Casey LaDuke collaborated with Thomas Swirsky-Sacchetti, PhD, ABPP, on a workshop hosted by the Pennsylvania Bar Institute entitled "Medical and neuropsychological aspects of identifying and treating TBI: The expert witnesses in a TBI case."

Danielle Brinckman proposed her master's thesis: "An fNIRS study of the effects of medication on cognitive functioning and cerebral hemodynamics in adults with Attention-Deficit/ Hyperactivity Disorder" Date: October 8, 2013.

David Rosen successfully proposed his master's thesis titled: A study of jazz improvisation: The impact of explicit instructions, personality, affect, and domain expertise on creative improvisation amongst jazz pianists.

Emily Haney-Caron proposed her master's thesis, entitled "The relationships between academic achievement and the independent functioning, emotion regulation, and problem solving components of developmental immaturity among adolescent girls in residential juvenile justice facilities," on October 2, 2013.

Greer Raggio completed her dissertation proposed on August 30, 2013.

Julie Present Koller successfully defended her master's thesis and proposed her dissertation.

Kristina Patrick proposed her dissertation in September.

Leah Schumacher proposed her master's thesis entitled "Ecological momentary assessment of responses to dietary lapses among participants in a weight loss program and their relation to subsequent outcomes" proposed in October of 2013.

Lindsey Martin proposed her dissertation on December 12th, 2013: "A pilot study examining the effectiveness of two mindfulness-based approaches for decreasing weight and overall caloric intake."

Elizabeth Nicholls successfully defended her master's thesis.

Megan Murphy successfully proposed her master's thesis.

Sarah Filone successfully proposed her master's thesis in July of 2013.

Personal News

David Rosen performed at Music and Gaming Festival 2014 (MAGfest) with his band Chronicles of Sound.

SPOTLIGHT: First-Year Drexel Psychology Ph.D. Students

Liz Culnan graduated from Drexel's psychology M.S. program in the spring of 2013 and is now a first-year doctoral student under the mentorship of Drs. Jacqueline Kloss and Mary Spiers. Her current research interests include examining the relationships between sleep, neurocognitive and neurobehavioral functioning, and health.

Mona Elgohail received her B.A. in Neuroscience & Behavior from Barnard College. Her clinical and research interests are in women's health psychology, particularly the unique experience of minority women in the context of reproductive functioning.

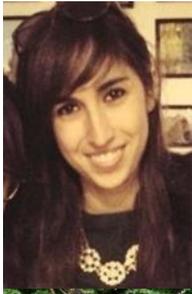

Hallie Espel graduated from the University of Minnesota and works with Dr. Evan Forman and Dr. James Herbert. Her research interests include examining how individual differences influence treatment

response in eating disorders and obesity, and exploring the utility of mindfulness in the treatment of binge eating.

Elizabeth Gale-Bentz received her B.A. in Psychology and African American Studies from the University of Virginia in May 2010. She is a first-year clinical doctoral student in Dr. Naomi Goldstein's lab and is interested in intervention research within juvenile justice settings.
