials; thin-walled structures and metallic structures.

Kurt Sjoblom, PhD (*Massachusetts Institute of Technology*). Assistant Teaching Professor. Laboratory testing of geomaterials, geotechnical engineering, foundation engineering.

Sabrina Spatari, PhD (*University of Toronto*). Associate Professor. Research in industrial ecology; development and application of life cycle assessment (LCA) and material flow analysis (MFA) methods for guiding engineering and policy decisions; specific interest in biomass and bioenergy, biofuels, and urban infrastructure.

Robert Swan Associate Teaching Professor. Geotechnical and Geosynthetic Engineering; soil/geosynthetic interaction and performance; laboratory and field geotechnical/geosynthetic testing.

Michael Waring, PhD (*University of Texas-Austin*) Associate Department Head for Undergraduate Programs; Director of Architectural Engineering Program. Associate Professor. Indoor air quality and building sustainability; indoor particulate matter fate and transport; indoor chemistry and particle formation; secondary impacts of control technologies and strategies.

Jin Wen, PhD (*University of Iowa*). Professor. Architectural engineering; Building Energy Efficiency; Intelligent Building; Net-zero Building; and Indoor Air Quality.

Aspasia Zerva, PhD (*University of Illinois*). Professor. Earthquake engineering; mechanics; seismology; structural reliability; system identification; advanced computational computational methods in structural analysis.

Emeritus Faculty

Harry G. Harris, PhD (*Cornell University*). Professor Emeritus. Structural models; dynamics of structures, plates and shells; industrialized building construction.

Joseph V. Mullin, PhD (*Pennsylvania State University*) Associate Department Head. Professor Emeritus. Structural engineering; failure analysis; experimental stress analysis; construction materials; marine structures.

Richard Weggel, PhD (*University of Illinois*) Samuel S. Baxter Professor Emeritus; Civil and Environmental Engineering. Professor Emeritus. Coastal engineering; hydraulics engineering; hydrology.

Richard Woodring, PhD (*University of Illinois*) Dean of Engineering Emeritus. Professor Emeritus. Structural engineering, reinforced concrete.

Materials Science and Engineering

Major: Materials Science and Engineering

Degree Awarded: Bachelor of Science in Materials Science and Engineering (BSMSE)

Calendar Type: Quarter

Total Credit Hours: 192.0

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 14.1801

Standard Occupational Classification (SOC) code: 17-2131

About the Program

Materials science and engineering (MSE) is concerned with the production, structure, characterization, properties and utilization of metals, ceramics, polymers, composites, electronic, optical, nano- and bio-compatible materials. Materials scientists and engineers play a key role in our increasingly complex technological society by extending the limited supply of materials, improving existing materials, and developing and designing new and superior materials and processes with an awareness of their cost, reliability, safety, and societal/environmental implications.

Students majoring in materials science and engineering (MSE) receive a thorough grounding in the basic sciences and engineering of all materials. All students are required to take course sequences that include materials

processing, thermodynamics and kinetics of materials, and their physical and mechanical behavior, plus laboratories designed to familiarize them with the instruments and advanced techniques used to characterize materials and evaluate their structure, properties and performance.

A number of tracks allow upper-level students to focus their technical electives in areas of specialization, including nanoscale materials and nanotechnology, biomaterials, electronic and photonic materials, soft materials and polymers, advanced materials design and processing, or in a custom track. In addition, several required senior level courses emphasize the role of materials selection and specification in design.

Throughout the senior year, students majoring in materials science and engineering (MSE) work on a capstone senior design project over the course of three terms, with guidance from a faculty advisor and graduate student mentor. Students, generally working in small groups, synthesize information from their courses to arrive at solutions to real-world engineering problems.

Some recent senior design project topics include:

- Low Cost Plasma Cleaner Using Microwave Radiation
- Characterization of γ' as a Function of Thermal Handling
- Grain Boundary Engineering in Alloy 625 Plus
- Effect of Titanium Additions to HSLA-100 Steel
- Synthesis and Characterizations of Metal-Halide Perovskite Containing Micelles
- Materials Discovery Through Machine Learning
- Biomimetic Mineralization of Bone
- Novel Use of Biomimetic Aggrecan to Regenerate and Molecularily Repair Damaged Skin
- 3-D Printing of PLA and Bone Scaffold Mimetic with Microstructural Analyses

Mission Statement

The Department of Materials Science and Engineering (<http://www.drexel.edu/materials>) will provide our BS, MS and PhD graduates with the technical and theoretical knowledge, design capabilities, professionalism, and communications skills necessary for them to excel in leadership positions in academia, industry, and government at the national and international levels.

Vision

Materials science and engineering is a multi-disciplinary field that is at the forefront of all emerging technologies. Advances in the understanding of the process-structure-property-performance relationships of materials will be critical for future developments in energy storage and power generation, biomaterials and nanomaterials. The Department of Materials Science and Engineering at Drexel University is recognized as a leader in these areas through its teaching and scholarly research.

Program Educational Objectives

The educational objectives of the Materials Science and Engineering BS degree program are:

- Materials Science and Engineering program graduates possess the core technical competencies in their field necessary to successfully interface with other engineering disciplines in the workplace.
- At least 30% of Materials Science and Engineering program graduates have progressed towards graduate education.

