

Office of Campus Activities

The following information is based on the Space Allocation Committee’s recommendation for student organization offices for 2008-2009. Originally, 73 student organizations applied for storage and office space. Forty-five student organizations received office space of the 45 possible spaces. Organizations that were denied space will receive one of the 14 storage spaces or 25 lateral filing lockers available. All student organizations have been approved by John E. Cooke, Assistant Dean of Campus Engagement, and Paula King, Executive Director for Business Services.

The 2008-2009 student organization office space locations are as follows:
