TenetPreferred
Physician and Hospital Listing
2009 – 2010

We're here for you every step of the way.

Welcome to Keystone Health Plan East HMO

This directory provides a list of primary care physicians (PCPs), specialists, and hospital providers who are part of the panel for your TenetPreferred program. Other available medical providers and facilities, who are part of the Keystone Health Plan East network, are listed in the standard Keystone Health Plan East (KHPE) directory.

Under your TenetPreferred program, you must choose a primary care physician (PCP) to directly provide your health care and refer you to specialists when required. Each family member may choose his or her own PCP, including a pediatrician for children. You have two options in choosing a PCP, and those options are summarized below. Please refer to your benefits materials for details. Choose carefully to maximize your benefits.

- **Lowest out-of-pocket option.** By choosing a PCP from this supplemental directory you will receive the highest level of benefits under your benefits program. Copays are lower, and most provided services are 100 percent covered. If you need specialty or hospitalization care, ask your PCP to refer you to a provider listed in the TenetPreferred directory to maximize your benefits.
- **Highest out-of-pocket option.** Keystone Health Plan East allows you access to all other participating KHPE PCPs, specialists, and hospitals. Your out-of-pocket costs will be highest if you seek care from PCPs, specialists and hospitals that are listed in the standard KHPE HMO directory.

Hospital services

Refer to this supplemental directory for the listing of the TenetPreferred facilities where you can maximize your benefits. You also have access to all KHPE participating hospitals at a higher copay amount. Refer to the list of participating facilities provided in the KHPE directory. If you are experiencing a medical emergency, go directly to the nearest hospital to receive care.

Behavioral health

You must contact Magellan Behavioral Health at 1-800-688-1911 for *all* behavioral health and substance abuse care.

OB/GYN care

With our Direct Access OB/GYNSM program, any KHPE member may visit a participating obstetrician/gynecologist (OB/GYN) or midwife for general OB/GYN care, including maternity care and non-routine OB/GYN care, without a referral. Refer to this supplementary directory for the listing of the TenetPreferred OB/GYNs with whom you can maximize your benefits. You also have access to all KHPE participating OB/GYNs at a higher copay amount.

This TenetPreferred supplemental directory and the standard KHPE directory are updated periodically. It is important to know when you enroll in this plan that services are provided through the plan's delivery system. KHPE reserves the right to add or delete participating physicians, hospitals, and/or other health care providers at any given time. KHPE cannot guarantee the continued participation of any one doctor, hospital or other health care provider. It is to your advantage to verify your provider's network membership before receiving services. For information regarding participating physicians, please call 215-241-3367 within the local calling area or 1-800-ASK-BLUE, outside the local calling area, Monday through Friday, 8 a.m. to 6 p.m. Please refer to your benefits materials for additional information, including the benefits, exclusions, and limitations of your benefits program.

Our HMO reimbursement programs for health care providers are intended to encourage the delivery of quality, cost-effective care for our members. Below is a general description of our HMO reimbursement programs, listed by type of participating health care provider. These programs vary by state. Please note that these programs may change from time to time, and the arrangements with particular providers may be modified as new contracts are negotiated. If after reading this material you have any questions about how your health care provider is compensated, please speak directly to the provider, or contact us.

Professional providers

Primary care physicians. Most primary care physicians (PCPs) are paid in advance for their services, receiving a set dollar amount per member per month for each member selecting that PCP. This is called a capitation payment, and it covers most of the care delivered by the PCP. Services not included under capitation are paid fee-for-service according to the HMO fee schedule. Many Pennsylvania-based PCPs are also eligible to receive additional payments for meeting certain standards for medical quality, patient service, and other performance standards. In Pennsylvania, the PCP Quality Incentive Payment System (QIPS) includes incentives for practices that have extended hours and that electronically submit encounter and referral data, as well as an incentive that is based on the extent to which a PCP prescribes generic drugs (when available) relative to similar PCPs. In addition, the Practice Quality Assessment Score focuses on preventive care and other established clinical interventions.

