Drexel Experience Workshops

Various times between 1:30 – 3:30 p.m.

The Admissions and Financing Process for Freshman Students

When approaching the college search process, it is easy to be overwhelmed by the details. Knowing where to start is the first step, and this workshop will help students and families navigate the application process from submission through decision. Ultimately, students and their families need to look for the “best fit” academic institution.

The Admissions and Financing Process for Transfer Students

When transferring from a community college or another 4-year institution, students and their families want to be sure they are looking for the “best fit” academic institution. Important considerations include program deadlines, pre-requisites, required application materials, transfer of credits, and the university’s application and financial aid review process.

Cooperative Education (Co-op)

The keystone of Drexel’s experiential learning foundation, co-operative education allows students to apply their classroom learning in the real-world while gaining up to 18 months of professional experience on their resume prior to graduation.

Medical School Opportunities

Already considering medical school once you complete your bachelor’s degree? Drexel’s BA/BS/MD accelerated degree program, early assurance option, and pre-health advising program provide students with unique benefits as they pursue careers and educational opportunities within the field of medicine.