- Materials Science and Engineering program graduates are leaders in their chosen fields.
- Materials Science and Engineering program graduates are engaged in lifelong learning.
- Materials Science and Engineering program graduates possess written and verbal communication skills appropriate for professional materials engineers and/or scientists.

Student Outcomes

The department's student outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate. These are:

- an ability to apply knowledge of mathematics, science and engineering.
- an ability to design and conduct experiments, as well as to analyze and interpret data.
- an ability to design a material, system, component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.
- an ability to function on multidisciplinary teams.
- an ability to identify, formulate and solve *materials* engineering problems.
- an understanding of professional and ethical responsibility.
- an ability to communicate effectively.
- the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context.
- a recognition of the need for, and an ability to engage in, life-long learning.
- a knowledge of contemporary issues.
- an ability to use the techniques, skills and modern engineering tools necessary for materials science and engineering practice.

Additional Information

The Materials Science and Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

MATE 492	Senior Project Design II	3.0
MATE 493 [WI]	Senior Project Design III	3.0
Total Credits		192.0

* A "Track" is a sequence of 4-5 technical electives (12.0-18.0 credits) with an underlying connection to a specific area of materials science and engineering. With the rapid expansion of the technical and scientific knowledge in the field of materials science and engineering, organizing technical electives into thematic tracks benefits students. Combined with relevant co-op experiences and senior design, the tracks can provide strong evidence of specialization, which will benefit students in future job searches.

Technical electives can be taken during the junior and (mostly during) the senior year. For planning reasons, better coordination with senior design, and to accommodate students with an out-of-cycle schedule (e.g., transfer students), tracks need to be declared by the beginning of the pre-junior year. Students may change their track selection after consulting with their MSE department advisor.

** Non-designated General Education Requirements (p. 345).

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

5 YR UG Co-op Concentration

Term 1		Credits
CHEM 101	General Chemistry I	3.5
COOP 101	Career Management and Professional Development	0.0

Co-op/Career Opportunities

Examples of industries in which materials science and engineering graduates play major roles include: base metals industries; specialist alloys; advanced ceramics; petrochemical; biomaterials and implants; pharmaceuticals; consumer products; electronics and photonics; nanotechnology; power generation; energy conversion, storage and conservation (fuel cells, advanced batteries, supercapacitors and photovoltaics); environmental protection and remediation; information and telecommunications; and transportation (aerospace, automotive, bicycles, railways).

Typical job functions include design and development of new materials, materials selection for specific applications, manufacturing, performance and failure analysis, quality control and testing, research and development, technical management, sales and marketing, teaching, technical services, and technical writing.

Please visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) for more detailed information on co-op and post-graduate opportunities.

Dual/Accelerated Degree Accelerated Degree Program

The Accelerated Degree Program within the College of Engineering provides opportunities for highly talented and motivated students to progress toward their educational goals essentially at their own pace. These options include opportunities for accelerated studies, dual degrees, as well as a combined bachelor's/master's (BS/MS) program. Primarily through advance placement, credit by examination, flexibility of scheduling, and independent study, this "fast-track" makes it possible to complete both the undergraduate curriculum and Master's level graduate studies in the five years required by the standard curriculum.

Dual Degree Bachelor's Programs

With careful planning, students can complete two full degrees in the time usually required to complete one. For detailed information, students should contact their advisors.

Bachelor's/Master's Dual Degree Program

Exceptional students can also pursue a master of science (MS) degree in the same period as the bachelor of science (BS). The combined BS/MS degree in Materials Science and Engineering differs from the standard BS degree in that there are two six-month Co-op periods instead of three, and in the last two years, the necessary graduate courses are taken.

For more information about this program, please visit the Department's BS/MS Dual Degree Program (<http://www.drexel.edu/materials/academics/undergrad/bs-ms>) page.

Minor in Materials Science and Engineering

In addition to the core engineering curriculum and the courses required for majors in chemical, civil, architectural and environmental, electrical, or mechanical engineering, engineering students from other majors can obtain a minor in materials science and engineering by completing 24.0 credits from the courses listed below.

Required Courses

MATE 221	Introduction to Mechanical Behavior of Materials	3.0
Select six (at least 21.0 credits) of the following:		21.0
MATE 214	Introduction to Polymers *	
MATE 240	Thermodynamics of Materials	
MATE 245	Kinetics of Materials	
MATE 280	Advanced Materials Laboratory	
MATE 341	Defects in Solids	
MATE 351	Electronic and Photonic Properties of Materials	
MATE 355	Structure and Characterization of Crystalline Materials	
MATE 370	Mechanical Behavior of Solids **	
MATE 455	Biomedical Materials	
Total Credits		24.0

* MATE 214 requires CHEM 241 as a pre-requisite. If MATE 214 is elected, the credits for CHEM 241 can count toward the 21 credits.

** MATE 370 requires MATH 201 as a pre-requisite. If MATE 370 is elected, the credits for MATH 201 can count toward the 21 credits.

Note: Only one of the prerequisites (either MATH 201 or CHEM 241) can count toward the required 24.0 credits. In other words, both MATE 214 and MATE 370 can be used to fulfill the requirements for the minor, but only the prerequisite for one of those courses will be counted toward

the 24.0 credits required for the minor. Similarly, neither MATH 201 nor CHEM 241 can be counted alone as fulfilling the requirements for this minor. The credits for MATH 201 or CHEM 241 will only count toward the minor when the course(s) is/are taken as a prerequisite for MATE 214 or MATE 370, respectively. Substitution for these courses by equivalent courses offered by other departments and/or institutions may be made with the approval of the Department of Materials Science and Engineering on a case-by-case basis.

At least two-thirds of the content of a substitute course must be the same as that of the course in the list above. It is imperative that students check each course carefully with respect to prerequisites since some may be included in the list above and some may be from other departments. Courses taken outside of the MSE department as prerequisites do not count towards the 24.0 credits required for the minor. They may, however, be used as technical or free electives in students' home departments. Students pursuing the minor in Materials Science and Engineering are also encouraged to select a senior design topic that relates to the field of materials.

Facilities

Biomaterials and Biosurfaces Laboratory

This laboratory contains 10 kN biaxial and 5 kN uniaxial servo-hydraulic mechanical testing machines, a Fluoroscan X-ray system, a microscopic imaging system, a spectra-fluorometer, a table autoclave, centrifuge, vacuum oven, CO₂ incubators, biological safety cabinet, thermostatic water baths, precision balance and ultrasonic sterilizer.

Nanobiomaterials and Cell Engineering Laboratory

This laboratory contains a fume hood with vacuum/gas dual manifold, vacuum pump and rotary evaporator for general organic/polymer synthesis; gel electrophoresis and electroblotting for protein characterization; bath sonicator, glass homogenizer and mini-extruder for nanoparticle preparation; centrifuge; ultrapure water conditioning system; precision balance; pH meter and shaker.

Ceramics Processing Laboratory

This laboratory contains a photo-resist spinner, impedance analyzer, Zeta potential meter, spectrafluorometer, piezoelectric d33 meter, wire-bonder, and laser displacement meter.

Dynamic Characterization Laboratory

This laboratory contains metallographic sample preparation (sectioning, mounting and polishing) facilities; inverted metallograph; microhardness tester; automated electropolishing for bulk and TEM sample preparation; SEM tensile stage for EBSD; Magneto-Optical Kerr Effect (MOKE) magnetometer.

MAX/MXene Ceramics Laboratory

This laboratory contains a vacuum hot-press; a hot isostatic press (HIP) for materials consolidation and synthesis; laser scattering particle size analyzer; creep testers, Ar-filled glove-box, high-speed saw, and assorted high temperature furnaces; metallographic preparation facilities; high temperature closed-loop servo-hydraulic testing machines.

Mechanical Testing Laboratory

This laboratory contains mechanical and closed-loop servo-hydraulic testing machines, hardness testers, Charpy and Izod impact testers, equipment for fatigue testing, metallographic preparation facilities and a rolling mill with twin 6" diameter rolls.

Mesoscale Materials Laboratory

This laboratory contains instrumentation for growth, characterization, device fabrication, and design and simulation of electronic, dielectric, ferroelectric and photonic materials. Resources include physical and chemical vapor deposition and thermal and plasma processing of thin films, including oxides and metals, and semiconductor nanowire growth.

Facilities include pulsed laser deposition, atomic layer deposition, chemical vapor deposition, sublimation growth, and resistive thermal evaporation. Variable-temperature high-vacuum probe station and optical cryostats including high magnetic field, fixed and tunable-wavelength laser sources, several monochromators for luminescence and Raman scattering spectroscopy, scanning electron microscopy with electron beam lithography, and a scanning probe microscope.

Nanomaterials Laboratory

This laboratory contains instrumentation for synthesizing, testing and manipulation of nanomaterials carbon and two dimensional carbides under microscope, high-temperature autoclaves, Sievert's apparatus; glove-boxes; high-temperature vacuum and other furnaces for the synthesis of nano-carbon coatings and nanotubes; tube furnaces for synthesis of carbides and nitrides; potentiostat/galvanostat for electrochemical testings; ultraviolet-visible (UV-VIS) spectrophotometry; Raman spectrometers; Differential scanning calorimeter (DSC) and thermogravimetric analyzer (TGA) up to 1500 °C with mass spectrometer, Zeta potential analyzer; attrition mill, bath and probe sonicators, centrifuges; electro-spinning system for producing nano-fibers.

Oxide Films and Interfaces Laboratory

This laboratory contains an oxide molecular beam epitaxy (MBE) thin film deposition system; physical properties measurement system (PPMS) for electronic transport and magnetometry measurements from 2 – 400K, up to 9 T fields; 2 tube furnaces.

Powder Processing Laboratory

This laboratory contains vee blenders, ball-mills, sieve shaker + sieves for powder classification, several furnaces (including one with controlled atmosphere capability); and a 60-ton Baldwin cold press for powder compaction.

Soft Matter Research and Polymer Processing Laboratories

These laboratories contain computerized thermal analysis facilities including differential scanning calorimeters (DSC), dynamic mechanical analyzer (DMA) and thermo-gravimetric analyzer (TGA); tabletop tensile tester; strip biaxial tensile tester; vacuum evaporator; spin coater; centrifuge; optical microscope with hot stage; liquid crystal tester; microbalance; ultrasonic cleaner; laser holographic fabrication system; polymer injection molder and single screw extruder.

Natural Polymers and Photonics Laboratory

This laboratory contains a spectroscopic ellipsometer for film characterization; high purity liquid chromatography (HPLC) system; refractometer; electro-spinning systems for producing nano-fibers.

X-ray Tomography Laboratory

This laboratory contains a high resolution X-ray micro-tomography instrument and a cluster of computers for 3D microstructure reconstruction; mechanical stage, a positioning stage and a cryostage for *in-situ* testing. For more information on departmental facilities, please visit the Department's Facilities web page (<http://www.materials.drexel.edu/research/facilities>).

Centralized Research Facilities

The Department of Materials Science & Engineering relies on Core Facilities within the University for materials characterization and micro-

and nano-fabrication. These facilities contain a number of state-of-the-art materials characterization instruments, including environmental and variable pressure field-emission scanning electron microscopes (SEMs) with Energy Dispersive Spectroscopy (EDS) for elemental analysis, and Orientation Image Microscopy (OIM) for texture analysis; a Transmission Electron Microscope (TEM) with STEM capability and TEM sample preparation equipment; a dual-beam focused ion beam (FIB) system for nano-characterization and nano fabrication; a femtosecond/terahertz laser Raman spectrometer; visible and ultraviolet Raman micro spectrometers with a total of 7 excitation wavelengths for non-destructive chemical and structural analysis and Surface Enhanced Raman (SERS); a Fourier Transform Infrared (FTIR) spectrometer with a microscope and full array of accessories; a Nanoindenter; an X-ray Photoelectron Spectrometer (XPS)/Electron Spectroscopy for Chemical Analysis (ESCA) system; and X-Ray Diffractometers (XRD), including small angle/wide angle X-Ray scattering (SAX/WAX).

More details of these instruments, information how to access them and instrument usage rates can be found at Drexel University's Centralized Research Facilities (<http://crf.coe.drexel.edu>) web page.

Materials Science and Engineering Faculty

Michel Barsoum, PhD (*Massachusetts Institute of Technology*). Distinguished Professor. Processing and characterization of novel ceramics and ternary compounds, especially the MAX and 2-D MXene phases.

Hao Cheng, PhD (*Northwestern University*). Assistant Professor. Drug delivery, molecular self-assembly, cell-nanomaterial interactions, regenerative medicine and cell membrane engineering.

Yury Gogotsi, PhD (*Kiev Polytechnic Institute*) Director, A. J. Drexel Nanotechnology Institute. Distinguished University & Charles T. and Ruth M. Bach Professor. Nanomaterials; carbon nanotubes; nanodiamond; graphene; MXene; materials for energy storage, supercapacitors, and batteries.

Maher Harb, PhD (*University of Toronto*). Assistant Professor. Solid state physics, ultrafast electron diffraction, time-resolved X-ray diffraction, ultrafast lasers, nanofabrication, nano/microfluidics, instrument development, vacuum technologies.

Richard Knight, PhD (*Loughborough University*) Associate Department Head and Undergraduate Advisor. Teaching Professor. Thermal plasma technology; thermal spray coatings and education; plasma chemistry and synthesis.

Christopher Y. Li, PhD (*University of Akron*). Professor. Soft and hybrid materials for optical, energy, and bio applications; polymeric materials, nanocomposites, structure and properties.

Andrew Magenau, PhD (*University of Southern Mississippi*). Assistant Professor. Structurally complex materials exhibiting unique physical properties designed and fabricated using an assortment of methodologies involving directed self-assembly, externally applied stimuli, structure-function correlation, and applied engineering principles suited for technologies in regenerative medicine, biological interfacing, catalytic, electronic, and optical applications

Michele Marcolongo, PhD, PE (*University of Pennsylvania*) Department Head. Professor. Orthopedic biomaterials; acellular regenerative medicine, biomimetic proteoglycans; hydrogels.

Steven May, PhD (*Northwestern University*). Associate Professor and Graduate Advisor. Synthesis of complex oxide films, superlattices, and devices; materials for energy conversion and storage; magnetic and electronic materials; x-ray and neutron scattering.

Ekaterina Pomerantseva, PhD (*Moscow State University, Russia*). Anne Stevens Assistant Professor. Solid state chemistry; electrochemical characterization, lithium-ion batteries, energy generation and storage; development and characterization of novel nanostructured materials, systems and architectures for batteries, supercapacitors and fuel cells.

Caroline L. Schauer, PhD (*SUNY Stony Brook*). Associate Professor. Polysaccharide thin films and nanofibers.

Wei-Heng Shih, PhD (*Ohio State University*). Professor. Colloidal ceramics and sol-gel processing; piezoelectric biosensors, optoelectronics, and energy harvesting devices; nanocrystalline quantum dots for bioimaging, lighting, and solar cells.

