

## ACADEMIC INTEGRITY

*Through the work of the Quality Committee of the Online Learning Council, a Task Force was formed to address the need to centralize Academic Integrity Resources at the University. The below resources have been identified as critical in the effort to educate students, educate faculty and educate staff to achieve a culture of academic integrity at the University.*

### Technologies and Pedagogies to Help Limit Violations of Academic Integrity in Online Courses

Contact your program or department to learn how your college or school handles online course design. Consult the Information Resources and Technology Department (IRT – <http://www.drexel.edu/irt>) to learn about general resources available for implementation in your courses.

Examples: TurnItIn (verifies originality of submitted assignments)

ProctorU (useful for authentication of students completing assessments)

Please note you may have access to additional resources through your college or school's administration (if applicable). They will also be able to impart more knowledge on effective testing strategies.
