

## Program Notes

The fall concert here at Drexel functions like a “leveling” course in academics: we do a wide range of pieces intended to bring our returning singers back to the peak skill level of the previous spring, while we try to teach our new singers the fundamental skills necessary for the more challenging programs ahead.

This fall, however, we are doing a somewhat more difficult program which features the return of the Main Auditorium pipe organ; two years ago we had to take the organ offline, as two of the wind chests (which powered 2,000 of its 4,000 pipes) had severe leaks. Those wind chests were repaired last spring and we chose our first two pieces on today’s program to show off the beauty and power of the instrument.

The *Prayer of Calvin* was commissioned by Trinity Presbyterian Church of Midland, Texas and took advantage of their first-rate pipe organ. It allows us to feature the lyric capability of ours, as well. This brief piece takes as its text one of the “Leçon au Commentaries” of John Calvin.

Benjamin Britten was one of the great British composers of the 20th century, and is well-known for his operas and his sacred music. Today’s work, the *Festival Te Deum*, demonstrates many of Britten’s favorite techniques: the use of multi-meter, complex meters, and poly-meter (with the organ and the singers in unrelated time signatures for large sections of the piece), along with constantly changing textures from polyphonic to homophonic to unison.

We follow with three spirituals in somewhat different styles: *Gimme yo’ hand* evokes a gospel style with swung eighths throughout; *Joshua fit de battle of Jericho* is a well-known piece, set here by one of the masters of the field, Jester Hairston; and *Great Day* is a complex arrangement with seven fully independent parts in its final section.

The Chamber Singers come on stage next with a variety of madrigals, chansons, and lute songs from the Renaissance period (c. 1600, when Shakespeare was writing his plays).

The Chorus then returns with our largest work of this afternoon’s concert: Vaughan Williams’ *In Windsor Forest*.

Ralph Vaughan Williams (1872–1958) was the preeminent composer of his generation in Great Britain. He was a late bloomer, writing nothing of significance before the age of 40, but once he found his voice, following a stint studying with Maurice Ravel, his work helped revitalize the British musical scene. He wrote in all genres, but is particularly known for his 9 remarkable symphonies, his numerous choral/orchestral works, his songs and several movie scores written in the 1940’s. While some have tried to deride him as a “folk-song” composer, his predominant influence is actually the early Tudor sacred music (Elizabethan period), with its modal harmonies and flexible treatment of rhythms.

One genre in which Vaughan Williams did not have much success was opera (the task of rejuvenating English opera would fall to his younger colleague, Benjamin Britten—who wrote the *Festival Te Deum* on today’s program). It was not, however, for lack of trying. This cantata is excerpted from his first full-length opera, *Sir John in Love*, based on Shakespeare’s *Merry Wives of Windsor*. It obviously didn’t help Vaughan Williams that he was writing an opera to the same libretto as Verdi’s *Falstaff*, one of the great works in the operatic literature. But where Verdi emphasized the comedy, Vaughan Williams tried to emphasize the love story and wound up with some beautiful music and some lovely scenes, but without a lot of dramatic tension or momentum. *In Windsor Forest* contains some of the most beautiful music from the opera, and the missing libretto shouldn’t affect our enjoyment.

## Translation

### **Mon coeur se recommande à vous**

I give you my heart,  
all filled with worries and torment,  
less with resentment than jealousy.

Bid me then, goodbye.

My mouth knows to smile and to speak graciously,  
do not curse now as I am banished from your eyes.

Bid me then, goodbye.

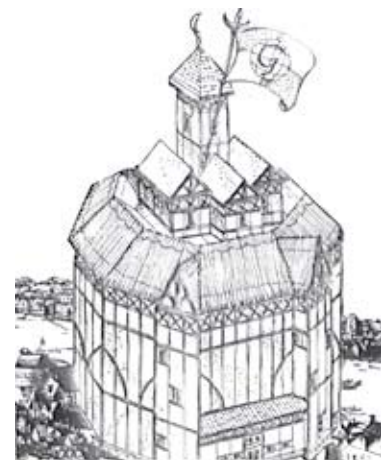

Plan now to join us for