Jonathan E. Spanier, PhD (*Columbia University*) Associate Dean, Strategic Planning, College of Engineering. Professor. Light-matter interactions in electronic materials, including ferroelectric semiconductors, complex oxide thin film science; laser spectroscopy including Raman scattering.

Mitra Taheri, PhD (*Carnegie Mellon University*) Hoeganeas Associate Professor of Metallurgy. Associate Professor. Development of the ultrafast Dynamic Transmission Electron Microscope (DTEM) for the study of laser-induced microstructural evolution/phase transformations in nanostructured materials; use of various *in-situ* Transmission Electron Microscopy techniques.

Christopher Weyant, PhD (*Northwestern University*). Associate Teaching Professor.

Antonios Zavaliangos, PhD (*Massachusetts Institute of Technology*) A.W. Grosvenor Professor. Professor. Constitutive modeling; powder compaction and sintering; pharmaceutical tableting, X-ray tomography.

Emeritus Faculty

Roger D. Corneliussen, PhD (*University of Chicago*). Professor Emeritus. Fracture, blends and alloys, as well as polymer compounding.

Roger D. Doherty, PhD (*Oxford University*). Professor Emeritus. Metallurgical processing; thermo-mechanical treatment.

Ihab L. Kamel, PhD (*University of Maryland*). Professor Emeritus. Nanotechnology, polymers, composites, biomedical applications, and materials-induced changes through plasma and high energy radiation.

Jack Keverian, PhD (*Massachusetts Institute of Technology*). Professor Emeritus. Rapid parts manufacturing, computer integrated manufacturing systems, strip production systems, technical and/or economic modeling, melting and casting systems, recycling systems.

Mechanical Engineering

Major: Mechanical Engineering

Degree Awarded: Bachelor of Science in Mechanical Engineering (BSME)
Calendar Type: Quarter

Total Credit Hours: 193.5

Co-op Options: Three Co-op (Five years); One Co-op (Four years)

Classification of Instructional Programs (CIP) code: 14.1901

Standard Occupational Classification (SOC) code: 17-2141

About the Program

The role of the mechanical engineer in today's society is rapidly changing. Advances in manufacturing, transportation, infrastructure systems, materials, communications, and high-performance computing have introduced new demands, opportunities, and challenges for mechanical engineers. What was once an individual endeavor has now become a team activity. Today's industries require that mechanical engineers possess diverse interdisciplinary skills, a global viewpoint, entrepreneurial and managerial abilities, and an understanding of the forces governing the marketplace.

Traditionally, mechanical engineers have been associated with industries like automotive, transportation, and power generation, and with activities involving the design, analysis, and manufacturing of products useful to society. While today such activities are still dominated by mechanical engineers, the spectrum of opportunities for these professionals has expanded tremendously. For example, mechanical engineers are involved in the design and analysis of biomedical instrumentation, electronic components, smart structures, and advanced materials; they are involved in sophisticated studies of human motion, control of satellites, and the development of more efficient energy-transfer techniques.

Drexel's Department of Mechanical Engineering and Mechanics (http://www.drexel.edu/coe/departments/mech_eng) prides itself on providing its students with a comprehensive program of courses, laboratories, design projects, and co-op experiences. The MEM curriculum is designed to balance technical breadth (provided by a set of fundamental required core courses) with technical depth (provided by optional concentrations that emphasize particular fields within the profession). Thus, the MEM program not only prepares its graduates to become successful mechanical engineers needed in industry and government, but also provides an excellent springboard to pursue graduate studies in medical sciences, law, business, information technology, and any other disciplines where technological and analytical skills play an important role.

Mission Statement

The mission of the Department of Mechanical Engineering and Mechanics of Drexel University is to transfer and acquire knowledge through: (a) the education of engineers for leadership in industry, business, academia, and government; and (b) the establishment of internationally recognized research programs. This mission is accomplished by the delivery of an outstanding curriculum, by the participation of our students in one of the nation's most prestigious co-operative educational programs, and by the scholarly activities of the faculty.

Program Educational Objectives

- Graduates will be successful in careers that deal with the design, simulation and analysis of engineering systems, experimentation and testing, manufacturing, technical services, and research.
- Graduates will enter and complete academic and professional programs in engineering, business, management, law and medicine.
- Graduates will communicate effectively with peers and be successful working with and leading multi-disciplinary and multi-cultural teams.
- Graduates will recognize the global, legal, societal, and ethical contexts of their work.

- Graduates will advance in their careers; for example, assuming increasing levels of responsibility and acquiring professional licensure.

Student Outcomes

The department's student outcomes reflect the skills and abilities that the curriculum is designed to provide to students by the time they graduate.

These are:

- a) an ability to apply knowledge of mathematics, science, and engineering;
- b) an ability to design and conduct experiments, as well as to analyze and interpret data;
- c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- d) an ability to function on multidisciplinary teams;
- e) an ability to identify, formulate, and solve engineering problems;
- f) an understanding of professional and ethical responsibility;
- g) an ability to communicate effectively;
- h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- i) a recognition of the need for, and an ability to engage in life-long learning;
- j) a knowledge of contemporary issues;
- k) an ability to use the techniques, skills, and modern engineering tools necessary for mechanical engineering and mechanics practice.

Additional Information

The Mechanical Engineering and Mechanics program is accredited by the Engineering Accreditation Commission of ABET (<http://www.abet.org>).

Degree Requirements

The mechanical engineering and mechanics curriculum is designed to balance technical breadth (provided by a set of fundamental required core courses) with technical depth (provided by optional concentrations that emphasize particular fields within the profession).

General Education/Liberal Studies Requirements

CIVC 101	Introduction to Civic Engagement	1.0
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0

ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
HIST 285	Technology in Historical Perspective	4.0
PHIL 315	Engineering Ethics	3.0
UNIV E101	The Drexel Experience	1.0
General Education Requirements *		12.0

Mathematics Requirements

MATH 121	Calculus I	4.0
MATH 122	Calculus II	4.0
MATH 200	Multivariate Calculus	4.0

Physics Requirements

PHYS 101	Fundamentals of Physics I	4.0
PHYS 102	Fundamentals of Physics II	4.0
PHYS 201	Fundamentals of Physics III	4.0

Chemistry/Biology Requirements

CHEM 101	General Chemistry I	3.5
CHEM 102	General Chemistry II	4.5
BIO 141	Essential Biology	4.5

Design/Laboratory Requirements

ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 102	Engineering Design Laboratory II	2.0
ENGR 103	Engineering Design Laboratory III	2.0
ENGR 121	Computation Lab I	2.0
ENGR 122	Computation Lab II	1.0

Engineering Requirements

ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 210	Introduction to Thermodynamics	3.0
ENGR 231	Linear Engineering Systems	3.0
ENGR 232	Dynamic Engineering Systems	3.0

Engineering Economics Requirements

CIVE 240 [WI]	Engineering Economic Analysis	3.0
---------------	-------------------------------	-----

Materials Requirements

ENGR 220	Fundamentals of Materials	4.0
----------	---------------------------	-----

Mechanical Requirements

MEM 201	Foundations of Computer Aided Design	3.0
MEM 202	Statics	3.0
MEM 220	Fluid Mechanics I	4.0
MEM 230	Mechanics of Materials I	4.0
MEM 238	Dynamics	4.0
MEM 255	Introduction to Controls	4.0
MEM 310	Thermodynamic Analysis I	4.0
MEM 311	Thermal Fluid Science Laboratory	2.0
MEM 331	Experimental Mechanics I	2.0
MEM 351	Dynamic Systems Laboratory I	2.0
MEM 333	Mechanical Behavior of Materials	3.0
MEM 345	Heat Transfer	4.0
MEM 355	Performance Enhancement of Dynamic Systems	4.0
MEM 361	Engineering Reliability	3.0
MEM 391	Introduction to Engineering Design Methods	1.0
MEM 435	Introduction to Computer-Aided Design and Manufacturing	4.0
MEM 491 [WI]	Senior Design Project I	2.0
MEM 492 [WI]	Senior Design Project II	3.0
MEM 493 [WI]	Senior Design Project III	3.0

Elective Courses

MEM Fundamental Courses **		12.0
MEM Open Electives (Any two MEM courses 300 level or higher.)		6.0-8.0
COE Electives (Any 2 College of Engineering courses, including MEM courses, 300 level or higher.)		6.0-8.0
Math/Science Electives (300+ level MATH, PHYS, BIO, CHEM, CHEC, and ENVS.)		6.0-8.0

Free Electives	6.0-8.0
Total Credits	193.5-201.5

- * General Education Requirements (p. 345).
- ** All MEM students must complete a minimum of four of the MEM Fundamentals courses. (See List Below)

MEM Fundamental Courses

Select four of the following:

MEM 320	Fluid Dynamics I
MEM 330	Mechanics of Materials II
MEM 410	Thermodynamic Analysis II
MEM 417	Introduction to Microfabrication
MEM 423	Mechanics of Vibration
MEM 431	Machine Design I
MEM 437	Manufacturing Process I
MEM 440	Thermal Systems Design
MEM 458	Micro-Based Control Systems I
MEM 459	Control Applications of DSP Microprocessors

Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/writing-intensive-courses>) at the University Writing Program (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program>). (<http://drexel.edu/coas/academics/departments-centers/english-philosophy/university-writing-program/drexel-writing-center>) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

Sample Plan of Study

5 YR UG Co-op Concentration

Term 1		Credits
CHEM 101	General Chemistry I	3.5
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
ENGR 100	Beginning Computer Aided Drafting for Design	1.0
ENGR 101	Engineering Design Laboratory I	2.0
ENGR 121	Computation Lab I	2.0
MATH 121	Calculus I	4.0
UNIV E101	The Drexel Experience	1.0
Term Credits		16.5
Term 2		
CHEM 102	General Chemistry II	4.5
CIVC 101	Introduction to Civic Engagement	1.0
COOP 001	Co-op Essentials	0.0
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0

