

The **Sustainability Coordinator** will (in collaboration with colleagues from within Drexel facilities) develop, coordinate and administer programs and advise policies within the area of sustainability at Drexel University to bridge the gap between innovative ideas and practical implementation.

**Responsibilities:**

Develop, plan, coordinate and implement activities related to Planning Design and Construction at Drexel University.

Coordinate campus efforts with the City of Philadelphia Local Action Plan for Climate Change.

Develop and encourage the use of building sustainable design guide that addresses site, water use, mechanical systems, indoor air quality, materials, resources, and transportation.

Represent Drexel's sustainability programs to the public; attend professional meetings as appropriate; interface with external organizations to ensure cooperative efforts are enhanced and available resources are utilized. These requirements may necessitate the ability to travel and meet regularly outside of business hours.

**Drexel University Sustainability Coordinator:**

**Barbara A.W. Clarke, AIA, LEED AP**
