Student is in their final term of study. They have fulfilled all other degree requirements and therefore only enrolled in the credits required to complete their degree. Only students who have applied for their degree through the <u>DrexelOne</u> portal are eligible for this LTFT reason.

Note: Student must enroll in a minimum of one face-to-face course in their final term.

Note: In choosing this reason, the Academic Advisor verifies that there are no impediments to graduation beyond completion of the abovereferenced course-credits.

4. International Break Term

Student enrolled full-time at Drexel for the previous consecutive 3 quarters/2 semesters and would like a break from full-time course load. During an international break term, students may:

- Travel internationally
- Take as many online classes as they choose either within the U.S. or outside the U.S.
- Stay in the U.S. and not study
- Stay in the U.S and study part-time

Note: By selecting this reason, you have confirmed the student has enrolled in the previous 3 quarters/2 semesters as a full-time student. Exception: If the student's program began at Drexel in the winter or spring quarter/semester, they are eligible for their first break term during summer quarter/semester.