ENGR 102	Engineering Design Laboratory II	2.0
ENGR 122	Computation Lab II	1.0
MATH 122	Calculus II	4.0
PHYS 101	Fundamentals of Physics I	4.0
Term Credits		19.5
Term 3		
BIO 141	Essential Biology	4.5
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
ENGR 103	Engineering Design Laboratory III	2.0
MATH 200	Multivariate Calculus	4.0
PHYS 102	Fundamentals of Physics II	4.0
Term Credits		17.5
Term 4		
ENGR 201	Evaluation & Presentation of Experimental Data I	3.0
ENGR 220	Fundamentals of Materials	4.0
ENGR 231	Linear Engineering Systems	3.0
MEM 202	Statics	3.0
PHYS 201	Fundamentals of Physics III	4.0
Term Credits		17.0
Term 5		
ENGR 202	Evaluation & Presentation of Experimental Data II	3.0
ENGR 210	Introduction to Thermodynamics	3.0
ENGR 232	Dynamic Engineering Systems	3.0
MEM 201	Foundations of Computer Aided Design	3.0
MEM 238	Dynamics	4.0
Term Credits		16.0
Term 6		
CIVE 240 [WI]	Engineering Economic Analysis	3.0
HIST 285	Technology in Historical Perspective	4.0
MEM 230	Mechanics of Materials I	4.0
MEM 310	Thermodynamic Analysis I	4.0
Free Elective		3.0
Term Credits		18.0
Term 7		
MEM 220	Fluid Mechanics I	4.0
MEM 255	Introduction to Controls	4.0
MEM 331	Experimental Mechanics I	2.0
MEM 333	Mechanical Behavior of Materials	3.0
PHIL 315	Engineering Ethics	3.0
Term Credits		16.0
Term 8		
MEM 311	Thermal Fluid Science Laboratory	2.0
MEM 355	Performance Enhancement of Dynamic Systems	4.0
MEM 435	Introduction to Computer-Aided Design and Manufacturing	4.0
MEM 345	Heat Transfer	4.0
MEM Fundamentals Course*		3.0
Term Credits		17.0
Term 9		
MEM 351	Dynamic Systems Laboratory I	2.0
MEM 361	Engineering Reliability	3.0
MEM 391	Introduction to Engineering Design Methods	1.0
Two MEM Fundamentals Courses*		6.0
General Education Elective*		3.0
Term Credits		15.0
Term 10		
MEM 491 [WI]	Senior Design Project I	2.0
General Education Elective*		3.0
A MEM or College of Engineering Elective (300+)		3.0
MEM Fundamentals Course*		3.0
Math/Science Course*		3.0
Term Credits		14.0

Term 11		
MEM 492 [WI]	Senior Design Project II	3.0
General Education Elective*		3.0
Any 300-level or Higher MEM Elective		3.0
A MEM or College of Engineering Elective (300+)		3.0
Math/Science Course*		3.0
Term Credits		15.0
Term 12		
MEM 493 [WI]	Senior Design Project III	3.0
Free Electives		3.0
Any 300-level or Higher MEM Elective		3.0
General Education Elective*		3.0
Term Credits		12.0

Total Credit: 193.5

* See degree requirements (p. 403).

Co-op/Career Opportunities

Mechanical engineers are employed in a growing number of areas, including aerospace, automotive, biomechanics, computer systems, electronic entertainment, energy, environmental, health care, manufacturing, nuclear technology, and utilities.

Most mechanical engineering graduates begin full-time employment immediately upon graduation. However, there are a number of graduates who go on to pursue master's and/or doctoral degrees in mechanical engineering. The graduate schools that Drexel's mechanical engineers have attended include Harvard, UC Berkeley, and the University of Pennsylvania.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) for more detailed information on co-op and post-graduate opportunities.

Dual/Accelerated Degree

Accelerated Program

The Accelerated Program of the College of Engineering provides opportunities for highly talented and strongly motivated students to progress toward their educational goals essentially at their own pace. These options include opportunities for accelerated studies, dual degrees, a combined bachelor's/master's program as well as participation in the University Honors Program (<http://www.drexel.edu/honors>).

Primarily through advanced placement, credit by examination, flexibility of scheduling, and independent study, the "fast track" makes it possible to complete the undergraduate curriculum and initiate graduate study in less than the five years required by the standard curriculum.

Dual Degree Bachelor's Programs

With careful planning, you can complete two full degrees in the time usually required to complete one. The double major option works best in closely related areas. For detailed information please contact your advisor.

Bachelor's/Master's (BS/MS) Dual Degree Program

Exceptional students can also pursue a master of science degree in the same period as the bachelor of science. For MEM undergraduate

students, the following are the possible graduate programs for the Master's degree in the BS/MS dual degree program:

- Electrical Engineering
- Computer Engineering
- Material Science Engineering
- Mechanical Engineering and Mechanics
- Biomedical Engineering
- Chemical Engineering

High achieving students have the opportunity to apply for the BS/MS program which allows students to complete both a Bachelor's and a Master's in Mechanical Engineering in a 5-year period. Entering students can indicate their interest in this program on their application but must formally apply, be qualified and be accepted into the program after earning 90.0 quarter credits and before reaching 120.0 quarter credits. The threshold requirements to be evaluated for acceptance into the program are:

- Have a minimum 3.30 GPA in all courses completed at Drexel University at time of application.
- Have a minimum of 3.50 GPA in the following seven courses (or their equivalent): *Introduction to Thermodynamics* (ENGR 210); *Fundamentals of Materials* (ENGR 220); *Linear Engineering Systems* (ENGR 231); *Dynamic Engineering Systems* (ENGR 232); *Foundations of Computer Aided Design* (MEM 201); *Statistics* (MEM 202); and *Dynamics* (MEM 238).

