The public only sees the aftermath of success, the actual achievement. The real success is found in the struggles and achievements of hard work every day. Join Kate in this uniquely personal and interactive discussion-based presentation and share your own stories of success in the face of adversity. Light food and refreshments provided.

**Presenter Bio:** Kate Hynes was born and raised in the small rural town of Brookville, Pennsylvania. She started her diving career on her seventh birthday, with former coach Dave Hrovat. After working with him for twelve years she decided to attend Drexel University after being recruited at several other schools. During her time at Drexel she was coached by Larry May, who helped her reach the highest level of excellence in her college athletic career. Hynes was a four-time CAA Diver of the Year and won the CAA Championship on both the 1-meter and 3-meter board in each of her four seasons. Hynes and 24 others were selected as CAA “Silver Stars” – the 25 student-athletes who have had the greatest impact on the conference over the past 25 years – out of more than 50,000 student-athletes, including thousands of all-conference performers, hundreds of All-Americans and numerous athletes who have gone on to compete and excel

at the professional level and in the Olympic Games. In addition to her conference dominance, Hynes was a two-time All-America on the 3-meter board and qualified for the NCAA Championships three times on both boards. Hynes finished her career undefeated in dual meets while establishing pool records at schools throughout the east coast. Hynes stood out in the classroom as well as she collected College Swimming Coaches Association of America Scholar All-America accolades and was a three-time *Philadelphia Inquirer* Women's Swimming & Diving Academic Performer of the Year as well as a three-time Academic All-District honoree. Currently, Kate Hynes is in her fifth and final year at Drexel University. She has completed all four years of her NCAA eligibility, and now works to tutor other student athletes and volunteer coaches with former coach May. After she earns her degree at Drexel, she plans to attend law school in the fall of 2010. **Hynes at 2009 CAA Championships:** <http://drexeldragons.com/documents/2009/3/4/Movie.wmv?path=wswwim>

By looking into the past, and specifically studying the leaders who have shaped some of the greatest civilizations to have ever existed, we can identify the traits necessary to help any organization reach the height of its potential. After a guided tour of the museum, the group will engage in a discussion about the development of human civilization, and how particular organizational styles proved to be more effective during certain time periods. Participants will be asked to identify a single leader highlighted within the museum, and present one unique characteristic of that person that enabled him/her to be successful as a leader.