Specialists. Most specialists are paid on a fee-for-service basis, meaning that payment is made according to our HMO fee schedule for the specific medical services that the specialist performs. Obstetricians are paid global fees that cover most of their professional services for prenatal care and for delivery.

Designated specialty sites. For a few specialty services, PCPs are required to select a designated site to which they refer all of our HMO members for those services. The specialist services for which PCPs must select a designated site vary by state and could include, but are not limited to, radiology, physical therapy, and podiatry. Specialists in designated sites usually are paid a set dollar amount per member per month (capitation) for their services based on the PCPs who have selected them. Before selecting a PCP, HMO members may want to speak to the PCP regarding the designated specialty sites that PCP has chosen.

Institutional providers

Hospitals. For most inpatient medical and surgical covered services, hospitals are paid per diem rates, which are specific amounts paid for each day a member is in the hospital. These rates usually vary according to the intensity of services provided. Some hospitals are also paid case rates, which are set dollar amounts paid for a complete hospital stay related to a specific procedure or diagnosis (e.g., transplants). For most outpatient and emergency covered services and procedures, most hospitals are paid specific rates based on the type of service performed. Hospitals may also be paid a global rate for certain outpatient services (e.g., lab and radiology) that includes both the facility and physician payment. For a few covered services, hospitals are paid based on a percentage of billed charges. Most hospitals are paid through a combination of these payment methods for various covered services.

Some hospitals participate in a quality incentive program. The program provides increased reimbursement to these hospitals when they meet specific quality criteria, including “Patient Safety Measures.” Such patient safety measures are consistent with recommendations by The Leapfrog Group, Joint Commission on Accreditation of Healthcare Organizations, and the Agency for Healthcare Research and Quality and are designed to help reduce medical and medication errors. Other criteria are directed at improved patient outcomes and electronic submissions. This new incentive program is expected to evolve over time.

Skilled nursing homes, rehabilitation hospitals, and other care facilities. Most skilled nursing and other special care facilities are paid per diem rates, which are specific amounts paid for each day a member is in the facility. These amounts may vary according to the intensity of services provided.

Ambulatory surgical centers (ASCs)

Most ASCs are paid specific rates based on the type of service performed. For a few services, some ASCs are paid based on a percentage of billed charges.

Physician group practices and physician associations

Certain physician group practices and independent physician associations (IPAs) employ or contract with individual physicians to provide medical services. These groups are paid as outlined previously. These groups may pay their affiliated physicians a salary and/or provide incentives based on production, quality, service, or other performance standards.

Ancillary service providers

Some ancillary service providers, such as durable medical equipment and home health providers, are paid fee-for-service payments according to our HMO fee schedule for the specific medical services performed. Other ancillary service providers, such as those providing laboratory services, are paid a set dollar amount per member per month (capitation). Capitated ancillary service vendors are responsible for paying their contracted providers and do so on a fee-for-service basis.

Behavioral health/substance abuse

A mental health/substance abuse (“behavioral health”) management company administers most of our behavioral health benefits, provides a network of participating behavioral health care providers, and processes the related claims. The behavioral health management company is paid a set dollar amount per member per month (capitation) for each member and is responsible for paying its contracted providers on a fee-for-service basis. The contract with the behavioral health management company includes performance-based payments related to quality, provider access, service, and other such parameters. A subsidiary of Independence Blue Cross has a less than one percent ownership interest in this behavioral health management company.

PRIMARY CARE PHYSICIANS

You may select a primary care physician (PCP) for yourself and each member of your family. This provider, either a group of physicians or a solo practitioner, will provide or arrange for all medically necessary services. This section is arranged alphabetically by state, county, and then by group practice (participating physicians are listed in each group) within each county. Each entry includes the following information: physician name, practice name, provider number, address, phone number, and type of practice. Please include the physician/practice name and provider number on your Enrollment/Change Form.

OBSTETRICIANS/GYNECOLOGISTS AND MIDWIVES

Our DIRECT ACCESS OB/GYNSM program allows all members to visit a participating obstetrician/gynecologist or midwife for general OB/GYN care, including maternity care and non routine OB/GYN care, without a referral. Members have access to all other participating specialists with a referral from their primary care physician.