Students in the 5COP accelerated program will progress according to the program plan established for the 5-year with co-op undergraduate (or 5COP) program and maintain undergraduate status throughout. The 5COP program includes three 6-month cooperative education cycles.

The College of Engineering offers additional information about the BS/MS program (<http://drexel.edu/engineering/programs/undergraduate/accelerated-programs>) on its website.

Minor in Mechanical Engineering and Mechanics

Any undergraduate student in good standing who has completed more than 30.0 credits at Drexel may apply for the minor in mechanical engineering.

The minor must contain a minimum of 24.0 MEM credits according to the following distribution: (a) 16.0 credits from any four of the 4-credit required course options; (b) at least eight credits from additional required courses or from the laboratory components and recommended electives.

Required Course Options

Select four of the following:		16.0
MEM 220	Fluid Mechanics I	
MEM 230	Mechanics of Materials I	
MEM 238	Dynamics	
MEM 255	Introduction to Controls	
MEM 310	Thermodynamic Analysis I	
MEM 345	Heat Transfer	
MEM 355	Performance Enhancement of Dynamic Systems	
MEM 361	Engineering Reliability	
MEM 435	Introduction to Computer-Aided Design and Manufacturing	

Select three of the following: 8.0

Laboratories

MEM 311	Thermal Fluid Science Laboratory
---------	----------------------------------

MEM 331	Experimental Mechanics I
MEM 351	Dynamic Systems Laboratory I
Recommended Electives	
MEM 320	Fluid Dynamics I
MEM 330	Mechanics of Materials II
MEM 361	Engineering Reliability
MEM 410	Thermodynamic Analysis II
MEM 420	Aerodynamics
MEM 423	Mechanics of Vibration
MEM 425	Aircraft Design & Performance
MEM 430	Advanced Stress Analysis
MEM 437	Manufacturing Process I
MEM 438	Manufacturing Process II
MEM 440	Thermal Systems Design
MEM 453	Aircraft Flight Dynamics & Control I
MEM 455	Introduction to Robotics
MEM 458	Micro-Based Control Systems I
MEM 459	Control Applications of DSP Microprocessors
MEM 462 [WI]	Introduction to Engineering Management
Total Credits	24.0

Facilities

Instructional Laboratories

Mechanical Engineering and Mechanics (MEM) supports instructional laboratories to provide hands-on experience with engineering measurements and to augment classroom instruction in the areas of mechanics, systems and controls, thermal fluid sciences and design and manufacturing along with a college-supported machine shop to aid senior design.

Specialized Laboratories

BIOMEMS Lab and Lab-on-a-Chip

Develops miniature devices for biological and medical applications using microfabrication and microfluidics technologies. Our research projects are highly multidisciplinary in nature and thus require the integration of engineering, science, biology, and medicine. Projects are conducted in close collaboration with biologists and medical doctors. Our research methodology includes design and fabrication of miniature devices, experimental characterization, theoretical analysis and numerical simulation.

Computer-aided Design Lab (CAD)

Provides access to software such as AutoCAD, ANSYS, Abagus, CREO, and SOLIDWORKS either in the 42 workstation lab which is available by card access 24/7, or over any network connection using our CITRIX server. Computations are performed on a virtual pc running at the server, and students can use any smart device for input and display.

Theoretical and Applied Mechanics Group Laboratory (TAMG)

Through experimental, analytical, and computational investigations, TAMG develops insights into the deformation and failure of materials, components and structures in a broad range of time and length scales. To accomplish this goal, TAMG develops procedures that include mechanical behavior characterization coupled with non-destructive testing and modern computational tools. This information is used both for understanding the role of important material scales in the observed bulk behavior and for the formation of laws that can model the response to prescribed loading conditions.

Electrochemical Energy Systems Laboratory (ECSL)

Addresses the research and development needs of emerging alternative energy technologies. ECSL specializes in the design, diagnostics, and characterization of next-generation electrochemical energy conversion and storage systems; particularly fuel cell and battery technology. Current areas of research include polymer electrolyte fuel cells for stationary, portable, and transportation areas of next-generation flow battery technology for intermittent energy storage, load leveling and smart-grid applications. ECSL uses a comprehensive approach, including advanced diagnostics, system design, materials characterization, and computational modeling of electrochemical energy systems.

Dynamic Multifunctional Materials Laboratory (DMML)

Investigates material and/or structural behavior across 10 orders of magnitude in strain rate with temperature and electrical coupling capabilities. The DMML is equipped with novel experimental apparatus designed in house, and a wide range of full-field optical diagnostics, 2W Coherent laser and white light illumination and ultra high-speed imaging (5 Mfps).
