

COMPUTER ENGINEERING

Computer engineers design smaller, faster, and more reliable computers and digital systems; embed microprocessors in larger systems (e.g. anti-lock brake systems); work in theoretical issues in computing; use object-oriented programming languages; and design large-scale software systems and computer networks. Computer engineers may work in positions that apply computers in control systems, digital signal processing, telecommunications, and power systems, and may design very large-scale integration (VLSI) integrated circuits and systems.

The computer engineering degree program is designed to provide our students with breadth in engineering, the sciences, mathematics, and the humanities, as well as depth in both software and hardware disciplines appropriate for a computer engineer. It embodies the philosophy and style of the Drexel Engineering Curriculum, and will develop the student's design and analytical skills. In combination with the co-op experience, it opens to the student opportunities in engineering practice, advanced training in engineering or in other professions, and an entry to business and administration.

The computer engineering program's courses in ECE are supplemented with courses from the departments of Mathematics and Computer Science. Students gain the depth of knowledge of computer hardware and software essential for the computer engineer.

Students wanting specific information about the major are encouraged to stop by the department office in room 312 of the Bossone Research Center, call the department at 215.895.2241 or visit their website at drexel.edu/ece.

JOB TITLES

Automation Engineer
Cyber Security Analyst
Hardware Development Engineer
Mobile Application Developer

Network Engineer
Programmer/ Analyst
System Verification Engineer
Test Engineer

Employers Who Have Hired Drexel Students Include:

Amazon
AT&T Mobility
Comcast Corporation
Exelon
JP Morgan Chase & Co
Lockheed Martin
Micron Technology, Inc
Microsoft
PJM Interconnection
SAP America
Siemens
Sungard
Susquehanna International Group
Woodward McCoach Inc
UNISYS Corporation

Please refer to drexel.edu/scdc for our most recent co-op salary information.
