

**All students must register with the Office of Disability Resources before completing this form.*

Students who have been approved for the accommodation of course materials in an alternate format must complete this form in order to utilize that accommodation. Once the request has been submitted to the Office of Disability Resources (ODR), the materials will be provided to students in an electronic format delivered via Drexel email, unless the student requests otherwise or doing so would not provide the student with equal access to their course materials. All students must provide ODR with a proof of purchase for the textbooks being requested, such as a receipt. This is required even if the student brings in their own books to be cut.
